Dear Mr. Xinliang Wu,

The above specified technical equipment has been tested and found to be in accordance with the relevant requirements.

Enclosed you will find the certificate of approval.

If cancellation of the certificate is submitted by November 15 in a given year, no fee will be charged for the following year.

We appreciate your kind support and would like to offer our assistance and continuous services in the future.

Please contact our office for approval of your new products.

With kind regards,

CERTIFICATE

TCO Certified, generation 9

for displays

Brand name: AOC
Model name: 27*2*

Certification date: 2021-12-01
Expiry date: 2023-12-01

Toward sustainable IT products
TCO Certified is the world-leading sustainability certification for IT products. It is an easy-to-use tool that helps you get environmental and social sustainability right. Criteria are mandatory, tough, and apply globally. Compliance is always independently verified.

For more information, visit tcocertified.com.

PHILIPS - 27B1U5601H : 27B1U56

Specifications

ENERGY STAR Unique ID:	2401079
Brand Name:	PHILIPS
Model Name:	27B1U5601H
Model Number:	27B1U56
Product Type:	Monitor
Panel Type:	TFT LCD
Screen Size (inches):	27.0
Screen Area (square inches):	310.47
Native Resolution (pixels):	2560 x 1440
Maximum Luminance (candelas per square meter):	300.0
Total Native Resolution (megapixels):	3.7
Model Features:	Full Network Connectivity,USB-C,Built-In Speakers
Signal or Data Interfaces:	RJ45,Display,HDMI,USB
Power Source:	Ac to dc internal power supply
Monitor Total Energy Consumption at 115 Volts (kWh/yr):	64.02
On Mode Power (watts):	20.36
Markets:	United States, Taiwan, Japan, Canada
Sleep Mode Power (watts):	0.28
Off Mode Power (watts):	0.26
ENERGY STAR Certified:	Yes
ENERGY STAR Most Efficient:	No

Possible test case verdicts:	
- test case does not apply to the test object .....:	N/A
- test object does meet the requirement .....:	P (Pass)
- test object does not meet the requirement .....:	F (Fail)
Testing .....:	
Date of receipt of test item.....:	June 1, 2022
Date (s) of performance of tests .....:	June 1, 2022 ~ August 12, 2022

General remarks:

"(See Enclosure #)" refers to additional information appended to the report.
"(See appended table)" refers to a table appended to the report.

Determination of the test conclusion is based on IEC Guide 115 in consideration of measurement uncertainty.

Throughout this report a ☐ comma / ☒ point is used as the decimal separator.

This report is for the exclusive use of Intertek's Client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this report. Only the Client is authorized to permit copying or distribution of this report and then only in its entirety. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test results in this report are relevant only to the sample tested. This report by itself does not imply that the material, product, or service is or has ever been under an Intertek certification program.

When determining the test conclusion, the Measurement Uncertainty of test has been considered.

The samples submitted from for evaluation are representative of the products from each factory.

Manufacturer's Declaration per sub-clause 4.2.5 of IECEE 02:

The application for obtaining a CB Test Certificate includes more than one factory location and a declaration from the Manufacturer stating that the sample(s) submitted for evaluation is (are) representative of the products from each factory has been provided.....:	☒ **Yes** ☐ **Not applicable**

When differences exist; they shall be identified in the General product information section.

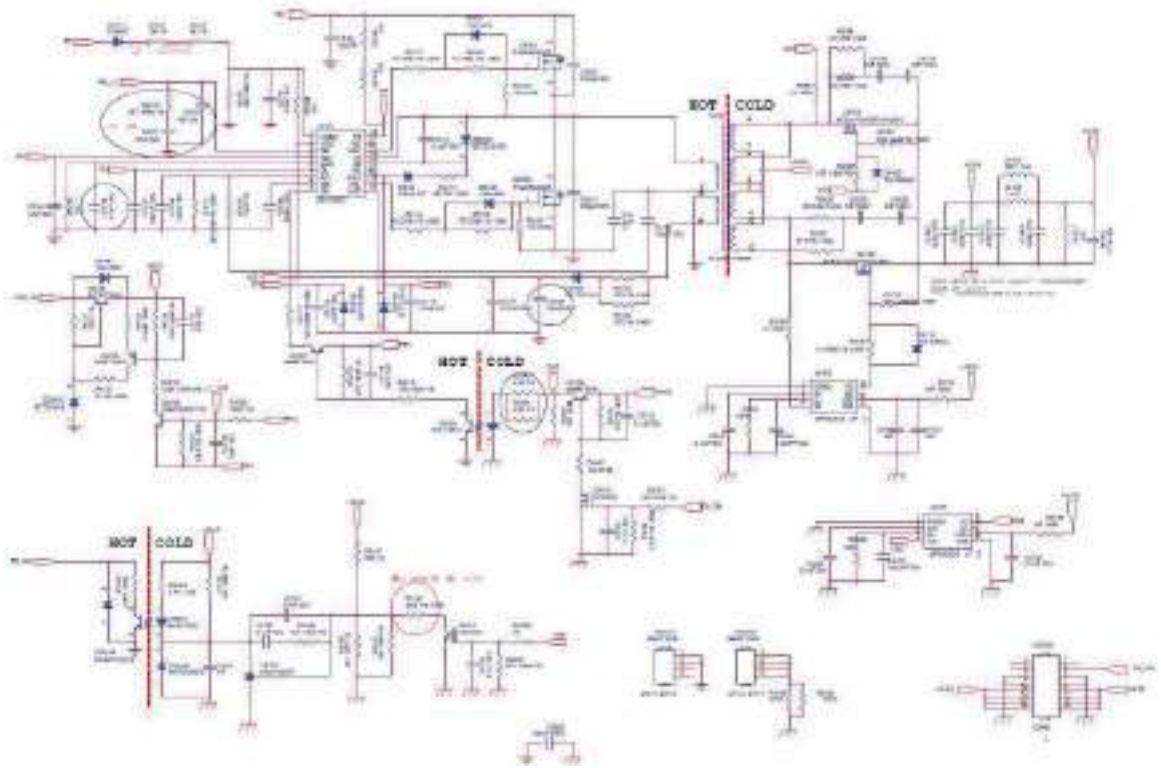
General product information and other remarks:
Product Description – The equipments under test (EUTs) are 27” (68.58cm) LCD monitor with LED backlight, for general office and indoor use. For the product listed in this report, the HDMI function, DP function, USB function and USB C function were treated as optional function. The EUT have the following features: 1. Building-in power supply board 715GB656. 2. The internal metal chassis is considered as fire enclosure, which is covered all parts. 3. The external plastic enclosure is regarded as mechanical and electrical enclosure, made of min. HB material. Maximum recommended ambient (Tma):40℃ In this report, the test record for the alternative component, such as T9102 has been considered the most rigorous result. BS EN 62368-1:2014+A11:2017 is also considered in this report.
Model Differences – All models are identical except for model designation.
Additional application considerations – (Considerations used to test a component or sub-assembly) – N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1522



ENERGY SOURCE IDENTIFICATION AND CLASSIFICATION TABLE:	
(Note 1: Identify the following six (6) energy source forms based on the origin of the energy.) (Note 2: The identified classification e.g., ES2, TS1, should be with respect to its ability to cause pain or injury on the body or its ability to ignite a combustible material. Any energy source can be declared Class 3 as a worse case classification e.g. PS3, ES3.	
Electrically-caused injury (Clause 5): (Note: Identify type of source, list sub-assembly or circuit designation and corresponding energy source classification) Example: +5 V dc input ES1	
Source of electrical energy	**Corresponding classification (ES)**
L/N pin of appliance inlet	ES3
Primary circuit	ES3
DC output of power board	ES1
Electrically-caused fire (Clause 6): (Note: List sub-assembly or circuit designation and corresponding energy source classification) Example: Battery pack (maximum 85 watts): PS2	
Source of power or PIS	**Corresponding classification (PS)**
Primary circuit	PS3
DC output of power board	PS2
Injury caused by hazardous substances (Clause 7) (Note: Specify hazardous chemicals, whether produces ozone or other chemical construction not addressed as part of the component evaluation.) Example: Liquid in filled component Glycol	
Source of hazardous substances	**Corresponding chemical**
--	--
Mechanically-caused injury (Clause 8) (Note: List moving part(s), fan, special installations, etc. & corresponding MS classification based on Table 35.) Example: Wall mount unit MS2	
Source of kinetic/mechanical energy	**Corresponding classification (MS)**
Sharp edges and corners	MS1
Equipment mass	MS2
Wall mount	MS3
Thermal burn injury (Clause 9) (Note: Identify the surface or support, and corresponding energy source classification based on type of part, location, operating temperature and contact time in Table 38.) Example: Hand-held scanner – thermoplastic enclosure TS1	
Source of thermal energy	**Corresponding classification (TS)**
All accessible parts	TS1
Radiation (Clause 10) (Note: List the types of radiation present in the product and the corresponding energy source classification.) Example: DVD – Class 1 Laser Product RS1	
Type of radiation	**Corresponding classification (RS)**
Indicating lights	RS1

OVERVIEW OF EMPLOYED SAFEGUARDS				
Clause	**Possible Hazard**			
5.1	Electrically-caused injury			
Body Part (e.g. Ordinary)	Energy Source (ES3: Primary Filter circuit)	Safeguards		
		Basic	Supplementary	Reinforced (Enclosure)
Ordinary	ES3: L/N pin of appliance	--	--	Bleeding resistors Discharge IC
Ordinary	ES3: Primary circuit	Air gap	Enclosure	Transformer Y-cap Photo coupler
Ordinary	ES1: DC output of power board	--	--	--
6.1	Electrically-caused fire			
Material part (e.g. mouse enclosure)	Energy Source (PS2: 100 Watt circuit)	Safeguards		
		Basic	Supplementary	Reinforced
Combustible materials inside Primary circuit	PS3	Ignition not occur	Fire enclosure	--
Combustible materials supplied by DC output of power board	PS2	Ignition not occur	Mounted on V-1 Min. PCB	--
7.1	Injury caused by hazardous substances			
Body Part (e.g., skilled)	Energy Source (hazardous material)	Safeguards		
		Basic	Supplementary	Reinforced
--	--	--	--	--
8.1	Mechanically-caused injury			
Body Part (e.g. Ordinary)	Energy Source (MS3:High Pressure Lamp)	Safeguards		
		Basic	Supplementary	Reinforced (Enclosure)
Ordinary	MS1: Sharp edges and corners	--	--	--
Ordinary	MS2: Equipment mass	--	--	Compliance with test 8.6
Ordinary	MS3: Wall mount	--	--	Compliance with test 8.7
9.1	Thermal Burn			
Body Part (e.g., Ordinary)	Energy Source (TS2)	Safeguards		
		Basic	Supplementary	Reinforced

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1525

Ordinary	TS1: Accessible parts	--	--	--
10.1	Radiation			
Body Part (e.g., Ordinary)	Energy Source (Output from audio port)	Safeguards		
		Basic	Supplementary	Reinforced
Ordinary	RS1: Indicating lights	--	--	--
Supplementary Information:				
(1) See attached energy source diagram for additional details. (2) “N” – Normal Condition; “A” – Abnormal Condition; “S” Single Fault

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict

4	**GENERAL REQUIREMENTS**		P
4.1.1	Acceptance of materials, components and subassemblies	See appended table 4.1.2.	P
4.1.2	Use of components	Components which are certified to IEC and/or national standards are used correctly within their ratings. Components not covered by IEC standards are tested under the conditions present in the equipment.	P
4.1.3	Equipment design and construction	No accessible part which could cause injury.	P
4.1.15	Markings and instructions.....:	(See Annex F)	P
4.4.4	Safeguard robustness		P
4.4.4.2	Steady force tests.....:	(See Annex T.4, T.5)	P
4.4.4.3	Drop tests .....:		N/A
4.4.4.4	Impact tests .....:	(See Annex T.6)	P
4.4.4.5	Internal accessible safeguard enclosure and barrier tests.....:		N/A
4.4.4.6	Glass Impact tests .....:		N/A
4.4.4.7	Thermoplastic material tests.....:	(See Annex T.8)	P
4.4.4.8	Air comprising a safeguard.....:		N/A
4.4.4.9	Accessibility and safeguard effectiveness		P
4.5	Explosion	No explosion occurs during normal/abnormal operation and single fault conditions.	P
4.6	Fixing of conductors		P
4.6.1	Fix conductors not to defeat a safeguard		P
4.6.2	10 N force test applied to .....:	See appended table 5.4.2.2, 5.4.2.4 and 5.4.3	P
4.7	Equipment for direct insertion into mains socket - outlets		N/A
4.7.2	Mains plug part complies with the relevant standard.....:		N/A
4.7.3	Torque (Nm) .....:		N/A
4.8	Products containing coin/button cell batteries	No lithium coin/button batteries used.	N/A
4.8.2	Instructional safeguard		N/A
4.8.3	Battery Compartment Construction		N/A
	Means to reduce the possibility of children removing the battery.....:		—

G.9.2	Test Program 1		N/A
G.9.3	Test Program 2		N/A
G.9.4	Test Program 3		N/A
G.10	**Resistors**		P
G.10.1	General requirements	Approved bleeding resistors used. (See appended table 4.1.2)	P
G.10.2	Resistor test		N/A
G.10.3	Test for resistors serving as safeguards between the mains and an external circuit consisting of a coaxial cable		N/A
G.10.3.1	General requirements		N/A
G.10.3.2	Voltage surge test		N/A
G.10.3.3	Impulse test		N/A
G.11	**Capacitor and RC units**		P
G.11.1	General requirements	X-Capacitors and Y-Capacitors used as safeguard and complied with IEC/EN 60384-14. (See appended table 4.1.2)	P
G.11.2	Conditioning of capacitors and RC units	At least 21 days at 40 ± 2°C and 93±3% RH.	P
G.11.3	Rules for selecting capacitors	The selection followed with tables G.9 and G.12.	P
G.12	**Optocouplers**		P
	Optocouplers comply with IEC 60747-5-5:2007 Spacing or Electric Strength Test (specify option and test results).....:	The optocouplers used in the equipment are complied with IEC/EN 60747-5-2 that complied with the requirements of IEC 60747-5-5. (see appended table 4.1.2)	P
	Type test voltage Vini .....:	See above.	—
	Routine test voltage, Vini,b .....:	See above.	—
G.13	**Printed boards**		P
G.13.1	General requirements	See below.	P
G.13.2	Uncoated printed boards	(see appended table 5.4.2.2, 5.4.2.4 and 5.4.3)	P
G.13.3	Coated printed boards		N/A
G.13.4	Insulation between conductors on the same inner surface		N/A
	Compliance with cemented joint requirements (Specify construction).....:		—

Note:
1. An asterisk indicates a mark that assures the agreed level of surveillance.
2. “Di” means distance through insulation, “Int.” means internal distance of creepage and “Ext.” means external distance of creepage.
3. There is no any internal creepage distance. Test according to IEC60950-1:2001, cl. 2.10.8 (same as requirement in IEC60950-1:2005, cl. 2.10.9) has been carried out ten times for the components at 100°C / 25°C / 0°C / 25°C. Humidity treatment of 48 hours as well as electric strength tests at 3000V / 1 minute was carried out to the component after thermal cycling test.
4. All sources of photo coupler were certified according to DIN EN60747-5-2 which in compliance with the requirements and provisions of IEC 60747-5-5.
5. All sources of photo coupler were in compliance with CTL DSH 759 decision.

Notes:
[1] Supply voltage is the anticipated maximum Touch Voltage

[2] Earthed neutral conductor [Voltage differences less than 1% or more]

[3] Specify method used for measurement as described in IEC 60990 sub-clause 4.3

[4] IEC60990, sub-clause 6.2.2.7, Fault 7 not applicable.

[5] (*) IEC60990, sub-clause 6.2.2.2 is not applicable if switch or disconnect device (e.g., appliance coupler) provided.

6.2.2	Table: Electrical power sources (PS) measurements for classification				P
Source	Description	Measurement	Max Power after 3 s	Max Power after 5 s*)	PS Classification
A	DC output of power board	Power (W) :	--	--	PS2 (See Table Annex Q.1)
		V_A (V) :	--	--	
		I_A (A) :	--	--	

Supplementary Information:

(*) Measurement taken only when limits at 3 seconds exceed PS1 limits.

6.2.3.1	Table: Determination of Potential Ignition Sources (Arcing PIS)			P
Location	Open circuit voltage After 3 s (Vp)	Measured r.m.s current (Irms)	Calculated value (V_p x I_{rms})	Arcing PIS? Yes / No
*	*	*	*	Yes

Supplementary information:

An Arcing PIS requires a minimum of 50 V (peak) a.c. or d.c. An Arcing PIS is established when the product of the open circuit voltage (V_p) and normal operating condition rms current (I_{rms}) is greater than 15.

(*) All components located within the power board are considered as arcing PIS.

6.2.3.2	Table: Determination of Potential Ignition Sources (Resistive PIS)	P

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1584

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict

Circuit Location (x-y)	Operating Condition (Normal / Describe Single Fault)	Measured wattage or VA During first 30 s (W / VA)	Measured wattage or VA After 30 s (W / VA)	Protective Circuit, Regulator, or PTC Operated? Yes / No (Comment)	Resistive PIS? Yes/No
*	*	*	*	--	Yes

Supplementary Information:

A combination of voltmeter, VA and ammeter IA may be used instead of a wattmeter.

If a separate voltmeter and ammeter are used, the product of (VA x IA) is used to determine Resistive PIS classification.

A Resistive PIS: (a) dissipates more than 15 W, measured after 30 s of normal operation, or (b) under single fault conditions has either a power exceeding 100 W measured immediately after the introduction of the fault if electronic circuits, regulators or PTC devices are used, or has an available power exceeding 15 W measured 30 s after introduction of the fault.

(*) All circuits are regarded as Resistive PIS.

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
4.Z1	**Add** the following new subclause after 4.9: To protect against excessive current, short-circuits and earth faults in circuits connected to an a.c. **mains**, protective devices shall be included either as integral parts of the equipment or as parts of the building installation, subject to the following, a), b) and c): a) except as detailed in b) and c), protective devices necessary to comply with the requirements of B.3.1 and B.4 shall be included as parts of the equipment; b) for components in series with the mains input to the equipment such as the supply cord, appliance coupler, r.f.i. filter and switch, short-circuit and earth fault protection may be provided by protective devices in the building installation; c) it is permitted for **pluggable equipment type B** or **permanently connected equipment**, to rely on dedicated overcurrent and short-circuit protection in the building installation, provided that the means of protection, e.g. fuses or circuit breakers, is fully specified in the installation instructions. If reliance is placed on protection in the building installation, the installation instructions shall so state, except that for **pluggable equipment type A** the building installation shall be regarded as providing protection in accordance with the rating of the wall socket outlet.		N/A
5.4.2.3.2.4	**Add** the following to the end of this subclause: The requirement for interconnection with **external circuit** is in addition given in EN 50491-3:2009.		N/A
10.2.1	Add the following to [c] and [d] in table 39: For additional requirements, see 10.5.1.		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1599

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
10.5.1	**Add** the following after the first paragraph: *For RS 1 compliance is checked by measurement under the following conditions:* *In addition to the normal operating conditions, all controls adjustable from the outside by hand, by any object such as a tool or a coin, and those internal adjustments or presets which are not locked in a reliable manner, are adjusted so as to give maximum radiation whilst maintaining an intelligible picture for 1 h, at the end of which the measurement is made.* NOTE Z1 Soldered joints and paint lockings are examples of adequate locking. *The dose-rate is determined by means of a radiation monitor with an effective area of 10 cm², at any point 10 cm from the outer surface of the apparatus.* *Moreover, the measurement shall be made under fault conditions causing an increase of the high-voltage, provided an intelligible picture is maintained for 1 h, at the end of which the measurement is made.* *For RS1, the dose-rate shall not exceed 1 µSv/h taking account of the background level.* NOTE Z2 These values appear in Directive 96/29/Euratom of 13 May 1996.		N/A
10.6.1	**Add** the following paragraph to the end of the subclause: EN 71-1:2011, 4.20 and the related tests methods and measurement distances apply.		N/A
10.Z1	**Add** the following new subclause after 10.6.5. **10.Z1 Non-ionizing radiation from radio frequencies in the range 0 to 300 GHz** The amount of non-ionizing radiation is regulated by European Council Recommendation 1999/519/EC of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0 Hz to 300 GHz). For intentional radiators, ICNIRP guidelines should be taken into account for Limiting Exposure to Time-Varying Electric, Magnetic, and Electromagnetic Fields (up to 300 GHz). For hand-held and body-mounted devices, attention is drawn to EN 50360 and EN 50566		N/A
G.7.1	**Add** the following note: NOTE Z1 The harmonized code designations corresponding to the IEC cord types are given in Annex ZD.		N/A

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
5.2.2.2	**Denmark** After the 2nd paragraph add the following: A warning (marking **safeguard**) for high **touch current** is required if the **touch current** exceeds the limits of 3,5 mA a.c. or 10 mA d.c.	No high touch current.	N/A
5.4.11.1 and Annex G	**Finland and Sweden** To the end of the subclause the following is added: For separation of the telecommunication network from earth the following is applicable: If this insulation is solid, including insulation forming part of a component, it shall at least consist of either • two layers of thin sheet material, each of which shall pass the electric strength test below, or • one layer having a distance through insulation of at least 0,4 mm, which shall pass the electric strength test below. If this insulation forms part of a semiconductor component (e.g. an optocoupler), there is no distance through insulation requirement for the insulation consisting of an insulating compound completely filling the casing, so that clearances and creepage distances do not exist, if the component passes the electric strength test in accordance with the compliance clause below and in addition • passes the tests and inspection criteria of 5.4.8 with an electric strength test of 1,5 kV multiplied by 1,6 (the electric strength test of 5.4.9 shall be performed using 1,5 kV), and • is subject to routine testing for electric strength during manufacturing, using a test voltage of 1,5kV. It is permitted to bridge this insulation with a capacitor complying with EN 60384-14:2005, subclass Y2. A capacitor classified Y3 according to EN 60384-14:2005, may bridge this insulation under the following conditions: • the insulation requirements are satisfied by having a capacitor classified Y3 as defined by EN 60384-14, which in addition to the Y3 testing, is tested with an impulse test of 2,5 kV defined in 5.4.11; • the additional testing shall be performed on all the test specimens as described in EN 60384-14; the impulse test of 2,5 kV is to be performed before the endurance test in EN 60384-14, in the sequence of tests as described in EN 60384-14.		N/A
5.5.2.1	**Norway** After the 3rd paragraph the following is added: Due to the IT power system used, capacitors are required to be rated for the applicable line-to-line voltage (230 V).		N/A

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
5.5.6	**Finland, Norway** and **Sweden** To the end of the subclause the following is added: Resistors used as **basic safeguard** or bridging **basic insulation** in **class I pluggable equipment type A** shall comply with G.10.1 and the test of G.10.2.		N/A
5.6.1	**Denmark** **Add** to the end of the subclause Due to many existing installations where the socket-outlets can be protected with fuses with higher rating than the rating of the socket-outlets the protection for pluggable equipment type A shall be an integral part of the equipment. *Justification:* In Denmark an existing 13 A socket outlet can be protected by a 20 A fuse.		N/A
5.6.4.2.1	**Ireland and United Kingdom** After the indent for **pluggable equipment type A**, the following is added: – the **protective current rating** is taken to be 13 A, this being the largest rating of fuse used in the **mains** plug.		N/A
5.6.5.1	To the second paragraph the following is added: The range of conductor sizes of flexible cords to be accepted by terminals for equipment with a rated current over 10 A and up to and including 13 A is: 1,25 mm^2 to 1,5 mm^2 in cross-sectional area.		N/A
5.7.5	**Denmark** To the end of the subclause the following is added: The installation instruction shall be affixed to the equipment if the **protective conductor current** exceeds the limits of 3,5 mA a.c. or 10 mA d.c.		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1603

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
5.7.6.1	**Norway and Sweden** To the end of the subclause the following is added: The screen of the television distribution system is normally not earthed at the entrance of the building and there is normally no equipotential bonding system within the building. Therefore the protective earthing of the building installation needs to be isolated from the screen of a cable distribution system. It is however accepted to provide the insulation external to the equipment by an adapter or an interconnection cable with galvanic isolator, which may be provided by a retailer, for example. The user manual shall then have the following or similar information in Norwegian and Swedish language respectively, depending on in what country the equipment is intended to be used in: “Apparatus connected to the protective earthing of the building installation through the mains connection or through other apparatus with a connection to protective earthing – and to a television distribution system using coaxial cable, may in some circumstances create a fire hazard. Connection to a television distribution system therefore has to be provided through a device providing electrical isolation below a certain frequency range (galvanic isolator, see EN 60728-11)” NOTE In Norway, due to regulation for CATV-installations, and in Sweden, a galvanic isolator shall provide electrical insulation below 5 MHz. The insulation shall withstand a dielectric strength of 1,5 kV r.m.s., 50 Hz or 60 Hz, for 1 min. Translation to Norwegian (the Swedish text will also be accepted in Norway): “Apparater som er koplet til beskyttelsesjord via nettplugg og/eller via annet jordtilkoplet utstyr – og er tilkoplet et koaksialbasert kabel-TV nett, kan forårsake brannfare. For å unngå dette skal det ved tilkopling av apparater til kabel-TV nett installeres en galvanisk isolator mellom apparatet og kabel-TV nettet.” Translation to Swedish: ”Apparater som är kopplad till skyddsjord via jordat vägguttag och/eller via annan utrustning och samtidigt är kopplad till kabel-TV nät kan i vissa fall medföra risk för brand. För att undvika detta skall vid anslutning av apparaten till kabel-TV nät galvanisk isolator finnas mellan apparaten och kabel-TV nätet.”.		N/A

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
5.7.6.2	**Denmark** To the end of the subclause the following is added: The warning (marking safeguard) for high touch current is required if the touch current or the protective current exceed the limits of 3,5 mA .		N/A
B.3.1 and B.4	**Ireland and United Kingdom** The following is applicable: To protect against excessive currents and short-circuits in the primary circuit of **direct plug-in equipment**, tests according to Annexes B.3.1 and B.4 shall be conducted using an external miniature circuit breaker complying with EN 60898-1, Type B, rated 32A. If the equipment does not pass these tests, suitable protective devices shall be included as an integral part of the **direct plug-in equipment**, until the requirements of Annexes B.3.1 and B.4 are met		N/A
G.4.2	**Denmark** To the end of the subclause the following is added: Supply cords of single phase appliances having a rated current not exceeding 13 A shall be provided with a plug according to DS 60884-2-D1:2011. CLASS I EQUIPMENT provided with socket-outlets with earth contacts or which are intended to be used in locations where protection against indirect contact is required according to the wiring rules shall be provided with a plug in accordance with standard sheet DK 2-1a or DK 2-5a. If a single-phase equipment having a RATED CURRENT exceeding 13 A or if a poly-phase equipment is provided with a supply cord with a plug, this plug shall be in accordance with the standard sheets DK 6-1a in DS 60884-2-D1 or EN 60309-2. Mains socket outlets intended for providing power to Class II apparatus with a rated current of 2,5 A shall be in accordance DS 60884-2-D1:2011 standard sheet DKA 1-4a. Other current rating socket outlets shall be in compliance with Standard Sheet DKA 1-3a or DKA 1-1c. Mains socket-outlets with earth shall be in compliance with DS 60884-2-D1:2011 Standard Sheet DK 1-3a, DK 1-1c, DK1-1d, DK 1-5a or DK 1-7a *Justification:* Heavy Current Regulations, Section 6c		N/A

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
G.4.2	**United Kingdom** To the end of the subclause the following is added: The plug part of direct plug-in equipment shall be assessed to BS 1363: Part 1, 12.1, 12.2, 12.3, 12.9, 12.11, 12.12, 12.13, 12.16, and 12.17, except that the test of 12.17 is performed at not less than 125 °C. Where the metal earth pin is replaced by an Insulated Shutter Opening Device (ISOD), the requirements of clauses 22.2 and 23 also apply.		N/A
G.7.1	**United Kingdom** To the first paragraph the following is added: Equipment which is fitted with a flexible cable or cord and is designed to be connected to a mains socket conforming to BS 1363 by means of that flexible cable or cord shall be fitted with a 'standard plug' in accordance with the Plugs and Sockets etc (Safety) Regulations 1994, Statutory Instrument 1994 No. 1768, unless exempted by those regulations. NOTE "Standard plug" is defined in SI 1768:1994 and essentially means an approved plug conforming to BS 1363 or an approved conversion plug.		N/A
G.7.1	**Ireland** To the first paragraph the following is added: Apparatus which is fitted with a flexible cable or cord shall be provided with a plug in accordance with Statutory Instrument 525: 1997, "13 A Plugs and Conversion Adapters for Domestic Use Regulations: 1997. S.I. 525 provides for the recognition of a standard of another Member State which is equivalent to the relevant Irish Standard		N/A
G.7.2	**Ireland and United Kingdom** To the first paragraph the following is added: A power supply cord with a conductor of 1,25 mm^2 is allowed for equipment which is rated over 10 A and up to and including 13 A.		N/A

IEC 62368-1 - US and Canada National Differences Special National Conditions based on Regulations and Other National Differences			
1.1	All equipment is to be designed to allow installation according to the National Electrical Code (NEC), ANSI/NFPA 70, the Canadian Electrical Code (CEC), Part I, CAN/CSA C22.1, and when applicable, the National Electrical Safety Code, IEEE C2. Also, for such equipment marked or otherwise identified, installation is allowed per the Standard for the Protection of Information Technology Equipment, ANSI/NFPA 75.	In accordance with the National Electrical Code (NEC) and the Canadian Electrical Code (CEC) part 1 CAN/CSA C22.1, ANSI/NFPA 70, and unless marked or otherwise identified, the Standard for Electronic Computer/Data-Processing Equipment, ANSI/NFPA 75.	P
1.4	Additional requirements apply to some forms of power distribution equipment, including sub-assemblies.		N/A
4.1.17	*For lengths exceeding 3.05 m, external interconnecting flexible cord and cable assemblies are required to be a suitable cable type (e.g., DP, CL2) specified in the NEC.*		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1608

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
	For lengths 3.05 m or less, external interconnecting flexible cord and cable assemblies that are not types specified in the NEC generally are required to have special construction features and identification markings.		N/A
4.8	Lithium coin / button cell batteries have modified special construction and performance requirements.	No such batteries.	N/A
5.6.3	Protective earthing conductors comply with the minimum conductor sizes in Table G.5, except as required by Table G.7ADV.1 for cord connected equipment, or Annex DVH for permanently connected equipment	Not provide in this product.	N/A
5.7.7	Equipment intended to receive telecommunication ringing signals complies with a special touch current measurement tests.		N/A
6.5.1	PS3 wiring outside a fire enclosure complies with single fault testing in B.4, or be current limited per one of the permitted methods.		N/A
Annex F (F.3.3.8)	Output terminals provided for supply of other equipment, except mains, supply are marked with a maximum rating or references to which equipment it is permitted to be connected.		N/A
Annex G (G.7.1)	Permanent connection of equipment to the mains supply by a power supply cord is not permitted, except for certain equipment, such as ATMs.		N/A
Annex G (G.7.3)	Power supply cords are required to have attachment plugs rated not less than 125 percent of the rated current of the equipment.		N/A
	Flexible power supply cords are required to be compatible with Article 400 of the NEC, and Tables 11 and 12 of the CEC.		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1609

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
Annex G (G.7.5)	Minimum cord length is required to be 1.5 m, with certain constructions such as external power supplies allowed to consider both input and output cord lengths into the requirement. Power supply cords are required to be no longer than 4.5 m in length if used in ITE Rooms.		N/A
Annex H.2	Continuous ringing signals under normal operating conditions up to 16 mA only are permitted if the equipment is subjected to special installation and performance restrictions.	No TNV circuits within the equipment.	N/A
Annex H.4	For circuits with other than ringing signals and with voltages exceeding 42.4 V_{peak} or 60 V d.c., the maximum acceptable current through a 2000 ohm resistor (or greater) connected across the voltage source with other loads disconnected is 7.1 mA peak or 30 mA d.c. under normal operating conditions.	No TNV circuits within the equipment.	N/A
Annex M	Battery packs for stationary applications comply with special component requirements.	No such parts.	N/A
Annex DVA (1)	Equipment intended for use in spaces used for environmental air are subjected to special flammability requirements for heat and visible smoke release.	No such parts.	N/A
	For ITE room applications, automated information storage systems with combustible media greater than 0.76 m^3 (27 cu ft) have a provision for connection of either automatic sprinklers or a gaseous agent extinguishing system with an extended discharge.	No such parts.	N/A
	Consumer products designed or intended primarily for children 12 years of age or younger are subject to additional requirements in accordance with U.S. & Canadian Regulations.	No such parts.	N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1610

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict

	Baby monitors additionally comply with ASTM F2951, Consumer Safety Specification for Baby Monitors.	No such parts.	N/A
Annex DVA (5.6.3)	For Pluggable Equipment Type A, the protection in the installation is assumed to be 20A.	No such parts.	N/A
Annex DVA (6.3)	The maximum quantity of flammable liquid stored in equipment complies with NFPA 30.		N/A
Annex DVA (6.4.8)	For ITE room applications, enclosures with combustible material measuring greater than 0.9 m^2 (10 sq ft) or a single dimension greater than 1.8 m (6 ft) have a flame spread rating of 50 or less. For equipment with the same dimensions for other applications, an external surface that is not a fire enclosure requires a min. flammability classification of V-1.	No such application.	N/A
Annex DVA (10.3.1)	Equipment with lasers meets the U.S. Code of Federal Regulations 21 CFR 1040 (and the Canadian Radiation Emitting Devices Act, REDR C1370).	No such parts.	NA
Annex DVA (10.5.1)	Equipment that produces ionizing radiation complies with the U.S. Code of Federal Regulations, 21 CFR 1020 (and the Canadian Radiation Emitting Devices Act, REDR C1370).	No such parts.	N/A
Annex DVA (F.3.3.3)	Equipment for use on a.c. mains supply systems with a neutral and more than one phase conductor (e.g. 120/240 V, 3-wire) require a special marking format for electrical ratings. Additional considerations apply for voltage ratings that exceed the attachment cap rating or are lower than the "Normal Operating Condition" in Table 2 of CAN/CSA C22.2 No. 235."	Single phase only.	N/A
Annex DVA (F.3.3.5)	Equipment identified for ITE (computer) room installation is marked with the rated current	Not such application.	N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1611

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
Annex DVA (G.1)	Vertically-mounted disconnect switches and circuit breakers have the "on" position indicated by the handle in the up position	No such parts.	N/A
Annex DVA (G.3.4)	Suitable NEC/CEC branch circuit protection rated at the maximum circuit rating is required for all standard supply outlets and receptacles (such as supplied in power distribution units) if the supply branch circuit protection is not suitable.	No standard supply outlets, receptacles, medium-base or smaller lampholders provided.	N/A
Annex DVA (G.4.2)	Equipment with isolated ground (earthing) receptacles complies with NEC 250.146(D) and CEC 10-112 and 10-906(8).	No such parts.	N/A
Annex DVA (G.4.3)	Where a fuse is used to provide Class 2 or Class 3 current limiting, it is not operator-accessible unless it is non-interchangeable.	No such parts.	N/A
Annex DVA (G.5.3)	Power distribution transformers distributing power at 100 volts or more, and rated 10 kVA or more, require special transformer overcurrent protection.	No such parts.	N/A
Annex DVA (G.5.4)	Motor control devices are required for cord-connected equipment with a mains-connected motor if the equipment is rated more than 12 A, or if the equipment has a nominal voltage rating greater than 120 V, or if the motor is rated more than 1/3 hp (locked rotor current over 43 A).	No such parts.	N/A
Annex DVA (Annex M)	For ITE room applications, equipment with battery systems capable of supplying 750 VA for five minutes have a battery disconnect means that may be connected to the ITE room remote power-off circuit.	Not applicable for the equipment.	N/A
Annex DVA (Q)	Wiring terminals intended to supply Class 2 outputs according to the NEC or CEC Part 1are marked with the voltage rating and “Class 2” or equivalent; marking is located adjacent to the terminals and visible during wiring.	Not applicable for the equipment.	N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1612

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
Annex DVB (1)	Additional requirements apply for equipment used for entertainment purposes intended for installation in general patient care areas of health care facilities.	Not such application.	N/A
Annex DVC (1)	Additional requirements apply for equipment intended for mounting under kitchen cabinets.	Not such application.	N/A
Annex DVE (4.1.1)	Some equipment, components, sub-assemblies and materials associated with the risk of fire, electric shock, or personal injury have component or material ratings in accordance with the applicable national (U.S. and Canadian) component or material requirements. Components required to comply include: appliance couplers, attachment plugs, battery back-up systems, battery packs, circuit breakers, communication circuit accessories, connectors (used for current interruption of non-LPS circuits), power supply cords, direct plug-in equipment, electrochemical capacitor modules (energy storage modules with ultra-capacitors), enclosures (outdoor), flexible cords and cables, fuses (branch circuit), ground-fault current interrupters, interconnecting cables, data storage equipment, printed wiring, protectors for communications circuits, receptacles, surge protective devices, vehicle battery adapters, wire connectors, and wire and cables.	UL approved components used. Refer to table 4.1.2 of IEC 62368-1 test report for details.	P
Annex DVH	Equipment for permanent connection to the mains supply is subjected to additional requirements.	The equipment is not permanently connected equipment.	N/A
Annex DVH (DVH.1)	Wiring methods (terminals, leads, etc.) used for the connection of the equipment to the mains are in accordance with the NEC/CEC.	Pluggable equipment type A.	N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1613

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
Annex DVH (DVH.3.2)	Terminals for permanent wiring, including protective earthing terminals, are suitable for U.S./Canadian wire gauge sizes, rated 125 percent of the equipment rating, and are specially marked when specified.	No terminals for permanent wiring.	N/A
Annex DVH (DVH.3.2)	Wire binding screws are not permitted to attach conductors larger than 10 AWG (5.3 mm^2).	No wire binding screws.	N/A
Annex DVH (DVH.4)	Permanently connected equipment is required to have a suitable wiring compartment and wire bending space.	The equipment is not permanently connected equipment.	N/A
Annex DVH (DVH 5.5)	Equipment connected to a centralized d.c. power system, and having one pole of the DC mains input terminal connected to the main protective earthing terminal in the equipment, complies with special earthing, wiring, marking and installation instruction requirements.	The equipment not connected to a centralized d.c. power system.	N/A
Annex DVI (6.7)	Equipment intended for connection to telecommunication network outside plant cable is required to be protected against overvoltage from power line crosses.	No TNV circuits within the equipment.	N/A
Annex DVJ (10.6.1)	Equipment connected to a telecommunication and cable distribution networks and supplied with an earphone intended to be held against, or in the ear is required to comply with special acoustic pressure requirements.	No TNV circuits within the equipment.	N/A

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
4.8.3	**Construction** First line, after the word 'Equipment' *insert* the words 'containing one or more coin/button batteries and'		N/A
4.8.5	**Compliance criteria** *Delete* the first paragraph and *replace* with the following: *Compliance is checked by applying a force of 30 N +/-1 N for 10 s to the battery compartment door/cover by a rigid test finger according to test probe 11 of IEC 61032:1997 at the most unfavourable place and in the most unfavourable direction. The force shall be applied in one direction at a time.*		N/A
5.4.10.2	**Test methods**		N/A
5.4.10.2.1	**General** *Delete* the first paragraph and *replace* with the following: In Australia only, the separation is checked by the test of both Clause 5.4.10.2.2 and Clause 5.4.10.2.3. In New Zealand, the separation is checked by the test of either Clause 5.4.10.2.2 or Clause 5.4.10.2.3.		N/A
Table 29	*Replace* the table with the following:		N/A

Parts	Impulse test		Steady state test	
	New Zealand	Australia	New Zealand	Australia
Parts indicated in Clause 5.4.10.1 a) [a]	2.5 kV 10/700 µs	7.0 kV for hand-held telephones and headsets, 2.5 kV for other equipment. 10/700 µs	1.5 kV	3 kV
Parts indicated in Clause 5.4.10.1 b) and c) [b]	1.5 kV 10/700 µs [c]		1.0 kV	1.5 kV

[a] Surge suppressors shall not be removed.
[b] Surge suppressors may be removed, provided that such devices pass the impulse test of Clause 5.4.10.2.2 when tested as components outside the equipment.
[c] During this test, it is allowed for a surge suppressor to operate and for a sparkover to occur in a GDT.

5.4.10.2.2	After the first paragraph, *insert* new Notes 201 and 202 as follows: NOTE 201 For Australia, the 7 kV impulse simulates lightning surges on typical rural and semi-rural network lines. NOTE 202 For Australia, the value of 2.5 kV for Clause 5.4.10.1 a) was chosen to ensure the adequacy of the insulation concerned and does not necessarily simulate likely overvoltages.		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1617

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
5.4.10.2.3	After the first paragraph, *insert* new Notes 201 and 202 as follows: NOTE 201 For Australia, where there are capacitors across the insulation under test, it is recommended that d.c. test voltages are used. NOTE 202 The 3 kV and 1.5 kV values for Australia have been determined considering the low frequency induced voltages from the power supply distribution system.		N/A
6	**Electrically-caused fire**		N/A
6.1	**General** After the first paragraph, *insert* the following new paragraph: Alternatively, the requirements of Clauses 6.2 to 6.5.2 are considered to be fulfilled if the equipment complies with the requirements of Clause 6.202		N/A
6.6	After Clause 6.6, *add* the new Clauses 6.201 and 6.202 as follows: **6.201 External power supplies, docking stations and other similar devices** and **6.202 Resistance to fire—Alternative tests** (see special national conditions)		N/A
8.5.4	**Special categories of equipment comprising moving parts**		N/A
8.5.4.1	**Large data storage equipment** In the first dashed row and the second dashed rows *replace* 'IEC 60950-1:2005' with 'AS/NZS 60950.1:2015'.		N/A
8.6	**Stability of equipment**		N/A
8.6.1 and Table 36	**Requirements** 1. Table 36, *insert* Footnote c at the end of the 'Glass slide' heading, and *add* a new Footnote c after the text of Footnote b in the last row of Table 36 as follows: [c] The glass slide test is not applicable to floor standing equipment, even though the equipment may have controls or a display. 2. Table 36, fifth row, *insert* '[201]' at the end of 'No stability requirements' 3. Table 36, ninth row, *insert* '[201]' at the end of 'No stability requirements' 4. Table 36, *add* the following new footnote: 201 MS2 and MS3 television sets and display devices, designed only for fixing to a wall, ceiling or equipment rack, are not subjected to stability requirements only if the instructional safeguard of Clause 8.6.1.201 is provided. Otherwise, the glass slide requirements of Clause 8.6.4 and horizontal force requirements of Clause 8.6.5 apply. 5. Second paragraph beneath Table 36, *delete* the words 'MS2 and MS3 television sets' and *replace* with 'MS2 and MS3 television sets and display devices'		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1618

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
8.6.1	After Clause 8.6.1 *add* the following new clauses: **8.6.1.201 Instructional safeguard for fixed-mount television sets** (see special national conditions)		N/A
Annex F **Paragraph F.3.5.1**	**Mains appliance outlet and socket-outlet markings** *Replace* 'IEC 60320-2-2' with 'AS/NZS 60320.2.2'.		N/A
Annex G **Paragraph G.4.2**	**Mains connectors** 1 In the second line *insert* 'or AS/NZS 3123' after 'IEC 60906-1'. 2 In the second line *insert* 'or AS/NZS 60320 series' after 'IEC 60320 series' 3 *Add* the following new paragraph: 10 A or 15 A 250 V flat pin plugs for the connection of equipment to mains-powered socket-outlets for household or similar general use shall comply with AS/NZS 3112 or AS/NZS 60884.1.		N/A
Paragraph G.5.3.1	**Transformers, General** 1 In the third dashed point *replace* 'IEC 61558-1 and the relevant parts of IEC 61558-2' with 'AS/NZS 61558-1 and the relevant parts of AS/NZS 61558.2' 2 In the fourth dashed point *replace* 'IEC 61558-2-16' with 'AS/NZS 61558.2.16'.		N/A
Paragraph G.7.1	**Mains supply cords, General** In the fourth dashed paragraph, *replace* 'IEC 60320-1' with 'AS/NZS 60320.1'		
Table G.5	**Sizes of conductors** 1 In the second row, first column, *delete* '6' and *replace* with '7.5' 2 In the second row, second column, *delete* '0,75' and *replace* with '0.75[b] 3 *Delete* Note 1. 4 *Replace* 'NOTE 2' with 'NOTE:'. 5 *Delete* the text of 'Footnote b' and *replace* with the following: [b] This nominal cross-sectional area is only allowed for Class II appliances if the length of the power supply cord, measured between the point where the cord, or cord guard, enters the appliance, and the entry to the plug does not exceed 2 m (0.5 mm2 three-core supply flexible cords are not permitted; see AS/NZS 3191). 6 In Footnote c *replace* 'IEC 60320-1' with 'AS/NZS 60320.1' 7 In Footnote d *replace* 'IEC 60320-1' with 'AS/NZS 60320.1'		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1619

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
Annex M Paragraph M.3.2	**Protection circuits for batteries provided within the equipment, Test method** After the first dashed point *add* the following Note: NOTE 201: In cases where the voltage source is provided by power from an unassociated power source, consideration should be given to the effects of possible single fault conditions in the unassociated equipment. If the power source is unknown then it should be assumed that the maximum limit of SELV may be applied to the source input under assumed single fault conditions in the source when assessing the charging circuit in the equipment under test.		N/A
	Special national conditions (if any)		N/A
6.201	**External power supplies, docking stations and other similar devices** For external power supplies, docking stations and other similar devices, during and after abnormal operating conditions and during single fault conditions the output voltage— – at all ES1 outlets or connectors shall not increase by more than 10% of its rated output voltage under normal operating condition; and – of a USB outlet or connector shall not increase by more than 3 V or 10% of its rated output voltage under normal operating conditions, whichever is higher. For equipment with multiple rated output voltages, the requirements apply with the equipment configured for each rated output voltage in turn. NOTE: This is intended to reduce the possibility of battery fire or explosion in attached equipment or accessories when charging secondary lithium batteries. *Compliance shall be checked by measurement, taking into account the abnormal operating conditions of Annex B.3 and the simulated single-fault conditions of Annex B.4*		N/A
6.202	**Resistance to fire—Alternative tests**		N/A
6.202.1	**General** Parts of non-metallic material shall be resistant to ignition and spread of fire. This requirement does not apply to decorative trims, knobs and other parts unlikely to be ignited or to propagate flames from inside the equipment, or the following: a) Components that are contained in an enclosure having a flammability category of V-0 according to AS/NZS 60695.11.10 and having openings only for the connecting wires filling the openings completely, and for ventilation not exceeding 1 mm in width regardless of length.		NA

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1620

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
	b) The following parts which would contribute negligible fuel to a fire: – small mechanical parts, the mass of which does not exceed 4 g, such as mounting parts, gears, cams, belts and bearings; – small electrical components, such as capacitors with a volume not exceeding 1 750 mm3, integrated circuits, transistors and optocoupler packages, if these components are mounted on material of flammability category V-1, or better, according to AS/NZS 60695.11.10. NOTE: In considering how to minimize propagation of fire and what 'small parts' are, account should be taken of the cumulative effect of small parts adjacent to each other for the possible effect of propagating the fire from one part to another.		
	Compliance shall be checked by the tests of Clauses 6.202.2, 6.202.3 and 6.202.4. For the base material of printed boards, compliance shall be checked by the test of Clause 6.202.5. The tests shall be carried out on parts of non-metallic material which have been removed from the equipment. When the glow-wire test is carried out, the parts shall be placed in the same orientation as they would be in normal use. These tests are not carried out on internal wiring.		N/A
6.202.2	**Testing of non-metallic materials** Parts of non-metallic material shall be subject to the glow-wire test of AS/NZS 60695.2.11 which shall be carried out at 550°C. Parts for which the glow-wire test cannot be carried out, such as those made of soft or foamy material, shall meet the requirements specified in ISO 9772 for category FH-3 material. The glow-wire test shall be not carried out on parts of material classified at least FH-3 according to ISO 9772 provided that the relevant part is not thinner than the sample tested.		N/A
6.202.3	**Testing of insulating materials** Parts of insulating material supporting Potential Ignition Sources shall be subject to the glow-wire test of AS/NZS 60695.2.11 which shall be carried out at 750°C. The test shall be also carried out on other parts of insulating material which are within a distance of 3 mm of the connection. NOTE: Contacts in components such as switch contacts are considered to be connections		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1621

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
	For parts which withstand the glow-wire test but produce a flame, other parts above the connection within the envelope of a vertical cylinder having a diameter of 20 mm and a height of 50 mm shall be subjected to the needle-flame test. However, parts shielded by a barrier which meets the needle-flame test need not be tested		N/A
	The needle-flame test shall be made in accordance with AS/NZS 60695.11.5 with the following modifications:		N/A

Clause of AS/NZS 60695.11.5	Change
9 Test procedure	
9.2 Application of needle-flame	*Delete* the first and second paragraphs and *replace* with the following: The specimen shall be arranged so that the flame can be applied to a vertical or horizontal edge as shown in the examples of Figure 1. If possible the flame shall be applied at least 10 mm from a corner. The duration of application of the test flame shall be 30 s 1 s.
9.3 Number of test specimens	*Replace* with the following: The test shall be made on one specimen. If the specimen does not withstand the test, the test may be repeated on two further specimens, both of which shall withstand the test.
11 Evaluation of test results	*Replace* with the following: The duration of burning (tb) shall not exceed 30 s. However, for printed circuit

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1622

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
	boards, it shall not exceed 15 s. The needle-flame test shall not be carried out on parts of material classified as V-0 or V-1 according to AS/NZS 60695.11.10, provided that the relevant part is not thinner than the sample tested.		
6.202.4	**Testing in the event of non-extinguishing material** If parts, other than enclosures, do not withstand the glow wire tests of Clause 6.202.3, by failure to extinguish within 30 s after the removal of the glowwire tip, the needle-flame test detailed in Clause 6.202.3 shall be made on all parts of non-metallic material which are within a distance of 50 mm or which are likely to be impinged upon by flame during the tests of Clause 6.202.3. Parts shielded by a separate barrier which meets the needle-flame test need not be tested. NOTE 1: If the enclosure does not withstand the glow-wire test the equipment is considered to have failed to meet the requirements of Clause 6.202 without the need for consequential testing. NOTE 2: If other parts do not withstand the glow-wire test due to ignition of the tissue paper and if this indicates that burning or glowing particles can fall onto an external surface underneath the equipment, the equipment is considered to have failed to meet the requirements of Clause 6.202 without the need for consequential testing. NOTE 3: Parts likely to be impinged upon by the flame are considered to be those within the envelope of a vertical cylinder having a radius of 10 mm and a height equal to the height of the flame, positioned above the point of the material supporting, in contact with, or in close proximity to, connections.		N/A
6.202.5	**Testing of printed boards** The base material of printed boards shall be subjected to the needle-flame test of Clause 6.202.3. The flame shall be applied to the edge of the board where the heat sink effect is lowest when the board is positioned as in normal use. The flame shall not be applied to an edge, consisting of broken perforations, unless the edge is less than 3 mm from a potential ignition source. The test is not carried out if— – the printed board does not carry any potential ignition source; – the base material of printed boards, on which the available apparent power at a connection exceeds 15 VA operating at a voltage exceeding 50 V and equal or less than 400 V (peak) a.c. or d.c. under		N/A

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
	normal operating conditions, is of flammability category V-1 or better according to AS/NZS 60695.11.10, or the printed boards are protected by an enclosure meeting the flammability category V-0 according to AS/NZS 60695.11.10, or made of metal, having openings only for connecting wires which fill the openings completely; or – the base material of printed boards, on which the available equipment power at a connection exceeds 15 VA operating at a voltage exceeding 400 V (peak) a.c. or d.c. under normal operating conditions, and base material of printed boards supporting spark gaps which provides protection against overvoltages, is of flammability category V-0 according to AS/NZS 60695.11.10 or the printed boards are contained in a metal enclosure, having openings only for connecting wires which fill the openings completely. *Conformance shall be determined using the smallest thickness of the material.* NOTE: Available apparent power is the maximum apparent power which can be drawn from the supplying circuit through a resistive load whose value is chosen to maximize the apparent power for more than 2 min when the circuit supplied is disconnected.		
6.202.6	**For open circuit voltages greater than 4 kV** Potential ignition sources with open circuit voltages exceeding 4 kV (peak) a.c. or d.c. under normal operating conditions shall be contained in a FIRE ENCLOSURE which shall comply with flammability category V-1 or better according to AS/NZS 60695.11.10.		N/A
8.6.1.201	**8.6.1.201 Instructional safeguard for fixed-mount television sets** MS2 and MS3 television sets and display devices designed only for fixed mounting to a wall of ceiling or equipment rack shall, where required in Table 36, footnote 201, have an instructional safeguard in accordance with Clause F.5 which may be on the equipment or included in the installation instructions or equivalent document accompanying the equipment. The elements of the instructional safeguard shall be as follows: – element 1a: not available; – element 2: 'Stability Hazard' or equivalent wording; – element 3: 'The television set may fall, causing serious personal injury or death' or equivalent text; – element 4: the following or equivalent text: To prevent injury, this television set must be securely attached to the floor/wall in accordance with the installation instructions		N/A

	National Differences		—
4.1.2	Where the component, or a characteristic of a component, is a safeguard or a part of a safeguard, components shall comply with the requirements of this standard or, where specified in a requirements clause, with the safety aspects of the relevant JIS component standards or IEC component standards, or components shall have properties equivalent to or better than these.		P
5.6.1	Mains socket-outlet and appliance outlet shall comply with Clause G.4.2A if they are incorporated as part of the equipment.		N/A
5.6.2.1	Mains connection of class 0I equipment: Instructional safeguard in accordance with Clause F.3.6.1A; Mains plug having a lead wire for protective earthing connection of class 0I equipment; Independent main protective earthing terminal installed by ordinary person.		N/A
5.6.2.2	This requirement does not apply to internal conductor of the cord set that is covered by the sheath of mains cord and is formed together with mains plug and appliance connector.		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1626

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
5.6.3	In case of class 0I equipment using power supply cord having two conductors (no earthing conductor), the conductor of protective earthing lead wire shall comply with either of the following: – use of annealed copper wire with 1.6 mm diameter or corrosion-inhibiting metal wire having size and strength that are equivalent to or more than the above copper wire – single core cord or single core cab tire cable with 1.25 mm^2 or more cross-sectional area		N/A
5.7.3	For class 0I equipment that is provided with mains socket-outlet in the configuration as specified in JIS C 8282 series or JIS C 8303, or otherwise being considered to comply with relevant regulations, or that is provided with mains appliance outlet as specified in JIS C 8283-2-2 for the purpose of interconnection, the measurement is conducted on the system of the interconnected equipment having a single connection to the mains.		N/A
5.7.4	In case of class 0I equipment, touch current shall not exceed 1.41 mA peak or for sinusoidal wave, 1.0 mA r.m.s. when measured using the network specified in Figure 4 of IEC 60990.		N/A
6.4.3.3	A fuse complying with JIC C 6575 series or a fuse having equivalent characteristics shall open within 1 s. For Class A fuse of JIS C 6575, replace “2.1 times” by “1.35 times” and in case of Class B fuse of JIS C 6575, replace “2.1 times” by “1.6 times”. A fuse not complying with JIS C 6575 series shall be tested with the breaking capacity taken into account.		N/A
8.5.4.2.1	Only three-phase stationary equipment rated more than 200 V ac can be considered as being for use in locations where children are not likely to be present, when complying with Clause F.4.		N/A
8.5.4.2.2	For equipment installed where children may be present, an instructional safeguard shall be provided by easily understandable wording in accordance with Clause F.5, except that element 3 is optional.		N/A
8.5.4.2.4	The media destruction device is tested according to Clause V.1.2 with applicable jointed test probes to the opening. And then the wedge probe per Figure V.4 shall not contact any moving part.		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1627

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
8.5.4.2.5	The wedge probe of Figure V.4 and applicable jointed test probes specified in Clause V.1.2 shall not contact any moving part. Instructional safeguard shall not be used instead of equipment safeguard for preventing access to hazardous moving parts.		N/A
9.2.6, Table 38	Handles, Knobs, grips, etc. and external surfaces either held, touched or worn against the body in normal use (> 1 min) [b,c]		N/A
F.3.5.1	Instructional safeguard of class 0I equipment in accordance with Clause F.5 when a mains socket-outlet as specified in JIS C 8282 series, JIS C 8303 or relevant regulation to which class I equipment can be connected is provided in accordance with Clause G.4.2A except for the cases where the socket-outlet is accessible only to skilled persons.		N/A
F.3.5.3	If the fuse is necessary for the safeguard function, the symbols indicating pre-arcing time-current characteristic.		N/A
F.3.6.1A	Marking for class 0I equipment The requirements of Clauses F.3.6.1.1 and F.3.6.1.3 shall be applied to class 0I equipment. For class 0I equipment, a marking of instructions and instructional safeguard shall be provided regarding the earthing connection.		N/A
F.3.6.2.1	Symbols, IEC 60417-5172 (2003-02) or IEC 60417-6092 (2011-10), shall not be used for class I equipment or class 0I equipment.		N/A
F.4	Instruction for audio equipment with terminals classified as ES3 in accordance with Table E.1, and for other equipment with terminals marked in accordance with F.3.6.1 and F.3.6.1A. Installation instruction for the protective earthing connection for class 0I equipment provided with independent main protective earthing terminal, where the cord for the protective earthing connection is not provided within the package for the equipment.		N/A
G.3.2.1	The thermal link when tested as a separate component, shall comply with the requirements of JIS C 6691 or have properties equivalent to or better than that.		N/A

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1628

IEC 62368-1			
Clause	Requirement + Test	Result - Remark	Verdict
G.3.4	Except for devices covered by Clause G.3.5, overcurrent protective devices used as a safeguard shall comply with the relevant part of JIS C 6575 (corresponding to IEC60127) or shall have equivalent characteristics. If there are no applicable IEC standards, overcurrent protective devices used as a safeguard shall comply with their applicable IEC standards.		N/A
G.4.1	This requirement is not applicable to Clauses G.4.2 and G.4.2A.		N/A
G.4.2	Mains connector shall comply with JIS C 8282 series, JIS C 8283 series, JIS C 8285, JIS C 8303 or IEC 60309 series. Mains plugs and socket-outlets shall comply with JIS C 8282 series, JIS C 8303, IEC 60309 series, or have equivalent or better performance. A power supply cord set provided with appliance connector that can fit appliance inlet complying with JIS C 8283-1 shall comply with JIS C 8286. Construction preventing mechanical stress not to transmit to the soldering part of inlet terminal. Consideration for an equipment rated not more than 125 V provided with Type C14 and C18 appliance coupler complying with JIS C 8283 series.		N/A
G.4.2A	Mains socket-outlet and interconnection coupler provided with the class II, class I and class 0I equipment respectively.		N/A
G.7.1	A mains supply cord need not include the protective earthing conductor for class 0I equipment provided with independent protective earthing conductor.		N/A
G.8.3.3	Withstand 1,71 × 1.1 × U_0 for 5 s.		N/A

Test Report Declare

Applicant	:	TPV Electronics (Fujian) Co., Ltd.
Address	:	Rongqiao Economic and Technological Development Zone, Fuqing City, Fujian Province, P.R. China
Equipment Under Test	:	LCD Monitor
Model No.	:	27B1U56,27B1U56******* (“*” = 0-9，A-Z，A-Z，+，-，/，\ OR BLANK)
Trade Mark	:	PHILIPS

Test Standard Used:
ANSI C63.4: 2014; 47 CFR FCC Part 15 Subpart B

We Declare:
The equipment described above is tested and assessed by Tianjin Dongdian Testing Service Co., Ltd. and in the configuration assessed the equipment complied with the standards specified above. The tested and assessed results are contained in this test report and Tianjin Dongdian Testing Service Co., Ltd. is assumed of full responsibility for the accuracy and completeness of these assessments.
After test and evaluation, our opinion is that the equipment provided for test compliance with the requirement of the above FCC standards.

Report No.:	DDT-B22072002-1E02		
Date of Receipt:	Jul. 21, 2022	Date of Test:	Jul. 22, 2022 ~ Aug. 13, 2022

2. General test information

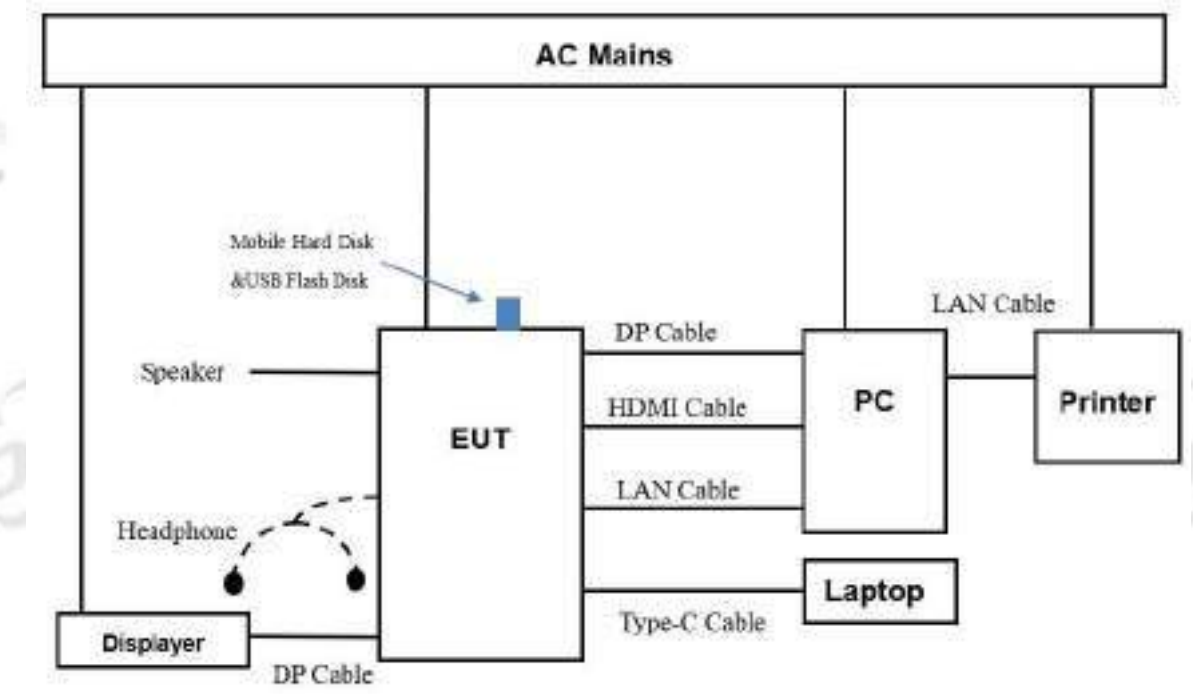
2.1 Description of EUT

EUT* Name	**:**	LCD Monitor
Model Number	**:**	27B1U56,27B1U56****** (“*” = 0-9，A-Z，A-Z，+，-，/，\ OR BLANK)
Model Differences	**:**	All models difference is in sale marketing.
Test Model	:	27B1U5601H
Serial Number	**:**	N/A
EUT function description	**:**	Please refer to user manual of this device
Power supply	**:**	100-240V 50/60Hz
Test Voltage	**:**	110V 60Hz
EUT Class	**:**	Class B
Maximum work frequency	**:**	295 MHz

Note: EUT is the ab. of equipment under test.

2.2 Accessories of EUT

Description of Accessories	Manufacturer	Model number	Description	Remark
AC Cable	N/A	N/A	Length: 1.5m/1.8m, Unshielded	N/A
HDMI Cable	N/A	N/A	Length: 1.5m/1.8m, Shielded	N/A
DP Cable	N/A	N/A	Length: 1.5m/1.8m, Shielded	N/A
Type-C Cable	N/A	N/A	Length: 1.5m/1.8m, Shielded	N/A
AUDIO Cable	N/A	N/A	Length: 1.5m/1.8m, Shielded	N/A



2.3 Test peripherals

Device	Manufacturer	Model No.	Serial No.	Remark
Desktop PC	HP	TPC-W058-MT	8CG0321Q58	N/A
Desktop PC	Samsung	DM700T6A-A99	JVTG98EJ2C004QX	N/A

Tel: +86-22-58038033, http://www.ddttest.com, Email: ddt@dgddt.com
NVLAP (National Voluntary Laboratory Accreditation Program) CODE: 500036-0
CNAS (China National Accreditation Service for Conformity Assessment) CODE: L13402
FCC Designation Number: CN5004; FCC Test Firm Registration Number: 368676
ISED (Innovation, Science and Economic Development Canada) Company Number: 27768
Conformity Assessment Body Identifier: CN0125
VCCI Facility Registration Number: C-20089, T-20093, R-20125, G-20122

2.8 Measurement uncertainty

Test Item	**Uncertainty**
Conducted disturbance at mains terminals	3.4dB (150KHz-30MHz)
Uncertainty for Radiation Emission test (30MHz-1GHz)	5.2 dB (Antenna Polarize: H)
	5.2 dB (Antenna Polarize: V)
Uncertainty for Radiation disturbance test (1GHz to 6GHz)	5.0dB(1-6GHz)
Note: This uncertainty represents an expanded uncertainty expressed at approximately the 95% confidence level using a coverage factor of k=2.	

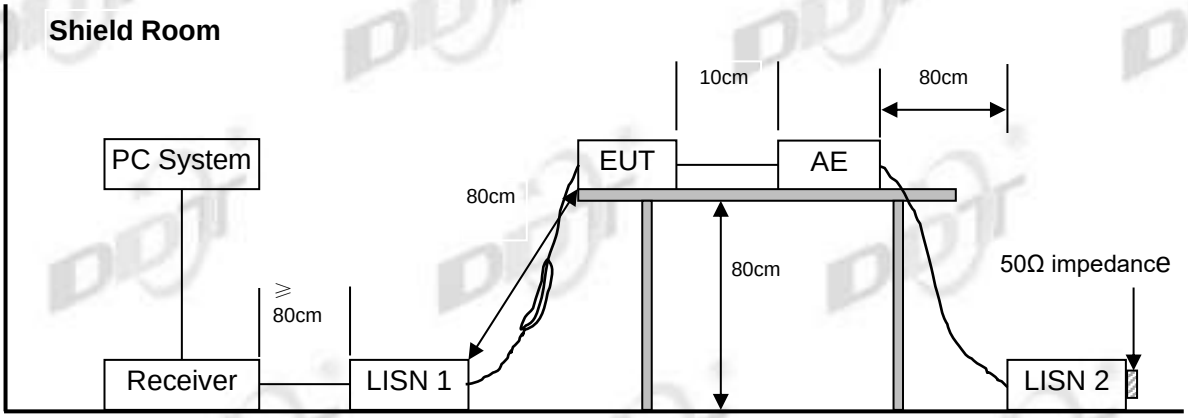
Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1652

3. Conducted Emission

3.1 General information

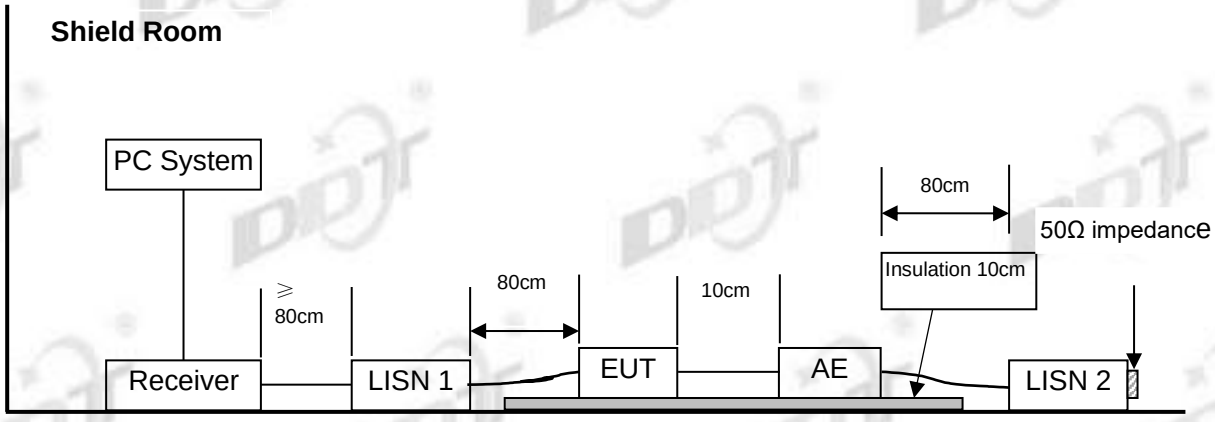
Test date	Jul. 22, 2022	Test engineer	Sam	
Climate condition	Ambient temperature	24.1±1 ℃	Relative humidity	46±1%
	Atmospheric pressure	100.1±0.2 kPa		
Test place	Shield Room 2#			

3.2 Test Equipment



Equipment	Manufacturer	Model No.	Serial No.	Last Cal.	Cal. Interval
Test Receiver	R&S	ESCI	101397	Mar. 03, 2022	1 Year
LISN 1	R&S	ENV216	101122	Mar. 23, 2022	1 Year
LISN 2	R&S	ENV216	101254	Mar. 03, 2022	1 Year
Test software	TOYO	EP5/CE	V 5.4.40	N/A	N/A

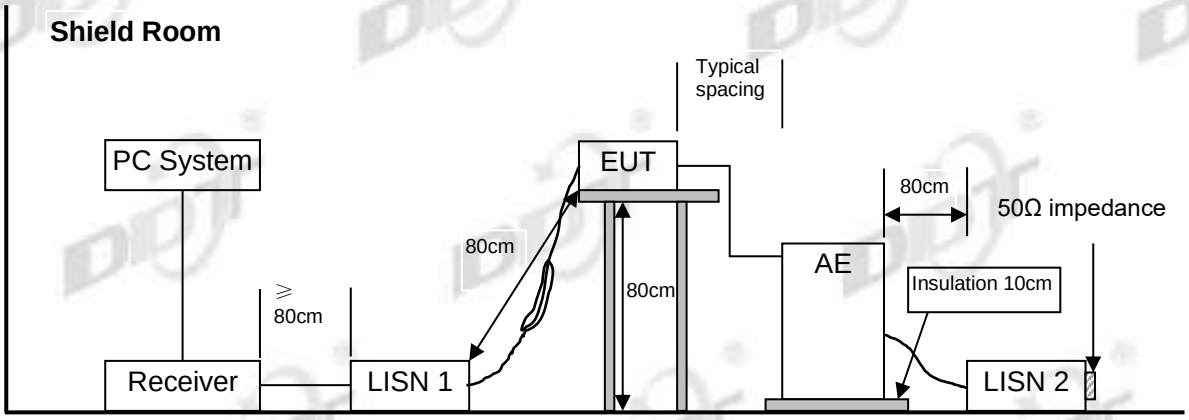
3.3 Reference Standard



ANSI C63.4: 2014; 47 CFR FCC Part 15 Subpart B

3.4 Block Diagram of Test Setup

For table-top equipment



For floor standing equipment

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1653

For combinations equipment

3.5 Limits

Class A

Frequency			Quasi-Peak Level dB(μV)	Average Level dB(μV)
150kHz	~	500kHz	79	66
500kHz	~	30MHz	73	60

Class B

Frequency			Quasi-Peak Level dB(μV)	Average Level dB(μV)
150kHz	~	500kHz	66 ~ 56*	56 ~ 46*
500kHz	~	5MHz	56	46
5MHz	~	30MHz	60	50

Notes: 1. * Decreasing linearly with logarithm of frequency.
2. The lower limit shall apply at the transition frequencies.

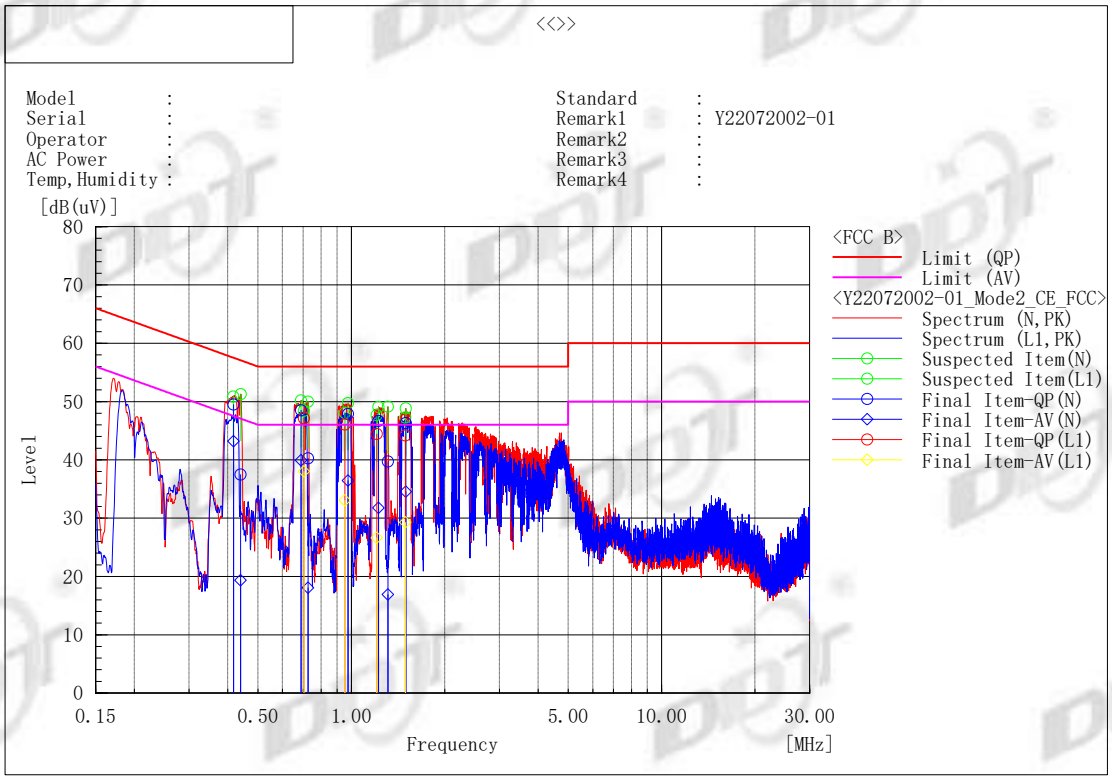
3.6 Test Procedure

The EUT and Support equipment, if needed, were put placed on a non-metallic table, 80cm (table-top device)/0.1m (floor stand device) above the ground plane.
All I/O cables were positioned to simulate typical actual usage as per ANSI C63.4.
All support equipment power received from a second LISN.
Emissions were measured on each current carrying line of the EUT using an EMI Test Receiver connected to the LISN powering the EUT.
The Receiver scanned from 150 kHz to 30MHz for emissions in each of the test modes.
During the above scans, the emissions were maximized by cable manipulation.
The test mode(s) described in clause 2.5 were scanned during the preliminary test.
After the preliminary scan, we found the test mode producing the highest emission level.
The EUT configuration and worse cable configuration of the above highest emission levels were recorded for reference of the final test.
EUT and support equipment were set up on the test bench as per the configuration with highest emission level in the preliminary test.
A scan was taken on both power lines, Neutral and Line, recording at least the six highest emissions. Emission frequency and amplitude were recorded into a computer in which correction factors were used to calculate the emission level and compare reading to the applicable limit.
The test data of the worst-case condition(s) was recorded.
The bandwidth of test receiver is set at 9 KHz.

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1654

The EUT with following test modes were pre-tested:

No.	Operation Mode	Cable Length	Resolution
1.	Mode 1 HDMI	1.8m	2560x1440@75Hz
2.		1.8m	2560x1440@60Hz
3.		1.8m	1920*1080@60Hz
4.		1.8m	800*600@60Hz
5.		1.5m	2560x1440@75Hz
6.	Mode 2 DP	1.8m	2560x1440@75Hz
7. *		1.8m	2560x1440@60Hz
8.		1.8m	1920*1080@60Hz
9.		1.8m	800*600@60Hz
10.		1.5m	2560x1440@60Hz
11.	Mode 3 Type-C	1.8m	2560x1440@75Hz
12.		1.8m	2560x1440@60Hz
13.		1.8m	1920*1080@60Hz
14.		1.8m	800*600@60Hz
15.		1.5m	2560x1440@75Hz
16.	DP 2560x1440@60Hz with 1.5m power cord		
* Means the worst test mode.			



3.7 Test Result

PASS. (See below detailed test result)

Note 1: All emissions not reported below are too low against the prescribed limits.

4.5 Limits

Class A

Frequency (MHz)	Distance (Meters)	Field Strengths Limits dB(μV)/m
30--88	10	39
88--216	10	43.5
216--960	10	46.5
960-1000	10	49.5
Above 1000	3	80.0(Peak), 60.0(Average)

Class B

Frequency (MHz)	Distance (Meters)	Field Strengths Limits dB(μV)/m
30--88	10	30.0
88--216	10	33.5
216--960	10	36.0
960-1000	10	44.0
Above 1000	3	74.0(Peak), 54.0(Average)

Note: (1) The smaller limit shall apply at the cross point between two frequency bands.

4.6 Test Procedure

Procedure of Preliminary Test
The EUT and Support equipment, if needed, were put placed on a non-metallic table, 80cm (table-top device)/0.1m (floor stand device) above the ground plane.
Configuration EUT to simulate typical usage as described in clause 2.5 and test equipment as described in clause 4.2 of this report.
All I/O cables were positioned to simulate typical actual usage as per ANSI C63.4.
Mains cables, telephone lines or other connections to auxiliary equipment located outside the test are shall drape to the floor, be fitted with ferrite clamps or ferrite tubes placed on the floor at the point where the cable reaches the floor and then routed to the place where they leave the turntable. No extension cords shall be used to mains receptacle.
The antenna was placed at 10 meters (for 30MHz – 1GHz) and 3 meters (for above 1 GHz) away from the EUT as stated in ANSI C63.4. The antenna connected to the Spectrum Analyzer via a cable and at times a pre-amplifier would be used.
The Analyzer / Receiver quickly scanned from 30MHz to 1GHz and 1GHz to 6GHz. The EUT test program was started. Emissions were scanned and measured rotating the EUT to 360 degrees and positioning the antenna 1 to 4 meters above the ground plane, in both the vertical and the horizontal polarization, to maximize the emission reading level.
The test mode(s) described in clause 2.5 were scanned during the preliminary test:
After the preliminary scan, we found the test mode producing the highest emission level. The EUT and cable configuration, antenna position, polarization and turntable position of the above highest emission level were recorded for the final test.
Procedure of Final Test
EUT and support equipment were set up on the turntable as per the configuration with highest emission level in the preliminary test.
The Analyzer / Receiver scanned from 30MHz to 1GHz and 1GHz to 6GHz. Emissions were scanned and measured rotating the EUT to 360 degrees, varying cable placement and positioning the antenna 1 to 4 meters above the ground plane, in both the vertical and the horizontal polarization, to maximize the emission reading level.
Recorded at least the six highest emissions. Emission frequency, amplitude, antenna position, polarization and turntable position were recorded into a computer in which correction factors were used to calculate the emission level and compare reading to the applicable limit and only Q.P. reading is presented.

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1659

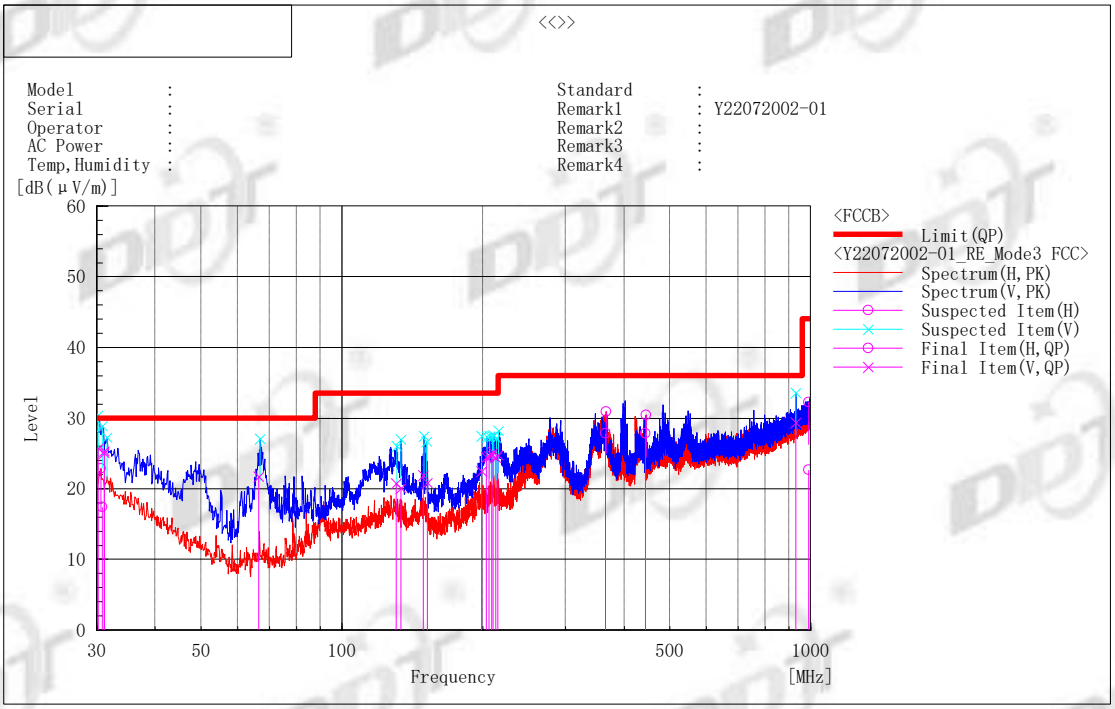
For emissions from 30MHz to 1GHz, Quasi-Peak values were measured with EMI Receiver and the bandwidth of Receiver is 120 KHz.
For emissions above 1GHz, both Peak and Average level were measured with Spectrum Analyzer, and the RBW is set at 1MHz
The test data of the worst-case condition(s) was recorded.

The EUT with following test modes were pre-tested:
For frequency range 30MHz ~ 1GHz:

No.	Operation Mode	Cable Length	Resolution
1.	Mode 1 HDMI	1.8m	2560x1440@75Hz
2.		1.8m	2560x1440@60Hz
3.		1.8m	1920*1080@60Hz
4.		1.8m	800*600@60Hz
5.		1.5m	2560x1440@75Hz
6.	Mode 2 DP	1.8m	2560x1440@75Hz
7.		1.8m	2560x1440@60Hz
8.		1.8m	1920*1080@60Hz
9.		1.8m	800*600@60Hz
10.		1.5m	2560x1440@75Hz
11. *	Mode 3 Type-C	1.8m	2560x1440@75Hz
12.		1.8m	2560x1440@60Hz
13.		1.8m	1920*1080@60Hz
14.		1.8m	800*600@60Hz
15.		1.5m	2560x1440@75Hz
16.	Type-C 2560x1440@75Hz with 1.5m power cord		
17.	Type-C 1920*1080@60Hz with headphone		
18.	Type-C 1920*1080@60Hz without headphone		
* Means the worst test mode.			

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1660

For frequency range above 1GHz:



No.	Operation Mode	Cable Length	Resolution
1.	Mode 1 HDMI	1.8m	2560x1440@75Hz
2.		1.8m	2560x1440@60Hz
3.		1.8m	1920*1080@60Hz
4.		1.8m	800*600@60Hz
5.		1.5m	2560x1440@60Hz
6. *	Mode 2 DP	1.8m	2560x1440@75Hz
7.		1.8m	2560x1440@60Hz
8.		1.8m	1920*1080@60Hz
9.		1.8m	800*600@60Hz
10.		1.5m	2560x1440@75Hz
11.	Mode 3 Type-C	1.8m	2560x1440@75Hz
12.		1.8m	2560x1440@60Hz
13.		1.8m	1920*1080@60Hz
14.		1.8m	800*600@60Hz
15.		1.5m	2560x1440@60Hz
16.	DP 2560x1440@75Hz with 1.5m power cord		
17.	DP 1920*1080@60Hz with headphone		
18.	DP 1920*1080@60Hz without headphone		
* Means the worst test mode.			

4.7 Test result

PASS. (See below detailed test result)
Note: All emissions not reported below are too low against the prescribed limits.

Annex I

Regulatory Statement and Label Marking Advice for the FCC SDoC

1. Marking Suggested for the label:

Trade Name and model number This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2. Statement suggested for the User Manual:

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

Notes: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Note: If shielded cables or special accessories are required for compliance, a statement must be included which instructs the user to employ them, for example, Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

Assessment Report Declare

Applicant	:	TPV Electronics (Fujian) Co., Ltd.
Address	:	Rongqiao Economic and Technological Development Zone, Fuqing City, Fujian Province, P.R. China
Equipment under Test	:	LCD Monitor
Model No.	:	27B1U56,27B1U56******* ("*" = 0-9, A-Z, a-z, +, -, /, \ or blank)
Trade Mark	:	PHILIPS

Assessment Standard Used:
EN 62311:2008, EN IEC 62311:2020 Assessment of electronic and electrical equipment related to human exposure restrictions for electromagnetic fields (0 Hz to 300 GHz)

We Declare:
The equipment described above is tested and assessed by Tianjin Dongdian Testing Service Co., Ltd. and in the configuration assessed the equipment complied with the standards specified above. The tested and assessed results are contained in this test report and Tianjin Dongdian Testing Service Co., Ltd. is assumed of full responsibility for the accuracy and completeness of these assessments.
After test and evaluation, our opinion is that the equipment provided for test compliance with the requirement of the above CE standards.

2.9 Measurement uncertainty

Test Item	Uncertainty
Emission of electric fields	3.2 dB (100KHz-6GHz)
Emission of electromagnetic fields	3.8 dB (1Hz-400KHz)
Note: This uncertainty represents an expanded uncertainty expressed at approximately the 95% confidence level using a coverage factor of k=2.	

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1675

3. EMF Assessment (B-Field and E-Field Strength)

3.1 General information

Test date	Jul. 21, 2022	**Test engineer**	May	
Climate condition	**Ambient temperature**	24.5±1 ℃	**Relative humidity**	45±1%
	Atmospheric pressure	100.6±0.2kPa		
Test place	3m Chamber 1#			

3.2 Test Equipment

Equipment	Manufacturer	Model No.	Serial No.	Last Cal.	Cal. Interval
Exposure Level Tester	Narda	ELT-400	M-0425	Feb. 26, 2022	1 Year
B-Field Probe	Narda	100 cm²Probe	M-0440	Feb. 26, 2022	1 Year
Exposure Level Tester	Wavecontrol	SMP2	20SN1419	Feb. 16, 2022	1 Year
E-Field Probe	Wavecontrol	WPF8	20WP041176	Feb. 16, 2022	1 Year

3.3 Reference Standard

EN 62311:2008, EN IEC 62311:2020 applies to electronic and electrical equipment for which no dedicated product
standard or product family standard regarding human exposure to electromagnetic fields applies. It covers equipment with intentional or non-intentional radiators as well as a combination thereof.

It provides assessment methods and criteria to evaluate equipment against limits on exposure of people related to electric, magnetic and electromagnetic fields.

The frequency range covered is from 0 Hz to 300 GHz.
Reference Levels
For electric, magnetic and electromagnetic fields (0Hz to 300GHz, unperturbed r.m.s. values)

Frequency range	E-field strength	H-field strength	B-field	Equivalent plane wave power density S eq
	V/m	A/m	μT	W/m²
0 Hz - 1 Hz	-	$3,2 \times 10^{4}$	4×10^{4}	-
1 Hz - 8 Hz	10 000	$3,2 \times 10^{4} / f^{2}$	$4 \times 10^{4} / f^{2}$	-
8 Hz - 25 Hz	10 000	4 000/f	5 000/f	-
0,025 kHz - 0,8 kHz	250/f	4/f	5/f	-
0,8 kHz - 3 kHz	250/f	5	6,25	-
3 kHz - 150 kHz	87	5	6,25	-
0,15 MHz - 1 MHz	87	0,73/f	0,92/f	-
1 MHz - 10 MHz	$87/f^{1/2}$	0,73/f	0,92/f	-
10 MHz - 400 MHz	28	0,073	0,092	2
400 MHz - 2 000 MHz	$1,375\ f^{1/2}$	$0,003\ 7\ f^{1/2}$	$0,004\ 6\ f^{1/2}$	f/200
2 GHz - 300 GHz	61	0,16	0,20	10

f is as indicated in the frequency range column.

Certificate of Compliance

No. : DDT-Z22072002-1E01

We hereby certify that the following product has been tested by Tianjin Dongdian Testing Service Co., Ltd., with the listing standards and found in conformity with the EC Council Directive of 2014/30/EU. It is possible to use CE marking to demonstrate the conformity with this EMC Directive.

Applicant	:	TPV Electronics (Fujian) Co., Ltd.
Address	:	Rongqiao Economic and Technological Development Zone, Fuqing City, Fujian Province, P.R. China
Product	:	LCD Monitor
Model Number	:	27B1U56,27B1U56******* ("*" = 0-9, A-Z, a-z, +, -, /, \ or blank)
Trade Name	:	PHILIPS
Test Standards	:	EN 55032:2015, EN 55032:2015/A11:2020, EN 55032:2015/A1:2020, CISPR 32:2015/AMD1:2019, AS/NZS CISPR 32:2015 AMD 1:2020, BS EN 55032:2015, BS EN 55032:2015+A11:2020, BS EN 55032:2015+A1:2020 EN 55035:2017, EN 55035:2017/A11:2020, CISPR 35:2016, BS EN 55035:2017, BS EN 55035:2017+A11:2020 EN 61000-3-2:2014, EN IEC 61000-3-2:2019/A1:2021, BS EN 61000-3-2:2014, BS EN IEC 61000-3-2:2019+A1:2021 EN 61000-3-3:2013, EN 61000-3-3:2013/A1:2019, EN 61000-3-3:2013/A2:2021, BS EN 61000-3-3:2013, BS EN 61000-3-3:2013+A1:2019, BS EN 61000-3-3:2013/A2:2021, IEC 61000-4-2:2008, IEC 61000-4-3:2020, IEC 61000-4-4:2012, IEC 61000-4-5:2014/AMD1:2017, IEC 61000-4-6:2013, IEC 61000-4-8:2009, IEC 61000-4-11:2020

6.0 Critical Features
Critical Features/Components - An essential part, material, subassembly, system, software, or accessory of a product that has a direct bearing on the product's conformance to applicable requirements of the ENERGY STAR® Program Requirements. Listed Component - A component part, which has been previously Listed or Certified by an accredited Certification Organization with no restrictions and is used in the intended application within its ratings. Recognized Component - A component part, which has been previously evaluated by an accredited certification body with restrictions and must be evaluated as part of the basic product considering the restrictions as specified by the Conditions of Acceptability. Unlisted Component - A part that has not been previously evaluated to the appropriate designated component standard. It may also be a Listed or Recognized component that is being used outside of its evaluated Listing or component recognition.
Construction Details - For specific construction details, reference should be made to the photographs and descriptions. All dimensions are approximate unless specified as exact or within a tolerance. In addition to the specific construction details described in this Report, the following general requirements also apply.
1. Product Safety Compliance - NA
2. EMI Compliance - NA
3. Schematics - NA
4. Installation, Operating and Safety Instructions - Instructions for installation and use of this product are provided by the manufacturer. Refer to Illustration No.1-2 for details.
5. Package Markings - NA
6. Warranty Information - NA
7. Marking Label - Refer to Illustration No.3.for details.

Illustration 1 - Installation and Safety instruction

1. Important

This electronic user's guide is intended for anyone who uses the Philips monitor. Take time to read this user's manual before you use your monitor. It contains important information and notes regarding the operation of your monitor.

The Philips guarantee applies provided the product is handled properly for its intended use, in accordance with its operating instructions and upon presentation of the original invoice or cash receipt, indicating the date of purchase, dealer's name and model and production number of the product.

1.1 Safety precautions and maintenance

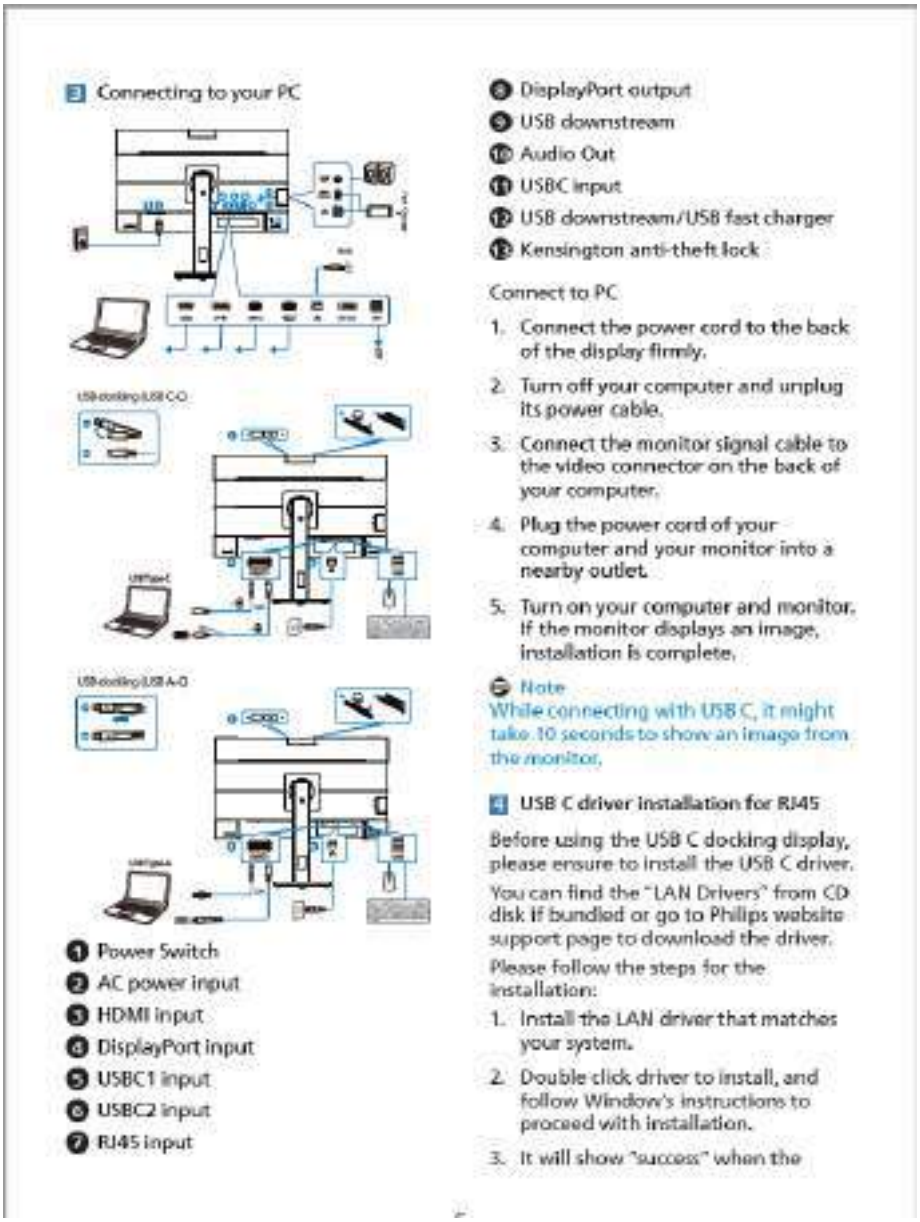
Warnings
Use of controls, adjustments or procedures other than those specified in this documentation may result in exposure to shock, electrical hazards and/or mechanical hazards.

Read and follow these instructions when connecting and using your computer monitor.

Operation

- Please Keep the monitor out of direct sunlight, very strong bright lights and away from any other heat source. Lengthy exposure to this type of environment may result in discoloration and damage to the monitor.
- Keep the display away from oil. Oil may damage the plastic cover of the display and void the warranty.
- Remove any object that could fall into ventilation holes or prevent proper cooling of the monitor's electronics.
- Do not block the ventilation holes on the cabinet.
- When positioning the monitor, make sure the power plug and outlet are easily accessible.
- If turning off the monitor by detaching the power cable or DC power cord, wait for 6 seconds before attaching the power cable or DC power cord for normal operation.
- Please use approved power cord provided by Philips at all times. If your power cord is missing, please contact your local service center. (Please refer to Service contact information listed in Important information manual.)
- Do not subject the monitor to severe vibration or high impact conditions during operation.
- To avoid potential damage, for example the panel peeling from the bezel, ensure that the monitor does not tilt downward by more than -5 degrees. If the -5 degree downward tilt angle maximum is exceeded, the monitor damage will not be covered under warranty.
- Do not knock or drop the monitor during operation or transportation.
- The USB Type-C port could only be connected to specify equipment with fire enclosure in compliance with IEC 62368-1 or IEC 60950-1.

Maintenance



- To protect your monitor from possible damage, do not put excessive pressure on the LCD panel. When moving your monitor, grasp the frame to lift; do not lift the

6. USBC2 input
7. RJ45 input
8. DisplayPort output
9. USB downstream
10. Audio Out
11. USBC input
12. USB downstream/USB fast charger
13. Kensington anti-theft lock

Connect to PC

1. Connect the power cord to the back of the display firmly.
2. Turn off your computer and unplug its power cable.
3. Connect the monitor signal cable to the video connector on the back of your computer.
4. Plug the power cord of your computer and your monitor into a nearby outlet.
5. Turn on your computer and monitor. If the monitor displays an image, installation is complete.

Note
While connecting with USB C, it might take 10 seconds to show an image from the monitor.

4 USB C driver installation for RJ45

Before using the USB C docking display, please ensure to install the USB C driver.

You can find the "LAN Drivers" from CD disk if bundled or go to Philips website support page to download the driver.

Please follow the steps for the installation:

1. Install the LAN driver that matches your system.
2. Double click driver to install, and follow Window's instructions to proceed with installation.
3. It will show "success" when the

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1695

10.0 General Information

The Applicant has agreed to produce products in accordance with the requirements of this report and to maintain compliance with all ENERGY STAR Product Specification requirements.

Changes to Product Design / Alternate Components

As part of this agreement, the Applicant also has agreed to notify Intertek and to request authorization prior to making any changes to the product (including but not limited to using alternate parts, components or materials) which may effect compliance with the ENERGY STAR Product Specification. Those parts, components or materials identified as critical have been listed in Section 4.0 of this report.

Product Surveillance

Under this Program, market surveillance is conducted on an annual basis. For each Product Type defined in the EPA ENERGY STAR Program, Intertek will select 10% of those certified products for Verification Testing in accordance with the requirements of the EPA ENERGY STAR Product Specification.

The primary source for products under Verification Testing will be the retail market. Applicants whose products are selected for Verification Testing are required to provide a list of locations where the product might be obtained. The Applicant is responsible for the cost of procurement and the Verification Tests. Should products not be readily available on the retail market, the Applicant is required to provide access to distribution warehouses to allow selection of those products. Should the product not be available on the retail market or if procurement from the retail market is not feasible, then alternate arrangements for Verification Testing will be made by the Intertek Certification Body.

As a general rule under the Verification Testing requirements, the products must achieve energy values within 5% of the required Tier Limit.

Compliance with ENERGY STAR Product Specifications under Verification Testing

Products found non-compliant with ENERGY STAR Product Specification under Verification Testing, will be reported to the EPA within 48 hours and the product removed from the ENERGY STAR Program. If it is determined during Verification Testing that changes have been made to product design or critical components, the Certification Body may increase Verification Testing frequency of those products.

10.1 Evaluation of Unlisted Components

Because Unlisted Components are uncontrolled, and they do not fall under a third party follow up program, Intertek may require these components to be tested and/or evaluated at least once annually, more often for certain components, as part of the independent certification process. The Unlisted Components in Section 5.0 require testing and/or evaluation as indicated.

Note to Intertek Follow Up Inspector: The Component Evaluation Center, CEC, will notify you in writing when these components must be selected and sent to the CEC for re-evaluation

Ship the samples to:
Intertek Testing Services Shanghai Limited
ETL Component Evaluation Center
Building No. 86, 1198 Qinzhou Road (North)
Shanghai 200233, China
Attn: Ms. Angela Han
Sample Disposition: Due to the destructive nature of the testing, all samples will be discarded at the conclusion of testing unless, the manufacturer specifically requests the return of the samples. The request for return must accompany the initial component shipment.

Proposta de Preço ITEM 2 - TORINO INFORMATICA LTDA. (1661825) SEI 2025.001317 / pg. 1696

11.0 Manufacturing and Production Tests

Manufacturing and Production tests are not required under the INTERTEK ENERGY STAR Program. However, Intertek encourages the use of such ongoing product testing to ensure compliance with the EPA ENERGY STAR Product Specifications.

CERTIFICATE OF CONFORMITY

This Certificate indicates that the Applicant has satisfied the Intertek requirements for the application of the EPA ENERGY STAR Mark to the model(s) described in the Product(s) Covered section of the referenced Compliance Report when made in accordance with the conditions set forth in the Energy Efficiency Certification Agreement, the Certification Report and the Program Manual. This certificate is issued subject to the Applicant attaining, and remaining in, compliance with any separate EPA ENERGY STAR Program requirements necessary for use of the ENERGY STAR Mark. This document is the property of Intertek Testing Services and is not transferable.

Dear Janet Chen,

The above specified equipment has been tested and found to be in accordance with the relevant requirements.

Please find enclosed your certificate as specified above.

If cancellation of the certificate is submitted by 15 November in a given year, no fee will be charged for the following year.

The certificate is issued with the reservation that the license holder applies all information required in § 6 of the ProdSG related to name and address of the manufacturer or his authorized representative / importer, including their respective contact addresses on the product prior to marketing of the product in the European Economic Area.
In case you have a change regarding your involved local representative for the certificate, please inform us in due time.

With kind regards,

EXPORT PRODUCT SUMMARY

EPEAT Tier Score Detail

For a product to be listed on the EPEAT Registry, it must, at a minimum, meet the applicable “required” criteria. Click here to see a list of the required criteria for this product category.

This product has met the necessary required criteria.

Along with required criteria, products can also meet optional criteria and score optional points. It is not required for a product to achieve any optional points.

Products that meet all required criteria and achieve **less than 50%** of the optional points are rated at
EPEAT Bronze

Products that meet all required criteria and achieve **50 - 74%** of the optional points are rated at
EPEAT Silver

Products that meet all required criteria and achieve **75 - 100%** of the optional points are rated at

THE SINGAPORE CONSUMER PROTECTION (SAFETY REQUIREMENTS) REGISTRATION SCHEME

CERTIFICATE OF CONFORMITY (COC)

Issued to:	200822460K (UEN) Ms Valarie Seow **MMD Singapore Pte Ltd** 31 Ubi Road 1 #04-01 Singapore 408694 SINGAPORE
Date of Certification:	2022-11-15
Date of Re-certification:	-
Date of Expiry:	2025-11-14
Certificate Number:	221049-11

We certify that the following controlled goods complied with the mandatory requirements of the Singapore Consumer Protection (Safety Requirements) Registration Scheme:

Description of controlled goods:	27" LCD Monitor rated 100-240V~, 50/60Hz, 2A, Class I
Trade Name:	PHILIPS
Model Number:	27B1U56
Country where controlled goods are likely to be manufactured:	ARGENTINA/BRAZIL/CHINA/INDIA/MEXICO/ TAIWAN/THAILAND
Test report number:	220501893SHA-001
Test certificate number:	SE-108867
Testing laboratory:	Intertek Testing Services Shanghai
Tested according to:	IEC 62368-1:2018

_____

(MENG HWEE DESMOND SOH)

TÜV SÜD PSB

Important Notice:
No controlled goods can be supplied in Singapore unless they are registered with the Safety Authority. Please access https://www.cpsaplus.gov.sg/HomePage/ for the registration procedure.

The use of this Certificate is subjected to TÜV SÜD Group Testing and Certification Regulations: www.tuvsud.com/en/-/media/de/product-service/pdf/agbs/testing-and-certification-regulations-tuev-sued-group.pdf

Persons relying on this Certificate should verify its validity by checking the e-directory: www.tuvsud.com/ps-cert.

- Certified Product
  MONITOR LCD (LCD MONITOR)

  Model Designation:
  27B1U5601H, 27B1U56, 27B**********, 27*1**********
  ("*" puede ser 0-9, A-Z, a-z, "+","-", "/", "\" o en blanco)

- Fulfilled Standards
  IEC 62368-1:2018

  The standard(s) listed here reflect the status at the time of the release of this certificate.
- Date of Issue
  2023-02-09
- Certificate Type
  TÜV Rheinland Argentina Voluntary Conformity Mark

  The TÜV Rheinland Argentina Voluntary Conformity Mark shows the buyer, and consumer that a product has been successfully tested and certified by an impartial, independent test body of TÜV Rheinland according to the relevant specifications and that the production has been inspected.

  TÜV Rheinland links the Voluntary Conformity Mark to the general ID number 0000009000 and, if desired, with a QR code. When the certificate number, the product designation or the manufacturer name is entered on the website www.certipedia.com, the search function retrieves information on the valid certificate. This way, third parties check the legal use of the test mark or read which tests the product has undergone.

  With the online marketing service, the certificate information can be utilized as a neutral marketing tool. For this, each product tested receives its own, individual 10-digit ID number and an Internet entry with detailed information.

AUDIO & VIDEO EQUIPMENT TEST REPORT

Applicant:	TPV Electronics (Fujian) Co., Ltd. Rongqiao Economic and Technological Development Zone, Fuqing City, Fujian Province P.R.China
Manufacturer	MMD (Shanghai) Electronics Technology Co., Ltd. Room 5060A, No.2 Building, 555 Dongchuan Road, Minhang District, Shanghai, 200241, P.R. China
Factory	See page 2 details
Product Name:	LCD Monitor
Brand Name:	PHILIPS
Model:	27B1U5601H, 27B1U56, 27B**********, 27*1**********
Model Similarity:	The symbol"*" can be 0-9, A-Z, a-z, "+", "-", "/", "\" or blank,, which is not influencing energy consumption for standby mode.
Rating:	100-240V~, 50/60Hz, 2A Class I
Test Standard/ Regulations:	SANS 941:2014 Edition 1.1: Energy efficiency of electrical and electronic apparatus SANS 62087-1:2017 Edition 1 / IEC 62087-1:2015 Edition 1: Audio, video, and related equipment – Determination of power consumption Part 1: General SANS 62087-3:2017 Edition 1 / IEC 62087-3:2015 Edition 1: Audio, video, and related equipment – Determination of power consumption Part 3: Television sets
Sample Received:	August 22, 2022
Test performed:	August 22, 2022
Testing location:	Intertek Testing Services Ltd., Shanghai. Building No.86, 1198 Qinzhou Road (North), 200233 Shanghai, China
Conclusion:	From the results of the testing on the submitted sample(s), we are of the opinion that the submitted sample(s) COMPLY WITH South African Energy Efficiency Regulations for audio and video equipment.
Note:	1. This report shall not be reproduced, except in full, without written approval of the laboratory. This test results relate only to the items tested. 2. The results contained in the report are for technical evaluation only and are applicable only to the specific test specimen referenced within the report. Determination of the test conclusion is based on IEC Guide 115 in consideration of measurement uncertainty.

AUDIO & VIDEO EQUIPMENT TEST REPORT

TEST EQUIPMENT

Equipment Name	Type	Number	Calibration Date	Due Date
Digital Power Meter	WT 310E	EC6401	July 1, 2022	June 30, 2023
AC Power Source	6430	EC3428	July 12, 2022	July 11, 2023

TEST PROCESS:

The tests are carried out in a room that has an air speed close to test sample of < 0.5m/s, the ambient temperature is maintained at 25°C and the ambient humidity is 47%. The test voltage was 230V at 50Hz.

The test sample was operated at least 1 hour immediately prior to conducting On mode power measurements. After On mode power measurement, then following the standby mode power measurement. If the power level does not drift by more than 5% from the maximum value observed,the UUT can be considered stable and then the measurements were recorded at the end of the 5 minutes period.

TEST RESULTS

Test Item	Test Result	Verdict
Standby mode power consumption:	0.28W	Pass (Required: ≤1.0W)
Note: This test result is base on 27B1U5601H and test signal interface is DisplayPort .

Prezados,

Vimos por meio desta, apresentar nossa proposta comercial e temos o prazer de encaminhar, para análise e apreciação, uma breve apresentação desta empresa, com o intuito de conhecerem nosso prestígio.

Desde 1997 prestando serviços em Tecnologia da Informação, a ER Soluções esteve sempre presente nos principais acontecimentos da Indústria da Informática no Brasil.

Com larga experiência varejista além da já premiada atuação no setor governamental e agora com uma ativa presença no mercado SMB regional, a E.R. Soluções obteve importantes parcerias permitindo a presença constante nos principais usuários de TI. Adquirimos competências fundamentais envolvendo as principais tecnologias e os melhores fabricantes do mercado, destacando-se Dell, Lenovo, Microsoft e VMware, entre outras parceiras.

É com este know-how que oferecemos produtos e serviços com o que há de mais moderno dentro das melhores práticas em TI, com equipes de profissionais treinados e certificados, elaborando projetos, apresentando soluções, atendendo necessidades, e prevendo demandas para os mais diversos negócios em todo o território nacional.

O documento a seguir apresenta a proposta de equipamentos, softwares e serviços para o referido pregão.

Desde já agradecemos a oportunidade de oferecer os nossos produtos e serviços, e nos colocamos à disposição para os esclarecimentos adicionais que se fizerem necessários.

Agência: 3235-2
Conta Corrente: 115.747-7

DECLARAMOS, que nos preços contidos na Proposta de Preços, estão incluídos todos os custos diretos e indiretos, sem que caiba, em qualquer caso, direito regressivo sobre a execução de serviços, objeto desta licitação, tais como: impostos, taxas, frete CIF, transportes, inclusive o lucro do fornecedor, materiais, equipamentos, mão-de-obra, encargos sociais, trabalhistas e previdenciários, tributos e contribuições de qualquer natureza ou espécie, não cabendo, portanto, nenhuma reclamação posterior no sentido de alteração de preços.

DECLARAMOS, que aceitamos todas as condições estabelecidas no edital e nos anexos do Pregão Eletrônico n°94010-2025

DECLARAMOS, que a fabricante possui recurso disponibilizado via website do próprio fabricante https://pcsupport.lenovo.com/br/pt/warrantylookup, para realizar a validação e verificação da garantia do equipamento através da inserção do número de série do equipamento e também disponibiliza em seu web site http://support.lenovo.com/us/en/lenovodiagnosticsolutions, software capaz de realizar testes de diagnóstico de hardware.

DECLARAMOS, ainda, que a Lenovo dispões de telefone gratuito 0800-701-4815 (ligações fora da cidade de São Paulo) e 11 3889-8986 (ligações de São Paulo) para abertura de chamados técnicos em Língua Portuguesa e service desk com histórico dos registros, e que os drivers, atualizações e suporte dos produtos Lenovo, estão disponíveis para download no site http://support.lenovo.com/br/pt. Os chamados serão abertos através de código de identificação único para cada máquina. Durante o prazo de garantia, será substituída sem ônus a contratante, a parte ou peça defeituosa, salva quando o defeito for provocado por uso inadequado dos equipamentos. A Lenovo possui um canal específico para auxiliá-lo no descarte desses produtos. Caso você possua um produto Lenovo em situação de descarte, ligue para o nosso SAC ou encaminhe um e-mail para: reciclar@lenovo.com, informando o modelo, número de série e cidade, a fim de envio das instruções para o correto descarte do seu produto Lenovo.

DECLARAMOS, que todos os equipamentos a serem entregues serão novos, idênticos, com componentes externos e internos de mesmo modelo e marca dos equipamentos ofertados na proposta, salvo se o equipamento não se encontrar mais disponível no mercado no ato do pedido. Em caso de descontinuidade do produto oferecido, ou diante da indisponibilidade devidamente comprovada, este será substituído pelo sucedâneo com as mesmas características ou superiores, ou ainda, por um modelo com características idênticas ou superiores ao ofertado, mediante análise de catálogos, durante todo o período de validade da Ata de Registro de Preços ou do Contrato vigente.

DECLARAÇÃO CONJUNTA

A empresa **E.R. SOLUÇÕES INFORMATICA LTDA**, cadastrada no CNJP sob nº **05.778.325/0005-47** sediada na Avenida Cem, S/N – Quadra – 01 Sala 01 Piso 02, na cidade de Serra estado do Espírito Santo, através de seu representante legal **Srta. Julia Barbosa Avelar**, brasileira, solteira, vendedora, portador do RG n°54.193.926-9 SSP/SP , cadastrado no CPF sob nº 318.101.328-51, residente e domiciliado na cidade de Ribeirão Preto na Rua João Vendrusculo, 3100 - Ribeirão Verde CEP 14.079-328, declara para todos os fins de direito, especificamente para participação da licitação na modalidade epigrafada e conforme Lei Federal nº 8.666/93 e Constituição Federal, que:

a) Que até a presente datada, não há fato superveniente impeditivo à sua habilitação para participação em processos/procedimentos licitatórios junto a órgãos públicos, comprometendo-se a declará-lo(s) caso venha(m) a ocorrer.

b) Que está em situação regular junto ao Ministério do Trabalho. Para fins do disposto no inciso V do art. 27 da Lei nº 8.666, de 21 de junho de 1993, acrescido pela Lei nº 9.854, de 27 de outubro de 1999, não possuímos em nosso quadro de pessoal menores de 18 anos em trabalho noturno, perigoso ou insalubre e menores de 16 anos, em qualquer outro tipo de trabalho, salvo na condição de aprendiz, a partir de 14 anos, nos moldes do inciso XXXIII do artigo 7º da CF.

c) Que não foi declarada inidônea ou apenada por suspensão pelo Poder Público de qualquer esfera (Art. 87 IV);

d) Que cumpre todas as normas relativas à saúde, higiene e segurança do trabalho de seus empregados.

e) Que não possui funcionários, dirigentes ou acionistas detentores do controle da empresa participante da licitação, que possuam vínculos direto ou indireto com Administração do referido processo, nos termos do art. 9º da Lei Federal 8.666/93;

f) Que não está impedida de contratar com a Administração Pública do referido processo licitatório,

direta ou indiretamente e que se compromete a comunicar ocorrência de fatos supervenientes.

g) Que, conforme disposto no art. 93 da Lei nº 8.213, de 24 de julho de 1991, estou ciente do cumprimento da reserva de cargos prevista em lei para pessoa com deficiência ou para reabilitado da Previdência Social e que, se aplicado ao número de funcionários da minha empresa, atendo às regras de acessibilidade previstas na legislação.

h) Sob as penas da Lei, declaro que cumpro a Cota de Aprendizagem - DCCA, nos termos estabelecidos no art. 429 da CLT da Consolidação das Leis do Trabalho – CLT.

i) Que não possuo, em minha cadeia produtiva, empregados executando trabalho degradante ou forçado, observando o disposto nos incisos III e IV do art.1º e no inciso III do art.5º da Constituição Federal.

j) Que emite Nota Fiscal Eletrônica – NF-e.

k) Que examinou cuidadosamente o processo contendo o Edital Completo, nela não achando nenhuma falta ou irregularidade que comprometesse a legalidade do certame licitatório, aceitando e submetendo-se, portanto, aos itens editalícios, às cláusulas contratuais e às condições físicas ora estipuladas para a execução do objeto licitado;

l) Que estou ciente e concordo com as condições contidas no edital e seus anexos, bem como de que cumpro plenamente os requisitos de habilitação definidos no edital.

m) Que se responsabiliza integralmente pela prestação dos serviços e qualidade dos materiais ora contratados;

DECLARAÇÕES COMPLEMENTARES

Declaro para os devidos fins junto à Comissão Permanente de Licitação que:

a) cumpro plenamente os requisitos de habilitação e estou ciente de que respondo pela veracidade das informações prestadas, na forma da lei;

b) em atenção ao **item 5.6.** do Edital e ao **Art. 14, e incisos, da Lei n.º 14.133/2021,** não estou impedido de participar direta ou indiretamente desta licitação, e ainda, que não possuo sócios, diretores ou gerentes, que sejam cônjuge, companheiro ou parente em linha reta, colateral ou por afinidade, até o terceiro grau, inclusive, de membros ou de servidores ocupantes de cargo de direção, chefia ou assessoramento no âmbito do Ministério Público do Estado do Amazonas e de sua CPL;

c) recebi o edital e todos os documentos que o integram, dispondo de todos os elementos e informações necessários à elaboração da proposta de preços com total e completo conhecimento do objeto da licitação;

d) os documentos e declarações apresentados são fiéis e verdadeiros;

e) caso seja vencedor do certame e não cadastrado no SISTEMA DE ADMINISTRAÇÃO FINANCEIRA E CONTABILIDADE da SECRETARIA DA FAZENDA DO ESTADO DO AMAZONAS – SEFAZ-AM, encaminharei à CONTRATANTE os documentos necessários para efetuar o referido cadastramento no prazo de 05 (cinco) dias úteis, a contar da adjudicação, sob pena de perder o direito de preferência à contratação em favor dos demais licitantes subsequentes, sem prejuízo da possibilidade de responder a procedimento administrativo de responsabilização (PAR) por eventual retardamento da licitação;

f) o preço inclui, além do lucro, todos os custos e despesas, com tributos incidentes e encargos devidos, materiais, serviços, transporte, a integralidade dos custos para atendimento dos direitos trabalhistas assegurados na Constituição Federal, nas leis trabalhistas, nas normas infralegais, nas convenções coletivas de trabalho e nos termos de ajustamento de conduta vigentes na data de entrega das propostas, bem como quaisquer outras despesas diretas e indiretas incidentes na prestação de serviços;

g) a proposta apresentada para participar do presente Pregão foi elaborada de maneira independente por esta licitante e o seu conteúdo não foi, no todo ou em parte, direta ou indiretamente, informado, discutido ou recebido de qualquer outro participante potencial ou de fato, por qualquer meio ou por qualquer pessoa.

A Lenovo declara ainda que os produtos acima citados:

- Teclado no padrão ABNT2 Português.
- Cpu, teclado, mouse e monitor possuem mesmo padrão de cor e são de fabricação Lenovo.
- Placa mãe fabricada para uso exclusivo
- BIOS com direitos copyright.
- Componentes do produto são novos (sem uso, reforma ou recondicionamento) e produtos pertencentes à Linha Corporativa.
- Os equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, que utilizam materiais recicláveis.
- Os produtos estão em linha de produção sem previsão de encerramento antes de 90 dias.
- Possuem BIOS desenvolvida pela Lenovo em Flash Memory onde somos responsáveis por atualizações e manutenções, em idioma inglês ou português. Implementada em memória Flash-ROM, com suporte plug-and-play, tipo flash EPROM e SMBIOS 2.4.
- Possui Memoria não volátil e reprogramável.
- Possuir recursos de controle de permissão através de senhas.

Docusign Envelope ID: 584A497D-0AF3-4A88-9365-C6BBBAB81E01

- Possibilita que a senha de acesso ao BIOS seja ativada e desativada via SETUP. Suporte a senha de inicialização, Power on, administrador e disco rígido.
- Logo do fabricante na inicialização sendo permitido sua customização, número de série do equipamento gravada na Bios, campo editável que permite inserir identificação customizada como inclusão de identificação e patrimônio, podendo ser consultada e atualizada por software de gerenciamento e via comandos DMI.
- Bios com capacidade de habilitar/desabilitar drivers de entrada e saída, individualmente portas USB, webcam, áudio e microfone.
- Atualização da BIOS por meio de interface gráfica através de utilitário, dentro do sistema operacional ou site do fabricante.
  Em atendimento as diretrizes da lei Nº 12 305/2010, que institui a Política Nacional de Resíduos Sólidos, o fabricante do equipamento será responsável pelo mecanismo de Logística Reversa.
- Suporte ao padrão de gerenciamento DMI 2.0 em conformidade com a especificação UEFI 2.8 e capturáveis pela aplicação de inventário SCCM.
- Suporte a ACPI 6.3 com controle automático de rotação do ventilador da CPU. Monitoramento das velocidades dos coolers, temperatura do processador e tensão utilizada pela fonte Possui sistema de dissipação de calor dimensionado suportando operar por 12 horas diárias.
- Software de Diagnóstico, embarcado no BIOS para diagnóstico de problemas que permite o teste do equipamento, com independência do Sistema Operacional, capaz de ser executado através da tecla função. Capaz de verificar, testar emitir relatório através de tela gráfica com o andamento do teste e informações sobre o fabricante, modelo do equipamento, processador memória, firmware, capacidade do disco.
- Conformidade com a NIST 800 147 nos padrões de criptografia com função integrada para apagar dados do disco rígido de forma segura não permitindo sua recuperação através de ferramentas.
  Em Conformidade NIST 800-88
- A BIOS está em conformidade com a normativa de segurança NIST 800-193 ou ISO/IEC 19678:2015, de maneira a usar métodos de criptografia robusta para verificar a integridade da BIOS antes de passar o controle de execução à mesma;
- Capacidade de desligamento do vídeo e do disco após tempo determinado pelo usuário e religamento por acionamento de teclado ou movimentação do mouse com função de economia de energia para monitor, placa mãe e disco.
- Permite o boot através de unidade de disco óptico, dispositivo USB ou pela rede.
- Permite a replicação da Bios pela rede ou por USB.
- Placa mãe fabricada pela Lenovo, com Lenovo serigrafado na placa, desenvolvida para o mercado corporativo.
  Placa mãe suporta Virtualização baseada em hardware.
- Possui Chip de segurança TPM 2.0 integrado, acompanhado do software capaz de implementar as principais funcionalidades do mesmo.
- Lenovo possui sistema de carregamento de imagens personalizadas, e serviço de gravação de logotipo a laser no gabinete.
- Placa de Rede com tecnologia WOL e PXE 2.1.
- Disco com suporte a tecnologia SMART, e tecnologia redutora de danos ao disco rígido, NCQ e AHCI.
- Placa mãe suporta os padrões de gerenciamento WMI.
- Acompanha cabo de alimentação e plug de acordo com a NBR 14136.
- Todas as fontes são bivolts (100 a 240 V)
- A garantia do monitor ofertado cobre ainda o reparo ou substituição do monitor no caso do aparecimento de no mínimo 3 pixels queimados.
- Suporte ao sistema operacional Linux Ubuntu.
  O Bios mostra as configurações de hardware, possuí modo gráfico interativo por mouse e teclado e possuí no próprio hardware cópia de segurança capaz de restauração automática, permitindo carregar em outro equipamento do mesmo modelo estando com senha ou não.
  O Bios possui gravação de Log de eventos acessíveis pelo BIOS, Sistema Operacional e Software de Gerenciamento.
- Bios reconhece automaticamente os discos rígidos instalados.
- Teclado (TECLA00) - possui proteção contra o derramamento de líquidos;

Docusign Envelope ID: 584A497D-0AF3-4A88-9365-C6BBBAB81E01

- Teclado do Notebook citado possui proteção contra o derramamento de líquidos. Acabamentos feito de materiais não cortantes. Permite que o equipamento seja aberto sem a perda de garantia.
- Possuem a capacidade de funcionalidade de segurança avançada de rastreamento pela internet que, em caso de furto ou extravio, permita recuperação e localização do equipamento.
- O compartilhamento randômico de memória RAM com a placa gráfica integrada pode chegar até 50% do total de memória RAM instalada, com o sistema operacional Windows Pro.
- Equipamentos com Microsoft Windows possuem chave de ativação gravada na Bios.
- O desktop possui função que permite ligar o equipamento através de uma combinação de teclas no teclado conectado através de porta USB.
- Conectores integrados à placa-mãe identificados no padrão de cores PC'99 System Design Guide.
- Bios possui capacidade de proteção da memória flash contra gravação.
- Possui função de teste do equipamento, com independência do sistema operacional instalado, capaz de ser executado a partir da UEFI, através do acionamento da tecla função (F1...F12). Este teste verifica, mostra o andamento e emite relatório de componentes, como processador, memória, disco rígico, etc.
- Equipamentos que possuem RJ-45, a interface de rede é compatível com os padrões Ethernet, Fast-Ethernet e Gigabit Ethernet, autosense, full-duplex e plug-and-play, configurável totalmente por software, com função wake-on-lan instalada e em funcionamento, PXE 2.1, TCP/IP/UDP Checksum Offload e RSS (Receive Side Scailling), operando em 10/100/1000 Mbps de forma automática.
- Garantia onsite com atendimento 9x5 (nove horas por cinco dias úteis).
- A substituição das peças estão inclusas durante o prazo de garantia.
- O atendimento pela Assistência Técnica (tempo de solução de um chamado técnico para a definitiva solução) será conforme o edital.
- A garantia não será afetada caso a Contratante venha a instalar placas de rede local, de fax-modem, interfaces específicas para acionamento de outros equipamentos, adicionar unidades de disco rígido, bem como se alterar a capacidade de memória RAM do equipamento, ressaltando que a garantia destes opcionais será total responsabilidade da Contratante.
- O Desktop SFF suporta o peso do monitor quando está na horizontal.
- Para o processo listado, os equipamentos possuem as seguintes fontes:
- -TIO24+M70Q: possuir eficiência igual ou superior a 89%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);
- -P3 Tower: possuir eficiência igual ou superior a 92%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);
- -E14 Intel G6: possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);
- -P16v G2: possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);

- Assistências Técnicas:

2.1 Produto ofertado

Item	Descrição	Quantidade	Produto Ofertado
1	**ITEM 2: MICROCOMPUTADOR TIPO 2 - "WORKSTATION COM MONITOR PRINCIPAL E MONITOR AUXILIAR"** **Marca/Modelo de Referência:** Lenovo THINKSTATION P3 TW.	50	**SUBITEM 2.1: MICROCOMPUTADOR TIPO 2 – "WorkStation Torre"** WORKSTATION HP Z2 G9 TOWER **SUBITEM 2.2: MONITOR PRINCIPAL 27 POL WIDESCREEN** Monitor Philips 27" Hello Webcam 5MP, 27B1U5601H **SUBITEM 2.3: "MONITOR AUXILIAR 27 POL WIDESCREEN"** Monitor AOC 27" ajustável e HUB, 27P2Q

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
Computador tipo "workstation", memória RAM: 32GB DDR-5 UDIMM ECC, núcleos por processador: mínimo 8, armazenamento mínimo SSD: 256GB, mais HDD: 1TB 7.200RPM, alimentação: bivolt automática, sistema operacional: OEM incluído; monitor principal multimídia e monitor auxiliar mínimos de 27 pol widescreen. Equipamento novo, partes e peças, de primeiro uso, com as seguintes características:		
SUBITEM 2.1: MICROCOMPUTADOR TIPO 2 – "WorkStation Torre"		
1. PLACA PRINCIPAL (PLACA-MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação dele, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;		
2. Deverá possuir chipset produzido pelo fabricante do processador ofertado;		
3. Deve possuir, no mínimo, 4 (quatro) slots para memória RAM, "do tipo DDR-5 UDIMM, ou superior", permitindo a instalação de até 128 (cento e vinte e oito) Gigabytes;		
4. Deve suportar tecnologia Dual Channel de utilização de memória RAM, ou superior;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
5. Deve possuir, no mínimo, 6 (seis) interfaces de disco, sendo que no mínimo 2 (duas) interfaces internas, Serial ATA III (600), ou superior e 2 (duas) Sockets M.2 para SSD SATA ou NVMe;	⚠	Não encontrado no caderno de especificações indicação do número de interfaces de disco, do computador ofertado, nem sua distribuição.
6. Deve ter controladora para implementar array de discos do tipo RAID 0/1 para unidades conectadas nos slots M.2, e RAID 0/1 para unidades nas interfaces SATA;		
7. Deve possuir no mínimo, 1 (um) slot PCIe 4.0 x16, 01 (um) slot PCIe 3.0 x4 e 01 (um) slot PCIe 3.0 x1;		
8. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;		
9. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;		
10. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
11. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
12. Deve possuir sistema de detecção de intrusão de chassis, com respectivo acionador instalado no gabinete que permita a detecção de abertura ainda que o equipamento esteja desligado da fonte de energia, devendo gerar log na memória flash da BIOS com todos os eventos de intrusão;		
13. Deve possuir suporte a virtualização por hardware;		
14. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
15. Deve possuir suporte a aceleração de segurança AES no hardware;		
16. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
17. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
18. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1;		
19. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.	⚠	Suporte ao http/https boot.
2. BIOS		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela CONTRATANTE;	⚠	O fabricante declara ser possível, mas indica que "*as customizações deverão estar descritas na proposta comercial emitida pela CONTRATADA*"
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;	□	
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.	□	
3. PROCESSADOR		
1. O processador ofertado, deverá possuir minimamente 8 (oito) núcleos e 16 (dezesseis) threads de processamento, podendo atingir frequência de operação interna de até 5.4 GHz em modo turbo, no mínimo;	□	
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos, threads e ciclos de clock base (MHz);	□	
3. Memória cache total de, no mínimo, 32MB;	□	
4. O conjunto chipset e processador deve ser indicado por seu fabricante como destinado para uso em WorkStations;	□	
5. O processador deverá pertencer à última geração disponível utilizada pelo fabricante do equipamento, com desempenho mínimo de 41.800 (quarenta e um mil e oitocentos) pontos, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php; 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.	□	
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
7. Deve possuir controlador com suporte à memória RAM do tipoDDR5-4400 MT/s, ou superior;	□	
8. Deverá possuir tecnologia de fabricação de 10 nm (dez nanômetros) ou inferior;	□	
9. TDP(Thermal Design Power) típico de 65W, e máximo de 220W, declarado pelo fabricante;	□	
10. Deve possuir instruções do padrão AVX 2.0, ou superior;	□	
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;	□	
12. Deve possuir instruções que implementem extensões de virtualização de hardware;	□	
13. Deve possuir instruções AES-NI embutidas;	□	
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.	□	
4. MEMÓRIA RAM		
1. Deverá possuir, no mínimo, 32 (trinta e dois) Gb de memória RAM instalados, do tipo ECC (Error Correcting Code), com capacidade de expansão mínima de 128 (cento e vinte e oito) Gb;	□	
2. Deverá ser do tipo DDR-5 SODIMM ou superior e possuir, no mínimo, 4.400 MT/s de velocidade de comunicação com o barramento principal;	□	
3. A implementação do total de memória RAM deve utilizar 2 (dois) módulos, em modo dual channel;	□	
4. A memória ofertada, deverá possuir as melhores especificações possíveis dentre as disponíveis para o equipamento proposto;	□	
5. Os módulos devem ser instalados durante o processo de manufatura do computador, e homologados como parte do equipamento, inclusive estando cobertos pela garantia e suporte como descrito no Termo de Referência.	□	
5. UNIDADES DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256Gb e velocidade mínima de gravação de 1.200MB/s;	□	
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;	□	
3. Deve possuir, no mínimo, 1 (uma) unidade secundária de disco rígido (HDD) interna instalada, na capacidade mínima de 1Tb e velocidade de rotação mínima de 7.200RPM; 1. Deve utilizar interface Serial ATA III 600, ou superior; 2. Deve ter capacidade de armazenamento de 1 TB, no mínimo;	□	
4. As unidades devem ser instaladas durante o processo de manufatura do computador, e homologadas como parte do equipamento, inclusive estando cobertas pela garantia e suporte como descrito no Termo de Referência.	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
6. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função wake-on-lan instalada e em funcionamento;		
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		
3. Deve possuir, no mínimo, 01 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.0 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, placa PCIe , conectado em slot específico na placa mãe, ou soldadas diretamente na mesma, “onboard”;		
6. No caso de cartão M.2 ou placa PCIe, o hardware deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. As interfaces Wireless ofertadas devem possuir, na data da entrega da proposta, homologação junto à ANATEL com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
7. CONECTIVIDADE		
1. Deverá possuir no mínimo 2 (duas) portas USB 3.2, do tipo A, localizadas na parte frontal do gabinete;		
2. Deverá possuir no mínimo 4 (quatro) portas USB 3.2, do tipo A, localizadas na parte traseira do gabinete;		
3. Possuir 1 (uma) porta USB 3.2 Tipo C;		
4. Não serão aceitas portas USB instaladas adicionalmente como placas PCI ou adaptadores. As portas devem fazer parte do projeto original da placa mãe do equipamento proposto;		
5. Deverá possuir leitor de cartões de memória integrado com suporte à cartões SD (Secure Digital).		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controladora com no mínimo 8 (oito) GB de memória GDDR6 dedicada, com largura de banda para a VRAM de 128 bits, suportando gráficos 3D/2D e DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.6, ou superior;		
4. Deve suportar Vulkan 1.2, ou superior;		
5. Deve suportar HDCP ou HDR;		
6. Deve suportar a resolução mínima de 3840 X 2160 @ 60 Hz;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
7. Tipo de bus PCI Express x8;	☐	
8. Possuir, no mínimo, um total de 3 (três) portas de vídeo, suportando a utilização de até 2 (dois) monitores auxiliares simultânea e independentemente do monitor principal; 1. Os tipos das portas de vídeo supracitadas devem ser, no mínimo, HDMI 1.4 e/ou DisplayPort 1.2; 2. Serão aceitos adaptadores para atender todas as portas supra citadas, em detrimento das portas diferenciadas e disponíveis na controladora de vídeo externa;	☐	
9. A controladora de vídeo proposta deverá alcançar pontuação mínima de desempenho de 10.500 pontos aferidos pelo site https://www.videocardbenchmark.net/gpu_list.php;	☐	
10. Deverá ser homologada pelo fabricante, com comprovação através de catálogo do equipamento;	☐	
11. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.	☐	
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard", padrão "High Definition Audio";	☐	
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 MM, na parte frontal do gabinete;	☐	
3. Deve possuir, no mínimo, 1 alto-falante interno, com 2 Watts RMS de potência, compatível com a controladora de som.	☐	
10. TECLADO		
1. A marca do teclado deverá ser igual à do fabricante do equipamento ofertado;	☐	
2. Deve ser USB, no idioma padrão, Português (Brasil), ABNT-II;	☐	
3. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute;	☐	O fabricante declara que o teclado "*não possui teclas dedicadas de funções multimedia, desligar, hibernar ou standby*".
4. Admite-se a utilização de teclas de função (F1...F12), para tais ações;	☐	
5. Deve possuir teclado numérico integrado;	⚠	Não diretamente mencionado na declarado na HP
6. Deve possuir, no mínimo, LEDs indicadores de estado das teclas capslock e numlock;	☐	
7. Deve possuir ajuste de inclinação;	☐	
8. Deve ser em gradações das cores preto ou prata;	⚠	Não declarado na proposta a cor do teclado

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. Não será aceito teclado com cabo retrátil;	□	
10. Não será aceito teclado wireless/bluetooth (sem fio).	□	
11. MOUSE		
1. Mouse óptico com conexão USB, de 3 (três) botões e sistema de rolagem, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 1.000 dpi;	□	
2. Deve ser da mesma marca do fabricante do equipamento ofertado;	□	
3. Deve ser em gradações das cores preto ou prata;	□	
4. Deve acompanhar mousepad ergonômico com apoio em gel para o pulso, do mesmo fabricante do equipamento;	⚠	Não declarado na proposta o acampanhamento do mousepad ergonômico.
5. O mouse ou teclado ofertados, deve possuir um leitor biométrico, certificado para trabalhar com a autenticação do Microsoft Windows Hello.	□	O mouse declarado pelo fabricante não possui leitor biométrico. Nem o teclado
12. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		
1. O computador deve ser produzido no formato WorkStation Torre;	□	
2. Gabinete com volume mínimo de 19 (dezenove) e máximo de 27 (vinte e sete) litros e construído de material reforçado;	□	
3. Deverá possuir botão de liga/desliga na parte frontal do gabinete, com LED de indicação de que o equipamento está energizado, em local visível e acessível do gabinete.	□	
4. Deverá possuir pelo menos 2 (duas) baias internas para discos rígidos de 2,5 ou 3,5 polegadas;	□	
5. O gabinete deverá possuir um slot específico para conexão de tranca física de segurança do tipo Kensington ou similar. Deve ser entregue junto com o equipamento, a trava de forma a impedir a abertura do equipamento;	⚠	Não encontrado no caderno de especificações a indicação do slot.
6. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;	□	
7. O gabinete deve possuir acabamento interno composto de superfícies não cortantes;	□	
8. Deverá oferecer a possibilidade de, se demandado, aplicar logo oficial da contratante, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em Laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas no gabinete da workstation visando medidas de segurança;	⚠	O fabricante declara ser possível, mas indica que "*as customizações deverão estar descritas na proposta comercial emitida pela CONTRATADA*"

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. Deve ser fornecido com fonte de alimentação interna do mesmo fabricante e compatível com o equipamento, com potência mínima de 500W (quinhentos Watts), suficiente para suportar todos os dispositivos internos (placa mãe, interfaces, unidades de armazenamento, memória RAM e demais componentes e periféricos);		
10. A fonte de alimentação deve possuir eficiência igual ou superior a 92%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);		
11. A fonte deve aceitar tensão de entrada 110 e 220 Volts, de forma automática;		
12. Deverá ser fornecido um cabo de alimentação Y (para CPU e monitor), com conexão à rede elétrica no padrão NBR 14136:2002.	⚠	Solicita-se a declaração expressa do fornecimento deste item.
13. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para: • Controle: Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.	⚠	Não encontrado especificação
4. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;	⚠	
5. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;	⚠	
6. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
7, Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.	⚠	O fabricante declara ser possível, mas indica que "*as customizações deverão estar descritas na proposta comercial emitida pela CONTRATADA*"
14. COMPATIBILIDADE		
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o modelo e sistema operacional exigido e ofertado;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
2. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;	□	
3. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;	□	
4. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional;	□	
15. OUTROS REQUISITOS		
1. Todas as partes do equipamento (gabinete, base, teclado e mouse) devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;	⚠	Não foi apresentado o catálogo do teclado e do mouse, ou mesmo declarado sua cor.
2. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;	□	
3. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;	□	
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação, unidade de armazenamento, mouse e teclado, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;	□	
5. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;	□	
6. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;	⚠	Não apresentou comprovante, ou não foi possível constatar se a workstation atende ao requisito.
7. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;	□	
8. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;	□	
10. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;	□	
11. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional;	□	
12. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;	□	
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);	□	
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica;	□	
15. A comprovação deverá ser apresentada junto com a proposta;	□	
16. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes à qualquer momento;		
17. Garantia de 60 (sessenta) meses on-site, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.	⚠	Necessário diligências.
SUBITEM 2.2: MONITOR PRINCIPAL 27 POL WIDESCREEN		
1. TELA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);	□	
2. Tamanho de 27 polegadas widescreen, com variação inferior a 3%;	□	
3. Resolução mínima de 2560x1440 a 60Hz, 16 milhões de cores;	□	
4. Ângulo de visão mínimo de 170° horizontal e vertical;	□	
5. Deve possuir controle digital de brilho, contraste e posicionamentos vertical e horizont**al.**	□	
2. INTERFACES		
1. Possuir, no mínimo, 2 (duas) portas de entrada de vídeo;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
2. Não importando os tipos de portas de entrada, deve acompanhar cabos que permitam conectar o monitor a equipamentos com portas de tipo HDMI 1.4 e DisplayPort 1.2;	□	
3. Serão aceitos adaptadores, em adicional aos cabos originais, para contemplar a possibilidade de conexão às portas de entrada solicitadas;	□	
4. O equipamento deve ter HUB USB 3.0 interno, com 1 (uma) porta USB para upstream a partir do PC;	□	
5. Deve possuir 4 (quatro) portas USB 3.0, sendo no mínimo 2 (duas) na lateral, na parte inferior ou na traseira do equipamento;	□	
6. Deve ter 1 (uma) porta combinada de 3,5mm para saída de fone de ouvido e entrada de microfone.	□	
3. MULTIMÍDIA		
1 O monitor deve possuir uma webcam, de no mínimo 5.0 megapixels;	□	
2. Deve incorporar microfone, com cancelamento de ruído, voltados para captar o som do usuário em frente ao monitor;	□	
3. Deve possuir 2 (dois) alto-falantes de 5W cada, integrados na parte frontal ou inferior do monitor.	□	
4. OUTROS REQUISITOS		
1. A cor deve ser predominantemente a mesma da cor ofertada no subitem **2.1 "MICROCOMPUTADOR Workstation"**;	□	
2. Possuir certificação de segurança UL ou IEC 60950;	□	
3. Possuir certificação de economia de energia EPA Energy Star, TCO 5.0 ou similar;	□	
4. Deve aceitar tensões de 110 e 220 Volts de forma automática;	□	
5. Deve acompanhar cabo de alimentação original do fabricante com conector de tomada elétrica no padrão brasileiro (NBR 14136:2002);	□	
6. O equipamento deverá vir acondicionado em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;	□	
7. Os equipamentos não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS - Restriction of Certain Hazardous Substances.	□	
8. O equipamento deve possuir interface de montagem no padrão VESA 100 x 100mm.	□	
9. Deverá possuir mecanismo físico para bloquear/obstruir a função da webcam;	□	
10. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;	⚠	Não foi possível diligenciar se o equipamento está em linha de produção.

DESCRIÇÃO	PARECER	OBSERVAÇÕES
11. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;	⚠	Não foi possível diligenciar.
12. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
13. Garantia de 60 (sessenta) meses on-site, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.	⚠	Necessário diligências.
SUBITEM 2.3: "MONITOR AUXILIAR 27 POL WIDESCREEN"		
1. TELA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 27 polegadas widescreen, com variação inferior a 3%;		
3. Resolução mínima de 1920x1080 a 60Hz, 16 milhões de cores;		
4. Ângulo de visão mínimo de 170° horizontal e vertical;		
5. Deve possuir controle digital de brilho, contraste e posicionamentos vertical e horizontal;		
2. INTERFACES		
1. Possuir ao menos 2 (duas) portas de entrada de vídeo;		
2. Não importando os tipos de portas de entrada, deve acompanhar cabos que permitam conectar o monitor a equipamentos com portas de tipo HDMI 1.4 e DisplayPort; 1. Serão aceitos adaptadores, em adicional aos cabos originais, para contemplar a possibilidade de conexão às portas solicitadas no item acima.		
3. SUPORTE DE MONTAGEM		
1.O equipamento deve possuir interface de montagem no padrão VESA 100 x 100mm;		
2. O acessório deve possibilitar minimamente os seguintes movimentos do monitor: 1. Rotação de 90º; 2. Elevação de 10cm; 3. Panorâmica de 90º; 4. Inclinação de -5º a 20º;		
4. OUTROS REQUISITOS		
1. A cor deve ser predominantemente a mesma da cor ofertada no subitem **2.1 "MICROCOMPUTADOR Workstation"**;		
2. Possuir certificação de segurança UL ou IEC 60950;		
3. Possuir certificação de economia de energia EPA Energy Star, TCO 5.0 ou similar;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. Deve aceitar tensões de 110 e 220 Volts de forma automática;	□	
5. Deve acompanhar cabo de alimentação original do fabricante com conector de tomada elétrica no padrão brasileiro (NBR 14136:2002);	□	
6. O equipamento deverá vir acondicionado em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;	□	
7. Os equipamentos não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS - Restriction of Certain Hazardous Substances;	□	
8. Garantia de 60 (sessenta) meses on-site, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.	⚠	Necessário diligências

3. Conclusão

Nas observações a seguir, os itens em alerta (⚠) indicam a necessidade de realizar diligências para que seja possível constatar seu atendimento aos requisitos. Os pontos indicados em □ não atendem às condições editalícias.

SUBITEM 2.1: MICROCOMPUTADOR TIPO 2 – "WorkStation Torre"

- **Placa Principal, item 5:** ⚠ Deve possuir, no mínimo, 6 (seis) interfaces de disco, sendo que no mínimo 2 (duas) interfaces internas, Serial ATA III (600), ou superior e 2 (duas) Sockets M.2 para SSD SATA ou NVMe;

Não encontrado no caderno de especificações indicação do número de interfaces de disco, do computador ofertado, nem sua distribuição.

- **Placa Principal, item 19:** ⚠ Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.

Verificou-se na documentação o suporte ao PXE. Porém, não há em nenhum trecho da proposta ou dos QuickSpecs referência ao suporte a boot via HTTP/HTTPS, conforme exigido no item 16 do Anexo I do TR ("...inicialização de sistema operacional ... por rede via PXE boot e http/https boot"). Solicita-se diligências.

- **Bios, item 13:** ⚠ Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela CONTRATANTE;

O fabricante declara ser possível, mas indica que "*as customizações deverão estar descritas na proposta comercial emitida pela CONTRATADA*". Deste modo, a proponente deverá declarar expressamente em sua proposta que atende a este requisito.

- **Teclado, item 3**: □ Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute;

O fabricante declara que o teclado "*não possui teclas dedicadas de funções multimedia, desligar, hibernar ou standby*".

- **Teclado, item 5:** ⚠Deve possuir teclado numérico integrado;

Não diretamente mencionado na declarado na HP. Deste modo, a proponente deverá declarar expressamente em sua proposta que atende a este requisito.

- **Teclado, item 8:** ⚠Deve ser em gradações das cores preto ou prata;

Não diretamente mencionado na declarado na HP. Deste modo, a proponente deverá declarar expressamente em sua proposta que atende a este requisito.

- **Mouse, item 4:** ⚠Deve acompanhar mousepad ergonômico com apoio em gel para o pulso, do mesmo fabricante do equipamento;

Não declarado na proposta o acampanhamento do mousepad ergonômico com apoio em gel para o pulso.

- **Mouse, item 5:** □ O mouse ou teclado ofertados, deve possuir um leitor biométrico, certificado para trabalhar com a autenticação do Microsoft Windows Hello.

O mouse declarado pelo fabricante não possui leitor biométrico. Tão pouco o teclado.

- **Formato de manufatura e fonte de alimentação, item 5:** ⚠ O gabinete deverá possuir um slot específico para conexão de tranca física de segurança do tipo Kensington ou similar. Deve ser entregue junto com o equipamento, a trava de forma a impedir a abertura do equipamento;

Não encontrado no caderno de especificações a indicação do slot. Em que pese não haver a necessidade de declarar formalmente o fornecimento da tranca, destacamos desde já a obrigação do proponente.

- **Formato de manufatura e fonte de alimentação, item 8:** ⚠

O fabricante declara ser possível, mas indica que "*as customizações deverão estar descritas na proposta comercial emitida pela CONTRATADA*". Deste modo, a proponente deverá declarar expressamente em sua proposta que atende a este requisito.

- **Formato de manufatura e fonte de alimentação, item 12:** ⚠ Deverá ser fornecido um cabo de alimentação Y (para CPU e monitor), com conexão à rede elétrica no padrão NBR 14136:2002.

Solicita-se a declaração expressa do fornecimento deste item. Em que pese não haver a necessidade de declarar formalmente o fornecimento do cabo, destacamos desde já a obrigação do proponente.

- **Sistema Operacional e sw complementares, item 3, 4 e 5:** Cada equipamento deve incluir uma licença específica de software dedicado para: Controle: • Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.

O proponente indicou o "software ABSOLUTO". A proponente deverá apresentar documentação que comprove que o "Software ABSOLUTO" oferece todas as funcionalidades do § 3.3 do TR (gestão 100 % em nuvem, geotracking, bloqueio/remoto, anti-adulteração, mecanismos de recuperação, logs etc.).

- **Sistema Operacional e sw complementares, item 10:** ⚠ Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.

O fabricante declara ser possível, mas indica que "*as customizações deverão estar descritas na proposta comercial emitida pela CONTRATADA*". Deste modo, a proponente deverá declarar expressamente em sua proposta que atende a este requisito.

- **Outros requisitos, item 1:** ⚠ Todas as partes do equipamento (gabinete, base, teclado e mouse) devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;

Não foi apresentado o catálogo do teclado e do mouse, ou mesmo declarado sua cor. A proponente deverá apresentar o catálogo de tais dispositivos para permitir a perfeita compatibilização desses itens.

- **Outros requisitos, item 6:** ⚠ Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;

Não foi possível diligenciar no site da HP a comprovação deste item. Solicita-se comprovação de cumprimento deste item.

- **Garantia de 60 (sessenta) meses on-site, item 17: Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.

A declaração da HP apresentada indica:

> *• Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;*
> *• Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, para o monitor, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);*

a) Nota-se que a declaração do fabricante não faz indicação à proteção para danos não intencionais;

b) Solicita-se que o licitante substitua a declaração de garantia de sua proposta, onde se lê *"GARANTIA: 60 (SESSENTA) MESES ONSITE PARA O EQUIPAMENTO, CONFORME EDITAL;"* para sanar tais pendências, descrevendo em sua proposta comercial a descrição da extensão de garantia, inclusive declarando expressamente que será on-site, abrangendo acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.

SUBITEM 2.2: MONITOR PRINCIPAL 27 POL WIDESCREEN

- **Outros requisitos, item 10:** ⚠ O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;

Não foi possível diligenciar se o equipamento está em linha de produção. Solicita-se comprovação de cumprimento deste item.

- **Outros requisitos, item 11:** ⚠ Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;

Não foi possível diligenciar se o equipamento está em linha de produção. Solicita-se comprovação de cumprimento deste item.

- **Outros requisitos, item 13:** ⚠ **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.

No catálogo de informações da Philips consta que a garantia é de três anos. Para atender as necessidades desta contratação, **o licitante precisa apresentar** declaração do fabricante atendendo a este requisito, ou indicação da assistência técnica autorizada da Philips, com cnpj, capaz de atender a esse serviço na modalidade on-site, em Manaus.

A declaração de garantia de sua proposta, precisa descrever, além do prazo, declarae que será on-site, abrangendo acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.

SUBITEM 2.3: "MONITOR AUXILIAR 27 POL WIDESCREEN"

- **Outros requisitos, item 8:** ⚠ **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela

assistência técnica autorizada do mesmo.

No catálogo de informações da AOC consta que a garantia é de três anos. Para atender as necessidades desta contratação, **o licitante precisa apresentar** declaração do fabricante atendendo a este requisito, ou indicação da assistência técnica autorizada da AOC, com cnpj, capaz de atender a esse serviço na modalidade on-site, em Manaus.

A declaração de garantia de sua proposta, precisa descrever, além do prazo, declarae que será on-site, abrangendo acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.

Pela exposição de motivos, depreende-se que:

a) O teclado não atende;

b) O requisito de leitor biométrico no mouse e teclado não foi atendida;

c) As diligências de garantia e assistência técnica da Workstation HP, do monitor Philips e do monitor AOC precisam ser diligênciadas para assegurar o cumprimento dos requisitos;

d) Nos demais itens, a licitante poderar escoimar as pendências apresentando a documentação solicitada e reapresentando proposta declarando expressamente seu cumprimento.

É o parecer.

Manaus, 3 de julho de 2025.

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - CEP 69000-000 - Manaus - AM - www.mpam.mp.br

PARECER Nº 18.2025.SIET.1664620.2025.001317

5PROCESSO DE COMPRA: 2025.001317 Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ SRP Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317
OBJETO: Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.

1. **Relatório**

Trata-se de pedido de compatibilização da proposta da empresa **POSITIVO TECNOLOGIA S/A (FILIAL)**, melhor classificada para o **ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"**, na fase de disputas do Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ, documento 1661786, recebido no dia 1/7/2025.

2. **Da Análise**

2.1 Produto ofertado

Item	Descrição	Quantidade	Produto Ofertado
1	**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** **Marca/Modelo de Referência:** Lenovo ThinkPad T14 GEN 5, Dell Latitude 5450.	300	L**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** Positivo Master N8450

2.2 Análise comparativa

3. Conclusão

Após análise da documentação apresentada pela licitante **Positivo Tecnologia S.A.**, referente ao **Item 3 – MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"**, não foi possível realizar a compatibilização completa e segura da proposta com as especificações técnicas exigidas no edital.

Verificou-se que a proposta comercial limita-se, em grande parte, à transcrição literal das especificações contidas no Anexo I – Termo de Referência, sem individualizar as características técnicas efetivas do equipamento ofertado. Tal prática compromete a aferição objetiva da aderência do produto às exigências editalícias.

Ainda que diversas características tenham sido parcialmente demonstradas por meio de cadernos e documentos técnicos anexos (tais como processador, conectividade e solução de rastreamento), em outros pontos relevantes – como **tela, armazenamento e placa-mãe** – os documentos trazem múltiplas alternativas ou linhas de produto, sem identificação inequívoca do modelo específico que será fornecido, o que inviabiliza a correta avaliação da proposta.

Importa destacar que o edital é claro ao estabelecer, no **subitem 18.14 do Anexo I – Especificações Técnicas**, a obrigatoriedade de:

> *"Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes."*

Dessa forma, **a ausência de identificação clara e individualizada dos componentes** inviabiliza a compatibilização plena da proposta com os requisitos estabelecidos no edital, comprometendo a transparência e a isonomia do certame.

Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando **marca, modelo e documentação comprobatória específica de todos os componentes**, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.

É o parecer.

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. PLACA PRINCIPAL (PLACA MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação do mesmo, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;		
2. Deve possuir, no mínimo, 2 (dois) slots para memória RAM, "do tipo DDR-5 SODIMM", permitindo a instalação de até 96 (noventa e seis) Gigabytes;		
3. Deve suportar tecnologia Dual Channel de utilização de memória RAM;		
4. Deve possuir 2 (dois) Sockets M.2 para SSD SATA ou NVMe;		
5. Deve possuir 1 (um) Socket M.2 Para Cartões Wi-Fi/Bluetooth;		
6. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;		
7. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;		
8. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
10. Deve possuir suporte a virtualização por hardware;		
11. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
12. Deve possuir suporte a aceleração de segurança AES no hardware;		
13. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
14. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
15. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1 ou 3.2;		
16. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		
2. BIOS		
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela **CONTRATANTE**;		
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. Deverá possuir, 6 (seis) núcleos, no mínimo, e 16 (dezesseis) threads de processamento com frequência de operação interna básica de, no mínimo, 1.4 GHz;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos e ciclos de clock base (MHz);		
3. Memória cache total de, no mínimo, 12MB;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. O processador ofertado deverá ser Intel Core Ultra 7, "de 1ª geração", ou AMD Ryzen 7 PRO, "serie 8000", admitindo-se famílias ou gerações mais novas;	□	
5. O processador deverá ser da última geração disponível utilizada pelo fabricante do equipamento, **com desempenho mínimo de 26.300 (vinte e seis mil e trezentos) pontos**, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em http://www.cpubenchmark.net/cpu_list.php. 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.	□	
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos, podendo atingir até 5.0 GHz, no mínimo;	□	
7. Deve possuir controlador com suporte à memória RAM do tipo DDR5-5600 MT/s, ou superior;	□	
8. Deverá possuir tecnologia de fabricação de 7 nm (sete nanômetros) ou inferior;	□	
9. TDP(Thermal Design Power) mínimo de 20W, e máximo de 115W, declarado pelo fabricante;	□	
10. Deve possuir instruções do padrão AVX 2.0, ou superior;	□	
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;	□	
12. Deve possuir instruções que implementem extensões de virtualização de hardware;	□	
13. Deve possuir instruções AES-NI embutidas;	□	
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.	□	
4. MEMÓRIA RAM		
1. Deverá possuir, no mínimo, 32 (trinta e dois) Gb de memória RAM instalados, com capacidade de expansão mínima de 96 (noventa e seis) Gb;	□	
2. Deverá ser do tipo DDR-5 SODIMM ou superior e possuir, no mínimo, 5600 MT/s de velocidade de comunicação com o barramento principal;	□	
3. Os módulos removíveis devem ser instalados durante o processo de manufatura do computador, e homologados como parte do equipamento, inclusive estando cobertos pela garantia e suporte como descrito no Termo de Referência.	□	
5. UNIDADE DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 1 TB e velocidade mínima de gravação de 1.200MB/s;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;		
3. Deve ser instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. CONECTIVIDADE		
1. Deverá possuir no mínimo 3 (três) portas USB; 1. Do total de portas, no mínimo 1 (uma) devem ser do tipo USB 3.2 tipo A; 2. No mínimo 1 (uma) deve ser do tipo USB 3.2 Tipo C, ou superior;		
2. Possuir, no mínimo, 1 (uma) porta de vídeo adicional, suportando a utilização de 1 (um) monitor auxiliar simultânea e independentemente da tela integrada;		
3. O tipo da porta auxiliar de vídeo supracitada deve ser HDMI 1.4 ou DisplayPort 1.2. Em caso de versões miniaturizadas destas, adaptadores revertendo para elas devem ser fornecidos sem custo adicional.		
7. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função Wake On Lan instalada e em funcionamento;		
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		
3. Deve possuir, no mínimo, 1 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.3 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, conectado em slot específico na placa mãe, que deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência;		
5. A interface Wireless ofertada deve possuir, na data da entrega da proposta, homologação junto à ANATEL com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controladora 3D/2D integrada, com suporte a DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.5, ou superior;		
4. Deve suportar HDCP ou HDR;		
5. Deve suportar a resolução mínima de 1920 X 1080 @ 60 Hz;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
6. Deve possuir tecnologia de controle dinâmico de frequência, podendo atingir, no mínimo, 1.35GHz;		
7. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente;		
8. Deve possuir controladora 3D/2D dedicada, com no mínimo 4 (quatro) GB de memória GDDR6, com largura de banda para VRAM de 96 bits e suporte a DirectX 12, ou superior;		
9. Deve suportar Pixel Shader 3.0, ou superior;		
10. Deve suportar OpenGL 4.5, ou superior;		
11. Deve suportar HDCP ou HDR;		
12. Deve suportar a resolução mínima de 1920 X 1080 @ 60 Hz;		
13. Tipo de bus PCI Express 8x;		
14. Memória de vídeo dedicada de no mínimo 4 GB.		
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 mm;		
3. Deve possuir, no mínimo, 2 alto-falantes internos, com 2 Watt RMS de potência cada, compatíveis com a controladora de som;		
4. Deve incorporar microfone(s), com cancelamento de ruído, voltados para captar o som do usuário em frente ao computador.		
10. TECLADO		
1. Deve ser integrado e retroiluminado no idioma padrão, português (Brasil), ABNT-II;		
2. Deve suportar o derramamento de líquidos;		
3. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute; 1. Admite-se a utilização de teclas de função (F1...F12), para tais ações.		
11. DISPOSITIVOS APONTADORES		
1. Deve possuir um touchpad integrado, com dois botões, e área útil de 4 (quatro) pol², no mínimo; 1. Admite-se que os botões sejam integrados, como cliques diretos na parte inferior do touchpad;		
2. Deve suportar gestos de rolagem, ou possuir teclas, área ou dispositivo dedicado;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. Deve acompanhar um mouse adicional, da mesma cor e do mesmo fabricante do equipamento ofertado; 1. Deve ser óptico, com conexão USB, com 3 (três) botões e sistema de rolagem de página, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 800 dpi.		
12. TELA INTEGRADA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 15,6 polegadas widescreen, no mínimo;		
3. Deve suportar, no mínimo, 16 milhões de cores;		
4. Resolução mínima de 1920x1080@60Hz;		
5. Ângulo de visão mínimo de 85° horizontal e vertical;		
6. Deve possuir brilho mínimo de 300 cd/m².		
13. WEBCAM		
1. O equipamento deve possuir uma webcam integrada, de 2.0 megapixels, com resolução de vídeo FullHD, no mínimo, não sendo aceita solução externa;		
2. Deve possuir mecanismo de bloqueio por tampa, ou desativação mecânica, como solução de privacidade, também integrada ao equipamento.		
14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		
1. O equipamento deve ser produzido no formato laptop.		
2. O peso total do equipamento sem a fonte, não deve exceder os 2.8 Kg (dois quilos e oitocentos gramas);		
3. A dobradiça do equipamento, deve ser construída em metal, e com articulação de 180º;		
4. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;		
5. Deve possuir botão de liga/desliga e luz de indicação de computador ligado (power-on) em local visível e acessível do computador, quando ele estiver aberto;		
6. Deve possuir leitor biométrico integrado, em área acessível, quando o notebook estiver aberto;		
7. Deve oferecer a possibilidade de, se demandado, aplicar logo oficial da CONTRATANTE, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas na parte inferior do laptop, visando medidas de segurança;		
8. O computador deverá possuir fenda de encaixe padrão "Kensington" ou “Noble Wedge” para utilização de cabo de aço do mesmo tipo;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. Deve ser fornecido com fonte de carregamento/alimentação do mesmo fabricante e compatível com o equipamento, com potência suficiente para suportar todos os dispositivos internos em suas configurações máximas permitidas, além de possibilitar o pleno carregamento da bateria do equipamento;	□	
10. A fonte de alimentação deve possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);	□	
11. A fonte deve possuir tensão de entrada 110 e 220 Volts de forma automática;	□	
12. A fonte deve fornecer uma alimentação mínima de 130W para o equipamento;	□	
13. Os plugues de conexão à rede elétrica devem seguir o padrão NBR 14136:2002.	□	
15. BATERIA		
1. Deve ser integrada ao corpo do equipamento, (não destacável);	□	
2. Potência mínima de 90wh;	□	
3. Deve possuir no mínimo 4 (quatro) células de carregamento; 1. Deve ser capaz de manter o equipamento funcionando ininterruptamente por no mínimo 9 (nove) horas, conforme o padrão de teste do aplicativo MobileMark 2018.	□	
16. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;	□	
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;	□	
3. Cada equipamento deve incluir uma licença específica de software dedicado para: • Controle: Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.	□	
4. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;	□	
5. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;	□	
6. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento (60 meses) e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela **CONTRATANTE**;	□	
7. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela **CONTRATANTE**, conforme especificado no Termo de Referência.	□	
17. COMPATIBILIDADE		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o sistema operacional exigido e ofertado. 1. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;		
2. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;		
3. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional.		
18. OUTROS REQUISITOS		
1. Todas as partes do computador devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;		
2. Deverá acompanhar maleta, pasta, mochila ou similar, para transporte com segurança, de tamanho suficiente para acondicionar o equipamento e seus acessórios (fonte de alimentação e cabos), confeccionada em material resistente e impermeável;		
3. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;		
5. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;		
6. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
7. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		
8. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;	□	
10. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;	□	
11. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;	□	
12. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional. 1. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;	□	
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);	□	
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica. 1. A comprovação deverá ser apresentada junto com a proposta;	□	
15. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes a qualquer momento;	□	
16. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo. **Para as baterias, será admitido garantia mínima de 36 (trinta e seis) meses**. Nos meses que restarem para completar o prazo total de garantia, a **FORNECEDORA** se obriga a dispor de bateria para venda em caso de eventual necessidade, e a realizar o suporte e assistências técnica sem ônus para a **CONTRATANTE**.	□	

3. Conclusão

O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica **OPINA** pela aceitabilidade do produto ofertado.

É o parecer.

Manaus, 8 de julho de 2025.

Prezados,

Vimos por meio desta, apresentar nossa proposta comercial e temos o prazer de encaminhar, para análise e apreciação, uma breve apresentação desta empresa, com o intuito de conhecerem nosso prestígio.

Desde 1997 prestando serviços em Tecnologia da Informação, a ER Soluções esteve sempre presente nos principais acontecimentos da Indústria da Informática no Brasil.

Com larga experiência varejista além da já premiada atuação no setor governamental e agora com uma ativa presença no mercado SMB regional, a E.R. Soluções obteve importantes parcerias permitindo a presença constante nos principais usuários de TI. Adquirimos competências fundamentais envolvendo as principais tecnologias e os melhores fabricantes do mercado, destacando-se Dell, Lenovo, Microsoft e VMware, entre outras parceiras.

É com este know-how que oferecemos produtos e serviços com o que há de mais moderno dentro das melhores práticas em TI, com equipes de profissionais treinados e certificados, elaborando projetos, apresentando soluções, atendendo necessidades, e prevendo demandas para os mais diversos negócios em todo o território nacional.

O documento a seguir apresenta a proposta de equipamentos, softwares e serviços para o referido pregão.

Desde já agradecemos a oportunidade de oferecer os nossos produtos e serviços, e nos colocamos à disposição para os esclarecimentos adicionais que se fizerem necessários.

1.Proposta Comercial

	Descrição	Valor Unitário	Quantidade	Total
1	**LENOVO THINKSTATION P3 TW**	R$ 20.300,00	50,00	**R$ 1.015.000,00**

Total Geral **R$ 1.015.000,00**

2.Especificações Técnicas

ITEM 1 - LENOVO THINKSTATION P3 TW

ThinkStation P3 Tower - PN 30GUCTO1WW (customizado para atender ao edital)
Processador Intel I7-14700-VPro
Memória instalada de (2x16) 32GB DDR5-4400MHZ / ECC
Armazenamento SSD 256GB NVME + HD 1TB 7200rpm
Sistema operacional Windows 11 PRO 64bits Português
Intel Wi-Fi 6 AX211, 802.11ax 2x2 Wi-Fi + Bluetooth 5.1, M.2 Card - VPro
Vídeo integrado Intel UHD Graphics 770 1x HDMI 2.1 + 2x DisplayPort
Leitor SD
Placa de vídeo Nvidia RTX A1000 - 8GB
Fonte de Alimentação de 500W 92%
4x USB 3.2 Tipo A + 1x USB 3.2 Tipo C + 4x USB 3.2 Tipo A
4 slots de memória com possibilidade de expansão até 128GB
Trusted Platform Module TPM 2.0 | Tecnologia Intel vPro
Chipset Intel W680
Slot de Segurança Kensington | Sensor de intrusão
Lenovo Mouse Fingerprint USB 03 botões, além da função de rolagem - acompanha Mousepad ergonômico
Teclado Lenovo Multimídia compatível com o padrão ABNT2
Cabo de Energia padrão NBR 14136
Trava de segurança tipo Kensington | Cabo Y
Logo na Bios | Serviço de Imagem | Logo a laser | Retenção HD
Licença Absolute - 5 anos
+
Monitor Lenovo ThinkVision T27hv-30 IPS - PN 63D6UAR3US
Resolução 2560 x 1440 | Brilho 300 cd/m² | Contraste 1.000:1
Ajuste de altura, rotação e inclinação
Saídas: 1x DisplayPort 1.4 + 1x DisplayPort out + 1x HDMI
Webcam: 2592 x 1944, 5.0-megapixel, IR + RGB
Microfone: integrado | Alto falantes: 2x 5W
Downstream: (4 portas) USB3.2 Tipo-A, Upstream: (1 porta) USB3.2 Tipo-C | 1x RJ-45
Logo a laser
+
Monitor Auxiliar:
Monitor Lenovo ThinkVision T27i-30 IPS - PN 63A4MAR1BR
Resolução 1920x1080 | Brilho 300 cd/m² | Contraste 1.000:1
Ajuste de altura, rotação e inclinação
Saídas: VGA + DisplayPort + HDMI
Downstream: (4 portas) USB3.2, Upstream: (1 porta) USB3.2
Logo a laser
Garantia do Fabricante de 60 meses on-site com tempo de atendimento e solução conforme edital e danos acidentais.
Demais características, conforme edital

3.Condições Comerciais

Validade da Proposta:
O prazo de validade da proposta é de 90 (noventa) dias, a contar da data de sua apresentação.

Entrega
Em até 90 (noventa) dias corridos, contados do primeiro dia útil subsequente ao do recebimento da respectiva Nota
de Empenho. e/ou Autorização de Fornecimento de Materiais e Serviços.

Local de Entrega
Av. Coronel Teixeira, nº 7.995, Nova Esperança II
CEP. 69037-473, Manaus-AM

Condições de Pagamento:
10 (dez dias) úteis para a liquidação da despesa, a contar do recebimento da nota fiscal ou instrumento de cobrança equivalente
pela Administração;

Dados da Conta Bancária:
Banco do Brasil Cód. Agência: 001
Agência: 3235-2
Conta Corrente: 115.747-7

DECLARAMOS, que nos preços contidos na Proposta de Preços, estão incluídos todos os custos diretos e indiretos, sem que caiba, em qualquer caso, direito regressivo sobre a execução de serviços, objeto desta licitação, tais como: impostos, taxas, frete CIF, transportes, inclusive o lucro do fornecedor, materiais, equipamentos, mão-de-obra, encargos sociais, trabalhistas e previdenciários, tributos e contribuições de qualquer natureza ou espécie, não cabendo, portanto, nenhuma reclamação posterior no sentido de alteração de preços.

DECLARAMOS, que aceitamos todas as condições estabelecidas no edital e nos anexos do Pregão Eletrônico n°94010-2025

DECLARAMOS, que a fabricante possui recurso disponibilizado via website do próprio fabricante https://pcsupport.lenovo.com/br/pt/warrantylookup, para realizar a validação e verificação da garantia do equipamento através da inserção do número de série do equipamento e também disponibiliza em seu web site http://support.lenovo.com/us/en/lenovodiagnosticsolutions, software capaz de realizar testes de diagnóstico de hardware.

DECLARAMOS, ainda, que a Lenovo dispões de telefone gratuito 0800-701-4815 (ligações fora da cidade de São Paulo) e 11 3889-8986 (ligações de São Paulo) para abertura de chamados técnicos em Língua Portuguesa e service desk com histórico dos registros, e que os drivers, atualizações e suporte dos produtos Lenovo, estão disponíveis para download no site http://support.lenovo.com/br/pt. Os chamados serão abertos através de código de identificação único para cada máquina. Durante o prazo de garantia, será substituída sem ônus a contratante, a parte ou peça defeituosa, salva quando o defeito for provocado por uso inadequado dos equipamentos. A Lenovo possui um canal específico para auxiliá-lo no descarte desses produtos. Caso você possua um produto Lenovo em situação de descarte, ligue para o nosso SAC ou encaminhe um e-mail para: reciclar@lenovo.com, informando o modelo, número de série e cidade, a fim de envio das instruções para o correto descarte do seu produto Lenovo.

DECLARAMOS, que todos os equipamentos a serem entregues serão novos, idênticos, com componentes externos e internos de mesmo modelo e marca dos equipamentos ofertados na proposta, salvo se o equipamento não se encontrar mais disponível no mercado no ato do pedido. Em caso de descontinuidade do produto oferecido, ou diante da indisponibilidade devidamente comprovada, este será substituído pelo sucedâneo com as mesmas características ou superiores, ou ainda, por um modelo com características idênticas ou superiores ao ofertado, mediante análise de catálogos, durante todo o período de validade da Ata de Registro de Preços ou do Contrato vigente.

DECLARAÇÃO CONJUNTA

A empresa **E.R. SOLUÇÕES INFORMATICA LTDA**, cadastrada no CNJP sob nº **05.778.325/0005-47** sediada na Avenida Cem, S/N – Quadra – 01 Sala 01 Piso 02, na cidade de Serra estado do Espírito Santo, através de seu representante legal **Srta. Julia Barbosa Avelar**, brasileira, solteira, vendedora, portador do RG n°54.193.926-9 SSP/SP , cadastrado no CPF sob nº 318.101.328-51, residente e domiciliado na cidade de Ribeirão Preto na Rua João Vendrusculo, 3100 - Ribeirão Verde CEP 14.079-328, declara para todos os fins de direito, especificamente para participação da licitação na modalidade epigrafada e conforme Lei Federal nº 8.666/93 e Constituição Federal, que:

a) Que até a presente datada, não há fato superveniente impeditivo à sua habilitação para participação em processos/procedimentos licitatórios junto a órgãos públicos, comprometendo-se a declará-lo(s) caso venha(m) a ocorrer.

b) Que está em situação regular junto ao Ministério do Trabalho. Para fins do disposto no inciso V do art. 27 da Lei nº 8.666, de 21 de junho de 1993, acrescido pela Lei nº 9.854, de 27 de outubro de 1999, não possuímos em nosso quadro de pessoal menores de 18 anos em trabalho noturno, perigoso ou insalubre e menores de 16 anos, em qualquer outro tipo de trabalho, salvo na condição de aprendiz, a partir de 14 anos, nos moldes do inciso XXXIII do artigo 7º da CF.

c) Que não foi declarada inidônea ou apenada por suspensão pelo Poder Público de qualquer esfera (Art. 87 IV);

d) Que cumpre todas as normas relativas à saúde, higiene e segurança do trabalho de seus empregados.

e) Que não possui funcionários, dirigentes ou acionistas detentores do controle da empresa participante da licitação, que possuam vínculos direto ou indireto com Administração do referido processo, nos termos do art. 9º da Lei Federal 8.666/93;

f) Que não está impedida de contratar com a Administração Pública do referido processo licitatório,

direta ou indiretamente e que se compromete a comunicar ocorrência de fatos supervenientes.

g) Que, conforme disposto no art. 93 da Lei nº 8.213, de 24 de julho de 1991, estou ciente do cumprimento da reserva de cargos prevista em lei para pessoa com deficiência ou para reabilitado da Previdência Social e que, se aplicado ao número de funcionários da minha empresa, atendo às regras de acessibilidade previstas na legislação.

h) Sob as penas da Lei, declaro que cumpro a Cota de Aprendizagem - DCCA, nos termos estabelecidos no art. 429 da CLT da Consolidação das Leis do Trabalho – CLT.

i) Que não possuo, em minha cadeia produtiva, empregados executando trabalho degradante ou forçado, observando o disposto nos incisos III e IV do art.1º e no inciso III do art.5º da Constituição Federal.

j) Que emite Nota Fiscal Eletrônica – NF-e.

k) Que examinou cuidadosamente o processo contendo o Edital Completo, nela não achando nenhuma falta ou irregularidade que comprometesse a legalidade do certame licitatório, aceitando e submetendo-se, portanto, aos itens editalícios, às cláusulas contratuais e às condições físicas ora estipuladas para a execução do objeto licitado;

l) Que estou ciente e concordo com as condições contidas no edital e seus anexos, bem como de que cumpro plenamente os requisitos de habilitação definidos no edital.

m) Que se responsabiliza integralmente pela prestação dos serviços e qualidade dos materiais ora contratados;

Serra, 08.07.2025

DECLARAÇÕES:

Declaro para os devidos fins junto à Comissão Permanente de Licitação que:
a) cumpro plenamente os requisitos de habilitação e estou ciente de que respondo pela veracidade das informações prestadas, na forma da lei;
b) em atenção ao item 5.6. do Edital e ao Art. 14, e incisos, da Lei n.º 14.133/2021, não estou impedido de participar direta ou indiretamente desta licitação, e ainda, que não possuo acionistas, diretores ou gerentes, que sejam cônjuge, companheiro ou parente em linha reta, colateral ou por afinidade, até o terceiro grau, inclusive, de membros ou de servidores ocupantes de cargo de direção, chefia ou assessoramento no âmbito do Ministério Público do Estado do Amazonas e de sua CPL;
c) recebi o edital e todos os documentos que o integram, dispondo de todos os elementos e informações necessários à elaboração da proposta de preços com total e completo conhecimento do objeto da licitação;
d) os documentos e declarações apresentados são fiéis e verdadeiros;
e) caso seja vencedora do certame e não cadastrada no SISTEMA DEADMINISTRAÇÃO FINANCEIRA E CONTABILIDADE da SECRETARIA DA FAZENDA DOESTADO DO AMAZONAS – SEFAZ-AM, encaminharei à CONTRATANTE os documentos necessários para efetuar o referido cadastramento no prazo de 05 (cinco) dias úteis, a contar da adjudicação, sob pena de perder o direito de preferência à contratação em favor dos demais licitantes subsequentes, sem prejuízo da possibilidade de responder a procedimento administrativo de responsabilização (PAR) por eventual retardamento da licitação;
f) o preço inclui, além do lucro, todos os custos e despesas, com tributos incidentes e encargos devidos, materiais, serviços, transporte, a integralidade dos custos para atendimento dos direitos trabalhistas assegurados na Constituição Federal, nas leis trabalhistas, nas normas infralegais, nas convenções coletivas de trabalho e nos termos de ajustamento de conduta vigentes na data de entrega das propostas, bem como quaisquer outras despesas diretas e indiretas incidentes na prestação de serviços;
g) a proposta apresentada para participar do presente Pregão foi elaborada de maneira independente por esta licitante e o seu conteúdo não foi, no todo ou em parte, direta ou indiretamente, informado, discutido ou recebido de qualquer outro participante potencial ou de fato, por qualquer meio ou por qualquer pessoa.

Caso seja vencedora indicamos para assinar o contrato o seguinte responsável:
NOME: Alberto Manoel Custodio
TITULARIDADE: Representante Comercial / Representante Legal
CPF: 510.378.076-34 RG: 1.846.112/SSP/MG
ENDEREÇO: Av. Dom Pedro II, nº 1.111 - Centro, na Cidade de Porto Velho/RO

POSITIVO
TECNOLOGIA

ESPECIFICAÇÕES TÉCNICAS

Item : 3
Marca : Positivo
Modelo : Positivo Master N8450
Fabricante : Positivo Tecnologia S.A.
Quantidade : 300 (Trezentas) unidades.

Os equipamentos serão fornecidos nas especificações/configurações abaixo:

1. PLACA PRINCIPAL (PLACA MÃE)
1. A placa mãe é construída pelo próprio fabricante do microcomputador sendo produzida sob a especificação do mesmo, não sendo placas de livre comercialização no mercado, nem em regime de OEM;
2. Possui 2 (dois) slots para memória RAM, “do tipo DDR-5 SODIMM”, permitindo a instalação de até 40 (quarenta) Gigabytes. Possui 2 slots com 1 módulo de memória cada, como configuração superior, em substituição aos módulos soldados na placa principal;
3. Suporta tecnologia Dual Channel de utilização de memória RAM;
4. Possui 1 (um) Socket M.2 para SSD SATA ou NVMe;
5. Possui 1 (um) Socket M.2 Para Cartões Wi-Fi/Bluetooth;
6. Possui recursos DASH 1.1 (Desktop and mobile Architecture for System Hardware) e vPro;
7. É compatível com Energy Star 7.0/7.1;
8. Possui capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;
9. Possui chip TPM (Trusted Platform Module), versão 2.0, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;
10. Possui suporte a virtualização por hardware;
11. Possui suporte a implementação de extensões de virtualização de I/O por hardware;
13. Possui suporte a aceleração de segurança AES no hardware;
14. Possui suporte à tecnologia de acesso remoto out-of-band embutida no hardware;
15. Possui controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;
16. Suporta boot por pendrive ou disco conectado a uma porta USB 3.2;
17. Suporta a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.

2. BIOS
1. O BIOS é desenvolvido pelo mesmo fabricante do equipamento;
2. O fabricante do equipamento, é totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, promovendo as alterações que se façam necessárias e corrigindo problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.9 (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);
4. O fabricante comprova a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;
5. É do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;
6. É lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;
7. Tem suporte a ACPI;
8. É desenvolvido de acordo com o padrão de segurança NIST 800-147, para garantir a integridade do BIOS;

Docusign Envelope ID: 7118AD05-2BB7-498A-BB22-3577987D0D50

9. Possui recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;
10. Possui software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características:
    1. Permite o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico é capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F11);
    2. O software de diagnóstico é capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;
11. Possui ferramenta que possibilita realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88r1. Esta ferramenta é nativa do BIOS, é oficialmente homologada pelo fabricante do equipamento;
12. Possui opção para exportar/importar configurações;
13. Oferece a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela CONTRATANTE;
14. Possui campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permite inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;
15. Permite o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados;
    1. Permite acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado;
    2. Permite acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional;
    3. Possui a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.

3. PROCESSADOR
1. Possui, 2 (dois) núcleos, e 14 (quatorze) threads de processamento com frequência de operação interna básica de, 1.6 GHz;
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos e ciclos de clock base (MHz);
3. Memória cache total de 12MB;
4. O processador ofertado será o Intel Core Ultra 5, "de 1ª geração";
5. O processador é da última geração disponível utilizada pelo fabricante do equipamento, com desempenho de 17.467 (dezessete mil quatrocentos e sessenta e sete) pontos, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante;
    1. O desempenho é comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php.
    2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.
6. Possui tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos, podendo atingir até 4.4 GHz;
7. Possui controlador com suporte à memória RAM do tipo DDR5-5600 MT/s;
8. Possui tecnologia de fabricação de 7nm (sete nanômetros);

Docusign Envelope ID: 7118AD05-2BB7-498A-BB22-3577987D0D50

9. TDP (Thermal Design Power) mínimo de 12W, e máximo de 57W, declarado pelo fabricante;
10. Possui instruções do padrão AVX 2.0;
11. Possui instruções do padrão SSE4.1/4.2;
12. Possui instruções que implementem extensões de virtualização de hardware;
13. Possui instruções AES-NI embutidas;
14. O proponente declara em sua proposta comercial o modelo do processador ofertado: Intel Core Ultra 5 135U.

4. MEMÓRIA RAM
1. Possui 16 (dezesseis) GB de memória RAM instalados, com capacidade de expansão de 64 (sessenta e quatro) GB;
2. É do tipo DDR-5 SODIMM e possui 5600 MT/s de velocidade de comunicação com o barramento principal;
3. A implementação do total de memória RAM utiliza 2 (dois) módulos de 8 (oito) GB, utilizando tecnologia dual channel;
    1. Ambos os módulos são do tipo SODIMM, e removíveis como configuração superior a soldada;
4. Os módulos removíveis serão instalados durante o processo de manufatura do computador, e homologados como parte do equipamento, inclusive estando cobertos pela garantia e suporte como descrito no Termo de Referência.

5. UNIDADE DE ARMAZENAMENTO
1. Possui 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade de 256 GB e velocidade mínima de gravação de 1.200MB/s;
2. Utiliza interface tipo M.2 PCIe 4.0, com o protocolo NVMe;
3. É instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.

6. CONECTIVIDADE
1. Possui 4 (quatro) portas USB;
    1. Do total de portas, 2 (duas) são do tipo USB 3.2 tipo A;
    2. 2 (duas) são do tipo USB 3.2 Tipo C;
2. Possui 1 (uma) porta de vídeo adicional, suportando a utilização de 1 (um) monitor auxiliar simultânea e independentemente da tela integrada;
3. O tipo da porta auxiliar de vídeo supracitada é HDMI 2.1.

7. INTERFACES DE REDE
1. Possui 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função Wake On Lan instalada e em funcionamento;
2. A controladora ethernet, é do tipo "onboard", e suporta recurso WOL (Wake On LAN);
3. Possui 1 (uma) interface de rede sem fios no padrão Wi-Fi 6E (802.11 B/G/N/AX), com velocidade de até 2.4Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.3;
4. As controladoras Wi-Fi e Bluetooth, estarão em um único cartão M.2, conectado em slot específico na placa mãe, que é instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência;
5. A interface Wireless ofertada possui, na data da entrega da proposta, homologação junto à ANATEL com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.

8. CONTROLADORA DE VÍDEO
1. Possui controlador 3D/2D com suporte a DirectX 12.2;
2. Suporta Pixel Shader 3.0;
3. Suporta OpenGL 4.6;

Docusign Envelope ID: 7118AD05-2BB7-498A-BB22-3577987D0D50

4. Suporta HDCP ou HDR;
5. Suporta a resolução de 1920 X 1080 @ 60 Hz;
6. Possui tecnologia de controle dinâmico de frequência, podendo atingir 1.9GHz;
7. Suporta o uso de 3 (três) monitores simultânea e independentemente.

9. CONTROLADORA DE SOM E MULTIMÍDIA
1. O equipamento possui uma controladora de som integrada, do tipo "onboard";
2. Possui uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 mm;
3. Possui 2 alto-falantes internos, com 2 Watt RMS de potência cada, compatíveis com a controladora de som;
4. Incorpora microfones, com cancelamento de ruído, voltados para captar o som do usuário em frente ao computador.

10. TECLADO
1. É integrado e retroiluminado no idioma padrão, português (Brasil), ABNT-II;
2. Possui teclas multimídia, com aumentar e diminuir volume, além do mute;
    1. Utiliza-se de teclas de função (F1...F12), para tais ações.

11. DISPOSITIVOS APONTADORES
1. Possui um touchpad integrado, com dois botões, e área útil superior a 4 (quatro) pol²;
    1. Admite-se que os botões sejam integrados, como cliques diretos na parte inferior do touchpad;
2. Suporta gestos de rolagem;
3. Acompanha um mouse adicional, da mesma cor e do mesmo fabricante do equipamento ofertado;
    1. É óptico, com conexão USB, com 3 (três) botões e sistema de rolagem de página, com formato ergonômico e com design ambidestro, possui resolução por hardware de 1.000 dpi.

12. TELA INTEGRADA
1. É de tecnologia IPS (In-Plane Switching);
2. Tamanho de 14 polegadas widescreen;
3. Suporta 16 milhões de cores;
4. Resolução de 1920x1200@60Hz;
5. Ângulo de visão de 85° horizontal e vertical;
6. Possui brilho de 300 cd/m².

13. WEBCAM
1. O equipamento possui uma webcam integrada, de 2 megapixels, com resolução de vídeo FHD, não sendo solução externa;
2. Possui mecanismo de bloqueio por tampa, como solução de privacidade, também integrada ao equipamento.

14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO
1. O equipamento é produzido no formato laptop.
2. O peso total do equipamento sem a fonte, não excede os 1.6 Kg (um quilo e seiscentos gramas);
3. A dobradiça do equipamento, é construída em metal, e com articulação de 180º;
4. O material do gabinete é de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;
5. Possui botão de liga/desliga e luz de indicação de computador ligado (power-on) em local visível e acessível do computador, quando ele estiver aberto;
6. Possui leitor biométrico integrado, em área acessível, quando o notebook estiver aberto;
7. Oferece a possibilidade de, se demandado, aplicar logo oficial da CONTRATANTE, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas na parte inferior do laptop, visando medidas de segurança;

Docusign Envelope ID: 7118AD05-2BB7-498A-BB22-3577987D0D50

8. O computador possui fenda de encaixe padrão "Kensington" para utilização de cabo de aço do mesmo tipo;
9. É fornecido com fonte de carregamento/alimentação do mesmo fabricante e compatível com o equipamento, com potência suficiente para suportar todos os dispositivos internos em suas configurações máximas permitidas, além de possibilitar o pleno carregamento da bateria do equipamento;
10. A fonte de alimentação possui eficiência superior a 85%, com 50% da carga de trabalho e que implementa PFC (Power Factor Correction);
11. A fonte possui tensão de entrada 110 e 220 Volts de forma automática;
12. A fonte fornece uma alimentação de 90W para o equipamento;
13. Os plugues de conexão à rede elétrica seguem o padrão NBR 14136:2002.

15. BATERIA
1. É integrada ao corpo do equipamento, (não destacável);
2. Potência de 57Wh;
3. Possui 3 (três) células de carregamento;
    1. É capaz de manter o equipamento funcionando ininterruptamente por no mínimo 11 (onze) horas, conforme o padrão de teste do aplicativo Mobile Mark 2018.

16. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES
1. Acompanha o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, no idioma Português Brasil;
2. O equipamento será entregue com o Windows 11 Professional 64 bits, instalado;
3. Cada equipamento inclui uma licença específica de software dedicado para:
- Controle: Funções de bloqueio e desbloqueio remoto.
- Inventário: Gestão detalhada de hardware e software do equipamento.
- Rastreabilidade: Recursos de geolocalização integrados.
4. O software de controle e monitoramento possui a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;
5. A interface de controle e monitoramento dos equipamentos é baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;
6. A licença do software dedicado tem cobertura equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e estará plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;
7. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.

17. COMPATIBILIDADE
1. É apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Consta no Microsoft Hardware Compatibility List (HCL) para o sistema operacional exigido e ofertado.
    1. A comprovação da compatibilidade é efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, sendo indicação no site da Microsoft;
2. O equipamento possui certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade é efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;
3. O equipamento, na configuração ofertada, possui certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC62368-1) e de imunidade eletromagnética (IEC 61000), comprovado através de certificado nos moldes da portaria 304/2023 vigente do INMETRO.

Docusign Envelope ID: 7118AD05-2BB7-498A-BB22-3577987D0D50

18. OUTROS REQUISITOS

1. Todas as partes do computador têm coloração neutra em gradações de preto, mantendo o padrão e cor;
2. Acompanha maleta, para transporte com segurança, de tamanho suficiente para acondicionar o equipamento e seus acessórios (fonte de alimentação e cabos), confeccionada em material resistente e impermeável;
3. Equipamento será novo, partes e peças, de primeiro uso, que serão acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;
4. Informa marca e modelo dos componentes utilizados na solução e apresenta prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identificam e constatam as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;
5. Todos os equipamentos serão entregues idênticos, ou seja, todos os componentes externos e internos terão os mesmos modelo e marca;
6. O equipamento proposto estará em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;
7. Não sendo produtos descontinuados por seus fabricantes, não consta em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não tem previsão de descontinuidade de fornecimento, suporte ou vida;
8. O equipamento em pleno funcionamento atende à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que acompanha a proposta;
9. Tem compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado emitido por órgão credenciado pelo INMETRO;
10. Tem compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) da DMTF (Desktop Management Task Force), o fabricante do equipamento é membro do consórcio DMTF listado na categoria BOARD;
11. Tem compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trusted Computing Group), o fabricante é membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;
12. Tem compatibilidade com EPEAT na nova categoria Bronze, comprovada através de indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze, que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT.
13. Não contêm substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs),éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);
14. Os equipamentos pertencem à linha corporativa, não sendo equipamentos destinados ao uso da linha doméstica.
    1. A comprovação é apresentada junto com a proposta;
15. Não sendo equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes a qualquer momento;
16. Garantia de 60 (sessenta) meses on-site, prestado pelo fabricante. Para as baterias, a garantia é de 36 (trinta e seis) meses. Nos meses que restarem para completar o prazo total de garantia, a FORNECEDORA disporá de bateria para venda em caso de eventual necessidade, e a realizar o suporte e assistências técnicas sem ônus para a CONTRATANTE.

DECLARAÇÃO DE COMPOSIÇÃO ACIONÁRIA

POSITIVO TECNOLOGIA S.A. ("POSITIVO"), pessoa jurídica de direito privado, inscrita no CNPJ sob o nº 81.243.735/0009-03, estabelecida na Rua Ásia, s/n, Lote 05, Quadra N, Bairro Iguape, na Cidade de Ilhéus, Estado da Bahia, CEP 45.658-464, neste ato representada na forma de seu Estatuto Social/Procuração, por meio da sua representante legal abaixo assinada, em atendimento aos subitens 5.3 e 5.4 do Anexo II e item 3.7 do Edital, **DECLARA**, para os devidos fins de direito e há quem possa interessar:

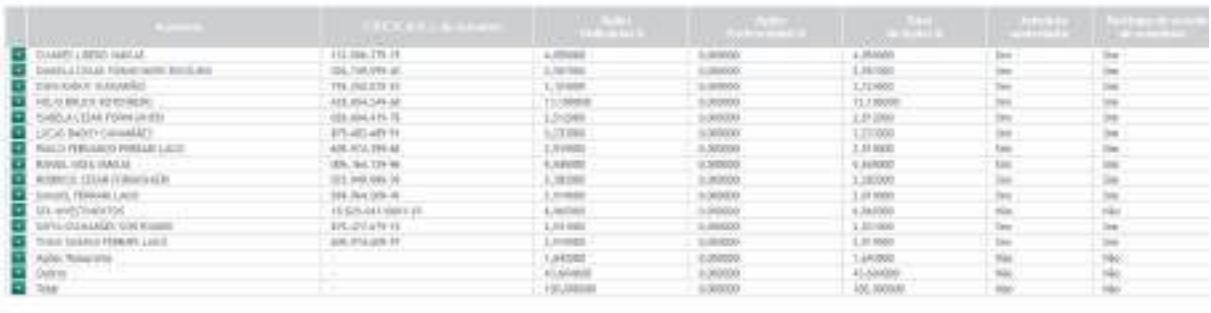
I. Que por se tratar de sociedade anônima, a composição acionária da POSITIVO não é descrita em seu Estatuto Social, razão pela qual é emitida a presente declaração.

II. Destaca-se, que a POSITIVO é uma sociedade anônima de capital aberto com ações negociadas na B3 – Brasil, Bolsa, Balcão, e a totalidade do seu capital é representada por 141.800.000 ações ordinárias, distribuídas entre milhares de acionistas[1], com negociações na bolsa de valores e, consequentemente, com variação diária da titularidade de suas ações, o que impossibilita a apresentação de documento societário contendo a lista da totalidade de seus acionistas.

III. Neste sentido, visando dar integral atendimento à exigência de abertura da composição acionária, com base no que determina as normas regulamentadoras da CVM (Resolução CVM 80/22, art. 25, §3º, V[2]), abaixo é apresentada a abertura do quadro acionário da POSITIVO, contendo os acionistas detentores de mais de 5% do capital social da Companhia.

IV. Importante esclarecer que as informações abaixo reportadas tratam-se de dados públicos, que periodicamente são divulgadas pela POSITIVO diretamente no sistema da CVM - Comissão de Valores Mobiliários, também disponíveis para consulta por meio do link https://sistemas.cvm.gov.br/[3] ou, ainda, em seu website de Relação com os Investidores, por meio do link https://ri.positivotecnologia.com.br/informacoes-ao-mercado/formulario-de-referencia/.

---



[1] Visando dar maior clareza sobre a dimensão da composição acionária da Positivo, na data de 29/12/2023 a Positivo possuía mais de 47.000 acionistas e em data de 29/05/2024 possuía mais de 43.000 acionistas.

[2] Art. 25. O formulário de referência é o documento eletrônico cujo conteúdo reflete o Anexo C. (...)
§ 3º O emissor registrado na categoria A deve atualizar os campos correspondentes do formulário de referência, em até 7 (sete) dias úteis contados da ocorrência de qualquer dos seguintes fatos: (...)
V – alteração dos acionistas controladores, diretos ou indiretos, ou variações em suas posições acionárias que os levem a ultrapassar, para cima ou para baixo, os patamares de 5% (cinco por cento), 10% (dez por cento), 15% (quinze por cento), e assim sucessivamente, de uma mesma espécie ou classe de ações do emissor;
VI – quando qualquer pessoa natural ou jurídica, ou grupo de pessoas representando um mesmo interesse, direta ou indiretamente, ultrapassar, para cima ou para baixo, os patamares de 5% (cinco por cento), 10% (dez por cento), 15% (quinze por cento), e assim sucessivamente, de uma mesma espécie ou classe de ações do emissor, desde que o emissor tenha ciência de tal alteração;

[3] Ao clicar no link acima, seguir os seguintes passos: **1.** Clicar em Companhia. **2.** Clicar em Consulta de Documentos de Companhia. **3.** Digitar o nome Positivo no campo de pesquisa e clicar em Continuar. **4**. Clicar no número do CNPJ da Positivo. **5.** Expandir o "+Exibir Filtros de Pesquisa". **6.** No campo "Data de Entrega", selecionar "No período" e determinar um período mínimo de 12 meses. **7.** No campo "Categoria", selecionar a opção FRE – Formulário de Referência. **8.** Clicar em "Consultar". **9.** Selecionar a versão mais recente do documento pela Data de Entrega e na coluna "Ações", clicar no ícone com lupa para "Visualizar Documento". **10.** Ao abrir uma nova janela contendo o FRE - Formulário de Referência, selecionar na caixa de opções com lista suspensão o capítulo "6. Controle e grupo Econômico" e o subitem "6.1/2 Posição Acionária".

*O quadro acima trata-se de print do FRE – Formulário de Referência, disponível para consulta no sistema da CVM

V. As informações acima são extraídas do Formulário de Referência (FRE), cujo encaminhamento periódico e eventual, previsto no artigo 22, inciso II, da Resolução CVM nº 80/22, reúne todas as informações referentes ao emissor de valores mobiliários admitidos à negociação em mercados regulamentados de valores mobiliários.

Ante todo o exposto, tem a presente declaração o intuito de esclarecer a identificar os principais beneficiários finais da participação, indireta, no capital social da POSITIVO, baseando-se em registros atualizados e públicos nesta data. Aproveitamos a oportunidade para reiterar nossos votos de estima e consideração, bem como nos colocamos à inteira disposição para eventuais dúvidas e esclarecimentos necessários.

DECLARAÇÃO

A empresa **POSITIVO TECNOLOGIA S.A (Filial)**, pessoa jurídica de direito privado, estabelecida na Rua Ásia, s/n – Lote 05 – Quadra N – Bairro Iguape, na Cidade de Ilhéus, Estado da Bahia – CEP 45.658-464, inscrita sob o CNPJ n.º 81.243.735/0009-03, declara como fabricante dos equipamentos ofertados para o pregão em referência que:

- Os produtos ofertados serão industrializados, novos e entregues acondicionados adequadamente em suas embalagens originais lacradas, acompanhados de guias e manuais de utilização e de cabos e conectores, além de licenças dos softwares necessários à sua perfeita instalação e funcionamento;
- A licença do software dedicado terá cobertura equivalente ao período de garantia do equipamento (60 meses) e estará plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;
- Os equipamentos pertencem à linha corporativa, não sendo equipamentos destinados ao uso da linha doméstica;
- A fonte de alimentação modelo PI-ADAP090-A(02) possui eficiência superior a 85% com 50% da carga de trabalho e implementa PFC (Power Factor Correction) ativo;
- A fonte de alimentação modelo PI-ADAP090-A(02) é totalmente compatível e homologada para utilização no equipamento POSITIVO MASTER N8450.
- Os equipamentos adquiridos incluem solução de segurança e rastreamento remoto, garantindo proteção contra acessos não autorizados, controle administrativo centralizado e mitigação de riscos relacionados à perda, furto ou roubo. A solução é fornecida com licenciamento válido para o período de 60 (sessenta) meses, com uma licença individual para cada equipamento adquirido, sem necessidade de aquisição de licenças adicionais além das atribuídas ao uso de cada dispositivo.

- A solução conta com as seguintes funcionalidades obrigatórias:

    - **Gerenciamento Centralizado na Nuvem**: A solução opera totalmente na nuvem, permitindo o gerenciamento remoto e centralizado de todos os equipamentos licenciados, sem necessidade de infraestrutura local dedicada para controle e administração.
    - **Rastreamento e Geolocalização**: Possibilita o rastreamento dos equipamentos em tempo real, utilizando geolocalização via rede, garantindo a identificação da última localização conhecida dos dispositivos cadastrados.
    - **Bloqueio e Proteção contra Acessos Não Autorizados**: Permite o bloqueio remoto do equipamento em caso de perda, furto ou uso indevido, garantindo que os dados armazenados fiquem inacessíveis a terceiros até a recuperação ou redefinição do dispositivo.
    - **Proteção contra Adulteração**: Inclui mecanismo de proteção contra tentativas de remoção ou desativação da solução, mesmo em casos de substituição do disco rígido ou reinstalação do sistema operacional, assegurando a persistência do software de segurança.

- **Monitoramento de Hardware e Atividade**: Permite o monitoramento do status do hardware e da atividade do equipamento, gerando logs e relatórios sobre tentativas de acesso, movimentação e uso não autorizado.
- **Recuperação do Dispositivo**: A solução oferece mecanismos que auxiliem na recuperação do equipamento em caso de extravio ou furto, incluindo mensagens na tela para identificação do proprietário e envio de alertas automáticos para administradores da solução.

- **Outros Requisitos Técnicos e de Compatibilidade**

  - O software é compatível com Windows 11 Pro, garantindo suporte integral às funcionalidades do sistema operacional sem restrições.
  - A implementação da solução permite integração com ferramentas institucionais de gerenciamento de ativos, caso necessário, garantindo compatibilidade com os sistemas já utilizados pela **CONTRATANTE**.
  - O fornecedor garante atualizações contínuas e suporte técnico durante os 60 (sessenta) meses de vigência da licença, sem custos adicionais para a **CONTRATANTE**.

DECLARAÇÃO

Retorno de Equipamentos: A Positivo Tecnologia oferece serviço de coleta dos equipamentos, ao final da vida útil, através de solicitação e em condições a serem negociadas. Para utilização deste serviço e orçamento basta o cliente entrar em contato com a Central de Relacionamento Positivo pelo 0800-644-6591.

Prazo de Fornecimento de Peças de Reposição: A Positivo Tecnologia garante a disponibilidade de peças, sob orçamento, de equipamentos dentro do período de até 5 (cinco) anos após a fabricação do mesmo. Para obter maiores informações sobre a aquisição de peças de reposição para equipamentos fora da garantia, basta o cliente entrar em contato com a Central de Relacionamento Positivo pelo 0800-644-6591. A peça disponibilizada terá funcionamento equivalente ou superior ao da peça original. O prazo de fornecimento das peças será conforme disponibilidade.

Serviço de Manutenção Adicional: A Positivo Tecnologia disponibiliza o Serviço de Manutenção por até 36 (trinta e seis) meses adicionais após o vencimento da garantia contratada, mediante orçamento. Para a utilização deste serviço, o cliente deverá formalizar o interesse no ato da compra do equipamento.

OFÍCIO Nº 256.2025.CPL.1667127.2025.001317

Manaus, *na data da assinatura.*

Ao Senhor

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA

Chefe do Setor de Infraestrutura e Telecomunicação

Assunto: Análise de Propostas de Preços referente ao **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ SRP**.

Senhor Chefe,

Cumprimentando-o com o presente, informamos que tramita nesta Comissão Permanente de Licitação o Processo SEI n.º 2025.001317, referente ao **PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP,** cujo objeto é o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses*.

Isto posto, encaminhamos os autos em epígrafe a esse **Setor de Infraestrutura e Telecomunicação - SIET,** para **análise e manifestação** quanto às proposta de preço abaixo elencadas:

1 . **E.R. SOLUCOES INFORMATICA LTDA.** , CNPJ (MF) n.º 05.778.325/0005-47, para o Item 2 (doc's. 1667752, 1667756 e 1667757); e

2 . **POSITIVO TECNOLOGIA S/A (Filial)**, CNPJ (MF) n.º 81.243.735/0009-03, para o Item 3 (doc's. 1667843, 1667855 e 1667859).

Atenciosamente,

Maurício Araújo Medeiros

Pregoeiro - PORTARIA 606/2025/SUBADM

Documento assinado eletronicamente por **Maurício Araújo Medeiros**, **Membro da Comissão Permanente de Licitação - CPL**, em 09/07/2025, às 11:34, conforme art. 1º, III, "b", da Lei 11.419/2006.

A autenticidade do documento pode ser conferida no link http://sei.mpam.mp.br/sei/controlador_externo.php?acao=documento_conferir&id_orgao_acesso_externo=0 informando o código verificador **1667127** e o código CRC **8CA608F2**.

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
SUBITEM 2.1: MICROCOMPUTADOR TIPO 2 – "WorkStation Torre"		
1. PLACA PRINCIPAL (PLACA-MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação dele, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;		
2. Deverá possuir chipset produzido pelo fabricante do processador ofertado;		
3. Deve possuir, no mínimo, 4 (quatro) slots para memória RAM, "do tipo DDR-5 UDIMM, ou superior", permitindo a instalação de até 128 (cento e vinte e oito) Gigabytes;		
4. Deve suportar tecnologia Dual Channel de utilização de memória RAM, ou superior;		
5. Deve possuir, no mínimo, 6 (seis) interfaces de disco, sendo que no mínimo 2 (duas) interfaces internas, Serial ATA III (600), ou superior e 2 (duas) Sockets M.2 para SSD SATA ou NVMe;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
6. Deve ter controladora para implementar array de discos do tipo RAID 0/1 para unidades conectadas nos slots M.2, e RAID 0/1 para unidades nas interfaces SATA;		
7. Deve possuir no mínimo, 1 (um) slot PCIe 4.0 x16, 01 (um) slot PCIe 3.0 x4 e 01 (um) slot PCIe 3.0 x1;		
8. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;		
9. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;		
10. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
11. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
12. Deve possuir sistema de detecção de intrusão de chassis, com respectivo acionador instalado no gabinete que permita a detecção de abertura ainda que o equipamento esteja desligado da fonte de energia, devendo gerar log na memória flash da BIOS com todos os eventos de intrusão;		
13. Deve possuir suporte a virtualização por hardware;		
14. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
15. Deve possuir suporte a aceleração de segurança AES no hardware;		
16. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
17. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
18. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1;		
19. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		
2. BIOS		
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela CONTRATANTE;		
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. O processador ofertado, deverá possuir minimamente 8 (oito) núcleos e 16 (dezesseis) threads de processamento, podendo atingir frequência de operação interna de até 5.4 GHz em modo turbo, no mínimo;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos, threads e ciclos de clock base (MHz);		
3. Memória cache total de, no mínimo, 32MB;		
4. O conjunto chipset e processador deve ser indicado por seu fabricante como destinado para uso em WorkStations;		
5. O processador deverá pertencer à última geração disponível utilizada pelo fabricante do equipamento, com desempenho mínimo de 41.800 (quarenta e um mil e oitocentos) pontos, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php; 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.		
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos;		
7. Deve possuir controlador com suporte à memória RAM do tipoDDR5-4400 MT/s, ou superior;		
8. Deverá possuir tecnologia de fabricação de 10 nm (dez nanômetros) ou inferior;		
9. TDP(Thermal Design Power) típico de 65W, e máximo de 220W, declarado pelo fabricante;		
10. Deve possuir instruções do padrão AVX 2.0, ou superior;		
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;		
12. Deve possuir instruções que implementem extensões de virtualização de hardware;		
13. Deve possuir instruções AES-NI embutidas;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.		
4. MEMÓRIA RAM		
1. Deverá possuir, no mínimo, 32 (trinta e dois) Gb de memória RAM instalados, do tipo ECC (Error Correcting Code), com capacidade de expansão mínima de 128 (cento e vinte e oito) Gb;		
2. Deverá ser do tipo DDR-5 SODIMM ou superior e possuir, no mínimo, 4.400 MT/s de velocidade de comunicação com o barramento principal;		
3. A implementação do total de memória RAM deve utilizar 2 (dois) módulos, em modo dual channel;		
4. A memória ofertada, deverá possuir as melhores especificações possíveis dentre as disponíveis para o equipamento proposto;		
5. Os módulos devem ser instalados durante o processo de manufatura do computador, e homologados como parte do equipamento, inclusive estando cobertos pela garantia e suporte como descrito no Termo de Referência.		
5. UNIDADES DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256Gb e velocidade mínima de gravação de 1.200MB/s;		
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;		
3. Deve possuir, no mínimo, 1 (uma) unidade secundária de disco rígido (HDD) interna instalada, na capacidade mínima de 1Tb e velocidade de rotação mínima de 7.200RPM; 1. Deve utilizar interface Serial ATA III 600, ou superior; 2. Deve ter capacidade de armazenamento de 1 TB, no mínimo;		
4. As unidades devem ser instaladas durante o processo de manufatura do computador, e homologadas como parte do equipamento, inclusive estando cobertas pela garantia e suporte como descrito no Termo de Referência.		
6. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função wake-on-lan instalada e em funcionamento;		
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		
3. Deve possuir, no mínimo, 01 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.0 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, placa PCIe , conectado em slot específico na placa mãe, ou soldadas diretamente na mesma, “onboard”;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
5. No caso de cartão M.2 ou placa PCIe, o hardware deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. As interfaces Wireless ofertadas devem possuir, na data da entrega da proposta, homologação junto à ANATEL com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
7. CONECTIVIDADE		
1. Deverá possuir no mínimo 2 (duas) portas USB 3.2, do tipo A, localizadas na parte frontal do gabinete;		
2. Deverá possuir no mínimo 4 (quatro) portas USB 3.2, do tipo A, localizadas na parte traseira do gabinete;		
3. Possuir 1 (uma) porta USB 3.2 Tipo C;		
4. Não serão aceitas portas USB instaladas adicionalmente como placas PCI ou adaptadores. As portas devem fazer parte do projeto original da placa mãe do equipamento proposto;		
5. Deverá possuir leitor de cartões de memória integrado com suporte à cartões SD (Secure Digital).		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controladora com no mínimo 8 (oito) GB de memória GDDR6 dedicada, com largura de banda para a VRAM de 128 bits, suportando gráficos 3D/2D e DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.6, ou superior;		
4. Deve suportar Vulkan 1.2, ou superior;		
5. Deve suportar HDCP ou HDR;		
6. Deve suportar a resolução mínima de 3840 X 2160 @ 60 Hz;		
7. Tipo de bus PCI Express x8;		
8. Possuir, no mínimo, um total de 3 (três) portas de vídeo, suportando a utilização de até 2 (dois) monitores auxiliares simultânea e independentemente do monitor principal; 1. Os tipos das portas de vídeo supracitadas devem ser, no mínimo, HDMI 1.4 e/ou DisplayPort 1.2; 2. Serão aceitos adaptadores para atender todas as portas supra citadas, em detrimento das portas diferenciadas e disponíveis na controladora de vídeo externa;		
9. A controladora de vídeo proposta deverá alcançar pontuação mínima de desempenho de 10.500 pontos aferidos pelo site https://www.videocardbenchmark.net/gpu_list.php;		
10. Deverá ser homologada pelo fabricante, com comprovação através de catálogo do equipamento;		
11. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard", padrão "High Definition Audio";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 MM, na parte frontal do gabinete;		
3. Deve possuir, no mínimo, 1 alto-falante interno, com 2 Watts RMS de potência, compatível com a controladora de som.		
10. TECLADO		
1. A marca do teclado deverá ser igual à do fabricante do equipamento ofertado;		
2. Deve ser USB, no idioma padrão, Português (Brasil), ABNT-II;		
3. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute;		
4. Admite-se a utilização de teclas de função (F1...F12), para tais ações;		
5. Deve possuir teclado numérico integrado;		
6. Deve possuir, no mínimo, LEDs indicadores de estado das teclas capslock e numlock;		
7. Deve possuir ajuste de inclinação;		
8. Deve ser em gradações das cores preto ou prata;		
9. Não será aceito teclado com cabo retrátil;		
10. Não será aceito teclado wireless/bluetooth (sem fio).		
11. MOUSE		
1. Mouse óptico com conexão USB, de 3 (três) botões e sistema de rolagem, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 1.000 dpi;		
2. Deve ser da mesma marca do fabricante do equipamento ofertado;		
3. Deve ser em gradações das cores preto ou prata;		
4. Deve acompanhar mousepad ergonômico com apoio em gel para o pulso, do mesmo fabricante do equipamento;		
5. O mouse ou teclado ofertados, deve possuir um leitor biométrico, certificado para trabalhar com a autenticação do Microsoft Windows Hello.		
12. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		
1. O computador deve ser produzido no formato WorkStation Torre;		
2. Gabinete com volume mínimo de 19 (dezenove) e máximo de 27 (vinte e sete) litros e construído de material reforçado;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. Deverá possuir botão de liga/desliga na parte frontal do gabinete, com LED de indicação de que o equipamento está energizado, em local visível e acessível do gabinete.		
4. Deverá possuir pelo menos 2 (duas) baias internas para discos rígidos de 2,5 ou 3,5 polegadas;		
5. O gabinete deverá possuir um slot específico para conexão de tranca física de segurança do tipo Kensington ou similar. Deve ser entregue junto com o equipamento, a trava de forma a impedir a abertura do equipamento;		
6. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;		
7. O gabinete deve possuir acabamento interno composto de superfícies não cortantes;		
8. Deverá oferecer a possibilidade de, se demandado, aplicar logo oficial da contratante, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em Laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas no gabinete da workstation visando medidas de segurança;		
9. Deve ser fornecido com fonte de alimentação interna do mesmo fabricante e compatível com o equipamento, com potência mínima de 500W (quinhentos Watts), suficiente para suportar todos os dispositivos internos (placa mãe, interfaces, unidades de armazenamento, memória RAM e demais componentes e periféricos);		
10. A fonte de alimentação deve possuir eficiência igual ou superior a 92%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);		
11. A fonte deve aceitar tensão de entrada 110 e 220 Volts, de forma automática;		
12. Deverá ser fornecido um cabo de alimentação Y (para CPU e monitor), com conexão à rede elétrica no padrão NBR 14136:2002.		
13. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para:		
4. Controle: Funções de bloqueio e desbloqueio remoto.		
5. Inventário: Gestão detalhada de hardware e software do equipamento.		
6. Rastreabilidade: Recursos de geolocalização integrados.		
7. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
8. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;		
9. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
10. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.		
14. COMPATIBILIDADE		
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o modelo e sistema operacional exigido e ofertado;		
2. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;		
3. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;		
4. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional;		
15. OUTROS REQUISITOS		
1. Todas as partes do equipamento (gabinete, base, teclado e mouse) devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;		
2. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
3. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação, unidade de armazenamento, mouse e teclado, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;		
5. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
6. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		.
7. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
8. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;		
9. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;		
10. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;		
11. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional;		
12. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;		
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);		
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica;		
15. A comprovação deverá ser apresentada junto com a proposta;		
16. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes à qualquer momento;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
17. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.	⚠	Necessário diligências.
SUBITEM 2.2: MONITOR PRINCIPAL 27 POL WIDESCREEN		
1. TELA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 27 polegadas widescreen, com variação inferior a 3%;		
3. Resolução mínima de 2560x1440 a 60Hz, 16 milhões de cores;		
4. Ângulo de visão mínimo de 170° horizontal e vertical;		
5. Deve possuir controle digital de brilho, contraste e posicionamentos vertical e horizont**al.**		
2. INTERFACES		
1. Possuir, no mínimo, 2 (duas) portas de entrada de vídeo;		
2. Não importando os tipos de portas de entrada, deve acompanhar cabos que permitam conectar o monitor a equipamentos com portas de tipo HDMI 1.4 e DisplayPort 1.2;		
3. Serão aceitos adaptadores, em adicional aos cabos originais, para contemplar a possibilidade de conexão às portas de entrada solicitadas;		
4. O equipamento deve ter HUB USB 3.0 interno, com 1 (uma) porta USB para upstream a partir do PC;		
5. Deve possuir 4 (quatro) portas USB 3.0, sendo no mínimo 2 (duas) na lateral, na parte inferior ou na traseira do equipamento;		
6. Deve ter 1 (uma) porta combinada de 3,5mm para saída de fone de ouvido e entrada de microfone.		
3. MULTIMÍDIA		
1. O monitor deve possuir uma webcam, de no mínimo 5.0 megapixels;		
2. Deve incorporar microfone, com cancelamento de ruído, voltados para captar o som do usuário em frente ao monitor;		
3. Deve possuir 2 (dois) alto-falantes de 5W cada, integrados na parte frontal ou inferior do monitor.		
4. OUTROS REQUISITOS		
1. A cor deve ser predominantemente a mesma da cor ofertada no subitem **2.1 “MICROCOMPUTADOR Workstation”**;		
2. Possuir certificação de segurança UL ou IEC 60950;		
3. Possuir certificação de economia de energia EPA Energy Star, TCO 5.0 ou similar;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. Deve aceitar tensões de 110 e 220 Volts de forma automática;		
5. Deve acompanhar cabo de alimentação original do fabricante com conector de tomada elétrica no padrão brasileiro (NBR 14136:2002);		
6. O equipamento deverá vir acondicionado em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
7. Os equipamentos não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS - Restriction of Certain Hazardous Substances.		
8. O equipamento deve possuir interface de montagem no padrão VESA 100 x 100mm.		
9. Deverá possuir mecanismo físico para bloquear/obstruir a função da webcam;		
10. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
11. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		
12. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
13. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.		
SUBITEM 2.3: “MONITOR AUXILIAR 27 POL WIDESCREEN”		
1. TELA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 27 polegadas widescreen, com variação inferior a 3%;		
3. Resolução mínima de 1920x1080 a 60Hz, 16 milhões de cores;		
4. Ângulo de visão mínimo de 170° horizontal e vertical;		
5. Deve possuir controle digital de brilho, contraste e posicionamentos vertical e horizontal;		
2. INTERFACES		
1. Possuir ao menos 2 (duas) portas de entrada de vídeo;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
2. Não importando os tipos de portas de entrada, deve acompanhar cabos que permitam conectar o monitor a equipamentos com portas de tipo HDMI 1.4 e DisplayPort; 1. Serão aceitos adaptadores, em adicional aos cabos originais, para contemplar a possibilidade de conexão às portas solicitadas no item acima.		
3. SUPORTE DE MONTAGEM		
1. O equipamento deve possuir interface de montagem no padrão VESA 100 x 100mm;		
2. O acessório deve possibilitar minimamente os seguintes movimentos do monitor: 1. Rotação de 90º; 2. Elevação de 10cm; 3. Panorâmica de 90º; 4. Inclinação de -5º a 20º;		
4. OUTROS REQUISITOS		
1. A cor deve ser predominantemente a mesma da cor ofertada no subitem **2.1 "MICROCOMPUTADOR Workstation"**;		
2. Possuir certificação de segurança UL ou IEC 60950;		
3. Possuir certificação de economia de energia EPA Energy Star, TCO 5.0 ou similar;		
4. Deve aceitar tensões de 110 e 220 Volts de forma automática;		
5. Deve acompanhar cabo de alimentação original do fabricante com conector de tomada elétrica no padrão brasileiro (NBR 14136:2002);		
6. O equipamento deverá vir acondicionado em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
7. Os equipamentos não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS - Restriction of Certain Hazardous Substances;		
8. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
SUBITEM 2.1: MICROCOMPUTADOR TIPO 2 – "WorkStation Torre"		
1. PLACA PRINCIPAL (PLACA-MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação dele, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;		
2. Deverá possuir chipset produzido pelo fabricante do processador ofertado;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. Deve possuir, no mínimo, 4 (quatro) slots para memória RAM, “do tipo DDR-5 UDIMM, ou superior”, permitindo a instalação de até 128 (cento e vinte e oito) Gigabytes;		
4. Deve suportar tecnologia Dual Channel de utilização de memória RAM, ou superior;		
5. Deve possuir, no mínimo, 6 (seis) interfaces de disco, sendo que no mínimo 2 (duas) interfaces internas, Serial ATA III (600), ou superior e 2 (duas) Sockets M.2 para SSD SATA ou NVMe;		
6. Deve ter controladora para implementar array de discos do tipo RAID 0/1 para unidades conectadas nos slots M.2, e RAID 0/1 para unidades nas interfaces SATA;		
7. Deve possuir no mínimo, 1 (um) slot PCIe 4.0 x16, 01 (um) slot PCIe 3.0 x4 e 01 (um) slot PCIe 3.0 x1;		
8. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;		
9. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;		
10. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
11. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
12. Deve possuir sistema de detecção de intrusão de chassis, com respectivo acionador instalado no gabinete que permita a detecção de abertura ainda que o equipamento esteja desligado da fonte de energia, devendo gerar log na memória flash da BIOS com todos os eventos de intrusão;		
13. Deve possuir suporte a virtualização por hardware;		
14. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
15. Deve possuir suporte a aceleração de segurança AES no hardware;		
16. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
17. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
18. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1;		
19. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		
2. BIOS		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela CONTRATANTE;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. O processador ofertado, deverá possuir minimamente 8 (oito) núcleos e 16 (dezesseis) threads de processamento, podendo atingir frequência de operação interna de até 5.4 GHz em modo turbo, no mínimo;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos, threads e ciclos de clock base (MHz);		
3. Memória cache total de, no mínimo, 32MB;		
4. O conjunto chipset e processador deve ser indicado por seu fabricante como destinado para uso em WorkStations;		
5. O processador deverá pertencer à última geração disponível utilizada pelo fabricante do equipamento, com desempenho mínimo de 41.800 (quarenta e um mil e oitocentos) pontos, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php; 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.		
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos;		
7. Deve possuir controlador com suporte à memória RAM do tipoDDR5-4400 MT/s, ou superior;		
8. Deverá possuir tecnologia de fabricação de 10 nm (dez nanômetros) ou inferior;		
9. TDP(Thermal Design Power) típico de 65W, e máximo de 220W, declarado pelo fabricante;		
10. Deve possuir instruções do padrão AVX 2.0, ou superior;		
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
12. Deve possuir instruções que implementem extensões de virtualização de hardware;	□	
13. Deve possuir instruções AES-NI embutidas;	□	
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.	□	
4. MEMÓRIA RAM		
1. Deverá possuir, no mínimo, 32 (trinta e dois) Gb de memória RAM instalados, do tipo ECC (Error Correcting Code), com capacidade de expansão mínima de 128 (cento e vinte e oito) Gb;	□	
2. Deverá ser do tipo DDR-5 SODIMM ou superior e possuir, no mínimo, 4.400 MT/s de velocidade de comunicação com o barramento principal;	□	
3. A implementação do total de memória RAM deve utilizar 2 (dois) módulos, em modo dual channel;	□	
4. A memória ofertada, deverá possuir as melhores especificações possíveis dentre as disponíveis para o equipamento proposto;	□	
5. Os módulos devem ser instalados durante o processo de manufatura do computador, e homologados como parte do equipamento, inclusive estando cobertos pela garantia e suporte como descrito no Termo de Referência.	□	
5. UNIDADES DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256Gb e velocidade mínima de gravação de 1.200MB/s;	□	
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;	□	
3. Deve possuir, no mínimo, 1 (uma) unidade secundária de disco rígido (HDD) interna instalada, na capacidade mínima de 1Tb e velocidade de rotação mínima de 7.200RPM; 1. Deve utilizar interface Serial ATA III 600, ou superior; 2. Deve ter capacidade de armazenamento de 1 TB, no mínimo;	□	
4. As unidades devem ser instaladas durante o processo de manufatura do computador, e homologadas como parte do equipamento, inclusive estando cobertas pela garantia e suporte como descrito no Termo de Referência.	□	
6. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função wake-on-lan instalada e em funcionamento;	□	
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);	□	
3. Deve possuir, no mínimo, 01 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.0 ou superior;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, placa PCIe , conectado em slot específico na placa mãe, ou soldadas diretamente na mesma, “onboard”;		
5. No caso de cartão M.2 ou placa PCIe, o hardware deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. As interfaces Wireless ofertadas devem possuir, na data da entrega da proposta, homologação junto à ANATEL com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
7. CONECTIVIDADE		
1. Deverá possuir no mínimo 2 (duas) portas USB 3.2, do tipo A, localizadas na parte frontal do gabinete;		
2. Deverá possuir no mínimo 4 (quatro) portas USB 3.2, do tipo A, localizadas na parte traseira do gabinete;		
3. Possuir 1 (uma) porta USB 3.2 Tipo C;		
4. Não serão aceitas portas USB instaladas adicionalmente como placas PCI ou adaptadores. As portas devem fazer parte do projeto original da placa mãe do equipamento proposto;		
5. Deverá possuir leitor de cartões de memória integrado com suporte à cartões SD (Secure Digital).		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controladora com no mínimo 8 (oito) GB de memória GDDR6 dedicada, com largura de banda para a VRAM de 128 bits, suportando gráficos 3D/2D e DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.6, ou superior;		
4. Deve suportar Vulkan 1.2, ou superior;		
5. Deve suportar HDCP ou HDR;		
6. Deve suportar a resolução mínima de 3840 X 2160 @ 60 Hz;		
7. Tipo de bus PCI Express x8;		
8. Possuir, no mínimo, um total de 3 (três) portas de vídeo, suportando a utilização de até 2 (dois) monitores auxiliares simultânea e independentemente do monitor principal; 1. Os tipos das portas de vídeo supracitadas devem ser, no mínimo, HDMI 1.4 e/ou DisplayPort 1.2; 2. Serão aceitos adaptadores para atender todas as portas supra citadas, em detrimento das portas diferenciadas e disponíveis na controladora de vídeo externa;		
9. A controladora de vídeo proposta deverá alcançar pontuação mínima de desempenho de 10.500 pontos aferidos pelo site https://www.videocardbenchmark.net/gpu_list.php;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
10. Deverá ser homologada pelo fabricante, com comprovação através de catálogo do equipamento;		
11. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.		
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard", padrão "High Definition Audio";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 MM, na parte frontal do gabinete;		
3. Deve possuir, no mínimo, 1 alto-falante interno, com 2 Watts RMS de potência, compatível com a controladora de som.		
10. TECLADO		
1. A marca do teclado deverá ser igual à do fabricante do equipamento ofertado;		
2. Deve ser USB, no idioma padrão, Português (Brasil), ABNT-II;		
3. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute;		
4. Admite-se a utilização de teclas de função (F1...F12), para tais ações;		
5. Deve possuir teclado numérico integrado;		
6. Deve possuir, no mínimo, LEDs indicadores de estado das teclas capslock e numlock;		
7. Deve possuir ajuste de inclinação;		
8. Deve ser em gradações das cores preto ou prata;		
9. Não será aceito teclado com cabo retrátil;		
10. Não será aceito teclado wireless/bluetooth (sem fio).		
11. MOUSE		
1. Mouse óptico com conexão USB, de 3 (três) botões e sistema de rolagem, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 1.000 dpi;		
2. Deve ser da mesma marca do fabricante do equipamento ofertado;		
3. Deve ser em gradações das cores preto ou prata;		
4. Deve acompanhar mousepad ergonômico com apoio em gel para o pulso, do mesmo fabricante do equipamento;		
5. O mouse ou teclado ofertados, deve possuir um leitor biométrico, certificado para trabalhar com a autenticação do Microsoft Windows Hello.		
12. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. O computador deve ser produzido no formato WorkStation Torre;		
2. Gabinete com volume mínimo de 19 (dezenove) e máximo de 27 (vinte e sete) litros e construído de material reforçado;		
3. Deverá possuir botão de liga/desliga na parte frontal do gabinete, com LED de indicação de que o equipamento está energizado, em local visível e acessível do gabinete.		
4. Deverá possuir pelo menos 2 (duas) baias internas para discos rígidos de 2,5 ou 3,5 polegadas;		
5. O gabinete deverá possuir um slot específico para conexão de tranca física de segurança do tipo Kensington ou similar. Deve ser entregue junto com o equipamento, a trava de forma a impedir a abertura do equipamento;		
6. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;		
7. O gabinete deve possuir acabamento interno composto de superfícies não cortantes;		
8. Deverá oferecer a possibilidade de, se demandado, aplicar logo oficial da contratante, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em Laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas no gabinete da workstation visando medidas de segurança;		
9. Deve ser fornecido com fonte de alimentação interna do mesmo fabricante e compatível com o equipamento, com potência mínima de 500W (quinhentos Watts), suficiente para suportar todos os dispositivos internos (placa mãe, interfaces, unidades de armazenamento, memória RAM e demais componentes e periféricos);		
10. A fonte de alimentação deve possuir eficiência igual ou superior a 92%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);		
11. A fonte deve aceitar tensão de entrada 110 e 220 Volts, de forma automática;		
12. Deverá ser fornecido um cabo de alimentação Y (para CPU e monitor), com conexão à rede elétrica no padrão NBR 14136:2002.		
13. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para:		
4. Controle: Funções de bloqueio e desbloqueio remoto.		
5. Inventário: Gestão detalhada de hardware e software do equipamento.		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
6. Rastreabilidade: Recursos de geolocalização integrados.		
7. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;		
8. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;		
9. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
10. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.		
14. COMPATIBILIDADE		
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o modelo e sistema operacional exigido e ofertado;		
2. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;		
3. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;		
4. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional;		
15. OUTROS REQUISITOS		
1. Todas as partes do equipamento (gabinete, base, teclado e mouse) devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;		
2. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
3. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação, unidade de armazenamento, mouse e teclado, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;		
5. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
6. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		.
7. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
8. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;		
9. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;		
10. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;		
11. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional;		
12. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;		
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);		
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica;		
15. A comprovação deverá ser apresentada junto com a proposta;		
16. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes à qualquer momento;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
17. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.	⚠	Necessário diligências.
SUBITEM 2.2: MONITOR PRINCIPAL 27 POL WIDESCREEN		
1. TELA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 27 polegadas widescreen, com variação inferior a 3%;		
3. Resolução mínima de 2560x1440 a 60Hz, 16 milhões de cores;		
4. Ângulo de visão mínimo de 170° horizontal e vertical;		
5. Deve possuir controle digital de brilho, contraste e posicionamentos vertical e horizont**al.**		
2. INTERFACES		
1. Possuir, no mínimo, 2 (duas) portas de entrada de vídeo;		
2. Não importando os tipos de portas de entrada, deve acompanhar cabos que permitam conectar o monitor a equipamentos com portas de tipo HDMI 1.4 e DisplayPort 1.2;		
3. Serão aceitos adaptadores, em adicional aos cabos originais, para contemplar a possibilidade de conexão às portas de entrada solicitadas;		
4. O equipamento deve ter HUB USB 3.0 interno, com 1 (uma) porta USB para upstream a partir do PC;		
5. Deve possuir 4 (quatro) portas USB 3.0, sendo no mínimo 2 (duas) na lateral, na parte inferior ou na traseira do equipamento;		
6. Deve ter 1 (uma) porta combinada de 3,5mm para saída de fone de ouvido e entrada de microfone.		
3. MULTIMÍDIA		
1. O monitor deve possuir uma webcam, de no mínimo 5.0 megapixels;		
2. Deve incorporar microfone, com cancelamento de ruído, voltados para captar o som do usuário em frente ao monitor;		
3. Deve possuir 2 (dois) alto-falantes de 5W cada, integrados na parte frontal ou inferior do monitor.		
4. OUTROS REQUISITOS		
1. A cor deve ser predominantemente a mesma da cor ofertada no subitem **2.1 “MICROCOMPUTADOR Workstation”**;		
2. Possuir certificação de segurança UL ou IEC 60950;		
3. Possuir certificação de economia de energia EPA Energy Star, TCO 5.0 ou similar;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. Deve aceitar tensões de 110 e 220 Volts de forma automática;		
5. Deve acompanhar cabo de alimentação original do fabricante com conector de tomada elétrica no padrão brasileiro (NBR 14136:2002);		
6. O equipamento deverá vir acondicionado em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
7. Os equipamentos não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS - Restriction of Certain Hazardous Substances.		
8. O equipamento deve possuir interface de montagem no padrão VESA 100 x 100mm.		
9. Deverá possuir mecanismo físico para bloquear/obstruir a função da webcam;		
10. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
11. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		
12. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
13. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.		
SUBITEM 2.3: "MONITOR AUXILIAR 27 POL WIDESCREEN"		
1. TELA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 27 polegadas widescreen, com variação inferior a 3%;		
3. Resolução mínima de 1920x1080 a 60Hz, 16 milhões de cores;		
4. Ângulo de visão mínimo de 170° horizontal e vertical;		
5. Deve possuir controle digital de brilho, contraste e posicionamentos vertical e horizontal;		
2. INTERFACES		
1. Possuir ao menos 2 (duas) portas de entrada de vídeo;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
2. Não importando os tipos de portas de entrada, deve acompanhar cabos que permitam conectar o monitor a equipamentos com portas de tipo HDMI 1.4 e DisplayPort; 1. Serão aceitos adaptadores, em adicional aos cabos originais, para contemplar a possibilidade de conexão às portas solicitadas no item acima.		
3. SUPORTE DE MONTAGEM		
1. O equipamento deve possuir interface de montagem no padrão VESA 100 x 100mm;		
2. O acessório deve possibilitar minimamente os seguintes movimentos do monitor: 1. Rotação de 90º; 2. Elevação de 10cm; 3. Panorâmica de 90º; 4. Inclinação de -5º a 20º;		
4. OUTROS REQUISITOS		
1. A cor deve ser predominantemente a mesma da cor ofertada no subitem **2.1 "MICROCOMPUTADOR Workstation"**;		
2. Possuir certificação de segurança UL ou IEC 60950;		
3. Possuir certificação de economia de energia EPA Energy Star, TCO 5.0 ou similar;		
4. Deve aceitar tensões de 110 e 220 Volts de forma automática;		
5. Deve acompanhar cabo de alimentação original do fabricante com conector de tomada elétrica no padrão brasileiro (NBR 14136:2002);		
6. O equipamento deverá vir acondicionado em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
7. Os equipamentos não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS - Restriction of Certain Hazardous Substances;		
8. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo.		

3. Conclusão

O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica **OPINA** pela aceitabilidade do produto ofertado.

É o parecer.

Manaus, 10 de julho de 2025.

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - CEP 69000-000 - Manaus - AM - www.mpam.mp.br

PARECER Nº 22.2025.SIET.1668772.2025.001317

PROCESSO DE COMPRA: 2025.001317 Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ SRP Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317
OBJETO: Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.

1. **Relatório**

Trata-se de pedido de compatibilização da proposta da empresa **POSITIVO TECNOLOGIA S/A (FILIAL)**, com novos documentos reenviados para cumprir diligências para o **ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"**, na fase de disputas do Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ, documentos1667843, 1667855 e 1667859, recebido no dia 9/7/2025.

2.1 Produto ofertado

Item	Descrição	Quantidade	Produto Ofertado
1	**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** **Marca/Modelo de Referência:** Lenovo ThinkPad T14 GEN 5, Dell Latitude 5450.	300	L**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** Positivo Master N8450 , Intel® Core™ Ultra 5 135U, 14", RAM 16Gb, SSD M.2 256Gb, Windows 11 Pro (64 bits) Português BR, Absolute + Mouse SM-6620

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. PLACA PRINCIPAL (PLACA MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação do mesmo, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;	□	
2. Deve possuir, no mínimo, 1 (um) slot para memória RAM, "do tipo DDR-5 SODIMM", permitindo a instalação de até 40 (quarenta) Gigabytes, 8 (oito) soldadas diretamente na placa e até 32 (trinta e dois) instaladas no slot. Admite-se 2 slots com 1 módulo de memória cada, como configuração superior, em substituição aos módulos soldados na placa principal;	□	
3. Deve suportar tecnologia Dual Channel de utilização de memória RAM;	□	
4. Deve possuir 1 (um) Socket M.2 para SSD SATA ou NVMe;	□	
5. Deve possuir 1 (um) Socket M.2 Para Cartões Wi-Fi/Bluetooth;	□	
6. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;	□	
7. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;	⚠	**Não foi encontrado o certificado Energy Star para o item.**

DESCRIÇÃO	PARECER	OBSERVAÇÕES
8. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
9. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
10. Deve possuir suporte a virtualização por hardware;		
11. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
12. Deve possuir suporte a aceleração de segurança AES no hardware;		
13. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
14. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
15. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1 ou 3.2;		
16. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		**Não foi encontrado na documentação enviada o que assegure o suporte ao boot por http/https.**
2. BIOS		
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;	⚠	**Não foi possível verificar o atendimento deste requisito.**
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela **CONTRATANTE**;		
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. Deverá possuir, 2 (dois) núcleos, no mínimo, e 12 (doze) threads de processamento com frequência de operação interna básica de, no mínimo, 1.6 GHz;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos e ciclos de clock base (MHz);		
3. Memória cache total de, no mínimo, 12MB;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. O processador ofertado deverá ser Intel Core Ultra 5, "de 1ª geração", ou AMD Ryzen 5 PRO, "serie 8000", admitindo-se famílias ou gerações mais novas;		
5. O processador deverá ser da última geração disponível utilizada pelo fabricante do equipamento, **com desempenho mínimo de 17.000 (dezessete mil) pontos**, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php. 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.		
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos, podendo atingir até 4.4 GHz, no mínimo;		
7. Deve possuir controlador com suporte à memória RAM do tipo DDR5-5600 MT/s, ou superior;		
8. Deverá possuir tecnologia de fabricação de 7 nm (sete nanômetros) ou inferior;		
9. TDP(Thermal Design Power) mínimo de 12W, e máximo de 58W, declarado pelo fabricante;		
10. Deve possuir instruções do padrão AVX 2.0, ou superior;		
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;		
12. Deve possuir instruções que implementem extensões de virtualização de hardware;		
13. Deve possuir instruções AES-NI embutidas;		
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.		
4. MEMÓRIA RAM		
1. Deverá possuir, no mínimo, 16 (dezesseis) Gb de memória RAM instalados, com capacidade de expansão mínima de 40 (quarenta) Gb;	⚠	**Impreciso.** **Declara em sua proposta que o laptop ofertado tem capacidade de expansão até 64Gb. Contudo, no Item Placa Mãe, subitem 2, declara que possui dois slots para memória RAM, permitindo instalação até 40Gb.**
2. Deverá ser do tipo DDR-5/LPDDR-5 SODIMM ou superior e possuir no mínimo, 5600 MT/s de velocidade de comunicação com o barramento principal;		
3. A implementação do total de memória RAM deve utilizar 1 (um) módulo, de 8 (oito) GB, e mais 8 (oito) GB soldada diretamente à placa principal, utilizando tecnologia dual channel; 1. Admite-se que ambos os módulos sejam do tipo SODIMM, e sejam removíveis como configuração superior a mencionada acima;		
4. O(s) módulo(s) removível(eis) deve(m) ser instalado(s) durante o processo de manufatura do computador, e homologado(s) como parte do equipamento, inclusive estando coberto(s) pela garantia e suporte como descrito no Termo de Referência.		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
5. UNIDADE DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256 GB e velocidade mínima de gravação de 1.200MB/s;		
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;		
3. Deve ser instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. CONECTIVIDADE		
1. Deverá possuir no mínimo 4 (quatro) portas USB; 1. Do total de portas, no mínimo 2 (duas) devem ser do tipo USB 3.2 tipo A; 2. No mínimo 1 (uma) deve ser do tipo USB 3.2 Tipo C ou Thunderbolt;		
2. Possuir, no mínimo, 1 (uma) porta de vídeo adicional, suportando a utilização de 1 (um) monitor auxiliar simultânea e independentemente da tela integrada;		
3. O tipo da porta auxiliar de vídeo supracitada deve ser HDMI 2.0 ou DisplayPort 1.2. Em caso de versões miniaturizadas destas, adaptadores revertendo para elas devem ser fornecidos sem custo adicional.		
7. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função Wake On Lan instalada e em funcionamento;		
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		
3. Deve possuir, no mínimo, 1 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.3 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, conectado em slot específico na placa mãe, que deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência;		
5. A interface Wireless ofertada deve possuir, na data da entrega da proposta, homologação junto à **ANATEL** com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controlador 3D/2D com suporte a DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.5, ou superior;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
4. Deve suportar HDCP ou HDR;		
5. Deve suportar a resolução mínima de 1920 X 1080 @ 60 Hz;		
6. Deve possuir tecnologia de controle dinâmico de frequência, podendo atingir, no mínimo, 1.35GHz;		
7. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.		
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 mm;		
3. Deve possuir, no mínimo, 2 alto-falantes internos, com 2 Watt RMS de potência cada, compatíveis com a controladora de som;		
4. Deve incorporar microfone(s), com cancelamento de ruído, voltados para captar o som do usuário em frente ao computador.		
10. TECLADO		
1. Deve ser integrado e retroiluminado no idioma padrão, português (Brasil), ABNT-II;		
2. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute; 1. Admite-se a utilização de teclas de função (F1...F12), para tais ações.		
11. DISPOSITIVOS APONTADORES		
1. Deve possuir um touchpad integrado, com dois botões, e área útil de 4 (quatro) pol², no mínimo; 1. Admite-se que os botões sejam integrados, como cliques diretos na parte inferior do touchpad;		
2. Deve suportar gestos de rolagem, ou possuir teclas, área ou dispositivo dedicado;		
3. Deve acompanhar um mouse adicional, da mesma cor e do mesmo fabricante do equipamento ofertado; 1. Deve ser óptico, com conexão USB, com 3 (três) botões e sistema de rolagem de página, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 800 dpi.		
12. TELA INTEGRADA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 14 polegadas widescreen, no mínimo;		
3. Deve suportar, no mínimo, 16 milhões de cores;		
4. Resolução mínima de 1920x1080@60Hz;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
5. Ângulo de visão mínimo de 85° horizontal e vertical;	⚠	**Não foi possível verificar na documentação enviada as informações contidas na proposta.**
6. Deve possuir brilho mínimo de 300 cd/m².	▯	
13. WEBCAM		
1. O equipamento deve possuir uma webcam integrada, de 1.3 megapixels, com resolução de vídeo FHD, no mínimo, não sendo aceita solução externa;	▯	
2. Deve possuir mecanismo de bloqueio por tampa, ou desativação mecânica, como solução de privacidade, também integrada ao equipamento.	▯	
14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		
1. O equipamento deve ser produzido no formato laptop.	▯	
2. O peso total do equipamento sem a fonte, não deve exceder os 1.6 Kg (um quilo e seiscentos gramas);	▯	
3. A dobradiça do equipamento, deve ser construída em metal, e com articulação de 180º;	▯	
4. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;	▯	
5. Deve possuir botão de liga/desliga e luz de indicação de computador ligado (power-on) em local visível e acessível do computador, quando ele estiver aberto;	▯	
6. Deve possuir leitor biométrico integrado, em área acessível, quando o notebook estiver aberto;	▯	
7. Deve oferecer a possibilidade de, se demandado, aplicar logo oficial da CONTRATANTE, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas na parte inferior do laptop, visando medidas de segurança;	▯	
8. O computador deverá possuir fenda de encaixe padrão "Kensington" ou “Noble Wedge” para utilização de cabo de aço do mesmo tipo;	▯	
9. Deve ser fornecido com fonte de carregamento/alimentação do mesmo fabricante e compatível com o equipamento, com potência suficiente para suportar todos os dispositivos internos em suas configurações máximas permitidas, além de possibilitar o pleno carregamento da bateria do equipamento;	▯	
10. A fonte de alimentação deve possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);	⚠	**Não foi apresentado nenhum certificado/teste para comprovar a eficiência da fonte ofertada.**
11. A fonte deve possuir tensão de entrada 110 e 220 Volts de forma automática;	▯	
12. A fonte deve fornecer uma alimentação mínima de 65W para o equipamento;	▯	
13. Os plugues de conexão à rede elétrica devem seguir o padrão NBR 14136:2002.	▯	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
15. BATERIA		
1. Deve ser integrada ao corpo do equipamento, (não destacável);		
2. Potência mínima de 39 wh;		
3. Deve possuir no mínimo 3 (três) células de carregamento; 1. Deve ser capaz de manter o equipamento funcionando ininterruptamente por no mínimo 11 (onze) horas, conforme o padrão de teste do aplicativo MobileMark 2018.		
16. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para: • Controle: Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.		
4. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;		
5. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;		
6. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
7. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.		
17. COMPATIBILIDADE		
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o sistema operacional exigido e ofertado. 1. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;		
2. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional.		
18. OUTROS REQUISITOS		
1. Todas as partes do computador devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;		
2. Deverá acompanhar maleta, pasta, mochila ou similar, para transporte com segurança, de tamanho suficiente para acondicionar o equipamento e seus acessórios (fonte de alimentação e cabos), confeccionada em material resistente e impermeável;		
3. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;		• **Não foi encaminhado o catálogo da placa-mãe.** • **Não foi encontrado o certificado energy star do laptop**
5. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;		
6. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
7. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		
8. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
9. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;		
10. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;		
11. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
12. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional. 1. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;	□	
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);	□	
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica. 1. A comprovação deverá ser apresentada junto com a proposta;	□	
15. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes a qualquer momento;	□	
16. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo. **Para as baterias, será admitido garantia mínima de 36 (trinta e seis) meses**. Nos meses que restarem para completar o prazo total de garantia, a **FORNECEDORA** se obriga a dispor de bateria para venda em caso de eventual necessidade, e a realizar o suporte e assistências técnica sem ônus para a **CONTRATANTE**.	□	

3. Conclusão

Após análise da documentação apresentada pela licitante **Positivo Tecnologia S.A.**, referente ao **Item 3 – MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"**, foram observados alguns pontos inconclusivos, marcados como ⚠**. Os pontos marcados com** □, são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.

Caso a concessão de nova oportunidade para envio de documentação não viole o Art. 42, §2º da Lei n.º 14.133/221, requeremos que também seja solicitado que o licitante, em sua proposta, declare expressamente que a garantia abrange acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.

É o parecer.

Manaus, 10 de julho de 2025.

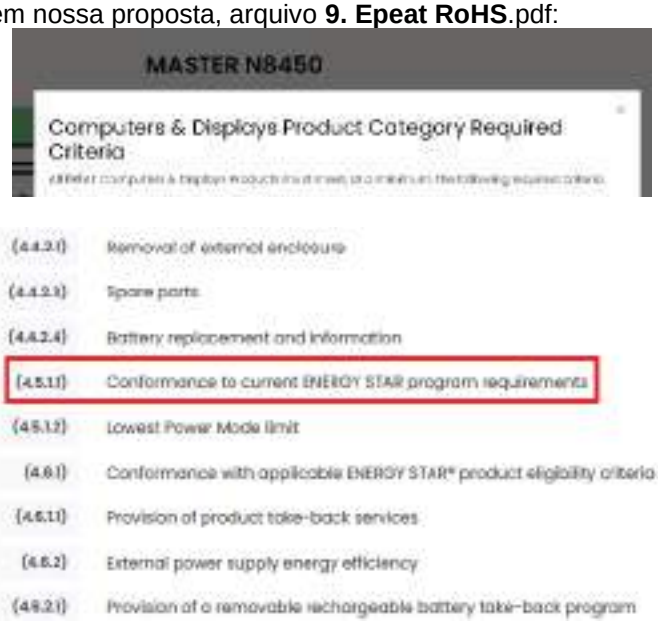
DILIGÊNCIA – ITEM 3

Em resposta à Diligência solicitada no portal Comprasnet, no dia 11/07/2025, segue abaixo as respostas referentes às solicitações de diligências.



Diligência 1:

Texto do Edital:
1. PLACA PRINCIPAL (PLACA MÃE)
7. Deve ser **compatível** com Energy Star 7.0/7.1, ou tecnologias superiores; (grifos nossos)

Diligência: Não foi encontrado o certificado Energy Star para o item.

Resposta Diligência 1: Conforme já mencionado acima e previsto no Termo de Referência, o órgão requer que a placa-mãe seja compatível com o padrão Energy Star 7.0/7.1 ou versões superiores. É importante destacar que compatibilidade não se confunde com certificação. No presente edital, a **certificação** Energy Star foi exigida apenas para os monitores constantes em outros itens não participados por esta licitante. Para o item em questão (notebook), foi solicitada apenas a **compatibilidade** com o referido padrão. O Energy Star é um programa voluntário dos Estados Unidos, criado pela Environmental Protection Agency (EPA) e pelo Departamento de Energia dos EUA, destinado à promoção da eficiência energética em produtos como eletroeletrônicos, eletrodomésticos, equipamentos de iluminação, construções, entre outros. Ressalta-se que essa certificação não é adotada oficialmente no Brasil. Na documentação já apresentada, especificamente no arquivo "**9. Epeat RoHS.pdf**", constam informações que comprovam a compatibilidade não apenas da placa-mãe, mas de todo o equipamento Positivo Master N8450 com os requisitos do Energy Star, conforme ilustrado na figura abaixo. Por fim, cabe ressaltar que o EPEAT (Electronic Product Environmental Assessment Tool) é um sistema internacional de avaliação ambiental voltado a equipamentos eletrônicos. Para que um produto seja registrado no EPEAT, é obrigatório que ele atenda aos critérios estabelecidos pelo programa **Energy Star**, o que reforça a conformidade do equipamento apresentado com os requisitos de eficiência energética solicitados.

Print do EPEAT constante em nossa proposta, arquivo **9. Epeat RoHS**.pdf:

Documento(s) ITEM 3 - POSITIVO TECNOLOGIA - DILIGÊNCIA (1671523) SEI 2025.001317 / pg. 1859

POSITIVO
TECNOLOGIA

Diligência 2:

Texto do Edital:
1. PLACA PRINCIPAL (PLACA MÃE)

16. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/httpsboot.

Diligência: Não foi encontrado na documentação enviada o que assegure o suporte ao boot por http/https.

Resposta Diligência 2: A Positivo Tecnologia S.A., além de licitante, é também a **fabricante** dos equipamentos ofertados. No documento intitulado "**02 – Especificação Técnica – ITEM 3.pdf**", enviado juntamente com a proposta e devidamente assinado pela própria Positivo, constam todas as especificações técnicas do equipamento apresentado. A comprovação do atendimento ao item em questão se dá por meio desse arquivo, no qual a Positivo — na qualidade de **fabricante** e proponente — declara e assegura a conformidade do equipamento com os requisitos estabelecidos no edital.

14. Possui suporte à tecnologia de acesso remoto out-of-band embutida no hardware;
15. Possui controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;
16. Suporta boot por pendrive ou disco conectado a uma porta USB 3.2;
17. Suporta a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.

Diligência 3:

Texto do Edital:
2. BIOS

12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;

Diligência: Não foi possível verificar o atendimento deste requisito.

Resposta Diligência 3: A Positivo Tecnologia S.A., além de licitante, é também a **fabricante** dos equipamentos ofertados. No documento intitulado "**02 – Especificação Técnica – ITEM 3.pdf**", enviado juntamente com a proposta e devidamente assinado pela própria Positivo, constam todas as especificações técnicas do equipamento apresentado. A comprovação do atendimento ao item em questão se dá por meio desse arquivo, no qual a Positivo — na qualidade de **fabricante** e proponente — declara e assegura a conformidade do equipamento com os requisitos estabelecidos no edital.

11. Possui ferramenta que possibilita realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88r1. Esta ferramenta é nativa do BIOS, é oficialmente homologada pelo fabricante do equipamento;
12. Possui opção para exportar/importar configurações;
13. Oferece a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela CONTRATANTE;

Diligência 4:

Texto do Edital:
4. MEMÓRIA RAM

1. Deverá possuir, no mínimo, 16 (dezesseis) Gb de memória RAM instalados, com capacidade de expansão mínima de 40(quarenta) Gb;

Documento(s) ITEM 3 - POSITIVO TECNOLOGIA - DILIGÊNCIA (1671523) SEI 2025.001317 / pg. 1860

Docusign Envelope ID: 6DB9C900-3A2C-4D21-9A36-E3E99013FA9C

POSITIVO
TECNOLOGIA

Diligência: Impreciso. Declara em sua proposta que o laptop ofertado tem capacidade de expansão até 64Gb. Contudo, no Item Placa Mãe, subitem 2, declara que possui dois slots para memória RAM, permitindo instalação até 40Gb.

Resposta Diligência 4: O edital estabelece como requisito que o equipamento permita a instalação de **até 40 (quarenta) gigabytes de memória RAM**. Nesse sentido, informamos que a comprovação do atendimento a esse item consta no arquivo "**1. Equipamento.pdf**", conforme demonstrado abaixo:

Memória RAM	2x slots SO-DIMM DDR5 com suporte para até 64 GB a 4800/5600 MT/s. Com suporte ao modo dual-channel

A informação constante no documento **"02 – Especificação Técnica – ITEM 3.pdf"** refere-se ao **requisito mínimo exigido no edital**. Considerando que o edital exige suporte para até 40 GB, e que o equipamento ofertado possui **capacidade de até 64 GB**, **conclui-se que o item está plenamente atendido**, superando inclusive a exigência estabelecida.

Diligência 5:

Texto do Edital:
12. TELA INTEGRADA
5. Ângulo de visão mínimo de 85° horizontal e vertical;

Diligência: Não foi possível verificar na documentação enviada as informações contidas na proposta.

Resposta Diligência 5: O edital solicita, além do item informado acima, tecnologia da tela IPS. No arquivo "**1. Equipamento.pdf**" enviado com a proposta, há informações sobre a tela utilizada no notebook, conforme abaixo:

Tela	• LCD 14", 16:10, anti-reflexiva, Resolução Full HD+ (WUXGA) 1920 x 1200, LED, IPS, brilho 300 nits, contraste 800:1. • LCD 14", 16:10, anti-reflexiva, Resolução Full HD+ (WUXGA) 1920 x 1200, LED, IPS, brilho 350 nits, contraste 1500:1, com filtro de privacidade eletrônico integrado.

É importante destacar que um dos principais diferenciais da tecnologia IPS (In-Plane Switching) é a capacidade de proporcionar amplos ângulos de visão, **alcançando até 178° na horizontal e na vertical**, sem distorções significativas de cor ou contraste. Dessa forma, ao comprovarmos por meio da ficha técnica do equipamento que o mesmo adota a tecnologia de tela IPS, o requisito referente ao ângulo de visão exigido no edital está plenamente atendido, uma vez que essa característica é intrínseca à tecnologia utilizada.

A Positivo Tecnologia S.A., além de licitante, é também a **fabricante** dos equipamentos ofertados. No documento intitulado "**02 – Especificação Técnica – ITEM 3.pdf**", enviado juntamente com a proposta e devidamente assinado pela própria Positivo, constam todas as especificações técnicas do equipamento apresentado. A comprovação do atendimento ao item em questão **também** se dá por meio desse arquivo, no qual a Positivo — na qualidade de **fabricante** e proponente — declara e assegura a conformidade do equipamento com os requisitos estabelecidos no edital.

12. TELA INTEGRADA
1. É de tecnologia IPS (In-Plane Switching);
2. Tamanho de 14 polegadas widescreen;
3. Suporta 16 milhões de cores;
4. Resolução de 1920x1200@60Hz;
5. Ângulo de visão de 85° horizontal e vertical;
6. Possui brilho de 300 cd/m².

Docusign Envelope ID: 6DB9C900-3A2C-4D21-9A36-E3E99013FA9C

POSITIVO
TECNOLOGIA

Diligência 6:

Texto do Edital:
14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO

10. A fonte de alimentação deve possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);

Diligência: Não foi apresentado nenhum certificado/teste para comprovar a eficiência da fonte ofertada.

Resposta Diligência 6: A Positivo Tecnologia S.A., além de licitante, é também a **fabricante** dos equipamentos ofertados. No documento "**01 – Proposta PGJ AM**", enviado juntamente com a proposta, consta declaração formal que comprova o atendimento ao item em questão.
Nessa condição, a Positivo — na qualidade de fabricante e proponente — declara e assegura que o equipamento ofertado está em plena conformidade com os requisitos técnicos estabelecidos no edital.

DECLARAÇAO

A empresa **POSITIVO TECNOLOGIA S.A (Filial)**, pessoa jurídica de direito privado, estabelecida na Rua Ásia, s/n – Lote 05 – Quadra N – Bairro Iguape, na Cidade de Ilhéus, Estado da Bahia – CEP 45.658-464, inscrita sob o CNPJ n.º 81.243.735/0009-03, declara como fabricante dos equipamentos ofertados para o pregão em referência que:

- Os produtos ofertados serão industrializados, novos e entregues acondicionados adequadamente em suas embalagens originais lacradas, acompanhados de guias e manuais de utilização e de cabos e conectores, além de licenças dos softwares necessários à sua perfeita instalação e funcionamento;
- A licença do software dedicado terá cobertura equivalente ao período de garantia do equipamento (60 meses) e estará plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;
- Os equipamentos pertencem à linha corporativa, não sendo equipamentos destinados ao uso da linha doméstica;
- A fonte de alimentação modelo PI-ADAP090-A(02) possui eficiência superior a 85% com 50% da carga de trabalho e implementa PFC (Power Factor Correction) ativo;
- A fonte de alimentação modelo PI-ADAP090-A(02) é totalmente compatível e homologada para utilização no equipamento POSITIVO MASTER N8450.

É importante ressaltar que o edital em questão não exige apresentação de certificado, teste ou relatório técnico específico para comprovação do item mencionado. Contudo, caso a declaração formal apresentada pela licitante e fabricante Positivo não seja considerada suficiente para fins de comprovação, em sede de diligência, enviamos em anexo o relatório de testes que atesta o atendimento ao referido requisito técnico, conforme solicitado na diligência.

Diligência 7:

Texto do Edital:
18. OUTROS REQUISITOS

4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades,

Docusign Envelope ID: 6DB9C900-3A2C-4D21-9A36-E3E99013FA9C

POSITIVO
TECNOLOGIA

comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;

Diligência: Não foi encaminhado o catálogo da placa-mãe. Não foi encontrado o certificado energy star do laptop.

Resposta Diligência 7: Por padrão, os catálogos dos produtos da Positivo Tecnologia trazem todas as informações relevantes sobre a placa-mãe, portanto, suas funcionalidades já estão devidamente contempladas na ficha técnica do produto **"1. Equipamento.pdf**" e no documento "**02 – Especificação Técnica – ITEM 3.pdf**". Dessa forma, entende-se que a documentação apresentada é suficiente para a comprovação técnica do atendimento ao item, conforme exigências do edital, sobretudo considerando que os documentos foram elaborados, assinados e apresentados pela própria Positivo Tecnologia S.A., na qualidade de fabricante e licitante, o que confere veracidade e responsabilidade às informações prestadas.

Com relação ao certificado Energy Star, o mesmo já foi respondido através da resposta da **diligência 1.**

A Positivo Tecnologia permanece à inteira disposição para quaisquer informações ou providências, aproveitando o ensejo para reiterar votos de estima e elevado apreço.

Curitiba, 11 de julho de 2025.

8 INCERTEZA DE MEDIÇÃO

Os resultados dos ensaios quantitativos mencionados neste documento apresentam os devidos valores de incerteza expandida da medição e respectivo valor do fator de abrangência, o qual para uma distribuição t com os graus de liberdade efetivos calculado corresponde a uma probabilidade de abrangência de aproximadamente 95%. Devido ao fato das incertezas serem reavaliadas periodicamente, as mesmas podem sofrer alterações. A incerteza padrão da medição foi determinada de acordo com a publicação do EA-4/02.

OFÍCIO Nº 264.2025.CPL.1671346.2025.001317

Manaus, *na data da assinatura.*

Ao Senhor

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA

Chefe do Setor de Infraestrutura e Telecomunicação

Assunto: Análise de Propostas de Preços referente ao **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ SRP**.

Senhor Chefe,

Cumprimentando-o com o presente, informamos que tramita nesta Comissão Permanente de Licitação o Processo SEI n.º 2025.001317, referente ao **PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP,** cujo objeto é o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses*.

Isto posto, considerando as solicitações constantes dos **Ofícios Nº 234.2025.CPL. (doc. 1661731), 235.2025.CPL. (doc. 1661828) e 256.2025.CPL. (doc. 1667127)**, encaminhamos os autos em epígrafe a esse **Setor de Infraestrutura e Telecomunicação - SIET,** para **análise e manifestação** quanto aos documentos solicitados, em diligência, complementares à proposta de preço abaixo elencada:

1 . **POSITIVO TECNOLOGIA S/A (Filial)**, CNPJ (MF) n.º 81.243.735/0009-03, para o Item 3 (doc's. 1671523).

Atenciosamente,

Maurício Araújo Medeiros

Pregoeiro - PORTARIA 606/2025/SUBADM

Documento assinado eletronicamente por **Maurício Araújo Medeiros**, **Membro da Comissão Permanente de Licitação - CPL**, em 14/07/2025, às 11:38, conforme art. 1º, III, "b", da Lei 11.419/2006.

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. PLACA PRINCIPAL (PLACA MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação do mesmo, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;		
2. Deve possuir, no mínimo, 1 (um) slot para memória RAM, "do tipo DDR-5 SODIMM", permitindo a instalação de até 40 (quarenta) Gigabytes, 8 (oito) soldadas diretamente na placa e até 32 (trinta e dois) instaladas no slot. Admite-se 2 slots com 1 módulo de memória cada, como configuração superior, em substituição aos módulos soldados na placa principal;		
3. Deve suportar tecnologia Dual Channel de utilização de memória RAM;		
4. Deve possuir 1 (um) Socket M.2 para SSD SATA ou NVMe;		
5. Deve possuir 1 (um) Socket M.2 Para Cartões Wi-Fi/Bluetooth;		
6. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;		
7. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;		**Não foi possível verificar qual a versão do programa Energy Star que o equipamento é compatível.**

DESCRIÇÃO	PARECER	OBSERVAÇÕES
8. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
9. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
10. Deve possuir suporte a virtualização por hardware;		
11. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
12. Deve possuir suporte a aceleração de segurança AES no hardware;		
13. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
14. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
15. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1 ou 3.2;		
16. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		**Não foi encontrado na documentação enviada o que assegure o suporte ao boot por http/https.**
2. BIOS		
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		**Não foi possível verificar o atendimento deste requisito.**
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela **CONTRATANTE**;		
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. Deverá possuir, 2 (dois) núcleos, no mínimo, e 12 (doze) threads de processamento com frequência de operação interna básica de, no mínimo, 1.6 GHz;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos e ciclos de clock base (MHz);		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. Memória cache total de, no mínimo, 12MB;		
4. O processador ofertado deverá ser Intel Core Ultra 5, "de 1ª geração", ou AMD Ryzen 5 PRO, "serie 8000", admitindo-se famílias ou gerações mais novas;		
5. O processador deverá ser da última geração disponível utilizada pelo fabricante do equipamento, **com desempenho mínimo de 17.000 (dezessete mil) pontos**, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php. 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.		
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos, podendo atingir até 4.4 GHz, no mínimo;		
7. Deve possuir controlador com suporte à memória RAM do tipo DDR5-5600 MT/s, ou superior;		
8. Deverá possuir tecnologia de fabricação de 7 nm (sete nanômetros) ou inferior;		
9. TDP(Thermal Design Power) mínimo de 12W, e máximo de 58W, declarado pelo fabricante;		
10. Deve possuir instruções do padrão AVX 2.0, ou superior;		
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;		
12. Deve possuir instruções que implementem extensões de virtualização de hardware;		
13. Deve possuir instruções AES-NI embutidas;		
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.		
4. MEMÓRIA RAM		
1. Deverá possuir, no mínimo, 16 (dezesseis) Gb de memória RAM instalados, com capacidade de expansão mínima de 40 (quarenta) Gb;		
2. Deverá ser do tipo DDR-5/LPDDR-5 SODIMM ou superior e possuir no mínimo, 5600 MT/s de velocidade de comunicação com o barramento principal;		
3. A implementação do total de memória RAM deve utilizar 1 (um) módulo, de 8 (oito) GB, e mais 8 (oito) GB soldada diretamente à placa principal, utilizando tecnologia dual channel; 1. Admite-se que ambos os módulos sejam do tipo SODIMM, e sejam removíveis como configuração superior a mencionada acima;		
4. O(s) módulo(s) removível(eis) deve(m) ser instalado(s) durante o processo de manufatura do computador, e homologado(s) como parte do equipamento, inclusive estando coberto(s) pela garantia e suporte como descrito no Termo de Referência.		
5. UNIDADE DE ARMAZENAMENTO		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256 GB e velocidade mínima de gravação de 1.200MB/s;		
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;		
3. Deve ser instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. CONECTIVIDADE		
1. Deverá possuir no mínimo 4 (quatro) portas USB; 1. Do total de portas, no mínimo 2 (duas) devem ser do tipo USB 3.2 tipo A; 2. No mínimo 1 (uma) deve ser do tipo USB 3.2 Tipo C ou Thunderbolt;		
2. Possuir, no mínimo, 1 (uma) porta de vídeo adicional, suportando a utilização de 1 (um) monitor auxiliar simultânea e independentemente da tela integrada;		
3. O tipo da porta auxiliar de vídeo supracitada deve ser HDMI 2.0 ou DisplayPort 1.2. Em caso de versões miniaturizadas destas, adaptadores revertendo para elas devem ser fornecidos sem custo adicional.		
7. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função Wake On Lan instalada e em funcionamento;		
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		
3. Deve possuir, no mínimo, 1 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.3 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, conectado em slot específico na placa mãe, que deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência;		
5. A interface Wireless ofertada deve possuir, na data da entrega da proposta, homologação junto à **ANATEL** com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controlador 3D/2D com suporte a DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.5, ou superior;		
4. Deve suportar HDCP ou HDR;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
5. Deve suportar a resolução mínima de 1920 X 1080 @ 60 Hz;		
6. Deve possuir tecnologia de controle dinâmico de frequência, podendo atingir, no mínimo, 1.35GHz;		
7. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.		
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 mm;		
3. Deve possuir, no mínimo, 2 alto-falantes internos, com 2 Watt RMS de potência cada, compatíveis com a controladora de som;		
4. Deve incorporar microfone(s), com cancelamento de ruído, voltados para captar o som do usuário em frente ao computador.		
10. TECLADO		
1. Deve ser integrado e retroiluminado no idioma padrão, português (Brasil), ABNT-II;		
2. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute; 1. Admite-se a utilização de teclas de função (F1...F12), para tais ações.		
11. DISPOSITIVOS APONTADORES		
1. Deve possuir um touchpad integrado, com dois botões, e área útil de 4 (quatro) pol², no mínimo; 1. Admite-se que os botões sejam integrados, como cliques diretos na parte inferior do touchpad;		
2. Deve suportar gestos de rolagem, ou possuir teclas, área ou dispositivo dedicado;		
3. Deve acompanhar um mouse adicional, da mesma cor e do mesmo fabricante do equipamento ofertado; 1. Deve ser óptico, com conexão USB, com 3 (três) botões e sistema de rolagem de página, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 800 dpi.		
12. TELA INTEGRADA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 14 polegadas widescreen, no mínimo;		
3. Deve suportar, no mínimo, 16 milhões de cores;		
4. Resolução mínima de 1920x1080@60Hz;		
5. Ângulo de visão mínimo de 85° horizontal e vertical;		
6. Deve possuir brilho mínimo de 300 cd/m².		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
13. WEBCAM		
1. O equipamento deve possuir uma webcam integrada, de 1.3 megapixels, com resolução de vídeo FHD, no mínimo, não sendo aceita solução externa;		
2. Deve possuir mecanismo de bloqueio por tampa, ou desativação mecânica, como solução de privacidade, também integrada ao equipamento.		
14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		
1. O equipamento deve ser produzido no formato laptop.		
2. O peso total do equipamento sem a fonte, não deve exceder os 1.6 Kg (um quilo e seiscentos gramas);		
3. A dobradiça do equipamento, deve ser construída em metal, e com articulação de 180º;		
4. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;		
5. Deve possuir botão de liga/desliga e luz de indicação de computador ligado (power-on) em local visível e acessível do computador, quando ele estiver aberto;		
6. Deve possuir leitor biométrico integrado, em área acessível, quando o notebook estiver aberto;		
7. Deve oferecer a possibilidade de, se demandado, aplicar logo oficial da CONTRATANTE, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas na parte inferior do laptop, visando medidas de segurança;		
8. O computador deverá possuir fenda de encaixe padrão "Kensington" ou “Noble Wedge” para utilização de cabo de aço do mesmo tipo;		
9. Deve ser fornecido com fonte de carregamento/alimentação do mesmo fabricante e compatível com o equipamento, com potência suficiente para suportar todos os dispositivos internos em suas configurações máximas permitidas, além de possibilitar o pleno carregamento da bateria do equipamento;		
10. A fonte de alimentação deve possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);		
11. A fonte deve possuir tensão de entrada 110 e 220 Volts de forma automática;		
12. A fonte deve fornecer uma alimentação mínima de 65W para o equipamento;		
13. Os plugues de conexão à rede elétrica devem seguir o padrão NBR 14136:2002.		
15. BATERIA		
1. Deve ser integrada ao corpo do equipamento, (não destacável);		
2. Potência mínima de 39 wh;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. Deve possuir no mínimo 3 (três) células de carregamento; 1. Deve ser capaz de manter o equipamento funcionando ininterruptamente por no mínimo 11 (onze) horas, conforme o padrão de teste do aplicativo MobileMark 2018.		
16. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para: • Controle: Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.		
4. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;		
5. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;		
6. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
7. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.		
17. COMPATIBILIDADE		
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o sistema operacional exigido e ofertado. 1. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;		
2. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;		
3. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional.		
18. OUTROS REQUISITOS		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Todas as partes do computador devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;		
2. Deverá acompanhar maleta, pasta, mochila ou similar, para transporte com segurança, de tamanho suficiente para acondicionar o equipamento e seus acessórios (fonte de alimentação e cabos), confeccionada em material resistente e impermeável;		
3. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;		• **Não foi encaminhado o catálogo da placa-mãe.** • **Não foi encontrado o certificado energy star do laptop**
5. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;		
6. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
7. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		
8. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
9. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;		
10. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;		
11. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;		
12. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional. 1. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;		
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica. 1. A comprovação deverá ser apresentada junto com a proposta;		
15. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes a qualquer momento;		
16. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo. **Para as baterias, será admitido garantia mínima de 36 (trinta e seis) meses**. Nos meses que restarem para completar o prazo total de garantia, a **FORNECEDORA** se obriga a dispor de bateria para venda em caso de eventual necessidade, e a realizar o suporte e assistências técnica sem ônus para a **CONTRATANTE**.		

3. Conclusão

Não sendo possível constatar os pontos controversos, e não sendo atendido a solicitação para que o licitante, em sua proposta, declare expressamente que a garantia abrange acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.

Caso o pregoeiro decida manter a oportunidade ao fornecedor, recomenda-se que seja solicitada amostra do produto ofertado.

É o parecer.

Manaus, 14 de julho de 2025.

15ª ALTERAÇÃO E CONSOLIDAÇÃO DO CONTRATO SOCIAL

"E.R. SOLUÇÕES INFORMÁTICA LTDA"

CNPJ: 05.778.325/0001-13
NIRE (JUCESP): 35217771512

GEORGE EDUARDO SALIBY, brasileiro, separado judicialmente, natural de Ribeirão Preto/SP, empresário, portador da Cédula de Identidade RG nº 7.854.271-6 SSP/SP e do CPF(MF) nº 982.913.358-34, residente à Rua Florencio Rosario nº 225, Apto 162, Edifício Hydepark, Bosque das Juritis, CEP 14021-675, na cidade de Ribeirão Preto, Estado de São Paulo; e

ANDRÉ LUIS MACHADO PELICIONI, brasileiro, casado em regime de comunhão parcial de bens, natural de Ribeirão Preto/SP, empresário, portador da Cédula de Identidade RG nº 18.658.107 SSP/SP e do CPF nº 248.785.548-78, residente à Avenida Giuseppe Cilento nº 1811, Apto 302, Jardim Botânico, CEP 14021-650, na cidade de Ribeirão Preto, Estado de São Paulo.

Sócios componentes da sociedade empresária, limitada, que gira na praça de Ribeirão Preto, Estado de São Paulo, na Avenida Senador César Vergueiro nº 1.069, Salas 04 e 05, Jardim São Luis, CEP 14020-500, sob o nome empresarial **"E.R. SOLUÇÕES INFORMÁTICA LTDA"**, conforme Contrato Social registrado sob nº 35217771512 em 07/07/2003 na Junta Comercial do Estado de São Paulo, inscrita no CNPJ (MF) nº 05.778.325/0001-13, tem entre si, justo e contratado, proceder a presente alteração, de acordo com o que dispõe a cláusula e condição a seguir:

A) – DA ABERTURA DE FILIAL

Os sócios decidem constituir uma nova unidade no município de **Serra**, Estado do **Espirito Santo**, sito à **Avenida Cem s/nº, Módulo 01, Quadra 01, Piso 2, Sala 01, Terminal Intermodal da Serra, CEP 29161-384**. Em virtude da abertura desta filial a Cláusula Terceira do Contrato Social passa a vigorar da seguinte forma:

"III
DA SEDE SOCIAL E FILIAL

A Sociedade tem sua sede social na Avenida Senador César Vergueiro nº 1.069, Salas 04 e 05, Jardim São Luis, CEP 14020-500, nesta cidade de Ribeirão Preto, Estado de São Paulo.

§ 1º - A Sociedade tem sua filial instalada na Avenida Cem s/n, Módulo 01, Quadra 01, Piso 2, Sala 01, Terminal Intermodal da Serra, CEP 29161-384 no município de Serra, Estado do Espirito Santo.

§ 2º - A sociedade poderá abrir e fechar filiais em qualquer parte do território nacional, com ou sem capitais autônomos para os devidos fins mediante alteração contratual."

DA CONSOLIDAÇÃO DAS CLÁUSULAS CONTRATUAIS

Em virtude da alteração acima, os sócios resolvem consolidar num só instrumento todas as cláusulas contratuais.

CONTRATO SOCIAL
E.R. SOLUÇÕES INFORMÁTICA LTDA

I
DO NOME EMPRESARIAL E SEU USO

A sociedade é empresária, do tipo limitada, gira sob o nome empresarial de **E.R. SOLUÇÕES INFORMÁTICA LTDA**, podendo assinar pela mesma ambos os sócios, sempre em conjunto, porém, única e exclusivamente em negócios que digam respeito aos interesses da sociedade, ficando vedado o uso da empresa em fianças, avais ou abonos, quer em favor deles sócios, quer em favor de terceiros.

II
DO OBJETO SOCIAL

A sociedade tem como objetivo a exploração do ramo de: **Comércio Atacadista, Varejista e Importação de Computadores, Eletroeletrônicos, Produtos de Informática, Telecomunicações, Eletrodomésticos em Geral, Produtos Congêneres, Equipamentos para Refrigeração, Condicionamento e Purificação de Ar e Representação Comercial por conta Própria e de Terceiros, Agenciamento e Intermediação, Prestação de Serviços de Assessoria, Consultoria, Treinamento e Implementação de Infraestrutura em Tecnologia Empresarial, Serviços de Assistência e Suporte Técnico, Locação e Licença de Uso de Software.**

III
DA SEDE SOCIAL E FILIAL

A Sociedade tem sua sede social na **Avenida Senador César Vergueiro nº 1.069, Salas 04 e 05, Jardim São Luis, CEP 14020-500**, nesta cidade **de Ribeirão Preto,** Estado de **São Paulo.**

§ 1º - A Sociedade tem sua filial instalada na **Avenida Cem s/nº, Módulo 01, Quadra 01, Piso 2, Sala 01, Terminal Intermodal da Serra, CEP 29161-384** no município de **Serra,** Estado do **Espirito Santo.**

§ 2º - A sociedade poderá a qualquer momento abrir e fechar filiais em qualquer parte do território nacional, com ou sem capitais autônomos para os devidos fins, mediante alteração contratual."

IV
DO CAPITAL SOCIAL

A sociedade tem o capital social de R$ 1.000.000,00 (um milhão de reais), dividido em 1.000.000 (um milhão) de quotas no valor de R$ 1,00 (um real) cada uma, totalmente subscritas e integralizadas em moeda nacional, distribuídas entre os sócios conforme segue:

Habilitação ER SOLUÇÕES INFOR. LTDA. CNPJ 05.778.325/0005-47 (1676241) SEI 2025.001317 / pg. 1892

George Eduardo Saliby	- 50 %		
* Seu Capital na sociedade.....	500.000 qts	R$	500.000,00
André Luis Machado Pelicioni	- 50 %		
* Seu Capital na sociedade.....	500.000 qts	R$	500.000,00
Total do Capital Social	**1.000.000 qts**	**R$**	**1.000.000,00**

§ 1º - A responsabilidade de cada sócio é restrita ao valor de suas quotas, mas ambos respondem solidariamente pela integralização do capital social;

§ 2º - As quotas são indivisíveis e não poderão ser cedidas ou transferidas sem o consentimento do outro sócio, a quem fica assegurado, em igualdade de condições e preço, direito de preferência para a sua aquisição se postas à venda, formalizando, se realizado a cessão delas, a Alteração Contratual pertinente.

V
DA DURAÇÃO DA SOCIEDADE

A sociedade tem sua duração por tempo indeterminado, considerando-se o seu início em 23 de Julho de 2003.

VI
DA ADMINISTRAÇÃO

A administração da sociedade é exercida por ambos os sócios, sempre em conjunto, com poderes e atribuições de realizar todas as operações para a consecução de seu objeto social, representando a sociedade ativa e passivamente, judicial e extrajudicialmente.

§ Único – Somente os administradores ficam autorizados a usar o nome empresarial, vedado, no entanto, em atividades estranhas ao interesse social ou assumir obrigações, seja em favor de qualquer quotista ou de terceiros, bem como onerar ou alienar bens e imóveis da sociedade, sem a autorização dos sócios.

VII
DA RETIRADA "PRÓ-LABORE"

Ambos os sócios terão direito a uma retirada mensal a título de Pró-Labore, que é levada a débito da conta de "despesas gerais" da sociedade, cujos níveis são fixados de comum acordo entre os sócios, dentro dos limites estabelecidos pela legislação vigente.

Registro Civil das Pessoas Naturais e de Interdições e Tutelas da Sede do Subdistrito
Luiz Fernando Alcina Sutto Ferraz
Oficial Substituto

VIII
DO EXERCÍCIO SOCIAL, BALANÇO E LUCROS

O exercício social se encerra a 31 de dezembro de cada ano, data em que será levantado o balanço patrimonial da sociedade, para apuração de resultados, conforme disposições legais pertinentes. Os lucros ou prejuízos apurados serão distribuídos ou suportados pelos sócios, observando-se o disposto nos parágrafos seguintes:

Habilitação ER SOLUÇÕES INFOR. LTDA. CNPJ 05.778.325/0005-47 (1676241) SEI 2025.001317 / pg. 1893

§ 1º - A sociedade poderá levantar balanços mensais, trimestrais ou semestrais e distribuir lucros e bonificações em dinheiro, com base nos mesmos;

§ 2º - A critério dos sócios e no atendimento dos interesses da própria sociedade, o total ou parte dos lucros verificados poderão ser destinados a formação de reservas de lucros ou então, permanecerão como Lucros Acumulados para futura destinação;

§ 3º - Os sócios acordam que a distribuição dos lucros apurados em Balanço Patrimonial e Demonstrativos de Resultados poderão ser distribuídos aos sócios desproporcionalmente ao Capital Social, conforme Artigo 1007 da Lei 10.406 de 10/01/2002.

IX
DO FALECIMENTO

Dando-se o falecimento ou interdição de qualquer um dos sócios, a sociedade continuará suas atividades com os herdeiros e sucessores. Não sendo possível ou inexistindo interesse destes ou do sócio remanescente, o valor de seus haveres será apurado e liquidado com base na situação patrimonial da sociedade, à data da resolução, verificada em balanço especialmente levantado.
§ Único – O mesmo procedimento será adotado em outros casos em que a sociedade se resolva em relação a seu sócio.

X
DA DECLARAÇÃO DE DESIMPEDIMENTO

Os administradores declaram sob as penas da lei, de que não estão impedidos de exercerem a administração da sociedade, por lei especial, ou em virtude de condenação criminal ou por se encontrarem sob os efeitos dela, a pena que vede, ainda que temporariamente, o acesso a cargos públicos ou por crime falimentar, de prevaricação, peita ou suborno, concussão, peculato ou contra a economia popular, contra o sistema financeiro nacional, contra normas de defesa da concorrência, contra as relações de consumo, fé pública ou a propriedade (art. 1.011, § 1º, CC/2002).

XI
DAS DIVERGENCIAS SOCIAIS

As divergências que se verificarem entre os sócios, inclusive no caso de falecimento de um deles, entre seus herdeiros e os remanescentes, serão resolvidas mediante Juízo Arbitral, ficando eleito o Foro desta Comarca de Ribeirão Preto, Estado de São Paulo para dirimir quaisquer dúvidas.

E assim, por estarem justos e contratados, obrigam-se livremente, a cumprirem o presente instrumento de **ALTERAÇÃO DE CONTRATO SOCIAL**, lavrado em 03 vias de igual teor e para o mesmo fim, assinado pelos sócios, na presença de duas testemunhas.

Data desta Situação Cadastral:	10/07/2020
Regime de Apuração:	ORDINÁRIO
Devedor contumaz:	Não

A Inscrição Estadual (IE) com situação cadastral vigente **HABILITADO** indica que a empresa está **APTA** a realizar operações como contribuinte do ICMS.

Já a IE com situação cadastral **NÃO HABILITADA** indica que a empresa **NÃO** está **APTA** a realizar operações como contribuinte do ICMS, caso mantenha entre as suas atividades pelo menos um CNAE cuja inscrição estadual seja obrigatória. Caso a empresa não pertença a um CNAE cuja inscrição seja obrigatória e o CNPJ esteja ATIVO (consultar o site da Receita Federal do Brasil ? http://www.receita.fazenda.gov.br), a empresa poderá ser destinatária de mercadorias, bens e serviços **como CONSUMIDOR FINAL**. Neste caso, o número da Inscrição Estadual NÃO deverá constar em documentos que acobertem operações tributáveis pelo ICMS.

A lista dos CNAEs obrigados à Inscrição Estadual está disponível no endereço: ftp://ftp.sefaz.es.gov.br/CNAE-F/cnaes_obrigadas_a_inscricao.pdf

OBSERVAÇÃO: Os dados acima são baseados em informações fornecidas pelo contribuinte, estando sujeitos a posterior confirmação pelo Fisco.

MINISTÉRIO DA FAZENDA
Secretaria da Receita Federal do Brasil
Procuradoria-Geral da Fazenda Nacional

CERTIDÃO NEGATIVA DE DÉBITOS RELATIVOS AOS TRIBUTOS FEDERAIS E À DÍVIDA ATIVA DA UNIÃO

Nome: E.R. SOLUCOES INFORMATICA LTDA
CNPJ: 05.778.325/0001-13

Ressalvado o direito de a Fazenda Nacional cobrar e inscrever quaisquer dívidas de responsabilidade do sujeito passivo acima identificado que vierem a ser apuradas, é certificado que não constam pendências em seu nome, relativas a créditos tributários administrados pela Secretaria da Receita Federal do Brasil (RFB) e a inscrições em Dívida Ativa da União (DAU) junto à Procuradoria-Geral da Fazenda Nacional (PGFN).

Esta certidão é válida para o estabelecimento matriz e suas filiais e, no caso de ente federativo, para todos os órgãos e fundos públicos da administração direta a ele vinculados. Refere-se à situação do sujeito passivo no âmbito da RFB e da PGFN e abrange inclusive as contribuições sociais previstas nas alíneas 'a' a 'd' do parágrafo único do art. 11 da Lei nº 8.212, de 24 de julho de 1991.

A aceitação desta certidão está condicionada à verificação de sua autenticidade na Internet, nos endereços <http://rfb.gov.br> ou <http://www.pgfn.gov.br>.

Certidão emitida gratuitamente com base na Portaria Conjunta RFB/PGFN nº 1.751, de 2/10/2014.
Emitida às 15:59:16 do dia 05/02/2025 <hora e data de Brasília>.
Válida até 04/08/2025.
Código de controle da certidão: **053E.7277.7E0D.B5A1**
Qualquer rasura ou emenda invalidará este documento.

CERTIFICA E DÁ FÉ que, pesquisando os registros de distribuições de **PEDIDOS DE FALÊNCIA, CONCORDATAS, RECUPERAÇÕES JUDICIAIS E EXTRAJUDICIAIS**, anteriores a 05/06/2025, verificou **NADA CONSTAR** como réu/requerido/interessado em nome de: **********

E.R. SOLUCOES INFORMATICA LTDA, CNPJ: 05.778.325/0001-13, conforme indicação constante do pedido de certidão.**********

Esta certidão não aponta ordinariamente os processos em que a pessoa cujo nome foi pesquisado figura como autor (a). São apontados os feitos com situação em tramitação já cadastrados no sistema informatizado referentes a todas as Comarcas/Foros Regionais e Distritais do Estado de São Paulo.

A data de informatização de cada Comarca/Foro pode ser verificada no Comunicado SPI nº 22/2019.

Esta certidão considera os feitos distribuídos na 1ª Instância, mesmo que estejam em Grau de Recurso.

Não existe conexão com qualquer outra base de dados de instituição pública ou com a Receita Federal que verifique a identidade do NOME/RAZÃO SOCIAL com o CPF/CNPJ. A conferência dos dados pessoais fornecidos pelo pesquisado é de responsabilidade exclusiva do destinatário da certidão.

A certidão em nome de pessoa jurídica considera os processos referentes à matriz e às filiais e poderá apontar feitos de homônimos não qualificados com tipos empresariais diferentes do nome indicado na certidão (EIRELI, S/C, S/S, EPP, ME, MEI, LTDA).

Não é necessária a complementação com a certidão do sistema eproc.

Esta certidão só tem validade mediante assinatura digital.

Esta certidão é sem custas.

São Paulo, 6 de junho de 2025.

Obs: A consulta consolidada de pessoa jurídica visa atender aos princípios de simplificação e racionalização de serviços públicos digitais. Fundamento legal: Lei nº 12.965, de 23 de abril de 2014, Lei nº 13.460, de 26 de junho de 2017, Lei nº 13.726, de 8 de outubro de 2018, Decreto nº 8.638 de 15, de janeiro de 2016.

CONTROLADORIA-GERAL DA UNIÃO

Certidão Negativa Correcional - Entes Privados (ePAD, CGU-PJ, CEIS, CNEP e CEPIM)

Consultado: **E.R. SOLUCOES INFORMATICA LTDA**

CPF/CNPJ: **05.778.325/0005-47**

Certifica-se que, em consulta aos sistemas ePAD e CGU-PJ e aos cadastros CEIS, CNEP e CEPIM, mantidos pela Corregedoria-Geral da União, **NÃO CONSTAM** registros de penalidades vigentes ou de procedimentos acusatórios em andamento, relativos ao CPF/CNPJ consultado.

Destaca-se que, nos termos da legislação vigente, os referidos cadastros consolidam informações prestadas pelos entes públicos, de todos os Poderes e esferas de governo.

Os Sistemas ePAD e CGU-PJ consolidam os dados sobre o andamento dos processos administrativos de responsabilização de entes privados no Poder Executivo Federal.

O Cadastro Nacional de Empresas Inidôneas e Suspensas (CEIS) apresenta a relação de empresas e pessoas físicas que sofreram sanções que implicaram a restrição de participar de licitações ou de celebrar contratos com a Administração Pública.

O Cadastro Nacional de Empresas Punidas (CNEP) apresenta a relação de empresas que sofreram quaisquer das punições previstas na Lei nº 12.846/2013 (Lei Anticorrupção).

O Cadastro de Entidades Privadas sem Fins Lucrativos Impedidas (CEPIM) apresenta a relação de entidades privadas sem fins lucrativos que estão impedidas de celebrar novos convênios, contratos de repasse ou termos de parceria com a Administração Pública Federal, em função de irregularidades não resolvidas em convênios, contratos de repasse ou termos de parceria firmados anteriormente.

Certidão emitida às 14:25:42 do dia 09/06/2025 , com validade até o dia 09/07/2025.

Mensagens do chat da compra

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:00:02	A sessão pública está aberta. Até 1 item poderá estar em disputa simultaneamente e o período de abertura para disputa será entre 08:00 e 18:00. Haverá aviso prévio de abertura dos itens de 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:15:46	Prezados Licitantes, bom dia.
Sistema	30/06/2025 às 10:15:50	Sejam bem vindos à sessão pública do Pregão Eletrônico 94.010/2025 que tem por objeto o registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses.
Sistema	30/06/2025 às 10:15:59	Prezados, em breve será aberta a fase de disputa. Solicito atenção e comprometimento aos valores apresentados nos lances, visto que vinculam a empresa à manutenção do preço por um período de 12 meses, incumbindo a ela, portanto, a responsabilidade pela correta precificação da sua oferta.
Sistema	30/06/2025 às 10:16:10	Solicito atenção ao subitem 6.10 do Instrumento Convocatório no intuito do adequado acompanhamento do procedimento por parte de todos os interessados.
Sistema	30/06/2025 às 10:16:20	Boa disputa.
Sistema	30/06/2025 às 14:06:48	A etapa de julgamento de propostas foi iniciada. Para acompanhá-la acesse a opção "Seleção de fornecedores" na linha do tempo.
Sistema	30/06/2025 às 14:24:10	Prezados, encerrada a fase de disputa, passaremos à análise das ofertas apresentadas pelas licitantes mais bem colocadas na ordem de classificação.
Sistema	30/06/2025 às 14:26:29	No entanto, cabe tratar com os primeiros colocados para o Item 2. Solicito atenção aos interessados.
Sistema	30/06/2025 às 14:58:29	Senhores, considerando a desclassificação da proposta da licitante TROGON COMERCIO DE INFORMATICA LTDA SP para o item 2, passaremos a tratar com os licitantes seguintes. Solicito atenção aos interessados.
Sistema	30/06/2025 às 15:24:14	Prezados, considerando que o licitante HOUSE LTDA. não se manifestou, passaremos a tratativa com a licitante 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção à interessada.

Relatório PNCP - Julgamento/Habilitação ITEM 1 (1676291) SEI 2025.001317 / pg. 1968

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 15:36:05	Senhor licitante, solicito manifestação.
Sistema	30/06/2025 às 15:52:50	Senhores, em breve estarei convocando as licitantes mais bem colocadas na ordem de classificação, para envio de nova proposta ajustada ao valor dos lances para cada item.
Sistema	30/06/2025 às 15:53:19	O prazo para envio é de 2 (duas) horas contadas a partir da convocação no sistema.
Sistema	30/06/2025 às 15:57:21	Com fundamento na letra "k" do subitem 9.2 do Edital, deverá ser enviada junto à proposta de preços "documentação técnica (manuais, catálogos ou prospectos), com as características detalhadas (marca, modelo, cor, tipo de material e medidas) e imagens ilustrativas dos produtos propostos, que possibilitem a completa averiguação de conformidade com as especificações, visando facilitar a avaliação a ser realizada por técnicos deste Órgão."
Sistema	30/06/2025 às 15:59:25	Poderá ser apresentado na proposta ou junto dela, links do fabricante/fornecedor, desde que atenda, no mínimo, as exigências do dispositivo mencionado.
Sistema	30/06/2025 às 16:01:38	Em breve as licitantes mais bem classificadas serão convocadas no sistema. Solicito atenção às interessadas.
Sistema	30/06/2025 às 16:04:57	Senhores, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (01/07/2025), a partir das 10h (horário Brasília) para as convocações.
Sistema	30/06/2025 às 16:05:13	Aguardo a todos no dia e hora aqui agendados.
Sistema	30/06/2025 às 16:05:28	Obrigado pela atenção e uma excelente tarde a todos.
Sistema	01/07/2025 às 10:05:27	Prezados Licitantes, bom dia.
Sistema	01/07/2025 às 10:16:19	Retornamos aos trabalhos deste certame, considerando a convocação dos licitantes mais bem classificados na ordem dos lances para envio de propostas.

Sistema	07/07/2025 às 15:57:44	Prezados Licitantes, boa tarde.
Sistema	07/07/2025 às 15:58:26	Informo que retornaremos aos trabalhos deste certame amanhã (08/07/2025), a partir das 14h (horário de Brasília).
Sistema	07/07/2025 às 15:58:41	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	08/07/2025 às 14:11:23	Prezados licitantes, boa tarde.
Sistema	08/07/2025 às 14:14:38	Prezados, retornamos aos trabalhos deste certame considerando as propostas dos seguintes licitantes:
Sistema	08/07/2025 às 14:16:14	a) TORINO INFORMÁTICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 2; b) POSITIVO TECNOLOGIA S/A (Filial), CNPJ (MF) n.ª 81.243.735/0009-03, para o Item 3; e c) E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 4
Sistema	08/07/2025 às 14:24:07	Encaminhadas as ofertas ao setor técnico para análise, o referido setor manifestou-se da seguinte forma:
Sistema	08/07/2025 às 14:26:15	Parecer Nª 16.2025.SIET.1661858.2025.001317 - TORINO INFORMÁTICA LTDA., ITEM 2 - Pela exposição de motivos, depreende-se que: a) O teclado não atende; b) O requisito de leitor biométrico no mouse e teclado não foi atendida; entre outros.
Sistema	08/07/2025 às 14:27:56	Parecer Nª 18.2025.SIET.1664620.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL) - ITEM 3 - Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando marca, modelo e documentação comprobatória específica de todos os componentes, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.
Sistema	08/07/2025 às 14:28:43	Parecer Nª 19.2025.SIET.1665305.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA. - ITEM 4 - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	08/07/2025 às 14:30:03	Assim, com fundamento na análise dos Pareceres aqui apresentados, Este Pregoeiro decide:
Sistema	08/07/2025 às 14:32:07	a) Recusar a proposta de preços do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, em conformidade ao Parecer Nª 16.2025.SIET.1661858.2025.001317 e Item 10.3.2 do Edital do certame.
Sistema	08/07/2025 às 14:35:55	b) Diligenciar o licitante POSITIVO TECNOLOGIA S/A (FILIAL) - para que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame.
Sistema	08/07/2025 às 14:37:36	Para tal, será aberto o prazo de 2 (duas horas para envio de documento complementar em providência à solicitação constante do Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:39:05	c) Aceitar a proposta de preços apresentada pelo licitante ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 4, em conformidade ao Parecer Nª 19.2025.SIET.1665305.2025.001317 e ao Item 10 do Edital do certame.
Sistema	08/07/2025 às 14:40:00	Prezados, informo que os pareceres mencionados encontram-se disponíveis e acessíveis a todos os interessados no Portal do MPAM no seguinte endereço:
Sistema	08/07/2025 às 14:40:33	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	08/07/2025 às 14:54:06	Prezado licitante POSITIVO TECNOLOGIA S/A (FILIAL), em breve V. Sa. será convocado para providências conforme apresentado nesse chat e no Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:54:24	Solicito atenção.

Relatório PNCP - Julgamento/Habilitação ITEM 1 (1676291) SEI 2025.001317 / pg. 1971

Responsável	Data/Hora	Mensagem
Sistema	08/07/2025 às 14:56:10	Prezados, considerando a desclassificação da proposta do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, informo que em breve será convocado novo licitante para envio de proposta para o Item. Solicito atenção aos interessados.
Sistema	08/07/2025 às 15:00:40	Prezados, tomadas as devidas providências e convocados os licitantes, fico no aguardo dos solicitados documentos.
Sistema	08/07/2025 às 17:25:18	Senhores, recebidos os documentos, informo que os mesmos serão encaminhados ao setor técnico para análise.
Sistema	08/07/2025 às 17:26:29	Assim, encerraremos os trabalhos por hoje, retornando em data posterior devidamente informada através desse chat, em tempo hábil ao acompanhamento de todos os interessados.
Sistema	08/07/2025 às 17:26:39	Agradeço a atenção dispensada.
Sistema	08/07/2025 às 17:26:52	Finalizo desejando uma excelente tarde a todos.
Sistema	10/07/2025 às 11:36:20	Prezados, bom dia.
Sistema	10/07/2025 às 11:36:57	Informo que retornaremos aos trabalhos deste certame amanhã (11/07/2025), a partir das 10h (horário Brasília).
Sistema	10/07/2025 às 11:37:33	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 10:00:40	Prezados Licitantes, bom dia.
Sistema	11/07/2025 às 10:21:39	Retornamos aos trabalhos deste certame considerando as propostas apresentadas pelos licitantes POSITIVO TECNOLOGIA S/A (Filial), para o Item 3 e E.R. SOLUCOES INFORMATICA LTDA., para o Item 2.
Sistema	11/07/2025 às 10:39:45	Senhores, recebidos os documentos de propostas e encaminhados ao setor técnico competente para análise, obtivemos os seguintes resultados:
Sistema	11/07/2025 às 10:40:56	a) Parecer Nª 21.2025.SIET.1668662.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 2 - Conclusão - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	11/07/2025 às 10:43:00	b) Parecer Nª 22.2025.SIET.1668772.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL), para o Item 3 - Conclusão - Após análise da documentação apresentada pela licitante [...] foram observados alguns pontos inconclusivos, marcados como . Os pontos marcados com , são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.
Sistema	11/07/2025 às 10:44:33	Senhores, informo que o Parecer Nª 21.2025.SIET.1668662.2025.001317 e o Parecer Nª 22.2025.SIET.1668772.2025.001317 encontram-se disponíveis no Portal do MPAM, no seguinte
Sistema	11/07/2025 às 10:44:40	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	11/07/2025 às 10:46:44	Senhores, considerando os resultados das análises apresentados nos pareceres, informo o seguinte:
Sistema	11/07/2025 às 11:18:42	a) para saneamento das pendências apontadas nos pareceres, as licitantes serão convocadas para envio de documentos que comprovem o atendimento às exigências apontadas.
Sistema	11/07/2025 às 11:19:44	Assim, em breve convocarei as licitantes no sistema. Solicito atenção aos interessados.
Sistema	11/07/2025 às 11:25:58	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	11/07/2025 às 14:23:53	Senhores, boa tarde.
Sistema	11/07/2025 às 14:25:25	Considerando o envio dos documentos solicitados referentes ao Item 2 por parte do Licitante E.R. SOLUCOES INFORMATICA LTDA. e sendo os mesmos suficientes para o pleno atendimento da solicitação, informo que:
Sistema	11/07/2025 às 14:27:08	Este Pregoeiro decide pela Aceitação da proposta de preços do licitante E.R. SOLUCOES INFORMATICA LTDA. para o Item 2, pelo pleno atendimento às exigências técnicas e formais do Edital, referentes à proposta e em conformidade ao Parecer Nª 21.2025.SIET.1668662.2025.001317.

Relatório PNCP - Julgamento/Habilitação ITEM 1 (1676291) SEI 2025.001317 / pg. 1972

Responsável	Data/Hora	Mensagem
Sistema	11/07/2025 às 16:52:49	Prezados, recebidos os documentos referente ao Item 3, informo que os mesmos serão encaminhados para análise do setor técnico competente.
Sistema	11/07/2025 às 16:54:57	Considerando a hora avançada, encerraremos os trabalhos por hoje, retornando na segunda-feira (14/07/2025), a partir das 11h (horário de Brasília), para continuação dos trabalhos.
Sistema	11/07/2025 às 16:55:26	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 16:55:54	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	14/07/2025 às 11:15:08	Prezados Licitantes, bom dia.
Sistema	14/07/2025 às 11:45:13	Senhores, considerando os documentos de Habilitação apresentados pelo Licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, informo que os mesmos atendem a todas as exigências estabelecidas no instrumento convocatório.
Sistema	14/07/2025 às 11:45:42	Nesse sentido, este Pregoeiro decide pela HABILITAÇÃO do licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47.
Sistema	14/07/2025 às 12:02:53	Senhores, em breve estarei habilitando a licitante no próprio sistema. Solicito atenção.

Mensagens do chat da compra

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:00:02	A sessão pública está aberta. Até 1 item poderá estar em disputa simultaneamente e o período de abertura para disputa será entre 08:00 e 18:00. Haverá aviso prévio de abertura dos itens de 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:15:46	Prezados Licitantes, bom dia.
Sistema	30/06/2025 às 10:15:50	Sejam bem vindos à sessão pública do Pregão Eletrônico 94.010/2025 que tem por objeto o registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses.
Sistema	30/06/2025 às 10:15:59	Prezados, em breve será aberta a fase de disputa. Solicito atenção e comprometimento aos valores apresentados nos lances, visto que vinculam a empresa à manutenção do preço por um período de 12 meses, incumbindo a ela, portanto, a responsabilidade pela correta precificação da sua oferta.
Sistema	30/06/2025 às 10:16:10	Solicito atenção ao subitem 6.10 do Instrumento Convocatório no intuito do adequado acompanhamento do procedimento por parte de todos os interessados.
Sistema	30/06/2025 às 10:16:20	Boa disputa.
Sistema	30/06/2025 às 14:06:48	A etapa de julgamento de propostas foi iniciada. Para acompanhá-la acesse a opção "Seleção de fornecedores" na linha do tempo.
Sistema	30/06/2025 às 14:24:10	Prezados, encerrada a fase de disputa, passaremos à análise das ofertas apresentadas pelas licitantes mais bem colocadas na ordem de classificação.
Sistema	30/06/2025 às 14:26:29	No entanto, cabe tratar com os primeiros colocados para o Item 2. Solicito atenção aos interessados.
Sistema	30/06/2025 às 14:58:29	Senhores, considerando a desclassificação da proposta da licitante TROGON COMERCIO DE INFORMATICA LTDA SP para o item 2, passaremos a tratar com os licitantes seguintes. Solicito atenção aos interessados.
Sistema	30/06/2025 às 15:24:14	Prezados, considerando que o licitante HOUSE LTDA. não se manifestou, passaremos a tratativa com a licitante 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção à interessada.

Relatório PNCP - Julgamento/Habilitação ITEM 2 (1676292) SEI 2025.001317 / pg. 1979

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 15:36:05	Senhor licitante, solicito manifestação.
Sistema	30/06/2025 às 15:52:50	Senhores, em breve estarei convocando as licitantes mais bem colocadas na ordem de classificação, para envio de nova proposta ajustada ao valor dos lances para cada item.
Sistema	30/06/2025 às 15:53:19	O prazo para envio é de 2 (duas) horas contadas a partir da convocação no sistema.
Sistema	30/06/2025 às 15:57:21	Com fundamento na letra "k" do subitem 9.2 do Edital, deverá ser enviada junto à proposta de preços "documentação técnica (manuais, catálogos ou prospectos), com as características detalhadas (marca, modelo, cor, tipo de material e medidas) e imagens ilustrativas dos produtos propostos, que possibilitem a completa averiguação de conformidade com as especificações, visando facilitar a avaliação a ser realizada por técnicos deste Órgão."
Sistema	30/06/2025 às 15:59:25	Poderá ser apresentado na proposta ou junto dela, links do fabricante/fornecedor, desde que atenda, no mínimo, as exigências do dispositivo mencionado.
Sistema	30/06/2025 às 16:01:38	Em breve as licitantes mais bem classificadas serão convocadas no sistema. Solicito atenção às interessadas.
Sistema	30/06/2025 às 16:04:57	Senhores, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (01/07/2025), a partir das 10h (horário Brasília) para as convocações.
Sistema	30/06/2025 às 16:05:13	Aguardo a todos no dia e hora aqui agendados.
Sistema	30/06/2025 às 16:05:28	Obrigado pela atenção e uma excelente tarde a todos.
Sistema	01/07/2025 às 10:05:27	Prezados Licitantes, bom dia.
Sistema	01/07/2025 às 10:16:19	Retornamos aos trabalhos deste certame, considerando a convocação dos licitantes mais bem classificados na ordem dos lances para envio de propostas.
Sistema	01/07/2025 às 10:27:59	Senhores, informo que o Quadro-Resumo do Processo de Compra Nª 195.2025.SCOMS.1609045.2025.001317 com os valores estimados para cada item já se encontra disponível no Portal do MPAM, no seguinte endereço:
Sistema	01/07/2025 às 10:28:11	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	01/07/2025 às 10:29:55	Senhores, em breve estarei convocando as licitantes para envio das proposta de preços ajustadas aos lances. Solicito atenção.
Sistema	01/07/2025 às 10:54:59	Senhores, considerando a solicitação de desclassificação de proposta para o Item 4 por parte do licitante MR COMERCIO DE PECAS E ACESSORIOS LTDA., será convocado para envio de proposta o próximo licitante na ordem de classificação. Solicito atenção.
Sistema	01/07/2025 às 13:39:54	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 13:43:26	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 2 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 14:32:39	Na sequência, considerando a desclassificação das licitantes 42.816.024 LEONARDO CATIVO SOUSA (Item 2) e HOUSE LTDA. (Item 4), serão convocados novos licitantes para envio de proposta de preços. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:00:55	Prezados, em breve serão convocados licitantes para envio de propostas para os itens 2 e 4. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:08:04	Prezados, será promovido um desempate para o Item 4 entre os licitantes A&G EQUIPAMENTOS TECNOLOGICOS E INFORMATICA LTDA. e 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:15:30	Realizado o desempate, passaremos à convocação de novo licitante para o Item 4. Solicito atenção.

Relatório PNCP - Julgamento/Habilitação ITEM 2 (1676292) SEI 2025.001317 / pg. 1980

Responsável	Data/Hora	Mensagem
Sistema	01/07/2025 às 15:17:15	Será convocado também novo licitante para o Item 2. Solicito atenção.
Sistema	01/07/2025 às 15:18:12	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	01/07/2025 às 18:31:24	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 18:32:20	Considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retomando-os amanhã (02/07/2025), a partir das 10h (horário de Brasília).
Sistema	01/07/2025 às 18:32:44	Aguardo a todos no dia e hora aqui agendados.
Sistema	01/07/2025 às 18:33:01	Agradeço a atenção dispensada e desejo a todos um excelente fim de tarde.
Sistema	02/07/2025 às 10:02:34	Prezados, bom dia.
Sistema	02/07/2025 às 10:08:35	Senhores, informo que em breve será convocado novo licitante para envio de proposta para o item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 12:37:06	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.

Sistema	02/07/2025 às 14:52:01	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	02/07/2025 às 14:52:14	Na sequência, será convocado novo licitante para envio de proposta para o Item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 16:50:23	Prezados, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (03/07/2025), a partir das 10h (horário Brasília).
Sistema	02/07/2025 às 16:50:49	Aguardo a todos no dia e hora aqui agendados.
Sistema	02/07/2025 às 16:51:05	Finalizo desejando a todos uma excelente tarde.
Sistema	03/07/2025 às 10:11:15	Prezados Licitantes, bom dia.
Sistema	03/07/2025 às 10:11:53	Retornamos aos trabalhos deste certame considerando a convocação de novo licitante para envio de proposta para o Item 4.
Sistema	03/07/2025 às 10:12:35	Em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:24:21	Prezados, em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:38:26	Estando o Licitante devidamente convocado, fico no aguardo dos solicitados documentos. Obrigado!
Sistema	03/07/2025 às 11:46:29	Senhores Licitantes, recebidos os documentos referente ao Item 4, informo que os mesmos serão encaminhados à análise por parte do setor técnico deste Órgão Ministerial.
Sistema	03/07/2025 às 11:47:11	Senhores, considerando a proposta apresentada pela licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1, informo o seguinte:
Sistema	03/07/2025 às 11:48:53	Submetida a proposta e os documentos técnicos enviados pela licitante classificada, o setor técnico DTIC, através do Parecer Nº 15.2025.SIET.1661793.2025.001317, manifestou-se "pela aceitabilidade do produto ofertado".
Sistema	03/07/2025 às 11:50:25	Informo que o referido Parecer encontra-se disponível no Portal do MPAM, acessível a todos os interessados, no seguinte endereço: https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis

Relatório PNCP - Julgamento/Habilitação ITEM 2 (1676292) SEI 2025.001317 / pg. 1981

Responsável	Data/Hora	Mensagem
Sistema	03/07/2025 às 11:53:21	Senhores, considerando a manifestação técnica expressa no Parecer Nª 15.2025.SIET e o atendimento a todas as exigências formais do Edital referente à proposta de preços, este Pregoeiro decide pela ACEITAÇÃO da oferta do licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1.
Sistema	07/07/2025 às 15:57:44	Prezados Licitantes, boa tarde.
Sistema	07/07/2025 às 15:58:26	Informo que retornaremos aos trabalhos deste certame amanhã (08/07/2025), a partir das 14h (horário de Brasília).
Sistema	07/07/2025 às 15:58:41	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	08/07/2025 às 14:11:23	Prezados licitantes, boa tarde.
Sistema	08/07/2025 às 14:14:38	Prezados, retornamos aos trabalhos deste certame considerando as propostas dos seguintes licitantes:
Sistema	08/07/2025 às 14:16:14	a) TORINO INFORMÁTICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 2; b) POSITIVO TECNOLOGIA S/A (Filial), CNPJ (MF) n.ª 81.243.735/0009-03, para o Item 3; e c) E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 4
Sistema	08/07/2025 às 14:24:07	Encaminhadas as ofertas ao setor técnico para análise, o referido setor manifestou-se da seguinte forma:
Sistema	08/07/2025 às 14:26:15	Parecer Nª 16.2025.SIET.1661858.2025.001317 - TORINO INFORMÁTICA LTDA., ITEM 2 - Pela exposição de motivos, depreende-se que: a) O teclado não atende; b) O requisito de leitor biométrico no mouse e teclado não foi atendida; entre outros.
Sistema	08/07/2025 às 14:27:56	Parecer Nª 18.2025.SIET.1664620.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL) - ITEM 3 - Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando marca, modelo e documentação comprobatória específica de todos os componentes, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.
Sistema	08/07/2025 às 14:28:43	Parecer Nª 19.2025.SIET.1665305.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA. - ITEM 4 - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	08/07/2025 às 14:30:03	Assim, com fundamento na análise dos Pareceres aqui apresentados, Este Pregoeiro decide:
Sistema	08/07/2025 às 14:32:07	a) Recusar a proposta de preços do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, em conformidade ao Parecer Nª 16.2025.SIET.1661858.2025.001317 e Item 10.3.2 do Edital do certame.
Sistema	08/07/2025 às 14:35:55	b) Diligenciar o licitante POSITIVO TECNOLOGIA S/A (FILIAL) - para que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame.
Sistema	08/07/2025 às 14:37:36	Para tal, será aberto o prazo de 2 (duas horas para envio de documento complementar em providência à solicitação constante do Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:39:05	c) Aceitar a proposta de preços apresentada pelo licitante ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 4, em conformidade ao Parecer Nª 19.2025.SIET.1665305.2025.001317 e ao Item 10 do Edital do certame.
Sistema	08/07/2025 às 14:40:00	Prezados, informo que os pareceres mencionados encontram-se disponíveis e acessíveis a todos os interessados no Portal do MPAM no seguinte endereço:
Sistema	08/07/2025 às 14:40:33	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	08/07/2025 às 14:54:06	Prezado licitante POSITIVO TECNOLOGIA S/A (FILIAL), em breve V. Sa. será convocado para providências conforme apresentado nesse chat e no Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:54:24	Solicito atenção.

Relatório PNCP - Julgamento/Habilitação ITEM 2 (1676292) SEI 2025.001317 / pg. 1982

Responsável	Data/Hora	Mensagem
Sistema	08/07/2025 às 14:56:10	Prezados, considerando a desclassificação da proposta do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, informo que em breve será convocado novo licitante para envio de proposta para o Item. Solicito atenção aos interessados.
Sistema	08/07/2025 às 15:00:40	Prezados, tomadas as devidas providências e convocados os licitantes, fico no aguardo dos solicitados documentos.
Sistema	08/07/2025 às 17:25:18	Senhores, recebidos os documentos, informo que os mesmos serão encaminhados ao setor técnico para análise.
Sistema	08/07/2025 às 17:26:29	Assim, encerraremos os trabalhos por hoje, retornando em data posterior devidamente informada através desse chat, em tempo hábil ao acompanhamento de todos os interessados.
Sistema	08/07/2025 às 17:26:39	Agradeço a atenção dispensada.
Sistema	08/07/2025 às 17:26:52	Finalizo desejando uma excelente tarde a todos.
Sistema	10/07/2025 às 11:36:20	Prezados, bom dia.
Sistema	10/07/2025 às 11:36:57	Informo que retornaremos aos trabalhos deste certame amanhã (11/07/2025), a partir das 10h (horário Brasília).
Sistema	10/07/2025 às 11:37:33	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 10:00:40	Prezados Licitantes, bom dia.
Sistema	11/07/2025 às 10:21:39	Retornamos aos trabalhos deste certame considerando as propostas apresentadas pelos licitantes POSITIVO TECNOLOGIA S/A (Filial), para o Item 3 e E.R. SOLUCOES INFORMATICA LTDA., para o Item 2.
Sistema	11/07/2025 às 10:39:45	Senhores, recebidos os documentos de propostas e encaminhados ao setor técnico competente para análise, obtivemos os seguintes resultados:
Sistema	11/07/2025 às 10:40:56	a) Parecer Nª 21.2025.SIET.1668662.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 2 - Conclusão - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	11/07/2025 às 10:43:00	b) Parecer Nª 22.2025.SIET.1668772.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL), para o Item 3 - Conclusão - Após análise da documentação apresentada pela licitante [...] foram observados alguns pontos inconclusivos, marcados como . Os pontos marcados com , são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.
Sistema	11/07/2025 às 10:44:33	Senhores, informo que o Parecer Nª 21.2025.SIET.1668662.2025.001317 e o Parecer Nª 22.2025.SIET.1668772.2025.001317 encontram-se disponíveis no Portal do MPAM, no seguinte
Sistema	11/07/2025 às 10:44:40	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	11/07/2025 às 10:46:44	Senhores, considerando os resultados das análises apresentados nos pareceres, informo o seguinte:
Sistema	11/07/2025 às 11:18:42	a) para saneamento das pendências apontadas nos pareceres, as licitantes serão convocadas para envio de documentos que comprovem o atendimento às exigências apontadas.
Sistema	11/07/2025 às 11:19:44	Assim, em breve convocarei as licitantes no sistema. Solicito atenção aos interessados.
Sistema	11/07/2025 às 11:25:58	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	11/07/2025 às 14:23:53	Senhores, boa tarde.
Sistema	11/07/2025 às 14:25:25	Considerando o envio dos documentos solicitados referentes ao Item 2 por parte do Licitante E.R. SOLUCOES INFORMATICA LTDA. e sendo os mesmos suficientes para o pleno atendimento da solicitação, informo que:
Sistema	11/07/2025 às 14:27:08	Este Pregoeiro decide pela Aceitação da proposta de preços do licitante E.R. SOLUCOES INFORMATICA LTDA. para o Item 2, pelo pleno atendimento às exigências técnicas e formais do Edital, referentes à proposta e em conformidade ao Parecer Nª 21.2025.SIET.1668662.2025.001317.

Relatório PNCP - Julgamento/Habilitação ITEM 2 (1676292) SEI 2025.001317 / pg. 1983

Responsável	Data/Hora	Mensagem
Sistema	11/07/2025 às 16:52:49	Prezados, recebidos os documentos referente ao Item 3, informo que os mesmos serão encaminhados para análise do setor técnico competente.
Sistema	11/07/2025 às 16:54:57	Considerando a hora avançada, encerraremos os trabalhos por hoje, retornando na segunda-feira (14/07/2025), a partir das 11h (horário de Brasília), para continuação dos trabalhos.
Sistema	11/07/2025 às 16:55:26	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 16:55:54	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	14/07/2025 às 11:15:08	Prezados Licitantes, bom dia.
Sistema	14/07/2025 às 11:45:13	Senhores, considerando os documentos de Habilitação apresentados pelo Licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, informo que os mesmos atendem a todas as exigências estabelecidas no instrumento convocatório.
Sistema	14/07/2025 às 11:45:42	Nesse sentido, este Pregoeiro decide pela HABILITAÇÃO do licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47.
Sistema	14/07/2025 às 12:02:53	Senhores, em breve estarei habilitando a licitante no próprio sistema. Solicito atenção.

Mensagens do chat do Item 2

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:27:37	A abertura do item 2 para lances está agendada para daqui a 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:37:37	O item 2 foi aberto. Solicitamos o envio de lances.
Sistema	30/06/2025 às 10:50:09	O lance no valor de R$ 2.100,0000 do item 2 foi excluído pelo fornecedor.
Sistema	30/06/2025 às 11:48:55	O item 2 está aguardando decisão de reinício ou encerramento da etapa aberta pelo comprador.
Sistema	30/06/2025 às 12:04:14	O item 2 está encerrado.
Sistema para o participante 18.563.457/0001-70	30/06/2025 às 14:27:38	Prezado Licitante, boa tarde.
Sistema para o participante 18.563.457/0001-70	30/06/2025 às 14:29:00	Considerando a descrição do Item 2 e o preço unitário apresentado em sua proposta, pergunto se V. Sa. pretende manter a proposta, visto que o preço encontra-se bem inferior ao preço de mercado para o item em foco.
Sistema para o participante 18.563.457/0001-70	30/06/2025 às 14:30:19	Será concedido o prazo de 15 minutos para vossa manifestação. No caso de encerramento do prazo informado, a proposta apresentada poderá ser recusada.
Sistema para o participante 18.563.457/0001-70	30/06/2025 às 14:31:05	O prazo se encerra às 14h37minutos.
Pelo participante 18.563.457/0001-70	30/06/2025 às 14:34:07	Um momento
Pelo participante 18.563.457/0001-70	30/06/2025 às 14:35:15	Estamos verificando
Pelo participante 18.563.457/0001-70	30/06/2025 às 14:38:56	Vamos manter o valor
Sistema para o participante 18.563.457/0001-70	30/06/2025 às 14:43:01	Prezados, pergunto novamente, os senhores pretendem manter a proposta de fornecer MICROCOMPUTADOR TIPO 2 - "WORKSTATION COM MONITOR PRINCIPAL E MONITOR AUXILIAR pelo preço unitário de R$ 2.000,00 (dois mil reais)?
Pelo participante 18.563.457/0001-70	30/06/2025 às 14:46:35	Creio que cotamos apenas o monitor e não o workstation sendo assim solicitamos nossa desclassificação
Sistema para o participante 18.563.457/0001-70	30/06/2025 às 14:57:03	Entendido senhor licitante. Agradeço a informação. A proposta será recusada.
Sistema para o participante 35.689.930/0001-89	30/06/2025 às 15:00:45	Prezado licitante, boa tarde.
Sistema para o participante 35.689.930/0001-89	30/06/2025 às 15:00:55	Considerando a descrição do Item 2 e o preço unitário apresentado em sua proposta, pergunto se V. Sa. pretende manter a proposta, visto que o preço encontra-se bem inferior ao preço de mercado para o item em foco.
Sistema para o participante 35.689.930/0001-89	30/06/2025 às 15:01:20	Será concedido o prazo de 15 minutos para vossa manifestação. No caso de encerramento do prazo informado, a proposta apresentada poderá ser recusada.

Mensagens do chat da compra

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:00:02	A sessão pública está aberta. Até 1 item poderá estar em disputa simultaneamente e o período de abertura para disputa será entre 08:00 e 18:00. Haverá aviso prévio de abertura dos itens de 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:15:46	Prezados Licitantes, bom dia.
Sistema	30/06/2025 às 10:15:50	Sejam bem vindos à sessão pública do Pregão Eletrônico 94.010/2025 que tem por objeto o registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses.
Sistema	30/06/2025 às 10:15:59	Prezados, em breve será aberta a fase de disputa. Solicito atenção e comprometimento aos valores apresentados nos lances, visto que vinculam a empresa à manutenção do preço por um período de 12 meses, incumbindo a ela, portanto, a responsabilidade pela correta precificação da sua oferta.
Sistema	30/06/2025 às 10:16:10	Solicito atenção ao subitem 6.10 do Instrumento Convocatório no intuito do adequado acompanhamento do procedimento por parte de todos os interessados.
Sistema	30/06/2025 às 10:16:20	Boa disputa.
Sistema	30/06/2025 às 14:06:48	A etapa de julgamento de propostas foi iniciada. Para acompanhá-la acesse a opção "Seleção de fornecedores" na linha do tempo.
Sistema	30/06/2025 às 14:24:10	Prezados, encerrada a fase de disputa, passaremos à análise das ofertas apresentadas pelas licitantes mais bem colocadas na ordem de classificação.
Sistema	30/06/2025 às 14:26:29	No entanto, cabe tratar com os primeiros colocados para o Item 2. Solicito atenção aos interessados.
Sistema	30/06/2025 às 14:58:29	Senhores, considerando a desclassificação da proposta da licitante TROGON COMERCIO DE INFORMATICA LTDA SP para o item 2, passaremos a tratar com os licitantes seguintes. Solicito atenção aos interessados.
Sistema	30/06/2025 às 15:24:14	Prezados, considerando que o licitante HOUSE LTDA. não se manifestou, passaremos a tratativa com a licitante 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção à interessada.

Relatório PNCP - Julgamento/Habilitação ITEM 4 (1676293) SEI 2025.001317 / pg. 2004

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 15:36:05	Senhor licitante, solicito manifestação.
Sistema	30/06/2025 às 15:52:50	Senhores, em breve estarei convocando as licitantes mais bem colocadas na ordem de classificação, para envio de nova proposta ajustada ao valor dos lances para cada item.
Sistema	30/06/2025 às 15:53:19	O prazo para envio é de 2 (duas) horas contadas a partir da convocação no sistema.
Sistema	30/06/2025 às 15:57:21	Com fundamento na letra "k" do subitem 9.2 do Edital, deverá ser enviada junto à proposta de preços "documentação técnica (manuais, catálogos ou prospectos), com as características detalhadas (marca, modelo, cor, tipo de material e medidas) e imagens ilustrativas dos produtos propostos, que possibilitem a completa averiguação de conformidade com as especificações, visando facilitar a avaliação a ser realizada por técnicos deste Órgão."
Sistema	30/06/2025 às 15:59:25	Poderá ser apresentado na proposta ou junto dela, links do fabricante/fornecedor, desde que atenda, no mínimo, as exigências do dispositivo mencionado.
Sistema	30/06/2025 às 16:01:38	Em breve as licitantes mais bem classificadas serão convocadas no sistema. Solicito atenção às interessadas.
Sistema	30/06/2025 às 16:04:57	Senhores, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (01/07/2025), a partir das 10h (horário Brasília) para as convocações.
Sistema	30/06/2025 às 16:05:13	Aguardo a todos no dia e hora aqui agendados.
Sistema	30/06/2025 às 16:05:28	Obrigado pela atenção e uma excelente tarde a todos.
Sistema	01/07/2025 às 10:05:27	Prezados Licitantes, bom dia.
Sistema	01/07/2025 às 10:16:19	Retornamos aos trabalhos deste certame, considerando a convocação dos licitantes mais bem classificados na ordem dos lances para envio de propostas.
Sistema	01/07/2025 às 10:27:59	Senhores, informo que o Quadro-Resumo do Processo de Compra Nª 195.2025.SCOMS.1609045.2025.001317 com os valores estimados para cada item já se encontra disponível no Portal do MPAM, no seguinte endereço:
Sistema	01/07/2025 às 10:28:11	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	01/07/2025 às 10:29:55	Senhores, em breve estarei convocando as licitantes para envio das proposta de preços ajustadas aos lances. Solicito atenção.
Sistema	01/07/2025 às 10:54:59	Senhores, considerando a solicitação de desclassificação de proposta para o Item 4 por parte do licitante MR COMERCIO DE PECAS E ACESSORIOS LTDA., será convocado para envio de proposta o próximo licitante na ordem de classificação. Solicito atenção.
Sistema	01/07/2025 às 13:39:54	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 13:43:26	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 2 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 14:32:39	Na sequência, considerando a desclassificação das licitantes 42.816.024 LEONARDO CATIVO SOUSA (Item 2) e HOUSE LTDA. (Item 4), serão convocados novos licitantes para envio de proposta de preços. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:00:55	Prezados, em breve serão convocados licitantes para envio de propostas para os itens 2 e 4. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:08:04	Prezados, será promovido um desempate para o Item 4 entre os licitantes A&G EQUIPAMENTOS TECNOLOGICOS E INFORMATICA LTDA. e 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:15:30	Realizado o desempate, passaremos à convocação de novo licitante para o Item 4. Solicito atenção.

Relatório PNCP - Julgamento/Habilitação ITEM 4 (1676293) SEI 2025.001317 / pg. 2005

Responsável	Data/Hora	Mensagem
Sistema	01/07/2025 às 15:17:15	Será convocado também novo licitante para o Item 2. Solicito atenção.
Sistema	01/07/2025 às 15:18:12	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	01/07/2025 às 18:31:24	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 18:32:20	Considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retomando-os amanhã (02/07/2025), a partir das 10h (horário de Brasília).
Sistema	01/07/2025 às 18:32:44	Aguardo a todos no dia e hora aqui agendados.
Sistema	01/07/2025 às 18:33:01	Agradeço a atenção dispensada e desejo a todos um excelente fim de tarde.
Sistema	02/07/2025 às 10:02:34	Prezados, bom dia.
Sistema	02/07/2025 às 10:08:35	Senhores, informo que em breve será convocado novo licitante para envio de proposta para o item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 12:37:06	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	02/07/2025 às 12:38:31	Na sequência, será convocado novo licitante para envio de proposta para o Item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 14:52:01	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	02/07/2025 às 14:52:14	Na sequência, será convocado novo licitante para envio de proposta para o Item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 16:50:23	Prezados, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (03/07/2025), a partir das 10h (horário Brasília).
Sistema	02/07/2025 às 16:50:49	Aguardo a todos no dia e hora aqui agendados.
Sistema	02/07/2025 às 16:51:05	Finalizo desejando a todos uma excelente tarde.
Sistema	03/07/2025 às 10:11:15	Prezados Licitantes, bom dia.
Sistema	03/07/2025 às 10:11:53	Retornamos aos trabalhos deste certame considerando a convocação de novo licitante para envio de proposta para o Item 4.
Sistema	03/07/2025 às 10:12:35	Em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:24:21	Prezados, em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:38:26	Estando o Licitante devidamente convocado, fico no aguardo dos solicitados documentos. Obrigado!
Sistema	03/07/2025 às 11:46:29	Senhores Licitantes, recebidos os documentos referente ao Item 4, informo que os mesmos serão encaminhados à análise por parte do setor técnico deste Órgão Ministerial.
Sistema	03/07/2025 às 11:47:11	Senhores, considerando a proposta apresentada pela licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1, informo o seguinte:
Sistema	03/07/2025 às 11:48:53	Submetida a proposta e os documentos técnicos enviados pela licitante classificada, o setor técnico DTIC, através do Parecer Nº 15.2025.SIET.1661793.2025.001317, manifestou-se "pela aceitabilidade do produto ofertado".
Sistema	03/07/2025 às 11:50:25	Informo que o referido Parecer encontra-se disponível no Portal do MPAM, acessível a todos os interessados, no seguinte endereço: https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis

Relatório PNCP - Julgamento/Habilitação ITEM 4 (1676293) SEI 2025.001317 / pg. 2006

Responsável	Data/Hora	Mensagem
Sistema	03/07/2025 às 11:53:21	Senhores, considerando a manifestação técnica expressa no Parecer Nª 15.2025.SIET e o atendimento a todas as exigências formais do Edital referente à proposta de preços, este Pregoeiro decide pela ACEITAÇÃO da oferta do licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1.
Sistema	07/07/2025 às 15:57:44	Prezados Licitantes, boa tarde.
Sistema	07/07/2025 às 15:58:26	Informo que retornaremos aos trabalhos deste certame amanhã (08/07/2025), a partir das 14h (horário de Brasília).
Sistema	07/07/2025 às 15:58:41	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	08/07/2025 às 14:11:23	Prezados licitantes, boa tarde.
Sistema	08/07/2025 às 14:14:38	Prezados, retornamos aos trabalhos deste certame considerando as propostas dos seguintes licitantes:
Sistema	08/07/2025 às 14:16:14	a) TORINO INFORMÁTICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 2; b) POSITIVO TECNOLOGIA S/A (Filial), CNPJ (MF) n.ª 81.243.735/0009-03, para o Item 3; e c) E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 4
Sistema	08/07/2025 às 14:24:07	Encaminhadas as ofertas ao setor técnico para análise, o referido setor manifestou-se da seguinte forma:
Sistema	08/07/2025 às 14:26:15	Parecer Nª 16.2025.SIET.1661858.2025.001317 - TORINO INFORMÁTICA LTDA., ITEM 2 - Pela exposição de motivos, depreende-se que: a) O teclado não atende; b) O requisito de leitor biométrico no mouse e teclado não foi atendida; entre outros.
Sistema	08/07/2025 às 14:27:56	Parecer Nª 18.2025.SIET.1664620.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL) - ITEM 3 - Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando marca, modelo e documentação comprobatória específica de todos os componentes, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.
Sistema	08/07/2025 às 14:28:43	Parecer Nª 19.2025.SIET.1665305.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA. - ITEM 4 - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	08/07/2025 às 14:30:03	Assim, com fundamento na análise dos Pareceres aqui apresentados, Este Pregoeiro decide:
Sistema	08/07/2025 às 14:32:07	a) Recusar a proposta de preços do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, em conformidade ao Parecer Nª 16.2025.SIET.1661858.2025.001317 e Item 10.3.2 do Edital do certame.
Sistema	08/07/2025 às 14:35:55	b) Diligenciar o licitante POSITIVO TECNOLOGIA S/A (FILIAL) - para que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame.
Sistema	08/07/2025 às 14:37:36	Para tal, será aberto o prazo de 2 (duas horas para envio de documento complementar em providência à solicitação constante do Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:39:05	c) Aceitar a proposta de preços apresentada pelo licitante ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 4, em conformidade ao Parecer Nª 19.2025.SIET.1665305.2025.001317 e ao Item 10 do Edital do certame.
Sistema	08/07/2025 às 14:40:00	Prezados, informo que os pareceres mencionados encontram-se disponíveis e acessíveis a todos os interessados no Portal do MPAM no seguinte endereço:
Sistema	08/07/2025 às 14:40:33	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	08/07/2025 às 14:54:06	Prezado licitante POSITIVO TECNOLOGIA S/A (FILIAL), em breve V. Sa. será convocado para providências conforme apresentado nesse chat e no Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:54:24	Solicito atenção.

Relatório PNCP - Julgamento/Habilitação ITEM 4 (1676293) SEI 2025.001317 / pg. 2007

Responsável	Data/Hora	Mensagem
Sistema	08/07/2025 às 14:56:10	Prezados, considerando a desclassificação da proposta do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, informo que em breve será convocado novo licitante para envio de proposta para o Item. Solicito atenção aos interessados.
Sistema	08/07/2025 às 15:00:40	Prezados, tomadas as devidas providências e convocados os licitantes, fico no aguardo dos solicitados documentos.
Sistema	08/07/2025 às 17:25:18	Senhores, recebidos os documentos, informo que os mesmos serão encaminhados ao setor técnico para análise.
Sistema	08/07/2025 às 17:26:29	Assim, encerraremos os trabalhos por hoje, retornando em data posterior devidamente informada através desse chat, em tempo hábil ao acompanhamento de todos os interessados.
Sistema	08/07/2025 às 17:26:39	Agradeço a atenção dispensada.
Sistema	08/07/2025 às 17:26:52	Finalizo desejando uma excelente tarde a todos.
Sistema	10/07/2025 às 11:36:20	Prezados, bom dia.
Sistema	10/07/2025 às 11:36:57	Informo que retornaremos aos trabalhos deste certame amanhã (11/07/2025), a partir das 10h (horário Brasília).
Sistema	10/07/2025 às 11:37:33	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 10:00:40	Prezados Licitantes, bom dia.
Sistema	11/07/2025 às 10:21:39	Retornamos aos trabalhos deste certame considerando as propostas apresentadas pelos licitantes POSITIVO TECNOLOGIA S/A (Filial), para o Item 3 e E.R. SOLUCOES INFORMATICA LTDA., para o Item 2.
Sistema	11/07/2025 às 10:39:45	Senhores, recebidos os documentos de propostas e encaminhados ao setor técnico competente para análise, obtivemos os seguintes resultados:
Sistema	11/07/2025 às 10:40:56	a) Parecer Nª 21.2025.SIET.1668662.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 2 - Conclusão - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	11/07/2025 às 10:43:00	b) Parecer Nª 22.2025.SIET.1668772.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL), para o Item 3 - Conclusão - Após análise da documentação apresentada pela licitante [...] foram observados alguns pontos inconclusivos, marcados como . Os pontos marcados com , são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.
Sistema	11/07/2025 às 10:44:33	Senhores, informo que o Parecer Nª 21.2025.SIET.1668662.2025.001317 e o Parecer Nª 22.2025.SIET.1668772.2025.001317 encontram-se disponíveis no Portal do MPAM, no seguinte
Sistema	11/07/2025 às 10:44:40	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	11/07/2025 às 10:46:44	Senhores, considerando os resultados das análises apresentados nos pareceres, informo o seguinte:
Sistema	11/07/2025 às 11:18:42	a) para saneamento das pendências apontadas nos pareceres, as licitantes serão convocadas para envio de documentos que comprovem o atendimento às exigências apontadas.
Sistema	11/07/2025 às 11:19:44	Assim, em breve convocarei as licitantes no sistema. Solicito atenção aos interessados.
Sistema	11/07/2025 às 11:25:58	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	11/07/2025 às 14:23:53	Senhores, boa tarde.
Sistema	11/07/2025 às 14:25:25	Considerando o envio dos documentos solicitados referentes ao Item 2 por parte do Licitante E.R. SOLUCOES INFORMATICA LTDA. e sendo os mesmos suficientes para o pleno atendimento da solicitação, informo que:
Sistema	11/07/2025 às 14:27:08	Este Pregoeiro decide pela Aceitação da proposta de preços do licitante E.R. SOLUCOES INFORMATICA LTDA. para o Item 2, pelo pleno atendimento às exigências técnicas e formais do Edital, referentes à proposta e em conformidade ao Parecer Nª 21.2025.SIET.1668662.2025.001317.

Relatório PNCP - Julgamento/Habilitação ITEM 4 (1676293) SEI 2025.001317 / pg. 2008

Responsável	Data/Hora	Mensagem
Sistema	11/07/2025 às 16:52:49	Prezados, recebidos os documentos referente ao Item 3, informo que os mesmos serão encaminhados para análise do setor técnico competente.
Sistema	11/07/2025 às 16:54:57	Considerando a hora avançada, encerraremos os trabalhos por hoje, retornando na segunda-feira (14/07/2025), a partir das 11h (horário de Brasília), para continuação dos trabalhos.
Sistema	11/07/2025 às 16:55:26	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 16:55:54	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	14/07/2025 às 11:15:08	Prezados Licitantes, bom dia.
Sistema	14/07/2025 às 11:45:13	Senhores, considerando os documentos de Habilitação apresentados pelo Licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, informo que os mesmos atendem a todas as exigências estabelecidas no instrumento convocatório.
Sistema	14/07/2025 às 11:45:42	Nesse sentido, este Pregoeiro decide pela HABILITAÇÃO do licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47.
Sistema	14/07/2025 às 12:02:53	Senhores, em breve estarei habilitando a licitante no próprio sistema. Solicito atenção.

Sistema para o participante 05.778.325/0005-47	03/07/2025 às 10:29:24	Verificou-se que sua proposta para o Item 4 encontra-se acima do valor estimado pela Administração, apresentado no Quadro-Resumo do Processo de Compra Nª 195.2025.SCOMS.1609045.2025.001317, disponível no Portal do MPAM, no endereço eletrônico já apresentado nesse chat.
Pelo participante 05.778.325/0005-47	03/07/2025 às 10:30:45	Iremos conceder desconto!
Pelo participante 05.778.325/0005-47	03/07/2025 às 10:31:01	Precisa que atualize no sistema ou podemos enviar em nossa proposta direto?
Sistema para o participante 05.778.325/0005-47	03/07/2025 às 10:31:13	Nesse sentido, V. Sa. poderia ajustar o preço de sua Proposta para 17.000,00?
Pelo participante 05.778.325/0005-47	03/07/2025 às 10:32:02	Podemos chegar em R$16990,00
Sistema para o participante 05.778.325/0005-47	03/07/2025 às 10:32:55	V. Sa. será convocada para envio de proposta no prazo de 2 (duas) horas. Caso concorde com o ajuste, basta enviar a proposta com o preço ajustado à negociação. Caso contrário, para garantir celeridade ao procedimento, solicito informar o desinteresse. Obrigado!
Pelo participante 05.778.325/0005-47	03/07/2025 às 10:34:05	Iremos providenciar o envio
Sistema para o participante 05.778.325/0005-47	03/07/2025 às 10:34:13	Prezados, atualizada a página, vi que convergimos nos preços, de forma que o preço proposto ficou melhor do que o solicitado por este Pregoeiro.
Sistema para o participante 05.778.325/0005-47	03/07/2025 às 10:34:44	Assim, informo que V. Sa. será convocada para envio de proposta ajustada ao preço de R$ 16.990,00.
Sistema para o participante 05.778.325/0005-47	03/07/2025 às 10:35:29	Agradeço a disponibilidade de negociação. Solicito atenção à convocação.
Sistema para o participante 05.778.325/0005-47	03/07/2025 às 10:37:35	Sr. Fornecedor E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47, você foi convocado para enviar anexos para o item 4. Prazo para encerrar o envio: 12:40:00 do dia 03/07/2025. Justificativa: Solicito seja encaminhada a Proposta de Preços ajustada ao lance e documentação técnica completa dos itens ofertados, conforme letra "k" do subitem 9.2. do Edital..
Pelo participante 05.778.325/0005-47	03/07/2025 às 11:24:38	O item 4 teve a convocação para envio de anexos encerrada às 11:24:38 de 03/07/2025. 3 anexos foram enviados pelo fornecedor E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47.
Sistema para o participante 05.778.325/0005-47	08/07/2025 às 14:43:22	Prezado Licitante, boa tarde.
Pelo participante 05.778.325/0005-47	08/07/2025 às 14:43:59	Boa tarde, Sr. Pregoeiro!
Sistema para o participante 05.778.325/0005-47	08/07/2025 às 14:44:24	Para aceitação da proposta no sistema, precisamos ajustar a proposta nos termos da negociação realizada. Solicito atenção.
Sistema para o participante 05.778.325/0005-47	08/07/2025 às 14:46:05	Sr. Fornecedor E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47, você foi convocado para negociação de valor do item 4. Justificativa: Solicito ajustar o valor da proposta inicial ao negociado via chat do sistema ao preço unitário sugerido. .

Relatório PNCP - Julgamento/Habilitação ITEM 4 (1676293) SEI 2025.001317 / pg. 2016

Responsável	Data/Hora	Mensagem
Pelo participante 05.778.325/0005-47	08/07/2025 às 14:46:43	O item 4 teve a negociação de valor encerrada pelo fornecedor E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47. A negociação do item 4 foi aceita pelo fornecedor E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47, tendo informado R$ 16.990,0000.
Sistema para o participante 05.778.325/0005-47	08/07/2025 às 14:47:20	Agradeço a atenção e diligência.
Pelo participante 05.778.325/0005-47	08/07/2025 às 14:47:28	Conforme solicitado, o valor foi alterado no sistema.
Sistema	08/07/2025 às 14:48:00	O item 4 está na etapa de julgamento de proposta no período de intenção de recursos, com acréscimo de 10 minutos a partir de agora - até 08/07/2025 14:58:00.
Sistema	14/07/2025 às 12:05:43	O item 4 está na etapa de habilitação de fornecedores no período de intenção de recursos, com acréscimo de 10 minutos a partir de agora - até 14/07/2025 12:15:43.
Sistema	14/07/2025 às 15:18:10	A fase de recurso do item 4 está aberta até 17/07/2025.

Eventos do Item 4

Relatório PNCP - Julgamento/Habilitação ITEM 4 (1676293) SEI 2025.001317 / pg. 2018

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - Bairro Nova Esperança - CEP 69037-473 - Manaus - AM - www.mpam.mp.br

RELATÓRIO DE LICITAÇÃO Nº 23.2025.CPL.1676202.2025.001317

RELATÓRIO CIRCUNSTANCIADO REFERENTE AO PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ/SRP

PROCESSO SEI Nº 2025.001317

Excelentíssimo Senhor Subprocurador-Geral de Justiça para Assuntos Administrativos,

O Pregoeiro, senhor **Maurício Araújo Medeiros**, designado por força da PORTARIA 606/2025/SUBADM, de 04/06/2025 (doc. 1640921), vem apresentar e submeter à apreciação de Vossa Excelência o **relatório circunstanciado parcial, referente aos itens 1, 2 e 4** do **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ/SRP**, tipo **MENOR PREÇO POR ITEM**, concernente ao **Processo SEI N.º 2025.001317**, que tem por objeto o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.*

1. DA EVOLUÇÃO DOS AUTOS

A evolução dos autos ocorreu conforme descrição e datas constantes no **Histórico do Processo 2025.001317,** disponível para consulta na rotina "Consultar Andamento".

2. DA PUBLICIDADE

O Aviso da Licitação foi publicado: no *Compras.gov*, em 11/06/2025 (doc. 1677171); no matutino local “Jornal do Commercio”, Edição n.º 44.318, de 12/06/2025 (doc. 1677170); no Diário Oficial Eletrônico do Ministério Público do Estado do Amazonas – DOMPE, Edição n.º 3101, no dia 11/06/2025 (doc. 1648705) e no sítio institucional do MPE/AM (www.mpam.mp.br).

3. DA SESSÃO PÚBLICA

3.1. Do Credenciamento – Os licitantes credenciaram-se na Secretaria de Logística e Tecnologia de Informação – SLTI, do Ministério do Planejamento, Orçamente e Gestão, através das regras do sistema *Compras.gov*, no sítio eletrônico https://www.gov.br/compras/pt-br.

3.2. Da Proposta – As propostas foram enviadas pelos licitantes, através da internet, desde 13/06/2025 até a data e hora marcadas para a abertura da sessão, a saber, dia 30/06/2025, às 10h (horário de Brasília/DF).

3.3. Da Fase de Lances – Iniciada a disputa, os interessados tiveram a oportunidade de propor, em lances, condições mais favoráveis que as primeiras, o que ocorreu de fato, encerrando-se a fase com propostas mais vantajosas para a Administração, conforme registrado nos **Termos de Julgamento da Sessão** (doc. 1676291), para o Item 1; **Termos de Julgamento da Sessão** (doc. 1676292), para o Item 2; e **Termos de Julgamento da Sessão** (doc. 1676293), para o Item 3.

3.4. Da Aceitação das Propostas – Logo em seguida, o Pregoeiro convocou os licitantes mais bem colocadas na ordem de classificação dos lances, para envio de suas propostas ajustadas aos seus últimos lances, acompanhadas dos documentos complementares, para análise.

Uma vez observado o cumprimento dos prazos fixados e, também, dos aspectos formais reclamados pela Instituição, e diante da necessidade de análise técnica das propostas apresentadas, foram os documentos submetidos ao exame d o **Setor de Infraestrutura e Telecomunicação - SIET,** para análise e manifestação, nos termos do item 10.2 do instrumento convocatório (doc. 1647931).

Após algumas desclassificações de propostas, nos termos expostos nos **Termos de Julgamento da Sessão** supramencionados, com base na análise técnica realizada pelo **Setor de Infraestrutura e Telecomunicação - SIET (**Parecer Nº 15.2025.SIET.1661793.2025.001317 para o Item 1, Parecer Nº 21.2025.SIET.1668662.2025.001317 para o Item 2 e Parecer Nº 19.2025.SIET.1665305.2025.001317 para o Item 4), o Pregoeiro, com auxílio da equipe de apoio, promoveu à **aceitação** das seguintes propostas apresentadas pelo licitante **E.R. SOLUCOES INFORMATICA LTDA.** , CNPJ (MF) n.º 05.778.325/0005-47, abaixo elencadas:

- **Item 1 (doc. 1661819)** no Valor Unitário de **R$ 9.880,00** (*nove mil oitocentos e oitenta reais*) e Valor Total de **R$ 9.880.000,00** (*nove milhões oitocentos e oitenta mil reais*)**;**
- **Item 2 (doc. 1667752)** no Valor Unitário de **R$ 20.300,00** (*vinte mil e trezentos reais*) e Valor Total de **R$ 1.015.000,00** (*um milhão quinze mil reais*); e
- **Item 4 (doc. 1663839)** no Valor Unitário de **R$ 16.990,00** (*dezesseis mil novecentos e noventa reais*) no Valor Total de **R$**

339.800,00 (*trezentos e trinta e nove mil e oitocentos reais*).

3.5. Da Habilitação – Dando regular prosseguimento ao feito, o Pregoeiro e equipe de apoio passaram à verificação dos documentos de habilitação do Licitante acima destacada (doc. 1676241).

Desta feita, procedeu-se à fase de julgamento das condições de habilitação (doc. 1676241), utilizando-se, inclusive, das informações do **Sistema de Cadastro de Fornecedores – SICAF** do Compras.gov, verificando-se, sobretudo, as condições do licitante quanto à ausência de sanções pela Administração Pública, não sendo constatados registros que indicassem restrições à contratação.

Sobre o exame das condições do licitante, verificou-se à ausência de sanções pela Administração Pública, no SICAF do *Comprasnet*, bem como na Relação de Empresas com Sanção Administrativa em Vigor, do **TRIBUNAL DE CONTAS DO ESTADO DO AMAZONAS – TCE**, na Relação de Licitantes Inidôneos do **TRIBUNAL DE CONTAS DA UNIÃO – TCU,** na Lista de Empresas Suspensas/Impedidas da **COMISSÃO GERAL DE LICITAÇÃO DO ESTADO DO AMAZONAS – CGL** , no Cadastro Nacional de Empresas Inidôneas e Suspensas (CEIS), da **CONTROLADORIA GERAL DA UNIÃO – CGU**, no Cadastro Nacional de Condenações Civis por Ato de Improbidade Administrativa (CNCIA) do **CONSELHO NACIONAL DE JUSTIÇA – CNJ** e na Relação de pessoas jurídicas impedidas de contratar com a Administração Pública da **SEFAZ-AM**, **não** sendo constatados registros que indicassem restrições à contratação.

Além disso, o Pregoeiro e equipe de apoio verificaram a autenticidade das certidões negativa (ou positiva com efeitos de negativa) de débitos mediante SICAF, bem como da de ausência de distribuição de feitos de falência ou recuperação judicial, junto à Justiça Estadual de domicílio do licitante. De igual modo, procedeu-se com os demais documentos de habilitação das interessadas que permitiam a convalidação eletrônica, conforme consta dos autos.

Cabe registrar que, com o objetivo de atender aos princípios de simplificação e racionalização de serviços públicos digitais, presentes nas Leis nº 12.965/14 e nº 13.460/18, e no Decreto nº 8.638/16, o **Tribunal de Contas da União** passou a disponibilizar ferramenta que permite a consulta consolidada de pessoas jurídicas que reúne, em relatório único, os Licitantes Inidôneos do TCU, CNIA - Cadastro Nacional de Condenações Cíveis por Ato de Improbidade Administrativa e Inelegibilidade do CNJ; Cadastro Nacional de Empresas Inidôneas e Suspensas e CNEP - Cadastro Nacional de Empresas Punidas ambos do Portal da Transparência. Assim, a Pregoeiro promoveu a juntada da **CONSULTA CONSOLIDADA DE PESSOA JURÍDICA** do licitante aos autos.

Isto posto, concluída a análise dos documentos habilitatórios, conforme item 11 do instrumento convocatório, procedeu-se à **HABILITAÇÃO** do licitante **E.R. SOLUCOES INFORMATICA LTDA.** , CNPJ (MF) n.º 05.778.325/0005-47, declarando-a vencedora, nos termos do subitem 11.32 do Instrumento Convocatório.

4. DA FASE RECURSAL

Logo após, concedido prazo para registro de intenção de recurso por parte dos demais licitantes, oportunidade em que manifestaram intenção de recurso os seguintes licitantes

a) **TREER TECNOLOGY LTDA**, CNPJ 41.680.761/0001-19 para o Item 1;

b) **TREER TECNOLOGY LTDA**, CNPJ 41.680.761/0001-19 e **RL INFORMATICA LTDA**, CNPJ 30.948.812/0001-24 para o Item 2; e

c) **RL INFORMATICA LTDA**, CNPJ 30.948.812/0001-24 para o Item 4.

Ocorre que, estabelecido o prazo final para apresentação das razões recursais em 17/07/2025, transcorreu-se, *in albis*, o referido prazo sem qualquer registro das razões das irresignadas, declarando-se, portanto, deserta a presente etapa.

5. DA ECONOMICIDADE

Destaque-se que o valor estimado para aquisição do objeto deste certame foi de **R$ 16.631.944,90** (*dezesseis milhões, seiscentos e trinta e um mil novecentos e quarenta e quatro reais e noventa centavos*), conforme **Quadro - Resumo do Processo de Compra Nº 195.2025.SCOMS.1609045.2025.001317**.

Por se tratar de um relatório parcial da sessão do **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ/SRP** referente aos itens 1, 2 e 4, considerando o valor estimado para contratação, subtraindo-se o valor total referente ao Item 3, em andamento, obtemos o total de **R$ 13.015.987,90** (*treze milhões, quinze mil novecentos e oitenta e sete reais e noventa centavos*).

Assim, considerando o valor a ser adjudicado para os Itens 1, 2 e 4, somados, de **R$ 11.234.800,00** (*onze milhões, duzentos e trinta e quatro mil e oitocentos reais*)**,** a realização deste Pregão significou uma **economia parcial de R$ 1.781.187,90** (*um milhão, setecentos e oitenta e um mil cento e oitenta e sete reais e noventa centavos*), ou seja, uma **redução de aproximadamente 13,68% do valor parcial estimado pela Administração**.

É o Relatório.

Manaus, 21 de julho de 2025.

Maurício Araújo Medeiros

MINUTA Nº DESPACHO DE ADJUDICAÇÃO E HOMOLOGAÇÃO

*** MINUTA DE DOCUMENTO**

PROCESSO SEI N.º 2025.001317

Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ-SRP

A D J U DI C A Ç Ã O E H O M O L O G A Ç Ã O

C O N S I D E R A N D O a solicitação constante do Ofício Nº 41.2025.DTIC.1566526.2025.001317, bem como o teor do Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317 e Anexos;

CONSIDERANDO o disposto na Lei, nos Termos de Julgamento de realização do Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ-SRP e demais documentos pertinentes, lavrados pela Comissão Permanente de Licitação entre os dias 30/06/2025 e 21/07/2025, sobretudo, as ponderações do relatório circunstanciado parcial de apreciação do certame de referência, tendo por objeto a *formação de ata de registro de preços para aquisição de gêneros alimentícios (açúcar, café e leite) a serem disponibilizados pelo Almoxarifado, localizado no edifício-sede da PGJ, a fim de garantir o aprimoramento da distribuição dos bens de consumo existentes em estoque, melhorando a qualidade de atendimento das demandas das diversas unidades da Procuradoria-Geral de Justiça, por um período estimado de 12 meses,* quantificados e qualificados conforme as especificações e as condições constantes do seu Edital e anexos*;*

CONSIDERANDO a aceitação das propostas de preço e habilitação da empresa **E.R. SOLUCOES INFORMATICA LTDA.** , CNPJ (MF) n.º 05.778.325/0005-47, para: **a) Item 1** - no Valor Total de **R$ 9.880.000,00** (*nove milhões oitocentos e oitenta mil reais*)**; b) Item 2 -** Valor Total de **R$ 1.015.000,00** (*um milhão quinze mil reais*)**;** e **c) Item 4** - no Valor Total de **R$ 339.800,00** (*trezentos e trinta e nove mil e oitocentos reais*).

CONSIDERANDO o Relatório Parcial de Licitação Nº 23.2025.CPL.1676202.2025.001317, referente aos itens 1, 2 e 4, no qual consta que a realização do Pregão significou uma economia de **R$ 1.781.187,90** (*um milhão, setecentos e oitenta e um mil cento e oitenta e sete reais e noventa centavos*), ou seja, uma **redução de aproximadamente 13,68% do valor parcial estimado pela Administração**.

CONSIDERANDO o teor da Lei Federal N.º 14.133, de 01.04.2021 e do Ato n.º 008/2024/PGJ;

CONSIDERANDO a **não** interposição de Recurso por parte dos interessados, no prazo e condições de que trata o art. 165, incisos I e II, da Lei Federal N.º 14.133/2021;

R E S O L V E:

I – **ADJUDICAR** o objeto do certame à empresa **E.R. SOLUCOES INFORMATICA LTDA.**, CNPJ (MF) n.º 05.778.325/0005-47, para: **a) Item 1** - no Valor Total de **R$ 9.880.000,00** (*nove milhões oitocentos e oitenta mil reais*)**; b) Item 2 -** Valor Total de **R$ 1.015.000,00** (*um milhão quinze mil reais*); e **c) Item 4** - no Valor Total de **R$ 339.800,00** (*trezentos e trinta e nove mil e oitocentos reais*).

II - **HOMOLOGAR** o resultado parcial do procedimento licitatório, referente aos itens 1, 2 e 4 do **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ-SRP**, em consonância com os Termos de Julgamentos gerados pelo Sistema Compras.gov e o Relatório Parcial de Licitação Nº 23.2025.CPL.1676202.2025.001317 e suas documentações complementares;

III – À **COMISSÃO PERMANENTE DE LICITAÇÃO – CPL**, para as providências cabíveis;

IV – Após, ao **SETOR DE COMPRAS E SERVIÇOS** - **SCOMS,** para prosseguimento do feito.

Cientifique-se. Publique-se. Cumpra-se.

GABINETE DO SUBPROCURADOR-GERAL DE JUSTIÇA PARA ASSUNTOS ADMINISTRATIVOS, em Manaus (AM), XX de julho de 2025.

ANDRÉ VIRGÍLIO BELOTA SEFFAIR
Subprocurador-Geral de Justiça para Assuntos Administrativos

Ordenador de Despesas

Documento assinado eletronicamente por **Maurício Araújo Medeiros**, **Membro da Comissão Permanente de Licitação - CPL**, em 21/07/2025, às 15:08, conforme art. 1º, III, "b", da Lei 11.419/2006.

A autenticidade do documento pode ser conferida no link http://sei.mpam.mp.br/sei/controlador_externo.php?acao=documento_conferir&id_orgao_acesso_externo=0 informando o código verificador **1677448** e o código CRC **E2892C60**.

DESPACHO Nº 50.2025.CPL.1677478.2025.001317

PROCESSO SEI Nº 2025.001317

Objeto*:* Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, **estações de trabalho e computadores portáteis**, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.

Considerando a realização do Pregão Eletrônico n.º 94.010/2024-CPL/MP/PGJ, iniciado no dia 30 de junho e em andamento até a presente data;

Considerando a aceitação das propostas de preços e das condições de habilitação do licitante **E.R. SOLUCOES INFORMATICA LTDA.** , CNPJ (MF) n.º 05.778.325/0005-47 para os Itens 1, 2 e 4.

Considerando que, dentre os requisitos de validade, o resultado parcial do certame necessita da adjudicação e homologação pelo Ordenador de Despesas desta Procuradoria-Geral de Justiça, nos termos da Lei Federal N.º 14.133, de 01.04.2021 e do Ato n.º 008/2024/PGJ;

Encaminhem-se os autos do Procedimento Interno ao Exmo. Sr. Dr. **SUBPROCURADOR-GERAL DE JUSTIÇA PARA ASSUNTOS ADMINISTRATIVOS**, para fins de análise, adjudicação e homologação do certame licitatório em espeque, caso assim entenda.

Manaus, 21 de julho de 20245.

Publicação Homologação ITENS 1, 2 e 3 - PE 94010/2025 (1680395) SEI 2025.001317 / pg. 13

CONSIDERANDO a aceitação das propostas de preço e habilitação da empresa E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.º 05.778.325/0005-47, para: a) Item 1 - no Valor Total de R$ 9.880.000,00 (nove milhões oitocentos e oitenta mil reais); b) Item 2 - Valor Total de R$ 1.015.000,00 (um milhão quinze mil reais); e c) Item 4 - no Valor Total de R$ 339.800,00 (trezentos e trinta e nove mil e oitocentos reais).

CONSIDERANDO o Relatório Parcial de Licitação Nº 23.2025.CPL.1676202.2025.001317, referente aos itens 1, 2 e 4, no qual consta que a realização do Pregão significou uma economia de R$ 1.781.187,90 (um milhão, setecentos e oitenta e um mil cento e oitenta e sete reais e noventa centavos), ou seja, uma redução de aproximadamente 13,68% do valor parcial estimado pela Administração.

CONSIDERANDO o teor da Lei Federal N.º 14.133, de 01.04.2021 e do Ato n.º 008/2024/PGJ;

CONSIDERANDO a não interposição de Recurso por parte dos interessados, no prazo e condições de que trata o art. 165, incisos I e II, da Lei Federal N.º 14.133/2021;

RESOLVE:

I – ADJUDICAR o objeto do certame à empresa E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.º 05.778.325/0005-47, para: a) Item 1 - no Valor Total de R$ 9.880.000,00 (nove milhões oitocentos e oitenta mil reais); b) Item 2 - Valor Total de R$ 1.015.000,00 (um milhão quinze mil reais); e c) Item 4 - no Valor Total de R$ 339.800,00 (trezentos e trinta e nove mil e oitocentos reais).

II - HOMOLOGAR o resultado parcial do procedimento licitatório, referente aos itens 1, 2 e 4 do PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ-SRP, em consonância com os Termos de Julgamentos gerados pelo Sistema Compras.gov e o Relatório Parcial de Licitação Nº 23.2025.CPL.1676202.2025.001317 e suas documentações complementares;

III – À COMISSÃO PERMANENTE DE LICITAÇÃO – CPL, para as providências cabíveis;

IV – Após, ao SETOR DE COMPRAS E SERVIÇOS - SCOMS, para prosseguimento do feito.

Cientifique-se. Publique-se. Cumpra-se.

Mensagens do chat da compra

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:00:02	A sessão pública está aberta. Até 1 item poderá estar em disputa simultaneamente e o período de abertura para disputa será entre 08:00 e 18:00. Haverá aviso prévio de abertura dos itens de 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:15:46	Prezados Licitantes, bom dia.
Sistema	30/06/2025 às 10:15:50	Sejam bem vindos à sessão pública do Pregão Eletrônico 94.010/2025 que tem por objeto o registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses.
Sistema	30/06/2025 às 10:15:59	Prezados, em breve será aberta a fase de disputa. Solicito atenção e comprometimento aos valores apresentados nos lances, visto que vinculam a empresa à manutenção do preço por um período de 12 meses, incumbindo a ela, portanto, a responsabilidade pela correta precificação da sua oferta.
Sistema	30/06/2025 às 10:16:10	Solicito atenção ao subitem 6.10 do Instrumento Convocatório no intuito do adequado acompanhamento do procedimento por parte de todos os interessados.
Sistema	30/06/2025 às 10:16:20	Boa disputa.
Sistema	30/06/2025 às 14:06:48	A etapa de julgamento de propostas foi iniciada. Para acompanhá-la acesse a opção "Seleção de fornecedores" na linha do tempo.
Sistema	30/06/2025 às 14:24:10	Prezados, encerrada a fase de disputa, passaremos à análise das ofertas apresentadas pelas licitantes mais bem colocadas na ordem de classificação.
Sistema	30/06/2025 às 14:26:29	No entanto, cabe tratar com os primeiros colocados para o Item 2. Solicito atenção aos interessados.
Sistema	30/06/2025 às 14:58:29	Senhores, considerando a desclassificação da proposta da licitante TROGON COMERCIO DE INFORMATICA LTDA SP para o item 2, passaremos a tratar com os licitantes seguintes. Solicito atenção aos interessados.

Termo Homologação PNCP - ITEM 1 (1682173) SEI 2025.001317 / pg. 15

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 15:24:14	Prezados, considerando que o licitante HOUSE LTDA. não se manifestou, passaremos a tratativa com a licitante 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção à interessada.
Sistema	30/06/2025 às 15:36:05	Senhor licitante, solicito manifestação.
Sistema	30/06/2025 às 15:52:50	Senhores, em breve estarei convocando as licitantes mais bem colocadas na ordem de classificação, para envio de nova proposta ajustada ao valor dos lances para cada item.
Sistema	30/06/2025 às 15:53:19	O prazo para envio é de 2 (duas) horas contadas a partir da convocação no sistema.
Sistema	30/06/2025 às 15:57:21	Com fundamento na letra "k" do subitem 9.2 do Edital, deverá ser enviada junto à proposta de preços "documentação técnica (manuais, catálogos ou prospectos), com as características detalhadas (marca, modelo, cor, tipo de material e medidas) e imagens ilustrativas dos produtos propostos, que possibilitem a completa averiguação de conformidade com as especificações, visando facilitar a avaliação a ser realizada por técnicos deste Órgão."
Sistema	30/06/2025 às 15:59:25	Poderá ser apresentado na proposta ou junto dela, links do fabricante/fornecedor, desde que atenda, no mínimo, as exigências do dispositivo mencionado.
Sistema	30/06/2025 às 16:01:38	Em breve as licitantes mais bem classificadas serão convocadas no sistema. Solicito atenção às interessadas.
Sistema	30/06/2025 às 16:04:57	Senhores, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (01/07/2025), a partir das 10h (horário Brasília) para as convocações.
Sistema	30/06/2025 às 16:05:13	Aguardo a todos no dia e hora aqui agendados.
Sistema	30/06/2025 às 16:05:28	Obrigado pela atenção e uma excelente tarde a todos.
Sistema	01/07/2025 às 10:05:27	Prezados Licitantes, bom dia.
Sistema	01/07/2025 às 10:16:19	Retornamos aos trabalhos deste certame, considerando a convocação dos licitantes mais bem classificados na ordem dos lances para envio de propostas.
Sistema	01/07/2025 às 10:27:59	Senhores, informo que o Quadro-Resumo do Processo de Compra Nª 195.2025.SCOMS.1609045.2025.001317 com os valores estimados para cada item já se encontra disponível no Portal do MPAM, no seguinte endereço:
Sistema	01/07/2025 às 10:28:11	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	01/07/2025 às 10:29:55	Senhores, em breve estarei convocando as licitantes para envio das proposta de preços ajustadas aos lances. Solicito atenção.
Sistema	01/07/2025 às 10:54:59	Senhores, considerando a solicitação de desclassificação de proposta para o Item 4 por parte do licitante MR COMERCIO DE PECAS E ACESSORIOS LTDA., será convocado para envio de proposta o próximo licitante na ordem de classificação. Solicito atenção.
Sistema	01/07/2025 às 13:39:54	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 13:43:26	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 2 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 14:32:39	Na sequência, considerando a desclassificação das licitantes 42.816.024 LEONARDO CATIVO SOUSA (Item 2) e HOUSE LTDA. (Item 4), serão convocados novos licitantes para envio de proposta de preços. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:00:55	Prezados, em breve serão convocados licitantes para envio de propostas para os itens 2 e 4. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:08:04	Prezados, será promovido um desempate para o Item 4 entre os licitantes A&G EQUIPAMENTOS TECNOLOGICOS E INFORMATICA LTDA. e 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção aos interessados.

Termo Homologação PNCP - ITEM 1 (1682173) SEI 2025.001317 / pg. 16

Responsável	Data/Hora	Mensagem
Sistema	01/07/2025 às 15:15:30	Realizado o desempate, passaremos à convocação de novo licitante para o Item 4. Solicito atenção.
Sistema	01/07/2025 às 15:17:15	Será convocado também novo licitante para o Item 2. Solicito atenção.
Sistema	01/07/2025 às 15:18:12	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	01/07/2025 às 18:31:24	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.

Sistema	03/07/2025 às 10:38:26	Estando o Licitante devidamente convocado, fico no aguardo dos solicitados documentos. Obrigado!
Sistema	03/07/2025 às 11:46:29	Senhores Licitantes, recebidos os documentos referente ao Item 4, informo que os mesmos serão encaminhados à análise por parte do setor técnico deste Órgão Ministerial.
Sistema	03/07/2025 às 11:47:11	Senhores, considerando a proposta apresentada pela licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1, informo o seguinte:
Sistema	03/07/2025 às 11:48:53	Submetida a proposta e os documentos técnicos enviados pela licitante classificada, o setor técnico DTIC, através do Parecer Nº 15.2025.SIET.1661793.2025.001317, manifestou-se "pela aceitabilidade do produto ofertado".

Termo Homologação PNCP - ITEM 1 (1682173) SEI 2025.001317 / pg. 17

Responsável	Data/Hora	Mensagem
Sistema	03/07/2025 às 11:50:25	Informo que o referido Parecer encontra-se disponível no Portal do MPAM, acessível a todos os interessados, no seguinte endereço: https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	03/07/2025 às 11:53:21	Senhores, considerando a manifestação técnica expressa no Parecer Nª 15.2025.SIET e o atendimento a todas as exigências formais do Edital referente à proposta de preços, este Pregoeiro decide pela ACEITAÇÃO da oferta do licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1.
Sistema	07/07/2025 às 15:57:44	Prezados Licitantes, boa tarde.
Sistema	07/07/2025 às 15:58:26	Informo que retornaremos aos trabalhos deste certame amanhã (08/07/2025), a partir das 14h (horário de Brasília).
Sistema	07/07/2025 às 15:58:41	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	08/07/2025 às 14:11:23	Prezados licitantes, boa tarde.
Sistema	08/07/2025 às 14:14:38	Prezados, retornamos aos trabalhos deste certame considerando as propostas dos seguintes licitantes:
Sistema	08/07/2025 às 14:16:14	a) TORINO INFORMÁTICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 2; b) POSITIVO TECNOLOGIA S/A (Filial), CNPJ (MF) n.ª 81.243.735/0009-03, para o Item 3; e c) E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 4
Sistema	08/07/2025 às 14:24:07	Encaminhadas as ofertas ao setor técnico para análise, o referido setor manifestou-se da seguinte forma:
Sistema	08/07/2025 às 14:26:15	Parecer Nª 16.2025.SIET.1661858.2025.001317 - TORINO INFORMÁTICA LTDA., ITEM 2 - Pela exposição de motivos, depreende-se que: a) O teclado não atende; b) O requisito de leitor biométrico no mouse e teclado não foi atendida; entre outros.
Sistema	08/07/2025 às 14:27:56	Parecer Nª 18.2025.SIET.1664620.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL) - ITEM 3 - Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando marca, modelo e documentação comprobatória específica de todos os componentes, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.
Sistema	08/07/2025 às 14:28:43	Parecer Nª 19.2025.SIET.1665305.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA. - ITEM 4 - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	08/07/2025 às 14:30:03	Assim, com fundamento na análise dos Pareceres aqui apresentados, Este Pregoeiro decide:
Sistema	08/07/2025 às 14:32:07	a) Recusar a proposta de preços do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, em conformidade ao Parecer Nª 16.2025.SIET.1661858.2025.001317 e Item 10.3.2 do Edital do certame.
Sistema	08/07/2025 às 14:35:55	b) Diligenciar o licitante POSITIVO TECNOLOGIA S/A (FILIAL) - para que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame.
Sistema	08/07/2025 às 14:37:36	Para tal, será aberto o prazo de 2 (duas horas para envio de documento complementar em providência à solicitação constante do Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:39:05	c) Aceitar a proposta de preços apresentada pelo licitante ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 4, em conformidade ao Parecer Nª 19.2025.SIET.1665305.2025.001317 e ao Item 10 do Edital do certame.
Sistema	08/07/2025 às 14:40:00	Prezados, informo que os pareceres mencionados encontram-se disponíveis e acessíveis a todos os interessados no Portal do MPAM no seguinte endereço:
Sistema	08/07/2025 às 14:40:33	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis

Termo Homologação PNCP - ITEM 1 (1682173) SEI 2025.001317 / pg. 18

Responsável	Data/Hora	Mensagem
Sistema	08/07/2025 às 14:54:06	Prezado licitante POSITIVO TECNOLOGIA S/A (FILIAL), em breve V. Sa. será convocado para providências conforme apresentado nesse chat e no Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:54:24	Solicito atenção.
Sistema	08/07/2025 às 14:56:10	Prezados, considerando a desclassificação da proposta do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, informo que em breve será convocado novo licitante para envio de proposta para o Item. Solicito atenção aos interessados.
Sistema	08/07/2025 às 15:00:40	Prezados, tomadas as devidas providências e convocados os licitantes, fico no aguardo dos solicitados documentos.
Sistema	08/07/2025 às 17:25:18	Senhores, recebidos os documentos, informo que os mesmos serão encaminhados ao setor técnico para análise.
Sistema	08/07/2025 às 17:26:29	Assim, encerraremos os trabalhos por hoje, retornando em data posterior devidamente informada através desse chat, em tempo hábil ao acompanhamento de todos os interessados.
Sistema	08/07/2025 às 17:26:39	Agradeço a atenção dispensada.
Sistema	08/07/2025 às 17:26:52	Finalizo desejando uma excelente tarde a todos.
Sistema	10/07/2025 às 11:36:20	Prezados, bom dia.
Sistema	10/07/2025 às 11:36:57	Informo que retornaremos aos trabalhos deste certame amanhã (11/07/2025), a partir das 10h (horário Brasília).
Sistema	10/07/2025 às 11:37:33	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 10:00:40	Prezados Licitantes, bom dia.
Sistema	11/07/2025 às 10:21:39	Retornamos aos trabalhos deste certame considerando as propostas apresentadas pelos licitantes POSITIVO TECNOLOGIA S/A (Filial), para o Item 3 e E.R. SOLUCOES INFORMATICA LTDA., para o Item 2.
Sistema	11/07/2025 às 10:39:45	Senhores, recebidos os documentos de propostas e encaminhados ao setor técnico competente para análise, obtivemos os seguintes resultados:
Sistema	11/07/2025 às 10:40:56	a) Parecer Nª 21.2025.SIET.1668662.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 2 - Conclusão - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	11/07/2025 às 10:43:00	b) Parecer Nª 22.2025.SIET.1668772.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL), para o Item 3 - Conclusão - Após análise da documentação apresentada pela licitante [...] foram observados alguns pontos inconclusivos, marcados como . Os pontos marcados com , são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.
Sistema	11/07/2025 às 10:44:33	Senhores, informo que o Parecer Nª 21.2025.SIET.1668662.2025.001317 e o Parecer Nª 22.2025.SIET.1668772.2025.001317 encontram-se disponíveis no Portal do MPAM, no seguinte
Sistema	11/07/2025 às 10:44:40	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	11/07/2025 às 10:46:44	Senhores, considerando os resultados das análises apresentados nos pareceres, informo o seguinte:
Sistema	11/07/2025 às 11:18:42	a) para saneamento das pendências apontadas nos pareceres, as licitantes serão convocadas para envio de documentos que comprovem o atendimento às exigências apontadas.
Sistema	11/07/2025 às 11:19:44	Assim, em breve convocarei as licitantes no sistema. Solicito atenção aos interessados.
Sistema	11/07/2025 às 11:25:58	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	11/07/2025 às 14:23:53	Senhores, boa tarde.
Sistema	11/07/2025 às 14:25:25	Considerando o envio dos documentos solicitados referentes ao Item 2 por parte do Licitante E.R. SOLUCOES INFORMATICA LTDA. e sendo os mesmos suficientes para o pleno atendimento da solicitação, informo que:

Termo Homologação PNCP - ITEM 1 (1682173) SEI 2025.001317 / pg. 19

Responsável	Data/Hora	Mensagem
Sistema	11/07/2025 às 14:27:08	Este Pregoeiro decide pela Aceitação da proposta de preços do licitante E.R. SOLUCOES INFORMATICA LTDA. para o Item 2, pelo pleno atendimento às exigências técnicas e formais do Edital, referentes à proposta e em conformidade ao Parecer Nª 21.2025.SIET.1668662.2025.001317.
Sistema	11/07/2025 às 16:52:49	Prezados, recebidos os documentos referente ao Item 3, informo que os mesmos serão encaminhados para análise do setor técnico competente.
Sistema	11/07/2025 às 16:54:57	Considerando a hora avançada, encerraremos os trabalhos por hoje, retornando na segunda-feira (14/07/2025), a partir das 11h (horário de Brasília), para continuação dos trabalhos.
Sistema	11/07/2025 às 16:55:26	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 16:55:54	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	14/07/2025 às 11:15:08	Prezados Licitantes, bom dia.
Sistema	14/07/2025 às 11:45:13	Senhores, considerando os documentos de Habilitação apresentados pelo Licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, informo que os mesmos atendem a todas as exigências estabelecidas no instrumento convocatório.
Sistema	14/07/2025 às 11:45:42	Nesse sentido, este Pregoeiro decide pela HABILITAÇÃO do licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47.
Sistema	14/07/2025 às 12:02:53	Senhores, em breve estarei habilitando a licitante no próprio sistema. Solicito atenção.
Sistema	14/07/2025 às 15:26:33	Prezados Licitantes, recebidos os documentos apresentados pelo licitante POSITIVO TECNOLOGIA S/A (FILIAL), referente ao Item 3, em resposta às solicitações constantes do Ofício Nª 256.2025.CPL.1667127.2025.001317, informo o seguinte:
Sistema	14/07/2025 às 15:29:43	Senhores, apenas retificando, as solicitações constam do Parecer Nª 22.2025.SIET.1668772.2025.001317 e não do Ofício Nª 256.2025.CPL.1667127.2025.001317.
Sistema	14/07/2025 às 15:31:35	O setor técnico, através do PARECER Nª 22.2025.SIET.1668772.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:40:50	Senhores, retificando, o setor técnico, através do PARECER Nª 25.2025.SIET.1671649.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:42:58	3. Conclusão - Não sendo possível constatar os pontos controversos, e não sendo atendido a solicitação para que o licitante, em sua proposta, declare expressamente que a garantia abrange acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.
Sistema	14/07/2025 às 15:43:42	Informo que o referido PARECER Nª 25.2025.SIET.1671649.2025.001317 encontra-se disponível no Portal do MPAM, no seguinte endereço:
Sistema	14/07/2025 às 15:44:09	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	14/07/2025 às 15:46:55	Prezados, considerando o Parecer Nª 25.2025.SIET.1671649.2025.001317 e o subitem 10.7.1. c/c 10.3.5. do Edital, informo que a proposta do licitante POSITIVO TECNOLOGIA S/A, CNPJ Nª. 81.243.735/0001-48 para o Item 3 será desclassificada.
Sistema	14/07/2025 às 15:47:58	Na oportunidade, informo que será convocado novo licitante para envio de proposta para o Item 3, nos termos do subitem 10.11 e 9.1. do Edital. Solicito atenção.
Sistema	15/07/2025 às 13:57:49	Prezados, boa tarde. Informo que amanhã (16/07/2025) retornaremos aos trabalhos deste certame, a partir das 14h (horário Brasília).
Sistema	15/07/2025 às 13:58:06	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	16/07/2025 às 14:04:53	Prezados Licitantes, boa tarde.
Sistema	16/07/2025 às 14:05:31	Retornamos aos trabalhos deste certame considerando a convocação do licitante HOUSE LTDA, CNPJ 35.689.930/0001-89 para envio de proposta ajustada ao lance para o Item 3.

Termo Homologação PNCP - ITEM 1 (1682173) SEI 2025.001317 / pg. 20

Responsável	Data/Hora	Mensagem
Sistema	16/07/2025 às 14:07:35	A proposta não foi encaminhada, portanto, a proposta da licitante será recusada em conformidade ao subitem 9.11 c/c subitem 10.3.5 do Edital.
Sistema	16/07/2025 às 14:08:10	Na sequência, será convocado novo licitante para envio de proposta para o Item 3. Solicito atenção aos interessados.
Sistema	16/07/2025 às 14:11:08	Estando o licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	16/07/2025 às 18:28:03	Prezados, encerraremos os trabalhos por hoje, retornando amanhã (17/07/2025), a partir das 11h (horário Brasília).
Sistema	16/07/2025 às 18:28:12	Aguardo a todos no dia e hora aqui agendados.
Sistema	17/07/2025 às 11:21:56	Prezados Licitantes, bom dia.
Sistema	17/07/2025 às 11:23:36	Prezados, retornamos aos trabalhos deste certame considerando o não envio de proposta de preços ajustada ao lance, por parte da licitante HOUSE LTDA. para o Item 3.
Sistema	17/07/2025 às 11:39:17	Perdão senhores, retificando, a última licitante convocada e que não enviou proposta para o Item 3 foi a empresa MR COMERCIO DE PECAS E ACESSORIOS LTDA, CNPJ 20.380.331/0001-01.
Sistema	17/07/2025 às 11:40:12	Assim, informo que a proposta da licitante será recusada e convocado novo licitante para envio de proposta ajustada para o item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 11:46:27	Prezados, antes da convocação de novo licitante, passaremos ao procedimento de desempate ficto entre licitantes.
Sistema	17/07/2025 às 11:46:37	Solicito atenção às interessadas. Obrigado!
Sistema	17/07/2025 às 11:59:22	Prezados, encerrado o desempate e mantida a classificação, informo que o novo licitante será convocado para envio de proposta ajustada ao lance para o Item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 12:05:01	Estando a licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	17/07/2025 às 12:16:20	Prezado, acolho a solicitação visto que a solicitação foi realizada na hora do almoço.
Sistema	18/07/2025 às 10:27:40	Prezados Licitantes, informo que tivemos problemas de conexão no sistema no dia de ontem e que retornaremos aos trabalhos deste certame na segunda feira (21/07/2025) , a partir das 10h (horário Brasília).
Sistema	18/07/2025 às 10:27:51	Aguardo a todos no dia e hora aqui agendados.
Sistema	18/07/2025 às 10:28:02	Um bom dia e um excelente fim de semana a todos.
Sistema	21/07/2025 às 10:54:36	Prezados, bom dia.
Sistema	21/07/2025 às 10:55:20	Infelizmente não foi possível reabrir no horário agendado por questões de problemas de conexão, já resolvidos.
Sistema	21/07/2025 às 10:56:02	Assim, informo que às 11h (Horário Brasília), retomaremos os trabalhos. Solicito atenção. Obrigado!
Sistema	21/07/2025 às 11:13:15	Senhores, considerando a solicitação de envio da licitante de apenas 1 (um) documento, informo que será solicitado a título de documento complementar (subitem 10.9) Edital.
Sistema	21/07/2025 às 11:13:24	Solicito atenção à interessada.
Sistema	21/07/2025 às 13:22:53	Prezados, recebidos os documentos, informo os mesmos serão encaminhados para o setor técnico para análise e manifestação.
Sistema	21/07/2025 às 13:23:36	Nesse sentido, informo que encerraremos os trabalhos por hoje, retornando em data posterior devidamente informado através desse chat e em tempo hábil para o acompanhamento de todos os interessados.
Sistema	21/07/2025 às 13:24:07	Agradeço a atenção de todos e finalizo desejando-lhes uma excelente semana.
Sistema	25/07/2025 às 10:24:29	Prezados, informo que retornaremos aos trabalhos deste certame segunda-feira (28/07/2025), a partir das 10h (horário Brasília).

Termo Homologação PNCP - ITEM 1 (1682173) SEI 2025.001317 / pg. 21

Responsável	Data/Hora	Mensagem
Sistema	25/07/2025 às 10:24:41	Aguardo a todos no dia e hora aqui agendados.
Sistema	25/07/2025 às 10:25:03	Obrigado! Um excelente fim de semana a todos.

Abertura da sessão pública:	Dia 30/06/2025 às 10:00 (horário de Brasília)		

Mensagens do chat da compra

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:00:02	A sessão pública está aberta. Até 1 item poderá estar em disputa simultaneamente e o período de abertura para disputa será entre 08:00 e 18:00. Haverá aviso prévio de abertura dos itens de 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:15:46	Prezados Licitantes, bom dia.
Sistema	30/06/2025 às 10:15:50	Sejam bem vindos à sessão pública do Pregão Eletrônico 94.010/2025 que tem por objeto o registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses.
Sistema	30/06/2025 às 10:15:59	Prezados, em breve será aberta a fase de disputa. Solicito atenção e comprometimento aos valores apresentados nos lances, visto que vinculam a empresa à manutenção do preço por um período de 12 meses, incumbindo a ela, portanto, a responsabilidade pela correta precificação da sua oferta.
Sistema	30/06/2025 às 10:16:10	Solicito atenção ao subitem 6.10 do Instrumento Convocatório no intuito do adequado acompanhamento do procedimento por parte de todos os interessados.
Sistema	30/06/2025 às 10:16:20	Boa disputa.
Sistema	30/06/2025 às 14:06:48	A etapa de julgamento de propostas foi iniciada. Para acompanhá-la acesse a opção "Seleção de fornecedores" na linha do tempo.
Sistema	30/06/2025 às 14:24:10	Prezados, encerrada a fase de disputa, passaremos à análise das ofertas apresentadas pelas licitantes mais bem colocadas na ordem de classificação.
Sistema	30/06/2025 às 14:26:29	No entanto, cabe tratar com os primeiros colocados para o Item 2. Solicito atenção aos interessados.
Sistema	30/06/2025 às 14:58:29	Senhores, considerando a desclassificação da proposta da licitante TROGON COMERCIO DE INFORMATICA LTDA SP para o item 2, passaremos a tratar com os licitantes seguintes. Solicito atenção aos interessados.

Termo Homologação PNCP - ITEM 2 (1682175) SEI 2025.001317 / pg. 29

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 15:24:14	Prezados, considerando que o licitante HOUSE LTDA. não se manifestou, passaremos a tratativa com a licitante 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção à interessada.
Sistema	30/06/2025 às 15:36:05	Senhor licitante, solicito manifestação.
Sistema	30/06/2025 às 15:52:50	Senhores, em breve estarei convocando as licitantes mais bem colocadas na ordem de classificação, para envio de nova proposta ajustada ao valor dos lances para cada item.
Sistema	30/06/2025 às 15:53:19	O prazo para envio é de 2 (duas) horas contadas a partir da convocação no sistema.
Sistema	30/06/2025 às 15:57:21	Com fundamento na letra "k" do subitem 9.2 do Edital, deverá ser enviada junto à proposta de preços "documentação técnica (manuais, catálogos ou prospectos), com as características detalhadas (marca, modelo, cor, tipo de material e medidas) e imagens ilustrativas dos produtos propostos, que possibilitem a completa averiguação de conformidade com as especificações, visando facilitar a avaliação a ser realizada por técnicos deste Órgão."
Sistema	30/06/2025 às 15:59:25	Poderá ser apresentado na proposta ou junto dela, links do fabricante/fornecedor, desde que atenda, no mínimo, as exigências do dispositivo mencionado.
Sistema	30/06/2025 às 16:01:38	Em breve as licitantes mais bem classificadas serão convocadas no sistema. Solicito atenção às interessadas.
Sistema	30/06/2025 às 16:04:57	Senhores, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (01/07/2025), a partir das 10h (horário Brasília) para as convocações.
Sistema	30/06/2025 às 16:05:13	Aguardo a todos no dia e hora aqui agendados.
Sistema	30/06/2025 às 16:05:28	Obrigado pela atenção e uma excelente tarde a todos.
Sistema	01/07/2025 às 10:05:27	Prezados Licitantes, bom dia.
Sistema	01/07/2025 às 10:16:19	Retornamos aos trabalhos deste certame, considerando a convocação dos licitantes mais bem classificados na ordem dos lances para envio de propostas.
Sistema	01/07/2025 às 10:27:59	Senhores, informo que o Quadro-Resumo do Processo de Compra Nª 195.2025.SCOMS.1609045.2025.001317 com os valores estimados para cada item já se encontra disponível no Portal do MPAM, no seguinte endereço:
Sistema	01/07/2025 às 10:28:11	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	01/07/2025 às 10:29:55	Senhores, em breve estarei convocando as licitantes para envio das proposta de preços ajustadas aos lances. Solicito atenção.
Sistema	01/07/2025 às 10:54:59	Senhores, considerando a solicitação de desclassificação de proposta para o Item 4 por parte do licitante MR COMERCIO DE PECAS E ACESSORIOS LTDA., será convocado para envio de proposta o próximo licitante na ordem de classificação. Solicito atenção.
Sistema	01/07/2025 às 13:39:54	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 13:43:26	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 2 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 14:32:39	Na sequência, considerando a desclassificação das licitantes 42.816.024 LEONARDO CATIVO SOUSA (Item 2) e HOUSE LTDA. (Item 4), serão convocados novos licitantes para envio de proposta de preços. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:00:55	Prezados, em breve serão convocados licitantes para envio de propostas para os itens 2 e 4. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:08:04	Prezados, será promovido um desempate para o Item 4 entre os licitantes A&G EQUIPAMENTOS TECNOLOGICOS E INFORMATICA LTDA. e 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção aos interessados.

Termo Homologação PNCP - ITEM 2 (1682175) SEI 2025.001317 / pg. 30

Responsável	Data/Hora	Mensagem
Sistema	01/07/2025 às 15:15:30	Realizado o desempate, passaremos à convocação de novo licitante para o Item 4. Solicito atenção.
Sistema	01/07/2025 às 15:17:15	Será convocado também novo licitante para o Item 2. Solicito atenção.
Sistema	01/07/2025 às 15:18:12	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	01/07/2025 às 18:31:24	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 18:32:20	Considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retomando-os amanhã (02/07/2025), a partir das 10h (horário de Brasília).
Sistema	01/07/2025 às 18:32:44	Aguardo a todos no dia e hora aqui agendados.
Sistema	01/07/2025 às 18:33:01	Agradeço a atenção dispensada e desejo a todos um excelente fim de tarde.
Sistema	02/07/2025 às 10:02:34	Prezados, bom dia.
Sistema	02/07/2025 às 10:08:35	Senhores, informo que em breve será convocado novo licitante para envio de proposta para o item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 12:37:06	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	02/07/2025 às 12:38:31	Na sequência, será convocado novo licitante para envio de proposta para o Item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 14:52:01	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	02/07/2025 às 14:52:14	Na sequência, será convocado novo licitante para envio de proposta para o Item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 16:50:23	Prezados, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (03/07/2025), a partir das 10h (horário Brasília).
Sistema	02/07/2025 às 16:50:49	Aguardo a todos no dia e hora aqui agendados.
Sistema	02/07/2025 às 16:51:05	Finalizo desejando a todos uma excelente tarde.
Sistema	03/07/2025 às 10:11:15	Prezados Licitantes, bom dia.
Sistema	03/07/2025 às 10:11:53	Retornamos aos trabalhos deste certame considerando a convocação de novo licitante para envio de proposta para o Item 4.
Sistema	03/07/2025 às 10:12:35	Em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:24:21	Prezados, em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:38:26	Estando o Licitante devidamente convocado, fico no aguardo dos solicitados documentos. Obrigado!
Sistema	03/07/2025 às 11:46:29	Senhores Licitantes, recebidos os documentos referente ao Item 4, informo que os mesmos serão encaminhados à análise por parte do setor técnico deste Órgão Ministerial.
Sistema	03/07/2025 às 11:47:11	Senhores, considerando a proposta apresentada pela licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1, informo o seguinte:
Sistema	03/07/2025 às 11:48:53	Submetida a proposta e os documentos técnicos enviados pela licitante classificada, o setor técnico DTIC, através do Parecer Nº 15.2025.SIET.1661793.2025.001317, manifestou-se "pela aceitabilidade do produto ofertado".

Termo Homologação PNCP - ITEM 2 (1682175) SEI 2025.001317 / pg. 31

Responsável	Data/Hora	Mensagem
Sistema	03/07/2025 às 11:50:25	Informo que o referido Parecer encontra-se disponível no Portal do MPAM, acessível a todos os interessados, no seguinte endereço: https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	03/07/2025 às 11:53:21	Senhores, considerando a manifestação técnica expressa no Parecer Nª 15.2025.SIET e o atendimento a todas as exigências formais do Edital referente à proposta de preços, este Pregoeiro decide pela ACEITAÇÃO da oferta do licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1.
Sistema	07/07/2025 às 15:57:44	Prezados Licitantes, boa tarde.
Sistema	07/07/2025 às 15:58:26	Informo que retornaremos aos trabalhos deste certame amanhã (08/07/2025), a partir das 14h (horário de Brasília).
Sistema	07/07/2025 às 15:58:41	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	08/07/2025 às 14:11:23	Prezados licitantes, boa tarde.
Sistema	08/07/2025 às 14:14:38	Prezados, retornamos aos trabalhos deste certame considerando as propostas dos seguintes licitantes:
Sistema	08/07/2025 às 14:16:14	a) TORINO INFORMÁTICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 2; b) POSITIVO TECNOLOGIA S/A (Filial), CNPJ (MF) n.ª 81.243.735/0009-03, para o Item 3; e c) E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 4
Sistema	08/07/2025 às 14:24:07	Encaminhadas as ofertas ao setor técnico para análise, o referido setor manifestou-se da seguinte forma:
Sistema	08/07/2025 às 14:26:15	Parecer Nª 16.2025.SIET.1661858.2025.001317 - TORINO INFORMÁTICA LTDA., ITEM 2 - Pela exposição de motivos, depreende-se que: a) O teclado não atende; b) O requisito de leitor biométrico no mouse e teclado não foi atendida; entre outros.
Sistema	08/07/2025 às 14:27:56	Parecer Nª 18.2025.SIET.1664620.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL) - ITEM 3 - Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando marca, modelo e documentação comprobatória específica de todos os componentes, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.
Sistema	08/07/2025 às 14:28:43	Parecer Nª 19.2025.SIET.1665305.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA. - ITEM 4 - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	08/07/2025 às 14:30:03	Assim, com fundamento na análise dos Pareceres aqui apresentados, Este Pregoeiro decide:
Sistema	08/07/2025 às 14:32:07	a) Recusar a proposta de preços do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, em conformidade ao Parecer Nª 16.2025.SIET.1661858.2025.001317 e Item 10.3.2 do Edital do certame.
Sistema	08/07/2025 às 14:35:55	b) Diligenciar o licitante POSITIVO TECNOLOGIA S/A (FILIAL) - para que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame.
Sistema	08/07/2025 às 14:37:36	Para tal, será aberto o prazo de 2 (duas horas para envio de documento complementar em providência à solicitação constante do Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:39:05	c) Aceitar a proposta de preços apresentada pelo licitante ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 4, em conformidade ao Parecer Nª 19.2025.SIET.1665305.2025.001317 e ao Item 10 do Edital do certame.
Sistema	08/07/2025 às 14:40:00	Prezados, informo que os pareceres mencionados encontram-se disponíveis e acessíveis a todos os interessados no Portal do MPAM no seguinte endereço:
Sistema	08/07/2025 às 14:40:33	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis

Termo Homologação PNCP - ITEM 2 (1682175) SEI 2025.001317 / pg. 32

Responsável	Data/Hora	Mensagem
Sistema	08/07/2025 às 14:54:06	Prezado licitante POSITIVO TECNOLOGIA S/A (FILIAL), em breve V. Sa. será convocado para providências conforme apresentado nesse chat e no Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:54:24	Solicito atenção.
Sistema	08/07/2025 às 14:56:10	Prezados, considerando a desclassificação da proposta do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, informo que em breve será convocado novo licitante para envio de proposta para o Item. Solicito atenção aos interessados.
Sistema	08/07/2025 às 15:00:40	Prezados, tomadas as devidas providências e convocados os licitantes, fico no aguardo dos solicitados documentos.
Sistema	08/07/2025 às 17:25:18	Senhores, recebidos os documentos, informo que os mesmos serão encaminhados ao setor técnico para análise.
Sistema	08/07/2025 às 17:26:29	Assim, encerraremos os trabalhos por hoje, retornando em data posterior devidamente informada através desse chat, em tempo hábil ao acompanhamento de todos os interessados.
Sistema	08/07/2025 às 17:26:39	Agradeço a atenção dispensada.
Sistema	08/07/2025 às 17:26:52	Finalizo desejando uma excelente tarde a todos.
Sistema	10/07/2025 às 11:36:20	Prezados, bom dia.
Sistema	10/07/2025 às 11:36:57	Informo que retornaremos aos trabalhos deste certame amanhã (11/07/2025), a partir das 10h (horário Brasília).
Sistema	10/07/2025 às 11:37:33	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 10:00:40	Prezados Licitantes, bom dia.
Sistema	11/07/2025 às 10:21:39	Retornamos aos trabalhos deste certame considerando as propostas apresentadas pelos licitantes POSITIVO TECNOLOGIA S/A (Filial), para o Item 3 e E.R. SOLUCOES INFORMATICA LTDA., para o Item 2.
Sistema	11/07/2025 às 10:39:45	Senhores, recebidos os documentos de propostas e encaminhados ao setor técnico competente para análise, obtivemos os seguintes resultados:
Sistema	11/07/2025 às 10:40:56	a) Parecer Nª 21.2025.SIET.1668662.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 2 - Conclusão - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	11/07/2025 às 10:43:00	b) Parecer Nª 22.2025.SIET.1668772.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL), para o Item 3 - Conclusão - Após análise da documentação apresentada pela licitante [...] foram observados alguns pontos inconclusivos, marcados como . Os pontos marcados com , são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.
Sistema	11/07/2025 às 10:44:33	Senhores, informo que o Parecer Nª 21.2025.SIET.1668662.2025.001317 e o Parecer Nª 22.2025.SIET.1668772.2025.001317 encontram-se disponíveis no Portal do MPAM, no seguinte
Sistema	11/07/2025 às 10:44:40	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	11/07/2025 às 10:46:44	Senhores, considerando os resultados das análises apresentados nos pareceres, informo o seguinte:
Sistema	11/07/2025 às 11:18:42	a) para saneamento das pendências apontadas nos pareceres, as licitantes serão convocadas para envio de documentos que comprovem o atendimento às exigências apontadas.
Sistema	11/07/2025 às 11:19:44	Assim, em breve convocarei as licitantes no sistema. Solicito atenção aos interessados.
Sistema	11/07/2025 às 11:25:58	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	11/07/2025 às 14:23:53	Senhores, boa tarde.
Sistema	11/07/2025 às 14:25:25	Considerando o envio dos documentos solicitados referentes ao Item 2 por parte do Licitante E.R. SOLUCOES INFORMATICA LTDA. e sendo os mesmos suficientes para o pleno atendimento da solicitação, informo que:

Termo Homologação PNCP - ITEM 2 (1682175) SEI 2025.001317 / pg. 33

Responsável	Data/Hora	Mensagem
Sistema	11/07/2025 às 14:27:08	Este Pregoeiro decide pela Aceitação da proposta de preços do licitante E.R. SOLUCOES INFORMATICA LTDA. para o Item 2, pelo pleno atendimento às exigências técnicas e formais do Edital, referentes à proposta e em conformidade ao Parecer Nª 21.2025.SIET.1668662.2025.001317.
Sistema	11/07/2025 às 16:52:49	Prezados, recebidos os documentos referente ao Item 3, informo que os mesmos serão encaminhados para análise do setor técnico competente.
Sistema	11/07/2025 às 16:54:57	Considerando a hora avançada, encerraremos os trabalhos por hoje, retornando na segunda-feira (14/07/2025), a partir das 11h (horário de Brasília), para continuação dos trabalhos.
Sistema	11/07/2025 às 16:55:26	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 16:55:54	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	14/07/2025 às 11:15:08	Prezados Licitantes, bom dia.
Sistema	14/07/2025 às 11:45:13	Senhores, considerando os documentos de Habilitação apresentados pelo Licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, informo que os mesmos atendem a todas as exigências estabelecidas no instrumento convocatório.
Sistema	14/07/2025 às 11:45:42	Nesse sentido, este Pregoeiro decide pela HABILITAÇÃO do licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47.
Sistema	14/07/2025 às 12:02:53	Senhores, em breve estarei habilitando a licitante no próprio sistema. Solicito atenção.
Sistema	14/07/2025 às 15:26:33	Prezados Licitantes, recebidos os documentos apresentados pelo licitante POSITIVO TECNOLOGIA S/A (FILIAL), referente ao Item 3, em resposta às solicitações constantes do Ofício Nª 256.2025.CPL.1667127.2025.001317, informo o seguinte:
Sistema	14/07/2025 às 15:29:43	Senhores, apenas retificando, as solicitações constam do Parecer Nª 22.2025.SIET.1668772.2025.001317 e não do Ofício Nª 256.2025.CPL.1667127.2025.001317.
Sistema	14/07/2025 às 15:31:35	O setor técnico, através do PARECER Nª 22.2025.SIET.1668772.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:40:50	Senhores, retificando, o setor técnico, através do PARECER Nª 25.2025.SIET.1671649.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:42:58	3. Conclusão - Não sendo possível constatar os pontos controversos, e não sendo atendido a solicitação para que o licitante, em sua proposta, declare expressamente que a garantia abrange acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.
Sistema	14/07/2025 às 15:43:42	Informo que o referido PARECER Nª 25.2025.SIET.1671649.2025.001317 encontra-se disponível no Portal do MPAM, no seguinte endereço:

Sistema	14/07/2025 às 15:46:55	Prezados, considerando o Parecer Nª 25.2025.SIET.1671649.2025.001317 e o subitem 10.7.1. c/c 10.3.5. do Edital, informo que a proposta do licitante POSITIVO TECNOLOGIA S/A, CNPJ Nª. 81.243.735/0001-48 para o Item 3 será desclassificada.
Sistema	14/07/2025 às 15:47:58	Na oportunidade, informo que será convocado novo licitante para envio de proposta para o Item 3, nos termos do subitem 10.11 e 9.1. do Edital. Solicito atenção.
Sistema	15/07/2025 às 13:57:49	Prezados, boa tarde. Informo que amanhã (16/07/2025) retornaremos aos trabalhos deste certame, a partir das 14h (horário Brasília).
Sistema	15/07/2025 às 13:58:06	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	16/07/2025 às 14:04:53	Prezados Licitantes, boa tarde.
Sistema	16/07/2025 às 14:05:31	Retornamos aos trabalhos deste certame considerando a convocação do licitante HOUSE LTDA, CNPJ 35.689.930/0001-89 para envio de proposta ajustada ao lance para o Item 3.

Termo Homologação PNCP - ITEM 2 (1682175) SEI 2025.001317 / pg. 34

Responsável	Data/Hora	Mensagem
Sistema	16/07/2025 às 14:07:35	A proposta não foi encaminhada, portanto, a proposta da licitante será recusada em conformidade ao subitem 9.11 c/c subitem 10.3.5 do Edital.
Sistema	16/07/2025 às 14:08:10	Na sequência, será convocado novo licitante para envio de proposta para o Item 3. Solicito atenção aos interessados.
Sistema	16/07/2025 às 14:11:08	Estando o licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	16/07/2025 às 18:28:03	Prezados, encerraremos os trabalhos por hoje, retornando amanhã (17/07/2025), a partir das 11h (horário Brasília).
Sistema	16/07/2025 às 18:28:12	Aguardo a todos no dia e hora aqui agendados.
Sistema	17/07/2025 às 11:21:56	Prezados Licitantes, bom dia.
Sistema	17/07/2025 às 11:23:36	Prezados, retornamos aos trabalhos deste certame considerando o não envio de proposta de preços ajustada ao lance, por parte da licitante HOUSE LTDA. para o Item 3.
Sistema	17/07/2025 às 11:39:17	Perdão senhores, retificando, a última licitante convocada e que não enviou proposta para o Item 3 foi a empresa MR COMERCIO DE PECAS E ACESSORIOS LTDA, CNPJ 20.380.331/0001-01.
Sistema	17/07/2025 às 11:40:12	Assim, informo que a proposta da licitante será recusada e convocado novo licitante para envio de proposta ajustada para o item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 11:46:27	Prezados, antes da convocação de novo licitante, passaremos ao procedimento de desempate ficto entre licitantes.
Sistema	17/07/2025 às 11:46:37	Solicito atenção às interessadas. Obrigado!
Sistema	17/07/2025 às 11:59:22	Prezados, encerrado o desempate e mantida a classificação, informo que o novo licitante será convocado para envio de proposta ajustada ao lance para o Item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 12:05:01	Estando a licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	17/07/2025 às 12:16:20	Prezado, acolho a solicitação visto que a solicitação foi realizada na hora do almoço.
Sistema	18/07/2025 às 10:27:40	Prezados Licitantes, informo que tivemos problemas de conexão no sistema no dia de ontem e que retornaremos aos trabalhos deste certame na segunda feira (21/07/2025) , a partir das 10h (horário Brasília).
Sistema	18/07/2025 às 10:27:51	Aguardo a todos no dia e hora aqui agendados.
Sistema	18/07/2025 às 10:28:02	Um bom dia e um excelente fim de semana a todos.
Sistema	21/07/2025 às 10:54:36	Prezados, bom dia.
Sistema	21/07/2025 às 10:55:20	Infelizmente não foi possível reabrir no horário agendado por questões de problemas de conexão, já resolvidos.
Sistema	21/07/2025 às 10:56:02	Assim, informo que às 11h (Horário Brasília), retomaremos os trabalhos. Solicito atenção. Obrigado!
Sistema	21/07/2025 às 11:13:15	Senhores, considerando a solicitação de envio da licitante de apenas 1 (um) documento, informo que será solicitado a título de documento complementar (subitem 10.9) Edital.
Sistema	21/07/2025 às 11:13:24	Solicito atenção à interessada.
Sistema	21/07/2025 às 13:22:53	Prezados, recebidos os documentos, informo os mesmos serão encaminhados para o setor técnico para análise e manifestação.
Sistema	21/07/2025 às 13:23:36	Nesse sentido, informo que encerraremos os trabalhos por hoje, retornando em data posterior devidamente informado através desse chat e em tempo hábil para o acompanhamento de todos os interessados.
Sistema	21/07/2025 às 13:24:07	Agradeço a atenção de todos e finalizo desejando-lhes uma excelente semana.
Sistema	25/07/2025 às 10:24:29	Prezados, informo que retornaremos aos trabalhos deste certame segunda-feira (28/07/2025), a partir das 10h (horário Brasília).

Mensagens do chat da compra

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:00:02	A sessão pública está aberta. Até 1 item poderá estar em disputa simultaneamente e o período de abertura para disputa será entre 08:00 e 18:00. Haverá aviso prévio de abertura dos itens de 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:15:46	Prezados Licitantes, bom dia.
Sistema	30/06/2025 às 10:15:50	Sejam bem vindos à sessão pública do Pregão Eletrônico 94.010/2025 que tem por objeto o registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses.
Sistema	30/06/2025 às 10:15:59	Prezados, em breve será aberta a fase de disputa. Solicito atenção e comprometimento aos valores apresentados nos lances, visto que vinculam a empresa à manutenção do preço por um período de 12 meses, incumbindo a ela, portanto, a responsabilidade pela correta precificação da sua oferta.
Sistema	30/06/2025 às 10:16:10	Solicito atenção ao subitem 6.10 do Instrumento Convocatório no intuito do adequado acompanhamento do procedimento por parte de todos os interessados.
Sistema	30/06/2025 às 10:16:20	Boa disputa.
Sistema	30/06/2025 às 14:06:48	A etapa de julgamento de propostas foi iniciada. Para acompanhá-la acesse a opção "Seleção de fornecedores" na linha do tempo.
Sistema	30/06/2025 às 14:24:10	Prezados, encerrada a fase de disputa, passaremos à análise das ofertas apresentadas pelas licitantes mais bem colocadas na ordem de classificação.
Sistema	30/06/2025 às 14:26:29	No entanto, cabe tratar com os primeiros colocados para o Item 2. Solicito atenção aos interessados.
Sistema	30/06/2025 às 14:58:29	Senhores, considerando a desclassificação da proposta da licitante TROGON COMERCIO DE INFORMATICA LTDA SP para o item 2, passaremos a tratar com os licitantes seguintes. Solicito atenção aos interessados.

Termo Homologação PNCP - ITEM 4 (1682198) SEI 2025.001317 / pg. 56

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 15:24:14	Prezados, considerando que o licitante HOUSE LTDA. não se manifestou, passaremos a tratativa com a licitante 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção à interessada.
Sistema	30/06/2025 às 15:36:05	Senhor licitante, solicito manifestação.
Sistema	30/06/2025 às 15:52:50	Senhores, em breve estarei convocando as licitantes mais bem colocadas na ordem de classificação, para envio de nova proposta ajustada ao valor dos lances para cada item.
Sistema	30/06/2025 às 15:53:19	O prazo para envio é de 2 (duas) horas contadas a partir da convocação no sistema.
Sistema	30/06/2025 às 15:57:21	Com fundamento na letra "k" do subitem 9.2 do Edital, deverá ser enviada junto à proposta de preços "documentação técnica (manuais, catálogos ou prospectos), com as características detalhadas (marca, modelo, cor, tipo de material e medidas) e imagens ilustrativas dos produtos propostos, que possibilitem a completa averiguação de conformidade com as especificações, visando facilitar a avaliação a ser realizada por técnicos deste Órgão."
Sistema	30/06/2025 às 15:59:25	Poderá ser apresentado na proposta ou junto dela, links do fabricante/fornecedor, desde que atenda, no mínimo, as exigências do dispositivo mencionado.
Sistema	30/06/2025 às 16:01:38	Em breve as licitantes mais bem classificadas serão convocadas no sistema. Solicito atenção às interessadas.
Sistema	30/06/2025 às 16:04:57	Senhores, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (01/07/2025), a partir das 10h (horário Brasília) para as convocações.
Sistema	30/06/2025 às 16:05:13	Aguardo a todos no dia e hora aqui agendados.
Sistema	30/06/2025 às 16:05:28	Obrigado pela atenção e uma excelente tarde a todos.
Sistema	01/07/2025 às 10:05:27	Prezados Licitantes, bom dia.
Sistema	01/07/2025 às 10:16:19	Retornamos aos trabalhos deste certame, considerando a convocação dos licitantes mais bem classificados na ordem dos lances para envio de propostas.
Sistema	01/07/2025 às 10:27:59	Senhores, informo que o Quadro-Resumo do Processo de Compra Nª 195.2025.SCOMS.1609045.2025.001317 com os valores estimados para cada item já se encontra disponível no Portal do MPAM, no seguinte endereço:
Sistema	01/07/2025 às 10:28:11	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	01/07/2025 às 10:29:55	Senhores, em breve estarei convocando as licitantes para envio das proposta de preços ajustadas aos lances. Solicito atenção.
Sistema	01/07/2025 às 10:54:59	Senhores, considerando a solicitação de desclassificação de proposta para o Item 4 por parte do licitante MR COMERCIO DE PECAS E ACESSORIOS LTDA., será convocado para envio de proposta o próximo licitante na ordem de classificação. Solicito atenção.
Sistema	01/07/2025 às 13:39:54	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 13:43:26	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 2 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 14:32:39	Na sequência, considerando a desclassificação das licitantes 42.816.024 LEONARDO CATIVO SOUSA (Item 2) e HOUSE LTDA. (Item 4), serão convocados novos licitantes para envio de proposta de preços. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:00:55	Prezados, em breve serão convocados licitantes para envio de propostas para os itens 2 e 4. Solicito atenção aos interessados.
Sistema	01/07/2025 às 15:08:04	Prezados, será promovido um desempate para o Item 4 entre os licitantes A&G EQUIPAMENTOS TECNOLOGICOS E INFORMATICA LTDA. e 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção aos interessados.

Termo Homologação PNCP - ITEM 4 (1682198) SEI 2025.001317 / pg. 57

Responsável	Data/Hora	Mensagem
Sistema	01/07/2025 às 15:15:30	Realizado o desempate, passaremos à convocação de novo licitante para o Item 4. Solicito atenção.
Sistema	01/07/2025 às 15:17:15	Será convocado também novo licitante para o Item 2. Solicito atenção.
Sistema	01/07/2025 às 15:18:12	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	01/07/2025 às 18:31:24	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	01/07/2025 às 18:32:20	Considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retomando-os amanhã (02/07/2025), a partir das 10h (horário de Brasília).
Sistema	01/07/2025 às 18:32:44	Aguardo a todos no dia e hora aqui agendados.
Sistema	01/07/2025 às 18:33:01	Agradeço a atenção dispensada e desejo a todos um excelente fim de tarde.
Sistema	02/07/2025 às 10:02:34	Prezados, bom dia.
Sistema	02/07/2025 às 10:08:35	Senhores, informo que em breve será convocado novo licitante para envio de proposta para o item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 12:37:06	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	02/07/2025 às 12:38:31	Na sequência, será convocado novo licitante para envio de proposta para o Item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 14:52:01	Senhores, considerando o encerramento do prazo de envio de proposta para o Item 4 sem qualquer manifestação da convocada, informo que a referida proposta será recusada, conforme subitem 9.1 c/c 10.3.5. do Edital.
Sistema	02/07/2025 às 14:52:14	Na sequência, será convocado novo licitante para envio de proposta para o Item 4. Solicito atenção ao interessado.
Sistema	02/07/2025 às 16:50:23	Prezados, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (03/07/2025), a partir das 10h (horário Brasília).
Sistema	02/07/2025 às 16:50:49	Aguardo a todos no dia e hora aqui agendados.
Sistema	02/07/2025 às 16:51:05	Finalizo desejando a todos uma excelente tarde.
Sistema	03/07/2025 às 10:11:15	Prezados Licitantes, bom dia.
Sistema	03/07/2025 às 10:11:53	Retornamos aos trabalhos deste certame considerando a convocação de novo licitante para envio de proposta para o Item 4.
Sistema	03/07/2025 às 10:12:35	Em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:24:21	Prezados, em breve estarei convocando novo licitante para envio de proposta ajusta ao lance para o Item 4. Solicito atenção ao interessado.
Sistema	03/07/2025 às 10:38:26	Estando o Licitante devidamente convocado, fico no aguardo dos solicitados documentos. Obrigado!
Sistema	03/07/2025 às 11:46:29	Senhores Licitantes, recebidos os documentos referente ao Item 4, informo que os mesmos serão encaminhados à análise por parte do setor técnico deste Órgão Ministerial.
Sistema	03/07/2025 às 11:47:11	Senhores, considerando a proposta apresentada pela licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1, informo o seguinte:
Sistema	03/07/2025 às 11:48:53	Submetida a proposta e os documentos técnicos enviados pela licitante classificada, o setor técnico DTIC, através do Parecer Nª 15.2025.SIET.1661793.2025.001317, manifestou-se "pela aceitabilidade do produto ofertado".

Termo Homologação PNCP - ITEM 4 (1682198) SEI 2025.001317 / pg. 58

Responsável	Data/Hora	Mensagem
Sistema	03/07/2025 às 11:50:25	Informo que o referido Parecer encontra-se disponível no Portal do MPAM, acessível a todos os interessados, no seguinte endereço: https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	03/07/2025 às 11:53:21	Senhores, considerando a manifestação técnica expressa no Parecer Nª 15.2025.SIET e o atendimento a todas as exigências formais do Edital referente à proposta de preços, este Pregoeiro decide pela ACEITAÇÃO da oferta do licitante E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47 para o item 1.
Sistema	07/07/2025 às 15:57:44	Prezados Licitantes, boa tarde.
Sistema	07/07/2025 às 15:58:26	Informo que retornaremos aos trabalhos deste certame amanhã (08/07/2025), a partir das 14h (horário de Brasília).
Sistema	07/07/2025 às 15:58:41	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	08/07/2025 às 14:11:23	Prezados licitantes, boa tarde.
Sistema	08/07/2025 às 14:14:38	Prezados, retornamos aos trabalhos deste certame considerando as propostas dos seguintes licitantes:
Sistema	08/07/2025 às 14:16:14	a) TORINO INFORMÁTICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 2; b) POSITIVO TECNOLOGIA S/A (Filial), CNPJ (MF) n.ª 81.243.735/0009-03, para o Item 3; e c) E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 4
Sistema	08/07/2025 às 14:24:07	Encaminhadas as ofertas ao setor técnico para análise, o referido setor manifestou-se da seguinte forma:
Sistema	08/07/2025 às 14:26:15	Parecer Nª 16.2025.SIET.1661858.2025.001317 - TORINO INFORMÁTICA LTDA., ITEM 2 - Pela exposição de motivos, depreende-se que: a) O teclado não atende; b) O requisito de leitor biométrico no mouse e teclado não foi atendida; entre outros.
Sistema	08/07/2025 às 14:27:56	Parecer Nª 18.2025.SIET.1664620.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL) - ITEM 3 - Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando marca, modelo e documentação comprobatória específica de todos os componentes, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.
Sistema	08/07/2025 às 14:28:43	Parecer Nª 19.2025.SIET.1665305.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA. - ITEM 4 - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	08/07/2025 às 14:30:03	Assim, com fundamento na análise dos Pareceres aqui apresentados, Este Pregoeiro decide:
Sistema	08/07/2025 às 14:32:07	a) Recusar a proposta de preços do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, em conformidade ao Parecer Nª 16.2025.SIET.1661858.2025.001317 e Item 10.3.2 do Edital do certame.
Sistema	08/07/2025 às 14:35:55	b) Diligenciar o licitante POSITIVO TECNOLOGIA S/A (FILIAL) - para que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame.
Sistema	08/07/2025 às 14:37:36	Para tal, será aberto o prazo de 2 (duas horas para envio de documento complementar em providência à solicitação constante do Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:39:05	c) Aceitar a proposta de preços apresentada pelo licitante ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 4, em conformidade ao Parecer Nª 19.2025.SIET.1665305.2025.001317 e ao Item 10 do Edital do certame.
Sistema	08/07/2025 às 14:40:00	Prezados, informo que os pareceres mencionados encontram-se disponíveis e acessíveis a todos os interessados no Portal do MPAM no seguinte endereço:
Sistema	08/07/2025 às 14:40:33	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis

Termo Homologação PNCP - ITEM 4 (1682198) SEI 2025.001317 / pg. 59

Responsável	Data/Hora	Mensagem
Sistema	08/07/2025 às 14:54:06	Prezado licitante POSITIVO TECNOLOGIA S/A (FILIAL), em breve V. Sa. será convocado para providências conforme apresentado nesse chat e no Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:54:24	Solicito atenção.
Sistema	08/07/2025 às 14:56:10	Prezados, considerando a desclassificação da proposta do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, informo que em breve será convocado novo licitante para envio de proposta para o Item. Solicito atenção aos interessados.
Sistema	08/07/2025 às 15:00:40	Prezados, tomadas as devidas providências e convocados os licitantes, fico no aguardo dos solicitados documentos.
Sistema	08/07/2025 às 17:25:18	Senhores, recebidos os documentos, informo que os mesmos serão encaminhados ao setor técnico para análise.
Sistema	08/07/2025 às 17:26:29	Assim, encerraremos os trabalhos por hoje, retornando em data posterior devidamente informada através desse chat, em tempo hábil ao acompanhamento de todos os interessados.
Sistema	08/07/2025 às 17:26:39	Agradeço a atenção dispensada.
Sistema	08/07/2025 às 17:26:52	Finalizo desejando uma excelente tarde a todos.
Sistema	10/07/2025 às 11:36:20	Prezados, bom dia.
Sistema	10/07/2025 às 11:36:57	Informo que retornaremos aos trabalhos deste certame amanhã (11/07/2025), a partir das 10h (horário Brasília).
Sistema	10/07/2025 às 11:37:33	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 10:00:40	Prezados Licitantes, bom dia.
Sistema	11/07/2025 às 10:21:39	Retornamos aos trabalhos deste certame considerando as propostas apresentadas pelos licitantes POSITIVO TECNOLOGIA S/A (Filial), para o Item 3 e E.R. SOLUCOES INFORMATICA LTDA., para o Item 2.
Sistema	11/07/2025 às 10:39:45	Senhores, recebidos os documentos de propostas e encaminhados ao setor técnico competente para análise, obtivemos os seguintes resultados:
Sistema	11/07/2025 às 10:40:56	a) Parecer Nª 21.2025.SIET.1668662.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 2 - Conclusão - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	11/07/2025 às 10:43:00	b) Parecer Nª 22.2025.SIET.1668772.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL), para o Item 3 - Conclusão - Após análise da documentação apresentada pela licitante [...] foram observados alguns pontos inconclusivos, marcados como . Os pontos marcados com , são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.
Sistema	11/07/2025 às 10:44:33	Senhores, informo que o Parecer Nª 21.2025.SIET.1668662.2025.001317 e o Parecer Nª 22.2025.SIET.1668772.2025.001317 encontram-se disponíveis no Portal do MPAM, no seguinte
Sistema	11/07/2025 às 10:44:40	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	11/07/2025 às 10:46:44	Senhores, considerando os resultados das análises apresentados nos pareceres, informo o seguinte:
Sistema	11/07/2025 às 11:18:42	a) para saneamento das pendências apontadas nos pareceres, as licitantes serão convocadas para envio de documentos que comprovem o atendimento às exigências apontadas.
Sistema	11/07/2025 às 11:19:44	Assim, em breve convocarei as licitantes no sistema. Solicito atenção aos interessados.
Sistema	11/07/2025 às 11:25:58	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	11/07/2025 às 14:23:53	Senhores, boa tarde.
Sistema	11/07/2025 às 14:25:25	Considerando o envio dos documentos solicitados referentes ao Item 2 por parte do Licitante E.R. SOLUCOES INFORMATICA LTDA. e sendo os mesmos suficientes para o pleno atendimento da solicitação, informo que:

Termo Homologação PNCP - ITEM 4 (1682198) SEI 2025.001317 / pg. 60

Responsável	Data/Hora	Mensagem
Sistema	11/07/2025 às 14:27:08	Este Pregoeiro decide pela Aceitação da proposta de preços do licitante E.R. SOLUCOES INFORMATICA LTDA. para o Item 2, pelo pleno atendimento às exigências técnicas e formais do Edital, referentes à proposta e em conformidade ao Parecer Nª 21.2025.SIET.1668662.2025.001317.
Sistema	11/07/2025 às 16:52:49	Prezados, recebidos os documentos referente ao Item 3, informo que os mesmos serão encaminhados para análise do setor técnico competente.
Sistema	11/07/2025 às 16:54:57	Considerando a hora avançada, encerraremos os trabalhos por hoje, retornando na segunda-feira (14/07/2025), a partir das 11h (horário de Brasília), para continuação dos trabalhos.
Sistema	11/07/2025 às 16:55:26	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 16:55:54	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	14/07/2025 às 11:15:08	Prezados Licitantes, bom dia.
Sistema	14/07/2025 às 11:45:13	Senhores, considerando os documentos de Habilitação apresentados pelo Licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, informo que os mesmos atendem a todas as exigências estabelecidas no instrumento convocatório.
Sistema	14/07/2025 às 11:45:42	Nesse sentido, este Pregoeiro decide pela HABILITAÇÃO do licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47.
Sistema	14/07/2025 às 12:02:53	Senhores, em breve estarei habilitando a licitante no próprio sistema. Solicito atenção.
Sistema	14/07/2025 às 15:26:33	Prezados Licitantes, recebidos os documentos apresentados pelo licitante POSITIVO TECNOLOGIA S/A (FILIAL), referente ao Item 3, em resposta às solicitações constantes do Ofício Nª 256.2025.CPL.1667127.2025.001317, informo o seguinte:
Sistema	14/07/2025 às 15:29:43	Senhores, apenas retificando, as solicitações constam do Parecer Nª 22.2025.SIET.1668772.2025.001317 e não do Ofício Nª 256.2025.CPL.1667127.2025.001317.
Sistema	14/07/2025 às 15:31:35	O setor técnico, através do PARECER Nª 22.2025.SIET.1668772.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:40:50	Senhores, retificando, o setor técnico, através do PARECER Nª 25.2025.SIET.1671649.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:42:58	3. Conclusão - Não sendo possível constatar os pontos controversos, e não sendo atendido a solicitação para que o licitante, em sua proposta, declare expressamente que a garantia abrange acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.
Sistema	14/07/2025 às 15:43:42	Informo que o referido PARECER Nª 25.2025.SIET.1671649.2025.001317 encontra-se disponível no Portal do MPAM, no seguinte endereço:
Sistema	14/07/2025 às 15:44:09	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	14/07/2025 às 15:46:55	Prezados, considerando o Parecer Nª 25.2025.SIET.1671649.2025.001317 e o subitem 10.7.1. c/c 10.3.5. do Edital, informo que a proposta do licitante POSITIVO TECNOLOGIA S/A, CNPJ Nª. 81.243.735/0001-48 para o Item 3 será desclassificada.
Sistema	14/07/2025 às 15:47:58	Na oportunidade, informo que será convocado novo licitante para envio de proposta para o Item 3, nos termos do subitem 10.11 e 9.1. do Edital. Solicito atenção.
Sistema	15/07/2025 às 13:57:49	Prezados, boa tarde. Informo que amanhã (16/07/2025) retornaremos aos trabalhos deste certame, a partir das 14h (horário Brasília).
Sistema	15/07/2025 às 13:58:06	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	16/07/2025 às 14:04:53	Prezados Licitantes, boa tarde.
Sistema	16/07/2025 às 14:05:31	Retornamos aos trabalhos deste certame considerando a convocação do licitante HOUSE LTDA, CNPJ 35.689.930/0001-89 para envio de proposta ajustada ao lance para o Item 3.

Termo Homologação PNCP - ITEM 4 (1682198) SEI 2025.001317 / pg. 61

Responsável	Data/Hora	Mensagem
Sistema	16/07/2025 às 14:07:35	A proposta não foi encaminhada, portanto, a proposta da licitante será recusada em conformidade ao subitem 9.11 c/c subitem 10.3.5 do Edital.
Sistema	16/07/2025 às 14:08:10	Na sequência, será convocado novo licitante para envio de proposta para o Item 3. Solicito atenção aos interessados.
Sistema	16/07/2025 às 14:11:08	Estando o licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	16/07/2025 às 18:28:03	Prezados, encerraremos os trabalhos por hoje, retornando amanhã (17/07/2025), a partir das 11h (horário Brasília).
Sistema	16/07/2025 às 18:28:12	Aguardo a todos no dia e hora aqui agendados.
Sistema	17/07/2025 às 11:21:56	Prezados Licitantes, bom dia.
Sistema	17/07/2025 às 11:23:36	Prezados, retornamos aos trabalhos deste certame considerando o não envio de proposta de preços ajustada ao lance, por parte da licitante HOUSE LTDA. para o Item 3.
Sistema	17/07/2025 às 11:39:17	Perdão senhores, retificando, a última licitante convocada e que não enviou proposta para o Item 3 foi a empresa MR COMERCIO DE PECAS E ACESSORIOS LTDA, CNPJ 20.380.331/0001-01.
Sistema	17/07/2025 às 11:40:12	Assim, informo que a proposta da licitante será recusada e convocado novo licitante para envio de proposta ajustada para o item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 11:46:27	Prezados, antes da convocação de novo licitante, passaremos ao procedimento de desempate ficto entre licitantes.
Sistema	17/07/2025 às 11:46:37	Solicito atenção às interessadas. Obrigado!
Sistema	17/07/2025 às 11:59:22	Prezados, encerrado o desempate e mantida a classificação, informo que o novo licitante será convocado para envio de proposta ajustada ao lance para o Item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 12:05:01	Estando a licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	17/07/2025 às 12:16:20	Prezado, acolho a solicitação visto que a solicitação foi realizada na hora do almoço.
Sistema	18/07/2025 às 10:27:40	Prezados Licitantes, informo que tivemos problemas de conexão no sistema no dia de ontem e que retornaremos aos trabalhos deste certame na segunda feira (21/07/2025) , a partir das 10h (horário Brasília).
Sistema	18/07/2025 às 10:27:51	Aguardo a todos no dia e hora aqui agendados.
Sistema	18/07/2025 às 10:28:02	Um bom dia e um excelente fim de semana a todos.
Sistema	21/07/2025 às 10:54:36	Prezados, bom dia.
Sistema	21/07/2025 às 10:55:20	Infelizmente não foi possível reabrir no horário agendado por questões de problemas de conexão, já resolvidos.
Sistema	21/07/2025 às 10:56:02	Assim, informo que às 11h (Horário Brasília), retomaremos os trabalhos. Solicito atenção. Obrigado!
Sistema	21/07/2025 às 11:13:15	Senhores, considerando a solicitação de envio da licitante de apenas 1 (um) documento, informo que será solicitado a título de documento complementar (subitem 10.9) Edital.
Sistema	21/07/2025 às 11:13:24	Solicito atenção à interessada.
Sistema	21/07/2025 às 13:22:53	Prezados, recebidos os documentos, informo os mesmos serão encaminhados para o setor técnico para análise e manifestação.
Sistema	21/07/2025 às 13:23:36	Nesse sentido, informo que encerraremos os trabalhos por hoje, retornando em data posterior devidamente informado através desse chat e em tempo hábil para o acompanhamento de todos os interessados.
Sistema	21/07/2025 às 13:24:07	Agradeço a atenção de todos e finalizo desejando-lhes uma excelente semana.
Sistema	25/07/2025 às 10:24:29	Prezados, informo que retornaremos aos trabalhos deste certame segunda-feira (28/07/2025), a partir das 10h (horário Brasília).

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - Bairro Nova Esperança - CEP 69037-473 - Manaus - AM - www.mpam.mp.br

ATA DE REGISTRO DE PREÇO Nº 13.2025.CPL.1679330.2025.001317

PREGÃO ELETRÔNICO N.° 94.010/2025-CPL/MP/PGJ-SRP
PROCEDIMENTO INTERNO N.º 2025.001317

Pelo presente instrumento, o **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS**, órgão gerenciador deste Registro de Preços, situado na Avenida Coronel Teixeira, n.º 7995, Bairro Nova Esperança, CEP: 69037-473, representado neste ato por seu Subprocurador-Geral de Justiça para Assuntos Administrativos, Dr. **ANDRÉ VIRGÍLIO BELOTA SEFFAIR** , inscrito no CPF sob nº 590.287.772-53, portador da Identidade Funcional nº 239 PGJ/AM, residente e domiciliado nesta Capital, e a empresa **E.R. SOLUCOES INFORMATICA LTDA.** , inscrita no CNPJ N.º 05.778.325/0005-47, DORAVANTE denominada **FORNECEDORA**, firmam a presente **ATA DE REGISTRO DE PREÇOS** , mediante as cláusulas e condições a seguir estabelecidas:

CLÁUSULA PRIMEIRA – DO OBJETO

A presente Ata tem por objeto registrar os preços das empresas vencedoras do certame licitatório referente ao **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ-SRP**, na modalidade de Sistema de Registro de Preços, para *fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses*, conforme as especificações mínimas e os quantitativos constantes do Edital do cotejo em epígrafe, descritos e qualificados na forma de seu Anexo.

I. Eis os itens registrados em favor da Fornecedora:

E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.º 05.778.325/0005-47

ITEM 1 - COMPUTADOR TIPO 1 - “ALL IN ONE COM MONITOR AUXILIAR”.

Quantidade registrada: 1000 (um mil) unidades.

Marca/Modelo: LENOVO TC TINY-IN-ONE 23.8" TIO24 GEN 5.

Valor Unitário do Item: R$ 9.880,00 (*nove mil oitocentos e oitenta reais*).

ITEM 2 - COMPUTADOR TIPO 2 - “WORKSTATION COM MONITOR”.

Quantidade registrada: 50 (cinquenta) unidades.

Marca/Modelo: LENOVO THINKSTATION P3 TW.

Valor Unitário do Item: R$ 20.300,00 (*vinte mil e trezentos reais*).

ITEM 4 - COMPUTADOR TIPO 4 - "WORKSTATION MÓVEL".

Quantidade registrada: 20 (vinte) unidades

Marca/Modelo: THINKPAD P16v GEN 2 (INTEL).

Valor Unitário do Item: R$ 16.990,00 (*dezesseis mil novecentos e noventa reais*).

CLÁUSULA SEGUNDA – DA VALIDADE DA ATA

A presente **Ata de Registro de Preços terá validade de 12 (doze) meses**, contados a partir de sua publicação no Portal Nacional das Contratações Públicas - PNCP.

Subcláusula Primeira. O prazo de vigência da ata de registro de preços poderá ser prorrogado, por igual período de 12 (doze) meses, desde que comprovado o preço vantajoso.

Subcláusula Segunda. Durante o prazo de validade desta Ata de Registro de Preço, o MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS não será obrigado a firmar as contratações que dela poderão advir, facultando-se-lhe a realização de licitação específica para a aquisição pretendida, sendo assegurado ao beneficiário do registro preferência de fornecimento em igualdade de condições.

CLÁUSULA TERCEIRA – DA UTILIZAÇÃO DA ATA DE REGISTRO DE PREÇOS

A presente Ata de Registro de Preço poderá ser usada por todos os órgãos da Administração Pública, desde que autorizados pelo **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS**.

Subcláusula Primeira. O preço ofertado pela(s) empresa(s) signatária(s) da presente Ata de Registro de Preços é o especificado nesta Ata.

Subcláusula Segunda. Em cada fornecimento decorrente desta Ata, serão observadas, quanto ao preço, as cláusulas e condições constantes do Edital referente a mesma.

Subcláusula Terceira. Em cada fornecimento, o preço unitário a ser pago será o constante da proposta apresentada pelas empresas detentoras da presente Ata, as quais também a integram.

CLÁUSULA QUARTA – DA CLASSIFICAÇÃO DAS PROPOSTAS

A ordem de classificação dos licitantes observará suas propostas finais ofertadas durante o certame, conforme exposto na Ata da Sessão, para fins de formação de cadastro de reserva no caso de impossibilidade de atendimento pelo primeiro colocado da ata.

CLÁUSULA QUINTA – DO FORNECIMENTO E EXECUÇÃO

A FORNECEDORA deverá efetuar a entrega do objeto contratado dentro do prazo e de acordo com as especificações constantes do Edital da licitação e deste Instrumento, observando estreitamente as prescrições e as recomendações do fabricante, a legislação estadual ou municipal, se houver, bem como outras normas correlatas, ainda que não estejam explicitamente aqui citadas.

Subcláusula Primeira. Os materiais deverão ser industrializados, de primeiro uso, novos, sem qualquer vício ou avaria, entregues acondicionados adequadamente em suas embalagens originais lacradas, acompanhados de guias e manuais de utilização, se for o caso, com garantia do fabricante, devendo, se for o caso, constar em suas embalagens suas respectivas especificações, sob pena de ser recusado.

Subcláusula Segunda. Responsabilizar-se pelo transporte dos produtos, desde o local da embalagem até a sua entrega no horário e endereço indicados pela ADQUIRENTE.

Subcláusula Terceira. Apresentar justificativa por escrito, devidamente comprovada, nos casos de ocorrência de fato superveniente, excepcional ou imprevisível, estranho à vontade das partes, e de impedimento de execução por fato ou ato de terceiro reconhecido pela ADQUIRENTE em documento contemporâneo a sua ocorrência, quando não puder cumprir os prazos estipulados para a execução, total ou parcial, do objeto.

Subcláusula Quarta. Aceitar todas as decisões, métodos de inspeção, verificação e controle, obrigando-se a fornecer todos os dados, elementos e explicações que o MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS julgar necessário.

Subcláusula Quinta. Manter, durante toda a execução da Ata de Registro de Preços, em compatibilidade com as obrigações assumidas, todas as condições de habilitação e qualificação exigidas na licitação.

Subcláusula Sexta. A empresa vencedora, quando da solicitação do material, deverá retirar a nota de empenho no prazo de 5 (cinco) dias úteis a contar da comunicação efetivada, **sob pena de decair o direito à contratação.**

I - Como condição inafastável para que seja emitida Nota de Empenho à Fornecedora, esta deverá, também, estar cadastrada junto ao **SISTEMA DE ADMINISTRAÇÃO FINANCEIRA E CONTABILIDADE – CADASTRAMENTO DE CREDORES – da SECRETARIA DA FAZENDO DO ESTADO DO AMAZONAS – SEFAZ.**

II - Como condição para emissão da nota de empenho a licitante vencedora deverá manter as mesmas condições de habilitação, cuja confirmação será feita através de consulta ao SICAF ou através da internet nos respectivos sites dos órgãos emissores das certidões de regularidade fiscal.

III - O prazo de convocação poderá ser prorrogado uma vez, por igual período, quando solicitado pela vencedora durante o seu transcurso, desde que ocorra motivo justificado e aceito pela Administração.

IV - Se a licitante vencedora não apresentar situação de regularidade documental, no ato da emissão da nota de empenho, ou recusar-se injustificadamente a receber a nota de empenho no prazo estabelecido, os demais licitantes serão convocados para celebrar o contrato, observada a ordem de classificação, e assim sucessivamente, sem prejuízo da aplicação das sanções cabíveis.

Subcláusula Sétima. Alternativamente à convocação para comparecer perante o órgão ou entidade para a assinatura do Termo de Contrato ou aceite do instrumento equivalente, a Administração poderá encaminhá-lo para assinatura ou aceite da

Adjudicatária, mediante correspondência eletrônica no e-mail constante da proposta, para que seja assinado eletronicamente pelo Sistema SEI ou aceito no prazo de 05 (cinco) dias, a contar da data de seu recebimento.

CLÁUSULA SEXTA – DA ENTREGA E DO RECEBIMENTO

As solicitações do material serão efetuadas pela **DIRETORIA DE TECNOLOGIA DE INFORMAÇÃO E COMUNICAÇÃO - DTIC**, mediante Nota de Autorização de Fornecimento, ou documento equivalente, disponibilizada e enviada, preferencialmente de forma eletrônica, à FORNECEDORA, devendo ser assinada eletronicamente via Sistema SEI por funcionário/representante da FORNECEDORA. As autorizações de fornecimento para a prestação dos serviços objeto do contrato serão expedidas conforme necessidade da ADQUIRENTE.

Subcláusula Primeira. O material solicitado deverá ser entregue **n o prazo máximo de 90 (noventa) dias corridos**, contados a partir do recebimento da autorização de fornecimento de materiais e serviços ou a partir da aprovação da amostra, conforme o caso.

Subcláusula Segunda. O recebimento dos produtos será realizado pelo **SETOR DE PATRIMÔNIO E MATERIAL - SPAT** , na forma prevista no art. 140 da Lei nº 14.133/2021, mediante Nota de Entrega ou documento equivalente, que deverá conter apenas os materiais e/ou serviços nas quantidades efetivamente solicitadas e entregues, observando-se as disposições constantes do item 5 e 10 do TERMO DE REFERÊNCIA Nº 2.2025.DTIC.1525128.2025.001317

Subcláusula Terceira. O RECEBIMENTO PROVISÓRIO dos materiais não constitui aceitação deles.

Subcláusula Quarta. AO RECEBIMENTO PROVISÓRIO ou DEFINITIVO do objeto não exclui a responsabilidade civil a ele relativa, nem a ético-profissional, pela perfeita execução do objeto desta Ata.

Subcláusula Quinta. A descoberta de defeitos, falhas ou imperfeições ocultas que impeçam ou reduzam a usabilidade dos materiais, verificados após o seu pagamento, implicará na obrigação da FORNECEDORA de substituí-los/refazê-los no prazo máximo de 3 (três) dias corridos a contar da comunicação pela ADQUIRENTE.

Subcláusula Sexta. A FORNECEDORA será responsável pelo transporte dos produtos, desde o local de sua fabricação/embalagem, conforme o caso, até o local de sua entrega, em dias úteis, no horário das 9h00 às 15h00 (horário de Brasília), no seguinte endereço: **Av. Coronel Teixeira, n.º 7.995 – Nova Esperança, CEP. 69037- 473 / Manaus-AM.**

Subcláusula Sétima. A entrega dos materiais deverá ser previamente agendada com o **SETOR DE PATRIMÔNIO E MATERIAL – SPAT, pelo telefone (92) 3655-0766 ou e-mail** *material@mpam.mp.br*.

Subcláusula Oitava. A FORNECEDORA ficará obrigado a atender a todos os pedidos efetuados durante a vigência desta ata, mesmo se a entrega deles decorrente estiver prevista para data posterior a do seu vencimento.

Subcláusula Nona. A FORNECEDORA deverá, obrigatoriamente, entregar a totalidade do produto solicitado, não sendo admitido o parcelamento, sob pena das sanções legais cabíveis, acompanhados dos manuais correspondentes e termos de garantia, quando necessário.

Subcláusula Décima. O não cumprimento do prazo de entrega poderá caracterizar inexecução contratual, parcial ou total, e acarretar a aplicação de sanções administrativas previstas em Edital.

Subcláusula Onze. Não será obrigação da ADQUIRENTE aguardar mais demandas para agrupar solicitações de mais de uma unidade nos processos de compra.

CLÁUSULA SÉTIMA – DO PAGAMENTO

O pagamento devido à CONTRATADA será creditado em conta-corrente por meio de ordem bancária, efetuado mediante apresentação de nota fiscal/fatura atestada e visada pelos órgãos de fiscalização e acompanhamento do fornecimento do material, no prazo não superior a trinta dias, contados a partir do atesto da Administração na fatura apresentada.

I – A respectiva nota fiscal/fatura dos produtos, emitidas em conformidade com o Protocolo ICMS 42/2009 (NF-e), deverá estar devidamente discriminada, em nome da **PROCURADORIA-GERAL DE JUSTIÇA, CNPJ n.º 04.153.748/0001-85**, e acompanhada das respectivas Certidões Negativas de Débito para com a Seguridade Social, para com o Fundo de Garantia por Tempo de Serviço, e ainda, Certidão Negativa de Débito Trabalhista, Certidão de regularidade junto a Fazenda Federal, Estadual e Municipal;

II – Nenhum pagamento será efetuado à CONTRATADA enquanto pendente de liquidação qualquer obrigação financeira que lhe for imposta, em virtude de penalidade ou inadimplência.

Subcláusula Primeira. Qualquer atraso ocorrido na apresentação da nota fiscal/fatura, ou dos documentos exigidos como condição de pagamento por parte da CONTRATADA, importará em prorrogação automática do prazo de vencimento da obrigação do Contratante.

Subcláusula Segunda. Nenhum pagamento isentará o fornecedor das responsabilidades atinentes ao produto, nem tampouco implicará a aprovação definitiva da entrega, total ou parcialmente.

Subcláusula Terceira. Nos casos de eventuais atrasos de pagamento, desde que a CONTRATADA não tenha concorrido de alguma forma para tanto, fica convencionado que os encargos moratórios devidos pela CONTRATANTE, entre a data de vencimento e a do dia do efetivo pagamento da Fatura/Nota Fiscal, a serem incluídos na fatura do mês seguinte ao da ocorrência, serão calculados por meio da aplicação da seguinte fórmula:

EM = I x N x VP, onde:

EM = Encargos moratórios;

N = Número de dias entre a data prevista para o pagamento e a do efetivo pagamento;

VP = Valor da parcela em atraso.

I = Índice de compensação financeira = 0,00016438, assim apurado:

$$I = \frac{i}{365} = I = \frac{6/100}{365} = I = 0,00016438$$

Onde i = taxa percentual anual no valor de 6%”.

Subcláusula Quarta. Nenhum pagamento será efetivado sem que a área solicitante, emita o Termo de Recebimento Definitivo e ateste que o objeto

contratado está integralmente sendo entregue/disponibilizado pela FORNECEDORA.

CLÁUSULA OITAVA – DAS PENALIDADES

Se a FORNECEDORA, sem justa causa, não cumprir as obrigações assumidas ou infringir preceitos legais, serão aplicadas as **sanções previstas no TERMO DE REFERÊNCIA Nº 2.2025.DTIC.1525128.2025.001317 e no Edital da Licitação**, segundo a gravidade da falta, observando-se os limites estabelecidos no **item 22.4 do instrumento convocatório.**

Subcláusula Primeira. A inexecução total ou parcial do contrato enseja a sua rescisão pelos motivos legais.

Subcláusula Segunda. Caso a multa aplicada seja superior ao valor da garantia prestada, além da perda desta, responderá a FORNECEDORA pela sua diferença, a qual será descontada dos pagamentos eventualmente devidos pelo MPAM ou ainda, quando for o caso, cobrada judicialmente.

Subcláusula Terceira. O Ministério Público do Estado do Amazonas poderá cobrar o valor remanescente judicialmente, conforme artigo 419 do Código Civil, quando o valor da multa não for suficiente para cobrir os prejuízos causados pela conduta da FORNECEDORA.

Subcláusula Quarta. Se, durante o processo de aplicação de penalidade, houver indícios de prática de infração administrativa tipificada pela Lei nº 12.846, de 1º de agosto de 2013, como ato lesivo à Administração Pública nacional ou estrangeira, cópias do processo administrativo necessárias à apuração da responsabilidade da empresa deverão ser remetidas à autoridade competente, com despacho fundamentado, para ciência e decisão sobre a eventual instauração de investigação preliminar ou Processo Administrativo de Responsabilização – PAR.

Subcláusula Quinta. A apuração e o julgamento das demais infrações administrativas não consideradas como ato lesivo à Administração Pública nacional ou estrangeira nos termos da Lei nº 12.846, de 1º de agosto de 2013, seguirão seu rito normal na unidade administrativa.

Subcláusula Sexta. O processamento do PAR não interfere no seguimento regular dos processos administrativos específicos para apuração da ocorrência de danos e prejuízos à Administração Pública Estadual resultantes de ato lesivo cometido por pessoa jurídica, com ou sem a participação de agente público.

CLÁUSULA NONA – DO REEQUILÍBRIO CONTRATUAL

Subcláusula Primeira. O preço registrado poderá ser revisto em decorrência de eventual redução daqueles praticados no mercado, ou de fato que eleve o custo dos serviços ou bens registrados, cabendo ao órgão gerenciador promover as necessárias negociações junto aos fornecedores ou, se houver, após a data da apresentação da proposta, criação, alteração ou extinção de quaisquer tributos ou encargos legais ou a superveniência de disposições legais, com comprovada repercussão sobre os preços contratados.

Subcláusula Segunda. Quando o preço inicialmente registrado, por motivo superveniente, tornar-se superior ao praticado no mercado, o órgão gerenciador deverá:

a) convocar o fornecedor visando a negociação para redução de preços e sua adequação ao praticado no mercado; frustrada a negociação, o fornecedor será liberado do compromisso assumido;

b) convocar os demais fornecedores, visando igual oportunidade de negociação.

Subcláusula Terceira. Quando o preço de mercado torna-se superior aos preços registrados e o fornecedor, mediante requerimento devidamente comprovado, não puder cumprir o compromisso, o órgão gerenciador poderá:

a) liberar o fornecedor do compromisso assumido, sem aplicação da penalidade, confirmado a veracidade dos motivos e comprovantes apresentados, e se a comunicação ocorrer antes do pedido de fornecimento; e

b) convocar os demais fornecedores, visando igual oportunidade de negociação.

Subcláusula Quarta. Não havendo êxito nas negociações, o órgão gerenciador deverá proceder à revogação da Ata de Registro de Preços, adotando as medidas cabíveis para a obtenção da contratação mais vantajosa.

CLÁUSULA DEZ – DO REAJUSTE DOS PREÇOS

O(s) preço(s) registrado(s) nesta Ata somente poderá(ão) ser alterado(s) nos casos de prorrogação da ata de registro de preços, ocasião em que haverá o REAJUSTE com base no IPCA acumulado.

CLÁUSULA ONZE – DA FISCALIZAÇÃO

O Ordenador de Despesas delega competência a servidor responsável pela **DIRETORIA DE TECNOLOGIA DA INFORMAÇÃO E COMUNICAÇÃO - DTIC da PROCURADORIA GERAL DE JUSTIÇA**, para solicitar a aquisição do objeto ora registrado e fiscalizar a execução desta Ata de Registro de Preços.

CLÁUSULA DOZE – DOS DIREITOS E DAS OBRIGAÇÕES

Subcláusula Primeira. Compete ao órgão gerenciador:

a) Acompanhar e fiscalizar, como lhe aprouver e no seu exclusivo interesse, na forma prevista na Lei nº 14.133, de 1º de abril de 2021, que dispõe sobre a Lei de Licitações e Contratos Administrativos, o exato cumprimento das obrigações previstas neste Termo.

b) Designar servidor qualificado para acompanhar a(s) entrega(s) do objeto e o cumprimento dos termos contratuais, editalícios e seus anexos;

c) Registrar e notificar o fornecedor, por escrito, a ocorrência de eventuais imperfeições, defeitos, vícios, vencimento do produto, fixando prazo para a sua substituição;

d) Rejeitar, no todo ou em parte, os produtos entregues em desacordo com as especificações deste Termo;

e) Efetuar regularmente o pagamento à Contratada, dentro dos critérios estabelecidos neste Termo, após o cumprimento das formalidades legais, por meio de Ordem Bancária, após o “atesto” das notas fiscais, bem como da apresentação pela Contratada dos demais documentos exigidos para tal fim (requerimento de pagamento, recibo de pagamento, certidões: Federal, Estadual, Municipal, Trabalhista e FGTS).

Subcláusula Segunda. Compete às Entidades Participantes destinatários:

a) Requisitar o fornecimento de materiais cujos preços encontram-se registrados nesta Ata.

b) Emitir Nota de Empenho a crédito do fornecedor no valor total correspondente a quantidade de material solicitado.

c) Elaborar termo contratual, quando necessário nas situações previstas em Lei.

d) Efetuar o pagamento referente a aquisição do material nos termos previstos no edital da Licitação de Registro de Preços.

Subcláusula Terceira. Compete à FORNECEDORA, além daquelas previstas no subitem 7.1 do TERMO DE REFERÊNCIA Nº 2.2025.DTIC.1525128.2025.001317, Anexo I:

a) Fornecer durante 12 (doze) meses, a contar da publicação do extrato desta Ata na Imprensa Oficial, os itens relacionados na presente Ata, na forma e condições fixadas no Edital e na proposta, mediante autorização e Nota de Empenho, devidamente assinada pelo responsável, em conformidade com o Edital e demais informações constantes da Licitação de Registro de Preços.

b) Retirar a Nota de Empenho no prazo de até 05 (cinco) dias úteis, contados da intimação para recebimento, nos termos do Edital, parte integrante desta Ata de Registro de Preços.

c) Entregar os materiais no local previsto no instrumento convocatório, de acordo com os termos do Edital.

d) Providenciar a imediata correção das deficiências, falhas ou irregularidades constatadas pelos órgãos e entidades referentes à forma de fornecimento dos materiais e ao cumprimento das demais obrigações assumidas nesta Ata.

e) Em havendo necessidade, assente no que preceitua o art. 124, I, c/c Art. 125 da Lei Federal nº 14.133, de 1 de abril de 2.021, aceitar os acréscimos ou supressões nos quantitativos que se fizerem indispensáveis, sempre nas mesmas condições registradas.

f) Ressarcir os prejuízos causados ao Estado do Amazonas ou a terceiros, provocados por ineficiência ou irregularidade cometidas na execução das obrigações assumidas na presente Ata;

g) Cumprir as obrigações descritas no Edital e seus Anexos.

CLÁUSULA TREZE – DO CANCELAMENTO DA ATA E REGISTRO DE PREÇOS

Esta Ata de Registro de Preços poderá ser cancelada, de pleno direito:

I - Pela Administração, quando:

a) a detentora não cumprir as obrigações constantes desta Ata de Registro de Preços;

b) a detentora não assinar o contrato no prazo estabelecido e a Administração não aceitar sua justificativa;

c) a detentora der causa a rescisão administrativa de contrato decorrente de registro de preços;

d) em qualquer das hipóteses de inexecução total ou parcial de contrato decorrente do registro de preços;

e) os preços registrados se apresentarem superiores aos praticados no mercado;

f) por razões de interesse público devidamente demonstradas e justificadas pela Administração;

II - Pelas detentoras, quando, mediante solicitação por escrito, comprovarem estar impossibilitadas de cumprir as exigências desta Ata de Registro de Preços.

Subcláusula Primeira. A solicitação das detentoras para cancelamento dos preços registrados deverá ser dirigida ao FISCAL da Ata de Registro de Preços ou à COMISSÃO PEMANENTE DE LICITAÇÃO por meio do endereço eletrônico protocolo@mpam.mp.br.

Subcláusula Segunda. A comunicação do cancelamento do preço registrado, nos casos previstos neste documento e, a oportunização do contraditório e ampla defesa, serão feitos por correio eletrônico (preferencialmente) nos endereços de e-mails constantes da Proposta de Preços e SICAF ou por correspondência com aviso de recebimento ou, ainda, por meio de entrega pelo Setor de Transportes (no caso de empresa sediada no mesmo município da Contratante), juntando-se o comprovante aos autos que deram origem ao registro de preços.

Subcláusula Terceira. No caso de ser ignorado, incerto ou inacessível o endereço da detentora, a comunicação será feita por publicação na IMPRENSA OFICIAL, considerando-se cancelado o preço registrado após a publicação.

CLÁUSULA CATORZE - DA POSSIBILIDADE DE ADESÃO POR ÓGÃOS OU ENTIDADES NÃO PARTICIPANTES

Subcláusula Primeira. Esta Ata de Registro de Preços poderá, durante sua vigência, ser utilizada por outros órgãos ou entidades da Administração Pública que não tenham participado do processo licitatório, desde que:

a) exista solicitação formal do órgão ou entidade não participante;

b) haja anuência do órgão gerenciador e do fornecedor registrado quanto à possibilidade de atendimento da demanda adicional;

c) seja demonstrada, de forma justificada, a vantagem da adesão;

d) sejam observados os limites e condições previstos no edital e na legislação aplicável.

Subcláusula Segunda. A adesão dar-se-á em caráter **excepcional e pontual**, sendo **vedada sua utilização como instrumento de suprimento contínuo ao longo do exercício financeiro**, sob pena de descaracterização da finalidade do sistema de registro de preços.

Subcláusula Terceira. A contar da data da autorização formal para adesão, o órgão ou entidade solicitante disporá do prazo **improrrogável de 90 (noventa) dias corridos** para concluir o respectivo processo de contratação, com a formalização do instrumento contratual ou equivalente.

a) O não cumprimento do prazo referido nesta subclásula implicará a **automática perda do direito à adesão**, tornando sem efeito a autorização concedida e autorizando o órgão gerenciador a dispor dos quantitativos eventualmente reservados.

b) A reiteração de pedidos de adesão não concluídos no prazo estabelecido poderá ensejar o indeferimento de futuras solicitações do mesmo órgão ou entidade, sem prejuízo da comunicação aos órgãos de controle.

Subcláusula Quarta. As contratações decorrentes de adesão deverão observar integralmente as condições pactuadas nesta Ata de Registro de Preços, inclusive no que se refere a preços, prazos, especificações, obrigações, penalidades e vigência.

Subcláusula Quinta. O órgão ou entidade aderente será responsável pela

condução do respectivo processo de contratação, pela execução contratual e pela aplicação de sanções administrativas, nos termos da legislação vigente.

Subcláusula Sexta. É vedada ao órgão ou entidade não participante a modificação unilateral das condições constantes nesta Ata, salvo nas hipóteses previstas em lei e com a concordância expressa do fornecedor.

CLÁUSULA QUINZE - DA AUTORIZAÇÃO PARA AQUISIÇÃO E EMISSÃO DAS ORDENS DE FORNECIMENTO

As aquisições do objeto da presente Ata de Registro de Preços serão autorizadas, caso a caso, pelo(a) Ordenador(a) de Despesas do **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS.**

Subcláusula Primeira. A emissão das autorizações de fornecimento, sua retificação ou cancelamento, total ou parcial serão igualmente autorizados pelo órgão requisitante.

Subcláusula Segunda. Durante o prazo de validade do Registro de Preços, o **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS** poderá ou não contratar o objeto deste pregão;

CLÁUSULA DEZESSEIS – DAS DISPOSIÇÕES FINAIS E DO FORO:

Subcláusula Primeira: Integram esta Ata, o Edital do **Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ-SRP** e as propostas da Fornecedora.

Subcláusula Segunda: Durante a vigência da Ata de Registro de Preços, os preços deverão ser compatíveis com a conjuntura do mercado.

Subcláusula Terceira: Os pedidos de alteração de marcas e/ou modelo do objeto registrado deverão ser protocolados em até **5 (cinco) dias do recebimento da Nota de Empenho**, com a devida documentação comprobatória dos fatos alegados, sob pena de não apreciação dos pedidos por inépcia.

Subcláusula Quarta: Fica eleito o Foro da Cidade de Manaus/AM para dirimir quaisquer questões decorrentes da utilização da presente ata.

Subcláusula Quinta: Os casos omissos serão resolvidos de acordo com as disposições constantes do Ato n.º 008/2024/PGJ e da Lei 14.133/2021, e das demais normas legais aplicáveis.

Manaus (AM), 23 de Julho de 2025.

Technical Specifications

2. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.
3. Processor speed denotes maximum performance mode; processors will run at lower speeds in battery optimization mode.
4. Intel® Turbo Boost performance varies depending on hardware, software and overall system configuration. See www.intel.com/technology/turboboost for more information.
5.In accordance with Microsoft's support policy, HP does not support the Windows 8 or Windows 7 operating system on products configured with Intel and AMD 7th generation and forward processors or provide any Windows 8 or Windows 7 drivers on http://www.support.hp.com
6. Intel vPro® requires Windows 10 Pro 64 bit or higher, a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of vPro® Essentials and Enterprise vary. See http://intel.com/vpro
7. Features and software that require a NPU may require software purchase, subscription or enablement by a software or platform provider, and third party software may have specific configuration or compatibility requirements. Performance varies by use, configuration, and other factors.

GRAPHICS

Integrated
Intel® ARC Graphics [8]
Intel® Graphics

Discrete
GeForce RTX 2050 (US only)

Supports
UMA: Support HDMI 2.1 [9]

Hardware acceleration for CODEC H.265/HEVC (High Efficiency Video Coding) is disabled on this platform.

8. Intel® ARC™ graphics only available on select Intel® Core™Ultra H-series processor-powered systems with at least 16GB of system memory in dual channel configuration.
9. HDMI cable sold separately.

DISPLAY

Non-Touch
35.6 cm (14") diagonal, WUXGA (1920 x 1200), Bent, LCD, UWVA, anti-glare, WLED, 300 nits, NTSC 45% [10,11]
35.6 cm (14") diagonal, WUXGA (1920 x 1200), Bent, LCD, UWVA, anti-glare, WLED + Low Blue Light, 400 nits, low power, sRGB 100% [10,11]
35.6 cm (14") diagonal, WUXGA (1920 x 1200), Bent, LCD, UWVA, anti-glare, WLED + Low Blue Light, 1000 nits, sRGB 100%, HP Sure View reflect integrated privacy screen [10,11,12,13]

Touch
35.6 cm (14") diagonal, WUXGA (1920 x 1200), Bent, LCD, touch, UWVA, anti-glare, LED, 300 nits, NTSC 45% [10,11,13]

Proposta de Preço ITEM 3 - SUPRIMENTOS DE IMPRESSÃO (1879359) - SEI 2025.001317 / pg. 106

Technical Specifications

STORAGE AND DRIVES

Primary Storage
2 TB PCIe® Gen4x4 NVMe™ SSD Three Layer Cell [14]
1 TB PCIe® Gen4x4 NVMe™ SSD Three Layer Cell [14]
1 TB PCIe® Gen4x4 NVMe™ Self Encrypted OPAL2 Three Layer Cell [14]
512 GB PCIe® Gen4x4 NVMe™ Self Encrypted OPAL2 SSD Three Layer Cell [14]
512 GB PCIe® Gen4x4 NVMe™ SSD Three Layer Cell [14]
512 GB PCIe® NVMe™ SSD Value [14]
256 GB PCIe® NVMe™ Self Encrypted OPAL2 SSD Value [14]
256 GB PCIe® NVMe™ SSD Value [14]

14. For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30GB of disk is reserved for system recovery software.

MEMORY

Maximum Memory
64GB DDR5-5600 MT/s (2 x 32 GB) RAM [15]

Memory
64GB DDR5-5600 (2 x 32 GB) MT/s RAM [15]
32GB DDR5-5600 (2 x 16 GB) MT/s RAM [15]
32GB DDR5-5600 (1 x 32 GB) MT/s RAM [15]
16GB DDR5-5600 (2 x 8 GB) MT/s RAM [15]
16GB DDR5-5600 (1 x 16 GB) MT/s RAM [15]
8GB DDR5-5600 (1 x 8 GB) MT/s RAM[15]

Memory Slots
2 SODIMM
System runs at 5600 MT/s
Supports Dual Channel Memory[15]

15. Due to the non-industry standard nature of some third-party memory modules, we recommend HP branded memory to ensure compatibility. If you mix memory speeds, the system will perform at the lower memory speed.

NFC
NFC Mirage WNC XRAV-1

Miracast
Native Miracast Support [20]

16. The term "10/100/1000" or "Gigabit" Ethernet indicates compatibility with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/s. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.
17. Wi-Fi 6E requires a Wi-Fi 6E router, sold separately to function in the 6GHz band. Availability of public wireless access points limited. Wi-Fi 6E is backwards compatible with prior 802.11 specs. And available in countries where Wi-Fi 6E is supported.
18. WWAN module is an optional feature, requires factory configuration and requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, in all regions.
19. Cat M1 LPWAN (Mobile Narrowband) cards support select platforms with the HP Protect & Trace with Wolf Connect service, but do not support mobile broadband/Internet use.
20. Miracast is a wireless technology your PC can use to project your screen to TVs, projectors, and streaming.

25. Click on Adobe icon in the start menu to take advantage of a 30 day trial membership of select Adobe software. The software is tied to the device and is not transferrable. You may also choose to enter your payment details to auto-renew and continue to use the software beyond the 30 day trial. See Adobe for complete details.
26. HP Power Manager requires Windows 10 and higher and can be downloaded from the Microsoft Store. Depending on what version of HP Battery Health Manager (BHM) is available for your device, HP BHM may look at a number of factors to determine how to adjust battery charging over time to optimize battery health. HP BHM is preset to “Let HP Manage my Battery Charging” to allow the system to balance charging between battery health and battery duration. As Let HP Manage My Battery Charging

Proposta de Preço ITEM 3 - SUPRIMENTOS MATERIAL PERMANENTE (2879358) - SEI 2025.001317 / pg. 112

Technical Specifications

adjusts charge capacity, the amount of run-time on battery will be reduced over time. HP may utilize BIOS updates to adjust BHM settings on select systems to optimize battery health and reduce exposure to those factors that can accelerate battery degradation. To update or change HP BHM settings and for complete details, see https://support.hp.com/us-en/document/ish_4449597-3519507-16

27. HP Services Scan is preinstalled and/or provided thru Windows Update and checks for service entitlement on each hardware device and downloads the applicable software agent automatically. To disable this feature, please follow the instructions at http://www.hpdaas.com/requirements. The HP Insights agent is a telemetry and analytics platform that provides critical data around devices and applications and is not sold as a standalone service. HP follows stringent GDPR privacy regulations and is ISO27001, ISO27701, ISO27017 and SOC2 Type2 certified for Information Security. Internet access with connection to the HP Insights agent is required. For full system requirements, please visit http://www.hpdaas.com/requirements. Not available in China.
28. HP Smart Support requires the HP agent to be installed. For more information about how to enable or to download HP Smart Support, please visit http://www.hp.com/smart-support. HP Services Scan is provided thru Windows Update and will check entitlement on each hardware device to determine if an HP agent-enabled service has been purchased, and will download applicable software automatically. The HP agent is a telemetry and analytics platform that provides critical data around devices and applications and is not sold as a standalone service. HP follows stringent GDPR privacy regulations and is ISO27001, ISO27701, ISO27017 and SOC2 Type2 certified for Information Security. Internet access is required. For full system requirements or to disable this feature, please visit http://www.hpdaas.com/requirements.
29. HP Support Assistant is available on Windows. For more information, please visit www.support.hp.com/help/hp-support-assistant
30. HP customers qualify for a 90 day trail of Miro, this offer ends September 2025. Complete terms and conditions are provided by Miro when accepting the offer.
31. MyHP Requires Windows 10 or higher OS.
32. Poly Lens Desktop requires a Windows OS
33. HP Client Catalog can be downloaded from https://www.hp.com/us-en/solutions/client-management-solutions.html
34. HP Client Management Script Library can be downloaded from https://www.hp.com/us-en/solutions/client-management-solutions.html#tab=manageability-tools
35. HP Cloud Recovery is available for Z by HP, HP Elite and Pro desktops and laptops PCs with Intel® or AMD processors and requires an open, network connection. **NOTE:** You must back up important files, data, photos, videos, etc. before use to avoid loss of data. Detail please refer to: https://support.hp.com/us-en/computer.
36. HP Connect for Microsoft Endpoint Manager is available from the Azure Market Place for HP Pro, Elite, Z and Point-of-Sale PCs managed with Microsoft Endpoint Manager. Subscription to Microsoft Endpoint Manager required and sold separately. Network connection required.
37. HP Driver Packs can be downloaded from https://www.hp.com/us-en/solutions/client-management-solutions/drivers-pack.html
38. HP Image Assistant can be downloaded from https://ftp.ext.hp.com/pub/caps-softpaq/cmit/HPIA.html
49. HP Manageability Integration Kit can be downloaded from http://www8.hp.com/us/en/ads/clientmanagement/overview.html.
40. HP Patch Assistant available on select HP PCs with the HP Manageability Kit that are managed through Microsoft System Center Configuration Manager. HP Manageability Integration Kit can be downloaded from http://www8.hp.com/us/en/ads/clientmanagement/overview.html.
41. Secured-Core PC Enable requires an Intel® vPro®, AMD Ryzen™ Pro processor or Qualcomm® processor with SD850 or higher and requires 8 GB or more system memory. Secured-core PC is enabled from the factory.
42. HP Wolf Security for Business requires Windows 10 or 11 Pro or higher, includes various HP security features and is available on HP Pro, Elite, RPOS and Workstation products. See product details for included security features.
43. HP Sure Admin requires HP G8 or newer platforms, Windows 10 or higher, HP BIOS, HP Manageability Kit or KMS Service from http://www.hp.com/go/clientmanagement and HP Sure Admin Local Access Authenticator smartphone app from the Android or Apple store
44. HP Sure Click requires Windows 10 or 11 Pro or higher. See https://bit.ly/2PrLT6A_SureClick for complete details.
45. HP Sure Recover is available on select HP PCs and requires Windows 10 or Windows 11 and an open network connection.

Proposta de Preço ITEM 3 - SVSNOMINSUMMTECH LTDA (2879359) - SEI 2025.001317 / pg. 113

Technical Specifications

You must back up important files, data, photos, videos, etc. before using HP Sure Recover to avoid loss of data. Network based recovery using Wi-Fi is only available on select PCs.

46. HP Sure Run is available on select HP PCs and requires Windows 10 and higher.
47. HP Sure Start is available on select HP PCs and requires Windows 10 and higher
48. Absolute firmware module is shipped turned off and can only be activated with the purchase a license subscription and full activation of the software agent. License subscriptions can be purchased for terms ranging multiple years. Service is limited, check with Absolute for availability outside the U.S. Certain conditions apply. For full details visit: https://www.absolute.com/about/legal/agreements/absolute/
49. HP BIOSphere Gen6 features may vary depending on the platform and configuration.
50. HP Fingerprint Reader is an optional feature that requires Windows 10 or 11 and must be configured at purchase.
51. HP Secure Erase implements the methods outlined in the National Institute of Standards and Technology Special Publication 800-88r "Clear" sanitation method. HP Secure Erase does not support platforms with Intel® Optane™.

Proposta de Preço ITEM 3 - PREGÃO ELETRÔNICO Nº 2025.001317 / pg. 114

Technical Specifications

POWER

Power Supply
HP Standard 65W USB Type-C® adapter [52]
HP Standard 65W USB Type-C® Halogen Free adapter [52]

Battery
HP Long Life 3 cell 56Whr Polymer [53,54]
HP Long Life 3 cell 48Whr Polymer [53,54,55]
Compliant with UL 1642 Standard

Battery Recharge Time
Supports battery HP Fast Charge: approximately 50% in 30 minutes [56]

Power Cord
3-wire plug - 1m [52]

Battery Life
Battery life Up to 16 hours and 13 minutes with 56whr battery (HP Long Life 3-Cell, 56 Whr Polymer, UMA graphic, Intel Ultra 7 U15, Display set to 250 nits display (on a 400-nit display), 2*8GB DDR5 memory, 256 GB SSD) Up to 14 hours and 30 minutes with 56whr battery (HP Long Life 3-Cell, 56 Whr Polymer, UMA graphic, Intel Ultra 7 H28, Display set to 250 nits display (on a 400-nit display), 2*8GB DDR5 memory, 256 GB SSD) Up to 14 hours and 31 minutes with 48whr battery (HP Long Life 3-Cell, 48 Whr Polymer, UMA graphic, Intel Ultra 7 U15, Display set to 250 nits display (on a 400-nit display), 2*8GB DDR5 memory, 256 GB SSD) Up to 12 hours and 31 minutes with 48whr battery (HP Long Life 3-Cell, 48 Whr Polymer, UMA graphic, Intel Ultra 7 H28, Display set to 250 nits display (on a 400-nit display), 2*8GB DDR5 memory, 256 GB SSD) [57]

52. Availability may vary by country.
53. Battery is internal and not replaceable by customer. Serviceable by warranty.
54. Actual battery Watt-hours (Wh) will vary from design capacity. Battery capacity will naturally decrease with shelf life, time, usage, environment, temperature, system configuration, loaded apps, features, power management settings and other factors.
55. Only available for selected regions and selected configurations.
56. Recharges your battery up to 50% within 30 minutes when the system is off or in standby mode. Power adapter minimum of 65 watts required for battery capacities 56Whr or less. Power adapter minimum of 100 watts required for battery capacities greater than 56Whr and less than 83Whr. Power adapter minimum of 120 watts required for battery capacities greater than 83Whr and less than 100Whr. After charging has reached 50% capacity, charging will return to normal. Charging time may vary +/-10% due to System tolerance. Upon initial startup, it is necessary to use an minimum 45 W adapter.
57. Mobile Mark 25 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See www.bapco.com for additional details.

SERVICE AND SUPPORT

1-year warranty and 90 day software limited warranty options depending on country. Batteries have a default one year limited warranty. Refer to http://www.hp.com/support/batterywarranty/ for additional battery information. On-site service and extended coverage is also available. HP Care Pack Services are optional extended service contracts that go beyond the standard limited warranties. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at: http://www.hp.com/go/cpc. [63]

63. HP Care Packs are sold separately. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit http://www.hp.com/go/cpc. HP services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.

	Backlight	WLED
	Pixel Resolution	RGB
	Color Gamut Coverage	sRGB 100%
	Color Depth	8

Proposta de Preço ITEM 3 - SUPRIMENTOS DE IMPRESSÃO LTDA (2879358) - SEI 2025.001317 / pg. 120

Technical Specifications

	Viewing Angle	UWVA 85/85/85/85
	Low Blue Light	Yes

STORAGE AND DRIVES

For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows 10 and 11) is reserved for system recovery software.

SSD 512GB 2280 PCIe-4x4 NVMe Three Layer Cell	**Form Factor**	M.2 2280
	Capacity	512GB
	NAND Type	TLC
	Interface	PCIe NVMe Gen4X4
	Maximum Sequential Read	6400 MB/s ±20%
	Maximum Sequential Write	3500 MB/s ±20%
	Logical Blocks	1,000,215,215
	Features	Pyrite 2.0; TRIM; L1.2

1. Wi-Fi 6E requires a Wi-Fi 6E router, sold separately, to function in the 6GHz band. Availability of public wireless access points limited. Wi-Fi 6E is backwards compatible with prior 802.11 specs. And available in countries where Wi-Fi 6E is supported. Wi-Fi 6E is designed to support gigabit data rate when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 80MHz and higher channels.

Proposta de Preço ITEM 3 - SUPRIMENTOS MATRICIAIS (1879358) - SEI 2025.001317 / pg. 125

Technical Specifications

2. Check latest software/driver release for updates on supported security features.
3. The FCC has declared as of September 1, 2014 products that utilize passive scanning on channel 12/13 and are capable of transmitting must fully comply with requirements of 15.247 or otherwise disable those channels.
4. Receiver sensitivity is measured at a packet error rate of 8% for 802.11b (CKK modulation) and a packet error rate of 10% for 802.11a/g (OFDM modulation).

3. The FCC has declared as of September 1, 2014 products that utilize passive scanning on channel 12/13 and are capable of transmitting must fully comply with requirements of 15.247 or otherwise disable those channels.
4. Receiver sensitivity is measured at a packet error rate of 8% for 802.11b (CKK modulation) and a packet error rate of 10% for 802.11a/g (OFDM modulation).

HP 4G LTE-A Pro Cat16 WWAN eSIM[1]	**Technology/Operating bands**	WCDMA/HSPA+ operating bands: Band 1: 1920 to 1980 MHz (UL), 2110 to 2170 MHz (DL) Band 2: 1850 to 1910 MHz (UL), 1930 to 1990 MHz (DL) Band 4: 1710 to 1755 MHz (UL), 2110 to 2155 MHz (DL) Band 5: 824 to 849 MHz (UL), 869 to 894 MHz (DL) Band 8: 880 to 915 MHz (UL), 925 to 960 MHz (DL) LTE FDD/TDD operating bands: Band 1: 1920 to 1980 MHz (UL), 2110 to 2170 MHz (DL) Band 12: 699 to 716 MHz (UL), 729 to 746 MHz (DL) Band 13: 777 to 787 MHz (UL), 746 to 756 MHz (DL) Band 14: 788 to 798 MHz (UL), 758 to 768 MHz (DL) Band 17: 704 to 716 MHz (UL), 734 to 746 MHz (DL) Band 18: 815 to 830 MHz (UL), 860 to 875 MHz (DL) Band 19: 830 to 845 MHz (UL), 875 to 890 MHz (DL) Band 2: 1850 to 1910 MHz (UL), 1930 to 1990 MHz (DL) Band 20: 832 to 862 MHz (UL), 791 to 821 MHz (DL) Band 25: 1850 to 1915 MHz (UL), 1930 to 1995 MHz (DL) Band 26: 814 to 849 MHz (UL), 859 to 894 MHz (DL) Band 28: 703 to 748 MHz (UL), 758 to 803 MHz (DL) Band 29: 717 to 728 MHz (DL) Band 3: 1710 to 1785 MHz (UL), 1805 to 1880 MHz (DL) Band 30: 2305 to 2315 MHz (UL) 2350 to 2360 MHz (DL) Band 32: 1452 to 1496 MHz (DL) Band 34: 2010 to 2025 MHz (UL/DL) Band 38: 2570 to 2620 MHz (UL/DL) Band 39: 1880 to 1920 MHz (UL/DL) Band 4: 1710 to 1755 MHz (UL), 2110 to 2155 MHz (DL) Band 40: 2300 to 2400 MHz (UL/DL) Band 41: 2496 to 2690 MHz (UL/DL) Band 42: 3400 to 3600 MHz (UL/DL) Band 43: 3400 to 3800 MHz (UL/DL) Band 48: 3550 to 3700 MHz (UL/DL) Band 5: 824 to 849 MHz (UL), 869 to 894 MHz (DL) Band 66: 1710 to 1800 MHz (UL), 2110 to 2200 MHz (DL) Band 7: 2500 to 2570 MHz (UL), 2620 to 2690 MHz (DL) Band 71: 663 to 698 MHz (UL), 617 to 652 MHz (DL) Band 8: 880 to 915 MHz (UL), 925 to 960 MHz (DL)

Technical Specifications

	(1561.098MHz), Galileo E1 (1575.42MHz), QZSS (1575.42MHz)
Maximum data rates	DC-HSPA+: 42.00 Mbps(Download), 11.50 Mbps (Upload)
Maximum output power	HSPA+: 23.5 dBm LTE (all bands except B41): 23.0 dBmLTE (all bands except B41): 23.0 dBm
Maximum power consumption	LTE: 1,300 mA (peak); 1,100 mA (average) HSPA+: 1,100 mA (peak); 800 mA (average)
Form Factor	M.2, 3052-S3 Key B
Weight	8.0 g (0.282 oz)
Dimensions (Length x Width x Thickness)	52.00 x 30.00 x 2.30 mm (2.05 x 1.18 x 0.09 inch)
embedded eSIM	Support

1. Mobile Broadband is an optional feature. Connection requires wireless data service contract, network support, and is not available in all areas. Contact service provider to determine the coverage area and availability. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products or in all countries.

ENVIRONMENTAL DATA

Environmental Data	**Eco-Label Certifications & declarations**	This product has received or is in the process of being certified to the following approvals and may be labeled with one or more of these marks: • IT ECO declaration • US ENERGY STAR® • US Federal Energy Management Program (FEMP) • EPEAT® Gold registered in the United States. See http://www.epeat.net for registration status in your country. • TCO Certified • China Energy Conservation Program (CECP) • China State Environmental Protection Administration (SEPA) • Taiwan Green Mark • Korea Eco-label • Japan PC Green label*		
	Sustainable Impact Specifications	• Product Carbon Footprint • Ocean-bound plastic in Fan and Speaker • 20% post-consumer recycled plastic • 50% recycled metal • Low halogen • Outside Box and corrugated cushions are 100% sustainably sourced and recyclable • Molded Paper Pulp Cushion inside box is 100% sustainably sourced and recyclable. • Bulk packaging available		
	System Configuration	The configuration used for the Energy Consumption and Declared Noise Emissions data for the Notebook model is based on a “Typically Configured Notebook”.		
	Energy Consumption (in accordance with US ENERGY STAR® test method)	**115VAC, 60Hz**	**230VAC, 50Hz**	**100VAC, 50Hz**
	Normal Operation (Sort idle)	4.12 W	4.22 W	3.93 W
	Normal Operation (Long idle)	1.11 W	1.12 W	1.02 W
	Sleep	1.11 W	1.12 W	1.02 W
	Off	0.27 W	0.28 W	0.25 W
		NOTE: Energy efficiency data listed is for an ENERGY STAR® compliant product if offered within the model family. HP computers marked with the ENERGY STAR® Logo are compliant with the applicable U.S. Environmental Protection Agency (EPA) ENERGY STAR® specifications for computers. If a model family does not offer ENERGY STAR® compliant configurations, then energy efficiency data listed is for a typically configured PC featuring a hard disk drive, a high efficiency power supply, and a Microsoft Windows® operating system.		
	Heat Dissipation*	**115VAC, 60Hz**	**230VAC, 50Hz**	**100VAC, 50Hz**
	Normal Operation (Short idle)	14.05 BTU/hr	14.39 BTU/hr	13.40 BTU/hr
	Normal Operation (Long idle)	3.79 BTU/hr	3.82 BTU/hr	3.48 BTU/hr
	Sleep	3.79 BTU/hr	3.82 BTU/hr	3.48 BTU/hr
	Off	0.92 BTU/hr	0.95 BTU/hr	0.85 BTU/hr

	Fixed Disk – Random writes	2.9	24.7	
	Optical Drive – Sequential reads	3.9	33.8	
	Longevity and Upgrading	This product can be upgraded, possibly extending its useful life by several years. Upgradeable features and/or components contained in the Spare parts are available throughout the warranty period and or for up to “5” years after the end of production.		
	Additional Information	• This product is in compliance with the Restrictions of Hazardous Substances (RoHS) directive - 2011/65/EC. • This HP product is designed to comply with the Waste Electrical and Electronic Equipment (WEEE) Directive – 2002/96/EC. • This product is in compliance with California Proposition 65 (State of California; Safe Drinking Water and Toxic Enforcement Act of 1986). • This product is in compliance with the IEEE 1680 (EPEAT) standard at the Gold level, see www.epeat.net • Plastics parts weighing over 25 grams used in the product are marked per ISO11469 and ISO1043. • This product is 93.0% recycle-able when properly disposed of at end of life.		
	Packaging Materials	**External:**	PAPER/Corrugated	230 g
			PAPER/Paperboard	14 g
			PAPER/Molded Pulp	140 g
		Internal:	PLASTIC/Polyethylene low density - LDPE	16 g
		The plastic packaging material contains at least 0.0% recycled content.		
		The corrugated paper packaging materials contains at least 58.0% recycled content.		
	RoHS Compliance	HP Inc. complies fully with materials regulations. We were among the first companies to extend the restrictions in the European Union (EU) Restriction of Hazardous Substances (RoHS) Directive to our products worldwide through the HP GSE. HP has contributed to the development of related legislation in Europe, as well as China, India, and Vietnam. We believe the RoHS directive and similar laws play an important role in promoting industry-wide elimination of substances of concern. We have supported the inclusion of additional substances—including PVC, BFRs, and certain phthalates—in future RoHS legislation that pertains to electrical and electronics products. We met our voluntary objective to achieve worldwide compliance with the new EU RoHS requirements for virtually all relevant products by July 2013, and we will

Technical Specifications

		continue to extend the scope of the commitment to include further restricted substances as regulations continue to evolve. To obtain a copy of the HP RoHS Compliance Statement, see HP RoHS position statement.
	Material Usage	This product does not contain any of the following substances in excess of regulatory limits (refer to the HP General Specification for the Environment at http://www.hp.com/hpinfo/globalcitizenship/environment/supplychain/gen_specifications.html): • Asbestos • Certain Azo Colorants • Certain Brominated Flame Retardants – may not be used as flame retardants in plastics • Cadmium • Chlorinated Hydrocarbons • Chlorinated Paraffins • Bis(2-Ethylhexyl) phthalate (DEHP) • Benzyl butyl phthalate (BBP) • Dibutyl phthalate (DBP) • Diisobutyl phthalate (DIBP) • Formaldehyde • Halogenated Diphenyl Methanes • Lead carbonates and sulfates • Lead and Lead compounds • Mercuric Oxide Batteries • Nickel – finishes must not be used on the external surface designed to be frequently handled or carried by the user. • Ozone Depleting Substances • Polybrominated Biphenyls (PBBs) • Polybrominated Biphenyl Ethers (PBBEs) • Polybrominated Biphenyl Oxides (PBBOs) • Polychlorinated Biphenyl (PCB) • Polychlorinated Terphenyls (PCT) • Polyvinyl Chloride (PVC) – except for wires and cables, and certain retail packaging has been voluntarily removed from most applications. • Radioactive Substances • Tributyl Tin (TBT), Triphenyl Tin (TPT), Tributyl Tin Oxide (TBTO)
	Packaging Usage	HP follows these guidelines to decrease the environmental impact of product packaging: • Eliminate the use of heavy metals such as lead, chromium, mercury and cadmium in packaging materials. • Eliminate the use of ozone-depleting substances (ODS) in packaging materials. • Design packaging materials for ease of disassembly. • Maximize the use of post-consumer recycled content materials in packaging materials. • Use readily recyclable packaging materials such as paper and corrugated materials. • Reduce size and weight of packages to improve transportation fuel efficiency. • Plastic packaging materials are marked according to ISO 11469 and DIN 6120 standards.

Technical Specifications

	End-of-life Management and Recycling	HP offers end-of-life HP product return and recycling programs in many geographic areas. To recycle your product, please go to: http://www.hp.com/go/reuse-recycle or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner. The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: http://www.hp.com/go/recyclers. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
	HP, Inc. Corporate Environmental Information	For more information about HP's commitment to the environment: Global Citizenship Report http://www.hp.com/hpinfo/globalcitizenship/gcreport/index.html Eco-label certifications http://www8.hp.com/us/en/hp-information/environment/ecolabels.html ISO 14001 certificates: http://h20195.www2.hp.com/V2/GetDocument.aspx?docname=c04755842 and http://www.hp.com/hpinfo/globalcitizenship/environment/pdf/cert.pdf
	footnotes	• Percentage of ocean-bound plastic contained in each component varies by product • Recycled plastic content percentage is based on the definition set in the IEEE 1680.1-2018 standard. • External power supplies, WWAN modules, power cords, cables and peripherals excluded. • 100% outer box packaging and corrugated cushions made from sustainably sourced certified and recycled fibers. • Fiber cushions made from 100% recycled wood fiber and organic materials. • Disclaimer: recycled metal is expressed as a percentage of the total weight of the metal according to ISO 14021 definitions for metal parts over 25 grams.

Options and Accessories (Sold separately and availability may vary by country)

DOCKING (Sold Separately)

Docking station model #1	HP USB-C Dock G5
Total number of supported displays (incl. the notebook display)	3
Max. resolutions supported	Multi-Function Mode: (2) 5k @ 30Hz and (1) 4k UHD @ 30Hz on any port High-Resolution Mode: (2) 5k @ 60Hz on DisplayPort ports and (1) 4k UHD @ 60Hz on HDMI port
Dock Connectors	1x HDMI 2.0, 2x DisplayPort 1.4
Technical limitations	**Maximum resolution and display support is dependent on the maximum capability of the notebook.** **Highest resolution with dual displays is two 8K@ 60Hz host in High Resolution mode.** Three maximum displays supported are two 5K@ 30 Hz on DP ports plus one 4K UHD@ 30 Hz on HDMI in Multi-function mode. The highest resolution for a non-Thunderbolt host in Multi-function mode is a single 5K dual cable (using both DP ports) + (1) 4K on HDMI port.
Docking station model #2	HP Thunderbolt™ 120W G4 Dock
Total number of supported displays (incl. the notebook display)	4
Max. resolutions supported	Quad 4K @60Hz Dual 8K single cable@30 for Thunderbolt hosts or USB-C hosts DisplayPort 1.4 with Display Stream Compression in High-Resolution Mode
Dock Connectors	2 x HDMI 2.0, 1 x USB-C Alt Mode, 1 x Thunderbolt 4, 2 x DisplayPort 1.4
Technical limitations	**Maximum resolution and display support is dependent on the maximum capability of the notebook.** Thunderbolt Hosts: Maximum of (4) displays with maximum resolution of 5K@ 30Hz running Thunderbolt host. Maximum resolution possible is dual 8K displays @ 60Hz running Thunderbolt host or running a non-Thunderbolt host in high resolution mode @30Hz. Non-Thunderbolt hosts: **The highest resolution for dual displays running a non-Thunderbolt host in multi-function mode is** (1) 5K dual cable (using both DP ports) +(1) 4K on USB-C DP port. Non-Thunderbolt hosts support (3) displays with a maximum resolution of (2) 5K single cable + (1) 4K UHD @ 60 Hz in high resolution mode. In multi-function mode the maximum resolution for (3) displays is (2) 5K single cable @ 30Hz + (1) 4K UHD @ 30Hz.
Docking station model #3	HP USB-C G5 Essential Dock
Total number of supported displays (incl. the notebook display)	3
Max. resolutions supported	Multi-Function Mode: (2) 5k @ 30Hz and (1) 4k UHD @ 30Hz on any port High-Resolution Mode: (2) 5k @ 60Hz on DisplayPort ports and (1) 4k UHD @ 60Hz on HDMI port

A empresa **Torino Informática Ltda**, inscrita no CNPJ **03.619.767/0001-91** sediada na RUA RITA DE CARVALHO MONTEIRO, 120, RETIRO SÃO JOÃO, SOROCABA, SP - CEP 18085-750 com filial inscrita no CNPJ **03.619.767/0005-15** situada a Avenida 600, s/n, Quadra 15, Módulo 10, Setor Industrial, TIMS, Serra, ES, CEP 29161-419, é um **PARCEIRO AUTORIZADO HP, PARA COMPRA DIRETA DE PRODUTOS DA HP**, estando apto a comercializar as linhas de produtos HP de nossa fabricação descritas abaixo.

Declaramos ainda que a TORINO INFORMÁTICA LTDA. é o parceiro de serviços do programa AMPLIFY, autorizado a prestar serviço de assistência técnica dos produtos que comercializa no telefone 0800 201-5666.

Produtos:

B20A5LS#AK4 – HP Elite Mini 800 G9 – Garantia padrão do fabricante
67V68AV#TMP – Z2 Tower G9 – Garantia padrão do fabricante
9Z0P1AV#TMP – EliteBook 640 G11 – Garantia padrão do fabricante
9A816AV#TMP – ZBook Power 16 inch G11 – Garantia padrão do fabricante

Declaramos ainda que, o produto **B20A5LS#AK4** – HP Elite Mini 800 G9:

- Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará as solicitações de customização à HP de modo a atender plenamente as exigências edilícias. Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas;
- Informações técnicas básicas como modelo do processador, capacidade de memória instalada, capacidade e tipo do dispositivo de armazenamento, versão do sistema operacional e garantia padrão de fábrica estarão descritas na proposta comercial emitida pela CONTRADA;
- Modelo de equipamento ofertado é a mais recente geração disponibilizada pela HP com comercialização no Brasil;
- A HP disponibiliza a ferramenta HP Support Assistant que permite a verificação e instalação das últimas atualizações de todas as ferramentas e drivers disponibilizadas pela HP para o equipamento. Sendo capaz de monitorar o sistema, realizar diagnósticos, emitir alertas e ajudar a reparar erros do sistema, ajudando assim a manter a saúde e segurança do sistema. Permite verificar o status da garantia pela ferramenta;

JCAJ

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 148

- Possui BIOS da HP, desenvolvida pela HP, em conformidade com a especificação minima UEFI 2.7 (http://www.uefi.org/) e capturáveis pela aplicação de inventário como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com descrição do modelo, número de série e campo de registro de número de patrimônio com extensão mínima de 15 dígitos, todos gravados em memória não volátil e sendo estas capturáveis por aplicações de inventario como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com interface gráfica com navegação utilizando mouse ou teclado, disponível em mais de 3 idiomas (por exemplo: português, espanhol, inglês etc.);
- Possui BIOS atualizável com opção de recuperação de falha, a partir de arquivo de recuperação no disco rígido ou USB externa;
- Possui BIOS com suporte à verificação de integridade, através do recurso HP Sure Start;
- As atualizações da BIOS, quando necessárias, são disponibilizadas no site da HP Inc.;
- Possui BIOS implementada em “flash ROM” atualizável diretamente pelo microcomputador, utilizando memória não volátil e reprogramável, Plug and Play, entregue na versão mais atual disponibilizada pela HP. Podendo ser atualizada por software de gerenciamento remoto;
- Possui BIOS com capacidade de habilitar / desabilitar portas USB;
- Possui BIOS com possibilidade de configuração de senhas para Power On, Administrador e unidade de armazenamento;
- Possui BIOS com suporte à tecnologia de previsão/contingenciamento de falhas de disco rígido S.M.A.R.T habilitada;
- Possui BIOS com suporte a boot por pendrive ou unidade de armazenamento externo, conectado a uma porta USB 2.0 ou superior;
- Possui BIOS compatível com o padrão mínimo ACPI 6.0. E também compatível com os padrões: DMI, SNMP, WMI, SMBIOS;
- Possui BIOS em conformidade com a normativa NIST 800-147 e NIST 800-193 (HP Sure Start);
- Possui a ferramenta HP Secure Erase integrada na BIOS, que possibilita apagar de forma definitiva e irrecuperável todos os dados da unidade de armazenamento, permitindo o descarte seguro de seus equipamentos (NIST 800-88);
- Possui BIOS com ferramenta de diagnóstico UEFI de componentes internos de hardware (processador, memória, unidade de armazenamento, áudio, teclado, rede, placa mãe, portas USB e vídeo). Acessível via BIOS ou teclas de atalho (F1...F12). A mensagem de erro é suficiente para abertura de chamado em garantia;
- Possui sistema de monitoramento de temperatura controlada pela BIOS, adequado ao processador, fonte e demais componentes internos ao gabinete;
- Possui recurso para realizar downgrade de BIOS e replicação de configurações de BIOS em escala utilizando um arquivo referência ou via Powershell;
- Possui placa mãe fabricada e desenvolvida pela HP, exclusiva para o modelo, com o nome da HP identificado na mesma;
- Possui placa mãe com capacidade de desligamento do vídeo e da unidade de armazenamento após tempo determinado pelo usuário e reiniciar por acionamento de teclado ou pela movimentação do mouse e possui função de economia de energia;
- Possui chip TPM integrado, acompanhado de drivers e a ferramenta nativa do Windows (tpm.msc) para utilização do chip e possibilitando a utilização de todos os recursos de segurança e criptografia (A ferramenta tpm.msc é fornecida com os equipamentos adquiridos com o Sistema Operacional Windows 10 / 11 Pro);
- O chipset é do mesmo fabricante do processador, com tecnologia que permite que o sistema retome rapidamente do estado de hibernação tanto para unidades de armazenamento do tipo SATA e do tipo PCIe;
- Sempre que o equipamento for inicializado, será mostrado no monitor de vídeo o nome da HP;
- Possuem os mesmos padrões de cores, sendo o preto ou cinza escuro a cor predominante e com o logotipo da HP impresso;
- Possui acabamento interno composto de superfícies não cortantes;
- O gabinete possui tratamento anticorrosivo;

JCAJ

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 149

- O gabinete possui base/superfície antiderrapante;
- Possui gabinete feito em liga metálica e front bezel de ABS
- O equipamento pode funcionar na posição horizontal ou vertical.
- Possui afixado no gabinete do equipamento, o Selo Certificado de Autenticidade (COA – Certificate of Authenticity) do software Windows na versão instalada e com serial de ativação do sistema operacional gravado no BIOS, quando adquirido com o sistema operacional Windows 11 conforme descrito na proposta comercial;
- O fluxo do ar interno segue as orientações do fabricante do microprocessador;
- Possui tecnologia implementada que controle o nível de desempenho do processador automaticamente, ajustando dinamicamente a frequência e a voltagem a cada a necessidade requerida pela atividade do momento para que seja otimizada a autonomia de bateria do equipamento;
- Possui suporte a implementação de tecnologia dual-channel para a memória RAM;
- As unidades de armazenamento disponíveis para fabricação do modelo, possuem suporte à tecnologia de segurança SMART e NCQ;
- Todos os conectores das portas de entrada/saída são identificados por cores ou símbolos, de acordo com o padrão PC'99 System Design Guide;
- Possui controladora de áudio onboard, com entrada e saída de áudio estéreo (combo jack), capaz de reproduzir os sons gerados pelo sistema (como músicas e beeps de alerta de diagnósticos), e está conectado diretamente a placa mãe sem uso de adaptadores, com suporte a 16bits;
- O sistema de áudio onboard possui a possibilidade de desativação por software ou automaticamente quando houver conexão com a caixa de som ou fone de ouvido;
- Possui controladora de vídeo integrada, com suporte a múltiplos monitores (mínimo de 2) onde para maiores quantidades estará descrito na proposta comercial emitida pela CONTRATADA. Os monitores podem operar simultaneamente, de forma estendida ou espelhada
- Possui controladora de vídeo integrada com capacidade de alocar no mínimo 1.5GB de memória de vídeo, compartilhada de forma dinâmica com a memória RAM. Possui suporte para DirectX 12 e Open GL 4.5 e compatibilidade do driver com o padrão WDDM (Windows Display Driver Model);
- Possui controladora de rede Gigabit Ethernet 10/100/1000 Mbps com reconhecimento automático da velocidade da rede, com capacidade de operar no modo full-duplex, autosense, plug and play, com suporte ao protocolo SNMP, totalmente configurável por software, com suporte a VLAN, com suporte a PXE 2.1 e com função Wake-On-Lan instalada e em funcionamento. Com conector RJ-45 com LEDs de diagnostico;
- Possui interface de comunicação wireless integrada desde que a CONTRATADA incluía este item na proposta comercial. Esta placa wireless tem suporte aos padrões 802.11ax, 802.11ac, 802.11a, 802.11b, 802.11g e 802.11n, com suporte aos protocolos 802.11i (WLAN security, TKIP e AES), WPA, WPA2, WEP 64 e 128, IEEE 802.11 (Wired Equivalent Privacy), IEEE 802.1x. Com certificado de homologação válido da ANATEL, e no Wi-fi Certified Aliance. O ajuste da potência é de acordo com a recepção do sinal, de forma a proporcionar economia de bateria;
- Possui teclado da HP, desde que a CONTRATADA inclua este item na proposta comercial. Teclado HP com com todos os caracteres da língua portuguesa incluindo Ç, com teclado numérico embutido, com teclas Windows Logo (acesso ao menu iniciar), com LEDs indicativos de “caps lock” e “num lock”. A impressão sobre as teclas é do tipo permanente, não apresentando desgaste por abrasão ou uso prolongado. Possui sistema de proteção contra derramamento acidental de pequenas quantidades de líquidos. Possui sistema para ajuste de inclinação e cabo USB de no mínimo 1.5m. Não possui teclas dedicadas de funções multimedia, desligar, hibernar ou standby.
- Possui mouse óptico da HP, desde que a CONTRATADA incluía este item na proposta comercial. Mouse HP com conector USB, cabo com comprimento mínimo de 1.8m, com resolução de 1000dpi, com 03 botões (esquerdo, direito e central próprio para rolagem (scrol)), formato ergonômico e de conformação ambidestra;
- Fonte externo com ajuste automático 100~240v / 50-60Hz (bivolt), suficiente para suportar todas as configurações do equipamento conforme as especificações técnicas contidas no catálogo técnico do mesmo, permitindo o funcionamento por no mínimo 10 horas por dia e 5 dias por semana;

JCAJ

- Possui cabo de energia para a fonte de alimentação de acordo com o novo padrão ABNT (NBR 14136), com comprimento minimo de 1,5m (total fonte mais cabo de energia);

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 150

- Todos os componentes do produto são novos (sem uso, reforma ou recondicionamento) e estão em linha de fabricação;
- Pertence a linha corporativa da HP;
- A HP possui programas de Logística Reversa (https://www.hp.com/br-pt/hp-information/sustainable-impact/planet-product-recycling.html);
- São bens constituídos em parte, por material reciclado, atóxico, biodegradável e atendem a diretiva RoHS;
- Todos os itens e seus acessórios são novos, não recondicionados, de primeiro uso, em pleno estado de funcionamento, livres de arranhões, amassados, frisagens, furações, fitas adesivas, marcas, falhas de fabricação ou qualquer outro procedimento ou emprego de materiais inadequados que adaptem forçadamente o equipamento ou suas partes que sejam fisicamente ou logicamente incompatíveis;
- As unidades dos equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, utilizando sempre que possível de materiais recicláveis, de forma a garantir a máxima proteção durante o transporte e a armazenagem;
- Cada equipamento possui um número de série único, afixado em local visível em etiqueta de difícil remoção ou impresso a laser, constando a marca, o modelo e o número de série do equipamento e também na embalagem;
- A HP possui pagina na Internet no qual pelo número de série é possível verificar o início e fim do período de garantia do equipamento;
- Os drivers, softwares e sistema operacional fornecido com o equipamento da HP estão disponíveis para download no site da HP, permitindo a instalação e recuperação do sistema operacional ao padrão de fábrica.
- A HP disponibiliza a ferramenta HP Cloud Recovery que permite realizar o download dos Drivers e do Sistema Operacional de forma automatizada para gerar pendrive de reinstalação;
- É disponibilizada documentação técnica necessária à instalação e operação do equipamento em português;
- A HP Disponibiliza “Central de atendimento telefônico” com número de telefone 0800 ou Whatsapp para abertura de chamado, em dias úteis, (segunda-feira a sexta-feira), em horário comercial (das 8h às18h) e “Central de atendimento via sistema web” para abertura de chamado 24x07, (domingo a domingo), a qualquer horário (das 00:00h às 23:59h);
- A HP Mantém os registros dos chamados que foram abertos, mantendo as informações que foram registradas sobre o mesmo;
- A ferramenta Web de abertura de chamados da HP permite que o cliente a visualize e acompanhe os chamados abertos anteriormente;
- Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;
- Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, para o monitor, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);
- A assistência técnica “on-site” será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;
- Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa, salvo quando o defeito for provocado por uso inadequado dos equipamentos;
- Certificado de Garantia é válido em todo o território nacional;
- Abertura do equipamento para limpeza, adição de memória ou SSD pela CONTRATANTE não implicará em perca da garantia desde que não cause mau uso. A garantia da HP não cobrirá o suporte destas peças.

Declaramos ainda que, o produto **67V68AV#TMP** – Z2 Tower G9:

JCAJ

- Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará

as solicitações de customização à HP de modo a atender plenamente as exigências edilícias. Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas;

- Informações técnicas básicas como modelo do processador, capacidade de memória instalada, capacidade e tipo do dispositivo de armazenamento, versão do sistema operacional e garantia padrão de fábrica estarão descritas na proposta comercial emitida pela CONTRADA;
- Modelo de equipamento ofertado é a mais recente geração disponibilizada pela HP com comercialização no Brasil;
- A HP disponibiliza a ferramenta HP Support Assistant que permite a verificação e instalação das últimas atualizações de todas as ferramentas e drivers disponibilizadas pela HP para o equipamento. Sendo capaz de monitorar o sistema, realizar diagnósticos, emitir alertas e ajudar a reparar erros do sistema, ajudando assim a manter a saúde e segurança do sistema. Permite verificar o status da garantia pela ferramenta;
- Possui BIOS da HP, desenvolvida pela HP, em conformidade com a especificação minima UEFI 2.7 (http://www.uefi.org/) e capturáveis pela aplicação de inventário como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com descrição do modelo, número de série e função de registro de número de patrimônio com extensão mínima de 15 dígitos, todos gravados em memória não volátil e sendo estas capturáveis por aplicações de inventario como por exemplo SCCM, Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com interface gráfica com navegação utilizando mouse ou teclado, disponível em mais de 3 idiomas (por exemplo: portugues, espanhol, inglês etc.);
- Possui BIOS atualizável com opção de recuperação de falha, a partir de arquivo de recuperação no disco rígido ou USB externa;
- Possui BIOS com suporte à verificação de integridade, através do recurso HP Sure Start;
- As atualizações da BIOS, quando necessárias, são disponibilizadas no site da HP Inc., com atualização via download na internet diretamente na interface de configuração da BIOS também;
- Possui BIOS implementada em “flash ROM” atualizável diretamente pelo microcomputador, utilizando memória não volátil e reprogramável, Plug and Play, entregue na versão mais atual disponibilizada pela HP. Podendo ser atualizada por software de gerenciamento remoto;
- Possui BIOS com capacidade de habilitar / desabilitar portas USB;
- Possui BIOS com possibilidade de configuração de senhas para Power On, Administrador e unidade de armazenamento;
- Possui BIOS com suporte à tecnologia de previsão/contingenciamento de falhas de disco rígido S.M.A.R.T habilitada;
- Possui BIOS com suporte a boot por pendrive ou unidade de armazenamento externo, conectado a uma porta USB 2.0 ou superior;
- Possui BIOS compatível com o padrão minimo ACPI 6.0, E também compatível com os padrões: DMI, SNMP, WMI e SMBIOS;
- Possui BIOS em conformidade com a normativa NIST 800-147 e NIST 800-193 (HP Sure Start);
- Possui a ferramenta HP Secure Erase integrada na BIOS, que possibilita apagar de forma definitiva e irrecuperável todos os dados da unidade de armazenamento, permitindo o descarte seguro de seus equipamentos (NIST 800-88);
- Possui BIOS com ferramenta de diagnóstico UEFI de componentes internos de hardware (processador, memória, unidade de armazenamento, áudio, teclado, rede, placa mãe, portas USB e vídeo). Acessível via BIOS ou teclas de atalho (F1...F12). A mensagem de erro é suficiente para abertura de chamado em garantia;
- Possui sistema de monitoramento de temperatura controlada pela BIOS, adequado ao processador, fonte e demais componentes internos ao gabinete;
- Possui recurso para realizar downgrade de BIOS e replicação de configurações de BIOS em escala utilizando um arquivo referência ou via Powershell;
- Possui placa mãe fabricada e desenvolvida pela HP, exclusiva para o modelo, com o nome da HP identificado na mesma;

JCAJ

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 152

- Possui placa mãe com capacidade de desligamento do vídeo e da unidade de armazenamento após tempo determinado pelo usuário e reiniciar por acionamento de teclado ou pela movimentação do mouse e possui função de economia de energia;
- Possui chip TPM integrado, acompanhado de drivers e a ferramenta nativa do Windows (tpm.msc) para utilização do chip e possibilitando a utilização de todos os recursos de segurança e criptografia (A ferramenta tpm.msc é fornecida com os equipamentos adquiridos com o Sistema Operacional Windows 10 / 11 Pro);
- O chipset é do mesmo fabricante do processador, com tecnologia que permite que o sistema retome rapidamente do estado de hibernação tanto para unidades de armazenamento do tipo SATA e do tipo PCIe;
- Sempre que o equipamento for inicializado, será mostrado no monitor de vídeo o nome da HP;
- Possuem os mesmos padrões de cores, sendo o preto ou cinza escuro a cor predominante e com o logotipo da HP impresso;
- Possui acabamento interno composto de superfícies não cortantes;
- O gabinete possui tratamento anticorrosivo;
- O gabinete possui base/superfície antiderrapante;
- Possui gabinete feito em liga metálica e front bezel de ABS
- O equipamento pode funcionar na posição horizontal ou vertical.
- Possui afixado no gabinete do equipamento, o Selo Certificado de Autenticidade (COA – Certificate of Authenticity) do software Windows na versão instalada e com serial de ativação do sistema operacional gravado no BIOS, quando adquirido com o sistema operacional Windows 11 conforme descrito na proposta comercial;
- O fluxo do ar interno segue as orientações do fabricante do microprocessador;
- Possui processador da geração mais recente fabricada pela HP no Brasil para este modelo de desktop de uso corporativo;
- Possui tecnologia implementada que controle o nível de desempenho do processador automaticamente, ajustando dinamicamente a frequência e a voltagem a cada a necessidade requerida pela atividade do momento para que seja otimizada a autonomia de bateria do equipamento;
- Possui suporte a implementação de tecnologia dual-channel para a memória RAM;
- As unidades de armazenamento disponíveis para fabricação do modelo, possuem suporte à tecnologia de segurança SMART e NCQ;
- Todos os conectores das portas de entrada/saída são identificados por cores ou símbolos, de acordo com o padrão PC'99 System Design Guide;
- Possui controladora de áudio onboard, com entrada e saída de áudio estéreo (combo jack), capaz de reproduzir os sons gerados pelo sistema (como músicas e beeps de alerta de diagnósticos), e está conectado diretamente a placa mãe sem uso de adaptadores, com suporte a 16bits;
- O sistema de áudio onboard possui a possibilidade de desativação por software ou automaticamente quando houver conexão com a caixa de som ou fone de ouvido;
- Possui controladora de rede Gigabit Ethernet 10/100/1000 Mbps com reconhecimento automático da velocidade da rede, com capacidade de operar no modo full-duplex, autosense, plug and play, com suporte ao protocolo SNMP, totalmente configurável por software, com suporte a VLAN, com suporte a PXE 2.1 e com função Wake-On-Lan instalada e em funcionamento. Com conector RJ-45 com LEDs de diagnostico;
- Possui interface de comunicação wireless integrada desde que a CONTRATADA incluía este item na proposta comercial. Esta placa wireless tem suporte aos padrões 802.11ax, 802.11ac, 802.11a, 802.11b, 802.11g e 802.11n, com suporte aos protocolos 802.11i (WLAN security, TKIP e AES), WPA, WPA2, WEP 64 e 128, IEEE 802.11 (Wired Equivalent Privacy), IEEE 802.1x. Com certificado de homologação válido da ANATEL, e no Wi-fi Certified Aliance. O ajuste da potência é de acordo com a recepção do sinal, de forma a proporcionar economia de bateria;
- Possui teclado da HP, desde que a CONTRATADA inclua este item na proposta comercial. Teclado HP com com todos os caracteres da língua portuguesa incluindo Ç, com teclado numérico embutido, com teclas Windows Logo (acesso ao menu iniciar), com LEDs indicativos de “caps lock” e “num lock”. A impressão sobre as teclas é do tipo permanente, não apresentando desgaste por abrasão ou uso prolongado. Possui sistema de proteção contra derramamento acidental de

JCAJ

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 153

pequenas quantidades de líquidos. Possui sistema para ajuste de inclinação e cabo USB de no mínimo 1.5m. Não possui teclas dedicadas de funções multimedia, desligar, hibernar ou standby.

- Possui mouse óptico da HP, desde que a CONTRATADA incluía este item na proposta comercial. Mouse HP com conector USB, cabo com comprimento mínimo de 1.8m, com resolução de 1000dpi, com 03 botões (esquerdo, direito e central próprio para rolagem (scrol)), formato ergonômico e de conformação ambidestra;
- Fonte externo com ajuste automático 100~240v / 50-60Hz (bivolt), suficiente para suportar todas as configurações do equipamento conforme as especificações técnicas contidas no catálogo técnico do mesmo, permitindo o funcionamento por no mínimo 10 horas por dia e 5 dias por semana;
- Possui cabo de energia para a fonte de alimentação de acordo com o novo padrão ABNT (NBR 14136), com comprimento total de no minimo 1.5m;
- Todos os componentes do produto são novos (sem uso, reforma ou recondicionamento) e estão em linha de fabricação;
- Pertence a linha corporativa da HP;
- A HP possui programas de Logística Reversa (https://www.hp.com/br-pt/hp-information/sustainable-impact/planet-product-recycling.html);
- São bens constituídos em parte, por material reciclado, atóxico, biodegradável e atendem a diretiva RoHS;
- Todos os itens e seus acessórios são novos, não recondicionados, de primeiro uso, em pleno estado de funcionamento, livres de arranhões, amassados, frisagens, furações, fitas adesivas, marcas, falhas de fabricação ou qualquer outro procedimento ou emprego de materiais inadequados que adaptem forçadamente o equipamento ou suas partes que sejam fisicamente ou logicamente incompatíveis;
- As unidades dos equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, utilizando sempre que possível de materiais recicláveis, de forma a garantir a máxima proteção durante o transporte e a armazenagem;
- Cada equipamento possui um número de série único, afixado em local visível em etiqueta de difícil remoção ou impresso a laser, constando a marca, o modelo e o número de série do equipamento e também na embalagem;
- A HP possui pagina na Internet no qual pelo número de série é possível verificar o início e fim do período de garantia do equipamento;
- Os drivers, softwares e sistema operacional fornecido com o equipamento da HP estão disponíveis para download no site da HP, permitindo a instalação e recuperação do sistema operacional ao padrão de fábrica.
- A HP disponibiliza a ferramenta HP Cloud Recovery que permite realizar o download dos Drivers e do Sistema Operacional de forma automatizada para gerar pendrive de reinstalação;
- É disponibilizada documentação técnica necessária à instalação e operação do equipamento em português;
- A HP Disponibiliza “Central de atendimento telefônico” com número de telefone 0800 ou Whatsapp para abertura de chamado, em dias úteis, (segunda-feira a sexta-feira), em horário comercial (das 8h às18h) e “Central de atendimento via sistema web” para abertura de chamado 24x07, (domingo a domingo), a qualquer horário (das 00:00h às 23:59h);
- A HP Mantém os registros dos chamados que foram abertos, mantendo as informações que foram registradas sobre o mesmo;
- A ferramenta Web de abertura de chamados da HP permite que o cliente a visualize e acompanhe os chamados abertos anteriormente;
- Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;
- Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, para o monitor, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);
- A assistência técnica “on-site” será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;

- Possui BIOS com suporte a boot por pendrive ou unidade de armazenamento externo, conectado a uma porta USB 2.0 ou superior;
- Possui BIOS compatível com o padrão ACPI 6.0. E também compatível com os padrões: DMI, SNMP, SMBIOS;
- Possui BIOS em conformidade com a normativa NIST 800-147 e NIST 800-193 (HP Sure Start);
- Possui a ferramenta HP Secure Erase integrada na BIOS, que possibilita apagar de forma definitiva e irrecuperável todos os dados da unidade de armazenamento, permitindo o descarte seguro de seus equipamentos (NIST 800-88);
- Possui BIOS com ferramenta de diagnóstico UEFI de componentes internos de hardware (processador, memória, unidade de armazenamento, áudio, teclado, rede, placa mãe, portas USB e vídeo). Acessível via BIOS ou teclas de atalho (F1...F12). A mensagem de erro é suficiente para abertura de chamado em garantia;
- Possui sistema de monitoramento de temperatura controlada pela BIOS, adequado ao processador, fonte e demais componentes internos ao gabinete;
- Possui recurso para realizar downgrade de BIOS e replicação de configurações de BIOS em escala utilizando um arquivo referência ou via Powershell;
- Possui placa mãe fabricada e desenvolvida pela HP, exclusiva para o modelo, com o nome da HP identificado na mesma;
- Possui placa mãe com capacidade de desligamento do vídeo e da unidade de armazenamento após tempo determinado pelo usuário e reiniciar por acionamento de teclado ou pela movimentação do mouse e possui função de economia de energia;
- Possui chip TPM integrado, acompanhado de drivers e a ferramenta nativa do Windows (tpm.msc) para utilização do chip e possibilitando a utilização de todos os recursos de segurança e criptografia (A ferramenta tpm.msc é fornecida com os equipamentos adquiridos com o Sistema Operacional Windows 10 / 11 Pro);
- O chipset é do mesmo fabricante do processador, com tecnologia que permite que o sistema retome rapidamente do estado de hibernação tanto para unidades de armazenamento do tipo SATA e do tipo PCIe;
- Sempre que o equipamento for inicializado, será mostrado no monitor de vídeo o nome da HP;
- Possuem os mesmos padrões de cores, sendo o prata ou cinza escuro a cor predominante e com o logotipo da HP impresso;
- Possui acabamento interno composto de superfícies não cortantes;
- O gabinete possui tratamento anticorrosivo;
- O gabinete possui base/superfície antiderrapante;
- Possui gabinete feito em liga metálica e dobradiças em liga metálica para maior resistência.
- Possui afixado no gabinete do equipamento, o Selo Certificado de Autenticidade (COA – Certificate of Authenticity) do software Windows na versão instalada e com serial de ativação do sistema operacional gravado no BIOS, quando adquirido com o sistema operacional Windows 11, conforme descrito na proposta comercial;
- O fluxo do ar interno segue as orientações do fabricante do microprocessador;
- Possui processador da geração mais recente fabricada pela HP no Brasil para este modelo de notebook de uso corporativo;
- Possui tecnologia implementada que controle o nível de desempenho do processador automaticamente, ajustando dinamicamente a frequência e a voltagem a cada a necessidade requerida pela atividade do momento para que seja otimizada a autonomia de bateria do equipamento;

JCAJ

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 159

- Possui suporte a implementação de tecnologia dual-channel para a memória RAM;
- As unidades de armazenamento disponíveis para fabricação do modelo, possuem suporte à tecnologia de segurança SMART e NCQ;
- Todos os conectores das portas de entrada/saída são identificados por cores ou símbolos, de acordo com o padrão PC'99 System Design Guide;
- Possui controladora de áudio onboard, com entrada e saída de áudio estéreo (combo jack), capaz de reproduzir os sons gerados pelo sistema (como músicas e beeps de alerta de diagnósticos), e está conectado diretamente a placa mãe sem uso de adaptadores, com suporte a 16bits;
- O sistema de áudio onboard possui a possibilidade de desativação por software ou automaticamente quando houver conexão com a caixa de som ou fone de ouvido;
- Possui controladora de vídeo integrada ou dedicada conforme descrito na proposta comercial da CONTRATADA, com suporte a até 03 monitores simultaneamente (terceiro monitor através da porta USB tipo C), de forma estendida ou espelhada. Possui suporte para DirectX 12 e Open GL 4.5 e compatibilidade do driver com o padrão WDDM (Windows Display Driver Model);
- Possui interface de comunicação wireless integrada, com suporte aos padrões 802.11ax, 802.11ac, 802.11a, 802.11b, 802.11g e 802.11n, com suporte aos protocolos 802.11i (WLAN security, TKIP e AES), WPA, WPA2, WEP 64 e 128, IEEE 802.11 (Wired Equivalent Privacy), IEEE 802.1x. Com certificado de homologação válido da ANATEL, e no Wi-fi Certified Aliance. O ajuste da potência é de acordo com a recepção do sinal, de forma a proporcionar economia de bateria;
- Possui teclado da HP integrado, com todos os caracteres da língua portuguesa incluindo ç, com 83 teclas, com teclado numérico embutido na fileira superior, com teclas Windows Logo (acesso ao menu iniciar) e Aplicação (acesso ao menu de atalhos, equivalente ao botão direito do mouse), com LEDs indicativos de “caps lock”. A impressão sobre as teclas é do tipo permanente, não apresentando desgaste por abrasão ou uso prolongado e com sistema de proteção contra derramamento acidental de líquidos;
- Possui dispositivo apontador integrado, do tipo “touchpad”, integrado no gabinete, com dois botões integrados e uma área para a função “scroll” (botão de rolagem), com suporte a múltiplos gestos tais como pinça e zoom;
- Fonte externo com ajuste automático 100~240v / 50-60Hz (bivolt), suficiente para suportar todas as configurações do equipamento conforme as especificações técnicas contidas no catálogo técnico do mesmo, permitindo o funcionamento por no mínimo 10 horas por dia e 5 dias por semana;
- Possui cabo de energia para a fonte de alimentação de acordo com o novo padrão ABNT (NBR 14136), com comprimento minimo de 1,5m (total fonte mais cabo de energia);
- Todos os componentes do produto são novos (sem uso, reforma ou recondicionamento) e estão em linha de fabricação;
- Pertence a linha corporativa da HP;
- A HP possui programas de Logística Reversa (https://www.hp.com/br-pt/hp-information/sustainable-impact/planet-product-recycling.html);
- São bens constituídos em parte, por material reciclado, atóxico, biodegradável e atendem a diretiva RoHS;
- Todos os itens e seus acessórios são novos, não recondicionados, de primeiro uso, em pleno estado de funcionamento, livres de arranhões, amassados, frisagens, furações, fitas adesivas, marcas, falhas de fabricação ou qualquer outro procedimento ou emprego de materiais inadequados que adaptem forçadamente o equipamento ou suas partes que sejam fisicamente ou logicamente incompatíveis;
- As unidades dos equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, utilizando sempre que possível de materiais recicláveis, de forma a garantir a máxima proteção durante o transporte e a armazenagem;
- Cada equipamento possui um número de série único, afixado em local visível em etiqueta de difícil remoção ou impresso a laser, constando a marca, o modelo e o número de série do equipamento e também na embalagem;
- A HP possui página na Internet no qual pelo número de série é possível verificar o início e fim do período de garantia do equipamento;

JCAJ

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 160

- Os drivers, softwares e sistema operacional fornecido com o equipamento da HP estão disponíveis para download no site da HP, permitindo a instalação e recuperação do sistema operacional ao padrão de fábrica.
- A HP disponibiliza a ferramenta HP Cloud Recovery que permite realizar o download dos Drivers e do Sistema Operacional de forma automatizada para gerar pendrive de reinstalação;
- É disponibilizada documentação técnica necessária à instalação e operação do equipamento em português;
- A HP Disponibiliza “Central de atendimento telefônico” com número de telefone 0800 ou Whatsapp para abertura de chamado, em dias úteis, (segunda-feira a sexta-feira), em horário comercial (das 8h às18h) e “Central de atendimento via sistema web” para abertura de chamado 24x07, (domingo a domingo), a qualquer horário (das 00:00h às 23:59h);
- A HP Mantém os registros dos chamados que foram abertos, mantendo as informações que foram registradas sobre o mesmo;
- A ferramenta Web de abertura de chamados da HP permite que o cliente a visualize e acompanhe os chamados abertos anteriormente;
- Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;
- Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);
- A assistência técnica “on-site” será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;
- Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa, salvo quando o defeito for provocado por uso inadequado dos equipamentos;
- Certificado de Garantia é válido em todo o território nacional;
- Abertura do equipamento para limpeza, adição de memória ou SSD pela CONTRATANTE não implicará em perca da garantia desde que não cause mau uso. A garantia da HP não cobrirá o suporte destas peças.

Durante o período de garantia do Produto HP, a Fabricante HP responsabiliza-se pela garantia no prazo e condições padrão HP, conforme especificado no termo de garantia que acompanha o Produto HP e no manual técnico do Produto HP.

Serviços adicionais ao especificado na garantia padrão da Fabricante HP poderá ser adquiridos pelo Parceiro HP, com prazos e condições customizados.

B20A5LS#AK4 – HP Elite Mini 800 G9 – Carepack adicional – **U7925E** - HP 5-year Next Business Day Onsite Desktop Hardware Support.

67V68AV#TMP – Z2 Tower G9 – Carepack adicional – **UA935E** - HP 5-year Next Business Day Response Onsite Workstation Hardware Support.

9Z0P1AV#TMP – EliteBook 640 G11 – Carepack adicional – **UA6A3E** - HP 5-year Next Business Day Response Onsite Notebook Hardware Support.

9A816AV#TMP – ZBook Power 16-inch G11 – Carepack adicional – **U85RBE** - HP 5y Onsite Mobile Workstation Support.

Declaramos que os equipamentos fabricados pela HP são novos, que não foram submetidos a uso, nem recondicionamento, ressalvados os testes de fábrica.

CPU Benchmarks

Over 1,000,000 CPUs Benchmarked

Intel Core Ultra 5 135U

Benchmarks for the Intel Core Ultra 5 135U can be found below. Release dates, price and performance comparisons are also listed when available. This is made using thousands of PerformanceTest benchmark results and is updated daily.

- The first graph shows the relative performance of the CPU compared to the 10 other common (single) CPUs in terms of PassMark CPU Mark.
- The 2nd graph shows the value for money, in terms of the CPUMark per dollar.
- The pricing history data shows the price for a single Processor. For multiple Processors, multiply the price shown by the number of CPUs.

Is the Intel Core Ultra 5 135U Good for Gaming?

This is relatively new CPU that contains 12 Cores and 14 Threads. The Intel Core Ultra 5 135U also has reasonable threaded performance that will serve well in games. Paired with a good videocard, *is this CPU Good for Gaming?* Yes, this would be a suitable CPU for gaming. [More ...]

Intel Core Ultra 5 135U	Average CPU Mark
Description: Intel Graphics	
Class: Laptop **Socket:** FCBGA2049	
Total Cores: 12 Cores, 14 Threads	
Performance Cores: 2 Cores, 4 Threads, 1.6 GHz Base, 4.4 GHz Turbo	
Efficient Cores: 10 Cores, 10 Threads, 1.1 GHz Base, 3.6 GHz Turbo	
Typical TDP: 28 W **TDP Down:** 12 W	
TDP Up : 57 W	
Cache per CPU Package: L1 Instruction Cache: 2 x 64 KB L1 Data Cache: 2 x 48 KB L2 Cache: 5 x 2048 KB L3 Cache: 12 MB **Cache per Eff. CPU Package:** Eff. L1 Instruction Cache: 10 x 64 KB Eff. L1 Data Cache: 10 x 32 KB	
Memory Support: Max. Memory Size: 96 GB (Up to LPDDR5/x 7467 MT/s Up to DDR5 5600 MT/s)

EXPORT PRODUCT SUMMARY

EPEAT Tier Score Detail

For a product to be listed on the EPEAT Registry, it must, at a minimum, meet the applicable "required" criteria. Click here to see a list of the required criteria for this product category.

This product has met the necessary required criteria.

Along with required criteria, products can also meet optional criteria and score optional points. It is not required for a product to achieve any optional points.

Products that meet all required criteria and achieve **less than 50%** of the optional points are rated at **EPEAT Bronze**	Products that meet all required criteria and achieve **50 - 74%** of the optional points are rated at **EPEAT Silver**	Products that meet all required criteria and achieve **75 - 100%** of the optional points are rated at **EPEAT Gold**

The optional criteria for this product category and optional points achieved by this product are listed below.

Optional Criteria	Scores
4.1 Substance Management	13 / 16
4.2 Materials Selection	2 / 2
4.4 Product longevity/life-cycle extension	3 / 4
4.5 Energy Conservation	2 / 3
4.7 Packaging	2 / 2
4.8 Life cycle assessment and carbon footprint	6 / 6
4.9 Corporate Environmental Performance	9 / 9
4.10 Corporate social responsibility	4 / 6
TOTAL OPTIONAL CRITERIA SCORE:	**41 / 48**

Please note that it is not required for a

Some optional criteria may not be applicable to a product. Optional criteria that are not applicable

product to achieve any optional points.

(N/A) to the product are not included in the Total Optional Criteria Score, and are not reflected above.

TECHNICAL WHITEPAPER

HP WOLF SECURITY

HP Secure Erase for SSDs & HDDs

Safely and effectively erase sensitive data

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 193

HP Secure Erase is a critical resource for IT

IT administrators are tasked with protecting sensitive data on business PCs, even after devices are recycled, disposed of, or reprovisioned. HP Secure Erase[1] makes it easy to sanitize local magnetic hard disk drives (HDDs) or solid-state drives (SSDs) to industry standards before disposal or recycling.

TABLE OF CONTENTS

Local storage sanitation– an important last step in the PC lifecycle	2
Erasing SSDs vs. HDDs	2
Conclusion	3

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 194

Local storage sanitation—an important last step in the PC lifecycle

In an environment where sensitive user information is under attack at every stage of the system lifecycle, ensuring that data can be securely erased from a data storage device is paramount. Information can be vulnerable if left on a storage drive when a system is recycled, disposed of, or reprovisioned for another user. Properly sanitizing storage drives according to industry standards is a critical step in the PC lifecycle.

In addition to meeting industry standards for data erasure in standard magnetic hard disk drives (HDDs), HP has taken the additional step of extending HP Secure Erase to also support industry-standard Solid State Drives (SSDs). HP Secure Erase is a standard feature in all HP business notebooks, supporting the methods outlined in the National Institute of Standards and Technology Special Publication 800-88. Manufacturers of industry standard SSDs approved for use in HP business notebook products have verified that running HP Secure Erase on their SSDs fully removes all user data so that it cannot be recovered.

Erasing SSDs vs. HDDs

Using HP Secure Erase on standard HDDs, data is overwritten using a data-removal algorithm that writes multiple patterns on every sector, cluster, and bit of the hard drive. This process is documented in the Department of Defense (DOD) 5220.22-M Chapter 8 specification.[2] This overwrite-based process is only effective on standard HDDs. Writing a predetermined data pattern to a NAND flash-based SSD does not result in an empty drive. Instead it results in a drive full of data that must be erased before new user data can be written, which massively shortens the service life.

INDUSTRY-STANDARD DISK SANITATION

To securely erase all user data from an SSD and restore the drive to a fresh-out-of-box (FOB) performance state, the National Institute of Standards Technology (NIST) supports the following commands that meet the minimum guideline for media sanitization of SSDs (NIST SP800- 88 Rev.[1]).

Block Erase is a function enabled only in SATA SSDs, using the ATA command BLOCK ERASE EXT. Block Erase will instruct the SSD controller to apply an erase voltage to all NAND cells of the device (including any cells which form blocks that have been retired, re-allocated, involved in garbage collection or

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 195

over-provisioning, or are part of a reserved pool of spare blocks). This functionality provides a very fast, complete and robust erasure of the SSD.

Crypto Erase is a function enabled only in SATA SSDs. Using the ATA command CRYPTO SCRAMBLE EXT, this function removes the encryption key effectively making it impossible to reconstruct any of the data on the storage device. Crypto Scramble is implemented on both HDD and SSD SED devices.

Block Erase and Crypto Erase Sanitize Operation is a function enabled only in PCIe NVMe SSDs. NVMe does not follow conventional ATA feature sets. Instead, NVMe devices support a sanitization function, inside their FORMAT NVM command structure that includes BLOCK ERASE SANITIZE and CRYPTO ERASE SANITIZE operation. So, by setting some specific bits in this command structure, a function similar to Secure Erase can be carried out.

WHAT DATA IS NOT ERASED?

After deploying HP Secure Erase on an SSD, all data in the user space is completely and irretrievably erased, and every block in the user space is ready to accept new host-written data, which moves the drive to its highest performance state (FOB).

However, some data must be left in place, including data required for normal drive operation: SSD firmware copies that reside in the NAND, all SMART data, and retired NAND block mapping tables.

CONCLUSION

Writing or overwriting data to drive is the accepted practice of securely eliminating data from an HDD. However, in the case of NAND flash-based SSDs, overwriting is redundant, unnecessary, and a potentially insecure method of eliminating data.

By using HP Secure Erase, users can ensure that SSDs are completely sanitized and meet the minimum industry standards. HP Secure Erase is easily enabled through the standard F10 BIOS setup process on most HP business PCs.

LEARN MORE AT HP.COM/WOLFSECURITYFORBUSINESS

HP WOLF SECURITY

[1] For the methods outlined in the National Institute of Standards and Technology Special Publication 800-88 “Clear” sanitation method. Secure Erase does not support platforms with Intel® Optane™. HP Secure Erase does not support platforms with Intel® Optane.

[2] Specification 5220.22-M no longer exists. The DoD has subsequently decided that secure information must be destroyed to remain secure. The NIST guidelines restate in clear terms that a two-person rule (read human verification) shall be implemented but did not establish guidelines on the method of sanitization (it could be a single wipe with dual human verification, or a single destruction with the same).

Conclusion 24

Appendix A - HP Sure Start, Gen by Gen 25

Appendix B - System Management Mode (SMM) Overview 26

Appendix C - NIST SP 800-193: Platform Resiliency Guidelines 27

Introduction

HP Sure Start is a comprehensive security and advanced resilience firmware solution. Going well beyond system BIOS protection, HP Sure Start protects against firmware attacks and/or accidental corruption for the majority of boot-critical system firmware.

With little or no interruption to user productivity, HP Sure Start can automatically detect, stop, and recover from attacks or corruption without IT intervention. Every time the PC powers on, HP Sure Start automatically validates the integrity of the firmware to help ensure that the PC is safeguarded from malicious attacks. Once the Operating System is running on the PC, runtime intrusion detection constantly monitors memory. In the case of an attack, the PC can self-heal using an isolated "golden copy" of the firmware in minutes.

Why is firmware protection important?

As our world becomes more connected, cyber-attacks are targeting client device firmware and hardware with increasing frequency and sophistication. Tools and techniques to attack firmware were once theoretical and thought only to be available to nation-states. Such tools and techniques have since been shown to not only exist, but to be readily available in the public domain.

The critical device firmware (HP BIOS, HP Endpoint Security Controller firmware, Intel Management Engine Firmware, AMD Security Processor Firmware, etc.) is an attractive target for attackers because of the potential advantages a successful breach could provide:

Persistence: Firmware resides in a nonvolatile memory on the circuit board and can't be removed simply by erasing the hard drive.

Control: Firmware executes at the highest privilege level—outside of the OS domain— which enables the possibility of OS-independent malware.

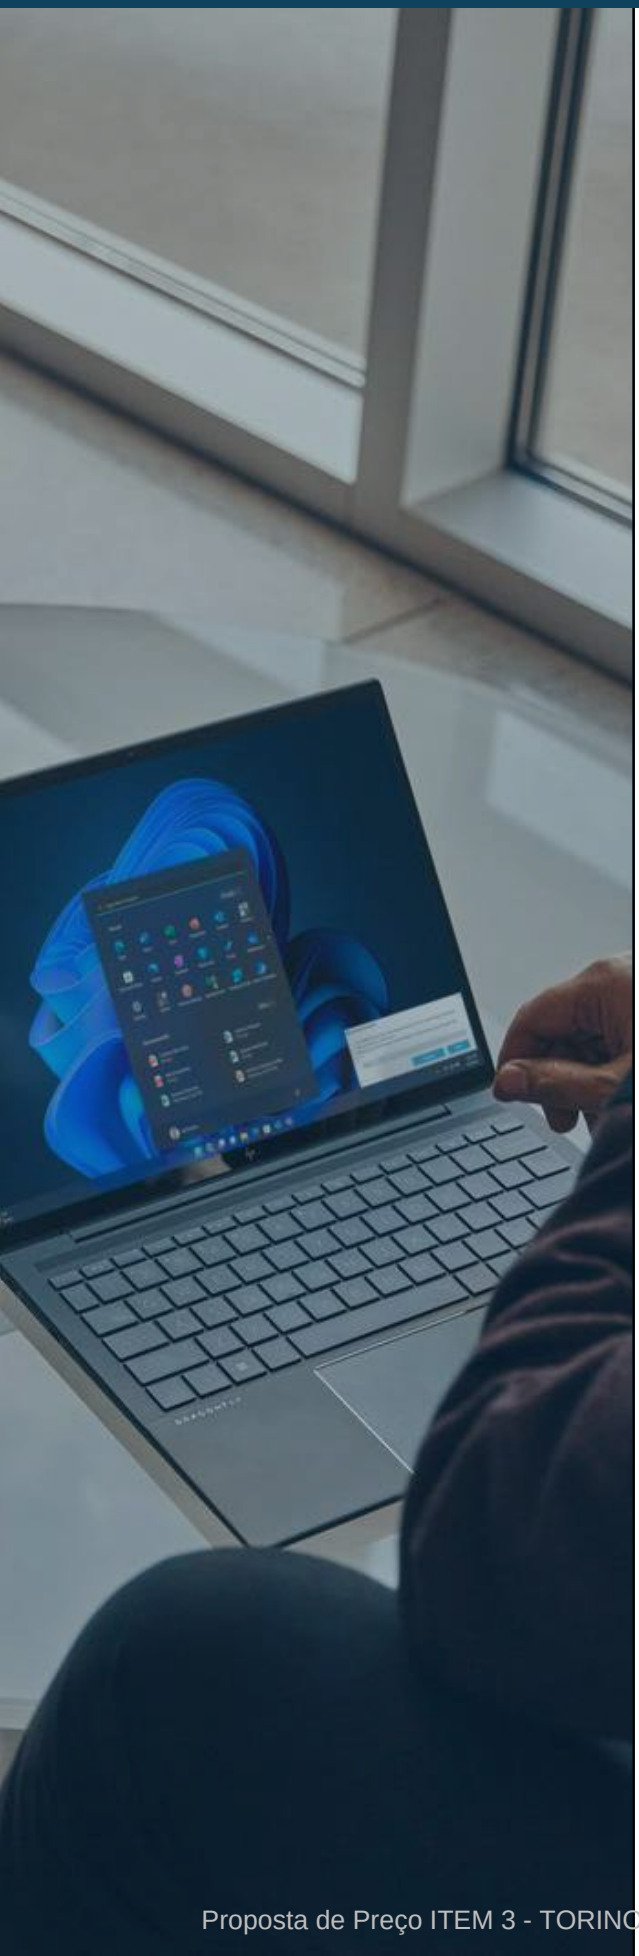
Stealth: Firmware occupies a region of memory that is completely inaccessible to the operating system and system software; since it can't be scanned by antivirus it may never be detected.

Difficulty of recovery: All these aspects make it extremely difficult to recover from this type of infection without resorting to a service event that includes a system board replacement.

The ideal solution to protect devices against this type of attack is designed from the hardware up, using “cyber resiliency” principles. These principles acknowledge that it is extremely difficult, if not impossible, to foresee and prevent every possible attack. The ideal solution not only provides enhanced protection of the firmware, but also includes a hardware rooted ability to both detect a successful attack and recover from it.

HP Sure Start provides superb firmware protection

HP Sure Start is HP’s unique and groundbreaking approach to provide advanced firmware protection and resiliency to HP PCs. It uses hardware enforcement via the HP Endpoint Security Controller (HP ESC) to provide protection of the BIOS and other critical platform firmware that reaches well beyond the industry standard and ensures that the system will only boot Genuine HP BIOS and other critical firmware. Additionally, if HP Sure Start detects tampering with BIOS, other critical firmware, or runtime System Management Mode (SMM) BIOS code, it can recover using a protected backup copy.



Summary of HP Sure Start features:

HP platform firmware authenticity enforcement and tamper protection
HP Endpoint Security Controller hardware enforcement of the system boot, so only authentic and unmodified critical firmware and HP BIOS are loaded.

Firmware health monitoring and compliance
Logging of firmware health-related events via isolated HP Endpoint Security Controller; presents the platform firmware state along with any anomalies that could indicate thwarted attacks.

Self-healing
Automatic repair of HP BIOS and other critical firmware corruption, using the HP Endpoint Security Controller isolated backup copy of HP BIOS and other critical firmware.

BIOS setting protection
Extension of the HP Endpoint Security Controller protection of the BIOS code to include HP ESC backup and integrity-checking of all user or admin- configured BIOS settings.

Runtime Intrusion Detection
Ongoing monitoring of critical BIOS code in runtime memory (SMM) while the OS is running.

Secure boot keys protection
Significantly enhanced protection of databases and keys stored by the BIOS that are critical to the integrity of the OS secure boot feature versus standard UEFI BIOS implementation.

Protected storage
Strong cryptographic methods to store BIOS settings, user credentials, and other settings in the HP Endpoint Security Controller hardware to provide integrity protection, tamper detection, and confidentially protection for that data.

Intel® Management Engine firmware protection
Full backup, integrity monitoring, and recovery services for Intel Management Engine firmware and critical data. Fully compliant with all NIST 800-193 resilience requirements.

AMD Secure Processor firmware protection
Full backup, integrity monitoring, and recovery services for AMD Secure Processor firmware and critical data. Fully compliant with all NIST 800-193 resilience requirements.

Manageability
Administrator management of HP Sure Start capabilities with the Manageability Integration Kit (MIK) plug-in for Microsoft® System Center Configuration Manager (SCCM).

Direct Memory Access (DMA) Protection
Utilizes the I/O Memory Management Unit (IOMMU) to provide hardware protection against attacks to system memory via DMA capable thunderbolt devices. Also enables support for Microsoft. "Kernel DMA Protection for Thunderbolt™ 3" (Win10 RS4 and forward). HP Sure Start Gen6+ also extends support for protection against DMA attacks beyond external thunderbolt devices to include DMA attacks via internal slots.

For a summary of capabilities added in each generation of HP Sure Start, see Appendix A.

Third-party security certification

The HP Endpoint Security Controller hardware used in HP Sure Start has undergone third- party security assessment and has been certified to provide hardware enforcement so that only authorized firmware can start on the target PC.[1]

Assurance that a security solution works as stated is a critical piece of any purchase decision related to security products. And because a reputation for quality can only go so far, HP has exposed the HP Endpoint Security Controller inner workings for review and testing by an independent and accredited laboratory to validate that it works as claimed per publicly available criteria, methodology, and processes.

Cyber-resilient design

Not only does HP Sure Start provide enhanced BIOS protection beyond the industry standard approach, but it is designed from the hardware up to provide unmatched platform cyber-resilience to ensure critical device firmware recovery even in the event of a breach or destructive attack.

All HP Sure Start Gen6+ systems include the ability to recover from a completely erased system flash. The system flash contains the majority of the boot critical firmware elements that are required to boot the system and have reasonable functionality. Those boot critical elements include system BIOS, HP Endpoint Controller firmware, video BIOS, Intel Descriptor Region firmware, AMD Secure Processor firmware, and Intel Management Engine firmware. If any one of these firmware elements in the system flash becomes corrupted in a manner that renders that subsystem non-functional, the system will be unable to boot. With an HP Sure Start Gen5+ system, all these components are restored from the HP Sure Start private flash in order to ensure that the system does not become non-operational due to firmware attack or corruption.

HP business PCs with HP Sure Start exceed the National Institute of Standards and Technology (NIST) Platform Firmware Resiliency guidelines (Special Publication 800- 193) for host processor boot firmware and other critical platform device firmware, as discussed in Appendix C. NIST SP 800-193 is one of the leading public sector efforts to formalize requirements for cyber-resilient platforms. For more details about HP Sure Start and NIST 800-193, see Appendix C.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 202

HP Sure Start – Supported models

HP introduced Sure Start in 2013. Since that time, HP has enhanced Sure Start and expanded the number of products that include it. HP Sure Start is available on many HP business PCs, including Pro and Elite, platforms, Workstations, Thin Clients, and Point of Sale Systems (RPOS). HP Sure Start is available on both Intel and AMD platform in this lineup.

Architectural overview and capabilities

HP Sure Start consists of two major architectural components:

- HP Endpoint Security Controller running HP Sure Start firmware
- HP Sure Start BIOS working in conjunction with the HP Endpoint Security Controller hardware and firmware.

Firmware integrity verification - The core of HP Sure Start

The HP Endpoint Security Controller (HP ESC) is the first device in the system to execute firmware when the system powers on, active well before the system boots. The HP ESC activities include, but are not limited to, monitoring the system power button and power sequencing, then start of the host CPU execution when the user presses the power button.

When power is first applied to the platform (before the system is turned on), the HP ESC validates that its own firmware is authentic HP code before loading and executing the code. The HP ESC hardware uses industry-standard, strong cryptographic methods to perform the integrity verification. The method employs a 2048-bit HP RSA public key contained within internal permanent read-only memory. Therefore, the HP ESC is the built-in hardware-based Root of Trust (RoT) for the platform, used to validate its firmware and the HP BIOS before they are executed. This hardware Root of Trust protects against firmware replacement attacks regardless of their deployment method and serves as the foundation upon which HP platform security is built.

Figure 1:
Firmware integrity verification process

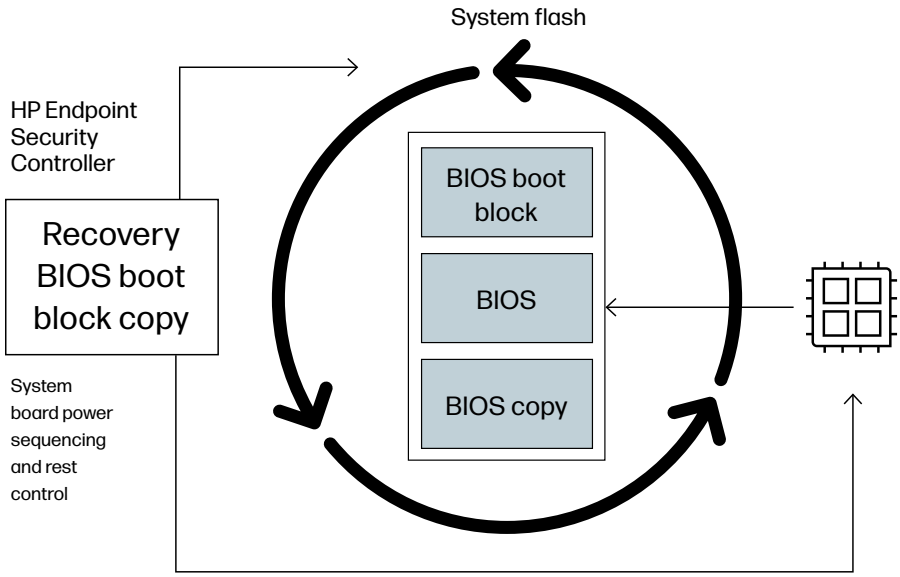

Figure 1 illustrates the firmware integrity verification process. Once the HP ESC authenticates and starts executing the HP Sure Start firmware, that firmware uses the same strong cryptographic operations to verify the integrity of the system flash BIOS boot block. If a single bit is invalid, the HP ESC replaces the system flash contents with its own copy of the HP BIOS boot block that is stored within an isolated nonvolatile memory (NVM) dedicated to the HP ESC.

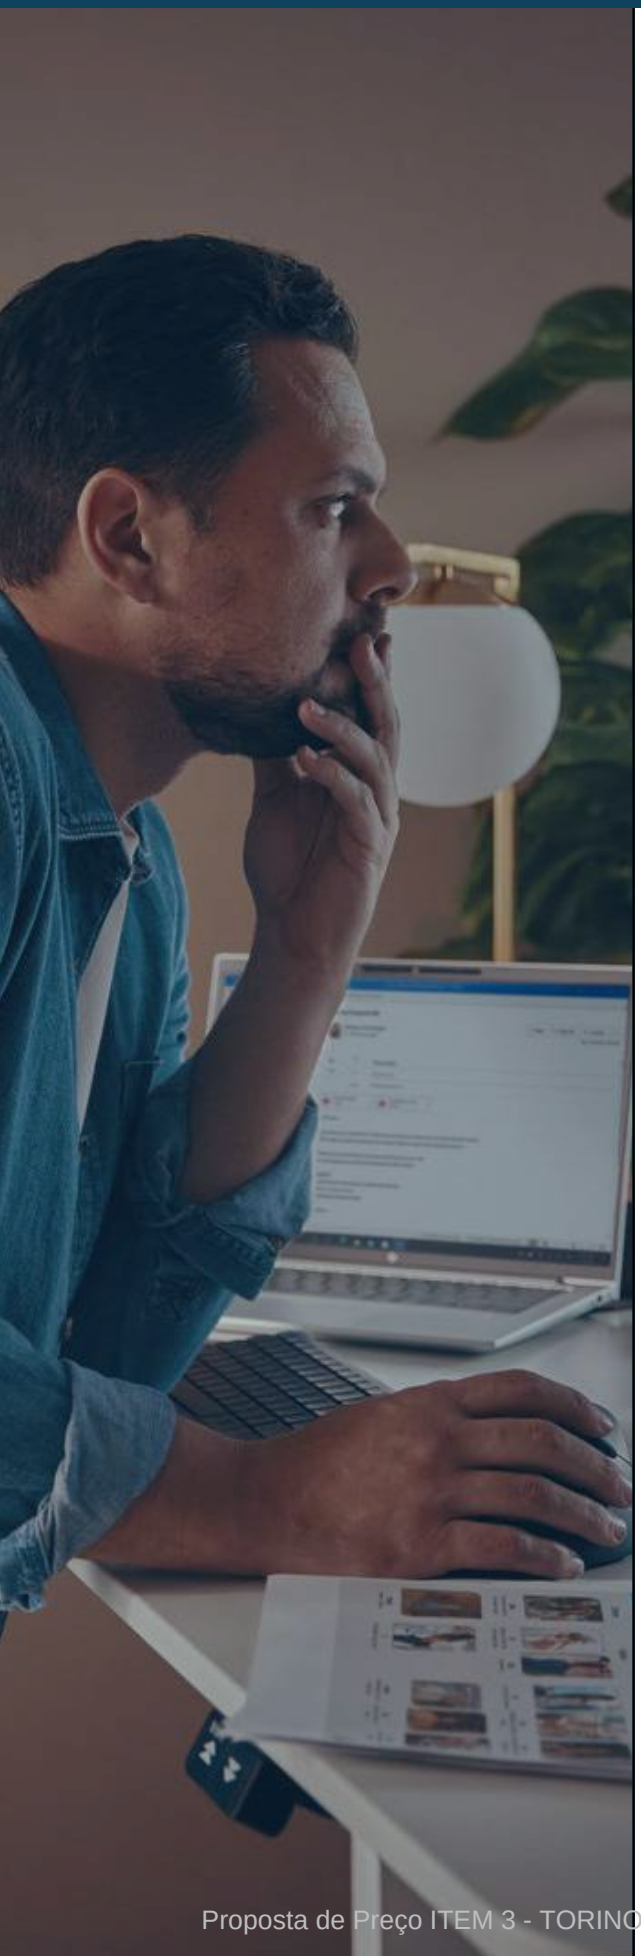
The HP Sure Start design ensures that all the firmware and BIOS code running on both the HP ESC and the host CPU is the code HP intended to be on the device.*



The system flash BIOS boot block is the foundation of the HP BIOS. The HP ESC hardware ensures that the BIOS boot block is the first code that the CPU executes after a reset. Once the HP ESC determines that the BIOS boot block contains authentic HP code, it allows the CPU to begin executing code and the system to boot as it normally would.

The HP ESC also checks the integrity of the system flash boot block code each time the system is turned off or put into a hibernate or sleep mode. Since the CPU is powered off in each of these states and the CPU is therefore required to re-execute BIOS boot block code to resume, it is crucial to re-verify the integrity of the BIOS boot block each time before the CPU starts at power-on to check for tampering.

Additionally, for HP Intel models, HP Sure Start checks the integrity of the system flash BIOS boot block every 15 minutes while the system is running[2].

* Note:
The system flash boot block integrity checking, and any needed recovery performed by the HP ESC, take place while the host CPU is off. Therefore, from a user point of view, the entire operation takes place when the system is still off, in sleep mode, or hibernate mode.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 204

Machine-unique data integrity

The HP ESC and BIOS work together to provide advanced protection of factory-configured critical variables unique to each machine that are intended to be constant over the life of any specific platform. In the factory, a backup copy of this variable data is saved in the HP ESC nonvolatile memory store. The backup is made available to the HP Sure Start BIOS component on a read-only basis to perform integrity checking of the data on every boot. If any setting in the shared flash is different from the factory settings, the HP Sure Start BIOS components will automatically restore the data in the System Flash from the backup copy provided by the HP ESC.

Descriptor region

For HP Intel models, HP Sure Start protects the descriptor region of the system flash. Unique to Intel architecture, the descriptor region contains critical configuration parameters that are sampled by the Intel Core™ logic at reset and used thereafter to configure the Core logic. The descriptor region also includes partitioning information for the system flash that is used by the Intel Core logic to determine where the BIOS region resides within the flash and therefore where their CPU retrieves code for execution from reset. HP Sure Start monitors the integrity of this region and recovers it to the intended configuration in the event of tampering or corruption.

Network controller protection

In addition, for HP Intel models, HP Sure Start protects the network controller (NIC) settings contained with the system flash. Some HP customers have use cases that require legitimate changes to factory configured NIC settings. Therefore, HP Sure Start does not prevent changes to NIC settings by default. Instead, HP Sure Start provides a feature that, when enabled, warns the user that NIC settings have changed. In addition, HP Sure Start provides a method to restore the NIC settings to factory values. Protected settings include the MAC address, the Pre-boot Execution Environment (PXE) settings, and the remote initial program load (RPL). This restoration is possible via a read-only backup copy protected by the HP ESC.

BIOS setting protection

As previously described, HP Sure Start verifies the integrity and authenticity of the HP BIOS code. Since this code is static after it is created by HP, digital signatures can be used to confirm both attributes of the code. The dynamic and user-configurable nature of BIOS settings, however, create additional challenges to protecting those settings. Digital signatures cannot be generated by HP and used by the HP Sure Start ESC hardware to verify those settings.

HP Sure Start BIOS setting protection provides the capability to configure the system so the HP ESC hardware is used to back up and check the integrity of all the BIOS settings preferred by the user.

When this feature is enabled on the platform, all policy settings used by BIOS are subsequently backed up and an integrity check is performed on each boot to ensure that none of the BIOS policy settings have been modified. If a change is detected, the system uses the backup from the HP Sure Start-protected storage to automatically revert to the user-defined setting.

The HP Sure Start BIOS setting protection feature generates events to the HP Sure Start ESC hardware when an attempt to modify the BIOS settings is detected. The event is logged in the HP Sure Start audit log, and the local user will receive a notification from BIOS during boot.

HP SureStart - Protected storage

Protected storage rooted in the HP Endpoint Security Controller hardware provides the highest level of protection for BIOS/firmware data and settings protected by HP Sure Start. HP Sure Start-protected storage is designed to provide confidentiality, integrity, and tamper detection even if an attacker disassembles the system and establishes a direct connection to the nonvolatile storage device on the circuit board.

Data integrity

The integrity of the dynamic data stored in nonvolatile memory by firmware and used to control the state of various capabilities is critical to the security posture of the overall platform. Dynamic data includes all BIOS settings that can be modified by the end user or administrator of the device. Examples include (but are not limited to) boot options such as the secure boot feature, BIOS administrator password and related policies, Trusted Platform Module–state control, and HP Sure Start policy settings.

Any successful attack that bypasses the existing access restrictions designed to prevent unauthorized modifications to these settings could defeat the platform security. As an example, consider a scenario where an attacker makes an unauthorized modification to the secure boot state to disable it without being detected. In this scenario, the platform would boot the attacker's root kit before the OS starts, without the user's knowledge.

Industry-standard Unified Extensible Firmware Interface (UEFI) BIOS does implement access restrictions that should prevent unauthorized modifications to these variables, and HP implements these just like the rest of the PC industry. However, given the risks a breach of these mechanisms poses to the platform, HP Sure Start provides secondary defenses that are stronger than the baseline industry standard.

BIOS settings and other dynamic data used by firmware to control the state that is protected by HP Sure Start are stored in the isolated nonvolatile memory of the HP Endpoint Security Controller that is not directly accessible to software running on the host CPU.

Additionally, the HP ESC creates and appends unique integrity measurements each time a data element is stored in this nonvolatile memory store. The integrity measurements are based on a strong cryptographic algorithm (hashed-based message authentication code utilizing SHA-256 hashing) that is rooted to a secret contained within the HP ESC. The secret is unique to each HP ESC, such that each controller generates a unique integrity measurement given an identical element. When the data element is read back from the nonvolatile memory, the HP ESC recalculates the integrity measurement for that data element and compares it to the integrity measurement that is appended to the data. Any unauthorized changes to the data in the nonvolatile memory store result in a mis-compare. Using this approach, the HP ESC can detect tampering with data elements stored in the nonvolatile memory store.

Data confidentiality

For many of the data elements stored by the platform, maintaining confidentiality is critical. Examples include BIOS administrator password hashes, user credentials, and secrets optionally stored by firmware on behalf of the user for firmware-based features such as HP Sure Run and HP Sure Recovery.

Protection of these secrets is challenging when industry-standard UEFI BIOS approaches are used, since the nonvolatile storage is typically readable by software running on the host processor. HP Sure Start–protected storage is intended to provide much greater protection of this confidential data than a standard UEFI BIOS implementation.

In addition to a separate isolated storage, HP Sure Start leverages the Advanced Encryption Standard (AES) hardware block contained within the HP ESC to perform AES-256 encryption on all confidential data elements stored in the HP Sure Start nonvolatile memory, in addition to the data integrity measurements for those elements. The encryption key used is unique to each HP ESC and never leaves that controller, so data encrypted by any individual HP ESC component can only be decrypted by that same HP ESC.

Secure boot keys protection

Compared to the industry-standard UEFI secure boot implementation, HP Sure Start provides enhanced protection of the UEFI secure boot key databases that are stored by the firmware. These variables are critical to proper operation of the UEFI secure boot feature that verifies integrity and authenticity of the OS bootloader before allowing it to start at boot.

HP Sure Start protects UEFI secure boot key databases by maintaining a master copy in HP Sure Start–protected storage.

Any authorized modifications to the UEFI standard secure boot key databases by the OS during runtime are tracked by HP Sure Start and applied to the master copy by the HP ESC. HP Sure Start then uses the master copy in HP Sure Start– protected storage to identify and reject any unauthorized changes to the UEFI standard secure boot keys databases.

This capability, enabled by default, covers the following databases:

- Signature database (db)
- Revoked signatures database (dbx)
- Key Enrollment Key (KEK)
- Platform Key (PEK) updated dynamically at runtime by the OS

Runtime Intrusion Detection (RTID)

On each boot, the BIOS code starts execution from flash memory at a fixed address. This is known as the BIOS boot code and provides capabilities needed before the OS starts. However, a portion of BIOS remains in DRAM that is needed to provide advanced power- management features, OS services, and other OS-independent functions while the OS is running. This BIOS code, referred to as System Management Mode (SMM) code, resides in a special area within the DRAM that is hidden from the OS. We also refer to this code as "runtime" BIOS code in the context of HP Sure Start's Runtime Intrusion Detection feature. (For more details on SMM and how it works, please see Appendix B.)

The integrity of SMM code is critical to the client device security posture. HP Sure Start checks to make sure HP SMM BIOS code is intact at OS start. By adding new protection capabilities and/or providing a means to detect any attack to that code, Runtime Intrusion Detection provides mechanisms to ensure that the SMM BIOS code remains intact while the OS is running.

Figure 2

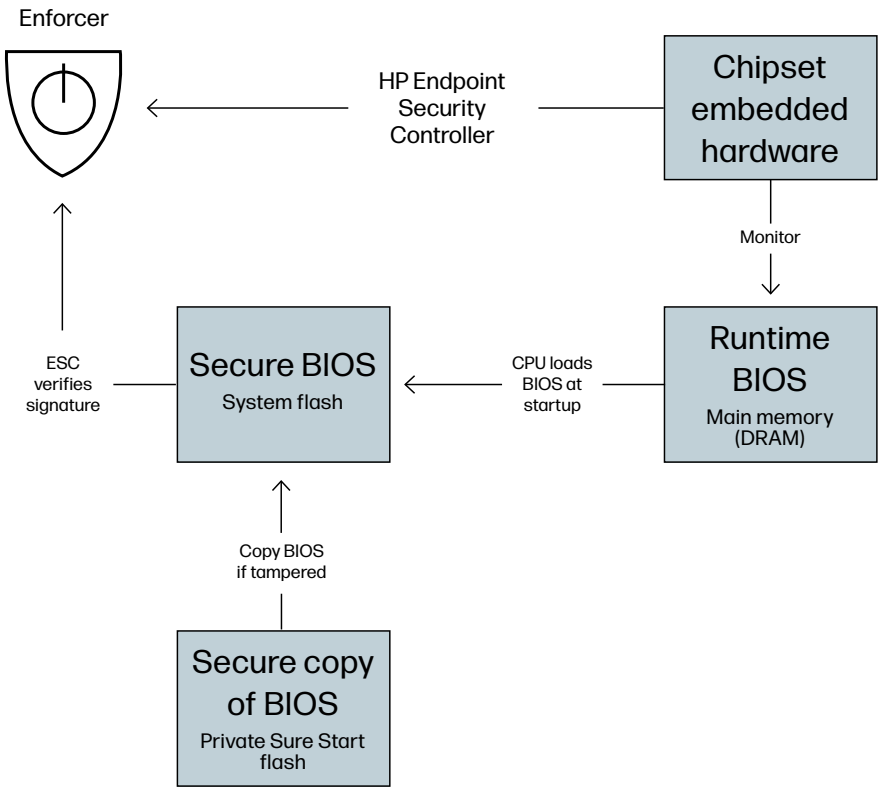


Figure 2:
Runtime Intrusion Detection uses specialized hardware embedded within the platform chipset to monitor SMM code for any changes.

Runtime Intrusion Detection architecture

The RTID feature utilizes specialized hardware in the platform chipset to detect anomalies in the Runtime HP SMM BIOS. Detection of any anomalies results in a notification to the HP Endpoint Security Controller, which can take the configured policy action independent of the CPU.

Intel® Management Engine firmware protection

All HP Sure Start Gen6+ systems include the ability to fully recover from corrupted Intel Management Engine firmware and/or critical data associated with the Intel Management Engine subsystem.

In those systems that include support for HP Sure Recover with Embedded Reimaging, HP Sure Start Gen6+ is able to recover the entire Intel Management Firmware using a copy of Intel Management engine firmware stored on the Embedded Reimaging device on the system board with no additional dependencies.

On HP Sure Start Gen6+ systems that do not support Embedded Reimaging, HP Sure Start uses a copy of the Intel Management firmware that is included on the system EFI partition on the primary mass storage device for full recovery.

In the event that the Intel Management Engine firmware update has been removed from the EFI partition, HP Sure Start Gen6+ will only perform a partial recovery of the Intel Management Engine firmware and/or critical data from the HP Sure Start private flash that will enable the system to operate with reasonable functionality. In order to fully restore all functionality provided the Intel Management Engine Firmware, it will be necessary to apply an update to the intel Management Firmware Engine firmware which will restore the full recovery image to the EFI partition.

Customers that deploy their own OS images need to take some additional steps to ensure that HP Sure Start Gen6+ can fully recover the Intel Management Engine Firmware with complete autonomy. Those steps include creating a system EFI partition that is at least 360MB, and applying an HP Intel Management Engine firmware update package.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 210

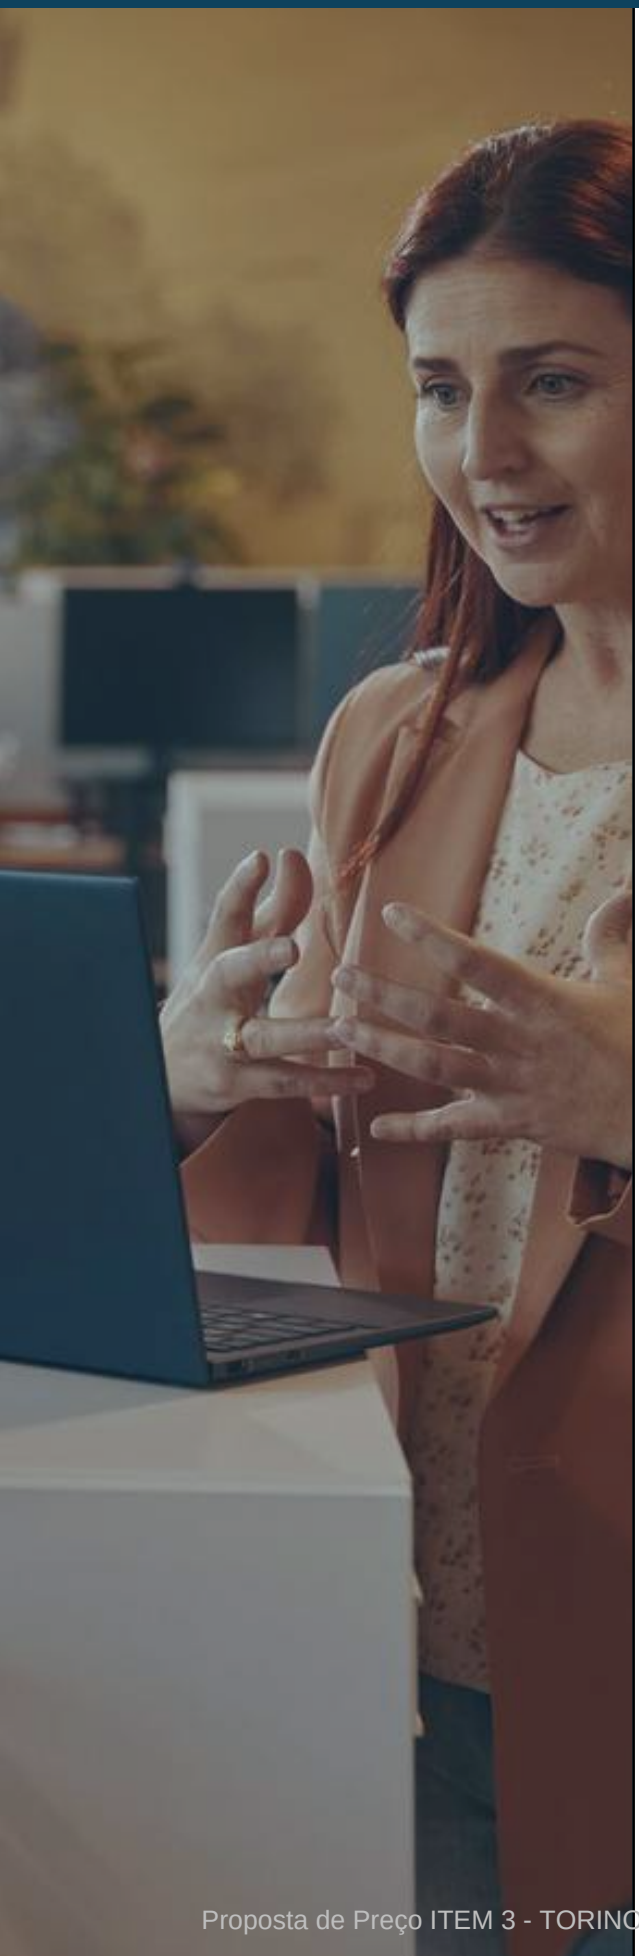
AMD® Secure Processor protection

All HP Sure Start Gen6+ systems include the ability to fully recover from corrupted AMD Secure Processor firmware and/or critical data associated with the AMD Secure Processor subsystem.

HP Sure Start Gen6+ is able to recover the entire AMD Secure Processor subsystem using a copy of AMD Secure Processor firmware stored within the HP Endpoint Security Controller isolated non-volatile memory with no additional dependencies.

Smart Flash

HP Sure Start Gen6+ adds Smart Flash technology which can dramatically reduce the time required for firmware updates and Sure Start firmware recovery operations. With Smart Flash, the HP Endpoint Security Controller will only modify those portions of the flash are corrupted (recovery) or changed (update) for both the HP Endpoint Security Controller backup copies of firmware and the primary copies of firmware in the primary flash.update package.



HP Endpoint Security Controller runtime intrusion detection

Starting from HP Sure Start Gen6+, the HP Endpoint Security Controller firmware utilizes a hardware Memory Protection Unit within the HP Endpoint Security Controller to detect, block, and log an event in the event of any unauthorized attempt to modify the run-time HP Endpoint Security Controller run-time code or critical data.

FIPS 140-3 Certification

FIPS (Federal Information Processing Standards Publication 140-3, is a standard developed by the National Institute of Standards and Technology (NIST) and defines the security requirements for cryptographic modules used in various IT products. HP's ESC, beginning with Sure Start Gen 7, has received level 1 certification (FIPS 140-3 Certificate), which ensures that the cryptography used in these modules provides a secure environment for the processing of sensitive information.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 211

SPI Host Interface Monitoring

The HP ESC now integrates SPI (Serial Peripheral Interface) Protocol Analyzer hardware, which enables HP Sure Start Gen7 to protect the system against malicious/unauthorized activity on the SPI bus. The SPI bus is the interface between the CPU and system flash memory holding the system firmware and settings (such as HP UEFI BIOS, Intel CSME firmware, AMD Security Processor firmware, and more). The HP ESC SPI protocol analyzer is also connected to this SPI bus and configured by HP Sure Start to monitor and analyze the SPI bus traffic in real time to identify and block malicious transactions to the SPI flash.

User notifications, event logging, and policy management

HP Sure Start end user notifications

Under normal operating conditions, HP Sure Start is invisible to the user. When HP Sure Start identifies a problem, recovery operations are automatic, using the default settings with no end user or IT interaction usually required.

Users may see runtime notifications in the event of a BIOS integrity problem detected via the HP Sure Start Dynamic Protection or the Runtime Intrusion Detection features while the OS is running[2]. If any significant event is detected or action is taken, HP Sure Start displays a warning message via Windows® notifications on the next boot. HP Notifications Software is required to enable the viewing of these Windows notifications.

HP Sure Start event logging

The HP Endpoint Security Controller records critical events related to the firmware/BIOS code and data monitored by HP Sure Start. These events are stored within the Sure Start nonvolatile memory store. When HP Notifications software is installed, the events are copied from the HP ESC to the Windows Event Viewer[3] to facilitate access to these events by the local user as well as the customer's preferred manageability agent.

The following events trigger the HP Notifications Software to gather all events from the HP Sure Start subsystem and ensure that the Windows Event Viewer is updated with any events that are not already recorded there:

- Windows Boot
- Windows Resume from Sleep/Hibernate
- HP Sure Start with dynamic protection runtime event notifications
- HP Sure Start Runtime Intrusion Detection (RTID)

HP Notifications Software populates HP Sure Start events into a unique "HP Sure Start" application event log. Only HP Sure Start events will be included in this log. The Windows Event Viewer path to the HP Sure Start events is the following: System Tools/Event Viewer/ Applications and Services Logs/HP Sure Start.

The Windows Event Viewer level categories related to HP Sure Start events are defined in Table 1. The events are populated into Windows Event Viewer in the order that they were generated by HP Sure Start. The oldest event in the HP Sure Start subsystem is added to the Windows Event Viewer first and the most recent event is added last.

The timestamp for each Windows Event Viewer entry is the time it was added to that log, NOT the time the event occurred. Each Sure Start Windows Event Viewer entry includes detailed data within the event details, which includes the timestamp of the actual occurrence.

Note: Events are persistent in the HP Endpoint Security Controller even after being copied to the Windows Event Viewer. If the Windows Event Viewer is cleared, the HP Notifications Software application will replace all HP Sure Start entries on the next event that triggers it to check for HP Sure Start event logs.

Table 1:
Types of HP Sure Start Windows Event Viewer events protection and resiliency

Event Level	Definition
Info	Events that are expected to occur during the normal course of operation (e.g., updating the BIOS).
Warning	Unexpected events that have occurred but were fully recovered from by HP Sure Start and no user/admin action is required for the platform to be fully operational. These events are anomalous operations that the user/admin may want to investigate further, especially if there is a trend of these events across multiple machines.
Error	Events that require the admin/HP service to act on the platforms to fully recover.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 213

HP Sure Start provides superb firmware protection

Out of the box, the HP system BIOS enables and optimizes HP Sure Start policies for the typical user. Since HP Sure Start is enabled by default, the typical user is protected by HP Sure Start without having to modify the settings. For advanced users, the system BIOS provides some control of HP Sure Start behavior, using policy settings in the (F10) BIOS Setup. Unless otherwise noted, these settings and functions are located under Security/BIOS Sure Start.

Note: Policies are stored within the HP ESC nonvolatile memory that is not directly accessible by the host CPU; therefore, a reboot is required before any Sure Start settings take effect.

The following HP Sure Start settings and functions are available:

- Verify Boot Block on Every Boot
- BIOS Data Recovery Policy
- Network Controller Configuration Restore (Intel only)
- Prompt on Network Controller Configuration Change (Intel only)
- Dynamic Runtime Scanning of Boot Block (Intel only)
- HP Sure Start BIOS Setting Protection
- HP Sure Start Secure Boot Keys Protection
- Enhanced HP Firmware Runtime Intrusion Prevention and Detection (Intel only)
- HP Firmware Runtime Intrusion Detection (AMD only)
- HP Sure Start Security Event Policy
- HP Sure Start Security Event Boot Notification
- Lock BIOS Version
- Save/Restore MBR of System Hard Drive
- Save/Restore GPT of System Hard Drive
- Boot Sector (MBR/GPT) Recovery Policy
- DMA Protection
- DMA Pre-boot Protection

Verify Boot Block on Every Boot

HP Sure Start always verifies the integrity of the system flash BIOS boot block before resuming from sleep, hibernate, or power-off. When set to enable, HP Sure Start will also verify the integrity of the boot block on each warm boot (Windows restart). The trade-off to consider is faster restart time versus more security. The default setting of this feature is set to “Disable”.

BIOS Data Recovery Policy

When set to Automatic, HP Sure Start automatically repairs the BIOS or the Machine Unique Data when necessary. When set to Manual, HP Sure Start requires a special key sequence to proceed with the repair. In the case of an issue with the boot block code, the system will refuse to boot, and a unique blink sequence will flash on the system LED. The system LED that lights may vary by platform and by instance. In the case of an issue with the Machine Unique Data, the system will display a message on the screen. The key sequence required, and the blink sequence displayed, vary depending whether the system is a notebook, a desktop, or a tablet. Manual mode is useful to users who can perform forensics on the system flash contents before repair. Typical users are not encouraged to use manual mode. The default setting of this feature is set to “Automatic”.

Network Controller Configuration Restore (Intel only)

When selected, HP Sure Start immediately restores the network controller configuration to factory defaults.

Prompt on Network Controller Configuration Change (Intel only)

HP provides a factory-defined network controller configuration which includes the MAC address. When this setting is set to enable, the system monitors the state of the network controller configuration and prompts the user in the event of a change from the factory-configured state. The default setting of this feature is set to “Disable”.

Dynamic Runtime Scanning of Boot Block (Intel only)

When in the default setting of enable, HP Sure Start periodically checks the integrity of the BIOS boot block while the OS is running. When in the disable setting, HP Sure Start only checks the integrity before a boot or resume from sleep or hibernate.

HP Sure Start BIOS Setting Protection

The BIOS setting protection policy is disabled by default. To enable the feature, the owner/administrator of the client device should first configure all BIOS policies to the preferred setting. The owner/ administrator also must configure a BIOS setup administrator password.

Once that is completed, the BIOS setting protection policy should be changed to “Enable.” At this point, a backup copy of all BIOS settings is created in the HP Sure Start–protected storage. Going forward, none of the BIOS settings can be modified locally or remotely. On each boot, the BIOS policy settings are verified to be in the desired state, and if there is any discrepancy, the BIOS settings are restored from the HP Sure Start–protected storage.

To modify a BIOS setting, the BIOS administrator password must be provided and BIOS setting protection subsequently disabled, at which point changes can be made to the BIOS settings.

HP Sure Start Secure Boot Keys Protection

With this setting at the factory default of enable, HP Sure Start provides enhanced protection of the secure boot databases and keys used by BIOS to verify the integrity and authenticity of the OS bootloader before launching it at boot. When set to “Disable”, only standard UEFI secure boot variable protection is used, and no backup copy is kept by the HP Sure Start subsystem.

HP Firmware Runtime Intrusion Prevention and Detection (RTID)

The RTID feature is enabled by default for all platforms shipped from the HP factory. There is no need for the end customer/administrator to enable or otherwise deploy the feature to take advantage of HP Sure Start RTID. The RTID feature can be optionally be set to “Disable” by the platform owner/ administrator.

HP Sure Start Security Event Policy

This BIOS policy setting controls what action is taken when HP Sure Start detects an attack or attempted attack while the OS is running. There are three possible configurations for this policy:

- Log event only: When this setting is selected, the HP ESC logs detection events, which can be viewed in the Applications and Services Logs/HP Sure Start path of the Microsoft Windows Event Viewer[4].
- Log event and notify user: This is the default setting. When this setting is selected, the HP ESC logs detection events, which can be viewed in the Applications and Services Logs/HP Sure Start path of the Microsoft Windows Event Viewer. Additionally, the user is notified within Windows that the event occurred[5].
- Log event and power off system: When this setting is selected, the HP ESC logs detection events, which can be viewed in the Applications and Services Logs/HP Sure Start path of the Microsoft Windows Event Viewer. Additionally, the user is notified within Windows that the event occurred, and that system shutdown is imminent.

HP Sure Start Security Event Boot Notification

This BIOS policy setting controls whether HP Sure Start warnings and error messages that are displayed when the system is booted require the local user to acknowledge the error before the boot continues. With the default Require Acknowledgement setting, the system halts with the error message displayed. The local user must press a key to continue the boot. If changed to Time out after 15 seconds, the message is displayed, but the boot process continues automatically after the message is displayed for 15 seconds.

Lock BIOS Version

In the (F10) BIOS setup, this feature is located in Main/Update System BIOS.

When set to “Disable”, you can update the BIOS using any supported process. When the HP ESC detects a valid boot block update in the system flash, it updates the backup copy of the boot block.

When set to “Enable”, all HP BIOS update tools refuse to update the BIOS. In addition, HP Sure Start protects the BIOS from attempts to change the BIOS version by removing the system flash via an unauthorized method. The HP ESC records the locked-down version of BIOS. When the HP ESC detects that the BIOS in the system flash changed, the HP ESC overwrites the BIOS boot block with the HP ESC copy of the boot block. The HP ESC copy of the boot block executes and recovers the remainder of the correct version of the BIOS. The default setting of this feature is “Disabled”.

Save/Restore MBR of System Hard Drive and Save/Restore GPT of System Hard Drive

In the (F10) BIOS setup, this feature is located in Security/Hard Drive Utilities. Only one of these capabilities is available, depending on the partition type of the primary drive (GPT or MBR), as detected by HP Sure Start.

When set to “Enable”, HP Sure Start maintains a protected backup copy of the MBR/GPT partition table from the primary drive and compares the backup copy to the primary on each boot. If a difference is detected, the user is prompted and can choose to recover from the backup to the original state, or to update the protected backup copy with the changes. The Boot Sector (MBR/GPT) Recovery Policy can optionally be used to remove the user decision for the action taken in the event of a discrepancy found by HP Sure Start.

When set to “Disable” (default), no MBR/GPT protection is provided by HP Sure Start.

Boot Sector (MBR/GPT) Recovery Policy

When set to Local User Control (default) the user is prompted for the action to take when HP Sure Start detects a change in the MBR/GPT partition table. When set to Recover in the event of corruption, HP Sure Start automatically restores the MBR/GPT to the saved state any time differences are encountered.

DMA Protection

When set to "Enable" (default), HP firmware configures the IO Memory Management Unit (IOMMU) to block DMA (Direct Memory Access) by peripheral devices per the Pre- Boot DMA Protection setting while in the BIOS pre-boot environment. The BIOS will also configure the system appropriately to enable Microsoft Kernel DMA protection for Thunderbolt 3 which takes over management of the IOMMU at OS start time to provide the same protections from DMA attacks in the OS environment.

Pre-boot DMA Protection

When set to "All PCI-e Devices", HP firmware configures the IO Memory Management Unit (IOMMU) to block DMA (Direct Memory Access) by peripheral devices per the Pre-Boot DMA Protection setting while in the BIOS pre-boot environment. Available options and defaults vary as shown in the table below.

Table 2:
Pre-boot DMA protection options and defaults

Notebook with Thunderbolt support	Notebook without Thunderbolt support	Desktop with Thunderbolt support	Desktop without Thunderbolt support
Thunderbolt Only	Disabled	Thunderbolt Only	Disabled
All PCI-e devices (Default) (Recommended)	All PCI-e devices (Default) (Recommended)	All PCI-e devices (Recommended)	All PCI-e devices (Recommended)
-	-	All PCI-e devices (Default)	All PCI-e devices (Default)

Remote management of HP Sure Start policy controls

Out of the box, HP Sure Start policies are optimized for the typical user. Since HP Sure Start is enabled by default, there is no need for the remote administrator to take any action to enable ("deploy") HP Sure Start. If a remote administrator wants to modify HP Sure Start policy settings, the same Windows Management Instrumentation (WMI) APIs or HP BIOS Configuration Utility scripts that are used to manage other platform BIOS policies can be used to manage HP Sure Start policies. In addition, administrators can remotely manage HP Sure Start capabilities with the Manageability Integration Kit (MIK) plug-in for Microsoft System Center Configuration Manager (SCCM).

Also, administrators can remotely manage HP Sure Start capabilities and view HP Sure Start events with the Manageability Integration Kit (MIK) plug-in for Microsoft System Center Configuration Manager (SCCM).

Conclusion

HP Sure Start delivers these key benefits:

- Uninterrupted productivity: HP Sure Start maintains business continuity in the event of an attack or accidental corruption by eliminating downtime waiting for an IT/Service event.
- Lower cost: HP Sure Start's ability to recover automatically reduces calls to the IT Help Desk and enhances productivity, which ultimately helps lower the maintenance cost for the platform.
- Peace of mind: HP Sure Start has multiple security features that run across a wide variety of software and hardware platforms.

Protect critical BIOS firmware from malware with the industry-leading firmware intrusion detection and automatic repair offered by HP Sure Start, available on many HP business PCs, including Pro and Elite platforms, Workstations, Thin Clients, and Retail Point of Sale (RPOS) PCs.

Appendix A - Sure Start, Gen by Gen

HP introduced Sure Start in 2014. Since that time, HP has enhanced Sure Start and expanded the number of products that use it. The table below provides a summary of the capabilities that were added with each generation.

Table 3:
Sure Start, Gen by Gen

Generation	Release Date	Capabilities Added
HP Sure Start	2013	▪ Firmware and BIOS authenticity enforcement, with the ability to self-heal ▪ Firmware monitoring and compliance
HP Sure Start with Dynamic Protection	2015	▪ Windows Event Viewer support ▪ Dynamic Protection (for select Intel products)
HP Sure Start Gen3 (select intel products)[6]	2017	▪ Runtime Intrusion Detection ▪ BIOS setting protection ▪ Manageability Integration Kit (MIK) plug-in for Microsoft SCCM
HP Sure Start Gen4[7]	2018	▪ Protected storage—strong cryptographic methods to store BIOS settings, user credentials, and other settings in the HP Endpoint Security Controller hardware to provide integrity protection, tamper detection, and confidentiality protection for that data ▪ Secure boot database protection—enhanced protection of databases and keys stored by BIOS that are critical to the integrity of the OS secure boot feature versus standard UEFI BIOS implementation ▪ On Intel platforms, enhanced protection and recovery of the Intel Management Engine Firmware for any failures that occur across updates or failure of main Intel ME firmware ▪ Third-party security certification of HP Endpoint Security Controller—testing by an independent and accredited laboratory to validate that the HP ESC hardware core functionality works as claimed per publicly available criteria, methodology, and processes[1] ▪ HP business PCs with HP Sure Start exceed the NIST Platform Firmware Resiliency guidelines (Special Publication 800-193) for host processor boot firmware and other critical platform device firmware, as discussed in Appendix C.
HP Sure Start Gen5[8]	2019	▪ Full back-up, integrity monitoring, and recovery services for of Intel Manageability Engine firmware including main firmware and boot critical portions of code and data. ▪ DMA Protection for attacks via Thunderbolt devices
HP Sure Start Gen6[9]	2020	▪ Smart flash ▪ Enhanced DMA protection for attacks via internal devices slots ▪ HP Endpoint Security Controller run-time Intrusion detection ▪ AMD Secure Processor firmware protection
HP Sure Start Gen7[10]	2023	▪ FIPS 140-3 Certification ▪ SPI Host Interface monitoring

Appendix B

System Management Mode (SMM) Overview

System Management Mode (SMM) is an industry-standard approach used for PC advanced power-management features and other OS-independent functions while the OS is running. While the SMM term and implementation is specific to x86 architectures, many modern computing architectures use a similar architectural concept.

SMM is configured by the BIOS at boot time. The SMM code is populated into the main (DRAM) memory. Then BIOS uses special (lockable) configuration registers within the chipset to block access to this area when the microprocessor is not executing in an SMM context. At runtime, entry into SMM mode is event-driven. The chipset is programmed to recognize many types of events and timeouts. When such an event occurs, the chipset hardware asserts the System Management Interrupt (SMI) input pin. At the next instruction boundary, the microprocessor saves its entire state and enters SMM.

As the microprocessor enters SMM, it asserts a hardware output pin, SMI Active (SMIACT). This pin serves notice to the chipset hardware that the microprocessor is entering SMM. An SMI can be asserted at any time, during any process operating mode, except from within SMM itself. The chipset hardware recognizes the SMIACT signal and redirects all subsequent memory cycles to a protected area of memory (sometimes referred to as the SMRAM area), reserved specifically for SMM. Immediately after receiving the SMI input and asserting the SMIACT output, the microprocessor begins to save its entire internal state to this protected memory area.

After the microprocessor state has been stored to SMRAM memory, the special SMM handler code that also resides in SMRAM (placed there by system BIOS at boot time) begins to execute in a special SMM operation mode. While operating in this mode, most hardware and memory isolation mechanisms are suspended, and the microprocessor can access virtually all resources in the platform to enable it to perform required tasks. The SMM code completes the required task, and then it's time to return the microprocessor to the previous operating mode. At that point, the SMM code executes the Return from System Management Mode (RSM) instruction to exit SMM. The RSM instruction causes the microprocessor to restore its previous internal state data from the copy saved in SMRAM upon SMM entry. Upon completion of RSM, the entire microprocessor state has been restored to the state just prior to the SMI event, and the previous program (OS, applications, hypervisor, etc.) resumes execution right where it left off.

Appendix C

NIST SP 800-193: Platform Firmware Resiliency Guidelines

Released in May 2018, the NIST SP 800-193: Platform Firmware Resiliency Guidelines describe guidelines for security mechanisms to protect platform firmware against unauthorized changes, detect unauthorized changes that occur, and recover from these unauthorized changes.

These guidelines outline three different resiliency properties:

1. Protected: meets all Protection and Secure Update requirements
2. Recoverable: meets all Detection and Recovery requirements
3. Resilient: meets all Protection, Detection, and Recovery requirements

Of these three properties, Resilient is the strongest, providing the most benefit to HP Customers.

HP Sure Start Gen3+ meet and exceed all Resilient guidelines in NIST SP 800-193 for host processor boot firmware, also known as the UEFI BIOS. Further, HP Sure Start Gen3 and subsequent generations progressively expand the number of other firmware based Critical Platform Device Firmware that are protected per NIST 800-193 requirements, as shown in Table 3.

Prior NIST guidelines for BIOS security

NIST SP 800-193 goes beyond NIST SP 800-147, which only addressed protection and the secure update of the platform's UEFI BIOS. All generations of HP Sure Start along with all generations of HP BIOSphere support NIST SP 800-147.

NIST SP 800-193 also goes beyond NIST SP 800-155, which outlined security components and guidelines to establish a secure BIOS integrity measurement and reporting chain. Likewise, all generations of HP Sure Start along with all generations of HP BIOSphere support NIST SP 800-155.

NIST SP 800-193 Critical Platform Devices in HP Commercial PCs

NIST SP 800-193 acknowledges that the definition of Critical Platform Devices can vary. Critical Platform Devices are defined in section 3.2 (Resiliency Properties):

"For a platform as a whole to claim resiliency to destructive attacks, the set of platform devices necessary to minimally restore operation of the system, and sufficient to restore reasonable functionality, should themselves be resilient. We call this set of devices critical platform devices. The particular resiliency properties may vary from platform-to-platform."

For that reason, it is important to define this set of devices and applicable firmware for HP Commercial PCs. NIST SP 800-193 provides a reference platform architecture in Section 2 along with a list of devices which are "often critical to the normal and secure operation of a platform." The table below provides a mapping to each of those devices/subsystems to the applicable firmware components in the HP Commercial Notebook PCs.

Note that each customer environment should be evaluated to determine whether there are additional peripheral devices that are critical to restore reasonable functionality specific to the customer's deployment.

Table 4:
Critical Platform Device Firmware Protected by HP Sure Start or other technology.

NIST SP 800-193 Platform Architecture Reference	HP Commercial PC critical platform device firmware	Protected by
1. Embedded Controller (EC)/ Super I/O (SIO) 4. Host Processor 6. Graphics Processing Unit (GPU) when implemented as Unified Memory Architecture (UMA) 8A. Host Controller (HC) for mass storage device 10. Host Processor Boot Firmware 11. Platform Runtime Firmware 12. Power Supply 14. Fans	HP ESC firmware HP UEFI BIOS firmware	HP Sure Start Gen3+
2. Trusted Platform Module (TPM)	Discrete TPM component firmware[1]	TPM
3. Baseboard Management Controller (BMC)/ Management Engine (ME)	Intel Management Engine firmware or AMD Secure Processor firmware	HP Sure Start Gen5+ HP Sure Start Gen6+
5. Network Interface Controller (NIC)	Intel integrated GbE NIC firmware[2]	HP Sure Start Gen3+
7. Serial Peripheral Interface (SPI) Flash	Intel Descriptor firmware	HP Sure Start Gen3+
8A. Hard Disk Drive (HDD)/Solid State Drive (SSD)	HDD/SSD firmware[3]	N/A[4]
9. Embedded MultiMediaCard (eMMC) / Universal Flash Storage (UFS)	N/A[4]	N/A[4]
13. Glue Logic (CPLD's, FPGA's)	N/A[4]	N/A[4]

1. This component is not critical to boot of the platform.
2. This component is not critical to minimally restore operation of the system but is required to establish Ethernet connectivity in environments where that connectivity is deemed critical to platform resiliency.
3. Mass storage devices are outside the scope of this document. Resiliency capabilities vary by storage supplier and by storage device. Not all suppliers or devices currently meet all Resiliency requirements in 800-193.
4. No devices of this type are included.

Acronyms

- BIOS
  Basic Input/Output System (aka host processor boot firmware)
- CPU
  Central processing unit
- ESC
  HP Endpoint Security Controller
- Gen3+
  Applies to HP Sure Start Gen3, Gen4, Gen5, Gen6, and Gen7
- Gen4+
  Applies HP Sure Start Gen4, Gen5, Gen6, and Gen7
- Gen5+
  Applies HP Sure Start Gen5, Gen6, and Gen7
- Gen6+
  Applies only to HP Sure Start Gen6, and Gen7
- HMAC
  Hash-based message authentication code
- HW
  Hardware
- OS
  Operating system
- POST
  Power-On Self-Test
- RoT
  Root of Trust (defined in NIST SP 800-193)
- RTD
  Root of Trust for Detection (defined in NIST SP 800-193)
- RTRec
  Root of Trust for Recovery (defined in NIST SP 800-193)
- SMM
  System Management Mode
- UEFI
  Unified Extensible Firmware Interface

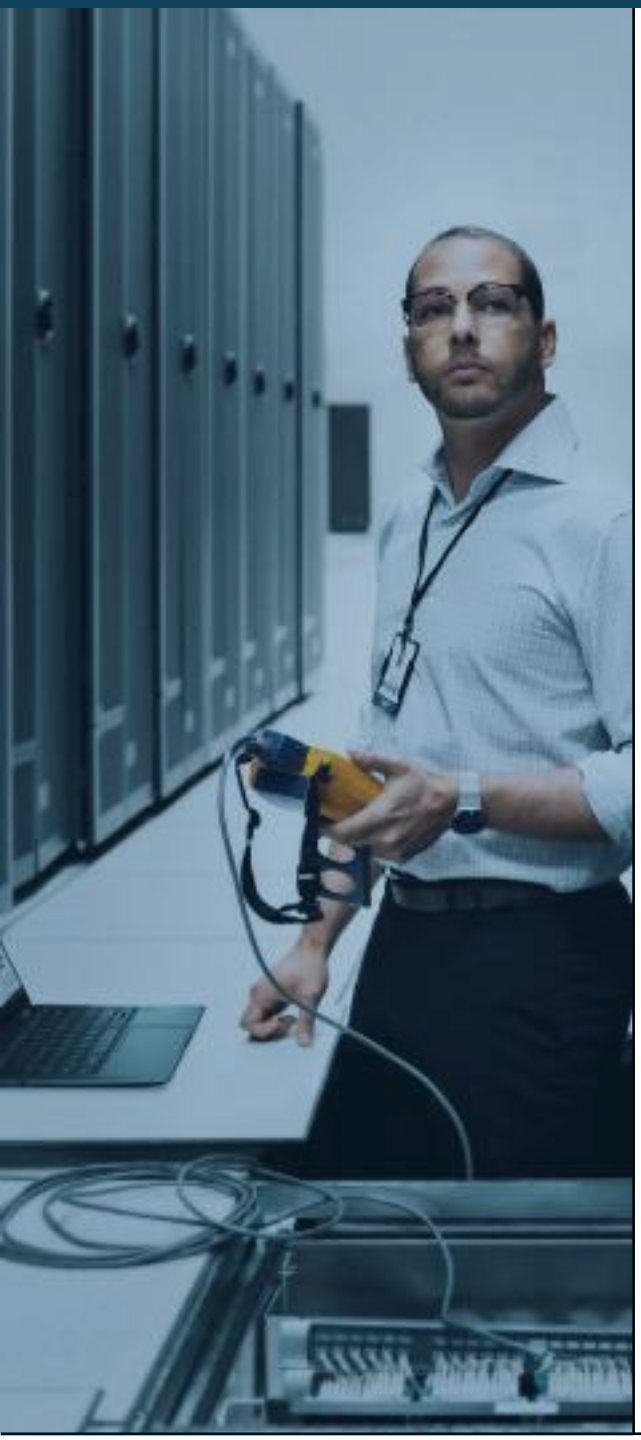

Table 5:
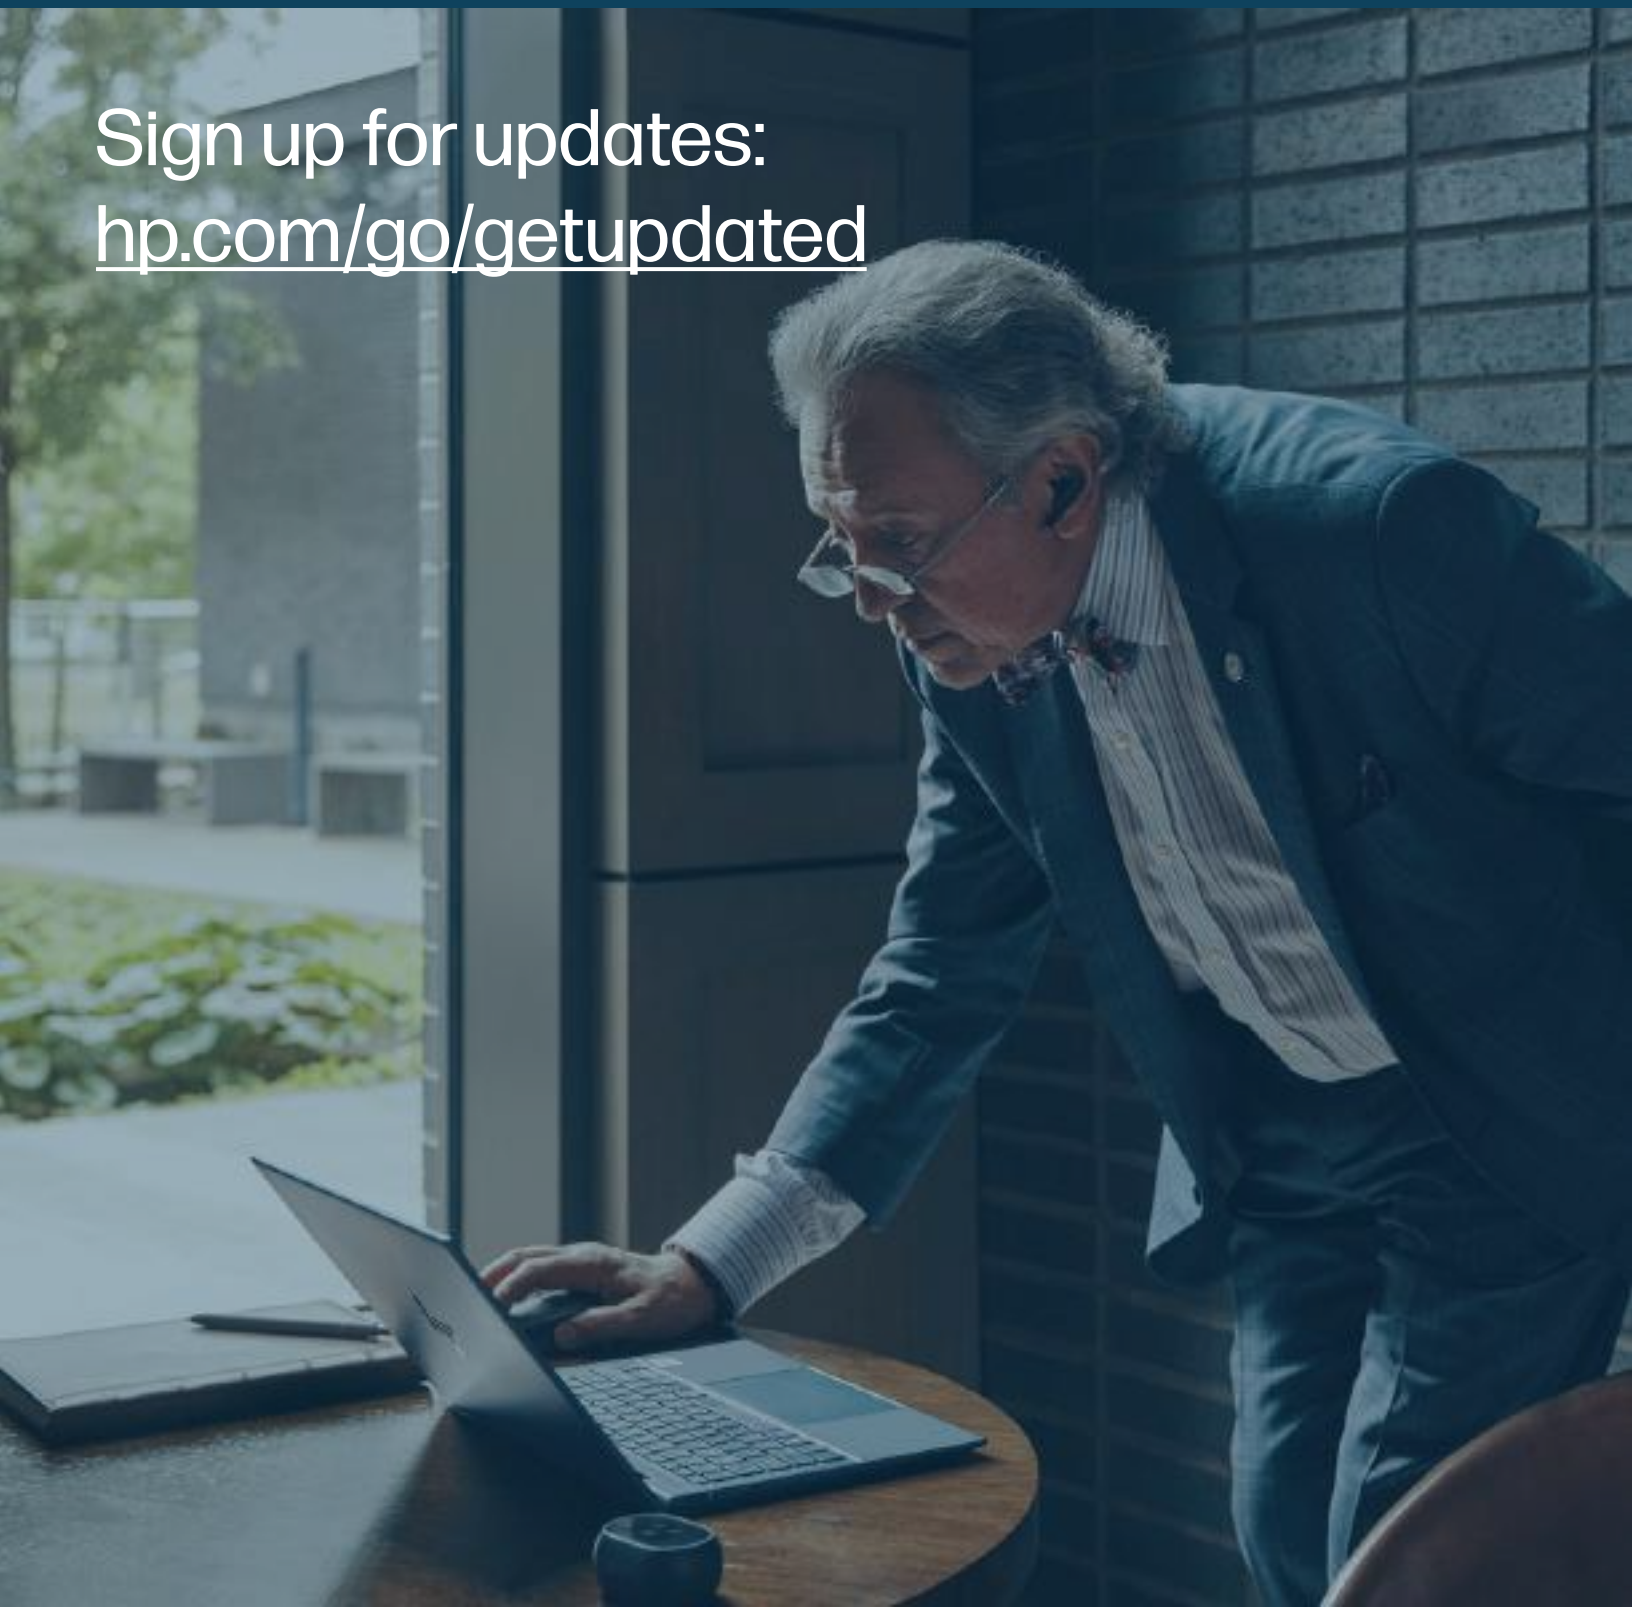
Required functions for Host Processor Boot Firmware.

The table below provides a summary of each function described by NIST SP 800-193.

NIST SP 800-193	HP Sure Start	
Roots of Trust (Section 4.1)	Meets all Resiliency Requirements	▪ Gen3+ uses a hardware-based RoT (the HP ESC) with immutable boot firmware, which cryptographically verifies subsequent firmware before launching it, creating a Chain of Trust. ▪ Gen3+ includes a key store and approved digital signing algorithms based on FIPS 186-4 to verify the digital signature of firmware update images. ▪ Gen3+ uses authenticated update, detection, and recovery mechanisms, which are anchored in Gen3+'s HW-based RoT.
Protection and Update of Mutable Code (Section 4.2.1)	Meets all Resiliency Requirements	▪ Gen3+ uses an authenticated update mechanism anchored in Gen3+'s ▪ HW-based RoT. ▪ Firmware update images are digitally signed by HP's code signing service (HP Secure Sign) and verified by Gen3+ prior to updating. ▪ Gen3+ integrity protects the HP ESC and UEFI flash regions, so that only its authenticated update mechanism or a secure local update through physical presence can modify those flash regions. ▪ Gen3+ has no known authenticated update bypass mechanisms and contains the ability to prevent rollback to earlier authentic firmware images with known security vulnerabilities.
Protection of Immutable Code (Section 4.2.2)	Meets all Resiliency Requirements	▪ Gen3+ uses a hardware-based RoT (the HP ESC) with immutable boot firmware.
Runtime Protection of Critical Platform FW (Section 4.2.3)	Meets all Resiliency Requirements	Critical Platform Firmware executing in volatile storage (RAM) runs and: ▪ Ceases its operation prior to the loading of system software. That is, it runs during POST and stops before the OS is loaded. ▪ is protected from system software using SMM protections enforced by the CPU.
Protection of Critical Data (Section 4.2.4)	Meets all Resiliency Requirements	▪ Gen4+ Critical Data, such as Secure Boot authenticated variables, are only modifiable through defined APIs provided by device firmware. These APIs employ a mechanism to authenticate that the data is originating from an authorized source before applying the change. ▪ Gen4+ Critical Data, such as per-platform unique factory configuration settings, are only modifiable through defined APIs provided by device firmware. These APIs employ a mechanism to authenticate that the request is originating from an authorized HP service provider before they allow the change. ▪ Gen4+ Critical Data, such as BIOS settings that can be configured in the field, are only modifiable through defined APIs. These APIs are accessed only via a system administrator who has configured the BIOS administrator password. ▪ Gen3+ factory default settings, which are not per- platform-specific, employ the same protection as the code. This includes integrity and authenticity verification via digital signature. These setting updates are controlled and protected in the same manner as the firmware.



Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 227

NIST SP 800-193	HP Sure Start	
Detection of Corrupted Code (Section 4.3.1)	Meets all Resiliency Requirements	▪ A successful attack on the platform firmware will not impact Gen3+'s RTD. The RTD is maintained in a private flash area inaccessible to the system software that might compromise the platform firmware. ▪ Firmware code is validated by Gen3+'s RTD using approved digital signature algorithms and cryptographic hashes.
Detection of Corrupted Critical Data (Section 4.3.2)	Meets all Resiliency Requirements	▪ A successful attack on the Active Critical Data will not impact Gen3+'s RTD. The RTD is maintained in a private flash area inaccessible to the system software that might compromise Active Critical Data. ▪ Gen3+ can save and validate critical data through use of digest hashes prior to using that critical data, and Gen3+ can initiate a recovery of the critical data if corruption is detected.
Recovery of Mutable Code (Section 4.4.1)	Meets all Resiliency Requirements	▪ Gen3+'s ESC implements the recovery capability. ▪ A successful attack on the platform firmware will not impact Gen3+'s RTRec. The RTRec is maintained in a private flash area inaccessible to the system software that might compromise the platform firmware. ▪ Gen3+'s RTRec has access to a locally stored copy of the platform's UEFI image in its private flash area, which is inaccessible to (protected from) system software. ▪ Gen3+ can update the locally stored authentic UEFI image in its private flash area through an Authenticated Update mechanism.
Recovery of Critial Data (Section 4.4.2)	Meets all Resiliency Requirements	▪ Gen3+'s ESC implements the recovery capability. ▪ A successful attack on Active Critical Data will not impact Gen3+'s RTRec. The RTRec is maintained in a private flash area inaccessible to the system software that might compromise Active Critical Data. ▪ Gen3+ can recover critical data back to factory defaults including per-platform-specific data that is backed up in isolated & protected storage. ▪ Gen3+ can recover non-per-platform-specific defaults from the backup BIOS image stored in isolated and protected storage. ▪ Gen3+ does not use policies included as part of Critical Data to restore critical data.
Logging and notification	Exceeds all Resiliency Requirements	▪ Gen3+ will notify user of corruption and log the event. ▪ Gen3+'s detection mechanism is capable of logging events when corruption ▪ is detected Gen3+ will notify user of a recovery event and log the event. ▪ Gen3+'s detection mechanism is capable of logging events when a recovery action has taken place.
Policy-based controls	Exceeds all Resiliency Requirements	▪ Gen3+'s detection mechanism has policies which control the action taken by the Runtime Detection.

NIST SP 800-193	HP Sure Start	
Automatic or manual recovery options	Exceeds all Resiliency Requirements	▪ Gen3+ Runtime Detection can initiate a recovery process automatically or after notification of detection corruptions to the user. ▪ Gen3+ can automatically perform its recovery operations without user interaction or it may require user approval, dependent on policy setting. ▪ Gen3+ gains approval from the user before replacing the current Critical Data, based on recovery policy setting. ▪ Gen3+ can recover Critical Data back to a last-known good state. ▪ Gen3+ gains approval from the user before replacing the current Critical Data, based on recovery policy setting.
Local or remote IT Recovery	Exceeds all Resiliency Requirements	▪ Gen3+ can automatically perform its recovery operations without user interaction or may require user approval, dependent on policy setting.
Rollback pre-vention	Exceeds all Resiliency Requirements	▪ Gen3+ and the UEFI boot block both have controls in place to protect against recovery to an earlier firmware version with security weaknesses.
Runtime intru-sion detection	Exceeds all Resiliency Requirements	▪ NIST SP 800-193 is silent on what happens to firmware once it is loaded from nonvolatile storage (flash) into volatile storage (RAM) for execution. Gen3+ provides runtime intrusion detection of UEFI SMM code loaded into SMM RAM.
Physical attack detection	Additional Functionality not required in NISTSP800-193	▪ Gen4+ provides protection against physical attacks to the protected backup copy of dynamic critical data. ▪ AES encryption is used on a per-component unique key to provide confidentiality of private data. In addition, HMAC integrity measurements provide tamper prevention/detection of those keys.

1. The HP Sure Start controller hardware has been certified per the CSPN certification framework.
2. HP Sure Start with Dynamic Protection is available on HP Elite products equipped with 6th generation Intel Core processors and higher.
3. HP Sure Start end user notifications and pushing of HP Sure Start events to OS event viewer support is limited to Windows Operating system. These features are not supported in Linux.
4. HP Notification Software must be installed to view HP Sure Start events in the Windows Event Viewer.
5. HP Notification Software must be installed to receive notifications.
6. HP Sure Start Gen3 is available on HP Elite products equipped with Intel 7th generation processors.
7. HP Sure Start Gen4 is available on HP Elite and HP Pro 600 products equipped with 8th generation Intel or AMD processors.
8. HP Sure Start Gen5 is available on select HP PCs with Intel processors. See product specifications for availability.
9. HP Sure Start Gen6 is available on select HP PCs.
10. HP Sure Start Gen7 is available on select HP PCs.

Solution overview

HP Support Assistant is a one-stop solution for connected, contextual support. Aided with a new user interface and other usability enhancements, HP Support Assistant helps you maintain your HP devices— enabling you to prevent or resolve problems by using automated updates and self-help options. What's more, HP Support Assistant guides you to expert support when you need it.

Requirements and setup

HP Support Assistant is ready to go when you turn on your new HP desktop and notebook models running Microsoft Windows 11 or Windows 10 RS4 (and higher).

Once installed, you can find HP Support Assistant on your PC using one of the following two methods:

1. Access HP Support Assistant by clicking the question mark (?) icon in the taskbar. (If you do not see HP Support Assistant already pinned in your taskbar, please see the 'How do I add the HP Support Assistant icon to my taskbar?' item in the Frequently Asked Questions section of this document.)

2. Use the Windows search function and simply type 'HP Support Assistant'.

You can download the latest version of HP Support Assistant here.

Key features

HP Support Assistant features can be accessed by selecting the various cards on your device's page. The cards allow you to access your updates, messages, diagnostics, specifications, warranty information, contact HP support options, and other useful resources for your HP devices.

HP Services and offers

If available in your region, your HP Services can be found in the left navigation bar of the HP Support Assistant window. HP Services provides relevant service offers based on regional and country business rules as well as your device specifications. You can also find promotional codes, discount offers, coverage remaining and status for the various services here. Some of the services offered include consumer and commercial HP Care Packs, SmartFriend, McAfee, and Instant Ink.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 232

Your devices

Adding devices

You can add more of your HP devices within your environment by clicking on the ‘Add device’ button in the HP Support Assistant window. After clicking on ‘Detect my devices’, HP Support Assistant will scan for printers attached to your network. You will be able to select from a list of detected printers and type in a custom name, for example ‘My home printer’. You can also manually add a device in the same window by typing the serial number in the appropriate field, then clicking ‘Find my device’.

Updates and Messages

HP Support Assistant automatically performs a weekly background scan for new messages and updates. During the scan, HP Support Assistant detects your devices, checks their status, and then populates relevant messages and software updates. The messages and software updates are split into two separate cards on the dashboard and include different priority categories. These categories are *important*, *recommended*, and *optional*. *Important* messages and updates are critical in nature and can address issues, improving overall reliability. *Recommended* messages and updates are less critical in nature but can be useful in improving the performance of your HP PC and printers. *Optional* messages and updates can help to improve your experience. For example, if during the weekly scan HP Support Assistant determines that your Windows firewall is disabled, a *recommended* message will be delivered with information on how to address this condition.

Windows security

The information displayed in the Security card of HP Support Assistant is useful in identifying key settings and options for your device. General security settings include network firewall status, virus protection status, and spyware and unwanted applications protection status.

Troubleshooting

HP Support Assistant includes Fixes & Diagnostics as well as Guided Troubleshooters through our Virtual Agent for a variety of issues including operating system, display, power, performance, audio, and storage. These troubleshooters will work to solve problems automatically or will guide you through steps involved in resolving more complicated issues with our Virtual Agent.

For printers, HP Support Assistant provides troubleshooting tools that can help resolve common problems you might experience when your HP printer is connected to any Windows-based computer.

HP is always working to develop new self-help tools and improve our library of current solutions so be sure to open HP Support Assistant the next time you run into technical issues.

Fixes & Diagnostics

HP Support Assistant offers variety of one-click-fixes which are designed to troubleshoot and automatically fix various issues in PCs.

The Operating System Check tool performs a comprehensive scan to identify common issues within the operating system and auto applies the necessary fixes.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 233

The Performance Tune-up tool analyzes the system to identify areas which may be causing slower performance and can clean up subsequent files and caches.

The Audio Check tool can identify various issues with audio and can apply auto fixes to volume and microphone issues, primary audio devices, re-installation of drivers, and provide virtual support if needed.

The Battery Check tool tests the functionality of the battery and can show both basic or advanced information on the results as well as offering a link to purchase a replacement if needed.

The Network Check tool detects an operating system's common problems with a network and can reset the adapters and apply fixes automatically.

Printer fixes and diagnostics can also be found in the same section. HP Support Assistant provides tools that can help resolve common problems you might experience when your HP printer is connected to any Windows-based computer.

Virtual Agent

The HP Virtual Agent (VA) is an AI-driven bot that allows you to chat using Natural Language Processing (NLP). The VA will discover your intent from your input and direct you to the most relevant solutions, whether it be a knowledge-based document, a guided troubleshooter, or a turn-by-turn solution directly in the VA chat window. Context is passed to the VA to identify specific issues, products, and installed features so you don't have to enter it yourself. The VA can also access HP services such as the Product Content Browser, Warranty Check, and other services to help gather additional context. It is also used to start interactive diagnostics on your devices, such as checking for OS issues. If the Virtual Agent is unable to solve your problem, you also have the option of escalating to a live agent.

Specifications

For PCs, general specifications show information about your operating system version, microprocessor type, system memory configuration, system board, and system basic input/output system (BIOS) revision. The video section shows the graphic device, current resolution, refresh rate, and driver version. The audio section displays a list of configured audio devices, current status, driver name, and version information.

Battery

For devices with batteries, the battery card will be displayed giving you information on overall battery health, useful links, as well as the HP Battery Check tool. The Battery Check tool tests the functionality of the battery and can show both basic or advanced information on the results as well as offering a link to purchase a replacement if needed.

Storage

The storage card also shows the health of your configured storage options as well as displaying model information and storage-related links and tools.

Warranty

Your warranty start and end dates are available under the warranty card. You can also extend your warranty period by purchasing an HP Care Pack or explore other premium services offered by HP.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 234

Support

Support Resources

Contact HP and other support resources will vary based on country, model, and the status of your warranty coverage.

Contact HP Customer Support options: Online Chat, Call Me, and Call HP

If you've tried everything and still can't find the answers, you can always get assistance from an HP Customer Support agent. Relevant options are available from HP Support Assistant to make this quick and easy. You must be signed-in to HP Support Assistant to use this feature and options are displayed based on several factors, including your model, country, and time of day.

HP Support Community

Join the conversation in HP peer-to-peer forums to find solutions, ask questions, and share tips on HP printers, tablets, and computer products including hardware, software, and operating system support topics.

The support card provides access to a wealth of information from the HP support website for your model.

HP SmartFriend (available in select countries)

Providing technical support for computer software, hardware or peripheral, and networking issues over the phone and through online chat for a single designated computer. No more trying to decide which software or hardware vendor to contact for support, or wasting hours spinning your wheels trying to search for answers. SmartFriend technicians can even access your computer remotely to diagnose and resolve issues.

Virtual Repair Center

Looking to repair your printer, laptop, or other HP device? The new Virtual Repair Center is here to help! Learn how to get your HP device repaired and where to check the status online.

HP Service Center Locator

Need to get your HP device serviced? The new HP Service Center Locator allows you to enter a city or zip code then filter by distance and supported products to discover the best place to take your HP device to be repaired or serviced.

HP Support Cases

If a support case is created for you through any of our HP Support Assistant contact methods, you can track the progress and get updates like repair status under the Support Resources section.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 235

General

Application settings

Use the Application Settings page (accessed through the navigation bar) to choose how you would like to receive software updates from HP and set scheduling options for the weekly scan. In addition, you can enable HP Support Assistant to use your registration information, including the serial number and product number of your PC and any attached HP printers to provide you with personalized information about your products. You can also choose whether you'd like to share your usage data that will then be used to help HP improve the features and performance of future releases of HP Support Assistant.

Frequently asked questions

HP Support Assistant basics

What is HP Support Assistant?

HP Support Assistant is a self-help application for your HP devices pre-installed on your Windows PCs. It helps you maintain peak performance and resolve problems through automatic updates, built-in diagnostics, and a variety of assistance options including the Virtual Agent. You can also download and install HP Support Assistant by visiting our website.

How much does HP Support Assistant cost?

HP does not charge for the use of HP Support Assistant but may charge for technician assistance on out-of-warranty products.

How do I use HP Support Assistant?

Clicking on the question mark (?) icon in your taskbar gives you simple instructions on the action you need to take, if any. This icon will change based on various factors such as the priority of pending updates and messages, or the status of other parameters like battery health, security, or storage capacity. If you do not see HP Support Assistant already pinned in your taskbar, please see the 'How do I add the HP Support Assistant icon to my taskbar?' item in the Frequently Asked Questions section of this document.

Do I need to be connected to the Internet to use HP Support Assistant?

You do not need to be connected to the Internet to use HP Support Assistant, but some features such as the Virtual Agent, receiving updates, connecting to hp.com, or contacting HP require an Internet connection.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 236

Finding or installing HP Support Assistant

Is HP Support Assistant available on all computers?

HP Support Assistant is pre-installed on HP computers shipped with Microsoft Windows 11 or Windows 10 RS4 (and higher).

If HP Support Assistant is not installed on your computer, you can download the latest version by visiting our website here. If your PC does not qualify for the latest version, you can download the legacy version of HP Support assistant on the same page.

Note that the HP Support Assistant features may vary depending on the version installed, your computer model, and your location.

Where can I find HP Support Assistant on my computer?

To find HP Support Assistant on your PC, try any of these methods:

• Click on the question mark (?) icon in your taskbar. (If you do not see HP Support Assistant already pinned in your taskbar, please see the 'How do I add the HP Support Assistant icon to my taskbar?' item in the Frequently Asked Questions section of this document.)

• Use the Windows search capability to search for 'HP Support Assistant'.

• If HP Support Assistant is not installed on your computer running Windows 11 or Windows 10 RS4 (and higher), you can download the latest version by clicking here. You can also download the legacy version of HP Support assistant for older devices in the same link.

How do I add the HP Support Assistant icon to my taskbar?

In both Windows 10 and Windows 11 you can use either of the methods below to pin HP Support Assistant to your taskbar.

1. Use the Windows search function to type in 'HP Support Assistant', right-click on HP Support Assistant in the results and select 'Pin to taskbar'.
2. While HP Support Assistant is launched, right-click on the (?) icon in the taskbar and select 'Pin to taskbar'.

If you are in Windows 10 you can also visit the Application Settings section of HP Support Assistant, select the 'More settings' drop-down, and check the 'Display application icon in the taskbar (recommended)' box.

Can I uninstall HP Support Assistant?

You can uninstall HP Support Assistant using the remove program capability in the Apps and Features section of the Windows operating system or by right clicking HP Support Assistant in the start menu and clicking 'Uninstall', but HP does not recommend uninstalling the application. HP Support Assistant allows you to receive updates from HP that keep your PC and printers running smoothly and offers several options whenever you need assistance.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 237

Can I remove the HP Support Assistant icon from my taskbar?

You can remove the HP Support Assistant icon from your taskbar, but HP does not recommend removing the icon. You would no longer receive notifications of pending actions through your taskbar, and not be able to directly access some of the HP Support Assistant capabilities. Remove the icon from your taskbar by right-clicking the HP Support Assistant icon and selecting 'Unpin from taskbar'.

Can I reinstall HP Support Assistant if I have uninstalled the application?

You can download and install the latest version of HP Support Assistant by clicking here.

Where can I find technical information about my PC and printers?

You can find technical information by selecting the PC or printer you want to view from your list of devices in the HP Support Assistant window. If your device is not present, please refer to the 'How do I add a device to HP Support Assistant?' question in this document.

HP Support Assistant features and functions

How do I check the status of my warranty?

Warranty status can be checked by selecting the device you want to view from your device list in the HP Support Assistant window and then clicking on the warranty card.

How do I keep my devices up to date?

By default, important updates are set to automatically install with HP Support Assistant. HP recommends leaving automatic updates turned on to ensure that you receive the latest updates and messages. If needed, this setting can be turned off by visiting the Software Updates Section of HP Support Assistant (accessible by selecting the settings button at the bottom-left corner of the HP Support Assistant window or selecting 'Update settings' in the Updates card). If you choose to turn off automatic updates you will need to visit HP Support Assistant and manually download and install updates yourself.

How do I add a device to HP Support Assistant?

You can add HP devices to HP Support Assistant by selecting the 'Add device' button in the HP Support Assistant window. HP Support Assistant will scan to detect supported devices connected to your computer or on your network.

How do I change the nickname I have given my printer?

You can edit a device nickname by clicking the 'pencil' icon next to the device's current nickname.

How do I remove a device from my list?

To remove a device from your list just click on your name in the top right of the HP Support Assistant window then select 'View profile' from the drop-down. If you are not signed in the button will say 'Create account / Sign in' instead of your name. Once on your profile, you will see a list of your current devices. Click the blue 'x' next to the device you want to remove.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 238

Can I receive printer updates?

HP Support Assistant will periodically check for printer updates and notify you. When a printer update is available, you will need to follow the on-screen instructions to complete the installation.

What happens if I postpone an update or want to find previously installed updates?

Any postponed updates can be launched from the action log. The action log is a history of all the actions that have been performed or postponed on the computer. In the action log, status for items is displayed as installed, installation failed, postponed, or deleted.

What kind of messages will I receive in HP Support Assistant?

Messages in HP Support Assistant include helpful tips and information that HP publishes from time to time. These messages can also be important alerts related to the security or functionalities of your HP devices. These messages can be about anything from cleaning your desktop to computer security.

How can I find diagnostics for my computer?

Relevant diagnostics and one-click-fixes can be found in the Fixes & Diagnostics card on your device's dashboard. For more complex problems, the Virtual Agent can give you step-by-step assistance with guided troubleshooting.

At what point do I contact technical support?

HP Support Assistant is designed to provide as much information as possible to help you diagnose and troubleshoot any issues. If HP Support Assistant does not provide an answer to your query, then it is time to contact support. Charges will apply to out-of-warranty products.

How do I contact technical support?

Select the Support Resources section located at the bottom of HP Support Assistant. There are several options available depending on your location, warranty, and availability of service. You will need to select a country and allow HP to check your warranty status to enable one or more of the support options listed below:

1. **Chat:** If you have an active Internet connection, you can chat online with HP Customer Support. Device information, such as your serial number, is automatically relayed from your computer to HP once you approve of that information to be sent.

2. **Call:** When you call HP Customer Support, you may be asked to provide information such as your model number or serial number. Both numbers can be found easily on the device's dashboard. To speed-up issue resolution, your computer can transfer data to HP Customer Support prior to your conversation, if you approve of this information to be sent.

Can I get help and support if I do not have an Internet connection?

HP Support Assistant can use the information and diagnostics on the local computer even without an Internet connection.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 239

How do I ensure I always have the latest version of HP Support Assistant?

HP Support Assistant will automatically update itself as new versions are released; you do not need to do anything to keep your version up-to-date. If you need to download and install HP Support Assistant you can do so by visiting this link.

Why should I provide feedback to HP?

Providing your feedback allows you to provide input on HP Support Assistant and helps us identify current issues and future improvements for the support application itself.

Where do I get more information about HP Support Assistant?

You can find more information about HP Support Assistant by clicking here.

What are the hardware and software requirements for HP Support Assistant?

HP Support Assistant is pre-installed on HP computers running Microsoft Windows 11 or Windows 10 RS4 (and higher). HP Support Assistant can also be installed on non-HP PCs running Microsoft Windows 11 or Windows 10 RS4 (and higher). Some HP Support Assistant features require an active Internet connection.

Is HP Support Assistant available worldwide in my local language?

The application is available in all countries worldwide and has been translated into the 36 languages listed below.

Languages
Arabic (Saudi Arabia)
Bulgarian
Czech
German (Germany)
Danish
Greek
Spanish (Spain)
English (United States)
Estonian
French (France)

Differences between HP Support Assistant and other software and services

Does HP Support Assistant work with my antivirus software?

HP Support Assistant works independently of any antivirus software application.

What are the differences between Microsoft updates and HP updates?

Windows updates are released by Microsoft to fix or repair issues with Windows products. HP updates are more tailored to your specific HP devices. Using HP updates ensures that you have the latest drivers and software tested and approved by HP.

Conclusion

HP Support Assistant can help keep your HP PCs and printers running smoothly with automatic software and driver updates. A wealth of information and support resources for your devices is only a few clicks away and when the time comes to get additional help, HP Support Assistant gives you multiple options to contact skilled technical support agents.

Brief

Reduce your downtime with HP PC Hardware Diagnostics

Check your HP PC for hardware failures using these comprehensive tests

Diagnose hardware problems

Determine if your HP hardware is defective with HP PC Hardware Diagnostics – a proprietary tool that helps diagnose problems. The tool is built using the Unified Extensible Firmware Interface (UEFI) specification, and is non-Windows based. That means you can use HP PC Hardware Diagnostics even if a computer doesn't open to Windows.

HP PC Hardware Diagnostics comes preinstalled on all HP notebooks, desktops and workstations built on ARM, Intel and AMD platforms, but not on Android™ or Chrome™ devices.

Save time by testing your hardware
Running these diagnostics tests allows you to:

- Quickly know if you have a hardware failure
- Simplify troubleshooting to streamline support calls to HP
- Avoid returns of working components

Get the tools you need
If you are having issues with a system or suspect a component is failing, running HP's Diagnostics will provide you with tools that can help pinpoint the problem. Within moments, you can be testing a specific component – or multiple components.

- Products with a UEFI BIOS include the diagnostics within the BIOS
- The latest diagnostics can be quickly downloaded online
- The diagnostics can be accessed immediately on your hard drive

Choose which tests to run
The menu-driven interface provides easy access to the hardware test of your choice, and running each hardware test is a simple one-click operation. You can also choose quick or extensive tests. Here's a partial list of hardware you can test:

- Processors
- Hard drives
- Memory
- System boards
- Batteries (notebooks)
- Optical drives
- Video components
- I/O devices

Get started now
Download the latest version of HP PC Diagnostics, plus find more information and resources at hp.com/go/techcenter/pcdiags.

HP's Compliance with Restriction of Hazardous Substances (RoHS) Legislation in the EU and other jurisdictions

(Rev 14c September 2019)

HP Inc
1501 Page Mill Road
Palo Alto, CA 94304-1112
www.hp.com

HP is committed to compliance with all applicable laws and regulations, including material restriction requirements under the European Union Recast RoHS Directive 2011/65/EU, otherwise known as EU RoHS 2, as amended by Directive 2015/863/EU and RoHS legislation in other jurisdictions such as China's Management Methods for Restricted Use of Hazardous Substances in Electrical and Electronic Products, otherwise known as China RoHS, and the materials restriction requirements of India's E-Waste Management Rules, 2016.

HP believes that legislation, like EU RoHS 2, plays an important role in promoting industry-wide transition to restrict substances of concern. In general, the restriction of any substance should take into account the following key items:

- Global harmonization of the legislation content and implementation requirements
- Substance risk assessment, including a clear understanding of the environmental impacts of alternative substances
- Clear identification of what substances (vs. broad classes or categories) are to be restricted
- Clear identification of when alternative technologies are proven and readily available
- Appropriate lead time to allow the industry to transition
- Substances that are not used or found in final products should not be included in the restrictions
- Material application exemptions should be allowed for the use of restricted substances in applications where current substitution is not technically feasible
- Inclusion of maximum concentration values setting de minimis levels below which the relevant substances may be present

HP believes other substances should be considered for inclusion in future RoHS legislation. This includes the restriction of polyvinyl chloride (PVC) and brominated flame retardants (BFRs) from electrical and electronic products (EEE). HP believes PVC and BFRs should be the focus for the restriction of chlorine (Cl) and bromine (Br) from electrical and electronic products, where technically feasible. HP's reasons for focusing on PVC and BFRs are:

- PVC and BFRs cover 99% of the uses for Cl and Br in electronics;
- Given the high percentage usage, these substances have the highest impact;
- Restriction of these substances where technically feasible would substantially accomplish the goal to eliminate Cl and Br from electronic products

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 253

In order to make these material transitions in all the many types of products in the industry, HP believes restriction under RoHS legislation is possible. However, some critical issues would need to be overcome or addressed by specific exemptions, including technical issues for certain applications, availability of environmentally preferable alternatives, and ability to maintain high recycled content as substances are restricted.

Our continued voluntary goal is to apply the EU RoHS 2 substance and exemption requirements outside the EEA (and other countries that are tracking EU compliance dates) on a worldwide basis within 6 months of each of the EU's various legal compliance dates for virtually all HP branded new products in the scope of EU RoHS 2, except where it is widely recognized that there is no technically feasible alternative (as indicated by an exemption under the EU RoHS Directive).

HP began proactively eliminating substances of concern in the early 1990s. The HP Materials and Chemical Management Policy guides how we specify materials and chemicals for use in products, packaging, and manufacturing processes. For key milestones see our Green Chemistry Timeline.

In early 2003, a company-wide RoHS team was formed to manage all aspects of HP's global response to RoHS legislation around the world. HP's initiative to address RoHS legislation is part of the company's Design for Sustainability program, which includes advancing materials innovation to improve environmental and human health impacts. For more information, see the materials innovation section of HP's Sustainable Impact Report.

HP continues to plan for further "RoHS like" legislations in other jurisdictions and will meet any additional requirements that arise. HP complies with the requirements of all the RoHS legislations currently in effect (including those specifically listed under Compliance Status below). HP's Compliance Verification is based on our risk analysis of restricted substances entering the supply chain and includes technical documentation outlined in the European Union's EN 50581:2012 standard and the International IEC 63000:2018 standard.

HP's Compliance Status to EXISTING RoHS Legislation:

Europe, Middle East and Africa

European Union and European Economic Area
- HP products [1] comply with EU Directive 2011/65/EU of 8 June 2011 as amended by EU Directive 2015/863 of 31 March 2015 and including amendments to the exemptions in Annex III.

Switzerland
- HP products [1] comply with the Swiss Ordinance on the Reduction of Risks relating to the Use of Certain Particularly Dangerous Substances, Preparations and Articles, otherwise known as the Swiss Chemical Risk Reduction Ordinance, ORRChem, as of May 18, 2005 (as amended)

Ukraine
- HP products [1] comply with the substance restrictions in Ukraine's "Technical Regulation on Restriction of the use of certain hazardous substances in electrical and electronic equipment, approved by Decree of the Cabinet of Ministers of Ukraine dated 10 March, 2017 No. 139", otherwise known as Ukraine RoHS which came into effect on 22 September 2017 and repealed Technical Regulation on the restriction of the use of certain hazardous substances in electrical and electronic equipment, approved by Decree of the Cabinet of Ministers of Ukraine dated December 3, 2008 No. 1057.

Serbia
- HP products [1] comply with Serbia's WEEE and RoHS "Regulations on the List of Electrical and Electronic Products, Measures Banning and Restricting the Recovery of Electrical and Electronic Equipment Containing Hazardous Materials, and the Methods and Procedures for Managing Waste from Electrical and Electronic Products" that entered into force on January 4, 2011. RoHS restrictions apply to equipment placed on the market on or after July 1, 2011.

Turkey
- HP products [1] comply with Turkey's "Regulation on Waste Electronic and Electrical Equipment" (WEEE) which came into effect on May 22, 2012 and incorporates the rules for the Restriction of Certain Hazardous Substances in Electrical and Electronic Equipment", otherwise known as Turkey RoHS.

Bosnia-Herzegovina
- HP products [1] comply with Bosnia-Herzegovina's "Regulation of Restrictions of Use of Certain Dangerous Substances in Electrical and Electronic Equipment (RoHS Regulation 50/15) was published in Official Gazette of Republic of Srpska 50/15", otherwise known as Bosnia-Herzegovina RoHS which came into effect on June 1, 2016.

UAE
- HP products [1] comply with UAE's "Cabinet Decision No. 10/2017 to control hazardous materials in electrical and electronic devices (RoHS) OG No. 614 of 27.04.2017 (officially published and came to power on 16.05.2017)", otherwise known as UAE RoHS which came into effect on January 1, 2018.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 255

Asia

China

- HP products [1] comply with China's, "Management Methods for Restricted Use of Hazardous Substances in Electrical and Electronic Products", otherwise known as China RoHS which came into effect on July 1, 2016. And comply with "Catalog of Electrical and Electronic Products that have met the standard in Limited Use of Hazardous Substances (Batch one) which comes into effect on Nov 1, 2019.

India

- HP products [1] comply with the material restrictions of India's legislation "E-waste Management Rules, 2016", otherwise known as India RoHS which came into effect on October 1, 2016.

Korea

- HP products [1] comply with Korea's legislation "The Act on Resource Circulation of Electrical and Electronic Equipment and Vehicles", otherwise known as Korea's RoHS which came into effect on January 1, 2008. You can find HP's Korean RoHS declarations at: http://www8.hp.com/us/en/hp-information/environment/msds-specs-more.html.

Vietnam

- HP products [1] comply with Vietnam's legislation "Circular 30/2011/TT-BCT: Temporarily regulating the permitted limits for a number of hazardous substances in electric and electronic products", otherwise known as Vietnam RoHS which came into effect on December 1, 2012. You can find HP's Vietnam RoHS declarations at: http://www8.hp.com/us/en/hp-information/environment/msds-specs-more.html

Japan

- HP products [1] comply with the labeling requirements set out in Japan's "The Marking of Presence of the Specific Chemical Substances for Electrical and Electronic Equipment" (JIS-C-0950), otherwise known as J-MOSS which came into effect on July 1, 2006. You can find HP's J-MOSS declarations at http://www8.hp.com/us/en/hp-information/environment/msds-specs-more.html

Singapore

- HP products [1] comply with Singapore's "Environment Protection and Management Act (Chapter 94A) Environmental Protection and Management Act (Amendment of Second Schedule) Order 2016", otherwise known as Singapore RoHS which came into effect on June 1, 2017.

Taiwan BSMI

- HP products [1] comply with Taiwan's "CNS 15663 Guidance to reduction of the restricted chemical substances in electrical and electronic equipment released by Bureau of Standards, Metrology and Inspection (BSMI), MOEA through notification dated 29 December 2015 added the requirement for RoHS labelling to BSMI certification requirement." Otherwise known as Taiwan BSMI RoHS which came into effect as of July 1, 2017.

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 256

Americas

California

- HP products [1] comply with California's, "Electronic Waste Recycling Act of 2003 (Senate Bill 20) substance restrictions", otherwise known as California RoHS which came into effect on January 1, 2007.

New Jersey

- HP products [1] comply with New Jersey's "Electronic Waste Recycling Act" (Senate Bill 2144), otherwise known as New Jersey RoHS which came into effect on 1 January 2011.

Worldwide

- HP continues to achieve its internal voluntary goal to meet the substance restrictions of the EU RoHS legislation on a worldwide basis, except where it is widely recognized that there is no technically feasible alternative (as indicated by an exemption under the EU RoHS Directive), for virtually all HP branded products in scope of EU Directive 2011/65/EU as amended.

Notes:
[1] HP products that are both in scope and put on the market in the given jurisdiction.

About Annex B2
Annex B2 reflects Product environmental attributes relevant for Computers and Computer Monitors. The following items from the ECMA-370 Main body are not shown in the template:
P4.1 – P4.3 Consumable materials
P9.1 TEC and Print speed
P10.2 - P10.3 Chemical emissions from printing products
P11.1 - P11.3 Consumable materials for printing products.

Product environmental attributes - Legal requirements		**Requirement met**		
Item		Yes	No	n.a.
P1	**Hazardous substances and preparations**			
P1.1*	Products do comply with current European RoHS Directive. (See legal reference and NOTE B1)	☒	☐	
P1.2*	Products do not contain Asbestos (see legal reference). Comment: Legal reference has no maximum concentration value.	☒	☐	
P1.3*	Products do not contain Ozone Depleting Substances: Chlorofluorocarbons (CFC), hydrobromofluorocarbons (HBFC), hydrochlorofluorcarbons (HCFC), Halons, carbontetrachloride, 1,1,1-trichloroethane, methyl bromide (see legal reference). Comment: Legal reference has no maximum concentration values.	☒	☐	
P1.4*	Products do not contain more than; 0,005% polychlorinated biphenyl (PCB), 0,005% polychlorinated terphenyl (PCT) in preparations (see legal reference).	☒	☐	
P1.5*	Products do not contain more than 0,1% short chain chloroparaffins (SCCP) with 10-13 carbon atoms in the chain containing at least 48% per mass of chlorine in the SCCP (see legal reference).	☒	☐	
P1.6*	Parts with direct and prolonged skin contact do not release nickel in concentrations above 0,5 μg/cm²/week (see legal reference). Comment: Max limit in legal reference when tested according to EN1811:2011-5.	☒	☐	☐
P1.7*	REACH Article 33 information about substances in articles is available at (add URL or mail contact): REACH Article 33 Declarations (hp.com)	☒	☐	☐
P2	**Batteries**			
P2.1*	If the product contains a battery or an accumulator, the battery/accumulator is labeled with the disposal symbol. Information on proper disposal is provided in user manual. (See legal reference)	☒	☐	☐
P2.2*	Batteries or accumulators do not contain more than 0,0005% of mercury or 0,002% of cadmium. (See legal reference)	☒	☐	☐
P2.3*	Batteries and accumulators are readily removable. (See legal reference)	☐	☒	☐
P2.4*	Documentation includes the number of cycles the (secondary) battery can withstand. (See legal reference)	☒	☐	☐
P2.5*	When internal batteries of a notebook computer cannot be “accessed and replaced by a nonprofessional user”, the related text is present and legible on the external packaging (see legal reference)	☒	☐	☐
P3	**Conformity verification & Eco design (ErP)**			
P3.1*	The product is CE-marked to show conformance with applicable legal requirements (see legal reference). The Declaration of Conformity can be requested at (add link or e-mail address): http://www8.hp.com/uk/en/certifications/technical/regulations-certificates.html sustainability@hp.com	☒	☐	☐
P3.2*	The product complies with the applicable Eco design requirements for energy-related products, (see legal reference).	☒	☐	☐
	Required information is; ☒ given in item P15 or added to this document,	☒	☐	☐
	☐ available at (add URL):			
P5	**Product packaging**			
P5.1*	Packaging and packaging components do not contain more than 0,01% lead, mercury, cadmium and hexavalent chromium by weight of these together.	☒	☐	
P5.2*	The packaging materials are marked with abbreviations and numbers indicating the nature of the material(s) used (see legal reference).	☒	☐	☐
P5.3*	The product packaging material is free from ozone depleting substances as specified in the Montreal Protocol (see legal reference). Comment: Legal reference has no maximum concentration values.	☒	☐	☐
P6	**Treatment information**			
P6.1*	Information for recyclers/treatment facilities is available (see legal reference).	☒	☐	☐

NOTE B1 Restriction applies to the homogeneous material, unless other specified and expressed in weight %. Stating “Yes” means that the product is compliant with the mandatory requirements.

Product environmental attributes - Market requirements (See General NOTE GN below) **- Environmental conscious design**		**Requirement met**		
Item	*=mandatory to fill in. Additional information regarding each item may be found under P14.	Yes	No	n.a.
P7	**Design** **Disassembly, recycling**			
P7.1*	Parts that have to be treated separately are easily separable	☒	☐	☐
P7.2*	Plastic materials in covers/housing have no surface coating.	☐	☒	☐
P7.3*	Plastic parts > 100 g consist of one material or of easily separable materials.	☒	☐	☐
P7.4*	Plastic parts > 25 g have material codes according to ISO 11469 referring ISO 1043-4.	☒	☐	☐
P7.5	Plastic parts are free from metal inlays or have inlays that can be removed with commonly available tools.	☒	☐	☐
P7.6*	Labels are easily separable. (This requirement does not apply to safety/regulatory labels).	☒	☐	☐
	Product lifetime			
P7.7*	Upgrading can be done e.g. with processor, memory, cards or drives	☒	☐	☐
P7.8*	Upgrading can be done using commonly available tools	☒	☐	☐
P7.9	Spare parts are available after end of production for: **5** years			☐
P7.10	Service is available after end of production for: **5** years			☐
	Material and substance requirements			
P7.11*	Product cover/housing material type (e.g. plastics, metal, aluminum): Material type: ***aluminium*** Material type: ***stainless steel*** Material type:			
P7.12	Insulation materials of external electrical cables are PVC free.	☐	☒	☐
P7.13	Insulation materials of internal electrical cables are PVC free.	☒	☐	☐
P7.14	External plastic casing/cover parts > 25 g contain no more than 0,1% weight (1000 ppm) bromine and 0,1% weight (1000 ppm) chlorine attributable to brominated flame retardants, chlorinated flame retardants, and polyvinyl chloride or 0,3% weight (3000 ppm) bromine and 0,3% weight (3000 ppm) chlorine in parts containing more than 25% post-consumer recycled content.	☒	☐	☐
P7.15	Printed circuit boards, PCBs (without components) are low halogen: all ☐ PCBs > 25 g ☒ are low halogen as defined in IEC 61249-2-21. (See [5]NOTE B2)	☒	☐	☐
P7.16	Flame retarded plastic parts > 25 g in covers / housings are marked according ISO 1043-4: Marking:	☐	☐	☒
P7.17	Alt. 1: Chemical specifications of flame retardants in printed circuit boards > 25 g (without components): TBBPA (additive) ☐, TBBPA (reactive) ☐ (See NOTE B3), Other; chemical name: , CAS #: Alt. 2: Chemical specifications of flame retardants in printed circuit boards (without components) > 25 g according ISO 1043-4:***FR(40)***	☐ ☒	☐ ☐	☐ ☐
P7.18	Alt. 1: Flame retarded plastic parts > 25 g contain the following flame retardant substances/preparations in concentrations above 0,1%: 1. Chemical name: , CAS #: (See NOTE B4) 2. Chemical name: , CAS #: " 3. Chemical name: , CAS #: " Alt. 2: Chemical specifications of flame retardants in plastic parts > 25 g according ISO 1043-4:	☐ ☐	☐ ☐	☐ ☒
P7.19	In plastic parts > 25 g, flame retardant substances/preparations above 0,1% are used which have been assigned the following Risk phrases; and Hazard statements: The source(s) for these classifications is/are found at (add URL(s)): ***http://echa.europa.eu/web/guest/information-on-chemicals/cl-inventory-database*** (See note B5)	☐	☐	☒

GENERAL NOTE Standard references should direct to the latest version of a standard. If an older version of a standard is used, section P15 shall be used for explanation.

NOTE B2 IEC 61249-2-21 defines maximum limits of 900 ppm for each of the substances chlorine and bromine and a maximum limit of 1500ppm of these substances combined. The standard does not address fluorine, iodine and astatine which are included in the group of halogens.

NOTE B3 and B4 A Guidance document on Chemical substances is available; see http://www.ecma-international.org/publications/standards/Ecma-370.htm.

NOTE B5 If a certain substance has been assigned a certain risk phrases / hazard statement in the referenced source, this does not necessarily mean the substance has been tested for all of the hazards referred to by a certain customer.

P7 ***Product Upgradability and Reparability***

The following table is provided in accordance with IEEE 1680.1-2018[6] criterion 4.4.2.5.

feature	Available[1]	Repairable[2]	Replaceable[2]	Upgradeable[3]
processor	Y	Y	Y*	Y
main memory	Y	Y	Y	Y
mass storage (internal)	Y	Y	Y	Y
wireless networking	Y	Y	Y	Y
integrated graphics	Y	Y	Y*	N
discrete graphics	N	N/A	N/A	N/A
display panel	Y	Y	Y	Y
integrated keyboard	Y	Y	Y	Y
battery	Y	Y	Y	Y
power supply	Y	Y	Y	Y
fan assemblies	Y	Y	Y	N
speaker(s) (internal)	Y	Y	Y	N
camera	Y*	Y	Y	Y
touchpad	Y	Y	Y	N
I/O connectors and external power connector	Y	Y	Y	N
readers [5]	Y*	Y	Y	N

Table notes:
[1] Y* = feature is available, but may not be included in every configuration
[2] Product can be repaired (returned to fully functional state) if feature fails.
[3] Feature can be replaced using only commonly available tools without soldering or de-soldering. Y* = replacement may require replacing an assembly to which the feature is attached.
[4] Base feature may be upgraded by replacing it with a higher performance module or by expanding capacity through use of expansion slots. NOTE: This evaluation does not
account for situations in which the initial configuration purchased is already maximized. Contact HP Sales or an HP authorized reseller to determine the availability of upgrade parts and method to obtain them in your geography.
[5] This feature category includes readers such as fingerprint readers, smart card readers, and other read-only devices, but excludes read/write devices.

- Produto não acabado, cuja integração em outro equipamento requer nova avaliação.
- Possui conector para antena externa.
- Ganho das antenas (5,1 GHz): 5 dBi (antena 1 e 2)
- Ganho das antenas (5,4 GHz): 5 dBi (antena 1 e 2)
- Ganho das antenas (5925 a 6425 MHz): 4,83 dBi (antena 1 e 2).
- Ganho das antenas (6425 a 6525 MHz): 4,30 dBi (antena 1 e 2).
- Ganho das antenas (6525 a 6875 MHz): 5,37 dBi (antena 1 e 2).
- Ganho das antenas (6875 a 7125 MHz): 5,59 dBi (antena 1 e 2).
- Os valores de potências indicados nas faixas de 5470-5725 MHz e 5925 a 7125 MHz referem-se a potência média em E.I.R.P.
- Possui mecanismo DFS.

Observações

Na instalação do produto devem ser observadas as condições de uso conforme estabelecido no Regulamento sobre Equipamentos de Radiocomunicação de Radiação Restrita.

Este certificado substitui o de mesmo número emitido em 07/10/2021

Constitui obrigação do fabricante do produto no Brasil providenciar a identificação do produto homologado, nos termos da regulamentação de telecomunicações, em todas as unidades comercializadas, antes de sua efetiva distribuição ao mercado, assim como observar e manter as características técnicas que fundamentaram a certificação original.

As informações constantes deste certificado de homologação podem ser confirmadas no SCH - Sistema de Gestão de Certificação e Homologação, disponível no portal da Anatel. (www.anatel.gov.br).

Data sheet

HP 125 Wired Mouse

Every Day Productivity

Think how much you use your mouse. That's why we've taken the time to design a wired mouse that is comfortable to use so you can work productively every day - and all day if necessary.

Designed for Comfort
The HP 125 Wired Mouse includes perfectly positioned left and right buttons and a scroll wheel so you can work in comfort all day.

Plug and Play Connectivity
Connecting some peripheral devices can be a complex and time consuming task.
Who needs that? With easy plug and play USB connectivity, you can get your mouse connected quickly so you can get on with your work day.

Responsibly Made
You should feel good about the products you buy and use. Rest assured, this wired mouse is responsibly made with printed circuit boards that is low halogen[1].

Easy Cleaning
Use your keyboard every day and it will accumulate dirt and grime. Over time, this can affect how it performs. Because it was specifically designed to withstand every day cleaning with disinfecting wipes[2], this is one keyboard that's a snap to keep clean.

1. External power supplies, power cords, cables and peripherals are not Low Halogen. Service parts obtained after purchase may not be Low Halogen.
2. Select household wipes can be safely used to clean HP Elite Presenter Mouse, HP Premium keyboard (wireless and USB) and HP desktop wired 320 KB/Mouse up to 1,000 wipes: See wipe manufacturer's instructions for disinfecting and the HP cleaning guide for HP tested wipe solutions at How to Sanitize Your HP Device Whitepaper.

Specifications

HP 125 Wired Mouse

Part number	265A9AA/ET/UT
Dimensions (L x W x H)	4.41 x 2.48 x1.42 inch (112 x 63 x 36 mm)
Weight	2.83 oz (80.5 g ±5 g)
Dots per inch (DPI)	1200 DPI
Tracking type	Optical Red Sensor[1]
Connectivity	USB
Cable length	1800 mm
System requirements	Windows 10 (64 bit and 32 bit) (UWP) RS4 and above
Approvals	FCC ICES CULus CE GS EAC Ukraine India BIS KCC RCM BSMI VCCI
Sustainability	Low halogen PCBA.
What´s in the box	Mouse, QSP, Warranty Card, Product Notice
Warranty	One-year limited warranty
Country of origin	China

1. Surface Coverage recommendation for Optical Red Sensor: Difuse surface: wooden board, cloth mouse pad.

Power Distribution Switch (U2500) (for DIS main board)	TEXAS INSTRUMENTS INC	For CB: TPS2543, TPS2544, TPS2545, TPS2546 (Additional suffixes after the model number designate the type of integrated circuit package, integrated circuit lead types or other features that are considered not to affect the functionality of the device) For UL: TPS2543, TPS2544, TPS2545, TPS2546, may be followed by Q, may be followed by RTE, may be followed by R or T, may be followed by Q1	Input voltage: 4.5 Vdc to 5.5 Vdc, Output Current Limit: 3.1 A	IEC 60950-1: 2005+A1+A2, UL 2367, CB test report issued by TÜV	UL
	ANPEC Electronics Corporation	APL3524QBI- TRG	Input voltage: DC 4.5 V - 5.5 V, Cl. III, SELV, Nominal output: 0 - 2.5 A	IEC 60950-1: 2005+A1+A2, UL 2367, CB test report issued by TÜV	UL
	PERICOM SEMICONDUCT OR CORP	For CB: PI5USB25wwxyy yEz, where ww is 44, 46, 47 or 48, x is blank or A, yyy is ZH or ZHD for packaging type, E is Pb- free, and z is blank for bulk packaging or X for tape and reel packaging For UL: PI5USB2546ZH EX (Where "X" can be any one alphanumeric digit or blank. "blank" represents "tube" packing; the alphanumeric digit "X" represents "tape & reel" packing.)	Input voltage: 4.5 - 5.5 Vdc, Output Current Limit: 100 mA to 3.18 A	IEC 60950-1: 2005+A1+A2, UL 2367, CB test report issued by UL	UL
Polyswitch (F3000, F3001, F3002, F2200)	LITTELFUSE INC	0805L110ULXX YYYYY, X stands for A to Z, 0 to 9 or blank; Y stands for A to Z, 0 to 9 or blank.	1.1 A, 6 V	IEC 60730-1: 1999+A1+A2, EN 60730-1: 2000+A1+A2+A12+A13+A14+A16, UL 1434, UL 60730-1	TÜV, UL
	Polytronics	For TÜV: SPR-P110 For UL: SPR-P110($), ($) May be followed	1.1 A, 6 V	IEC 60730-1: 1999+A1+A2, EN 60730-1: 2000+A1+A2+A1	TÜV, UL

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 340

		by symbol "-" and up to two alphanumeric characters denoting a resistance range or customer code, not related to construction or any other rating.		2+A13+A14+A16, UL 1434, UL 60730-1	
Polyswitch (F3003)	LITTELFUSE INC	1812L110/24	1.1 A, 24 Vdc	IEC 60730-1, UL 1434	TÜV, UL
	WAYON ELECTRONICS CO LTD	For TÜV: LP-MSM110 /24abcd (a = C, U, Blank; b = S, Z, Blank; c = H, Blank; d = F,Blank) For UL: LP-MSM110/24* * May be followed by H or F. (where "H" is Halogen free and "F" is Lead free)	1.1 A, 24 Vdc	IEC 60730-1, UL 1434	TÜV, UL
	POLYTRONICS TECHNOLOGY CORP	For TÜV: SMD1812P110T F/24X5 (X5 stands for blank or symbol "-" followed by up to two digits code of 0-9 or A- Z) For UL: SMD1812P110T (+)/24($), (+) May be followed by suffix S or F. ($) May be followed by symbol "-" and up to two alphanumeric characters denoting a resistance range or customer code, not related to construction or any other rating.	1.1 A, 24 Vdc	IEC 60730-1, UL 1434	TÜV, UL

Anexo 15 – Lista de componentes criticos HSN-I45C-4

Object / part No.	Manufacturer/ trademark	Type / model	Technical data	Standard	Mark(s) of conformity1
Power adapter (Optional) (Rated 15Vdc, 3A)	ACBEL(hp)	TPN-AA07	I/P: 100-240Vac, 1.4A, 50-60Hz O/P: 15Vdc, 3A or 12Vdc, 3A or 9Vdc, 3A or 5Vdc, 3A Max. operating altitude: 5000 m.	IEC 60950-1: 2005+A1+A2, IEC 62368-1: 2014 (Second Edition) EN 62368-1: 2014+A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB by TÜV Rh, UL/cUL, GS
	Chicony (hp)	TPN-CA20	I/P: 100-240Vac, 1.4A, 50-60Hz O/P: 15Vdc, 3A or 12Vdc, 3A or 9Vdc, 3A or 5Vdc, 3A Max. operating altitude: 5000 m.	IEC 60950-1:2005+A1+A2, IEC 62368-1:2014 (Second Edition) EN 62368-1:2014+A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB by TÜV Rh, UL/cUL, GS
	Delta (hp)	TPN-DA15	I/P: 100-240Vac, 1.4A, 50-60Hz O/P: 15Vdc, 3A or 12Vdc, 3A or 9Vdc, 3A or 5Vdc, 3A Max. operating altitude: 5000 m.	IEC 60950-1:2005+A1+A2, IEC 62368-1:2014 (Second Edition) EN 62368-1:2014+A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB by TÜV Rh, UL/cUL, GS
	Lite-On (hp)	TPN-LA19	I/P: 100-240Vac, 1.4A, 50-60Hz O/P: 15Vdc, 3A or 12Vdc, 3A or 9Vdc, 3A or 5Vdc, 3A Max. operating altitude: 5000 m.	IEC 60950-1:2005+A1+A2, IEC 62368-1:2014 (Second Edition) EN 62368-1:2014 +A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB by TÜV Rh, UL/cUL, GS

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 425

	Interchangeable	Interchangeable	O/P: 15Vdc, 3A Max. operating altitude: 3048 m min.	IEC 60950-1:2005+A1+A2, IEC 62368-1:2014 (Second Edition) EN 62368-1:2014 +A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB (issued by NCB), UL/c-UL
Power adapter (Optional) (Rated 20Vdc, 3.25A)	Chicony (hp)	TPN-CA21	I/P: 100-240 Vac, 50-60 Hz, 1.6 A O/P: 5 Vdc, 3 A or 9 Vdc, 3 A or 12 Vdc, 5 A or 15 Vdc, 4.33 A or 20 Vdc, 3.25 A; Max. operating altitude: 5000 m.	IEC 60950-1:2005+A1+A2, IEC 62368-1:2014 (Second Edition) EN 62368-1:2014+A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB by TÜV Rh, UL/cUL, GS
	Delta (hp)	TPN-DA20	I/P: 100-240 Vac, 50-60 Hz, 1.7 A O/P: 5 Vdc, 3 A or 9 Vdc, 3 A or 12 Vdc, 5 A or 15 Vdc, 4.33 A or 20 Vdc, 3.25 A; Max. operating altitude: 5000 m.	IEC 60950-1:2005+A1+A2, IEC 62368-1:2014 (Second Edition) EN 62368-1:2014+A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB by TÜV Rh, UL/cUL, GS
	HONOR (hp)	TPN-HA01	I/P: 100-240 Vac, 50-60 Hz, 1.6 A O/P: 5 Vdc, 3 A or 9 Vdc, 3 A or 12 Vdc, 5 A or 15 Vdc, 4.33 A or 20 Vdc, 3.25 A; Max. operating altitude: 5000 m.	IEC 60950-1:2005+A1+A2, IEC 62368-1:2014 (Second Edition) EN 62368-1:2014+A11, UL 62368-1, 2nd Edition, 2014-12-01, CSA C22.2 No.62368-1-14, 2nd Edition, 2014-12	CB by UL, UL/cUL, GS

Proposta de Preço ITEM 3 - TORINO INFORMATICA LTDA. (1679393) SEI 2025.001317 / pg. 441

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - Bairro Nova Esperança - CEP 69037-473 - Manaus - AM - www.mpam.mp.br

OFÍCIO Nº 284.2025.CPL.1679395.2025.001317

Manaus, *na data da assinatura.*

Ao Senhor

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA

Chefe do Setor de Infraestrutura e Telecomunicação

Assunto: Análise de Propostas de Preços referente ao **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ SRP**.

Senhor Chefe,

Cumprimentando-o com o presente, informamos que tramita nesta Comissão Permanente de Licitação o Processo SEI n.º 2025.001317, referente ao **PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP,** cujo objeto é o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses*.

Isto posto, encaminho os autos em epígrafe a esse **Setor de Infraestrutura e Telecomunicação - SIET,** para **análise e manifestação** quanto aos documentos apresentados pela licitante abaixo elencada:

1. **TORINO INFORMÁTICA LTDA.** , CNPJ (MF) n.º 03.619.767/0005-15, para o **Item 3** (doc's. 1679393).

Atenciosamente,

Maurício Araújo Medeiros

Pregoeiro - PORTARIA 606/2025/SUBADM

Documento assinado eletronicamente por **Maurício Araújo Medeiros**, **Membro da Comissão Permanente de Licitação - CPL**, em 23/07/2025, às 10:43, conforme art. 1º, III, "b", da Lei 11.419/2006.

A autenticidade do documento pode ser conferida no link http://sei.mpam.mp.br/sei/controlador_externo.php?acao=documento_conferir&id_orgao_acesso_externo=0 informando o código verificador **1679395** e o código CRC **CDBAE1F4**.

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - CEP 69000-000 - Manaus - AM - www.mpam.mp.br

PARECER Nº 26.2025.SIET.1679784.2025.001317

PROCESSO DE COMPRA: 2025.001317 Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ SRP Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317
OBJETO: Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.

1. **Relatório**

Trata-se de pedido de compatibilização da proposta da empresa **TORINO INFORMÁTICA LTDA.** , com documentos enviados para o **ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** , na fase de disputas do Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ, documento 1679393, recebido no dia 23/7/2025.

2. **Da Análise**

2.1 Produto ofertado

Item	Descrição	Quantidade	Produto Ofertado
1	**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** **Marca/Modelo de Referência:** Lenovo ThinkPad T14 GEN 5, Dell Latitude 5450.	300	**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** NOTEBOOK HP 640 G11 PROC INTEL ULTRA 5 135U - VPRO MEMÓRIA 16GB(2X8) DDR5 5600 HD SSD 256GB NVME WEBCAM 5MP WIFI6 + BT AX211 TELA 14 FHD BATERIA 56WHR WINDOWS 11 PROFESSIONAL SOFTWARE ABSOLUTE GARANTIA 5 ANOS ACOMPANHA: MOUSE USB 1000 DPI HP E MOCHILA PARA NOTEBOOK.

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. PLACA PRINCIPAL (PLACA MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação do mesmo, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;	□	
2. Deve possuir, no mínimo, 1 (um) slot para memória RAM, "do tipo DDR-5 SODIMM", permitindo a instalação de até 40 (quarenta) Gigabytes, 8 (oito) soldadas diretamente na placa e até 32 (trinta e dois) instaladas no slot. Admite-se 2 slots com 1 módulo de memória cada, como configuração superior, em substituição aos módulos soldados na placa principal;	□	
3. Deve suportar tecnologia Dual Channel de utilização de memória RAM;	□	
4. Deve possuir 1 (um) Socket M.2 para SSD SATA ou NVMe;	□	
5. Deve possuir 1 (um) Socket M.2 Para Cartões Wi-Fi/Bluetooth;	□	
6. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;	□	
7. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
8. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
9. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
10. Deve possuir suporte a virtualização por hardware;		
11. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
12. Deve possuir suporte a aceleração de segurança AES no hardware;		
13. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
14. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
15. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1 ou 3.2;		
16. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		
2. BIOS		
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela **CONTRATANTE**;		
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. Deverá possuir, 2 (dois) núcleos, no mínimo, e 12 (doze) threads de processamento com frequência de operação interna básica de, no mínimo, 1.6 GHz;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos e ciclos de clock base (MHz);		
3. Memória cache total de, no mínimo, 12MB;		
4. O processador ofertado deverá ser Intel Core Ultra 5, "de 1ª geração", ou AMD Ryzen 5 PRO, "serie 8000", admitindo-se famílias ou gerações mais novas;		
5. O processador deverá ser da última geração disponível utilizada pelo fabricante do equipamento, **com desempenho mínimo de 17.000 (dezessete mil) pontos**, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php. 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.		
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos, podendo atingir até 4.4 GHz, no mínimo;		
7. Deve possuir controlador com suporte à memória RAM do tipo DDR5-5600 MT/s, ou superior;		
8. Deverá possuir tecnologia de fabricação de 7 nm (sete nanômetros) ou inferior;		
9. TDP(Thermal Design Power) mínimo de 12W, e máximo de 58W, declarado pelo fabricante;		
10. Deve possuir instruções do padrão AVX 2.0, ou superior;		
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;		
12. Deve possuir instruções que implementem extensões de virtualização de hardware;		
13. Deve possuir instruções AES-NI embutidas;		
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.		
4. MEMÓRIA RAM		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Deverá possuir, no mínimo, 16 (dezesseis) Gb de memória RAM instalados, com capacidade de expansão mínima de 40 (quarenta) Gb;		
2. Deverá ser do tipo DDR-5/LPDDR-5 SODIMM ou superior e possuir no mínimo, 5600 MT/s de velocidade de comunicação com o barramento principal;		
3. A implementação do total de memória RAM deve utilizar 1 (um) módulo, de 8 (oito) GB, e mais 8 (oito) GB soldada diretamente à placa principal, utilizando tecnologia dual channel; 1. Admite-se que ambos os módulos sejam do tipo SODIMM, e sejam removíveis como configuração superior a mencionada acima;		
4. O(s) módulo(s) removível(eis) deve(m) ser instalado(s) durante o processo de manufatura do computador, e homologado(s) como parte do equipamento, inclusive estando coberto(s) pela garantia e suporte como descrito no Termo de Referência.		
5. UNIDADE DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256 GB e velocidade mínima de gravação de 1.200MB/s;		O proponente descreveu em sua proposta: "*HD SSD 256GB NVME*" No **QuickSpecs**, seção **Storage and Drives**, encontramos os seguintes discos de 256Gb: • 256GB PCIe 2280 NVMe Self Encrypted OPAL2 Value Solid State Drive, com Maximum Sequential Write de 900 MB/s ±20%; • SSD 256GB 2280 PCIe NVMe Value, com Maximum Sequential Write de 900 MB/s ±20%. Pelo exposto, nenhum dos dois discos atendem à velocidade mínima de gravação de 1.200 Mb/s.
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;		
3. Deve ser instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. CONECTIVIDADE		
1. Deverá possuir no mínimo 4 (quatro) portas USB; 1. Do total de portas, no mínimo 2 (duas) devem ser do tipo USB 3.2 tipo A; 2. No mínimo 1 (uma) deve ser do tipo USB 3.2 Tipo C ou Thunderbolt;		
2. Possuir, no mínimo, 1 (uma) porta de vídeo adicional, suportando a utilização de 1 (um) monitor auxiliar simultânea e independentemente da tela integrada;		
3. O tipo da porta auxiliar de vídeo supracitada deve ser HDMI 2.0 ou DisplayPort 1.2. Em caso de versões miniaturizadas destas, adaptadores revertendo para elas devem ser fornecidos sem custo adicional.		
7. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função Wake On Lan instalada e em funcionamento;		
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. Deve possuir, no mínimo, 1 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.3 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, conectado em slot específico na placa mãe, que deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência;		
5. A interface Wireless ofertada deve possuir, na data da entrega da proposta, homologação junto à **ANATEL** com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controlador 3D/2D com suporte a DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.5, ou superior;		
4. Deve suportar HDCP ou HDR;		
5. Deve suportar a resolução mínima de 1920 X 1080 @ 60 Hz;		
6. Deve possuir tecnologia de controle dinâmico de frequência, podendo atingir, no mínimo, 1.35GHz;		
7. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.		
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 mm;		
3. Deve possuir, no mínimo, 2 alto-falantes internos, com 2 Watt RMS de potência cada, compatíveis com a controladora de som;		
4. Deve incorporar microfone(s), com cancelamento de ruído, voltados para captar o som do usuário em frente ao computador.		
10. TECLADO		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Deve ser integrado e retroiluminado no idioma padrão, português (Brasil), ABNT-II;	⚠	Não foi possível verificar qual das configurações de teclados disponíveis atende ao requisito de retroiluminação. *"Keyboard HP Standard Keyboard, spill-resistant, backlit, Durakey keyboard. 23* *HP Standard Keyboard, spill-resistant, Privacy, backlit, Durakey keyboard. 23* *HP Standard Keyboard, spill-resistant keyboard*." **Providências** - Declarar na proposta, inclusive o atendimento do requisito do idioma padrão português (Brasil), ABNT-II.
2. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute; 1. Admite-se a utilização de teclas de função (F1...F12), para tais ações.	□	
11. DISPOSITIVOS APONTADORES		
1. Deve possuir um touchpad integrado, com dois botões, e área útil de 4 (quatro) pol², no mínimo; 1. Admite-se que os botões sejam integrados, como cliques diretos na parte inferior do touchpad;	□	
2. Deve suportar gestos de rolagem, ou possuir teclas, área ou dispositivo dedicado;	□	
3. Deve acompanhar um mouse adicional, da mesma cor e do mesmo fabricante do equipamento ofertado; 1. Deve ser óptico, com conexão USB, com 3 (três) botões e sistema de rolagem de página, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 800 dpi.	□	
12. TELA INTEGRADA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);	□	
2. Tamanho de 14 polegadas widescreen, no mínimo;	□	
3. Deve suportar, no mínimo, 16 milhões de cores;	□	
4. Resolução mínima de 1920x1080@60Hz;	□	
5. Ângulo de visão mínimo de 85° horizontal e vertical;	□	
6. Deve possuir brilho mínimo de 300 cd/m².	□	
13. WEBCAM		
1. O equipamento deve possuir uma webcam integrada, de 1.3 megapixels, com resolução de vídeo FHD, no mínimo, não sendo aceita solução externa;	□	
2. Deve possuir mecanismo de bloqueio por tampa, ou desativação mecânica, como solução de privacidade, também integrada ao equipamento.	□	
14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. O equipamento deve ser produzido no formato laptop.		
2. O peso total do equipamento sem a fonte, não deve exceder os 1.6 Kg (um quilo e seiscentos gramas);		
3. A dobradiça do equipamento, deve ser construída em metal, e com articulação de 180º;		
4. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;		
5. Deve possuir botão de liga/desliga e luz de indicação de computador ligado (power-on) em local visível e acessível do computador, quando ele estiver aberto;		
6. Deve possuir leitor biométrico integrado, em área acessível, quando o notebook estiver aberto;		
7. Deve oferecer a possibilidade de, se demandado, aplicar logo oficial da CONTRATANTE, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas na parte inferior do laptop, visando medidas de segurança;	⚠	Na declaração do fabricante, ele diz: "*Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará as solicitações de customização à HP de modo a atender plenamente as exigências edilícias.* ***Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas***;" **Providências:** - Declarar na proposta.
8. O computador deverá possuir fenda de encaixe padrão "Kensington" ou “Noble Wedge” para utilização de cabo de aço do mesmo tipo;		
9. Deve ser fornecido com fonte de carregamento/alimentação do mesmo fabricante e compatível com o equipamento, com potência suficiente para suportar todos os dispositivos internos em suas configurações máximas permitidas, além de possibilitar o pleno carregamento da bateria do equipamento;		
10. A fonte de alimentação deve possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);		
11. A fonte deve possuir tensão de entrada 110 e 220 Volts de forma automática;		
12. A fonte deve fornecer uma alimentação mínima de 65W para o equipamento;		
13. Os plugues de conexão à rede elétrica devem seguir o padrão NBR 14136:2002.		
15. BATERIA		
1. Deve ser integrada ao corpo do equipamento, (não destacável);		
2. Potência mínima de 39 wh;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
3. Deve possuir no mínimo 3 (três) células de carregamento; 1. Deve ser capaz de manter o equipamento funcionando ininterruptamente por no mínimo 11 (onze) horas, conforme o padrão de teste do aplicativo MobileMark 2018.		
16. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para: • Controle: Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.		
4. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;		
5. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;		
6. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
7. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.	⚠	Não foi possível constatar na documentação apresentada, a possíbilidae de entrega dos equipamentos com a imagem de instalação do sistema operacional e softwares customizados. **Providências:** - Declarar na proposta.
17. COMPATIBILIDADE		
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o sistema operacional exigido e ofertado. 1. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;		
2. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;		
3. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional.		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
18. OUTROS REQUISITOS		
1. Todas as partes do computador devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;		
2. Deverá acompanhar maleta, pasta, mochila ou similar, para transporte com segurança, de tamanho suficiente para acondicionar o equipamento e seus acessórios (fonte de alimentação e cabos), confeccionada em material resistente e impermeável;		
3. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;		
5. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;		
6. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
7. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		
8. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
9. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;		
10. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;		
11. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;		
12. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional. 1. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);	□	
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica. 1. A comprovação deverá ser apresentada junto com a proposta;	□	
15. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes a qualquer momento;	□	
16. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo. **Para as baterias, será admitido garantia mínima de 36 (trinta e seis) meses**. Nos meses que restarem para completar o prazo total de garantia, a **FORNECEDORA** se obriga a dispor de bateria para venda em caso de eventual necessidade, e a realizar o suporte e assistências técnica sem ônus para a **CONTRATANTE**.	□	Na declaração do fabricante temos: "*A assistência técnica "on-site" será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;* *• Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa,* ***salvo quando o defeito for provocado por uso inadequado dos equipamentos;***".

3. Conclusão

Após análise da documentação apresentada pela licitante **TORINO INFORMÁTICA LTDA.**, referente ao **Item 3 – MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"**, foram observados alguns pontos inconclusivos, marcados como ⚠**. Os pontos marcados com** □, são exigências que não foi possível comprovar sua aderência com a documentação enviada.

3.1 Unidade de armazenamento com velocidade de gravação inferior ao mínimo de 1.200 MB/s

O proponente descreveu em sua proposta: "*HD SSD 256GB NVME*". Ao buscar no caderno de especificações, denominado **QuickSpecs**, na seção **Storage and Drives**, encontramos os seguintes discos de 256Gb:

- 256GB PCIe 2280 NVMe Self Encrypted OPAL2 Value Solid State Drive, com Maximum Sequential Write de 900 MB/s ±20%;
- SSD 256GB 2280 PCIe NVMe Value, com Maximum Sequential Write de 900 MB/s ±20%.

Pelo exposto, nenhum dos dois discos atendem à velocidade mínima de gravação de 1.200 Mb/s.

3.2 Teclado retroiluminado no idioma padrão, português (Brasil), ABNT-II

Não foi possível verificar qual das configurações de teclados disponíveis atende ao requisito de retroiluminação. No caderno **QuickSpecs** temos:

- *"Keyboard HP Standard Keyboard, spill-resistant, backlit, Durakey keyboard. 23*
- *HP Standard Keyboard, spill-resistant, Privacy, backlit, Durakey keyboard. 23*
- *HP Standard Keyboard, spill-resistant keyboard.*"

Providências

- Declarar na proposta, inclusive o atendimento do requisito de teclado retroiluminado, no idioma padrão português (Brasil), ABNT-II.

3.3 Customizações

No que diz respeito às exigências de customização com aplicação da logo oficial da **CONTRATANTE**, na declaração do fabricante, esta declara:

> "*Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará as solicitações de customização à HP de modo a atender plenamente as exigências edilícias.* ***Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas***;" (g.n.)

Providências

- A proponente deverá declarar na proposta a oferta deste item.

3.4 Entrega dos equipamentos com imagem de instalação do sistema operacional customizada e fornecida pela CONTRATANTE

Não foi possível constatar na documentação apresentada, a possíbilidae de entrega dos equipamentos com a

imagem de instalação do sistema operacional e softwares customizados.

Providências

- Considerando a cláusula de customizações já transcrita, a proponente deverá declarar na proposta a oferta deste item.

3.5 Da garantia

Na declaração do fabricante temos a seguinte cláusula:

> "*A assistência técnica "on-site" será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;*
> *• Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa,* ***salvo quando o defeito for provocado por uso inadequado dos equipamentos;***"

Ocorre que nesta contratação as condições de prestação de garantia e assistência técnica são:

> *8.2.1 Os equipamentos objeto desta licitação, deverão contar com garantia e assistência técnica do fabricante ou pela assistência técnica autorizada do mesmo, na modalidade* ***"****on-site****", pelo período de 60 (sessenta) meses,*** *contados a partir da emissão d o* ***TERMO DE RECEBIMENTO DEFINITIVO*** *do objeto, devendo atender aos chamados de assistência técnica, conforme estabelecido neste Termo e Anexos.*
>
> *8.2.1.1 A garantia deverá abranger acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.*

Note-se, portanto, que foi solicitado **garantia do fabricante ou pela assistência técnica autorizada do mesmo**, e que o fabricante declarou não prestar garantia para defeitos provocados por uso inadequado dos equipamentos, situações essas típicas dos danos não intencionais descritas no termo de referência.

É o parecer.

Manaus, 24 de julho de 2025.

Anexo I - ITEM 3 - PM9B1 M.2 SSD Datasheet_v1.0_ for HPI (1683324) SEI 2025.001317 / pg. 458

Revision History

Revision No.	History	Draft Date	Remark	Edited by	Reviewed by
1.0	1. Initial release	Mar, 15. 2022	Final	Semi Lee	Yongsuk Yun

PM9B1 M.2 Series

PART NUMBER	CAPACITY[1]	LBA COUNT [2]
MZVL4128HCHQ-00BH1	128GB	250,069,680
MZVL4256HBJD-00BH1	256GB	500,118,192
MZVL4512HBLU-00BH1	512GB	1,000,215,216
MZVL41T0HBLB-00BH1	1024GB	2,000,409,264

FEATURES

- PCIe Gen.4 16Gb/s Interface, up to 4 Lanes
- Compliant with PCI Express® M.2 Specification Rev. 1.1
- Compliant with NVM Express™ specification Rev. 1.4 (Mandatory Only)
- Power Saving Modes:
  - Supporting APST
  - Supporting L1.2 Mode
- Support Admin & NVM Command Set
- RoHS Compliant

DRIVE CONFIGURATION

· Capacity	128/256/512/1024GB
· From Factor	M.2
· Interface	PCI Express® Gen.4 x4
· Bytes per Sector	512 Bytes

PERFORMANCE SPECIFICATIONS [3]

· Data Transfer Rate (128KB)	
· Sequential Read	(128/256GB) Up to 3,300 MB/s
	(512GB) Up to 3,500 MB/s
	(1024GB) Up to 3,600 MB/s
· Sequential Write	(128/256GB) Up to 1,200 MB/s
	(512GB) Up to 2,500 MB/s
	(1024GB) Up to 3,000 MB/s
· Data I/O Speed (4KB)	
· Random Read	(128/256GB) Up to 210K IOPS
	(512GB) Up to 400K IOPS
	(1024GB) Up to 450K IOPS
· Random Write	(128/256GB) Up to 280K IOPS
	(512GB) Up to 400K IOPS
	(1024GB) Up to 430K IOPS

RELIABILITY SPECIFICATIONS

· Uncorrectable Bit Error Rate	< 1 sector per 10^{15} bits read
· MTBF	1.5 Million Hours

ENVIRONMENTAL SPECIFICATIONS

· Temperature	
- Operating[4]	0°C to 70°C
- Non-operating	-40°C to 85°C
· Humidity (non-condensing)	
- Non-operating	5 ~ 95%
· Linear Shock (0.5ms duration with 1/2 sine wave, 3axis)	
- Non-operating	1,500 Gpeak
· Vibration (20Hz ~ 2,000Hz, Sinusoidal)	
- Non-operating	20 Gpeak

POWER SPECIFICATIONS

· Supply Voltage / Tolerance	3.3V± 5%
· Voltage Ripple/Noise (max.)	100mV p-p
· Active[5] (Typ., RMS)	
- Read (3.3V)	4.1 W
- Write (3.3V)	4.2 W
· Idle[6] (Typ.)	40 mW
· Sleep[6] (Typ.)	3.5 mW

PHYSICAL DIMENSION

· Width	22.00 ± 0.15 mm
· Length	80.00 ± 0.15 mm
· Height	Max. 2.38 mm
· Weight	Max. 4.0 g

NOTE: Specifications are subject to change without notice.

1) 1MB = 1,000,000 Bytes, 1GB = 1,000,000,000 Bytes, unformatted Capacity.
   User accessible capacity may vary depending on operating environment and formatting.
2) 1 Sector = 512Bytes, Max. LBA represents the total user addressable sectors
   in LBA mode and calculated by IDEMA rule.
3) Actual performance may vary depending on use conditions and environment.
   Performance measurements based on TurboWrite technology.
4) Temperature is measured by SMART Temperature.
   Proper airflow recommended to prevent the thermal throttling if over 70°C
5) Active power is measured on sequential write and read.
6) Actual measurements result may vary depending on use conditions and environment.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR HEADQUARTERS OF SAMSUNG ELECTRONICS.

1.0 INTRODUCTION

1.1 General Description

This document describes the specification of PM9B1 SSD which uses PCIe interface.
The PM9B1 is fully consist of semiconductor device and using NAND Flash Memory which has a high reliability and a high technology in a small form factor for using a SSD and supporting Peripheral Component Interconnect Express (PCIe) 4.0 interface standard up to 4 lanes shows much faster performance than previous SATA SSDs.

The PM9B1 provides 128GB, 256GB, 512GB and 1024GB capacities. It's sequential performance is up to 3,600MB/s for read operation and 3,000MB/s for write operation by 4 lanes. It's random performance is up to 450k IOPS for read and 430k IOPS for write operation by 4 lanes. It could also provide rugged features with an extreme environment with a high MTBF.

1.2 Product List

[Table 1] Product Line-up

Type	Capacity	Part Number
M.2	128GB	MZVL4128HCHQ-00BH1
	256GB	MZVL4256HBJD-00BH1
	512GB	MZVL4512HBLU-00BH1
	1024GB	MZVL41T0HBLB-00BH1

1.3 Ordering Information

M	Z	X	X	X	X	X	X	X	X	X	X	-	X	X	X	X	X
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18

1. Memory (M)

2. Module Configuration
Z: SSD

3. Interface / FormFactor
V: PCIe M.2 (22x80, PCIex4)

4. Line-Up
L: VNAND 3bit MLC

5. SSD CTRL
4: Silverstar,Marvell

6~8. SSD Capacity
128: 128GB
256: 256GB
512: 512GB
1T0: 1TB

9. NAND Package
H: BGA (LF,HF)

10. Generation
B: 3rd Generation
C: 4th Generation

11~12. NAND Density
HQ: 1T QDP 4CE
JD: 2T QDP 4CE
LU: 4T ODP 4CE
LB: 8T HDP 4CE

13. "-"

14. PCB Type
0: None

15. HW revision
0: No revision

16. Packing Type
Production site
A: the product is assembled(ES/CS) and manufactured in Korea (MP)
B: the product is assembled(ES/CS) in Korea and manufactured in Korea or China (MP).

17~18. Customer
H1: HPI NonSED

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR HEADQUARTERS OF SAMSUNG ELECTRONICS.

2.0 PRODUCT SPECIFICATION

2.1 Capacity

[Table 2] User Addressable Sectors

Capacity[1)]	Max. LBA Count[2)]
128GB	250,069,680
256GB	500,118,192
512GB	1,000,215,216
1024GB	2,000,409,264

NOTE:
1) Gigabyte (GB) = 1,000,000,000 Bytes, 1 Sector = 512Bytes
2) Max. LBA shown in Table 1 represents the total user addressable sectors in LBA mode and calculated by IDEMA rule.

2.2 Performance[1)]

[Table 3] Drive Performance (Gen.4)

Parameter	Unit	Queue Depth	128GB	256GB	512GB	1024GB
Sequential Read[2)] (Up to)	MB/s	QD = 32	3,300	3,300	3,500	3,600
Sequential Write[2)4)] (Up to)	MB/s	QD = 32	1,200	1,200	2,500	3,000
Random Read[3)] (Up to)	IOPS	QD = 32	210K	210K	400K	450K
Random Write[3)4)] (Up to)	IOPS	QD = 32	280K	280K	400K	430K

[Table 4] Drive Performance (Gen.3)

Parameter	Unit	Queue Depth	128GB	256GB	512GB	1024GB
Sequential Read[2)] (Up to)	MB/s	QD = 32	3,300	3,300	3,500	3,600
Sequential Write[2)4)] (Up to)	MB/s	QD = 32	1,200	1,200	2,500	3,000
Random Read[3)] (Up to)	IOPS	QD = 32	210K	210K	400K	450K
Random Write[3)4)] (Up to)	IOPS	QD = 32	280K	280K	400K	430K

NOTE:
1) Performance measured using IOMeter 1.1.0 / CDM 5.1.2 on Windows 10 64bit. Actual performance may vary depending on use conditions and environment
2) Sequential performance measured using 128KB data size. (QD=32 by Thread=1)
3) Random performance measured using 4KB data size. (QD=32 by Thread 4, QD=1 by Thread 1)
4) Performance measurements based on TurboWrite technology

2.3 Power

[Table 5] Maximum Ratings

Parameter		Allowable noise/ripple
Supply Voltage	Allowable voltage	3.3V ± 5%
	Allowable noise/ripple	100mV p-p or less

[Table 6] Power Consumption for M.2 (3.3V Supply)

Parameter			Specifications
Power Consumption	Active[1] (Typ., RMS)	Read	4.1 W
		Write	4.2 W
	Idle[2)3)] (Typ.)		40 mW
	Sleep[2)3)] (Typ.)		3.5 mW

NOTE:
1) Active power is measured on sequential write and read.
2) Idle Power is measured on PS3 (L1.2 Enable) and Sleep Power is measured on PS4 (L1.2 Enable).
3) Actual measurements result may vary depending on use conditions and environment.

[Table 7] Power Rail Current

parameter	RMS Current	Max. Current (RMS current for 10us duration)
3.3V	1.3A	1.9A

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR HEADQUARTERS OF SAMSUNG ELECTRONICS.

2.4 Reliability

This chapter provides the information for the reliability features of the SSD.

2.4.1 MTBF

MTBF is Mean Time Between Failure, and is the predicted elapsed time between inherent failures of a system during operation. As same word, AFR (annual failure ratio) is 0.58%. MTBF can be calculated as the arithmetic average time between failures of a system.

[Table 8] MTBF Specifications

Capacity	MTBF
128GB	1,500,000 Hours
256GB	
512GB	
1024GB	

2.4.2 UBER

UBER is Uncorrectable Bit Error Rate.

[Table 9] UBER Specifications

Parameter	Specification
UBER	< 1 sector per 10^{15} bits read

2.4.3 TBW

[Table 10] TBW Specification

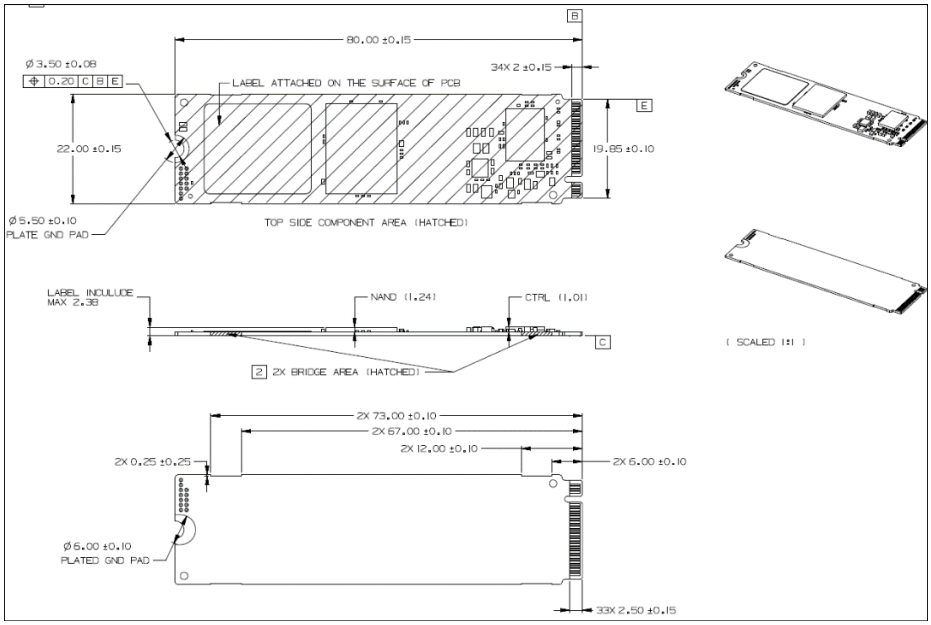
Parameter	Unit	128GB	256GB	512GB	1024GB
TBW	TB	100	200	300	400

2.5 Environmental Specification

[Table 11] Temperature, Humidity, Shock, Vibration

Parameter	Mode	Specification
Temperature	Operating[1)]	0°C to 70°C
	Non-operating	-40°C to 85°C
Humidity[2)]	Non-operating	5% to 95%
Shock[3)]	Non-operating	1500G, 0.5ms with half sine wave, 3 axis
Vibration[4)]	Non-operating	20G, 20Hz to 2000Hz

NOTE:
1) Temperature is measured by SMART Temperature. Proper airflow recommended to prevent the thermal throttling if over 70°C.
2) Humidity is measured in non-condensing.

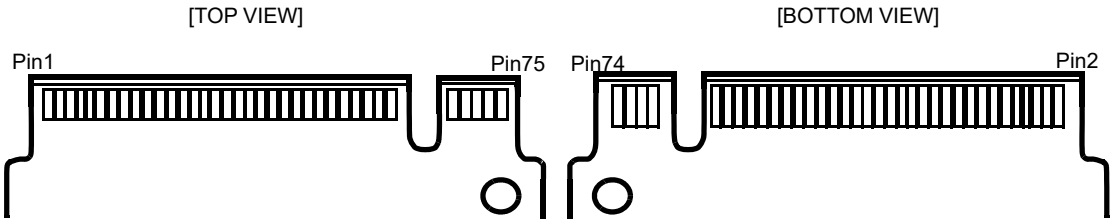


3.0 MECHANICAL SPECIFICATION

3.1 Physical dimensions and Weight

[Table 12] Physical dimensions and Weight

Parameter	Value
Width	22.00 ± 0.15 mm
Length	80.00 ± 0.15 mm
Thickness	Max. 2.38 mm
Weight	Max 4.0g



3.2 Form Factor

[Figure 1] M.2 22x80

Bits	Type	Default Value	Description
31:24	R	00h	Power Data Information Register.
23	R	0h	Bus Power/Clock Control Enable.
22	R	0h	B2B3 Support for D3hot.
21:16	R	00h	Reserved.
15	R/W	0h	PME Status.
14:13	R	0h	Data Scaling Factor.
12:9	R	0h	Data Select.
8	R/W	0h	PME Enable.
7:4	R	0h	Reserved.
3	R/W	1h	No soft Reset.
2	R	0h	Reserved.
1:0	R/W	0h	Power State.

5.1.4 Message Signaled Interrupt (MSI) Registers

[Table 41] Message Signaled Interrupt Capability Register Summary

Start Address	End Address	Symbol	Description
50h	53h	MSI_ID	Message Signaled Interrupt Capability ID
		MSI_MC	Message Signaled Interrupt Message Control
54h	57h	MSI_MA	Message Signaled Interrupt Message Address
58h	5Bh	MSI_MUA	Message Signaled Interrupt Upper Address
5Ch	5Dh	MSI_MDATA	Message Signaled Interrupt Message Data
60h	63h	MSI_MMASK	Message Signaled Interrupt Mask Bits
64h	67h	MSI_MPEND	Message Signaled Interrupt Pending Bits

[Table 42] Message Signaled Interrupt Capability ID Register

Bits	Type	Default Value	Description
15:8	RO	0h	MSI Capability Next Pointer.
7:0	RO	05h	MSI Capability ID.

[Table 43] Message Signaled Interrupt Control Register

Bits	Type	Default Value	Description
15:11	RsvdP	0h	Reserved
10	RO	0h	Extended Message Data Enable
9	RO	0h	Extended Message Data Capable
8	RO	1h	Per Vector Masking Capable (N/A)
7	RO	0h	64-bit Address Capable
6:4	RW	0h	Multiple Message Enable
3:1	RO	0h	Multiple Message Capable
0	RW	0h	MSI Enable

[Table 44] Message Signaled Interrupt Address Register

Bits	Type	Default Value	Description
31:2	RW	00000000h	MSI Message Lower Address Field.
1:0	R	0h	Reserved

[Table 45] Message Signaled Interrupt Upper Address Register

Bits	Type	Default Value	Description
31:0	RW	0h	Upper Address

[Table 46] Message Signaled Interrupt Message Data Register

Bits	Type	Default Value	Description
15:0	RW	0000h	Data

[Table 47] Message Signaled Interrupt Mask Bits Register

Bits	Type	Default Value	Description
31:0	RW	00000000h	Used for MSI when the Per Vector Masking Capable bit (PCI_MSI_CAP_ID_NEXT_CTRL_REG.PCI_PVM_SUPPORT) is set.

[Table 48] Message Signaled Interrupt Pending Bits Register

Bits	Type	Default Value	Description
31:0	RO	0h	Pending Bits

5.1.4.1 PCI Express® Capability

[Table 49] PCI Express® Capability Register Summary

Start Address	End Address	Symbol	Description
70h	73h	PCIE_ID	PCI Express Capability ID
		PCIE_CAP	PCI Express Capabilities
74h	77h	PCIE_DCAP	PCI Express Device Capabilities
78h	7Bh	PCIE_DC	PCI Express Device Control
		PCIE_DS	PCI Express Device Status
7Ch	7Fh	PCIE_LCAP	PCI Express Link Capabilities
80h	83h	PCIE_LC	PCI Express Link Control
		PCIE_LS	PCI Express Link Status
94h	97h	PCIE_DCAP2	PCI Express Device Capabilities 2
98h	9Bh	PCIE_DC2	PCI Express Device Control 2
		PCIE_DS2	PCI Express Device Status 2
9Ch	9Fh	PCIE_LCAP2	PCI Express Link Capabilities 2
A0h	A3h	PCIE_LC2	PCI Express Link Control 2
		PCIE_LS2	PCI Express Link Status 2

[Table 50] PCI Express® Capability ID Register0

Bits	Type	Default Value	Description
15:8	RW	Bh	PCIE Next Capability Pointer.
7:0	R	10h	PCIE Capability ID.

[Table 51] PCI Express® Capabilities Register

Bits	Type	Default Value	Description
31:30	R	0h	Reserved.
29:25	R/W	00h	PCIE Interrupt Message Number.
24	R/W	0h	PCIe Slot Implemented Valid.
23:20	R	0h	PCIE Device/PortType.
19:16	R	2h	PCIE Capability Version Number.

[Table 52] PCI Express® Device Capabilities Register

Bits	Type	Default Value	Description
31:29	R	0h	Reserved.
28	R/W	1h	Function Level Reset Capability (endpoints only).
27:26	R	0h	Captured Slot Power Limit Scale.
25:18	R	00h	Captured Slot Power Limit Value.
17:16	RO	0	Reserved.
15	R/W	1h	Role-based Error Reporting Implemented.
14:12	R	0h	Reserved.
11:9	R/W	7h	Applies to endpoints only L1 acceptable latency.
8:6	R/W	7h	Applies to endpoints only L0s acceptable latency.
5	R/W	0h	Extended Tag Field Supported.
4:3	R/W	0h	Phantom Functions Supported.
2:0	R/W	2h	Max Payload Size Supported.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR HEADQUARTERS OF SAMSUNG ELECTRONICS.

[Table 53] PCI Express® Device Control Register

Bits	Type	Default Value	Description
15	R/W	0h	Initiate Function Level Reset (for endpoints).
14:12	R/W	2h	Max Read Request Size.
11	R	0h	Enable No Snoop.
10	R/W	0h	Aux Power PM Enable.
9	R	0h	Phantom Functions Enable.
8	R	0h	Extended Tag Field Enable.
7:5	R/W	0h	Max Payload Size.
4	R/W	1h	Enable Relaxed Ordering.
3	R/W	0h	Unsupported Request Reporting Enable.
2	R/W	0h	Fatal Error Reporting Enable.
1	R/W	0h	Non-fatal Error Reporting Enable.
0	R/W	0h	Correctable Error Reporting Enable.

[Table 54] PCI Express® Device Status Register

Bits	Type	Default Value	Description
15:7	RsvdZ	0h	Reserved
6	RO	0h	Emergency Power Reduction Detected (N/A)
5	RO	0h	Transactions Pending
4	RO	0h	Aux Power Detected
3	RW1C	0h	Unsupported Request Detected
2	RW1C	0h	Fatal Error Detected
1	RW1C	0h	Non-Fatal Error Detected
0	RW1C	0h	Correctable Error Detected

[Table 55] PCI Express® Link Capabilities Register

Bits	Type	Default Value	Description
31:24	R/W	00h	Port Number.
23	R	0h	Reserved.
22	R/W	1h	ASPM Optionality Compliance.
21	R	0h	Link Bandwidth Notification Capable.
20	R	0h	Data Link Layer Link Active Reporting Capable.
19	R	0h	Surprise Down Error Reporting Capable.
18	R/W	0h	Clock Power Management.
17:15	R/W	6h	L1 Exit Latency.
14:12	R/W	7h	LOs Exit Latency.
11:10	R/W	2h	Level of ASPM (Active State Power Management) Support.
9:4	R/W	04h	Maximum Link Width.
3:0	R/W	4h	Maximum Link Speed.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION
IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR
HEADQUARTERS OF SAMSUNG ELECTRONICS.

[Table 56] PCI Express® Link Control Register

Bits	Type	Default Value	Description
15:14	R	0h	DRS Signaling Control.
13:12	R	0h	Reserved.
11	R/W	0h	Link Autonomous Bandwidth Management Interrupt Enable.
10	R/W	0h	Link Bandwidth Management Interrupt Enable.
9	R/W	0h	Hardware Autonomous Width Disable.
8	R/W	0h	Enable Clock Power Management.
7	R/W	0h	Extended Synch.
6	R/W	0h	Common Clock Configuration.
5	R/W	0h	Initiate Link Retrain.
4	R/W	0h	Initiate Link Disable.
3	R/W	0h	Read Completion Boundary (RCB).
2	R	0h	Reserved.
1:0	R/W	0h	Active State Power Management (ASPM) Control.

[Table 57] PCI Express® Link Status Register

Bits	Type	Default Value	Description
15	RW1C	0h	Link Autonomous Bandwidth Status (N/A)
14	RW1C	0	Link Bandwidth Management Status (N/A)
13	RO	0	Data Link Layer Link Active
12	HwInit	1	Slot Clock Configuration
11	RO	0	Link Training (N/A)
10	RO	0	Reserved
9:4	RO	1h	Negotiated Link Width
3:0	RO	1h	Current Link Speed

[Table 58] PCI Express® Device Capabilities 2 Register

Bits	Type	Default Value	Description
31	R/W	1h	FRS Supported.
30:20	R	000h	Reserved.
19:18	R	0h	(OBFF) Optimized Buffer Flush/fill Supported.
17	R	0h	10-Bit Tag Requester Supported.
16	R	1h	10-Bit Tag Completer Supported.
15:14	R	0h	LN System CLS.
13	R	0h	TPH Completer Supported Bit 1.
12	R	0h	TPH Completer Supported Bit 0.
11	R	1h	LTR Mechanism Supported.
10	R	0h	No Relaxed Ordering Enabled PR-PR Passing.
9	R	0h	128 Bit CAS Completer Supported.
8	R	0h	64 Bit AtomicOp Completer Supported.
7	R	0h	32 Bit AtomicOp Completer Supported.
6	R	0h	Atomic Operation Routing Supported.
5	R	0h	ARI Forwarding Supported.
4	R	1h	Completion Timeout Disable Supported.
3:0	R	Fh	Completion Timeout Ranges Supported.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR HEADQUARTERS OF SAMSUNG ELECTRONICS.

[Table 59] PCI Express® Device Control 2 Register

Bits	Type	Default Value	Description
15	RsvdP	0	End-to-end TLP Prefix Blocking (N/A)
14:13	RW/RsvdP	0h	OBFF Enable (N/A)
12	RW	0h	10-Bit Tag Requester Enable
11	RO	0	Emergency Power Reduction Request (N/A)
10	RW	0	Latency Tolerance Reporting Mechanism Enable
9	RW	0	IDO Completion Enable (N/A)
8	RW	0	IDO Request Enable (N/A)
7	RW	0	AtomicOp Egress Blocking (N/A)
6	RW	0	AtomicOp Requester Enable (N/A)
5	RW	0	ARI Forwarding Enable (N/A)
4	RW	0	Completion Timeout Disable
3:0	RW	0h	Completion Timeout Value

[Table 60] PCI Express® Device Status 2 Register

Bits	Type	Default Value	Description
15:0	RsvdZ	0h	Reserved

[Table 61] PCI Express® Link Capabilities 2 Register

Bits	Type	Default Value	Description
31	R/W	1h	DRS Supported.
30:25	R	00h	Reserved.
24	R/W	1h	Two Retimers Presence Detect Supported.
23	R/W	1h	Retimer Presence Detect Supported.
22:9	R	0000h	Reserved.
8	R	0h	Cross Link Supported.
7:1	R	0Fh	Supported Link Speeds Vector.
0	R	0h	Reserved.

[Table 62] PCI Express® Link Control 2 Register

Bits	Type	Default Value	Description
15:12	R/W	0h	Sets Compliance Preset/De-emphasis for 5 GT/s and 8 GT/s.
11	R/W	0h	Sets Compliance Skip Ordered Sets transmission.
10	R/W	0h	Enter Modified Compliance.
9:7	R/W	0h	Controls Transmit Margin for Debug or Compliance.
6	R	0h	Controls Selectable De-emphasis for 5 GT/s.
5	R/W	0h	Hardware Autonomous Speed Disable.
4	R/W	0h	Enter Compliance Mode.
3:0	R/W	4h	Target Link Speed.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION
IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR
HEADQUARTERS OF SAMSUNG ELECTRONICS.

[Table 63] PCI Express® Link Status 2 Register

Bits	Type	Default Value	Description
15	R	0h	DRS Message Received.
14:12	R	0h	Downstream Component Presence.
27:24	R	0h	Reserved.
7	R	0h	Two Retimers Presence Detected.
6	R	0h	Retimer Presence Detected.
5	R/W	0h	Link Equalization Request 8.0GT/s.
4	R	0h	Equalization 8.0GT/s Phase 3 Successful.
3	R	0h	Equalization 8.0GT/s Phase 2 Successful.
2	R	0h	Equalization 8.0GT/s Phase 1 Successful.
1	R	0h	Equalization 8.0GT/s Complete.
0	R	1h	Current De-emphasis Level.

5.1.5 MSI-X Capability

[Table 64] MSI-X Capability Register Summary

Start Address	End Address	Symbol	Description
B0h	B3h	MSIX_ID	MSI-X Capability ID
		MSIX_CAP	MSI-X Message Control
B4h	B7h	MSIX_TBL	MSI-X Table Offset and Table BIR
B8h	BBh	MSIX_PBA	MSI-X PBA Offset and PBA BIR

[Table 65] MSI-X Identifier Register

Bits	Type	Default Value	Description
15:8	RW	D0h	MSI-X Next Capability Pointer.
7:0	R	11h	MSI-X Capability ID.

[Table 66] MSI-X Control Register

Bits	Type	Default Value	Description
15	RW	1h	MSI-X Enable
14	RW	0h	Function Mask
13:11	R	0h	Reserved
10:00	RW	42h	MSI-X Table Size

[Table 67] MSI-X Table Offset Register

Bits	Type	Default Value	Description
31:3	RW	00000800h	MSI-X Table Offset.
2:0	RW	0h	MSI-X Table Bar Indicator Register Field.

[Table 68] MSI-X Pending Bit Array Offset Register

Bits	Type	Default Value	Description
31:3	RW	00000C00h	MSI-X PBA Offset.
2:0	RW	0h	MSI-X PBA BIR.

5.1.6 PCI Extended Capability Details

5.1.6.1 Advanced Error Reporting Registers

[Table 69] Advanced Error Reporting Capability Register Summary

Start Address	End Address	Symbol	Description
100h	103h	AER_ID	AER Capability ID
104h	107h	AER_UCES	AER Uncorrectable Error Status
108h	10Bh	AER_UCEM	AER Uncorrectable Error Mask
10Ch	10Fh	AER_UCESEV	AER Uncorrectable Error Severity
110h	113h	AER_CES	AER Correctable Error Status
114h	117h	AER_CEM	AER Correctable Error Mask
118h	11Bh	AER_CC	AER Advanced Error Capabilities and Control
11Ch	12Bh	AER_HL	AER Header Log

[Table 70] AER Capability ID Register

Bits	Type	Default Value	Description
31:20	RW	148h	Next Capability Offset.
19:16	RW	2h	Capability Version
15:0	RW	0001h	AER Extended Capability ID.

[Table 71] AER Uncorrectable Error Status Register

Bits	Type	Default Value	Description
31:23	R	000h	Reserved.
22	RW	0h	Uncorrectable Internal Error Status.
21	R	0h	Reserved.
20	RW	0h	Unsupported Request Error Status.
19	RW	0h	ECRC Error Status.
18	R/W	0h	Malformed TLP Status.
17	R/W	0h	Receiver Overflow Status.
16	R/W	0h	Unexpected Completion Status.
15	R/W	0h	Completer Abort Status.
14	R/W	0h	Completion Timeout Status.
13	R/W	0h	Flow Control Protocol Error Status.
12	R/W	0h	Poisoned TLP Status.
11:6	R	00h	Reserved.
5	R/W	0h	Surprise Down Error Status (Optional).
4	R/W	0h	Data Link Protocol Error Status.
3:0	R	0h	Reserved.

[Table 72] AER Uncorrectable Error Mask Register

Bits	Type	Default Value	Description
31:25	R	00h	Reserved.
24	R	0h	AtomicOp Egress Block Mask (Optional).
23	R	0h	Reserved.
22	R/W	1h	Uncorrectable Internal Error Mask (Optional).
21	R	0h	Reserved.
20	R/W	0h	Unsupported Request Error Mask.
19	R/W	0h	ECRC Error Mask (Optional).
18	R/W	0h	Malformed TLP Mask.
17	R/W	0h	Receiver Overflow Mask (Optional).
16	R/W	0h	Unexpected Completion Mask.
15	R/W	0h	Completer Abort Error Mask (Optional).
14	R/W	0h	Completion Timeout Error Mask.
13	R/W	0h	Flow Control Protocol Error Mask.
12	R/W	0h	Poisoned TLP Error Mask.
11:6	R	00h	Reserved.
5	R	0h	Surprise Down Error Mask.
4	R/W	0h	Data Link Protocol Error Mask.
3:0	R	0h	Reserved.

[Table 73] AER Uncorrectable Error Severity Register

Bits	Type	Default Value	Description
31:25	R	00h	Reserved.
24	R	0h	AtomicOp Egress Blocked Severity (Optional).
23	R	0h	Reserved.
22	R/W	1h	Uncorrectable Internal Error Severity (Optional).
21	R	0h	Reserved.
20	R/W	0h	Unsupported Request Error Severity.
19	R/W	0h	ECRC Error Severity (Optional).
18	R/W	1h	Malformed TLP Severity.
17	R/W	1h	Receiver Overflow Error Severity (Optional).
16	R/W	0h	Unexpected Completion Error Severity.
15	R/W	0h	Completer Abort Error Severity (Optional).
14	R/W	0h	Completion Timeout Error Severity.
13	R/W	1h	Flow Control Protocol Error Severity (Optional).
12	R/W	0h	Poisoned TLP Severity.
11:6	R	00h	Reserved.
5	R	1h	Surprise Down Error Severity (Optional).
4	R/W	1h	Data Link Protocol Error Severity.
3:0	R	0h	Reserved.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION
IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR
HEADQUARTERS OF SAMSUNG ELECTRONICS.

[Table 74] AER Correctable Error Status Register

Bits	Type	Default Value	Description
31:16	R	0000h	Reserved.
15	R/W	0h	Header Log Overflow Error Status (Optional).
14	R/W	0h	Corrected Internal Error Status (Optional).
13	R/W	0h	Advisory Non-Fatal Error Status.
12	R/W	0h	Replay Timer Timeout Status.
11:9	R	0h	Reserved.
8	R/W	0h	REPLAY_NUM Rollover Status.
7	R/W	0h	Bad DLLP Status.
6	R/W	0h	Bad TLP Status.
5:1	R	00h	Reserved.
0	R/W	0h	Receiver Error Status (Optional).

[Table 75] AER Correctable Error Mask Register

Bits	Type	Default Value	Description
31:16	R	0000h	Reserved.
15	R/W	1h	Header Log Overflow Error Mask (Optional).
14	R/W	1h	Corrected Internal Error Mask (Optional).
13	R/W	1h	Advisory Non-Fatal Error Mask.
12	R/W	0h	Replay Timer Timeout Mask.
11:9	R	0h	Reserved.
8	R/W	0h	REPLAY_NUM Rollover Mask.
7	R/W	0h	Bad DLLP Mask.
6	R/W	0h	Bad TLP Mask.
5:1	R	00h	Reserved.
0	R/W	0h	Receiver Error Mask (Optional).

[Table 76] AER Capabilities and Control Register

Bits	Type	Default Value	Description
31:11	R	000000h	Reserved.
10	R	0h	Multiple Header Recording Enable.
9	R	0h	Multiple Header Recording Capable.
8	R/W	1h	ECRC Check Enable.
7	R	1h	ECRC Check Capable.
6	R/W	1h	ECRC Generation Enable.
5	R	1h	ECRC Generation Capable.
4:0	R	00h	First Error Pointer.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR HEADQUARTERS OF SAMSUNG ELECTRONICS.

[Table 77] AER Header Log Register

Bits	Type	Default Value	Description
31:24 (11Ch)	R	00h	Byte 3 of Header log register of First 32 bit Data Word.
23:16 (11Ch)	R	00h	Byte 2 of Header log register of First 32 bit Data Word.
15:8 (11Ch)	R	00h	Byte 1 of Header log register of First 32 bit Data Word.
7:0 (11Ch)	R	00h	Byte 0 of Header log register of First 32 bit Data Word.
31:24 (120h)	R	00h	Byte 3 of Header log register of Second 32 bit Data Word.
23:16 (120h)	R	00h	Byte 2 of Header log register of Second 32 bit Data Word.
15:8 (120h)	R	00h	Byte 1 of Header log register of Second 32 bit Data Word.
7:0 (120h)	R	00h	Byte 0 of Header log register of Second 32 bit Data Word.
31:24 (124h)	R	00h	Byte 3 of Header log register of Third 32 bit Data Word.
23:16 (124h)	R	00h	Byte 2 of Header log register of Third 32 bit Data Word.
15:8 (124h)	R	00h	Byte 1 of Header log register of Third 32 bit Data Word.
7:0 (124h)	R	00h	Byte 0 of Header log register of Third 32 bit Data Word.
31:24 (128h)	R	00h	Byte 3 of Header log register of Fourth 32 bit Data Word.
23:16 (128h)	R	00h	Byte 2 of Header log register of Fourth 32 bit Data Word.
15:8 (128h)	R	00h	Byte 1 of Header log register of Fourth 32 bit Data Word.
7:0 (128h)	R	00h	Byte 0 of Header log register of Fourth 32 bit Data Word.

5.1.6.2 Alternative Routing-ID(ARI) Capability

[Table 78] Alternative Routing-ID(ARI) Capability Summary

Start Address	End Address	Symbol	Description
168h	16Bh	ARI_ID	Alternative Routing-ID(ARI) Capability Header
16Ch	16Fh	ARI_CAP	ARI Capability Register
		ARI_CON	ARI Control Register

[Table 79] Alternative Routing-ID(ARI) Capability Header

Bits	Type	Default Value	Description
31:20	R/W	178h	Next Capability Offset.
19:16	R/W	1h	Capability Version.
15:0	R/W	000Eh	ARI Extended Capability ID.

[Table 80] Alternative Routing-ID(ARI) Capability Register

Bits	Type	Default Value	Description
15:8	R	00h	Next Function Number.
7:2	R	00h	Reserved.
1	R	0h	ACS Function Groups Capability.
0	R	0h	Multi Functional Virtual Channel (MFVC) Function Groups Capability.

[Table 81] Alternative Routing-ID(ARI) Control Register

Bits	Type	Default Value	Description
31:23	R	000h	Reserved.
22:20	R	0h	Function Group.
19:18	R	0h	Reserved.
17	R	0h	ACS Function Groups Enable.
16	R	0h	MFVC Function Groups Enable.

5.1.6.3 Secondary PCI Express® Capability

[Table 82] Secondary PCI Express® Capability Summary

Start Address	End Address	Symbol	Description
178h	17Bh	SPE_ID	Secondary PCI Express Capability
17Ch	17Fh	PCIE_LC3	PCI Express Link Control 3
180h	183h	PCIE_LE	PCI Express Lane Error Status
184h	187h	PCIE_L0EC	PCI Express Lane 0 Equalization Control
		PCIE_L1EC	PCI Express Lane 1 Equalization Control
188h	189h	PCIE_L2EC	PCI Express Lane 2 Equalization Control
18Ah	18Bh	PCIE_L3EC	PCI Express Lane 3 Equalization Control

[Table 83] Secondary PCI Express® Capability ID Register

Bits	Type	Default Value	Description
31:20	RW	198h	Next Capability Offset.
19:16	RW	1h	Capability Version
15:0	RW	0019h	Secondary PCI Express® Extended Capability ID.

[Table 84] PCI Express® Link Control 3 Register

Bits	Type	Default Value	Description
31:2	R	00000000h	Reserved.
1	R	0h	Link Equalization Request Interrupt Enable.
0	R	0h	Perform Equalization.

[Table 85] PCI Express® Lane Error Status Register

Bits	Type	Default Value	Description
31:4	R	0000000h	Reserved
3:0	RW	0h	Lane Error Status Bits per Lane.

[Table 86] Lane 0 Equalization Control Register

Bits	Type	Default Value	Description
15	R	0h	Reserved
14:12	R	3h	Upstream Port 8.0 GT/s Receiver Preset Hint 0.
11:8	R	7h	Upstream Port 8.0 GT/s Transmitter Preset 0.
7	R	0h	Reserved
6:4	R	0h	Downstream Port 8.0 GT/s Receiver Preset Hint 0.
3:0	R	0h	Downstream Port 8.0 GT/s Transmitter Preset 0.

[Table 87] Lane 1 Equalization Control Register

Bits	Type	Default Value	Description
15	R	0h	Reserved
14:12	R	3h	Upstream Port 8.0 GT/s Receiver Preset Hint 1.
11:8	R	7h	Upstream Port 8.0 GT/s Transmitter Preset 1.
7	R	0h	Reserved
6:4	R	0h	Downstream Port 8.0 GT/s Receiver Preset Hint 1.
3:0	R	0h	Downstream Port 8.0 GT/s Transmitter Preset 1.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION
IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR
HEADQUARTERS OF SAMSUNG ELECTRONICS.

[Table 88] Lane 2 Equalization Control Register

Bits	Type	Default Value	Description
15	R	0h	Reserved
14:12	R	3h	Upstream Port 8.0 GT/s Receiver Preset Hint 2.

30:23	R	00h	Reserved.
22:1	R/W	000000h	Local Future Data Link Feature Supported.
0	R/W	1h	Local Scaled Flow Control Supported.

[Table 124] Data Link Feature Status Register

Bits	Type	Default Value	Description
31	R	0h	Remote Data Link Feature Supported Valid.
30:23	R	00h	Reserved.
22:0	R	000000h	Features Currently defined are: Bit 0 - Remote Scaled Flow Control Supported.
0	RO	0h	Remote Scaled Flow Control Supported

5.2 NVM Express™ Registers

5.2.1 Register Summary

[Table 125] Register Summary

Start Address	End Address	Symbol	Description
00h	07h	CAP	Controller Capabilities
08h	0Bh	VS	Version
0Ch	0Fh	INTMS	Interrupt Mask Set
10h	13h	INTMC	Interrupt Mask Clear
14h	17h	CC	Controller Configuration
18h	1Bh	Reserved	Reserved
1Ch	1Fh	CSTS	Controller Status
20h	23h	NSSR	NVM Subsystem Reset
24h	27h	AQA	Admin Queue Attributes
28h	2Fh	ASQ	Admin Submission Queue Base Address
30h	37h	ACQ	Admin Completion Queue Base Address
38h	3Bh	CMBLOC	Controller Memory Buffer Location (Optional)
3Ch	3Fh	CMBSZ	Controller Memory Buffer Size (Optional)
40h	EFFh	Reserved	Reserved
F00h	FFFh	Reserved	Command Set Specific
1000h	1003h	SQ0TCBL	Submission Queue 0 Tail Doorbell (Admin)
1000h + (1 * (4 << CAP.DSTRD))	1003h + (1 * (4 << CAP.DSTRD))	CQ0HDBL	Completion Queue 0 Head Doorbell (Admin)
…			
1000h+ (2y * (4 << CAP.DSTRD))	1003h + (2y * (4 << CAP.DSTRD))	SQyTDVL	Submission Queue y Tail Doorbell
1000h + ((2y + 1) * (4 << CAP.DSTRD))	1003h + ((2y + 1) * (4 << CAP.DSTRD))	CQYHDBL	Completion Queue y Head Doorbell

5.2.2 Controller Registers

[Table 126] Controller Capabilities

Bits	Type	Name	Default Value	Description
63:56	RO	-	0h	Reserved
55:52	RO	MPSMAX	0h	Memory Page Size Maximum (Maximum is 4KB)
51:48	RO	MPSMIN	0	Memory Page Size Minimum (Minimum is 4KB)
47:45	RO	-	0	Reserved
44:37	RO	CSS	1h	Command Sets Supported 1h: NVM command set
36	RO	NSSRS	1h	NVM Subsystem Reset Supported
35:32	RO	DSTRD	0	Doorbell Stride 0: Stride of 4 bytes
31:24	RO	TO	3Ch	Timeout 3Ch : 30 seconds
23:19	RO	-	0	Reserved
18:17	RO	AMS	1	Arbitration Mechanism Supported (Weighted Round Robin with Urgent supported)
16	RO	CQR	1	Contiguous Queues Required
15:00	RO	MQES	1FFh	Maximum Queue Entries Supported (512 entries supported)

[Table 127] Version

Bits	Type	Name	Default Value	Description
31:16	RO	MJR	1h	Major Version Number
15:08	RO	MNR	4h	Minor Version Number
7:00	RO	Reserved	0	Reserved

NOTE:
The PM9B1 supports NVM Express™ version 1.4(Mandatory Only)

[Table 128] Interrupt Mask Set

Bits	Type	Name	Default Value	Description
31:00	RW1S	IVMS	0	Interrupt Vector Mask Set

[Table 129] Interrupt Mask Clear

Bits	Type	Name	Default Value	Description
31:00	RW1C	IVMC	0	Interrupt Vector Mask Clear

[Table 130] Controller Configuration

Bits	Type	Name	Default Value	Description
31:24	RO	-	0	Reserved
23:20	RW	IOCQES	0	I/O Completion Queue Entry Size (Configured as a power of 2) (Should be set to 4 for a 16 byte entry size)
19:16	RW	IOSQES	0	I/O Submission Queue Entry Size (Configured as a power of 2) (Should be set to 6 for a 64 byte entry size)
15:14	RW	SHN	0	Shutdown Notification 0h: No notification 1h: Normal shutdown notification 2h: Abrupt shutdown notification 3h: Reserved CSTS.SHST indicates shutdown status.
13:11	RW	AMS	0	Arbitration Mechanism Selected 0h: Round Robin No other values supported.
10:7	RW	MPS	0	Memory Page Size MPS is 2^(12+MPS) Shall be within CAP.MPSMAX and CAP.MPSMIN ranges.
6:4	RW	CSS	0	Command Set Selected 0h: NVM Command Set No other values supported
3:1	RO	-	0	Reserved
0	RW	EN	0	Enable When set to 1, controller shall process commands. When cleared to 0, controller shall not process commands. This field is subject to CSTS.RDY and CAP.TO restrictions.

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION
IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR
HEADQUARTERS OF SAMSUNG ELECTRONICS.

6.0 SUPPORTED COMMAND SET

The Admin command sets and NVM I/O command sets of Samsung SSD PM9B1 are defined in compliant with NVM Express™ specification revision 1.4.

6.1 Admin Command Set

The Admin command set is the commands that are submitted to the Admin Submission Queues. The detailed specifications are described in NVM Express specification document.

[Table 140] Opcode for Admin Commands

Opcode (Hex)	Command Name
00h	Delete I/O Submission Queue
01h	Create I/O Submission Queue
02h	Get Log Page
04h	Delete I/O Completion Queue
05h	Create I/O Completion Queue
06h	Identify
08h	Abort
09h	Set Feature
0Ah	Get Feature
0Ch	Asynchronous Event Request
10h	Firmware Commit
11h	Firmware Image Download
14h	Device Self-test
80h – BFh	I/O Command Set Specific
C0h – FFh	Vendor Specific

6.1.1 Identify Command

The Identify Command returns the data described below.

[Table 141] Identify Controller Data Structure

Bytes	O/M	Default Value	Description
1:0	M	144Dh	PCI Vendor ID
3:2	M	144Dh	PCI Subsystem Vendor ID
23:4	M	S###N#########	Serial Number(ASCII), # :Variables
63:24	M	128GB: SAMSUNG MZVL4128HCHQ-00BH1 256GB: SAMSUNG MZVL4256HBJD-00BH1 512GB: SAMSUNG MZVL4512HBLU-00BH1 1024GB: SAMSUNG MZVL41T0HBLB-00BH1	Model Number (ASCII)
71:64	M	HPS#NHAV	Firmware Revision, #:Variables
72	M	2h	Recommended Arbitration Burst
75:73	M	002538h	IEEE OUI
76	O	0	Controller Multi-Path I/O and Namespace Sharing Capabilities Bit 2: 1h - Controller is associated with an SR-IOV Virtual Function 0h - Controller is associated with a PCI Function. Bit 1: 1h - Device has Two or More controller 0h - Device has One Controller Bit 0: 1h - Device has Two or More physical PCI Express ports 0h - Device has One PCI Express port
77	M	5h	Maximum Data Transfer Size 5h : 128KB
79:78	M	7h	Controller ID (CNTLID)

215:213	0	Temperature Sensor 8
511:216	-	Reserved

IF THERE IS ANY OTHER OPERATION TO IMPLEMENT IN ADDITION TO SPECIFICATION
IN THE DATASHEET OR JEDEC STANDARD, PLEASE CONTACT EACH BRANCH OFFICE OR
HEADQUARTERS OF SAMSUNG ELECTRONICS.

7.0 PRODUCT REGULATORY COMPLIANCE

7.1 Product regulatory compliance and Certifications

Samsung SSD products comply with the following:

[Table 147] Regulations covered by region

Category	Certifications	Region or Country
EMC	CE	E.U. (Europe)
	UKCA	UK (without NI)
	FCC	U.S.
	IC	CANADA
	RCM	Australia & New Zealand
	Morocco	Morocco
	KC	Korea
	VCCI	Japan
	BSMI	Taiwan
Safety	c-UL-us	America(U.S., CANADA)
	CE	E.U. (Europe)
	UKCA	UK (without NI)
	TUV-GS	-
	CB	-

The three existing compliance marks (C-Tick, A-Tick and RCM) are consolidated into a single compliance mark - the RCM.

For more details are available at the following internet address:
www.samsung.com/semiconductor

MANUFACTURER'S DECLARATION FOR CE CERTIFICATION

Hereby, Samsung Electronics declares that the product above is in compliance with Directive 2014/30/EU, 2011/65/EU, 2014/35/EU.

EU Compliance Contact information
Samsung Electronics (UK) Ltd, Euro QA Lab, Yateley, GU46 6GG. UK

UK Conformity Assessed (UKCA)

FEDERAL COMMUNICATION COMMISSION (FCC)

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Waste Electrical and Electronic Equipment
This symbol on the product or on its packaging indicates that this product must not be disposed of with your other household waste. Instead, it is your responsibility to dispose of your waste equipment by handing it over to a designated collection point for the recycling of waste electrical and electronic equipment. The separate collection and recycling of your waste equipment at the time of disposal will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your household waste disposal service, or the shop where you purchased the product.

A empresa **Torino Informática Ltda**, inscrita no CNPJ **03.619.767/0001-91** sediada na RUA RITA DE CARVALHO MONTEIRO, 120, RETIRO SÃO JOÃO, SOROCABA, SP - CEP 18085-750 com filial inscrita no CNPJ **03.619.767/0005-15** situada a Avenida 600, s/n, Quadra 15, Módulo 10, Setor Industrial, TIMS, Serra, ES, CEP 29161-419, é um **PARCEIRO AUTORIZADO HP, PARA COMPRA DIRETA DE PRODUTOS DA HP**, estando apto a comercializar as linhas de produtos HP de nossa fabricação descritas abaixo.

Declaramos ainda que a TORINO INFORMÁTICA LTDA. é o parceiro de serviços do programa AMPLIFY, autorizado a prestar serviço de assistência técnica dos produtos que comercializa no telefone 0800 201-5666.

Produtos:

B20A5LS#AK4 – HP Elite Mini 800 G9 – Garantia padrão do fabricante
67V68AV#TMP – Z2 Tower G9 – Garantia padrão do fabricante
9Z0P1AV#TMP – EliteBook 640 G11 – Garantia padrão do fabricante
9A816AV#TMP – ZBook Power 16 inch G11 – Garantia padrão do fabricante

Declaramos ainda que, o produto **B20A5LS#AK4** – HP Elite Mini 800 G9:

- Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará as solicitações de customização à HP de modo a atender plenamente as exigências edilícias. Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas;
- Informações técnicas básicas como modelo do processador, capacidade de memória instalada, capacidade e tipo do dispositivo de armazenamento, versão do sistema operacional e garantia padrão de fábrica estarão descritas na proposta comercial emitida pela CONTRADA;
- Modelo de equipamento ofertado é a mais recente geração disponibilizada pela HP com comercialização no Brasil;
- A HP disponibiliza a ferramenta HP Support Assistant que permite a verificação e instalação das últimas atualizações de todas as ferramentas e drivers disponibilizadas pela HP para o equipamento. Sendo capaz de monitorar o sistema, realizar diagnósticos, emitir alertas e ajudar a reparar erros do sistema, ajudando assim a manter a saúde e segurança do sistema. Permite verificar o status da garantia pela ferramenta;

JCAJ

- Possui BIOS da HP, desenvolvida pela HP, em conformidade com a especificação minima UEFI 2.7 (http://www.uefi.org/) e capturáveis pela aplicação de inventário como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com descrição do modelo, número de série e campo de registro de número de patrimônio com extensão mínima de 15 dígitos, todos gravados em memória não volátil e sendo estas capturáveis por aplicações de inventario como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com interface gráfica com navegação utilizando mouse ou teclado, disponível em mais de 3 idiomas (por exemplo: português, espanhol, inglês etc.);
- Possui BIOS atualizável com opção de recuperação de falha, a partir de arquivo de recuperação no disco rígido ou USB externa;
- Possui BIOS com suporte à verificação de integridade, através do recurso HP Sure Start;
- As atualizações da BIOS, quando necessárias, são disponibilizadas no site da HP Inc.;
- Possui BIOS implementada em “flash ROM” atualizável diretamente pelo microcomputador, utilizando memória não volátil e reprogramável, Plug and Play, entregue na versão mais atual disponibilizada pela HP. Podendo ser atualizada por software de gerenciamento remoto;
- Possui BIOS com capacidade de habilitar / desabilitar portas USB;
- Possui BIOS com possibilidade de configuração de senhas para Power On, Administrador e unidade de armazenamento;
- Possui BIOS com suporte à tecnologia de previsão/contingenciamento de falhas de disco rígido S.M.A.R.T habilitada;
- Possui BIOS com suporte a boot por pendrive ou unidade de armazenamento externo, conectado a uma porta USB 2.0 ou superior;
- Possui BIOS compatível com o padrão mínimo ACPI 6.0. E também compatível com os padrões: DMI, SNMP, WMI, SMBIOS;
- Possui BIOS em conformidade com a normativa NIST 800-147 e NIST 800-193 (HP Sure Start);
- Possui a ferramenta HP Secure Erase integrada na BIOS, que possibilita apagar de forma definitiva e irrecuperável todos os dados da unidade de armazenamento, permitindo o descarte seguro de seus equipamentos (NIST 800-88);
- Possui BIOS com ferramenta de diagnóstico UEFI de componentes internos de hardware (processador, memória, unidade de armazenamento, áudio, teclado, rede, placa mãe, portas USB e vídeo). Acessível via BIOS ou teclas de atalho (F1...F12). A mensagem de erro é suficiente para abertura de chamado em garantia;
- Possui sistema de monitoramento de temperatura controlada pela BIOS, adequado ao processador, fonte e demais componentes internos ao gabinete;
- Possui recurso para realizar downgrade de BIOS e replicação de configurações de BIOS em escala utilizando um arquivo referência ou via Powershell;
- Possui placa mãe fabricada e desenvolvida pela HP, exclusiva para o modelo, com o nome da HP identificado na mesma;
- Possui placa mãe com capacidade de desligamento do vídeo e da unidade de armazenamento após tempo determinado pelo usuário e reiniciar por acionamento de teclado ou pela movimentação do mouse e possui função de economia de energia;
- Possui chip TPM integrado, acompanhado de drivers e a ferramenta nativa do Windows (tpm.msc) para utilização do chip e possibilitando a utilização de todos os recursos de segurança e criptografia (A ferramenta tpm.msc é fornecida com os equipamentos adquiridos com o Sistema Operacional Windows 10 / 11 Pro);
- O chipset é do mesmo fabricante do processador, com tecnologia que permite que o sistema retome rapidamente do estado de hibernação tanto para unidades de armazenamento do tipo SATA e do tipo PCIe;
- Sempre que o equipamento for inicializado, será mostrado no monitor de vídeo o nome da HP;
- Possuem os mesmos padrões de cores, sendo o preto ou cinza escuro a cor predominante e com o logotipo da HP impresso;
- Possui acabamento interno composto de superfícies não cortantes;
- O gabinete possui tratamento anticorrosivo;

JCAJ

- O gabinete possui base/superfície antiderrapante;
- Possui gabinete feito em liga metálica e front bezel de ABS
- O equipamento pode funcionar na posição horizontal ou vertical.
- Possui afixado no gabinete do equipamento, o Selo Certificado de Autenticidade (COA – Certificate of Authenticity) do software Windows na versão instalada e com serial de ativação do sistema operacional gravado no BIOS, quando adquirido com o sistema operacional Windows 11 conforme descrito na proposta comercial;
- O fluxo do ar interno segue as orientações do fabricante do microprocessador;
- Possui tecnologia implementada que controle o nível de desempenho do processador automaticamente, ajustando dinamicamente a frequência e a voltagem a cada a necessidade requerida pela atividade do momento para que seja otimizada a autonomia de bateria do equipamento;
- Possui suporte a implementação de tecnologia dual-channel para a memória RAM;
- As unidades de armazenamento disponíveis para fabricação do modelo, possuem suporte à tecnologia de segurança SMART e NCQ;
- Todos os conectores das portas de entrada/saída são identificados por cores ou símbolos, de acordo com o padrão PC'99 System Design Guide;
- Possui controladora de áudio onboard, com entrada e saída de áudio estéreo (combo jack), capaz de reproduzir os sons gerados pelo sistema (como músicas e beeps de alerta de diagnósticos), e está conectado diretamente a placa mãe sem uso de adaptadores, com suporte a 16bits;
- O sistema de áudio onboard possui a possibilidade de desativação por software ou automaticamente quando houver conexão com a caixa de som ou fone de ouvido;
- Possui controladora de vídeo integrada, com suporte a múltiplos monitores (mínimo de 2) onde para maiores quantidades estará descrito na proposta comercial emitida pela CONTRATADA. Os monitores podem operar simultaneamente, de forma estendida ou espelhada
- Possui controladora de vídeo integrada com capacidade de alocar no mínimo 1.5GB de memória de vídeo, compartilhada de forma dinâmica com a memória RAM. Possui suporte para DirectX 12 e Open GL 4.5 e compatibilidade do driver com o padrão WDDM (Windows Display Driver Model);
- Possui controladora de rede Gigabit Ethernet 10/100/1000 Mbps com reconhecimento automático da velocidade da rede, com capacidade de operar no modo full-duplex, autosense, plug and play, com suporte ao protocolo SNMP, totalmente configurável por software, com suporte a VLAN, com suporte a PXE 2.1 e com função Wake-On-Lan instalada e em funcionamento. Com conector RJ-45 com LEDs de diagnostico;
- Possui interface de comunicação wireless integrada desde que a CONTRATADA incluía este item na proposta comercial. Esta placa wireless tem suporte aos padrões 802.11ax, 802.11ac, 802.11a, 802.11b, 802.11g e 802.11n, com suporte aos protocolos 802.11i (WLAN security, TKIP e AES), WPA, WPA2, WEP 64 e 128, IEEE 802.11 (Wired Equivalent Privacy), IEEE 802.1x. Com certificado de homologação válido da ANATEL, e no Wi-fi Certified Aliance. O ajuste da potência é de acordo com a recepção do sinal, de forma a proporcionar economia de bateria;
- Possui teclado da HP, desde que a CONTRATADA inclua este item na proposta comercial. Teclado HP com com todos os caracteres da língua portuguesa incluindo Ç, com teclado numérico embutido, com teclas Windows Logo (acesso ao menu iniciar), com LEDs indicativos de “caps lock” e “num lock”. A impressão sobre as teclas é do tipo permanente, não apresentando desgaste por abrasão ou uso prolongado. Possui sistema de proteção contra derramamento acidental de pequenas quantidades de líquidos. Possui sistema para ajuste de inclinação e cabo USB de no mínimo 1.5m. Não possui teclas dedicadas de funções multimedia, desligar, hibernar ou standby.
- Possui mouse óptico da HP, desde que a CONTRATADA incluía este item na proposta comercial. Mouse HP com conector USB, cabo com comprimento mínimo de 1.8m, com resolução de 1000dpi, com 03 botões (esquerdo, direito e central próprio para rolagem (scrol)), formato ergonômico e de conformação ambidestra;
- Fonte externo com ajuste automático 100~240v / 50-60Hz (bivolt), suficiente para suportar todas as configurações do equipamento conforme as especificações técnicas contidas no catálogo técnico do mesmo, permitindo o funcionamento por no mínimo 10 horas por dia e 5 dias por semana;
- Possui cabo de energia para a fonte de alimentação de acordo com o novo padrão ABNT (NBR 14136), com comprimento minimo de 1,5m (total fonte mais cabo de energia);

JCAJ

- Todos os componentes do produto são novos (sem uso, reforma ou recondicionamento) e estão em linha de fabricação;
- Pertence a linha corporativa da HP;
- A HP possui programas de Logística Reversa (https://www.hp.com/br-pt/hp-information/sustainable-impact/planet-product-recycling.html);
- São bens constituídos em parte, por material reciclado, atóxico, biodegradável e atendem a diretiva RoHS;
- Todos os itens e seus acessórios são novos, não recondicionados, de primeiro uso, em pleno estado de funcionamento, livres de arranhões, amassados, frisagens, furações, fitas adesivas, marcas, falhas de fabricação ou qualquer outro procedimento ou emprego de materiais inadequados que adaptem forçadamente o equipamento ou suas partes que sejam fisicamente ou logicamente incompatíveis;
- As unidades dos equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, utilizando sempre que possível de materiais recicláveis, de forma a garantir a máxima proteção durante o transporte e a armazenagem;
- Cada equipamento possui um número de série único, afixado em local visível em etiqueta de difícil remoção ou impresso a laser, constando a marca, o modelo e o número de série do equipamento e também na embalagem;
- A HP possui pagina na Internet no qual pelo número de série é possível verificar o início e fim do período de garantia do equipamento;
- Os drivers, softwares e sistema operacional fornecido com o equipamento da HP estão disponíveis para download no site da HP, permitindo a instalação e recuperação do sistema operacional ao padrão de fábrica.
- A HP disponibiliza a ferramenta HP Cloud Recovery que permite realizar o download dos Drivers e do Sistema Operacional de forma automatizada para gerar pendrive de reinstalação;
- É disponibilizada documentação técnica necessária à instalação e operação do equipamento em português;
- A HP Disponibiliza “Central de atendimento telefônico” com número de telefone 0800 ou Whatsapp para abertura de chamado, em dias úteis, (segunda-feira a sexta-feira), em horário comercial (das 8h às18h) e “Central de atendimento via sistema web” para abertura de chamado 24x07, (domingo a domingo), a qualquer horário (das 00:00h às 23:59h);
- A HP Mantém os registros dos chamados que foram abertos, mantendo as informações que foram registradas sobre o mesmo;
- A ferramenta Web de abertura de chamados da HP permite que o cliente a visualize e acompanhe os chamados abertos anteriormente;
- Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;
- Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, para o monitor, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);
- A assistência técnica “on-site” será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;
- Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa, salvo quando o defeito for provocado por uso inadequado dos equipamentos;
- Certificado de Garantia é válido em todo o território nacional;
- Abertura do equipamento para limpeza, adição de memória ou SSD pela CONTRATANTE não implicará em perca da garantia desde que não cause mau uso. A garantia da HP não cobrirá o suporte destas peças.

Declaramos ainda que, o produto **67V68AV#TMP** – Z2 Tower G9:

JCAJ

- Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará

as solicitações de customização à HP de modo a atender plenamente as exigências edilícias. Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas;

- Informações técnicas básicas como modelo do processador, capacidade de memória instalada, capacidade e tipo do dispositivo de armazenamento, versão do sistema operacional e garantia padrão de fábrica estarão descritas na proposta comercial emitida pela CONTRADA;
- Modelo de equipamento ofertado é a mais recente geração disponibilizada pela HP com comercialização no Brasil;
- A HP disponibiliza a ferramenta HP Support Assistant que permite a verificação e instalação das últimas atualizações de todas as ferramentas e drivers disponibilizadas pela HP para o equipamento. Sendo capaz de monitorar o sistema, realizar diagnósticos, emitir alertas e ajudar a reparar erros do sistema, ajudando assim a manter a saúde e segurança do sistema. Permite verificar o status da garantia pela ferramenta;
- Possui BIOS da HP, desenvolvida pela HP, em conformidade com a especificação minima UEFI 2.7 (http://www.uefi.org/) e capturáveis pela aplicação de inventário como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com descrição do modelo, número de série e função de registro de número de patrimônio com extensão mínima de 15 dígitos, todos gravados em memória não volátil e sendo estas capturáveis por aplicações de inventario como por exemplo SCCM, Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com interface gráfica com navegação utilizando mouse ou teclado, disponível em mais de 3 idiomas (por exemplo: portugues, espanhol, inglês etc.);
- Possui BIOS atualizável com opção de recuperação de falha, a partir de arquivo de recuperação no disco rígido ou USB externa;
- Possui BIOS com suporte à verificação de integridade, através do recurso HP Sure Start;
- As atualizações da BIOS, quando necessárias, são disponibilizadas no site da HP Inc., com atualização via download na internet diretamente na interface de configuração da BIOS também;
- Possui BIOS implementada em “flash ROM” atualizável diretamente pelo microcomputador, utilizando memória não volátil e reprogramável, Plug and Play, entregue na versão mais atual disponibilizada pela HP. Podendo ser atualizada por software de gerenciamento remoto;
- Possui BIOS com capacidade de habilitar / desabilitar portas USB;
- Possui BIOS com possibilidade de configuração de senhas para Power On, Administrador e unidade de armazenamento;
- Possui BIOS com suporte à tecnologia de previsão/contingenciamento de falhas de disco rígido S.M.A.R.T habilitada;
- Possui BIOS com suporte a boot por pendrive ou unidade de armazenamento externo, conectado a uma porta USB 2.0 ou superior;
- Possui BIOS compatível com o padrão minimo ACPI 6.0, E também compatível com os padrões: DMI, SNMP, WMI e SMBIOS;
- Possui BIOS em conformidade com a normativa NIST 800-147 e NIST 800-193 (HP Sure Start);
- Possui a ferramenta HP Secure Erase integrada na BIOS, que possibilita apagar de forma definitiva e irrecuperável todos os dados da unidade de armazenamento, permitindo o descarte seguro de seus equipamentos (NIST 800-88);
- Possui BIOS com ferramenta de diagnóstico UEFI de componentes internos de hardware (processador, memória, unidade de armazenamento, áudio, teclado, rede, placa mãe, portas USB e vídeo). Acessível via BIOS ou teclas de atalho (F1...F12). A mensagem de erro é suficiente para abertura de chamado em garantia;
- Possui sistema de monitoramento de temperatura controlada pela BIOS, adequado ao processador, fonte e demais componentes internos ao gabinete;
- Possui recurso para realizar downgrade de BIOS e replicação de configurações de BIOS em escala utilizando um arquivo referência ou via Powershell;
- Possui placa mãe fabricada e desenvolvida pela HP, exclusiva para o modelo, com o nome da HP identificado na mesma;

JCAJ

- Possui placa mãe com capacidade de desligamento do vídeo e da unidade de armazenamento após tempo determinado pelo usuário e reiniciar por acionamento de teclado ou pela movimentação do mouse e possui função de economia de energia;
- Possui chip TPM integrado, acompanhado de drivers e a ferramenta nativa do Windows (tpm.msc) para utilização do chip e possibilitando a utilização de todos os recursos de segurança e criptografia (A ferramenta tpm.msc é fornecida com os equipamentos adquiridos com o Sistema Operacional Windows 10 / 11 Pro);
- O chipset é do mesmo fabricante do processador, com tecnologia que permite que o sistema retome rapidamente do estado de hibernação tanto para unidades de armazenamento do tipo SATA e do tipo PCIe;
- Sempre que o equipamento for inicializado, será mostrado no monitor de vídeo o nome da HP;
- Possuem os mesmos padrões de cores, sendo o preto ou cinza escuro a cor predominante e com o logotipo da HP impresso;
- Possui acabamento interno composto de superfícies não cortantes;
- O gabinete possui tratamento anticorrosivo;
- O gabinete possui base/superfície antiderrapante;
- Possui gabinete feito em liga metálica e front bezel de ABS
- O equipamento pode funcionar na posição horizontal ou vertical.
- Possui afixado no gabinete do equipamento, o Selo Certificado de Autenticidade (COA – Certificate of Authenticity) do software Windows na versão instalada e com serial de ativação do sistema operacional gravado no BIOS, quando adquirido com o sistema operacional Windows 11 conforme descrito na proposta comercial;
- O fluxo do ar interno segue as orientações do fabricante do microprocessador;
- Possui processador da geração mais recente fabricada pela HP no Brasil para este modelo de desktop de uso corporativo;
- Possui tecnologia implementada que controle o nível de desempenho do processador automaticamente, ajustando dinamicamente a frequência e a voltagem a cada a necessidade requerida pela atividade do momento para que seja otimizada a autonomia de bateria do equipamento;
- Possui suporte a implementação de tecnologia dual-channel para a memória RAM;
- As unidades de armazenamento disponíveis para fabricação do modelo, possuem suporte à tecnologia de segurança SMART e NCQ;
- Todos os conectores das portas de entrada/saída são identificados por cores ou símbolos, de acordo com o padrão PC'99 System Design Guide;
- Possui controladora de áudio onboard, com entrada e saída de áudio estéreo (combo jack), capaz de reproduzir os sons gerados pelo sistema (como músicas e beeps de alerta de diagnósticos), e está conectado diretamente a placa mãe sem uso de adaptadores, com suporte a 16bits;
- O sistema de áudio onboard possui a possibilidade de desativação por software ou automaticamente quando houver conexão com a caixa de som ou fone de ouvido;
- Possui controladora de rede Gigabit Ethernet 10/100/1000 Mbps com reconhecimento automático da velocidade da rede, com capacidade de operar no modo full-duplex, autosense, plug and play, com suporte ao protocolo SNMP, totalmente configurável por software, com suporte a VLAN, com suporte a PXE 2.1 e com função Wake-On-Lan instalada e em funcionamento. Com conector RJ-45 com LEDs de diagnostico;
- Possui interface de comunicação wireless integrada desde que a CONTRATADA incluía este item na proposta comercial. Esta placa wireless tem suporte aos padrões 802.11ax, 802.11ac, 802.11a, 802.11b, 802.11g e 802.11n, com suporte aos protocolos 802.11i (WLAN security, TKIP e AES), WPA, WPA2, WEP 64 e 128, IEEE 802.11 (Wired Equivalent Privacy), IEEE 802.1x. Com certificado de homologação válido da ANATEL, e no Wi-fi Certified Aliance. O ajuste da potência é de acordo com a recepção do sinal, de forma a proporcionar economia de bateria;
- Possui teclado da HP, desde que a CONTRATADA inclua este item na proposta comercial. Teclado HP com com todos os caracteres da língua portuguesa incluindo Ç, com teclado numérico embutido, com teclas Windows Logo (acesso ao menu iniciar), com LEDs indicativos de “caps lock” e “num lock”. A impressão sobre as teclas é do tipo permanente, não apresentando desgaste por abrasão ou uso prolongado. Possui sistema de proteção contra derramamento acidental de

JCAJ

pequenas quantidades de líquidos. Possui sistema para ajuste de inclinação e cabo USB de no mínimo 1.5m. Não possui teclas dedicadas de funções multimedia, desligar, hibernar ou standby.

- Possui mouse óptico da HP, desde que a CONTRATADA incluía este item na proposta comercial. Mouse HP com conector USB, cabo com comprimento mínimo de 1.8m, com resolução de 1000dpi, com 03 botões (esquerdo, direito e central próprio para rolagem (scrol)), formato ergonômico e de conformação ambidestra;
- Fonte externo com ajuste automático 100~240v / 50-60Hz (bivolt), suficiente para suportar todas as configurações do equipamento conforme as especificações técnicas contidas no catálogo técnico do mesmo, permitindo o funcionamento por no mínimo 10 horas por dia e 5 dias por semana;
- Possui cabo de energia para a fonte de alimentação de acordo com o novo padrão ABNT (NBR 14136), com comprimento total de no minimo 1.5m;
- Todos os componentes do produto são novos (sem uso, reforma ou recondicionamento) e estão em linha de fabricação;
- Pertence a linha corporativa da HP;
- A HP possui programas de Logística Reversa (https://www.hp.com/br-pt/hp-information/sustainable-impact/planet-product-recycling.html);
- São bens constituídos em parte, por material reciclado, atóxico, biodegradável e atendem a diretiva RoHS;
- Todos os itens e seus acessórios são novos, não recondicionados, de primeiro uso, em pleno estado de funcionamento, livres de arranhões, amassados, frisagens, furações, fitas adesivas, marcas, falhas de fabricação ou qualquer outro procedimento ou emprego de materiais inadequados que adaptem forçadamente o equipamento ou suas partes que sejam fisicamente ou logicamente incompatíveis;
- As unidades dos equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, utilizando sempre que possível de materiais recicláveis, de forma a garantir a máxima proteção durante o transporte e a armazenagem;
- Cada equipamento possui um número de série único, afixado em local visível em etiqueta de difícil remoção ou impresso a laser, constando a marca, o modelo e o número de série do equipamento e também na embalagem;
- A HP possui pagina na Internet no qual pelo número de série é possível verificar o início e fim do período de garantia do equipamento;
- Os drivers, softwares e sistema operacional fornecido com o equipamento da HP estão disponíveis para download no site da HP, permitindo a instalação e recuperação do sistema operacional ao padrão de fábrica.
- A HP disponibiliza a ferramenta HP Cloud Recovery que permite realizar o download dos Drivers e do Sistema Operacional de forma automatizada para gerar pendrive de reinstalação;
- É disponibilizada documentação técnica necessária à instalação e operação do equipamento em português;
- A HP Disponibiliza “Central de atendimento telefônico” com número de telefone 0800 ou Whatsapp para abertura de chamado, em dias úteis, (segunda-feira a sexta-feira), em horário comercial (das 8h às18h) e “Central de atendimento via sistema web” para abertura de chamado 24x07, (domingo a domingo), a qualquer horário (das 00:00h às 23:59h);
- A HP Mantém os registros dos chamados que foram abertos, mantendo as informações que foram registradas sobre o mesmo;
- A ferramenta Web de abertura de chamados da HP permite que o cliente a visualize e acompanhe os chamados abertos anteriormente;
- Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;
- Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, para o monitor, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);
- A assistência técnica “on-site” será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;

JCAJ

- Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa, salvo quando o defeito for provocado por uso inadequado dos equipamentos;
- Certificado de Garantia é válido em todo o território nacional;
- Abertura do equipamento para limpeza, adição de memória ou SSD pela CONTRATANTE não implicará em perca da garantia desde que não cause mau uso. A garantia da HP não cobrirá o suporte destas peças.

Declaramos ainda que, o produto **9Z0P1AV#TMP** – EliteBook 640 G11:

- Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará as solicitações de customização à HP de modo a atender plenamente as exigências edilícias. Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas;
- Informações técnicas básicas como modelo do processador, capacidade de memória instalada, capacidade e tipo do dispositivo de armazenamento, versão do sistema operacional, tamanho da tela do notebook e garantia padrão de fábrica estarão descritas na proposta comercial emitida pela CONTRADA;
- Modelo de equipamento ofertado é a mais recente geração disponibilizada pela HP com comercialização no Brasil;
- A HP disponibiliza a ferramenta HP Support Assistant que permite a verificação e instalação das últimas atualizações de todas as ferramentas e drivers disponibilizadas pela HP para o equipamento. Sendo capaz de monitorar o sistema, realizar diagnósticos, emitir alertas e ajudar a reparar erros do sistema, ajudando assim a manter a saúde e segurança do sistema. Permite verificar o status da garantia pela ferramenta;
- Possui BIOS da HP, desenvolvida pela HP, em conformidade com a especificação minima UEFI 2.7 (http://www.uefi.org/) e capturáveis pela aplicação de inventário como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com descrição do modelo, número de série e campo de registro de número de patrimônio com extensão mínima de 15 digitos, todos gravados em memória não volátil e sendo estas capituraveis por aplicações de inventario como por exemplo SCCM, Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com interface gráfica com navegação utilizando mouse ou teclado, disponível em mais de 3 idiomas (por exemplo: português, espanhol, inglês etc.);
- Possui BIOS atualizável com opção de recuperação de falha, a partir de arquivo de recuperação no disco rígido ou USB externa;
- Possui BIOS com suporte à verificação de integridade, através do recurso Hp Sure Start;
- As atualizações da BIOS, quando necessárias, são disponibilizadas no site da HP Inc., com atualização via download na internet diretamente na interface de configuração da BIOS também;
- Possui BIOS implementada em “flash ROM” atualizável diretamente pelo microcomputador, utilizando memória não volátil e reprogramável, Plug and Play, entregue na versão mais atual disponibilizada pela HP. Podendo ser atualizada por software de gerenciamento remoto;
- Possui BIOS com capacidade de habilitar / desabilitar portas USB, webcam, microfone, WiFi;
- Possui BIOS com possibilidade de configuração de senhas de Setup para Power On, Administrador e unidade de armazenamento;
- Possui BIOS com suporte à tecnologia de previsão/contingenciamento de falhas de disco rígido S.M.A.R.T habilitada;
- Possui BIOS com suporte a boot por pendrive ou unidade de armazenamento externo, conectado a uma porta USB 2.0 ou superior;
- Possui BIOS compatível com o padrão mínimo ACPI 6.0. E também compatível com os padrões: DMI, SNMP, WMI, SMBIOS;
- Possui BIOS em conformidade com a normativa NIST 800-147 e NIST 800-193 (HP Sure Start);

JCAJ

- Possui a ferramenta HP Secure Erase integrada na BIOS, que possibilita apagar de forma definitiva e irrecuperável todos os dados da unidade de armazenamento, permitindo o descarte seguro de seus equipamentos (NIST 800-88);
- Possui BIOS com ferramenta de diagnóstico UEFI de componentes internos de hardware (processador, memória, unidade de armazenamento, áudio, teclado, rede, placa mae, portas USB e vídeo). Acessivel via BIOS ou teclas de atalho (F1...F12). A mensagem de erro é suficiente para abertura de chamado em garantia;
- Possui sistema de monitoramento de temperatura controlada pela BIOS, adequado ao processador, fonte e demais componentes internos ao gabinete;
- Possui recurso para realizar downgrade de BIOS e replicação de configurações de BIOS em escala utilizando um arquivo referencia ou via Powershell;
- Possui placa mãe fabricada e desenvolvida pela HP, exclusiva para o modelo, com o nome da HP identificado na mesma;
- Possui placa mãe com capacidade de desligamento do vídeo e da unidade de armazenamento após tempo determinado pelo usuário e reiniciar por acionamento de teclado ou pela movimentação do mouse e possui função de economia de energia;
- Possui chip TPM integrado, acompanhado de drivers e a ferramenta nativa do Windows (tpm.msc) para utilização do chip e possibilitando a utilização de todos os recursos de segurança e criptografia (A ferramenta tpm.msc é fornecida com os equipamentos adquiridos com o Sistema Operacional Windows 10 / 11 Pro);
- O chipset é do mesmo fabricante do processador, com tecnologia que permite que o sistema retome rapidamente do estado de hibernação tanto para unidades de armazenamento do tipo SATA e do tipo PCIe;
- Sempre que o equipamento for inicializado, será mostrado no monitor de vídeo o nome da HP;
- Possuem os mesmos padrões de cores, sendo a prata ou cinza escuro a cor predominante e com o logotipo da HP impresso;
- Possui acabamento interno composto de superfícies não cortantes;
- O gabinete possui tratamento anticorrosivo;
- O gabinete possui base/superfície antiderrapante;
- Possui gabinete feito em liga metálica de alumínio e dobradiças em liga metálica para maior resistência.
- Possui afixado no gabinete do equipamento, o Selo Certificado de Autenticidade (COA – Certificate of Authenticity) do software Windows na versão instalada e com serial de ativação do sistema operacional gravado no BIOS, quando adquirido com o sistema operacional Windows 11, conforme descrito na proposta comercial;
- O fluxo do ar interno segue as orientações do fabricante do microprocessador;
- Possui processador da geração mais recente fabricada pela HP no Brasil para este modelo de notebook de uso corporativo;
- Possui tecnologia implementada que controle o nível de desempenho do processador automaticamente, ajustando dinamicamente a frequência e a voltagem a cada a necessidade requerida pela atividade do momento para que seja otimizada a autonomia de bateria do equipamento;
- Possui suporte a implementação de tecnologia dual-channel para a memória RAM;
- As unidades de armazenamento disponíveis para fabricação do modelo, possuem suporte à tecnologia de segurança SMART e NCQ;
- Todos os conectores das portas de entrada/saída são identificados por cores ou símbolos, de acordo com o padrão PC'99 System Design Guide;
- Possui controladora de áudio onboard, com entrada e saída de áudio estéreo (combo jack), capaz de reproduzir os sons gerados pelo sistema (como musicas e beeps de alerta de diagnósticos), e está conectado diretamente a placa mãe sem uso de adaptadores, com suporte a 16bits;
- O sistema de áudio onboard possui a possibilidade de desativação por software ou automaticamente quando houver conexão com a caixa de som ou fone de ouvido;
- Possui controladora de vídeo integrada, com suporte a até 03 monitores simultaneamente (terceiro monitor através da porta USB tipo C), de forma estendida ou espelhada, com capacidade de alocar

JCAJ

no mínimo 1.5GB de memória de vídeo, compartilhada de forma dinâmica com a memória RAM. Possui suporte para DirectX 12 e Open GL 4.5 e compatibilidade do driver com o padrão WDDM (Windows Display Driver Model);

- Possui controladora de rede Gigabit Ethernet 10/100/1000 Mbps com reconhecimento automático da velocidade da rede, com capacidade de operar no modo full-duplex, autosense, plug and play, com suporte ao protocolo SNMP, totalmente configurável por software, com suporte a VLAN, com suporte a PXE 2.1 e com função Wake-On-Lan instalada e em funcionamento. Com conector RJ-45 com LEDs de diagnostico;
- Possui interface de comunicação wireless integrada, com suporte aos padrões 802.11ax, 802.11ac, 802.11a, 802.11b, 802.11g e 802.11n, com suporte aos protocolos 802.11i (WLAN security, TKIP e AES), WPA, WPA2, WEP 64 e 128, IEEE 802.11 (Wired Equivalent Privacy), IEEE 802.1x. Com certificado de homologação válido da ANATEL, e no Wi-fi Certified Aliance. O ajuste da potência é de acordo com a recepção do sinal, de forma a proporcionar economia de bateria;
- Possui teclado da HP integrado, com todos os caracteres da língua portuguesa incluindo ç, com 83 teclas, com teclado numérico embutido na fileira superior, com teclas Windows Logo (acesso ao menu iniciar), com LEDs indicativos de “caps lock”. A impressão sobre as teclas é do tipo permanente, não apresentando desgaste por abrasão ou uso prolongado e com sistema de proteção contra derramamento acidental de líquidos;
- Possui dispositivo apontador integrado, do tipo “touchpad”, integrado no gabinete, com dois botões integrados e uma área para a função “scroll” (botão de rolagem), com suporte a múltiplos gestos tais como pinça e zoom;
- Fonte externo com ajuste automático 100~240v (bivolt), suficiente para suportar todas as configurações do equipamento conforme as especificações técnicas contidas no catálogo técnico do mesmo, permitindo o funcionamento por no mínimo 10 horas por dia e 5 dias por semana;
- Possui cabo de energia para a fonte de alimentação de acordo com o novo padrão ABNT (NBR 14136), com comprimento minimo de 1,5m (total fonte mais cabo de energia);
- Todos os componentes do produto são novos (sem uso, reforma ou recondicionamento) e estão em linha de fabricação;
- Pertence a linha corporativa da HP;
- A HP possui programas de Logística Reversa (https://www.hp.com/br-pt/hp-information/sustainable-impact/planet-product-recycling.html);
- São bens constituídos em parte, por material reciclado, atóxico, biodegradável e atendem a diretiva RoHS;
- Todos os itens e seus acessórios são novos, não recondicionados, de primeiro uso, em pleno estado de funcionamento, livres de arranhões, amassados, frisagens, furações, fitas adesivas, marcas, falhas de fabricação ou qualquer outro procedimento ou emprego de materiais inadequados que adaptem forçadamente o equipamento ou suas partes que sejam fisicamente ou logicamente incompatíveis;
- As unidades dos equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, utilizando sempre que possível de materiais recicláveis, de forma a garantir a máxima proteção durante o transporte e a armazenagem;
- Cada equipamento possui um número de série único, afixado em local visível em etiqueta de difícil remoção ou impresso a laser, constando a marca, o modelo e o número de série do equipamento e também na embalagem;
- A HP possui página na Internet no qual pelo número de série é possível verificar o início e fim do período de garantia do equipamento;
- Os drivers, softwares e sistema operacional fornecido com o equipamento da HP estão disponíveis para download no site da HP, permitindo a instalação e recuperação do sistema operacional ao padrão de fábrica.
- A HP disponibiliza a ferramenta HP Cloud Recovery que permite realizar o download dos Drivers e do Sistema Operacional de forma automatizada para gerar pendrive de reinstalaçao;
- É disponibilizada documentação técnica necessária à instalação e operação do equipamento em português;
- A HP Disponibiliza “Central de atendimento telefônico” com número de telefone 0800 ou Whatsapp para abertura de chamado, em dias úteis, (segunda-feira a sexta-feira), em horário

JCAJ

comercial (das 8h às18h) e “Central de atendimento via sistema web” para abertura de chamado 24x07, (domingo a domingo), a qualquer horário (das 00:00h às 23:59h);

- A HP Mantém os registros dos chamados que foram abertos, mantendo as informações que foram registradas sobre o mesmo;
- A ferramenta Web de abertura de chamados da HP permite que o cliente a visualize e acompanhe os chamados abertos anteriormente;
- Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;
- Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);
- A assistência técnica “on-site” será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;
- Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa, salvo quando o defeito for provocado por uso inadequado dos equipamentos;
- Certificado de Garantia é válido em todo o território nacional;
- Abertura do equipamento para limpeza, adição de memória ou SSD pela CONTRATANTE não implicará em perca da garantia desde que não cause mau uso. A garantia da HP não cobrirá o suporte destas peças.

Declaramos ainda que, o produto **9A816AV#TMP** – ZBook Power 16 inch G11:

- Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará as solicitações de customização à HP de modo a atender plenamente as exigências edilícias. Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas;
- Informações técnicas básicas como modelo do processador, capacidade de memória instalada, capacidade e tipo do dispositivo de armazenamento, versão do sistema operacional, tamanho e especificação da tela do notebook e garantia padrão de fábrica estarão descritas na proposta comercial emitida pela CONTRADA;
- Modelo de equipamento ofertado é a mais recente geração disponibilizada pela HP com comercialização no Brasil;
- A HP disponibiliza a ferramenta HP Support Assistant que permite a verificação e instalação das últimas atualizações de todas as ferramentas e drivers disponibilizadas pela HP para o equipamento. Sendo capaz de monitorar o sistema, realizar diagnósticos, emitir alertas e ajudar a reparar erros do sistema, ajudando assim a manter a saúde e segurança do sistema. Permite verificar o status da garantia pela ferramenta;
- Possui BIOS da HP, desenvolvida pela HP, em conformidade com a especificação mínima UEFI 2.7 (http://www.uefi.org/) e capturáveis pela aplicação de inventário como por exemplo SCCM (System Center Configuration Manager), Landesk, Microsoft End Point Manager, etc;
- Possui BIOS com descrição do modelo, número de série e campo de registro de número de patrimônio com extensão mínima de 15 dígitos, todos gravados em memória não volátil e sendo estas capturáveis por aplicações de inventario como por exemplo Microsoft End Point manager, SCCM, Landesk, etc;
- Possui BIOS com interface gráfica com navegação utilizando mouse ou teclado, disponível em mais de 3 idiomas (por exemplo: português, espanhol, inglês etc.);
- Possui BIOS atualizável com opção de recuperação de falha, a partir de arquivo de recuperação no disco rígido ou USB externa;
- Possui BIOS com suporte à verificação de integridade, através do recurso HP Sure Start;
- As atualizações da BIOS, quando necessárias, são disponibilizadas no site da HP Inc., com atualização via download na internet diretamente na interface de configuração da BIOS também;

JCAJ

- Possui BIOS implementada em “flash ROM” atualizável diretamente pelo microcomputador, utilizando memória não volátil e reprogramável, Plug and Play, entregue na versão mais atual disponibilizada pela HP. Podendo ser atualizada por software de gerenciamento remoto;
- Possui BIOS com capacidade de habilitar / desabilitar portas USB, webcam, microfone, WiFi;
- Possui BIOS com possibilidade de configuração de senhas para Power On, Administrador e unidade de armazenamento;
- Possui BIOS com suporte à tecnologia de previsão/contingenciamento de falhas de disco rígido S.M.A.R.T habilitada;
- Possui BIOS com suporte a boot por pendrive ou unidade de armazenamento externo, conectado a uma porta USB 2.0 ou superior;
- Possui BIOS compatível com o padrão ACPI 6.0. E também compatível com os padrões: DMI, SNMP, SMBIOS;
- Possui BIOS em conformidade com a normativa NIST 800-147 e NIST 800-193 (HP Sure Start);
- Possui a ferramenta HP Secure Erase integrada na BIOS, que possibilita apagar de forma definitiva e irrecuperável todos os dados da unidade de armazenamento, permitindo o descarte seguro de seus equipamentos (NIST 800-88);
- Possui BIOS com ferramenta de diagnóstico UEFI de componentes internos de hardware (processador, memória, unidade de armazenamento, áudio, teclado, rede, placa mãe, portas USB e vídeo). Acessível via BIOS ou teclas de atalho (F1...F12). A mensagem de erro é suficiente para abertura de chamado em garantia;
- Possui sistema de monitoramento de temperatura controlada pela BIOS, adequado ao processador, fonte e demais componentes internos ao gabinete;
- Possui recurso para realizar downgrade de BIOS e replicação de configurações de BIOS em escala utilizando um arquivo referência ou via Powershell;
- Possui placa mãe fabricada e desenvolvida pela HP, exclusiva para o modelo, com o nome da HP identificado na mesma;
- Possui placa mãe com capacidade de desligamento do vídeo e da unidade de armazenamento após tempo determinado pelo usuário e reiniciar por acionamento de teclado ou pela movimentação do mouse e possui função de economia de energia;
- Possui chip TPM integrado, acompanhado de drivers e a ferramenta nativa do Windows (tpm.msc) para utilização do chip e possibilitando a utilização de todos os recursos de segurança e criptografia (A ferramenta tpm.msc é fornecida com os equipamentos adquiridos com o Sistema Operacional Windows 10 / 11 Pro);
- O chipset é do mesmo fabricante do processador, com tecnologia que permite que o sistema retome rapidamente do estado de hibernação tanto para unidades de armazenamento do tipo SATA e do tipo PCIe;
- Sempre que o equipamento for inicializado, será mostrado no monitor de vídeo o nome da HP;
- Possuem os mesmos padrões de cores, sendo o prata ou cinza escuro a cor predominante e com o logotipo da HP impresso;
- Possui acabamento interno composto de superfícies não cortantes;
- O gabinete possui tratamento anticorrosivo;
- O gabinete possui base/superfície antiderrapante;
- Possui gabinete feito em liga metálica e dobradiças em liga metálica para maior resistência.
- Possui afixado no gabinete do equipamento, o Selo Certificado de Autenticidade (COA – Certificate of Authenticity) do software Windows na versão instalada e com serial de ativação do sistema operacional gravado no BIOS, quando adquirido com o sistema operacional Windows 11, conforme descrito na proposta comercial;
- O fluxo do ar interno segue as orientações do fabricante do microprocessador;
- Possui processador da geração mais recente fabricada pela HP no Brasil para este modelo de notebook de uso corporativo;
- Possui tecnologia implementada que controle o nível de desempenho do processador automaticamente, ajustando dinamicamente a frequência e a voltagem a cada a necessidade requerida pela atividade do momento para que seja otimizada a autonomia de bateria do equipamento;

JCAJ

- Possui suporte a implementação de tecnologia dual-channel para a memória RAM;
- As unidades de armazenamento disponíveis para fabricação do modelo, possuem suporte à tecnologia de segurança SMART e NCQ;
- Todos os conectores das portas de entrada/saída são identificados por cores ou símbolos, de acordo com o padrão PC'99 System Design Guide;
- Possui controladora de áudio onboard, com entrada e saída de áudio estéreo (combo jack), capaz de reproduzir os sons gerados pelo sistema (como músicas e beeps de alerta de diagnósticos), e está conectado diretamente a placa mãe sem uso de adaptadores, com suporte a 16bits;
- O sistema de áudio onboard possui a possibilidade de desativação por software ou automaticamente quando houver conexão com a caixa de som ou fone de ouvido;
- Possui controladora de vídeo integrada ou dedicada conforme descrito na proposta comercial da CONTRATADA, com suporte a até 03 monitores simultaneamente (terceiro monitor através da porta USB tipo C), de forma estendida ou espelhada. Possui suporte para DirectX 12 e Open GL 4.5 e compatibilidade do driver com o padrão WDDM (Windows Display Driver Model);
- Possui interface de comunicação wireless integrada, com suporte aos padrões 802.11ax, 802.11ac, 802.11a, 802.11b, 802.11g e 802.11n, com suporte aos protocolos 802.11i (WLAN security, TKIP e AES), WPA, WPA2, WEP 64 e 128, IEEE 802.11 (Wired Equivalent Privacy), IEEE 802.1x. Com certificado de homologação válido da ANATEL, e no Wi-fi Certified Aliance. O ajuste da potência é de acordo com a recepção do sinal, de forma a proporcionar economia de bateria;
- Possui teclado da HP integrado, com todos os caracteres da língua portuguesa incluindo ç, com 83 teclas, com teclado numérico embutido na fileira superior, com teclas Windows Logo (acesso ao menu iniciar) e Aplicação (acesso ao menu de atalhos, equivalente ao botão direito do mouse), com LEDs indicativos de “caps lock”. A impressão sobre as teclas é do tipo permanente, não apresentando desgaste por abrasão ou uso prolongado e com sistema de proteção contra derramamento acidental de líquidos;
- Possui dispositivo apontador integrado, do tipo “touchpad”, integrado no gabinete, com dois botões integrados e uma área para a função “scroll” (botão de rolagem), com suporte a múltiplos gestos tais como pinça e zoom;
- Fonte externo com ajuste automático 100~240v / 50-60Hz (bivolt), suficiente para suportar todas as configurações do equipamento conforme as especificações técnicas contidas no catálogo técnico do mesmo, permitindo o funcionamento por no mínimo 10 horas por dia e 5 dias por semana;
- Possui cabo de energia para a fonte de alimentação de acordo com o novo padrão ABNT (NBR 14136), com comprimento minimo de 1,5m (total fonte mais cabo de energia);
- Todos os componentes do produto são novos (sem uso, reforma ou recondicionamento) e estão em linha de fabricação;
- Pertence a linha corporativa da HP;
- A HP possui programas de Logística Reversa (https://www.hp.com/br-pt/hp-information/sustainable-impact/planet-product-recycling.html);
- São bens constituídos em parte, por material reciclado, atóxico, biodegradável e atendem a diretiva RoHS;
- Todos os itens e seus acessórios são novos, não recondicionados, de primeiro uso, em pleno estado de funcionamento, livres de arranhões, amassados, frisagens, furações, fitas adesivas, marcas, falhas de fabricação ou qualquer outro procedimento ou emprego de materiais inadequados que adaptem forçadamente o equipamento ou suas partes que sejam fisicamente ou logicamente incompatíveis;
- As unidades dos equipamentos serão entregues devidamente acondicionadas em embalagens individuais adequadas, utilizando sempre que possível de materiais recicláveis, de forma a garantir a máxima proteção durante o transporte e a armazenagem;
- Cada equipamento possui um número de série único, afixado em local visível em etiqueta de difícil remoção ou impresso a laser, constando a marca, o modelo e o número de série do equipamento e também na embalagem;
- A HP possui página na Internet no qual pelo número de série é possível verificar o início e fim do período de garantia do equipamento;

JCAJ

- Os drivers, softwares e sistema operacional fornecido com o equipamento da HP estão disponíveis para download no site da HP, permitindo a instalação e recuperação do sistema operacional ao padrão de fábrica.
- A HP disponibiliza a ferramenta HP Cloud Recovery que permite realizar o download dos Drivers e do Sistema Operacional de forma automatizada para gerar pendrive de reinstalação;
- É disponibilizada documentação técnica necessária à instalação e operação do equipamento em português;
- A HP Disponibiliza “Central de atendimento telefônico” com número de telefone 0800 ou Whatsapp para abertura de chamado, em dias úteis, (segunda-feira a sexta-feira), em horário comercial (das 8h às18h) e “Central de atendimento via sistema web” para abertura de chamado 24x07, (domingo a domingo), a qualquer horário (das 00:00h às 23:59h);
- A HP Mantém os registros dos chamados que foram abertos, mantendo as informações que foram registradas sobre o mesmo;
- A ferramenta Web de abertura de chamados da HP permite que o cliente a visualize e acompanhe os chamados abertos anteriormente;
- Possui garantia padrão de fábrica de 01 ano para reposição de peças, mão de obra, com atendimento "on-site", conforme descrito na proposta comercial emitida pela CONTRATADA;
- Permite a extensão de garantia para 03, 04 ou 05 anos para reposição de peças, mão de obra, com atendimento do tipo "on-site" através de aquisição da CONTRADA de carepack de extensão de garantia, devendo descrever em sua proposta comercial a descrição da extensão da garantia (HP Carepack);
- A assistência técnica “on-site” será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;
- Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa, salvo quando o defeito for provocado por uso inadequado dos equipamentos;
- Certificado de Garantia é válido em todo o território nacional;
- Abertura do equipamento para limpeza, adição de memória ou SSD pela CONTRATANTE não implicará em perca da garantia desde que não cause mau uso. A garantia da HP não cobrirá o suporte destas peças.

Durante o período de garantia do Produto HP, a Fabricante HP responsabiliza-se pela garantia no prazo e condições padrão HP, conforme especificado no termo de garantia que acompanha o Produto HP e no manual técnico do Produto HP.

Serviços adicionais ao especificado na garantia padrão da Fabricante HP poderá ser adquiridos pelo Parceiro HP, com prazos e condições customizados.

B20A5LS#AK4 – HP Elite Mini 800 G9 – Carepack adicional – **U7925E** - HP 5-year Next Business Day Onsite Desktop Hardware Support.

67V68AV#TMP – Z2 Tower G9 – Carepack adicional – **UA935E** - HP 5-year Next Business Day Response Onsite Workstation Hardware Support.

9Z0P1AV#TMP – EliteBook 640 G11 – Carepack adicional – **UA6A3E** - HP 5-year Next Business Day Response Onsite Notebook Hardware Support.

9A816AV#TMP – ZBook Power 16-inch G11 – Carepack adicional – **U85RBE** - HP 5y Onsite Mobile Workstation Support.

Declaramos que os equipamentos fabricados pela HP são novos, que não foram submetidos a uso, nem recondicionamento, ressalvados os testes de fábrica.

JCAJ

Os Produtos da marca HP são de fabricação própria ou homologados por regime de O&M e estão em linha de produção atual.

Declaramos, ainda, que a HP possui site na internet - www.hp.com.br – onde pode ser efetuado download de drivers para os Produtos HP e número de telefone para Grande São Paulo São Paulo (11) 3878-8338 / Demais Localidades: 0800-709-7751 / Whats app (11) +55 11 3230 4672 para informações e aberturas de chamados técnicos.

A Rede de Serviços Autorizados HP é amplamente distribuída em todo o território nacional, e conta com parceiros altamente qualificados relacionados abaixo. Trata-se de rede de parceiros com técnicos devidamente treinados e certificados pela HP, garantindo assim a excelência e a qualidade dos serviços prestados:

OFÍCIO Nº 294.2025.CPL.1683333.2025.001317

Manaus, *na data da assinatura.*

Ao Senhor

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA

Chefe do Setor de Infraestrutura e Telecomunicação

Assunto: Análise de Propostas de Preços referente ao **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ SRP**.

Senhor Chefe,

Cumprimentando-o com o presente, informamos que tramita nesta Comissão Permanente de Licitação o Processo SEI n.º 2025.001317, referente ao **PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP,** cujo objeto é o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses*.

Isto posto, encaminho os autos em epígrafe a esse **Setor de Infraestrutura e Telecomunicação - SIET,** para **análise e manifestação** quanto aos documentos apresentados em sede de diligência pela licitante abaixo elencada:

1. **TORINO INFORMÁTICA LTDA.** , CNPJ (MF) n.º 03.619.767/0005-15, para o **Item 3** (doc's. 1683323, 1683324 e 1683331).

Atenciosamente,

Maurício Araújo Medeiros

Pregoeiro - PORTARIA 606/2025/SUBADM

Documento assinado eletronicamente por **Maurício Araújo Medeiros**, **Membro da Comissão Permanente de Licitação - CPL**, em 28/07/2025, às 12:02, conforme art. 1º, III, "b", da Lei 11.419/2006.

A autenticidade do documento pode ser conferida no link http://sei.mpam.mp.br/sei/controlador_externo.php?acao=documento_conferir&id_orgao_acesso_externo=0 informando o código verificador **1683333** e o código CRC **22785718**.

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - Bairro Nova Esperança - CEP 69037-473 - Manaus - AM - www.mpam.mp.br

PARECER Nº 92.2025.DTIC.1683372.2025.001317

PROCESSO DE COMPRA: 2025.001317 Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ SRP Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317
OBJETO: Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.

1. **Relatório**

Trata-se de pedido de compatibilização da proposta da empresa **TORINO INFORMÁTICA LTDA.** , com documentos enviados em respostas às diligênciass requeridas no Parecer Nº 26.2025.SIET.1679784.2025.001317 ao avaliar a documentação para o **ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** , documentos 1683323, 1683324 e 1683331, recebido no dia 28/7/2025.

2. **Da Análise**

2.1 Produto ofertado

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. PLACA PRINCIPAL (PLACA MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação do mesmo, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;	□	
2. Deve possuir, no mínimo, 1 (um) slot para memória RAM, "do tipo DDR-5 SODIMM", permitindo a instalação de até 40 (quarenta) Gigabytes, 8 (oito) soldadas diretamente na placa e até 32 (trinta e dois) instaladas no slot. Admite-se 2 slots com 1 módulo de memória cada, como configuração superior, em substituição aos módulos soldados na placa principal;	□	
3. Deve suportar tecnologia Dual Channel de utilização de memória RAM;	□	
4. Deve possuir 1 (um) Socket M.2 para SSD SATA ou NVMe;	□	
5. Deve possuir 1 (um) Socket M.2 Para Cartões Wi-Fi/Bluetooth;	□	
6. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;	□	
7. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
8. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
9. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
10. Deve possuir suporte a virtualização por hardware;		
11. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
12. Deve possuir suporte a aceleração de segurança AES no hardware;		
13. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
14. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
15. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1 ou 3.2;		
16. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		
2. BIOS		
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela **CONTRATANTE**;		
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. Deverá possuir, 2 (dois) núcleos, no mínimo, e 12 (doze) threads de processamento com frequência de operação interna básica de, no mínimo, 1.6 GHz;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos e ciclos de clock base (MHz);		
3. Memória cache total de, no mínimo, 12MB;		
4. O processador ofertado deverá ser Intel Core Ultra 5, "de 1ª geração", ou AMD Ryzen 5 PRO, "serie 8000", admitindo-se famílias ou gerações mais novas;		
5. O processador deverá ser da última geração disponível utilizada pelo fabricante do equipamento, **com desempenho mínimo de 17.000 (dezessete mil) pontos**, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php. 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.		
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos, podendo atingir até 4.4 GHz, no mínimo;		
7. Deve possuir controlador com suporte à memória RAM do tipo DDR5-5600 MT/s, ou superior;		
8. Deverá possuir tecnologia de fabricação de 7 nm (sete nanômetros) ou inferior;		
9. TDP(Thermal Design Power) mínimo de 12W, e máximo de 58W, declarado pelo fabricante;		
10. Deve possuir instruções do padrão AVX 2.0, ou superior;		
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;		
12. Deve possuir instruções que implementem extensões de virtualização de hardware;		
13. Deve possuir instruções AES-NI embutidas;		
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.		
4. MEMÓRIA RAM		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Deverá possuir, no mínimo, 16 (dezesseis) Gb de memória RAM instalados, com capacidade de expansão mínima de 40 (quarenta) Gb;	□	
2. Deverá ser do tipo DDR-5/LPDDR-5 SODIMM ou superior e possuir no mínimo, 5600 MT/s de velocidade de comunicação com o barramento principal;	□	
3. A implementação do total de memória RAM deve utilizar 1 (um) módulo, de 8 (oito) GB, e mais 8 (oito) GB soldada diretamente à placa principal, utilizando tecnologia dual channel; 1. Admite-se que ambos os módulos sejam do tipo SODIMM, e sejam removíveis como configuração superior a mencionada acima;	□	
4. O(s) módulo(s) removível(eis) deve(m) ser instalado(s) durante o processo de manufatura do computador, e homologado(s) como parte do equipamento, inclusive estando coberto(s) pela garantia e suporte como descrito no Termo de Referência.	□	
5. UNIDADE DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256 GB e velocidade mínima de gravação de 1.200MB/s;	□	Em atenção à diligência apresentada no Parecer Nº 26.2025.SIET.1679784.2025.001317, a licitante declarou oferta o "**HD SSD 256GB NVME – DISCO PM9B1**". No caderno de especificações "**SAMSUNG SSD PM9B1**", o disco de 256Gb atende às exigências do subitem 5.1.
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;	□	
3. Deve ser instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.	⚠	Não foi possível constatar na declaração do fabricante ou no caderno de especificações que o disco **Samsung HD SSD 256GB NVME – DISCO PM9B1** faz parte do processo de manufatura do computador e que seja homologado como parte do equipamento. **Providências:** - Licitante deverá declarar o cumprimento deste item em sua proposta ou então apresentar declaração complementar do fabricante explicitando o cumprimento deste item.
6. CONECTIVIDADE		
1. Deverá possuir no mínimo 4 (quatro) portas USB; 1. Do total de portas, no mínimo 2 (duas) devem ser do tipo USB 3.2 tipo A; 2. No mínimo 1 (uma) deve ser do tipo USB 3.2 Tipo C ou Thunderbolt;	□	
2. Possuir, no mínimo, 1 (uma) porta de vídeo adicional, suportando a utilização de 1 (um) monitor auxiliar simultânea e independentemente da tela integrada;	□	
3. O tipo da porta auxiliar de vídeo supracitada deve ser HDMI 2.0 ou DisplayPort 1.2. Em caso de versões miniaturizadas destas, adaptadores revertendo para elas devem ser fornecidos sem custo adicional.	□	
7. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função Wake On Lan instalada e em funcionamento;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		
3. Deve possuir, no mínimo, 1 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.3 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, conectado em slot específico na placa mãe, que deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência;		
5. A interface Wireless ofertada deve possuir, na data da entrega da proposta, homologação junto à **ANATEL** com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controlador 3D/2D com suporte a DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.5, ou superior;		
4. Deve suportar HDCP ou HDR;		
5. Deve suportar a resolução mínima de 1920 X 1080 @ 60 Hz;		
6. Deve possuir tecnologia de controle dinâmico de frequência, podendo atingir, no mínimo, 1.35GHz;		
7. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.		
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 mm;		
3. Deve possuir, no mínimo, 2 alto-falantes internos, com 2 Watt RMS de potência cada, compatíveis com a controladora de som;		
4. Deve incorporar microfone(s), com cancelamento de ruído, voltados para captar o som do usuário em frente ao computador.		
10. TECLADO		
1. Deve ser integrado e retroiluminado no idioma padrão, português (Brasil), ABNT-II;		Licitante respondeu à diligência declarando: *"Teclado: Keyboard HP Standard Keyboard, spill-resistant,backlit, Durakey keyboard. Notebook nacional com teclado (Brasil) ABNT-II e retroiluminado."*
2. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute; 1. Admite-se a utilização de teclas de função (F1...F12), para tais ações.		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
11. DISPOSITIVOS APONTADORES		
1. Deve possuir um touchpad integrado, com dois botões, e área útil de 4 (quatro) pol², no mínimo; 1. Admite-se que os botões sejam integrados, como cliques diretos na parte inferior do touchpad;	□	
2. Deve suportar gestos de rolagem, ou possuir teclas, área ou dispositivo dedicado;	□	
3. Deve acompanhar um mouse adicional, da mesma cor e do mesmo fabricante do equipamento ofertado; 1. Deve ser óptico, com conexão USB, com 3 (três) botões e sistema de rolagem de página, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 800 dpi.	□	
12. TELA INTEGRADA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);	□	
2. Tamanho de 14 polegadas widescreen, no mínimo;	□	
3. Deve suportar, no mínimo, 16 milhões de cores;	□	
4. Resolução mínima de 1920x1080@60Hz;	□	
5. Ângulo de visão mínimo de 85° horizontal e vertical;	□	
6. Deve possuir brilho mínimo de 300 cd/m².	□	
13. WEBCAM		
1. O equipamento deve possuir uma webcam integrada, de 1.3 megapixels, com resolução de vídeo FHD, no mínimo, não sendo aceita solução externa;	□	
2. Deve possuir mecanismo de bloqueio por tampa, ou desativação mecânica, como solução de privacidade, também integrada ao equipamento.	□	
14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		
1. O equipamento deve ser produzido no formato laptop.	□	
2. O peso total do equipamento sem a fonte, não deve exceder os 1.6 Kg (um quilo e seiscentos gramas);	□	
3. A dobradiça do equipamento, deve ser construída em metal, e com articulação de 180º;	□	
4. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;	□	
5. Deve possuir botão de liga/desliga e luz de indicação de computador ligado (power-on) em local visível e acessível do computador, quando ele estiver aberto;	□	
6. Deve possuir leitor biométrico integrado, em área acessível, quando o notebook estiver aberto;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
7. Deve oferecer a possibilidade de, se demandado, aplicar logo oficial da CONTRATANTE, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas na parte inferior do laptop, visando medidas de segurança;		Licitante respondeu à diligência declarando em sua proposta: *"Serviço de aplicação da logo em laser nos equipamentos."*
8. O computador deverá possuir fenda de encaixe padrão "Kensington" ou “Noble Wedge” para utilização de cabo de aço do mesmo tipo;		
9. Deve ser fornecido com fonte de carregamento/alimentação do mesmo fabricante e compatível com o equipamento, com potência suficiente para suportar todos os dispositivos internos em suas configurações máximas permitidas, além de possibilitar o pleno carregamento da bateria do equipamento;		
10. A fonte de alimentação deve possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);		
11. A fonte deve possuir tensão de entrada 110 e 220 Volts de forma automática;		
12. A fonte deve fornecer uma alimentação mínima de 65W para o equipamento;		
13. Os plugues de conexão à rede elétrica devem seguir o padrão NBR 14136:2002.		
15. BATERIA		
1. Deve ser integrada ao corpo do equipamento, (não destacável);		
2. Potência mínima de 39 wh;		
3. Deve possuir no mínimo 3 (três) células de carregamento; 1. Deve ser capaz de manter o equipamento funcionando ininterruptamente por no mínimo 11 (onze) horas, conforme o padrão de teste do aplicativo MobileMark 2018.		
16. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para: • Controle: Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.		
4. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
5. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;		
6. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
7. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.		Licitante respondeu à diligência declarando em sua proposta: *"Serviço de customização de imagem de instalação do sistema operacional e softwares customizada previamente fornecida pela CONTRATANTE e replicação nos equipamentos."*
17. COMPATIBILIDADE		
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o sistema operacional exigido e ofertado. 1. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;		
2. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;		
3. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional.		
18. OUTROS REQUISITOS		
1. Todas as partes do computador devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;		
2. Deverá acompanhar maleta, pasta, mochila ou similar, para transporte com segurança, de tamanho suficiente para acondicionar o equipamento e seus acessórios (fonte de alimentação e cabos), confeccionada em material resistente e impermeável;		
3. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;		
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;		
5. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
6. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;		
7. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;		
8. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;		
9. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;		
10. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;		
11. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;		
12. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional. 1. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;		
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);		
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica. 1. A comprovação deverá ser apresentada junto com a proposta;		
15. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes a qualquer momento;		
16. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo. **Para as baterias, será admitido garantia mínima de 36 (trinta e seis) meses**. Nos meses que restarem para completar o prazo total de garantia, a **FORNECEDORA** se obriga a dispor de bateria para venda em caso de eventual necessidade, e a realizar o suporte e assistências técnica sem ônus para a **CONTRATANTE**.		Na declaração do fabricante temos: "*A assistência técnica "on-site" será realizada, durante todo o período de garantia dos equipamentos, pela própria HP ou por empresa de Assistência Técnica Autorizada da HP, a fim de que sejam mantidos válidos todos os direitos oriundos da garantia;* *• Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa,* ***salvo quando o defeito for provocado por uso inadequado dos equipamentos;***".

3. Conclusão

Após análise da documentação apresentada pela licitante **TORINO INFORMÁTICA LTDA.**, referente ao **Item 3 – MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"**, foram observados alguns pontos inconclusivos, marcados

como ⚠**. Os pontos marcados com** □, são exigências que não foi possível comprovar sua aderência com a documentação enviada.

3.1 Unidade de armazenamento com velocidade de gravação inferior ao mínimo de 1.200 MB/s

Em atenção à diligência apresentada no Parecer Nº 26.2025.SIET.1679784.2025.001317, a licitante declarou oferta o "**HD SSD 256GB NVME – DISCO PM9B1**". Cujas caracteristas descritas no caderno de especificações "**SAMSUNG SSD PM9B1**", atende às exigências do subitem 5.1.

3.2 Instalação do SSD durante o processo de manufatura do computador, e homologado como parte do equipamento

Não foi possível constatar na declaração do fabricante ou no caderno de especificações que o disco **Samsung HD SSD 256GB NVME – DISCO PM9B1** faz parte do processo de manufatura do computador e que seja homologado como parte do equipamento.

Providências:

- Comprovar o cumprimento do subitem 5.3

3.3 Teclado retroiluminado no idioma padrão, português (Brasil), ABNT-II

Licitante respondeu à diligência declarando:

"Teclado: Keyboard HP Standard Keyboard, spill-resistant,backlit, Durakey keyboard. Notebook nacional com teclado (Brasil) ABNT-II e retroiluminado."

3.4 Customizações

Licitante respondeu à diligência declarando em sua proposta:

"Serviço de aplicação da logo em laser nos equipamentos."

3.5 Entrega dos equipamentos com imagem de instalação do sistema operacional customizada e fornecida pela CONTRATANTE

Licitante respondeu à diligência declarando em sua proposta:

*"Serviço de customização de imagem de instalação do sistema operacional e softwares customizada previamente fornecida pela CONTRATANTE e replicação nos equipamentos.***"**

3.6 Da garantia

Permanece o problema de que na declaração do fabricante temos a seguinte cláusula:

> "***• Durante o prazo de garantia será substituída sem ônus para a contratante, a parte ou peça defeituosa, salvo quando o defeito for provocado por uso inadequado dos equipamentos;***"

A cláusula contraria a condição descrita no subitem 8.2.1.1 do Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317:

> *"(...)*
>
> *8.2.1.1* ***A garantia deverá abranger acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva."***

Contudo, em sua proposta, a licitante declara "*GARANTIA: 60 (SESSENTA) MESES ONSITE PARA O EQUIPAMENTO, CONFORME EDITAL;*".

Solicita-se ao pregoeiro avalie se a documentação apresentada atende à exigência de que **garantia e assistência técnica dos produtos sejam do fabricante ou pela assistência técnica autorizada do mesmo, bem com à cláusula 8.2.1 do Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317.**

Em caso afirmativo, **solicita-se** que o proponente declare expressamente tal cláusula em sua proposta.

SUGESTÃO:

"Garantia e assistência técnica do fabricante ou pela assistência técnica autorizada do mesmo, na modalidade ***"on-site", pelo período de 60 (sessenta) meses,*** *conforme estabelecido no Edital e Anexos. A garantia abranger acidente, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva."*

É o parecer.

Manaus, 29 de julho de 2025.

4. SCOPE

This document specifies the HP Inc requirements for a **Solid State Drive ASSEMBLY** featuring:

Capacity:	256 GB
Interface:	PCIe NVMe Gen4x4
Form Factor:	M.2 2280
Model Name	MZVL4256HBJD-00BH1

Unless otherwise stated herein, all references to HP shall mean HP Inc. Purchasing Department.

Supplier shall not proceed with the incorporation of any change to the drive nor deviate from any requirement of this specification without first obtaining specific written authorization from HP.

TABLE 1
REFERENCE

PART NUMBER	DESCRIPTION	Firmware
N16683-001	256GB M.2 2280 PM9B1 PCIe Gen4x4 value	HPS0NHAV

5. REFERENCE DOCUMENTS

The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the document is of the issue in effect on the date of invitation to bid or request for proposal.

Samsung Doc "SAMSUNG SSD PM9B1 - Specification (PCIe® NVMeTM M.2)."

6. FUNCTIONAL ESPECIFICATION

6.1 PERFORMANCE SPECIFICATIONS (1)

Data Transfer Rate (128KB)		Data I/O Speed (4KB)	
Sequential Read:	Up to 3,300 MB/s	Random Read:	Up to 210K IOPS
Sequential Write:	Up to 1,200 MB/s	Random Write:	Up to 280K IOPS

6.2 RELIABILITY SPECIFICATIONS

Uncorrectable Bit Error Rate:	< 1 sector per 10^{15} bits read
MTBF:	1.5 Million Hours

6.3 ENVIRONMENTAL SPECIFICATIONS

Temperature	
Operating(2):	0°C to 70°C
Non-operating:	-40°C to 85°C

Anexo I - ITEM 3 - N16683-A - For Torino (1685872) SEI 2025.001317 / pg. 542

Humidity (non-condensing)	
Non-operating:	5 ~ 95%
Linear Shock (0.5ms duration with 1/2 sine wave, 3axis)	
Non-operating:	1,500 Gpeak
Vibration (20Hz ~ 2,000Hz, Sinusoidal)	
Non-operating:	20 Gpeak

6.4 **POWER SPECIFICATIONS**

Supply Voltage / Tolerance:	3.3V± 5%
Voltage Ripple/Noise (max.):	100mV p-p
Active[3] (Typ., RMS)	
Read (3.3V):	4.1 W
Write (3.3V):	4.2 W
Idle[4] (Typ.)	40 mW
Sleep[4] (Typ.)	3.5 mW

Note1: Actual performance may vary depending on use conditions and environment. Performance measurements based on TurboWrite technology.
Note2: Temperature is measured by SMART Temperature. Proper airflow recommended to prevent the thermal throttling if over 70°C
Note3: Active power is measured on sequential write and read.
Note4: Actual measurements result may vary depending on use conditions and environment.

À
MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS

EDITAL DO PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP
ABERTURA: 29/06/2025 ÀS 10H00MIN.

RESPOSTA DILIGÊNCIA

Sobre o subitem 5 - UNIDADE DE ARMAZENAMENTO

Foi apresentado o datasheet do HD PM9B1, que é um HD utilizado pela HP, inclusive o documento desse HD é exclusivo para HP. Onde está escrito HPI, que dizer HP Inc, que é a HP para equipamentos pessoais, responsáveis por NOTEBOOKS, COMPUTADORES, WORKSTATIONS E MONITORES.

Para complementar a informação, segue anexo o documento da HP que comprova que o modelo do HD PM9B1 está homologado pela HP. Esse é um documento interno da HP, por isso ele não é utilizado.

Sobre a subitem 16 – GARANTIA
De acordo com o Edital:
8.2 Da Garantia e Assistência Técnica 8.2.1 Os equipamentos objeto desta licitação, deverão contar com garantia e assistência técnica do fabricante ou pela assistência técnica autorizada do mesmo, na modalidade "*on-site*"**, pelo período de 60 (sessenta) meses,** contados a partir da emissão do **TERMO DE RECEBIMENTO DEFINITIVO** do objeto, devendo atender aos chamados de assistência técnica, conforme estabelecido neste Termo e Anexos. 8.2.1.1 A garantia deverá abranger acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.

Já foi comprovado pela carta da HP que a Torino é assistencia tecnica autorizada do fabrincate HP, diante disso, estamos declarando na proposta que atende ao solicitado "GARANTIA 5 ANOS ONSITE de acordo com o solicitado no 8.2.1 E 8.2.1.1, em virtude da Torino ser Assistência técnica autorizada do fabricante HP. "

Estamos complementando o texto em nossa proposta, conforme sugerido para ficar claro que a garantia irá cobrir danos acidentais *inclusive danos não intencionais. tais como QUEDA, TELAQUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.*

Rodrigo do Amaral Rissio

OFÍCIO Nº 297.2025.CPL.1685874.2025.001317

Manaus, *na data da assinatura.*

Ao Senhor

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA

Chefe do Setor de Infraestrutura e Telecomunicação

Assunto: Análise de Propostas de Preços referente ao **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ SRP**.

Senhor Chefe,

Cumprimentando-o com o presente, informamos que tramita nesta Comissão Permanente de Licitação o Processo SEI n.º 2025.001317, referente ao **PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP,** cujo objeto é o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses*.

Isto posto, encaminho os autos em epígrafe a esse **Setor de Infraestrutura e Telecomunicação - SIET,** para **análise e manifestação** quanto aos documentos apresentados em sede de nova diligência pela licitante abaixo elencada:

1. **TORINO INFORMÁTICA LTDA.** , CNPJ (MF) n.º 03.619.767/0005-15, para o **Item 3** (doc's. 1685870, 1685872 e 1685873).

Atenciosamente,

Maurício Araújo Medeiros

Pregoeiro - PORTARIA 606/2025/SUBADM

Documento assinado eletronicamente por **Maurício Araújo Medeiros**, **Membro da Comissão Permanente de Licitação - CPL**, em 30/07/2025, às 12:24, conforme art. 1º, III, "b", da Lei 11.419/2006.

A autenticidade do documento pode ser conferida no link http://sei.mpam.mp.br/sei/controlador_externo.php?acao=documento_conferir&id_orgao_acesso_externo=0 informando o código verificador **1685874** e o código CRC **E6428415**.

PARECER Nº 27.2025.SIET.1686055.2025.001317

PROCESSO DE COMPRA: 2025.001317 Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ SRP Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317
OBJETO: Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.

1. **Relatório**

Trata-se de pedido de compatibilização da proposta da empresa **TORINO INFORMÁTICA LTDA.** , com documentos enviados em respostas às diligênciass requeridas no Parecer Nº 92.2025.DTIC.1683372.2025.001317 ao avaliar a documentação encaminhada como respostas à diligências, para o **ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** , documentos 1685870, 1685872 e 1685873 recebido no dia 30/7/2025.

2. **Da Análise**

2.1 Produto ofertado

1	**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** **Marca/Modelo de Referência:** Lenovo ThinkPad T14 GEN 5, Dell Latitude 5450.	300	**ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"** NOTEBOOK HP 640 G11 PROC INTEL ULTRA 5 135U - VPRO MEMÓRIA 16GB(2X8) DDR5 5600 HD SSD 256GB NVME WEBCAM 5MP WIFI6 + BT AX211 TELA 14 FHD BATERIA 56WHR WINDOWS 11 PROFESSIONAL SOFTWARE ABSOLUTE GARANTIA 5 ANOS ACOMPANHA: MOUSE USB 1000 DPI HP E MOCHILA PARA NOTEBOOK.

2.2 Análise comparativa

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. PLACA PRINCIPAL (PLACA MÃE)		
1. A placa mãe deve ser construída pelo próprio fabricante do microcomputador ou produzida sob a especificação do mesmo, não sendo aceito placas de livre comercialização no mercado, nem em regime de OEM;	□	
2. Deve possuir, no mínimo, 1 (um) slot para memória RAM, "do tipo DDR-5 SODIMM", permitindo a instalação de até 40 (quarenta) Gigabytes, 8 (oito) soldadas diretamente na placa e até 32 (trinta e dois) instaladas no slot. Admite-se 2 slots com 1 módulo de memória cada, como configuração superior, em substituição aos módulos soldados na placa principal;	□	
3. Deve suportar tecnologia Dual Channel de utilização de memória RAM;	□	
4. Deve possuir 1 (um) Socket M.2 para SSD SATA ou NVMe;	□	
5. Deve possuir 1 (um) Socket M.2 Para Cartões Wi-Fi/Bluetooth;	□	
6. Deve possuir recursos DASH 1.0 (Desktop and mobile Architecture for System Hardware), ou tecnologia minimamente equivalente;	□	
7. Deve ser compatível com Energy Star 7.0/7.1, ou tecnologias superiores;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
8. Deve possuir capacidade de desligamento do vídeo e do disco rígido após tempo determinado pelo usuário, religamento por acionamento de teclado ou mouse, bem como função de economia de energia para monitor, placa mãe e unidades de armazenamento internas;		
9. Deve possuir chip TPM (Trusted Platform Module), versão 2.0, ou superior, soldado à placa principal, e destinado ao armazenamento de senhas, certificados digitais e chaves criptográficas em conformidade com as especificações do Trusted Computing Group;		
10. Deve possuir suporte a virtualização por hardware;		
11. Deve possuir suporte a implementação de extensões de virtualização de I/O por hardware;		
12. Deve possuir suporte a aceleração de segurança AES no hardware;		
13. Deve possuir suporte à tecnologia de acesso remoto out-of-band embutida no hardware;		
14. Deve possuir controle da velocidade de rotação do cooler do processador de forma automática, de acordo com a variação de temperatura da CPU;		
15. Deve suportar boot por pendrive ou disco conectado a uma porta USB 3.1 ou 3.2;		
16. Deve suportar a inicialização de sistema operacional pela interface de rede cabeada, através de PXE boot e http/https boot.		
2. BIOS		
1. O BIOS deve ser desenvolvido pelo mesmo fabricante do equipamento ou customizado por ele;		
2. O fabricante do equipamento, deverá ser totalmente responsável pelo BIOS fornecido juntamente com a placa mãe e pela atualização do mesmo, devendo promover as alterações que se façam necessárias e corrigir problemas ou danos causados ao equipamento em razão desse BIOS ou de procedimentos de atualização deste, (que poderão ser acompanhados pela empresa caso haja necessidade), durante o período de garantia do equipamento;		
3. BIOS em português ou inglês, desenvolvido em conformidade com a especificação UEFI 2.5 ou superior (http://www.uefi.org) e capturáveis pela aplicação de inventário SCCM (System Center Configuration Manager);		
4. O fabricante deverá comprovar a compatibilidade com o padrão UEFI através do site http:// www.uefi.org/members, na categoria membros;		
5. Deve ser do tipo flash EPROM, atualizável por software, compatível com o padrão plug-and-play;		
6. Deve ser lançado a partir de 2016 e entregue na versão mais atual disponibilizada pelo fabricante;		
7. Deve ter suporte a ACPI, ou tecnologia superior;		
8. Deve ser desenvolvido de acordo com o padrão de segurança NIST 800-147 ou ISO/IEC 19678:2015, para garantir a integridade do BIOS;		
9. Deve possuir recursos de controle de permissão através de senhas, sendo uma para inicializar o computador e outra para acesso e alterações das configurações do BIOS;		
10. Deve possuir software embarcado no BIOS com funções de diagnóstico de problemas, e gerenciamento com as seguintes características: 1. Permitir o teste do equipamento, com independência do sistema operacional instalado, o software de diagnóstico deve ser capaz de ser executado (inicializado) a partir da UEFI (Unified /Extensible Firmware Interface) ou do Firmware do equipamento através do acionamento de tecla função (F1...F12); 2. O software de diagnóstico deverá ser capaz de informar, através de tela gráfica: O fabricante e modelo do equipamento, processador, memória RAM, firmware, e capacidade do disco rígido;		
11. Deve possuir ferramenta que possibilite realizar a formatação definitiva dos dispositivos de armazenamento conectados ao equipamento, desenvolvida em acordo com o padrão de segurança NIST 800-88 ou ISO/IEC 27040:2015. Caso esta ferramenta não seja nativa do BIOS, deverá ser oficialmente homologada pelo fabricante do equipamento;		
12. Deve possuir opção para exportar/importar configurações. No caso de ferramenta externa fornecida para atender esse item, a mesma deve ser disponibilizada no web site de suporte do fabricante, em conjunto com outras ferramentas relacionadas e homologadas para o modelo do equipamento;		
13. Deve oferecer a possibilidade de, se demandado, vir com logo de inicialização do equipamento customizada de fábrica, com uma imagem previamente fornecida pela **CONTRATANTE**;		
14. Deve possuir campo não editável com o número de série do equipamento gravado em memória não volátil e campo editável que permita inserir identificação customizada (identidade patrimonial com pelo menos 10 caracteres). Serão aceitos BIOS com reprogramação via software desde que estes estejam devidamente licenciados para o equipamento e disponibilizados para download no web site de suporte do fabricante;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
15. Deverá permitir o gerenciamento remoto do microcomputador mesmo desligado, desde que energizado pela rede elétrica e conectado localmente à rede de dados, permitindo ligar e desligar o microcomputador remotamente, com controle de acesso, e com possibilidade de definir horários programados; 1. Deve permitir acesso remoto através da rede ao POST (procedimento de inicialização) e BIOS para leitura e gravação, mesmo com o equipamento desligado; 2. Deverá permitir acesso remoto ao sistema operacional e processo de inicialização do microcomputador através de interface gráfica, com controle remoto do mouse e teclado (KVM remoto), independente do suporte de aplicações locais ou estado do sistema operacional; 3. Possuir a capacidade de inventário remoto de Hardware mesmo com o equipamento desligado.		
3. PROCESSADOR		
1. Deverá possuir, 2 (dois) núcleos, no mínimo, e 12 (doze) threads de processamento com frequência de operação interna básica de, no mínimo, 1.6 GHz;		
2. Em caso de processadores com arquitetura de computação heterogênea (big.LITTLE), só serão contabilizados os cores voltados para performance, na contagem mínima de núcleos e ciclos de clock base (MHz);		
3. Memória cache total de, no mínimo, 12MB;		
4. O processador ofertado deverá ser Intel Core Ultra 5, "de 1ª geração", ou AMD Ryzen 5 PRO, "serie 8000", admitindo-se famílias ou gerações mais novas;		
5. O processador deverá ser da última geração disponível utilizada pelo fabricante do equipamento, **com desempenho mínimo de 17.000 (dezessete mil) pontos**, considerando o uso pleno de todos os núcleos e sem a aplicação de configurações específicas para aumento ou modificação de desempenho, como "overclock", "undervoltage", "overvoltage" ou quaisquer outras que não estejam em conformidade com os padrões definidos pelo fabricante; 1. O desempenho será comprovado por intermédio de resultados de BenchMark, disponíveis em: http://www.cpubenchmark.net/cpu_list.php. 2. Será admitida uma margem de tolerância de 2% (dois por cento) do desempenho mínimo exigido.		
6. Deve possuir tecnologia de controle dinâmico de frequência do processador para núcleos individuais e ou múltiplos núcleos, podendo atingir até 4.4 GHz, no mínimo;		
7. Deve possuir controlador com suporte à memória RAM do tipo DDR5-5600 MT/s, ou superior;		
8. Deverá possuir tecnologia de fabricação de 7 nm (sete nanômetros) ou inferior;		
9. TDP(Thermal Design Power) mínimo de 12W, e máximo de 58W, declarado pelo fabricante;		
10. Deve possuir instruções do padrão AVX 2.0, ou superior;		
11. Deve possuir instruções do padrão SSE4.1/4.2, ou superior;		
12. Deve possuir instruções que implementem extensões de virtualização de hardware;		
13. Deve possuir instruções AES-NI embutidas;		
14. O proponente deverá declarar em sua proposta comercial o modelo do processador ofertado.		
4. MEMÓRIA RAM		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Deverá possuir, no mínimo, 16 (dezesseis) Gb de memória RAM instalados, com capacidade de expansão mínima de 40 (quarenta) Gb;		
2. Deverá ser do tipo DDR-5/LPDDR-5 SODIMM ou superior e possuir no mínimo, 5600 MT/s de velocidade de comunicação com o barramento principal;		
3. A implementação do total de memória RAM deve utilizar 1 (um) módulo, de 8 (oito) GB, e mais 8 (oito) GB soldada diretamente à placa principal, utilizando tecnologia dual channel; 1. Admite-se que ambos os módulos sejam do tipo SODIMM, e sejam removíveis como configuração superior a mencionada acima;		
4. O(s) módulo(s) removível(eis) deve(m) ser instalado(s) durante o processo de manufatura do computador, e homologado(s) como parte do equipamento, inclusive estando coberto(s) pela garantia e suporte como descrito no Termo de Referência.		
5. UNIDADE DE ARMAZENAMENTO		
1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256 GB e velocidade mínima de gravação de 1.200MB/s;		
2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;		
3. Deve ser instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência.		
6. CONECTIVIDADE		
1. Deverá possuir no mínimo 4 (quatro) portas USB; 1. Do total de portas, no mínimo 2 (duas) devem ser do tipo USB 3.2 tipo A; 2. No mínimo 1 (uma) deve ser do tipo USB 3.2 Tipo C ou Thunderbolt;		
2. Possuir, no mínimo, 1 (uma) porta de vídeo adicional, suportando a utilização de 1 (um) monitor auxiliar simultânea e independentemente da tela integrada;		
3. O tipo da porta auxiliar de vídeo supracitada deve ser HDMI 2.0 ou DisplayPort 1.2. Em caso de versões miniaturizadas destas, adaptadores revertendo para elas devem ser fornecidos sem custo adicional.		
7. INTERFACES DE REDE		
1. Deve possuir, no mínimo, 1 (uma) interface de rede RJ45 compatível com os padrões 10, 100 e 1000 Mbps, autosense, full-duplex e plug-and-play, configurável totalmente por software e com função Wake On Lan instalada e em funcionamento;		
2. A controladora ethernet, deverá ser do tipo "onboard", e suportar recurso WOL (Wake On LAN);		
3. Deve possuir, no mínimo, 1 (uma) interface de rede sem fios no padrão Wi-Fi 6 (802.11 B/G/N/AX), com velocidade de até 1.73Gbps, Tecnologia MU-MIMO, banda dupla em 2.4Ghz e 5Ghz, e suporte a Bluetooth 5.3 ou superior;		
4. As controladoras Wi-Fi e Bluetooth, deverão estar em um único cartão M.2, conectado em slot específico na placa mãe, que deve ser instalado durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência;		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
5. A interface Wireless ofertada deve possuir, na data da entrega da proposta, homologação junto à **ANATEL** com certificado disponível publicamente no endereço eletrônico desta agência, conforme a Resolução n.º 242 de 30 de novembro de 2000.		
8. CONTROLADORA DE VÍDEO		
1. Deve possuir controlador 3D/2D com suporte a DirectX 12, ou superior;		
2. Deve suportar Pixel Shader 3.0, ou superior;		
3. Deve suportar OpenGL 4.5, ou superior;		
4. Deve suportar HDCP ou HDR;		
5. Deve suportar a resolução mínima de 1920 X 1080 @ 60 Hz;		
6. Deve possuir tecnologia de controle dinâmico de frequência, podendo atingir, no mínimo, 1.35GHz;		
7. Deve suportar, no mínimo, o uso de 3 (três) monitores simultânea e independentemente.		
9. CONTROLADORA DE SOM E MULTIMÍDIA		
1. O equipamento deve possuir uma controladora de som integrada, do tipo "onboard";		
2. Deve possuir, no mínimo, uma interface de som com 1 (um) conector combinado para fone de ouvido e microfone, de 3,5 mm;		
3. Deve possuir, no mínimo, 2 alto-falantes internos, com 2 Watt RMS de potência cada, compatíveis com a controladora de som;		
4. Deve incorporar microfone(s), com cancelamento de ruído, voltados para captar o som do usuário em frente ao computador.		
10. TECLADO		
1. Deve ser integrado e retroiluminado no idioma padrão, português (Brasil), ABNT-II;		
2. Deve possuir teclas multimídia, com no mínimo, aumentar e diminuir volume, além do mute; 1. Admite-se a utilização de teclas de função (F1...F12), para tais ações.		
11. DISPOSITIVOS APONTADORES		
1. Deve possuir um touchpad integrado, com dois botões, e área útil de 4 (quatro) pol², no mínimo; 1. Admite-se que os botões sejam integrados, como cliques diretos na parte inferior do touchpad;		
2. Deve suportar gestos de rolagem, ou possuir teclas, área ou dispositivo dedicado;		
3. Deve acompanhar um mouse adicional, da mesma cor e do mesmo fabricante do equipamento ofertado; 1. Deve ser óptico, com conexão USB, com 3 (três) botões e sistema de rolagem de página, com formato ergonômico e com design ambidestro, devendo possuir resolução mínima por hardware de 800 dpi.		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
12. TELA INTEGRADA		
1. Deve ser de tecnologia IPS (In-Plane Switching) ou VA (Vertical Alignment);		
2. Tamanho de 14 polegadas widescreen, no mínimo;		
3. Deve suportar, no mínimo, 16 milhões de cores;		
4. Resolução mínima de 1920x1080@60Hz;		
5. Ângulo de visão mínimo de 85° horizontal e vertical;		
6. Deve possuir brilho mínimo de 300 cd/m².		
13. WEBCAM		
1. O equipamento deve possuir uma webcam integrada, de 1.3 megapixels, com resolução de vídeo FHD, no mínimo, não sendo aceita solução externa;		
2. Deve possuir mecanismo de bloqueio por tampa, ou desativação mecânica, como solução de privacidade, também integrada ao equipamento.		
14. FORMATO DE MANUFATURA E FONTE DE ALIMENTAÇÃO		
1. O equipamento deve ser produzido no formato laptop.		
2. O peso total do equipamento sem a fonte, não deve exceder os 1.6 Kg (um quilo e seiscentos gramas);		
3. A dobradiça do equipamento, deve ser construída em metal, e com articulação de 180º;		
4. O material do gabinete deve ser de estrutura livre de BFR e outros materiais tóxicos e/ou antiecológicos;		
5. Deve possuir botão de liga/desliga e luz de indicação de computador ligado (power-on) em local visível e acessível do computador, quando ele estiver aberto;		
6. Deve possuir leitor biométrico integrado, em área acessível, quando o notebook estiver aberto;		
7. Deve oferecer a possibilidade de, se demandado, aplicar logo oficial da CONTRATANTE, com área de impressão mínima de 3,00 x 2,72 cm, através de sistema de gravação direta como aplicação em laser, não sendo admitido o uso de adesivagem, serigrafias ou adaptações semelhantes. A gravação deverá ser feita apenas na parte inferior do laptop, visando medidas de segurança;		
8. O computador deverá possuir fenda de encaixe padrão "Kensington" ou “Noble Wedge” para utilização de cabo de aço do mesmo tipo;		
9. Deve ser fornecido com fonte de carregamento/alimentação do mesmo fabricante e compatível com o equipamento, com potência suficiente para suportar todos os dispositivos internos em suas configurações máximas permitidas, além de possibilitar o pleno carregamento da bateria do equipamento;		
10. A fonte de alimentação deve possuir eficiência igual ou superior a 85%, com 50% da carga de trabalho e que implemente PFC (Power Factor Correction);		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
11. A fonte deve possuir tensão de entrada 110 e 220 Volts de forma automática;		
12. A fonte deve fornecer uma alimentação mínima de 65W para o equipamento;		
13. Os plugues de conexão à rede elétrica devem seguir o padrão NBR 14136:2002.		
15. BATERIA		
1. Deve ser integrada ao corpo do equipamento, (não destacável);		
2. Potência mínima de 39 wh;		
3. Deve possuir no mínimo 3 (três) células de carregamento; 1. Deve ser capaz de manter o equipamento funcionando ininterruptamente por no mínimo 11 (onze) horas, conforme o padrão de teste do aplicativo MobileMark 2018.		
16. SISTEMA OPERACIONAL E SOFTWARES COMPLEMENTARES		
1. Deve acompanhar o equipamento licença OEM do sistema operacional Microsoft Windows 11 Professional de 64 bits, ou versão mais recente, no idioma Português Brasil;		
2. O equipamento deve ser entregue com o Windows 11 Professional 64 bits, ou versão mais recente instalado;		
3. Cada equipamento deve incluir uma licença específica de software dedicado para: • Controle: Funções de bloqueio e desbloqueio remoto. • Inventário: Gestão detalhada de hardware e software do equipamento. • Rastreabilidade: Recursos de geolocalização integrados.		
4. O software de controle e monitoramento deve possuir a funcionalidade de persistência, garantindo a preservação do cliente do software e de suas funcionalidades, mesmo após a perda total de dados ou formatação do disco rígido, utilizando tecnologia de residência em firmware;		
5. A interface de controle e monitoramento dos equipamentos deve ser baseada em nuvem, sem a necessidade de licenças adicionais além daquelas atribuídas a cada equipamento;		
6. A licença do software dedicado deve ter cobertura mínima equivalente ao período de garantia do equipamento, de 60 (sessenta) meses, e deve estar plenamente operacional a partir da aceitação definitiva do equipamento pela CONTRATANTE;		
7. Os equipamentos poderão ser entregues com imagem de instalação do sistema operacional e softwares customizada e previamente fornecida pela CONTRATANTE, conforme especificado no Termo de Referência.		
17. COMPATIBILIDADE		

DESCRIÇÃO	PARECER	OBSERVAÇÕES
1. Deve ser apresentado o certificado de compatibilidade dos equipamentos com o sistema operacional Windows 11 x64 obtido junto à Microsoft. Deverá constar no Microsoft Hardware Compatibility List (HCL) para o sistema operacional exigido e ofertado. 1. A comprovação da compatibilidade será efetuada pela apresentação do documento Hardware Compatibility Test Report emitido especificamente para o modelo no sistema operacional ofertado, ou pela indicação no site da Microsoft;	□	
2. O equipamento deverá possuir certificado de homologação comprovando a compatibilidade do mesmo com, pelo menos, uma distribuição de Linux. A comprovação da compatibilidade será efetuada pela apresentação de documento emitido especificamente para o modelo ofertado;	□	
3. O equipamento, na configuração ofertada, deve possuir certificado de conformidade contra incidentes elétricos e de combustão dos materiais (IEC/EN 60950) e de imunidade eletromagnética (IEC/EN 61000), comprovado através de certificados ou do relatório de avaliação de conformidade nos moldes da portaria 170/2012 vigente do INMETRO, ou similar Internacional.	□	
18. OUTROS REQUISITOS		
1. Todas as partes do computador devem ter coloração neutra em gradações de preto ou prata, mantendo o padrão e cor;	□	
2. Deverá acompanhar maleta, pasta, mochila ou similar, para transporte com segurança, de tamanho suficiente para acondicionar o equipamento e seus acessórios (fonte de alimentação e cabos), confeccionada em material resistente e impermeável;	□	
3. Equipamento deverá ser novo, partes e peças, de primeiro uso, que deverão ser acondicionados em embalagem individual adequada, garantindo a máxima proteção durante o transporte e a armazenagem;	□	
4. Informar marca e modelo dos componentes utilizados na solução e apresentar prospecto com as características técnicas do equipamento e da placa mãe, processador, memórias, interfaces de rede, fonte de alimentação e unidade de armazenamento, incluindo especificação de marca, modelo, e outros elementos que de forma inequívoca identifiquem e constatem as configurações, possíveis expansões e upgrades, comprovando-os através de certificados, manuais técnicos, folders e demais literaturas técnicas editadas pelos fabricantes;	□	
5. Todos os equipamentos deverão ser entregues idênticos, ou seja, todos os componentes externos e internos deverão ter os mesmos modelo e marca;	□	
6. O equipamento proposto deverá estar em linha de produção na data da proposta, com todas as funcionalidades exigidas neste Termo plenamente disponíveis durante toda a vigência do contrato;	□	
7. Não serão aceitos produtos descontinuados por seus fabricantes, não devendo constar em listas de end-of-sale, end-of-support ou end-of-life do fabricante, ou seja, não poderão ter previsão de descontinuidade de fornecimento, suporte ou vida;	□	
8. O equipamento em pleno funcionamento deve atender à norma NBR 10152, quanto à emissão de ruído ambiente em escritórios de atividades diversas, conforme laudo técnico gerado por entidade especializada, que deverá acompanhar a proposta;	□	
9. Deverá ter compatibilidade eletromagnética e de radiofrequência IEC 61000 comprovado através de certificado ou relatório de avaliação de conformidade emitido por órgão credenciado pelo INMETRO ou internacional equivalente;	□	

DESCRIÇÃO	PARECER	OBSERVAÇÕES
10. Deverá ter compatibilidade com o padrão DMI 2.0 (Desktop Management Interface) ou mais recente da DMTF (Desktop Management Task Force), comprovado através de documentação expedida pelo fabricante do equipamento ou comprovação de que o fabricante do equipamento é membro do consórcio DMTF listado em uma das categorias BOARD ou LEADERSHIP;		
11. Deverá ter compatibilidade com a norma TPM Specification Version 2.0 especificadas pelo TCG (Trsted Computing Group), devendo o fabricante ser membro de uma das categorias listadas no site http://www.trustedcomputinggroup.org/about_tcg/tcg_members;		
12. Deverá ter compatibilidade com EPEAT na nova categoria Bronze, comprovada através de atestados ou certidões que mostrem que o equipamento é aderente ao padrão de eficiência energética EPEAT, emitido por instituto credenciado junto ao INMETRO ou equivalente internacional. 1. Será admitida como comprovação também, a indicação que o equipamento consta no site www.epeat.net na nova categoria Bronze;		
13. Não deverão conter substâncias perigosas como mercúrio (Hg), chumbo (Pb), cromo hexavalente (Cr(VI)), cádmio (Cd), bifenil polibromados (PBBs), éteres difenil-polibromados (PBDEs) em concentração acima da recomendada na diretiva RoHS (Restriction of Certain Hazardous Substances);		
14. Os equipamentos deverão pertencer à linha corporativa, não sendo aceitos equipamentos destinados ao uso da linha doméstica. 1. A comprovação deverá ser apresentada junto com a proposta;		
15. Não serão aceitos equipamentos que contenham lacres de violação de garantia por abertura, que inviabilizem a inspeção dos componentes a qualquer momento;		
16. **Garantia de 60 (sessenta) meses on-site**, prestado pelo fabricante ou pela assistência técnica autorizada do mesmo. **Para as baterias, será admitido garantia mínima de 36 (trinta e seis) meses**. Nos meses que restarem para completar o prazo total de garantia, a **FORNECEDORA** se obriga a dispor de bateria para venda em caso de eventual necessidade, e a realizar o suporte e assistências técnica sem ônus para a **CONTRATANTE**.		

3. Conclusão

Após análise da documentação apresentada pela licitante **TORINO INFORMÁTICA LTDA.**, referente ao **Item 3 – MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14"**, o conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica **OPINA** pela aceitabilidade do produto ofertado.

É o parecer.

JUCESP PROTOCOLO
2.424.015/25-9

DÉCIMA SÉTIMA (17) ALTERAÇÃO CONTRATUAL e CONSOLIDAÇÃO DAS CLÁUSULAS DO CONTRATO SOCIAL: EMPRESA: TORINO INFORMÁTICA LTDA.

Pelo presente instrumento particular de **ALTERAÇÃO CONTRATUAL**, os adiante assinados,

DENISE DO AMARAL RISSIO, brasileira, casada no regime de comunhão parcial de bens, empresária, nascida aos 02.11.1955, natural de Pindamonhangaba-SP., portadora da Cédula de Identidade RG n. 6.438.259 exp. pelo SSP/SP., e do CPF n.246.137.578-00, residente e domiciliada à Rua Angelina Parolina Zocca, 82 – Bairro de Santa Rosália – Sorocaba- SP., cep. n. 18090.090, e

RODRIGO DO AMARAL RISSIO, brasileiro, divorciado, empresário, nascido aos 29.06.1981, natural de São Paulo-SP., portador da Cédula de Identidade RG n. 27.954.969-6, exp. pelo SSP/SP., e do CPF n. 220.807.218-95 residente e domiciliado à Rua Angelina Parolina Zocca, 82 – Bairro de Santa Rosália – Sorocaba- SP., cep. n. 18090.090, e

ÚNICOS sócios da **sociedade empresária limitada**, que gira sob a denominação social **de TORINO INFORMÁTICA LTDA.**, com **MATRIZ** no endereço à **Rua Rita de Carvalho Monteiro, 110, 120 e 130 – Retiro São João – Sorocaba-SP., cep. nº 18085-750; FILIAL Nº 01,** com endereço na **Avenida Seiscentos, Terminal Intermodal da Serra, Serra/ES, cep. 29161-399**, podendo abrir novas filiais e sucursais em qualquer ponto do país, conforme contrato social firmado em 20.01.2000, arquivado na **JUCESP MATRIZ sob NIRE n. 35216195101** em 01.02.2000 e **FILIAL nº 01 registrada na JUCEES sob NIRE: 32900520864 em 13/06/2017, FILIAL Nº 02 registrada no NIRE 53920046715 em 09.04.2025,** e posteriores alterações contratuais, **sendo a última firmada aos 05.04.2025**, igualmente arquivada na **JUCESP sob nº 111.151/25-9 em 09.04.2025,** inscrita no **CNPJ MATRIZ sob n. 03.619.767/0001-91, CNPJ FILIAL n. 01 sob n. 03.619.767/0005-15, e FILIAL n. 02 sob n. 03.619.767/0006-04.**

Estando entre si, justos e combinados, resolvem alterar o referido contrato social, nos termos seguintes:

01) Os sócios, estando de comum acordo, **resolvem constituir uma FILIAL**, que terá o endereço à **Avenida São Bernardo do Campo, 175, Jardim Leocadia – Sorocaba-SP., cep. 18085-310. A filial ora constituída será designada como FILIAL nº 03.** A filial ora constituída terá os seguintes ramos de atividade: **PRINCIPAL: a) Comércio no atacado de Equipamentos e Produtos para Informática, Eletrônica, Elétrica, Programas de Computador e Produtos Similares e afins; SECUNDARIAS: b) Comercio de Toner Especial de Segurança; c) Prestação de Serviços de Gerenciamento, Desenvolvimento e Licenciamento de Programas para Computador Customizáveis, e Reparação e Manutenção de Computadores, Sistemas Periféricos, Sistemas de Computação, Equipamentos para Informática, Eletrônica, Elétrica, e Produtos Similares e afins; d) Comércio no atacado de Material para Escritório em Geral, papel e suprimentos para copiadoras reprográficas e heliográficas, e) Comércio no atacado de Materiais Hidráulicos e Elétricos; f) Comércio no atacado de Materiais para Construção em geral; g) Comércio no atacado de Tubos, registros, conexões e materiais para canalização de gases em geral; h) Manutenção de equipamentos para canalização de gases; i) Comércio no Atacado de Produtos de Segurança e E.P.I em geral; j) Locação de equipamentos e**

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 559

máquinas para escritórios; i) Consultoria em tecnologia da informação; m) Montagem, Reengenharia, projetos em equipamentos para impressão e equipamentos para informática em geral; n) Representação Comercial de Qualquer Espécie; o) Prestação de serviços de Cópias em Geral, xerográficas, ploter, encadernação e plastificação, Reprodução de Documentos e Impressão a Laser; p) Prestação de Serviços de Depósitos de Mercadorias para Terceiros (CNAE 5211-7/99); q) Assessoria e Consultoria em Informática (CNAE 6204-0/00); r) Suporte Técnico em Informática, Inclusive Instalação, Configuração e Manutenção (CNAE 6209-1/00; s) Instalação e Montagem de Aparelhos, Máquinas e Equipamentos, Inclusive Montagem (CNAE 6209-1/00; t) Fabricação de Equipamentos para Informática (CNAE 2621-3/00); A FILIAL ora constituída não terá destaque do capital social da sociedade.

02) Resolvem também alterar o ramo de atividade da MATRIZ, acrescentando às existentes, as seguintes novas atividades: a) Assessoria e Consultoria em Informática (CNAE 6204-0/00); b) Suporte Técnico em Informática, Inclusive Instalação, Configuração e Manutenção (CNAE 6209-1/00; c) Instalação e Montagem de Aparelhos, Máquinas e Equipamentos, Inclusive Montagem (CNAE 6209-1/00; d) Fabricação de Equipamentos para Informática (CNAE 2621-3/00). Em consequência altera-se a redação da cláusula 02, no item que descreve as atividades da MATRIZ, que passará a ser a seguinte:

.....

"MATRIZ: PRINCIPAL: a) Comércio no atacado de Equipamentos e Produtos para Informática, Eletrônica, Elétrica, Programas de Computador e Produtos Similares e afins, SECUNDARIAS: b) Comercio de Toner Especial de Segurança; c) Prestação de Serviços de Gerenciamento, Desenvolvimento e Licenciamento de Programas para Computador Customizáveis, e Reparação e Manutenção de Computadores, Sistemas Periféricos, Sistemas de Computação, Equipamentos para Informática, Eletrônica, Elétrica, e Produtos Similares e afins; d) Comércio no atacado de Material para Escritório em Geral, papel e suprimentos para copiadoras reprográficas e heliográficas, e) Comércio no atacado de Materiais Hidráulicos e Elétricos; f) Comércio no atacado de Materiais para Construção em geral; g) Comércio no atacado de Tubos, registros, conexões e materiais para canalização de gases em geral; h) Manutenção de equipamentos para canalização de gases; i) Comércio no Atacado de Produtos de Segurança e E.P.I em geral; j) Locação de equipamentos e máquinas para escritórios; l) Consultoria em tecnologia da informação; m) Montagem, Reengenharia, projetos em equipamentos para impressão e equipamentos para informática em geral; n) Representação Comercial de Qualquer Espécie; o) Prestação de serviços de Cópias em Geral, xerográficas, ploter, encadernação e plastificação, Reprodução de Documentos e Impressão a Laser; p) Prestação de Serviços de Depósitos de Mercadorias para Terceiros (CNAE 5211-7/99); q) Assessoria e Consultoria em Informática (CNAE 6204-0/00); r) Suporte Técnico em Informática, Inclusive Instalação, Configuração e Manutenção (CNAE 6209-1/00; s) Instalação e Montagem de Aparelhos, Máquinas e Equipamentos, Inclusive Montagem (CNAE 6209-1/00; t) Fabricação de Equipamentos para Informática (CNAE 2621-3/00)."

.....

03) A presente alteração modifica onde couber, as cláusulas do contrato de constituição da sociedade. Todas as demais cláusulas do contrato não modificadas pelo presente instrumento, permanecem em pleno vigor.

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 560

04) Em seguida, **considerando-se as modificações promovidas pela presente alteração contratual, e ainda, que a sociedade pretende manter permanentemente atualizado** o seu instrumento de constituição, os sócios resolvem, neste ato, celebrar a presente **CONSOLIDAÇÃO DAS CLÁUSULAS DO CONTRATO SOCIAL**, nos seguintes termos:

Cláusula 01 - A **sociedade** que pelo presente contrato formam os adiante assinados, é **empresária limitada**, terá a sua **MATRIZ** com endereço à **Rua Rita de Carvalho Monteiro, 110, 120 e 130 – Retiro São João – Sorocaba-SP., cep. nº 18085-750; FILIAL Nº 01** com endereço na **Avenida Seiscentos, SN, Quadra 15, Módulo 10, Setor Industrial, Terminal Intermodal da Serra, Serra/ES, CEP: 29.161-399, FILIAL Nº 02, com endereço à Quadra 01 – Bloco F - Salas 1.502 e 1.503, Asa Norte - Edifício América Office Tower – Brasília – DF – Cep. 70711-905, e FILIAL Nº 03 com endereço à Avenida São Bernardo do Campo, 175, Jardim Leocadia – Sorocaba-SP., cep. 18085-310,** podendo abrir novas filiais e sucursais em qualquer ponto do país, conforme contrato social firmado em 20.01.2000, arquivado na **JUCESP MATRIZ sob NIRE n. 35216195101** em 01.02.2000 e **FILIAL nº 01 registrada na JUCEES sob NIRE: 32900520864 em 13/06/2017, FILIAL Nº 02 registrada no NIRE 53920046715 em 09.04.2025,** e posteriores alterações contratuais, **sendo a última firmada aos 05.04.2025**, igualmente arquivada na **JUCESP sob nº 111.151/25-9 em 09.04.2025**, inscrita no **CNPJ MATRIZ sob n. 03.619.767/0001-91, CNPJ FILIAL n. 01 sob n. 03.619.767/0005-15, e FILIAL n. 02 sob n. 03.619.767/0006-04,** dela fazendo parte como sócios quotistas, **Denise do Amaral Rissio** e **Rodrigo do Amaral Rissio**, supra qualificados:

Cláusula 02 - A sociedade terá os seguintes **ramos de atividade**:
MATRIZ: PRINCIPAL: a) Comércio no atacado de Equipamentos e Produtos para Informática, Eletrônica, Elétrica, Programas de Computador e Produtos Similares e afins, SECUNDARIAS: b) Comercio de Toner Especial de Segurança; c) Prestação de Serviços de Gerenciamento, Desenvolvimento e Licenciamento de Programas para Computador Customizáveis, e Reparação e Manutenção de Computadores, Sistemas Periféricos, Sistemas de Computação, Equipamentos para Informática, Eletrônica, Elétrica, e Produtos Similares e afins; d) Comércio no atacado de Material para Escritório em Geral, papel e suprimentos para copiadoras reprográficas e heliográficas, e) Comércio no atacado de Materiais Hidráulicos e Elétricos; f) Comércio no atacado de Materiais para Construção em geral; g) Comércio no atacado de Tubos, registros, conexões e materiais para canalização de gases em geral; h) Manutenção de equipamentos para canalização de gases; i) Comércio no Atacado de Produtos de Segurança e E.P.I em geral; j) Locação de equipamentos e máquinas para escritórios; l) Consultoria em tecnologia da informação; m) Montagem, Reengenharia, projetos em equipamentos para impressão e equipamentos para informática em geral; n) Representação Comercial de Qualquer Espécie; o) Prestação de serviços de Cópias em Geral, xerográficas, ploter, encadernação e plastificação, Reprodução de Documentos e Impressão a Laser; p) Prestação de Serviços de Depósitos de Mercadorias para Terceiros (CNAE 5211-7/99); q) Assessoria e Consultoria em Informática (CNAE 6204-0/00); r) Suporte Técnico em Informática, Inclusive Instalação, Configuração e Manutenção (CNAE 6209-1/00; s) Instalação e Montagem de Aparelhos, Máquinas e Equipamentos, Inclusive Montagem (CNAE 6209-1/00; t) Fabricação de Equipamentos para Informática (CNAE 2621-3/00).

Equipamentos, Inclusive Montagem (CNAE 6209-1/00; t) Fabricação de Equipamentos para Informática (CNAE 2621-3/00);

Cláusula 03 - A sociedade girara sob a **denominação social de TORINO INFORMÁTICA LTDA.,** da qual os sócios e administradores usarão somente em negócios da firma, nos termos deste contrato e de conformidade com a Lei.

Cláusula 04 - A **administração da sociedade, a sua representação ativa e passiva, e a assinatura pela sociedade,** serão exercidas **única e exclusivamente** pela sócia **DENISE DO AMARAL RISSIO**, que poderá receber retiradas pró-labore, nos termos do contrato social da empresa, e nos limites da Lei;

§ primeiro – Os administradores declaram sob as penas da Lei, que não estão impedidos de exercer a administração da sociedade, por lei especial ou em virtude de condenação criminal, ou por se encontrarem sob os efeitos dela, a pena que vede, ainda que temporariamente, o acesso a cargos públicos; ou por crime falimentar, de prevaricação, peita ou suborno, concussão, peculato, ou contra a economia popular, contra o sistema financeiro nacional, contra normas de defesa da concorrência, contra as relações de consumo, fé pública ou a propriedade, nos termos do parágrafo único do artigo 1.011 da Lei nº 10.406/2002 (Código Civil);

§ segundo – É vedado aos administradores fazer uso da firma para a prestação de garantia, fiança, aval ou a qualquer outro título de favor, em negócios que sejam estranhos ao objeto social da sociedade;

§ terceiro – Os administradores respondem solidariamente perante a sociedade e aos terceiros prejudicados, por culpa no desempenho de suas funções.

Cláusula 05 - A sociedade poderá nomear administradores não sócios, designadas em ato em separado ou no contrato social;

§ único – A designação dos administradores não sócios dependerá da aprovação da unanimidade dos sócios, enquanto o capital não estiver integralizado, e de dois terços, no mínimo, após a integralização do capital, nos termos do artigo 1.061 do Decreto nº 10.406/2002 (código Civil);

Cláusula 06 - O **capital social** da sociedade será na importância de **R$ 2.000.000,00,** (dois milhões mil reais), dividido em **2.000.000,** (dois milhões) de quotas no valor nominal de **R$ 1,00** (um real) cada uma, totalmente integralizado neste ato, à vista, em moeda corrente no país, com recursos particulares dos sócios na seguinte proporção: A sócia **DENISE DO AMARAL RISSIO** entrará com **R$ 1.600.000,00** (um milhão e seiscentos mil reais), ou **1.600.000** (um milhão e seiscentas mil) quotas, e o sócio **RODRIGO DO AMARAL RISSIO** entrará com **R$ 400.000,00** (quatrocentos mil reais), ou **400.000** (quatrocentas mil) quotas. Em consequência a **composição do capital social** da empresa será a seguinte:

a) Denise do Amaral Rissio.....80%.....1.600.000 quotas.....R$ 1.600.000,00
b) Rodrigo do Amaral Rissio.....20%..... 400.000 quotas.....R$ 400.000,00
totais.....100%.....2.000.000 quotas.....R$ 2.000.000,00

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 563

§ único: Fica entendido que, a responsabilidade de cada sócio é restrita ao valor de suas quotas, mas todos respondem solidariamente pela integralização do capital social, nos termos do artigo 1.052 da Lei nº 10.406/2002 (Código Civil);

Cláusula 07 - As **quotas da sociedade são individuais** e não poderão ser cedidas ou transferidas sem o expresso consentimento da sociedade, cabendo o direito de preferência para adquiri-las, ao sócio remanescente;

Cláusula 08 - Caso qualquer dos sócios **desejar retirar-se da sociedade,** devera comunicar a sua decisão aos demais mediante notificação escrita, com antecedência mínima de trinta (30) dias, sendo seus haveres apurados mediante Balanço especial, levantado no termino desse prazo, e pagos conforme acordo que será firmado entre as partes; levando-se em conta os interesses da sociedade e dos sócios, nesta ordem;

Cláusula 09 - Fica entendido que até dois anos depois de averbada a modificação do contrato, responde o cedente solidariamente com o cessionário, perante a sociedade e terceiros, pelas obrigações que tinha como sócio, nos termos do § único do artigo 1.003 da Lei 10.406/2002 – (Código Civil);

Cláusula 10 - Na hipótese da totalidade das quotas sociais **concentrarem-se em nome de um único sócio,** a sociedade não se dissolvera. O sócio remanescente devera admitir um novo sócio dentro do prazo de cento e oitenta (180) dias para recompor-se o numero mínimo de sócios á sociedade. Na hipótese da não admissão dentro do prazo estipulado nesta clausula, a sociedade se extinguirá;

Cláusula 11 - Ressalvado o disposto no parágrafo único da clausula 05 deste instrumento, as deliberações dos sócios serão tomadas;

a) Pelos votos correspondentes, no mínimo, a três quartos do capital social, nas decisões que versem sobre a modificação do contrato social e a incorporação, fusão, dissolução ou extinção da sociedade ou a cessação do estado de liquidação;

b) Pelos votos correspondentes a mais da metade do capital social, nas decisões que versem sobre a designação dos administradores, quando efetuada em ato em separado, a destituição dos administradores, o modo da remuneração dos administradores, quando não estabelecidas em contrato, e o pedido de concordata;

c) Pela maioria dos votos presentes às reuniões, para a aprovação das contas da administração, nomeação e destituição de liquidantes e o julgamento de suas contas, e para os demais casos previstos na Lei e no Contrato, se este não exigir maioria mais elevada;

§ primeiro - Nos termos do § quinto do artigo 1.072 da Lei 10.406/2002, as deliberações tomadas de conformidade com a Lei e o contrato vinculam todos os sócios, ainda que ausentes ou dissidentes;

§ segundo - **O sócio dissidente da deliberação social poderá manifestar a sua discordância**, no prazo subseqüente de trinta (30) dias do registro da alteração, com o exercício de seu direito de retirada, procedendo-se ao pagamento de seus direitos, na forma estabelecida neste contrato;

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 564

Cláusula 12 - na hipótese de um ou mais sócios realizarem atos de inegável gravidade, que coloquem em risco a continuidade da empresa, a maioria dos sócios, representativa de mais da metade do capital social, poderá excluí-los da sociedade, mediante alteração no contrato social, nos termos do artigo 1.085, ressalvado o disposto no artigo 1.030, ambos da Lei 10.406/2002;

§ único - A exclusão prevista nesta cláusula somente poderá ser determinada em reunião especialmente convocada para esse fim, com a ciência do acusado em tempo hábil para permitir ou seu comparecimento, e o exercício de seu direito de defesa;

Cláusula 13 - A duração da sociedade será **por tempo indeterminado**;

Cláusula 14 - Para suas despesas particulares, a título de **retirada pró-labore**, cada administrador retirara mensalmente a quantia equivalente ao máximo permitido pela Legislação do Imposto de Renda como despesa redutível; entretanto, essa quantia poderá ser alterada pelo acordo entre os sócios, e o respectivo assentamento nos livros contábeis e fiscais da empresa, de conformidade com as normas legais em vigor;

Cláusula 15 - Ao fim de cada ano social, em 31 de dezembro, efetuar-se-á o levantamento do **Balanço Geral do Ativo e do Passivo**, e os Lucros ou Prejuízos verificados serão distribuídos ou suportados pelos sócios, na proporção de suas quotas de capital; A destinação do resultado será decidida pelos sócios, em cada exercício;

§ único - Havendo acordo entre os sócios nos termos deste contrato, a distribuição dos lucros poderá ser realizada sem observar-se a proporcionalidade do percentual de cada sócio no montante do capital social;

Cláusula 16 - Até o dia 30 de abril do ano seguinte ao do encerramento do exercício, os administradores deverão apresentar aos demais sócios a prestação de contas de sua administração, apresentando-lhe o Balanço Patrimonial, o inventário de mercadorias e a Demonstração do Resultado econômico, por reunião que deverá ser convocada nos termos deste contrato;

Cláusula 17 - Fica entendido que os sócios poderão, a qualquer tempo, examinar os livros e documentos, o estado de caixa e da carteira da sociedade, mediante pedido encaminhado ao administrador, com prazo mínimo de dez (10) dias. O exame deverá ser realizado na sede da sociedade.

Cláusula 18 - **Qualquer dos sócios poderá retirar-se da sociedade,** mediante notificação aos demais sócios, com antecedência mínima de sessenta (60) dias. Os seus haveres serão apurados mediante Balanço especial que será levantado para esse fim, e pagos conforme acordo que será firmado entre as partes, considerando-se no acordo de pagamentos, os interesses da sociedade e dos sócios, nesta ordem;

Cláusula 19 - **Na hipótese da dissolução da sociedade**, qualquer dos sócios terá preferência na aquisição do acervo social, em igualdade de condições com terceiros interessados, fixando-se o prazo de trinta (30) dias para que os interessados se manifestem expressamente sobre tal preferência. Findo esse prazo, ou caso haja renúncia expressa dos sócios sobre tal condição, eleger-se-á por maioria de quotas o liquidante que no prazo máximo de um (01) ano levara a termo a liquidação, dela prestando contas aos demais sócios, na forma

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 565

da legislação pertinente a matéria. O liquidante perceberá remuneração pelo seu trabalho, conforme acordo entre os sócios;

Cláusula 20 - No caso do falecimento de qualquer um dos sócios, ocorrerá a liquidação de suas quotas do capital social, conforme dispõe o "caput" do artigo 1.028 do Código Civil, e atendidas as seguintes condições:

§ primeiro - Da mesma forma prevista naquele no "caput" do artigo 1.028, fica estabelecido entre os sócios que, na hipótese da cessação da sociedade conjugal do(s) sócio(s), ou na ocorrência da incapacidade física ou mental de qualquer dos sócios, devidamente comprovada, e que não permita a continuidade de suas obrigações e funções na sociedade, igualmente ocorrerá a liquidação de suas quotas sociais.

§ segundo - Também fica entendido que em todas as hipóteses previstas no "caput" e no seu Parágrafo primeiro, a sociedade não se dissolverá, continuando as suas atividades normais, adaptando o seu tipo societário à nova composição social, se necessário for.

§ terceiro - Em todas essas situações acima descritas, os herdeiros do sócio falecido, ou os titulares dos direitos do sócio incapaz ou divorciado, terão direito aos créditos correspondentes aos valores das quotas sociais que eram de propriedade do "de cujus", ou sócio incapaz ou divorciado, cujo montante será apurado mediante Balanço Contábil especial que será levantado para esse fim, na data da ocorrência do fato, apurando-se o valor do patrimônio líquido contábil, o qual deverá ter anuência de todos os sócios remanescentes, sobre o qual será calculado o valor proporcional às quotas cabíveis aos herdeiros ou aos titulares dos direitos do sócio incapaz ou divorciado, e que serão pagas em até 60 (sessenta) parcelas de igual valor, mensais e consecutivas, vencendo-se a primeira 60 (sessenta) dias após a data do fato.

Cláusula 21 - **Qualquer dos sócios poderá convocar Reuniões**, em caso de urgência, discussão de assunto relevante ou de importância para a sociedade.

Cláusula 22 - A reunião realizada para a resolução de outros assuntos de interesse da sociedade, previstos ou não neste instrumento, será instalada com a participação de sócios que componham, em primeira convocação, três quartos do capital social da sociedade, e em segunda convocação, com qualquer número, nos termos do artigo 1.074 e parágrafos da Lei 10.406/2002 (Código Civil), devendo ser transcrita em ata, firmada por todos os presentes, e da qual deverá ser dada ciência aos sócios ausentes;

§ primeiro - A convocação das Reuniões deverá ser efetuada na forma do artigo 1.152 e parágrafos da Lei 10.406/2002 – (Código Civil), ou através de carta com A. R. aos sócios, via protocolo na empresa, quando serão informados os assuntos objetos da pauta;

§ segundo - Dispensam-se as formalidades da convocação, previstas no artigo 1.152 e parágrafos da Lei 10.406/2002 (Código Civil), quando todos os sócios comparecerem ou se declararem, por escrito, cientes do local, data, hora e ordem do dia.

§ terceiro - A reunião tornar-se-á dispensável quando todos os sócios decidirem por escrito, sobre a matéria que seria delas objeto.

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 566

Cláusula 23 - Os sócios declaram sob as penas da Lei, que estão em pleno gozo de sua capacidade civil, podendo exercer a atividade de empresário, não estando incursos em nenhum dos crimes previstos em Lei, que os impeçam de participar desta sociedade.

Cláusula 24 - As dúvidas e omissões originadas do presente contrato, serão decididas com a aplicação subsidiária das normas da Lei nº 6.404/76 (Lei das Sociedades Anônimas), nas demais disposições da Lei 10.406/02, e em outros textos legais que lhes forem aplicáveis;

Cláusula 25 - Fica desde já eleito o **Foro da Comarca de Sorocaba - SP** para julgamento de qualquer ação fundada no presente instrumento, com renuncia expressa de qualquer outro, por mais privilegiado que seja;

E como assim contratam, obrigam-se a cumprir fielmente em todos os seus termos as cláusulas acima, e fazem o presente instrumento na presença das duas testemunhas adiante, em três vias de igual teor, que serão registradas na **JUCESP**, na forma da Lei.

Procuradoria-Geral da Fazenda Nacional

CERTIDÃO NEGATIVA DE DÉBITOS RELATIVOS AOS TRIBUTOS FEDERAIS E À DÍVIDA ATIVA DA UNIÃO

Nome: TORINO INFORMATICA LTDA..
CNPJ: 03.619.767/0001-91

Ressalvado o direito de a Fazenda Nacional cobrar e inscrever quaisquer dívidas de responsabilidade do sujeito passivo acima identificado que vierem a ser apuradas, é certificado que não constam pendências em seu nome, relativas a créditos tributários administrados pela Secretaria da Receita Federal do Brasil (RFB) e a inscrições em Dívida Ativa da União (DAU) junto à Procuradoria-Geral da Fazenda Nacional (PGFN).

Esta certidão é válida para o estabelecimento matriz e suas filiais e, no caso de ente federativo, para todos os órgãos e fundos públicos da administração direta a ele vinculados. Refere-se à situação do sujeito passivo no âmbito da RFB e da PGFN e abrange inclusive as contribuições sociais previstas nas alíneas 'a' a 'd' do parágrafo único do art. 11 da Lei nº 8.212, de 24 de julho de 1991.

A aceitação desta certidão está condicionada à verificação de sua autenticidade na Internet, nos endereços <http://rfb.gov.br> ou <http://www.pgfn.gov.br>.

Certidão emitida gratuitamente com base na Portaria Conjunta RFB/PGFN nº 1.751, de 2/10/2014.
Emitida às 18:12:56 do dia 11/04/2025 <hora e data de Brasília>.
Válida até 08/10/2025.

CERTIDÃO NEGATIVA DE DÉBITOS TRABALHISTAS

Nome: TORINO INFORMATICA LTDA.. (MATRIZ E FILIAIS)
CNPJ: 03.619.767/0005-15
Certidão nº: 30543294/2025
Expedição: 03/06/2025, às 09:00:28
Validade: 30/11/2025 - 180 (cento e oitenta) dias, contados da data de sua expedição.

Certifica-se que **TORINO INFORMATICA LTDA.. (MATRIZ E FILIAIS)**, inscrito(a) no CNPJ sob o nº **03.619.767/0005-15**, **NÃO CONSTA** como inadimplente no Banco Nacional de Devedores Trabalhistas.
Certidão emitida com base nos arts. 642-A e 883-A da Consolidação das Leis do Trabalho, acrescentados pelas Leis ns.° 12.440/2011 e 13.467/2017, e no Ato 01/2022 da CGJT, de 21 de janeiro de 2022.
Os dados constantes desta Certidão são de responsabilidade dos Tribunais do Trabalho.
No caso de pessoa jurídica, a Certidão atesta a empresa em relação a todos os seus estabelecimentos, agências ou filiais.
A aceitação desta certidão condiciona-se à verificação de sua autenticidade no portal do Tribunal Superior do Trabalho na Internet (http://www.tst.jus.br).
Certidão emitida gratuitamente.

INFORMAÇÃO IMPORTANTE
Do Banco Nacional de Devedores Trabalhistas constam os dados necessários à identificação das pessoas naturais e jurídicas inadimplentes perante a Justiça do Trabalho quanto às obrigações estabelecidas em sentença condenatória transitada em julgado ou em acordos judiciais trabalhistas, inclusive no concernente aos recolhimentos previdenciários, a honorários, a custas, a emolumentos ou a recolhimentos determinados em lei; ou decorrentes de execução de acordos firmados perante o Ministério Público do Trabalho, Comissão de Conciliação Prévia ou demais títulos que, por disposição legal, contiver força executiva.

CERTIFICA que, consultando a base de dados do Sistema de Gerenciamento de Processos do Poder Judiciário do Estado do Espírito Santo (E-Jud, SIEP, PROJUDI e PJe) até a presente data e hora, **NADA CONSTA** contra o solicitante .

Observações

a. Certidão expedida gratuitamente através da Internet;
b. Os dados do(a) solicitante acima informados são de sua responsabilidade, devendo a titularidade ser conferida pelo interessado e/ou destinatário;
c. O prazo de validade desta certidão é de 30 (trinta) dias, contados da data da expedição, conforme disposto no art. 467 do Código de Normas da Corregedoria Geral da Justiça. Após essa data será necessária a emissão de uma nova certidão;
d. A autenticidade desta certidão poderá ser confirmada na página do Tribunal de Justiça do Estado do Espírito Santo - www.tjes.jus.br -, utilizando o número da certidão acima identificado;
e. Em relação as comarcas da entrância especial (Vitória/Vila Velha/Cariacica/Serra/Viana), as ações de: execução fiscal estadual, falência e recuperação judicial, e auditoria militar, tramitam, apenas, no juízo de Vitória;
f. As ações de natureza cível abrangem inclusive aquelas que tramitam nas varas de Órfãos e Sucessões (Tutela, Curatela, Interdição,...), Juizado Especial Cível, Juizado Especial da Fazenda Pública, Execução Fiscal e Execução Patrimonial (observado o item **e**);
g. As ações de natureza criminal abrangem, dentre outras: as de auditoria militar e de juizados especiais criminais;
h. As matérias atinentes as varas de família e infância e juventude são objeto de certidão específica;
i. A base de dados do sistema de gerenciamento processual (1ª INSTÂNCIA: eJUD, SIEP, PROJUDI, PJe-1G; 2ª INSTÂNCIA: Sistema de Segunda Instância, PJe-2G) contém o registro de todos os processos distribuídos no Judiciário do Estado do Espírito Santo, com exceção do SEEU;
j. A certidão negativa referente ao Sistema Eletrônico de Execução Unificado – SEEU deverá ser requerida ao Cartório do Ofício de Distribuidor da Comarca, conforme Ato Normativo Conjunto n°. 009/2021.

CERTIDÃO ESTADUAL DE DISTRIBUIÇÕES CÍVEIS

CERTIDÃO Nº: 2770371 **FOLHA: 1/1**

A autenticidade desta certidão poderá ser confirmada pela internet no site do Tribunal de Justiça.

A Diretoria de Serviço Técnico de Informações Cíveis do(a) Comarca de São Paulo - Capital, no uso de suas atribuições legais,

CERTIFICA E DÁ FÉ que, pesquisando os registros de distribuições de **PEDIDOS DE FALÊNCIA, CONCORDATAS, RECUPERAÇÕES JUDICIAIS E EXTRAJUDICIAIS**, anteriores a 11/07/2025, verificou **NADA CONSTAR** como réu/requerido/interessado em nome de: **********

TORINO INFORMATICA LTDA, CNPJ: 03.619.767/0001-91, conforme indicação constante do pedido de certidão.**********

Esta certidão não aponta ordinariamente os processos em que a pessoa cujo nome foi pesquisado figura como autor (a). São apontados os feitos com situação em tramitação já cadastrados no sistema informatizado referentes a todas as Comarcas/Foros Regionais e Distritais do Estado de São Paulo.

A data de informatização de cada Comarca/Foro pode ser verificada no Comunicado SPI nº 22/2019.

Esta certidão considera os feitos distribuídos na 1ª Instância, mesmo que estejam em Grau de Recurso.

Não existe conexão com qualquer outra base de dados de instituição pública ou com a Receita Federal que verifique a identidade do NOME/RAZÃO SOCIAL com o CPF/CNPJ. A conferência dos dados pessoais fornecidos pelo pesquisado é de responsabilidade exclusiva do destinatário da certidão.

A certidão em nome de pessoa jurídica considera os processos referentes à matriz e às filiais e poderá apontar feitos de homônimos não qualificados com tipos empresariais diferentes do nome indicado na certidão (EIRELI, S/C, S/S, EPP, ME, MEI, LTDA).

Não é necessária a complementação com a certidão do sistema eproc.

Esta certidão só tem validade mediante assinatura digital.

Esta certidão é sem custas.

São Paulo, 14 de julho de 2025.

NOTAS EXPLICATIVAS AS DEMONSTRAÇÕES FINANCEIRAS DO EXERCÍCIO FINDO EM 31.12.2023

1) CONTEXTO OPERACIONAL

A empresa tem como principal atividade o **Comercio atacadista de produtos de informática.**

2) APRESENTAÇÃO DAS DEMONSTRAÇÕES FINANCEIRAS

As demonstrações financeiras foram elaboradas com base nas práticas contábeis de acordo com a **ITG 2000(R1) – ESCRITURAÇÃO CONTÁBIL.**

3) PRINCIPAIS PRÁTICAS CONTÁBEIS

A) Apuração do Resultado, ativos e passivos circulantes e não-circulantes;

B) Duplicatas a Receber somam em 31.12.2023 o valor de R$ 46.784.993,79;

C) Outros Créditos a Receber somam em 31.12.2023 o valor de R$ 46.973.470,84;

D) O resultado é apurado pelo regime de competência;

Os ativos e passivos circulantes e não circulantes, quando aplicável incluem os encargos incorridos e auferidos até a data do balanço e são reduzidos, mediante provisão aos seus valores prováveis de realização.

E) ESTOQUES

Os estoques de matérias-primas e produtos para revenda estão avaliados pelo valor médio das compras diminuídos dos impostos e somam em 31.12.2023 o valor de R$ 64.585.200,54.

F) IMOBILIZADO

Registrado ao custo de aquisição, as depreciações são computadas pelo método LINEAR com base em taxas que levam em consideração a vida útil do bem.

G) IMPOSTO DE RENDA E CONTRIBUIÇÃO SOCIAL

Imposto de renda, calculado a alíquota de 15% sobre o lucro tributável acrescido do adicional de 10%, cujo o calor do faturamento ultrapasse o valor do limite do trimestre. Contribuição Social calculada a alíquota de 9% sobre o lucro Contábil.

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 587

H) TRIBUTOS A RECUPERAR: Os valores relativos a tributos a recuperar constituem créditos legítimos da empresa, derivados de sua incidência nas operações com órgãos públicos.

4) IMOBILIZADO

Taxa de Depreciação Anual	**Bem**	**31.12.2023**
Veículos	20%	1.872.257,91
Maquinários	10%	303.054,31
Moveis e Utensílios	10%	380.254,62
Instalações	10%	85.428,36
Equipamentos de Informática	20%	213.443,87
Imóveis		3.150.000,00
TOTAL ATIVO		6.004.439,07

5) PASSIVO CIRCULANTE E NÃO CIRCULANTE:

Empréstimos e Financiamentos: Os valores lançados nas contas de Empréstimos e Financiamentos, tanto no Passivo Circulante, quando no Passivo Não Circulante, estão conciliados, e os pagamentos estão absolutamente em dia, possuindo a empresa saldos ativos, que suportam o seu pagamento integral a qualquer momento.

6) CAPITAL SOCIAL

O capital social subscrito e integralizado é de R$ 2.000.0000,00 (Dois milhões de Reais), totalmente de origem nacional, quotas no valor de R$ 1.000,00 (Hum mil reais) cada.

7) RELATÓRIO DO AUDITOR INDEPENDENTE

Seguindo as boas práticas da administração, e no sentido de tornar transparente a sua situação econômica e financeira para o mercado, seus clientes e fornecedores, a Torino Informática LTDA. contratou a empresa ACR AUDITORIA E CONTABILIDADE SS LTDA., para realizar a auditoria externa e independente de sua contabilidade. Como resultado a auditoria produziu um relatório de quarenta e três (43) páginas, das quais transcrevemos o seu parecer, que vai em anexo. Informamos que a versão completa do relatório está registrado na Jucesp como documento de interesse da empresa.

DECLARAÇÃO DE CONFORMIDADE:

As demonstrações financeiras são de responsabilidade da Administração, e foram elaboradas de acordo com as práticas contábeis adotadas no Brasil, e as normas

emitidas pelo Conselho Federal de Contabilidade (CFC), as quais abrangem a Legislação Societária, os Pronunciamentos, as Orientações e as Interpretações emitidas pelo Comitê de Pronunciamentos Contábeis (CPC).

A Diretoria declara que as Demonstrações Contábeis da sociedade **TORINO INFORMÁTICA LTDA.**, do período compreendido entre 01 de janeiro de 2023 e 31 de dezembro de 2023, apresentam adequadamente a posição patrimonial e financeira, o desempenho e os fluxos de caixa da entidade, com observância aos Princípios Gerais da Contabilidade. As demonstrações contábeis, foram elaboradas segundo o regime de competência e estão representadas em real, a moeda nacional Brasileira.

RELATÓRIO DO AUDITOR INDEPENDENTE SOBRE AS DEMONSTRAÇÕES FINANCEIRAS

Aos Diretores da
TORINO INFORMÁTICA LTDA
Sorocaba - SP

Opinião

Examinamos as demonstrações financeiras da **Torino Informática Ltda ("Empresa")**, que compreendem o balanço patrimonial em 31 de dezembro de 2023 e as respectivas demonstrações do resultado, do resultado abrangente, das mutações do patrimônio líquido, dos fluxos de caixa e do valor adicionado para o exercício findo nessa data, bem como as correspondentes notas explicativas, compreendendo as políticas contábeis significativas e outras informações elucidativas.

Em nossa opinião, as demonstrações financeiras acima referidas apresentam adequadamente, em todos os aspectos relevantes, a posição patrimonial e financeira da Empresa em 31 de dezembro de 2023, o desempenho de suas operações e os seus fluxos de caixa para o exercício findo nessa data, de acordo com as práticas contábeis adotadas no Brasil.

Base para opinião

Nossa auditoria foi conduzida de acordo com as normas brasileiras e internacionais de auditoria. Nossas responsabilidades, em conformidade com tais normas, estão descritas na seção a seguir intitulada "Responsabilidade do auditor pela auditoria das demonstrações financeiras". Somos independentes em relação à Empresa, de acordo com os princípios éticos relevantes previstos no Código de Ética Profissional do Contador e nas normas profissionais emitidas pelo Conselho Federal de Contabilidade, e cumprimos com as demais responsabilidades éticas de acordo com essas normas. Acreditamos que a evidência de auditoria obtida é suficiente e apropriada para fundamentar nossa opinião.

Principais assuntos de auditoria

Principais assuntos de auditoria são aqueles que, em nosso julgamento profissional, foram os mais significativos em nossa auditoria do exercício corrente. Esses assuntos foram tratados no contexto de nossa auditoria das demonstrações financeiras como um todo e na formação de nossa opinião sobre essas demonstrações financeiras e, portanto, não expressamos uma opinião separada sobre esses assuntos.

Outros assuntos

a-) Demonstrações do valor adicionado

As demonstrações do valor adicionado (DVA) referentes ao exercício de 31 de dezembro de 2023, elaboradas sob a responsabilidade da administração da Empresa, e apresentadas como informação gerencial, foram submetidas a procedimentos de auditoria executados em conjunto com a auditoria das demonstrações financeiras da empresa. Para a formação de nossa opinião, avaliamos se essas demonstrações estão conciliadas com as demonstrações financeiras e registros contábeis, conforme aplicável, e se sua forma e conteúdo estão de acordo com os critérios definidos no Pronunciamento Técnico CPC 09 – Demonstração do Valor Adicionado. Em nossa opinião, essas demonstrações do valor adicionado foram adequadamente elaboradas, em todos os aspectos relevantes, segundo os critérios definidos nesse Pronunciamento Técnico e são consistentes em relação às demonstrações contábeis tomadas em conjunto.

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 590

b-) Auditoria dos valores correspondentes ao exercício anterior

As demonstrações financeiras do exercício findo em 31 de dezembro de 2022, apresentadas para fins de comparação com o exercício findo em 31 de dezembro de 2023, foram revisadas por nós e emitimos relatório sem modificação de opinião em 31 de março de 2023.

Outras informações que acompanham as Demonstrações Financeiras e o Relatório dos Auditores

A administração da Empresa é responsável por essas outras informações que compreendem o Relatório da Administração. Nossa opinião sobre as demonstrações financeiras não abrange o relatório da administração e não expressamos qualquer forma de conclusão de auditoria sobre esse relatório.

Em conexão com a auditoria das demonstrações financeiras, nossa responsabilidade é a de ler o Relatório da Administração e, ao fazê-lo, considerar se esse relatório está de forma relevante, inconsistente com as demonstrações financeiras ou com nosso conhecimento obtido na auditoria ou, de outra forma, aparenta estar distorcido de forma relevante. Se, com base no trabalho realizado, concluirmos que há distorção relevante no Relatório da Administração, somos requeridos a comunicar esse fato. Não temos nada a relatar a este respeito.

Responsabilidade da Administração e da governança pelas demonstrações financeiras

A Administração é responsável pela elaboração das demonstrações financeiras de acordo com as práticas contábeis vigentes no Brasil e pelos controles internos que ela determinou como necessários para permitir a elaboração dessas demonstrações financeiras livres de distorção relevante, independentemente se causada por fraude ou erro.

Na elaboração das demonstrações financeiras, a Administração é responsável pela avaliação da capacidade de a Empresa continuar operando, divulgando, quando aplicável, os assuntos relacionados com a sua continuidade operacional e o uso dessa base contábil na elaboração das demonstrações financeiras, a não ser que a Administração pretenda liquidar a Empresa ou cessar suas operações, ou não tenha nenhuma alternativa realista para evitar o encerramento das operações.

Os responsáveis pela governança da Empresa são aqueles com responsabilidade pela supervisão do processo de elaboração das demonstrações financeiras.

Responsabilidade do auditor pela auditoria das demonstrações financeiras

Nossos objetivos são obter segurança razoável de que as demonstrações financeiras, tomadas em conjunto, estão livres de distorção relevante, independentemente se causadas por fraude ou erro, e emitir relatório de auditoria contendo nossa opinião. Segurança razoável é um alto nível de segurança, mas não uma garantia de que a auditoria realizada de acordo com as normas brasileiras e internacionais de auditoria, sempre detecta as eventuais distorções relevantes existentes. As distorções podem ser decorrentes de fraude ou erro e são consideradas relevantes quando, individualmente ou em conjunto, possam influenciar, dentro de uma perspectiva razoável, as decisões econômicas dos usuários tomadas com base nas referidas demonstrações financeiras.

Como parte da auditoria realizada, de acordo com as normas brasileiras e internacionais de auditoria, exercemos julgamento profissional e mantemos ceticismo profissional ao longo da auditoria. Além disso:

- Identificamos e avaliamos os riscos de distorção relevante nas demonstrações financeiras, independentemente se causada por fraude ou erro, planejamos e executamos procedimentos de auditoria em resposta a tais riscos, bem como obtemos evidência de auditoria apropriada e suficiente para fundamentar nossa opinião. O risco de não detecção de distorção relevante resultante de fraude é maior do que o proveniente de erro, já que a fraude pode envolver o ato de burlar os controles internos, conluio, falsificação, omissão ou representações falsas intencionais.

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 591

auditores independentes

- Obtemos entendimento dos controles internos relevantes para a auditoria para planejarmos procedimentos de auditoria apropriados nas circunstâncias, mas não com o objetivo de expressarmos opinião sobre a eficácia dos controles internos da Companhia.

- Avaliamos a adequação das políticas contábeis utilizadas e a razoabilidade das estimativas contábeis e respectivas divulgações feitas pela administração.

- Concluímos sobre a adequação de uso, pela Administração, da base contábil de continuidade operacional e, com base nas evidências de auditoria obtidas, se existe incerteza relevante em relação a eventos ou condições que possam levantar dúvida significativa em relação a capacidade de continuidade operacional da Empresa. Se concluirmos que existe incerteza relevante, devemos chamar atenção em nosso relatório de auditoria para as respectivas divulgações nas demonstrações financeiras ou incluir modificação em nossa opinião, se as divulgações foram inadequadas. Nossas conclusões fundamentadas nas evidências de auditoria obtidas até a data de nosso relatório. Todavia, eventos ou condições futuras podem levar a Empresa a não mais se manter em continuidade operacional.

- Avaliamos a apresentação geral, a estrutura e o conteúdo das demonstrações financeiras, inclusive as divulgações e se as demonstrações financeiras representam as correspondentes transações e os eventos de maneira compatível com o objeto de apresentação adequada.

Comunicamo-nos com os responsáveis pela governança e respeito, entre outros aspectos, do alcance planejado, da época da auditoria e das constatações significativas de auditoria, inclusive as eventuais deficiências significativas nos controles internos que identificamos durante nossos trabalhos.

NOTAS EXPLICATIVAS AS DEMONSTRAÇÕES FINANCEIRAS DO EXERCÍCIO FINDO EM 31.12.2024

1) CONTEXTO OPERACIONAL

A empresa tem como principal atividade o **Comercio atacadista de produtos de informática.**

2) APRESENTAÇÃO DAS DEMONSTRAÇÕES FINANCEIRAS

As demonstrações financeiras foram elaboradas com base nas práticas contábeis de acordo com a **ITG 2000(R1) – ESCRITURAÇÃO CONTÁBIL.**

3) PRINCIPAIS PRÁTICAS CONTÁBEIS

A) Apuração do Resultado, ativos e passivos circulantes e não-circulantes;

B) Duplicatas a Receber somam em 31.12.2024 o valor de R$ 111.159.685,49;

C) Outros Créditos a Receber somam em 31.12.2024 o valor de R$ 59.009.670,84;

D) O resultado é apurado pelo regime de competência;

Os ativos e passivos circulantes e não circulantes, quando aplicável incluem os encargos incorridos e auferidos até a data do balanço e são reduzidos, mediante provisão aos seus valores prováveis de realização.

E) ESTOQUES

Os estoques de matérias-primas e produtos para revenda estão avaliados pelo valor médio das compras diminuídos dos impostos e somam em 31.12.2024 o valor de R$ 74.667.848,22.

Estoques em poder de terceiros sem previsão de entrega de mercadorias, em 31.12.2024 é de R$ 5.311.828,97.

F) IMOBILIZADO

Registrado ao custo de aquisição, as depreciações são computadas pelo método LINEAR com base em taxas que levam em consideração a vida útil do bem.

G) IMPOSTO DE RENDA E CONTRIBUIÇÃO SOCIAL

Imposto de renda, calculado a alíquota de 15% sobre o lucro tributável acrescido do adicional de 10%, cujo o calor do faturamento ultrapasse o valor do limite do trimestre. Contribuição Social calculada a alíquota de 9% sobre o lucro Contábil.

H) TRIBUTOS A RECUPERAR: Os valores relativos a tributos a recuperar constituem créditos legítimos da empresa, derivados de sua incidência nas operações com órgãos públicos.

4) IMOBILIZADO

Taxa de Depreciação Anual	**Bem**	**31.12.2024**
Veículos	20%	1.422.307,91
Maquinários	10%	303.054,31
Moveis e Utensílios	10%	380.254,62
Instalações	10%	85.428,36
Equipamentos de Informática	20%	213.443,87
Imóveis		3.150.000,00
Terrenos		2.500.000,00
TOTAL ATIVO		8.054.489,07

5) PASSIVO CIRCULANTE E NÃO CIRCULANTE:

Empréstimos e Financiamentos: Os valores lançados nas contas de Empréstimos e Financiamentos, tanto no Passivo Circulante, quando no Passivo Não Circulante, estão conciliados, e os pagamentos estão absolutamente em dia, possuindo a empresa saldos ativos, que suportam o seu pagamento integral a qualquer momento.

6) CAPITAL SOCIAL

O capital social subscrito e integralizado é de R$ 2.000.0000,00 (Dois milhões de Reais), totalmente de origem nacional, quotas no valor de R$ 1.000,00 (Hum mil reais) cada.

7) RELATÓRIO DO AUDITOR INDEPENDENTE

Seguindo as boas práticas da administração, e no sentido de tornar transparente a sua situação econômica e financeira para o mercado, seus clientes e fornecedores, a Torino Informática LTDA. contratou a empresa ACR AUDITORIA E CONTABILIDADE SS LTDA., para realizar a auditoria externa e independente de sua contabilidade. Como resultado a auditoria produziu um relatório de quarenta e quatro (44) páginas, das quais transcrevemos o seu parecer, que vai em anexo. Informamos que a versão completa do relatório está registrado na Jucesp como documento de interesse da empresa.

DECLARAÇÃO DE CONFORMIDADE:

As demonstrações financeiras são de responsabilidade da Administração, e foram elaboradas de acordo com as práticas contábeis adotadas no Brasil, e as normas emitidas pelo Conselho Federal de Contabilidade (CFC), as quais abrangem a Legislação Societária, os Pronunciamentos, as Orientações e as Interpretações emitidas pelo Comitê de Pronunciamentos Contábeis (CPC).

A Diretoria declara que as Demonstrações Contábeis da sociedade **TORINO INFORMÁTICA LTDA.,** do período compreendido entre 01 de janeiro de 2024 e 31 de dezembro de 2024, apresentam adequadamente a posição patrimonial e financeira, o desempenho e os fluxos de caixa da entidade, com observância aos Princípios Gerais da Contabilidade. As demonstrações contábeis, foram elaboradas segundo o regime de competência e estão representadas em real, a moeda nacional Brasileira.

RELATÓRIO DOS AUDITORES INDEPENDENTES SOBRE AS DEMONSTRAÇÕES CONTÁBEIS

Aos
Diretores e Administradores da
Torino Informática LTDA
Sorocaba - SP

Opinião
Examinamos as demonstrações contábeis da **Torino Informática LTDA ("Empresa")**, que compreendem o balanço patrimonial em 31 de dezembro de 2024 e as respectivas demonstrações do resultado, do resultado abrangente, das mutações do patrimônio liquido, e dos fluxos de caixa para o exercício findo nessa data, bem como as correspondentes notas explicativas, compreendendo as políticas contábeis significativas e outras informações elucidativas

Em nossa opinião, as demonstrações contábeis acima referidas representam adequadamente, em todos os aspectos relevantes, a posição patrimonial e financeira da **Torino Informática LTDA,** em 31 de dezembro de 2024, o desempenho de suas operações e os seus fluxos de caixa para o exercício findo nessa data, de acordo com as práticas contábeis adotadas no Brasil.

Base para opinião
Nossa auditoria foi conduzida de acordo com as normas brasileira e internacionais de auditoria. Nossas responsabilidades, em conformidade com tais normas, estão descritas na seção a seguir intitulada "Responsabilidade do auditor pela auditoria das demonstrações contábeis". Somos independentes em relação à Empresa, de acordo com os princípios éticos relevantes previstos no Código de Ética Profissional do Contador e nas normas profissionais emitidas pelo Conselho Federal de Contabilidade, e cumprimos com as demais responsabilidades éticas de acordo com essas normas. Acreditamos que a evidência de auditoria obtida é suficiente e apropriada para fundamentar nossa opinião.

Principais assuntos de auditoria
Principais assuntos de auditoria são aqueles que, em nosso julgamento profissional, foram os mais significativos em nossa auditoria do exercício corrente. Esses assuntos foram tratados no contexto de nossa auditoria das demonstrações contábeis como um todo e na formação de nossa opinião sobre essas demonstrações contábeis e, portanto, não expressamos uma opinião separada sobre esses assuntos.

Outros assuntos

(a) Demonstrações do valor adicionado
As demonstrações do valor adicionado (DVA) referentes ao exercício findo em 31 de dezembro de 2024, elaboradas sob a responsabilidade da **Torino Informática LTDA,** e apresentadas como informação gerencial, foram submetidas a procedimentos de auditoria executados em conjunto com a auditoria das demonstrações financeiras da Empresa. Para a formação de nossa opinião, avaliamos se essas demonstrações estão conciliadas com as demonstrações e registros contábeis, conforme aplicável, e se sua forma e conteúdo estão de acordo com os critérios definidos no Pronunciamento Técnico CPC 09 – Demonstração do Valor Adicionado. Em nossa opinião, essas demonstrações do valor adicionado foram adequadamente elaboradas, em todos os aspectos relevantes, segundo critérios definidos nesse Pronunciamento Técnico e são consistentes em relação às demonstrações financeiras tomadas em conjunto.

(b) Auditoria das demonstrações contábeis do exercício anterior
O balanço patrimonial em 31 de dezembro 2023 e a demonstração do resultado, do resultado abrangente, das mutações do patrimônio liquido, do fluxo de caixa, do valor adicionado e respectivas notas explicativas para o exercício findo nossa data, apresentados como valores correspondentes nas demonstrações contábeis do exercício corrente, foram por nós revisadas, e emitimos relatório sem modificação de opinião em 29 de março de 2024.

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 619

Outras informações que acompanham as demonstrações contábeis e o relatório do auditor
A Administração da Empresa é responsável por essas outras informações que compreendem o Relatório da Administração.

Nossa opinião sobre as demonstrações contábeis não abrange o Relatório da Administração, e não expressamos qualquer forma de conclusão de auditoria sobre esse relatório.

Em conexão com a auditoria das demonstrações contábeis, nossa responsabilidade é a de ler o Relatório da Administração e, ao fazê-lo, considerar se esse relatório está, de forma relevante, inconsistente com as demonstrações financeiras ou com nosso conhecimento obtido na auditoria ou, de outra forma, aparenta estar distorcido de forma relevante. Se, com base no trabalho realizado, concluirmos que há distorção relevante no Relatório da Administração, somos requeridos a comunicar esse fato. Não temos nada a relatar a esse respeito.

Responsabilidade da administração e da governança pelas demonstrações contábeis
A Administração da Empresa é responsável pela elaboração e adequada apresentação das demonstrações contábeis de acordo com as práticas contábeis adotadas no Brasil e pelos controles internos que ela determinou como necessários para permitir a elaboração dessas demonstrações contábeis livres de distorção relevante, independentemente se causada por fraude ou erro.

Na elaboração das demonstrações contábeis, a Administração é responsável pela avaliação da capacidade de a Empresa continuar operando e divulgando, quando aplicável, os assuntos relacionados com a sua continuidade operacional e o uso dessa base contábil na elaboração das demonstrações contábeis, a não ser que a Administração pretenda liquidar a Empresa ou cessar suas operações, ou não tenha nenhuma alternativa realista para evitar o encerramento das operações.

Os responsáveis pela governança da Empresa são aqueles com responsabilidade pela supervisão do processo de elaboração das demonstrações contábeis.

Responsabilidade do auditor pela auditoria das demonstrações contábeis
Nossos objetivos são obter segurança razoável de que as demonstrações contábeis, tomadas em conjunto, estão livres de distorção relevante, independentemente se causadas por fraude ou erro, e emitir relatório de auditoria contendo nossa opinião. Segurança razoável é um alto nível de segurança, mas não, uma garantia de que a auditoria realizada de acordo com as normas brasileiras e internacionais de auditoria sempre detecta as eventuais distorções relevantes existentes. As distorções podem ser decorrentes de fraude ou erro e são consideradas relevantes quando, individualmente ou em conjunto, possam influenciar, dentro de uma perspectiva razoável, as decisões econômicas dos usuários tomadas com base nas referidas demonstrações contábeis.

Como parte da auditoria realizada, de acordo com as normas brasileiras e internacionais de auditoria, exercemos julgamento profissional e mantemos ceticismo profissional ao longo da auditoria. Além disso:

- Identificamos e avaliamos os riscos de distorção relevante nas demonstrações contábeis, independentemente se causada por fraude ou erro, planejamos e executamos procedimentos de auditoria em resposta a tais riscos, bem como obtemos evidência de auditoria apropriada e suficiente para fundamentar nossa opinião. O risco de não detecção de distorção relevante resultante de fraude é maior do que o proveniente de erro, já que a fraude pode envolver o ato de burlar os controles internos, conluio, falsificação, omissão ou representações falsas intencionais.

- Obtemos entendimento dos controles internos relevantes para a auditoria para planejarmos procedimentos de auditoria apropriados às circunstâncias, mas não com o objetivo de expressarmos opinião sobre a eficácia dos controles internos da Empresa.

- Avaliarmos a adequação das políticas contábeis utilizadas e a razoabilidade das estimativas contábeis e respectivas divulgações feitas pela Administração.

Habilitação TORINO INFORMÁTICA LTDA., CNPJ 03.619.767/0005-15 (1711813) SEI 2025.001317 / pg. 620

- Concluímos sobre a adequação de uso, pela administração, da base contábil de continuidade operacional e, com base nas evidências de auditoria obtidas, se existe incerteza relevante em relação a eventos ou condições que possam levantar dúvida significativa em relação à capacidade de continuidade operacional da Empresa. Se concluirmos que existe incerteza relevante, devemos chamar atenção em nosso relatório de auditoria para as respectivas divulgações nas demonstrações financeiras ou incluir modificação em nossa opinião, se as divulgações foram inadequadas. Nossas conclusões estão fundamentadas na evidência de auditoria obtidas até a data de nosso relatório. Todavia, eventos ou condições futuras podem levar a Empresa a não mais se manter em continuidade operacional.

- Avaliamos a apresentação geral, a estrutura e o conteúdo das demonstrações contábeis, inclusive as divulgações e se as demonstrações contábeis representam as correspondentes transações e os eventos de maneira compatível com o objeto de apresentação adequada.

Comunicamo-nos com os responsáveis pela governança a respeito, entre outros aspectos, do alcance e da época dos trabalhos de auditoria planejados e das constatações significativas de auditoria, inclusive as deficiências significativas nos controles internos que, eventualmente, tenham sido identificadas durante nossos trabalhos.

Fornecemos também aos responsáveis pela governança declaração de que cumprimos com as exigências éticas relevantes, incluindo os requisitos aplicáveis de independência, e comunicamos todos os eventuais relacionamentos ou assuntos que poderiam afetar, consideravelmente, nossa independência, incluindo, quando aplicável, as respectivas salvaguardas.

Declaro para os devidos fins junto à Comissão Permanente de Licitação que:

a) cumpro plenamente os requisitos de habilitação e estou ciente de que respondo pela veracidade das informações prestadas, na forma da lei;

b) em atenção ao item 5.6. do Edital e ao Art. 14, e incisos, da Lei n.º 14.133/2021, não estou impedido de participar direta ou indiretamente desta licitação, e ainda, que não possuo sócios, diretores ou gerentes, que sejam cônjuge, companheiro ou parente em linha reta, colateral ou porafinidade, até o terceiro grau, inclusive, de membros ou de servidores ocupantes de cargo de direção, chefia ou assessoramento no âmbito do Ministério Público do Estado do Amazonas e de sua CPL;

c) recebi o edital e todos os documentos que o integram, dispondo de todos os elementos e informações necessários à elaboração da proposta de preços com total e completo conhecimento do objeto da licitação;

d) os documentos e declarações apresentados são fiéis e verdadeiros;

e) caso seja vencedor do certame e não cadastrado no SISTEMA DE ADMINISTRAÇÃO FINANCEIRA E CONTABILIDADE da SECRETARIA DA FAZENDA DO ESTADO DO AMAZONAS – SEFAZ-AM, encaminharei à CONTRATANTE os documentos necessários para efetuar o referido cadastramento no prazo de 05 (cinco) dias úteis, a contar da adjudicação, sob pena de perder o direito de preferência à contratação em favor dos demais licitantes subsequentes, sem prejuízo da possibilidade de responder a procedimento administrativo de responsabilização (PAR) por eventual retardamento da licitação;

f) o preço inclui, além do lucro, todos os custos e despesas, com tributos incidentes e encargos devidos, materiais, serviços, transporte, a integralidade dos custos para atendimento dos direitos trabalhistas assegurados na Constituição Federal, nas leis trabalhistas, nas normas infralegais, nas convenções coletivas de trabalho e nos termos de ajustamento de conduta vigentes na data de entrega das propostas, bem como quaisquer outras despesas diretas e indiretas incidentes na prestação de serviços;

g) a proposta apresentada para participar do presente Pregão foi elaborada de maneira independente por esta licitante e o seu conteúdo não foi, no todo ou em parte, direta ou indiretamente, informado, discutido ou recebido de qualquer outro participante potencial ou de fato, por qualquer meio ou por qualquer pessoa.

Sorocaba, 30 de junho de 2025.

Mensagens do chat da compra

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 10:00:02	A sessão pública está aberta. Até 1 item poderá estar em disputa simultaneamente e o período de abertura para disputa será entre 08:00 e 18:00. Haverá aviso prévio de abertura dos itens de 10 minutos. Mantenham-se conectados.
Sistema	30/06/2025 às 10:15:46	Prezados Licitantes, bom dia.
Sistema	30/06/2025 às 10:15:50	Sejam bem vindos à sessão pública do Pregão Eletrônico 94.010/2025 que tem por objeto o registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses.
Sistema	30/06/2025 às 10:15:59	Prezados, em breve será aberta a fase de disputa. Solicito atenção e comprometimento aos valores apresentados nos lances, visto que vinculam a empresa à manutenção do preço por um período de 12 meses, incumbindo a ela, portanto, a responsabilidade pela correta precificação da sua oferta.
Sistema	30/06/2025 às 10:16:10	Solicito atenção ao subitem 6.10 do Instrumento Convocatório no intuito do adequado acompanhamento do procedimento por parte de todos os interessados.
Sistema	30/06/2025 às 10:16:20	Boa disputa.
Sistema	30/06/2025 às 14:06:48	A etapa de julgamento de propostas foi iniciada. Para acompanhá-la acesse a opção "Seleção de fornecedores" na linha do tempo.
Sistema	30/06/2025 às 14:24:10	Prezados, encerrada a fase de disputa, passaremos à análise das ofertas apresentadas pelas licitantes mais bem colocadas na ordem de classificação.
Sistema	30/06/2025 às 14:26:29	No entanto, cabe tratar com os primeiros colocados para o Item 2. Solicito atenção aos interessados.
Sistema	30/06/2025 às 14:58:29	Senhores, considerando a desclassificação da proposta da licitante TROGON COMERCIO DE INFORMATICA LTDA SP para o item 2, passaremos a tratar com os licitantes seguintes. Solicito atenção aos interessados.
Sistema	30/06/2025 às 15:24:14	Prezados, considerando que o licitante HOUSE LTDA. não se manifestou, passaremos a tratativa com a licitante 42.816.024 LEONARDO CATIVO SOUSA. Solicito atenção à interessada.

Relatório PNCP - Julgamento/Habilitação - ITEM 3 (1711536) SEI 2025.001317 / pg. 2

Responsável	Data/Hora	Mensagem
Sistema	30/06/2025 às 15:36:05	Senhor licitante, solicito manifestação.
Sistema	30/06/2025 às 15:52:50	Senhores, em breve estarei convocando as licitantes mais bem colocadas na ordem de classificação, para envio de nova proposta ajustada ao valor dos lances para cada item.
Sistema	30/06/2025 às 15:53:19	O prazo para envio é de 2 (duas) horas contadas a partir da convocação no sistema.
Sistema	30/06/2025 às 15:57:21	Com fundamento na letra "k" do subitem 9.2 do Edital, deverá ser enviada junto à proposta de preços "documentação técnica (manuais, catálogos ou prospectos), com as características detalhadas (marca, modelo, cor, tipo de material e medidas) e imagens ilustrativas dos produtos propostos, que possibilitem a completa averiguação de conformidade com as especificações, visando facilitar a avaliação a ser realizada por técnicos deste Órgão."
Sistema	30/06/2025 às 15:59:25	Poderá ser apresentado na proposta ou junto dela, links do fabricante/fornecedor, desde que atenda, no mínimo, as exigências do dispositivo mencionado.
Sistema	30/06/2025 às 16:01:38	Em breve as licitantes mais bem classificadas serão convocadas no sistema. Solicito atenção às interessadas.
Sistema	30/06/2025 às 16:04:57	Senhores, considerando a hora avançada, informo que encerraremos os trabalhos por hoje, retornando amanhã (01/07/2025), a partir das 10h (horário Brasília) para as convocações.
Sistema	30/06/2025 às 16:05:13	Aguardo a todos no dia e hora aqui agendados.
Sistema	30/06/2025 às 16:05:28	Obrigado pela atenção e uma excelente tarde a todos.
Sistema	01/07/2025 às 10:05:27	Prezados Licitantes, bom dia.
Sistema	01/07/2025 às 10:16:19	Retornamos aos trabalhos deste certame, considerando a convocação dos licitantes mais bem classificados na ordem dos lances para envio de propostas.
Sistema	01/07/2025 às 10:27:59	Senhores, informo que o Quadro-Resumo do Processo de Compra Nª 195.2025.SCOMS.1609045.2025.001317 com os valores estimados para cada item já se encontra disponível no Portal do MPAM, no seguinte endereço:

Sistema	07/07/2025 às 15:58:41	Aguardo a todos no dia e hora aqui agendados. Obrigado.
Sistema	08/07/2025 às 14:11:23	Prezados licitantes, boa tarde.
Sistema	08/07/2025 às 14:14:38	Prezados, retornamos aos trabalhos deste certame considerando as propostas dos seguintes licitantes:
Sistema	08/07/2025 às 14:16:14	a) TORINO INFORMÁTICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 2; b) POSITIVO TECNOLOGIA S/A (Filial), CNPJ (MF) n.ª 81.243.735/0009-03, para o Item 3; e c) E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, para o Item 4
Sistema	08/07/2025 às 14:24:07	Encaminhadas as ofertas ao setor técnico para análise, o referido setor manifestou-se da seguinte forma:
Sistema	08/07/2025 às 14:26:15	Parecer Nª 16.2025.SIET.1661858.2025.001317 - TORINO INFORMÁTICA LTDA., ITEM 2 - Pela exposição de motivos, depreende-se que: a) O teclado não atende; b) O requisito de leitor biométrico no mouse e teclado não foi atendida; entre outros.
Sistema	08/07/2025 às 14:27:56	Parecer Nª 18.2025.SIET.1664620.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL) - ITEM 3 - Recomenda-se, portanto, caso a licitante seja instada a reapresentar a proposta técnica, que ela esteja em conformidade com o disposto no subitem 18.14, informando marca, modelo e documentação comprobatória específica de todos os componentes, de modo a permitir a verificação inequívoca da compatibilidade do produto ofertado com o objeto licitado.
Sistema	08/07/2025 às 14:28:43	Parecer Nª 19.2025.SIET.1665305.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA. - ITEM 4 - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	08/07/2025 às 14:30:03	Assim, com fundamento na análise dos Pareceres aqui apresentados, Este Pregoeiro decide:
Sistema	08/07/2025 às 14:32:07	a) Recusar a proposta de preços do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, em conformidade ao Parecer Nª 16.2025.SIET.1661858.2025.001317 e Item 10.3.2 do Edital do certame.
Sistema	08/07/2025 às 14:35:55	b) Diligenciar o licitante POSITIVO TECNOLOGIA S/A (FILIAL) - para que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame.
Sistema	08/07/2025 às 14:37:36	Para tal, será aberto o prazo de 2 (duas horas para envio de documento complementar em providência à solicitação constante do Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:39:05	c) Aceitar a proposta de preços apresentada pelo licitante ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 4, em conformidade ao Parecer Nª 19.2025.SIET.1665305.2025.001317 e ao Item 10 do Edital do certame.
Sistema	08/07/2025 às 14:40:00	Prezados, informo que os pareceres mencionados encontram-se disponíveis e acessíveis a todos os interessados no Portal do MPAM no seguinte endereço:
Sistema	08/07/2025 às 14:40:33	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	08/07/2025 às 14:54:06	Prezado licitante POSITIVO TECNOLOGIA S/A (FILIAL), em breve V. Sa. será convocado para providências conforme apresentado nesse chat e no Parecer Nª 18.2025.SIET.1664620.2025.001317.
Sistema	08/07/2025 às 14:54:24	Solicito atenção.

Relatório PNCP - Julgamento/Habilitação - ITEM 3 (1711536) SEI 2025.001317 / pg. 5

Responsável	Data/Hora	Mensagem
Sistema	08/07/2025 às 14:56:10	Prezados, considerando a desclassificação da proposta do licitante TORINO INFORMÁTICA LTDA., para o ITEM 2, informo que em breve será convocado novo licitante para envio de proposta para o Item. Solicito atenção aos interessados.
Sistema	08/07/2025 às 15:00:40	Prezados, tomadas as devidas providências e convocados os licitantes, fico no aguardo dos solicitados documentos.
Sistema	08/07/2025 às 17:25:18	Senhores, recebidos os documentos, informo que os mesmos serão encaminhados ao setor técnico para análise.
Sistema	08/07/2025 às 17:26:29	Assim, encerraremos os trabalhos por hoje, retornando em data posterior devidamente informada através desse chat, em tempo hábil ao acompanhamento de todos os interessados.
Sistema	08/07/2025 às 17:26:39	Agradeço a atenção dispensada.
Sistema	08/07/2025 às 17:26:52	Finalizo desejando uma excelente tarde a todos.
Sistema	10/07/2025 às 11:36:20	Prezados, bom dia.
Sistema	10/07/2025 às 11:36:57	Informo que retornaremos aos trabalhos deste certame amanhã (11/07/2025), a partir das 10h (horário Brasília).
Sistema	10/07/2025 às 11:37:33	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 10:00:40	Prezados Licitantes, bom dia.
Sistema	11/07/2025 às 10:21:39	Retornamos aos trabalhos deste certame considerando as propostas apresentadas pelos licitantes POSITIVO TECNOLOGIA S/A (Filial), para o Item 3 e E.R. SOLUCOES INFORMATICA LTDA., para o Item 2.
Sistema	11/07/2025 às 10:39:45	Senhores, recebidos os documentos de propostas e encaminhados ao setor técnico competente para análise, obtivemos os seguintes resultados:
Sistema	11/07/2025 às 10:40:56	a) Parecer Nª 21.2025.SIET.1668662.2025.001317 - ER SOLUÇÕES INFORMÁTICA LTDA., para o ITEM 2 - Conclusão - O conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado.
Sistema	11/07/2025 às 10:43:00	b) Parecer Nª 22.2025.SIET.1668772.2025.001317 - POSITIVO TECNOLOGIA S/A (FILIAL), para o Item 3 - Conclusão - Após análise da documentação apresentada pela licitante [...] foram observados alguns pontos inconclusivos, marcados como . Os pontos marcados com , são exigências que não foi possível comprovar sua aderência na segunda oportunidade de envio de documentação técnica.
Sistema	11/07/2025 às 10:44:33	Senhores, informo que o Parecer Nª 21.2025.SIET.1668662.2025.001317 e o Parecer Nª 22.2025.SIET.1668772.2025.001317 encontram-se disponíveis no Portal do MPAM, no seguinte
Sistema	11/07/2025 às 10:44:40	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	11/07/2025 às 10:46:44	Senhores, considerando os resultados das análises apresentados nos pareceres, informo o seguinte:
Sistema	11/07/2025 às 11:18:42	a) para saneamento das pendências apontadas nos pareceres, as licitantes serão convocadas para envio de documentos que comprovem o atendimento às exigências apontadas.
Sistema	11/07/2025 às 11:19:44	Assim, em breve convocarei as licitantes no sistema. Solicito atenção aos interessados.
Sistema	11/07/2025 às 11:25:58	Estando os licitantes devidamente convocados, fico no aguardo dos solicitados documentos.
Sistema	11/07/2025 às 14:23:53	Senhores, boa tarde.
Sistema	11/07/2025 às 14:25:25	Considerando o envio dos documentos solicitados referentes ao Item 2 por parte do Licitante E.R. SOLUCOES INFORMATICA LTDA. e sendo os mesmos suficientes para o pleno atendimento da solicitação, informo que:
Sistema	11/07/2025 às 14:27:08	Este Pregoeiro decide pela Aceitação da proposta de preços do licitante E.R. SOLUCOES INFORMATICA LTDA. para o Item 2, pelo pleno atendimento às exigências técnicas e formais do Edital, referentes à proposta e em conformidade ao Parecer Nª 21.2025.SIET.1668662.2025.001317.

Relatório PNCP - Julgamento/Habilitação - ITEM 3 (1711536) SEI 2025.001317 / pg. 6

Responsável	Data/Hora	Mensagem
Sistema	11/07/2025 às 16:52:49	Prezados, recebidos os documentos referente ao Item 3, informo que os mesmos serão encaminhados para análise do setor técnico competente.
Sistema	11/07/2025 às 16:54:57	Considerando a hora avançada, encerraremos os trabalhos por hoje, retornando na segunda-feira (14/07/2025), a partir das 11h (horário de Brasília), para continuação dos trabalhos.
Sistema	11/07/2025 às 16:55:26	Aguardo a todos no dia e hora aqui agendados.
Sistema	11/07/2025 às 16:55:54	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	14/07/2025 às 11:15:08	Prezados Licitantes, bom dia.
Sistema	14/07/2025 às 11:45:13	Senhores, considerando os documentos de Habilitação apresentados pelo Licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47, informo que os mesmos atendem a todas as exigências estabelecidas no instrumento convocatório.
Sistema	14/07/2025 às 11:45:42	Nesse sentido, este Pregoeiro decide pela HABILITAÇÃO do licitante E.R. SOLUCOES INFORMATICA LTDA., CNPJ (MF) n.ª 05.778.325/0005-47.
Sistema	14/07/2025 às 12:02:53	Senhores, em breve estarei habilitando a licitante no próprio sistema. Solicito atenção.
Sistema	14/07/2025 às 15:26:33	Prezados Licitantes, recebidos os documentos apresentados pelo licitante POSITIVO TECNOLOGIA S/A (FILIAL), referente ao Item 3, em resposta às solicitações constantes do Ofício Nª 256.2025.CPL.1667127.2025.001317, informo o seguinte:
Sistema	14/07/2025 às 15:29:43	Senhores, apenas retificando, as solicitações constam do Parecer Nª 22.2025.SIET.1668772.2025.001317 e não do Ofício Nª 256.2025.CPL.1667127.2025.001317.
Sistema	14/07/2025 às 15:31:35	O setor técnico, através do PARECER Nª 22.2025.SIET.1668772.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:40:50	Senhores, retificando, o setor técnico, através do PARECER Nª 25.2025.SIET.1671649.2025.001317, manifestou-se da seguinte forma:
Sistema	14/07/2025 às 15:42:58	3. Conclusão - Não sendo possível constatar os pontos controversos, e não sendo atendido a solicitação para que o licitante, em sua proposta, declare expressamente que a garantia abrange acidentes, inclusive danos não intencionais, tais como QUEDA, TELA QUEBRADA, DERRAMAMENTO DE LÍQUIDOS, OSCILAÇÃO DE ENERGIA, não se limitando às ocorrências supracitadas, sendo o rol apresentado uma lista não exaustiva.
Sistema	14/07/2025 às 15:43:42	Informo que o referido PARECER Nª 25.2025.SIET.1671649.2025.001317 encontra-se disponível no Portal do MPAM, no seguinte endereço:

Responsável	Data/Hora	Mensagem
Sistema	16/07/2025 às 14:08:10	Na sequência, será convocado novo licitante para envio de proposta para o Item 3. Solicito atenção aos interessados.
Sistema	16/07/2025 às 14:11:08	Estando o licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	16/07/2025 às 18:28:03	Prezados, encerraremos os trabalhos por hoje, retornando amanhã (17/07/2025), a partir das 11h (horário Brasília).
Sistema	16/07/2025 às 18:28:12	Aguardo a todos no dia e hora aqui agendados.
Sistema	17/07/2025 às 11:21:56	Prezados Licitantes, bom dia.
Sistema	17/07/2025 às 11:23:36	Prezados, retornamos aos trabalhos deste certame considerando o não envio de proposta de preços ajustada ao lance, por parte da licitante HOUSE LTDA. para o Item 3.
Sistema	17/07/2025 às 11:39:17	Perdão senhores, retificando, a última licitante convocada e que não enviou proposta para o Item 3 foi a empresa MR COMERCIO DE PECAS E ACESSORIOS LTDA, CNPJ 20.380.331/0001-01.
Sistema	17/07/2025 às 11:40:12	Assim, informo que a proposta da licitante será recusada e convocado novo licitante para envio de proposta ajustada para o item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 11:46:27	Prezados, antes da convocação de novo licitante, passaremos ao procedimento de desempate ficto entre licitantes.
Sistema	17/07/2025 às 11:46:37	Solicito atenção às interessadas. Obrigado!
Sistema	17/07/2025 às 11:59:22	Prezados, encerrado o desempate e mantida a classificação, informo que o novo licitante será convocado para envio de proposta ajustada ao lance para o Item 3. Solicito atenção ao interessado.
Sistema	17/07/2025 às 12:05:01	Estando a licitante devidamente convocado, fico no aguardo dos solicitados documentos.
Sistema	17/07/2025 às 12:16:20	Prezado, acolho a solicitação visto que a solicitação foi realizada na hora do almoço.
Sistema	18/07/2025 às 10:27:40	Prezados Licitantes, informo que tivemos problemas de conexão no sistema no dia de ontem e que retornaremos aos trabalhos deste certame na segunda feira (21/07/2025) , a partir das 10h (horário Brasília).
Sistema	18/07/2025 às 10:27:51	Aguardo a todos no dia e hora aqui agendados.
Sistema	18/07/2025 às 10:28:02	Um bom dia e um excelente fim de semana a todos.
Sistema	21/07/2025 às 10:54:36	Prezados, bom dia.
Sistema	21/07/2025 às 10:55:20	Infelizmente não foi possível reabrir no horário agendado por questões de problemas de conexão, já resolvidos.
Sistema	21/07/2025 às 10:56:02	Assim, informo que às 11h (Horário Brasília), retomaremos os trabalhos. Solicito atenção. Obrigado!
Sistema	21/07/2025 às 11:13:15	Senhores, considerando a solicitação de envio da licitante de apenas 1 (um) documento, informo que será solicitado a título de documento complementar (subitem 10.9) Edital.
Sistema	21/07/2025 às 11:13:24	Solicito atenção à interessada.
Sistema	21/07/2025 às 13:22:53	Prezados, recebidos os documentos, informo os mesmos serão encaminhados para o setor técnico para análise e manifestação.
Sistema	21/07/2025 às 13:23:36	Nesse sentido, informo que encerraremos os trabalhos por hoje, retornando em data posterior devidamente informado através desse chat e em tempo hábil para o acompanhamento de todos os interessados.
Sistema	21/07/2025 às 13:24:07	Agradeço a atenção de todos e finalizo desejando-lhes uma excelente semana.
Sistema	25/07/2025 às 10:24:29	Prezados, informo que retornaremos aos trabalhos deste certame segunda-feira (28/07/2025), a partir das 10h (horário Brasília).
Sistema	25/07/2025 às 10:24:41	Aguardo a todos no dia e hora aqui agendados.
Sistema	25/07/2025 às 10:25:03	Obrigado! Um excelente fim de semana a todos.

Sistema	30/07/2025 às 15:12:53	Obrigado e uma excelente tarde a todos.
Sistema	31/07/2025 às 10:38:56	Prezados Licitantes, bom dia.
Sistema	31/07/2025 às 10:39:28	Em razão de atividades internas deste Órgão, informo que não será possível reabrir a sessão pela manhã.
Sistema	31/07/2025 às 10:40:31	Informo que reabriremos a sessão às 14h (horário Brasília).
Sistema	31/07/2025 às 10:40:47	Aguardo a todos na hora agendada. Obrigado!
Sistema	31/07/2025 às 15:55:46	Senhores, informo que retornaremos aos trabalhos deste certame amanhã (01/08/2025), a partir das 11h (horário Brasília).
Sistema	31/07/2025 às 15:55:57	Aguardo a todos no dia e hora aqui agendados.
Sistema	31/07/2025 às 15:56:07	Obrigado e uma excelente tarde a todos.
Sistema	01/08/2025 às 11:01:37	Prezados, bom dia.
Sistema	01/08/2025 às 11:02:29	Retornamos aos trabalhos deste certame, considerando a proposta de preços apresentada pelo licitante TORINO INFORMATICA LTDA. para o Item 3.
Sistema	01/08/2025 às 11:04:15	Senhores, apresentados e recebidos os documentos em sede de diligência e submetidos à análise do setor técnico deste Órgão.
Sistema	01/08/2025 às 11:06:33	O referido setor manifestou-se através do Parecer Nª 27.2025.SIET.1686055.2025.001317, informando o seguinte:
Sistema	01/08/2025 às 11:07:16	"3. Conclusão: Após análise da documentação apresentada pela licitante TORINO INFORMÁTICA LTDA., referente ao Item 3 – MICROCOMPUTADOR TIPO 3 – “NOTEBOOK COMPACTO DE 14”, o conjunto proposto é compatível com as especificações do Edital. Assim, equipe técnica OPINA pela aceitabilidade do produto ofertado."
Sistema	01/08/2025 às 11:09:47	Informo que o referido Parecer Nª 27.2025.SIET.1686055.2025.001317, encontra-se disponível no Portal do MPAM, no seguinte endereço:
Sistema	01/08/2025 às 11:10:55	https://www.mpam.mp.br/servicos/licitacoes/licitacoes-em-andamento/47-licitacoes/pregao-eletronico-em-andamento/18376-pe-94010-2025-cpl-mp-pgj-srp-estacoes-de-trabalho-e-computadores-portateis
Sistema	01/08/2025 às 11:14:46	Nesse sentido, com fundamento no Parecer Nª 27.2025.SIET. e no atendimento aos dispositivos referentes à proposta de preços no Edital do certame, este Pregoeiro decide pela Aceitação da oferta do licitante TORINO INFORMÁTICA LTDA., para o Item 3.
Sistema	01/08/2025 às 11:56:24	Prezados, informo que em breve o licitante ora classificado para o Item 3 será convocado para envio de documentos de Habilitação.
Sistema	01/08/2025 às 11:56:36	Solicito atenção ao interessado.
Sistema	01/08/2025 às 12:24:25	Prezados, informo que em breve o licitante ora classificado para o Item 3 será convocado para envio de documentos de Habilitação.
Sistema	01/08/2025 às 16:15:07	Prezados, recebidos os documentos, informo que encerraremos os trabalhos por hoje, retornando na terça-feira (05/08/2025), a partir das 10h (horário Brasília).
Sistema	01/08/2025 às 16:15:37	Aguardo a todos no dia e hora aqui agendados.

Relatório PNCP - Julgamento/Habilitação - ITEM 3 (1711536) SEI 2025.001317 / pg. 10

Responsável	Data/Hora	Mensagem
Sistema	01/08/2025 às 16:16:08	Agradeço a atenção dispensada. Finalizo desejando uma boa tarde e um excelente fim de semana a todos.
Sistema	05/08/2025 às 10:08:07	Prezados Licitantes, bom dia.
Sistema	05/08/2025 às 10:11:20	Retornamos aos trabalhos deste certame, considerando o julgamento dos documentos de habilitação do licitante TORINO INFORMATICA LTDA.., CNPJ 03.619.767/0005-15.
Sistema	05/08/2025 às 11:27:39	Prezados licitantes, em análise aos documentos de habilitação do licitante ora classificado, verificou-se o atendimento à exigências estabelecidas no Item 11 do Instrumento Convocatório.
Sistema	05/08/2025 às 11:28:07	Nesse sentido, este Pregoeiro decide pela Habilitação do licitante TORINO INFORMATICA LTDA.., CNPJ 03.619.767/0005-15.
Sistema	05/08/2025 às 11:37:05	Senhores. em breve, estaremos habilitando a licitante vencedora do Item 3 no próprio sistema. Solicito atenção aos interessados.

Sistema para o participante 81.243.735/0009-03	08/07/2025 às 14:59:20	Sr. Fornecedor POSITIVO TECNOLOGIA S.A., CNPJ 81.243.735/0009-03, você foi convocado para enviar anexos para o item 3. Prazo para encerrar o envio: 17:04:00 do dia 08/07/2025. Justificativa: Solicito que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame..
Pelo participante 81.243.735/0009-03	08/07/2025 às 15:12:45	Prezado Sr. Pregoeiro, boa tarde! Em razão do tempo necessário para a elaboração de um documento ponto a ponto, solicitamos, gentilmente, a prorrogação do prazo por igual período, totalizando 4 (quatro) horas. Considerando o horário comercial, solicitamos que o novo prazo seja fixado até o dia 09/07/2025, às 9h.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 15:53:39	Prezada, boa tarde.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 15:59:41	A comprovação do atendimento da oferta aos requisitos técnicos e formais do Edital é papel do licitante. Tal procedimento, em termos de boas práticas, deve ser realizado desde a apresentação da proposta ajustada aos lances. Ainda, a juntada dos documentos é realizada pela própria proponente, com documentos considerados suficientes para uma análise segura e definitiva do equipamento ofertado.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 16:00:24	Assim, entende-se ser ela a detentora de todo conhecimento necessário para o adequado esclarecimento sobre sua proposta.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 16:04:02	Ainda, a solicitação para apresentação no prazo de 2 (duas) horas - mesmo prazo de envio da proposta, não nos parece desarrazoado. Sendo, no entendimento do Instrumento Convocatório, adequado às solicitações realizadas no certame, conforme prevê o subitem 10.9 do Edital.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 16:04:40	Nesse sentido, indefiro a solicitação de prorrogação do prazo pelos motivos acimas expostos.
Pelo participante 81.243.735/0009-03	08/07/2025 às 16:50:02	O item 3 teve a convocação para envio de anexos encerrada às 16:50:02 de 08/07/2025. 1 anexo foi enviado pelo fornecedor POSITIVO TECNOLOGIA S.A., CNPJ 81.243.735/0009-03.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 11:25:21	Sr. Fornecedor POSITIVO TECNOLOGIA S.A., CNPJ 81.243.735/0009-03, você foi convocado para enviar anexos para o item 3. Prazo para encerrar o envio: 13:28:00 do dia 11/07/2025. Justificativa: Solicito envio de documentos que comprovem o atendimento da oferta aos pontos levantados no Parecer Nª 22.2025.SIET.1668772.2025.001317..
Pelo participante 81.243.735/0009-03	11/07/2025 às 11:49:50	Prezado Sr. Pregoeiro, bom dia! Respeitosamente, solicitamos a Vossa Senhoria prazo para resposta à diligência até às 15h30min de hoje. Devido à quantidade de diligências e com o objetivo de fornecer uma resposta completa e precisa, necessitamos de um prazo adicional para realizar as consultas e levantamentos necessários. Agradecemos pela compreensão e aguardamos sua consideração.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 12:04:22	Prezado Licitante, bom dia.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 12:11:16	Considerando a presente solicitação e, nos termos do subitem 10.7.1. c/c subitem 10.9 do Edital, defiro a prorrogação do prazo de convocação.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 12:11:56	Solicito de V. Sa. que encerre o prazo de convocação para ajuste na convocação.

Ilmo(a). Pregoeiro(a) e Presidente da CPL e Equipe de Apoio da PROCURADORIA GERAL DE JUSTIÇA DO ESTADO DO AMAZONAS

Ref. Pregão Eletrônico N° 94010/2025 (SRP)

UASG: 925849

"Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses."

E. R. SOLUÇÕES INFORMÁTICA LTDA. (recorrente), já qualificada no processo em epígrafe, vem respeitosamente à presença de V. Sa. apresentar, tempestivamente, seu RECURSO contra decisão do(a) nobre pregoeiro(a) que classificou a proposta da empresa Torino Informática Ltda. CNPJ 03.619.767/0005-15, (recorrida), declarando-a vencedora do ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14" (300 unidades), deste certame, pelas razões e fundamentos infracitados. As razões são embasadas nas disposições da Lei nº 14.133, de 1º de abril de 2021.

I) BREVE SÍNTESE

A PROCURADORIA GERAL DE JUSTIÇA DO ESTADO DO AMAZONAS, deflagrou o Pregão Eletrônico n° 94010/2025, visando a contratação de empresa para o fornecimento DE EQUIPAMENTOS DE INFORMÁTICA, conforme Termo de Referência.

A licitação foi realizada por meio de sessão eletrônica, onde várias empresas apresentaram propostas para este item. Após a fase de lances o pregoeiro seguiu

ersolucoes.com.br | gov@ersolucoes.com.br
Av. Cem, S/N, Quadra 01 - Módulo 01, Sala 01 - Piso 02
Terminal Intermodal, Serra ES CEP: 29.161-384

Documento gerado oficialmente pelo Sistema SEI em 28/04/2025 - Gerado por E. R. SOLUÇÕES INFORMÁTICA LTDA. (1697794) SEI 2025.001317 / pg. 25

com a solicitação das propostas e documentos técnicos conforme classificação.

Após a fase de lances e envio da proposta atualizada, o Pregoeiro seguiu com a **declaração de vencedora da empresa Torino Informática Ltda. CNPJ 03.619.767/0005-15,** (recorrida), do **ITEM 3: MICROCOMPUTADOR TIPO 3 – "NOTEBOOK COMPACTO DE 14" (300 unidades).**

Antes de expormos os fatos, gostaríamos de informá-los que somos uma **Revenda Autorizada T1 da LENOVO TECNOLOGIA BRASIL**, um dos maiores fabricantes de tecnologia do mundo, e que atuamos desde 1997 prestando serviços em Tecnologia da Informação, com equipes de profissionais treinados e certificados, elaborando projetos, apresentando soluções, atendendo necessidades, e prevendo demandas para os mais diversos negócios em todo o território nacional, além de possuir larga experiência de atuação no setor governamental.

Somos um revendedor Platinum, ou seja, parceiro que demonstra alto nível de conhecimento técnico e compromisso com a marca Lenovo, podendo oferecer soluções mais complexas e personalizadas. Possuímos a autorização da Lenovo para revender seus produtos e oferecer serviços de suporte técnico.

Revendedores Platinum: Parceiros que demonstram alto nível de conhecimento técnico e compromisso com a marca Lenovo, **podendo oferecer soluções customizadas para atender às suas necessidades específicas do cliente.**

Conforme estabelece a Lei nº 14.133/2021, em seu Artigo 5º, todas as contratações públicas deverão respeitar os princípios da legalidade, impessoalidade, moralidade, publicidade, eficiência, entre outros. As exigências do edital estão em conformidade com tais princípios, garantindo a seleção da proposta mais vantajosa e a promoção do desenvolvimento nacional sustentável.

II) DO NÃO ATENDIMENTO

Página 21

> *"MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS."*
>
> *"25.3. É facultada ao pregoeiro ou autoridade superior, em qualquer fase da licitação, a promoção de diligência destinada a esclarecer ou complementar a instrução do processo."*
>
> *"25.3.1. O pregoeiro, durante as fases de julgamento das propostas e/ou habilitação, **deve sanear eventuais erros ou falhas que não alterem a substância das propostas**, dos documentos e sua validade jurídica, mediante decisão fundamentada, registrada em ata e acessível aos licitantes, sendo que a vedação à inclusão de novo documento, prevista no art. 64 da Nova Lei de Licitações (Lei 14.133/2021), não alcança documento ausente, comprobatório de condição atendida pelo licitante quando apresentou sua proposta, que não foi juntado com os demais comprovantes de habilitação e/ou da proposta, por equívoco ou falha, o qual deverá ser solicitado e avaliado pelo pregoeiro. (Acórdão TCU 1211/2021 - Plenário, relator Ministro Walton Alencar Rodrigues)."*

Antes de demonstrar os pontos em que a Recorrida não está atendendo ao edital, gostaríamos de frisar que, durante a condução da fase de julgamento das propostas, foi verificado que a Recorrida alterou sua proposta comercial diversas vezes, incluindo serviços que não constavam na proposta originalmente apresentada.

Tais alterações incorrem em vício grave, pois a substituição ou adição de serviços impacta diretamente a composição de preços, a análise de exequibilidade e o julgamento objetivo das propostas, o que é vedado pelo próprio edital e pela legislação vigente.

Ocorre que **a inclusão de novos serviços à proposta, após sua apresentação, configura inequívoca alteração de seu conteúdo substancial, indo muito além de meras falhas formais ou ausência de documentos comprobatórios de condição preexistente.**

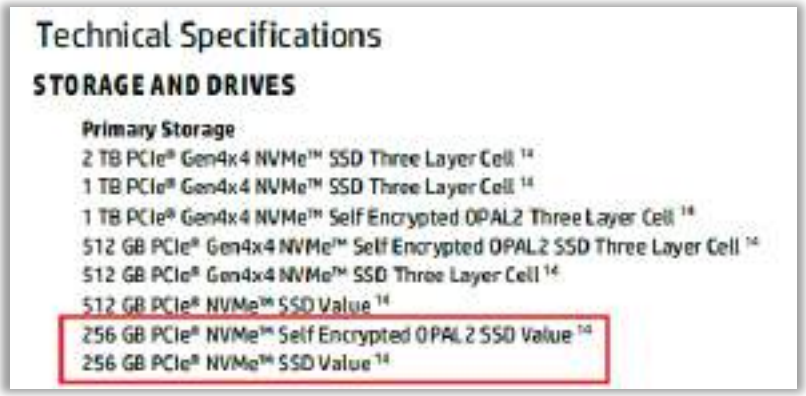
Em sua proposta, a Recorrida **não apresentou se o equipamento poderá vir com o logo da Contratante e se é possível este tipo de serviço em Fábrica**, como é exigido no edital.

b. **"5. Unidade de Armazenamento"**



O edital solicita:

"1. Deve possuir, no mínimo, 1 (uma) unidade padrão tipo Solid State Drive (SSD) interna instalada do tipo M.2, na capacidade mínima de 256 GB e velocidade mínima de gravação de 1.200MB/s;"

"2. Deve utilizar interface tipo M.2 PCIe 4.0, com o protocolo NVMe, ou superior;"

"3. Deve ser instalada durante o processo de manufatura do computador, e homologado como parte do equipamento, inclusive estando coberto pela garantia e suporte como descrito no Termo de Referência."

O equipamento ofertado pela Recorrida foi o HP EliteBook 640 14 inch G11 Notebook PC. Em seu catálogo, conforme apresentado, temos o seguinte:

DELL Technologies PLATINUM PARTNER
ERSOLUÇÕES INFORMÁTICA LTDA. (1697794) SEI 2025.001317 / pg. 30

Foi enviado o documento intitulado *"PM9B1 M.2 SSD Datasheet_v1.0_ for HPI"* onde nele constava o catálogo de um SSD de 256GB da marca SAMSUNG e modelo "SAMSUNG SSD PM9B1".

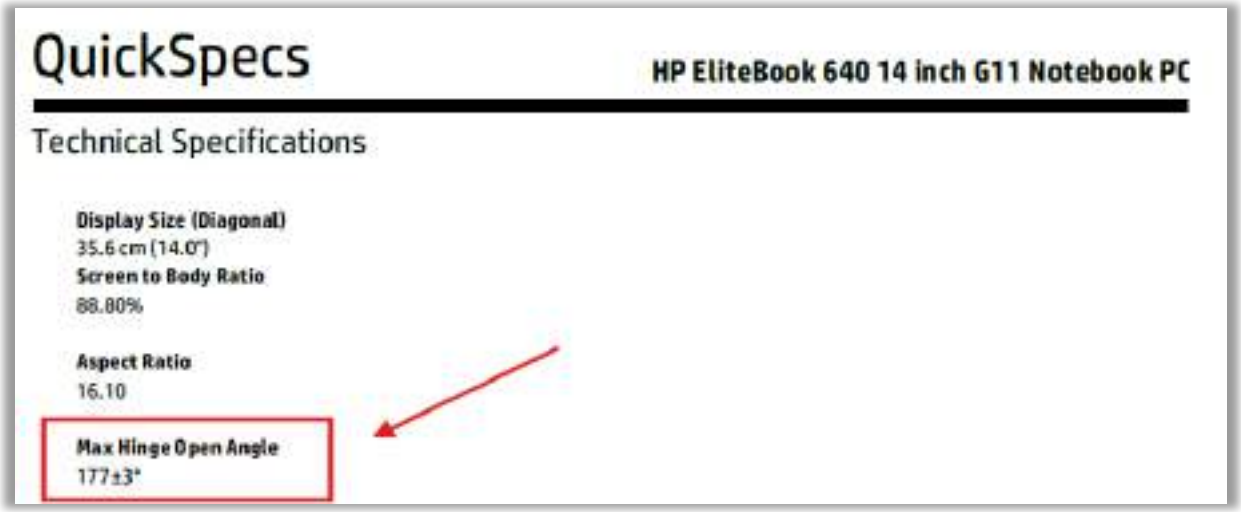
Nosso questionamento é:

Por que não é constado em seu CATÁLOGO OFICIAL este SSD?

Qual a garantia de que o equipamento será integrado em fábrica com este modelo de SSD, se nem o fabricante coloca em seu catálogo?

No arquivo enviado intitulado *"N16683-A - (With Specification) - For Torino"* não fica claro quais os equipamentos acompanham este SSD. Apenas é o catálogo do modelo SAMSUNG SSD PM9B1. Não comprovando que o notebook HP EliteBook 640 14 inch G11 Notebook PC será produzido com este SSD.

c. "14. Formato de manufatura e fonte de alimentação"



O edital solicita:

*"3. A dobradiça do equipamento, deve ser construída em metal, e com **articulação de 180º**;"*

O equipamento ofertado pela Recorrida foi o HP EliteBook 640 14 inch G11 Notebook PC. Em seu catálogo, conforme apresentado, temos o seguinte:

III) DO DIREITO:

Em uma análise fática, é possível concluir que a **RECORRIDA não cumpriu** com todas as especificações do Edital.

Certo é que a Administração Pública não pode quedar-se às vontades e aos interesses dos particulares, mas deve trabalhar em prol da satisfação dos interesses coletivos, visando garantir a melhor contratação possível para a Administração Pública, considerando a conjugação do pleno atendimento às exigências com o menor preço.

IV) DAS CONSIDERAÇÕES E REQUERIMENTOS FINAIS

Como demonstrado acima, a empresa **RECORRIDA não atende** aos requisitos mínimos necessários exigidos no edital.

Por todo exposto, a **E.R. SOLUÇÕES INFORMÁTICA LTDA** requer, respeitosamente, que sejam apreciados os concretos e irrefutáveis argumentos apresentados neste recurso, para ao final julgar totalmente procedente o Recurso proposto pela licitante **E.R. Soluções Informática LTDA**.

Isto é o que se impõe, pela estrita observância aos ditames legais e aos princípios basilares!

Termos em que, pede deferimento.

À
MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS

EDITAL DO PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP
ABERTURA: 29/06/2025 ÀS 10H00MIN.

CONTRARRAZÃO DO RECURSO DA EMPRESA E.R.

TORINO INFORMÁTICA LTDA., pessoa jurídica de direito privado, inscrita no Cadastro de Pessoa Jurídica do Ministério da Fazenda - CNPJ/MF - sob nº 03.619.767/0005-15, com sede na Avenida 600, S/N, QUADRA 15, MODULO 10, SETOR INDUSTRIAL, BAIRRO: TIMS, SERRA/ES, CEP 29161-399, por seu representante ao final indicado, vem com fulcro no artigo 4º, inciso XVIII da Lei nº 10.520/2002, apresentar suas

CONTRARRAZÕES DE RECURSO

Face o recurso apresentado pela empresa E. R. SOLUÇÕES INFORMÁTICA LTDA., no processo licitatório em epígrafe, com base nos fatos e fundamentos que passa a expor de maneira direta e sucinta para dar andamento ao processo.

Antes de apresentarmos as razões que justificam o presente recurso, é sobremodo assinalar que a Recorrente atua diuturnamente no ramo de licitações públicas há 23 anos, firmando contratos administrativos para fornecimento de equipamentos de informática e prestação de serviço nas diversas esferas do Poder Público, sendo uma constância a nossa participação em licitações públicas, sempre atuando com lisura, idoneidade e respeito às regras legais. Necessário registrar que esta Recorrida cumpriu com todos os requisitos previstos no edital, inclusive com a apresentação de toda a documentação exigida em Edital, tanto é verdade que o Sr. Pregoeiro decidiu por declarar vencedora esta Recorrida.

Primeiro ponto:

Em nenhum momento foi alterada a proposta, pois foi ofertado o equipamento HP 640 G11 que atende integralmente o que o edital solicita. A partir do momento que se vincula e incluir uma proposta, estamos cientes de todas as condições do edital e que a oferta abrange todos os requisitos do termo de referência.

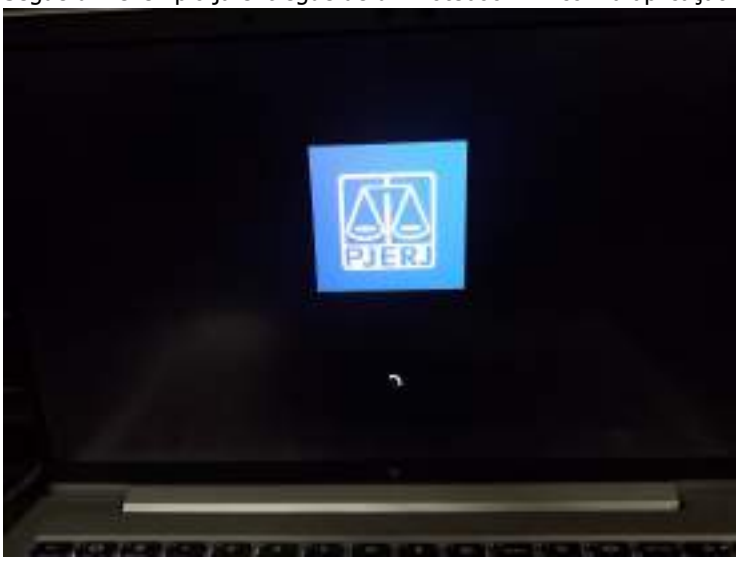
Nesse sentido a comissão de maneira exemplar, efetuou as diligências, somente para sanar dúvidas, não havendo em nenhum momento qualquer alteração do objeto ofertado.

BIOS

Se a ER está a tanto tempo no mercado, é fácil perceber a má fé, em querer afirmar: se é possível o serviço de logo na BIOS! Eles mesmos já participaram de vários processos em que também participamos onde o serviço além de ofertado foi entregue.

Isso demonstra clara insatisfação e desespero, além de despreparo em apontar de forma leviana entendimentos os quais não refletem a realidade e até mesmo o meio o qual atua, pois são serviços comuns em diversos processos no governo, que solicitam esses tipos de serviços.

Vale ressaltar, que são serviços comuns e são há anos solicitados por diversos órgãos, pois sabem que todos os equipamentos corporativos suportam tais customizações.



O trecho da carta do fabricante HP demonstra que os equipamentos suportam e podem ser realizadas customizações.

Declaramos ainda que, o produto **9Z0P1AV#TMP** – EliteBook 640 G11:

- Além de possuir equipamentos com configurações padrão de fábrica a HPI realiza customizações para atendimento as necessidades dos clientes. Para atendimento a este edital a CONTRATADA fará as solicitações de customização à HP de modo a atender plenamente as exigências edilícias. Estas customizações deverão estar descritas na proposta comercial emitida pela CONTRADA. As declarações a seguir, se aplicam aos modelos de equipamento mencionados, independentemente das customizações a serem realizadas;

Por fim, afirmamos na proposta que será entregue o serviço, caso seja solicitado.

Segue um exemplo já entregue de um notebook HP com a aplicação da logo na BIOS.

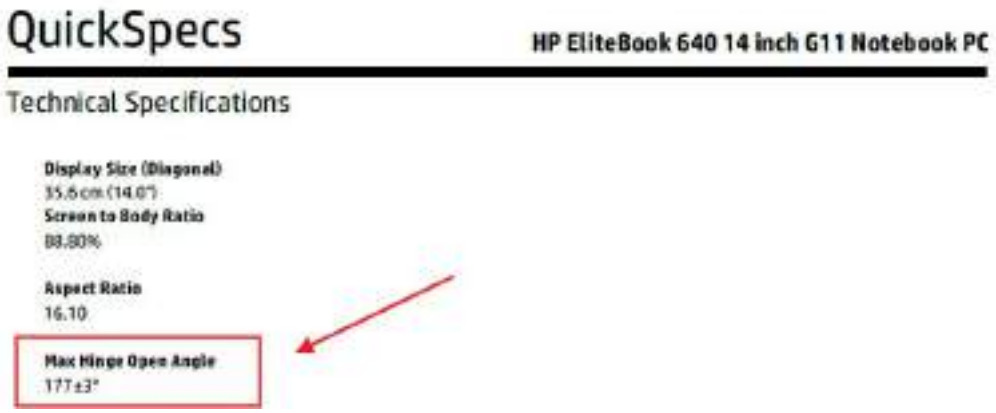
Sobre HD

Desde a nossa proposta inicial até a final, o SSD não foi alterado, que será entregue um SSD que atende ao solicitado.
É de conhecimento comum no mercado que os fabricantes utilizam diversos fornecedores para atender várias partes e peças de seus equipamentos, desde que eles atendam os requisitos mínimos.

Vamos ajudar a empresa ER com informação que mesmo os anos de mercado parece desconhecer, mas o que é mais provável, atua de forma sorrateira, em dizer sobre o mercado de SSD.

Os fabricantes dos equipamentos, não são indústria de SSD, eles capacitam e homologam itens para equiparem seus equipamentos, ou a LENOVO, DELL e HP produzem SSDs? Não, eles não são indústria desse componente, e sim, homologam esses componentes para seus equipamentos.

E mais, não existe 1 único fabricante de SSD no mercado para atender toda a demanda de produção de computadores e notebooks no mercado, assim, as Multinacionais como HP, DELL e LENOVO, adquirem de diversos fabricantes e homologam esses itens para seus equipamentos.



Não podemos prever o futuro no momento da proposta sem terem recebido os equipamentos, visto que todos os equipamentos quando forem entregues, podem serem vistoriados e conferidos se atendem ao solicitado.

Foi apresentado inclusive documento interno do Fabricante HP, com clara informação que o documento foi feito para a HP do componente SSD, com posterior comprovação de que o SSD é o homologado pela HP, e ele é utilizado em todos os modelos de equipamentos HP.

Isto é, comprovamos fielmente que o SSD é homologado pela HP, **e que o equipamento que será entregue atendendo todos os requisitos solicitados do SSD.**

Sobre a abertura do notebook.

Parece que a ER também precisa de ajuda a interpretar regras básicas de matemática e física, quando é colocado 177 +- 3, quer dizer que a tela chega a **180º (177+3).** Logo, atende ao solicitado.

Sobre o fingerprint.

Novamente, a empresa ER quer prever o futuro, sobre o que o equipamento possuirá na entrega, ou mesmo "tentam" adivinhar os nossos custos ou mesmo o que foi considerado ou não em nossa proposta.
Toda essa preocupação com os custos de nossa proposta, eles deveriam ser mais diligentes com a proposta deles mesmos, não com a dos outros fornecedores.

O catálogo do produto possui todas as configurações possíveis que ele pode ter, nesse sentido, **reafirmamos que o equipamento sim possuirá o leitor de impressão digital (fingerprint**), pois a partir do momento que ofertamos a proposta, aceitamos todas as condições do edital e do termo de referência.

Sobre a mochila.

Nossa proposta contempla a mochila que atende todos os requisitos.
Afinal, a mochila é um acessório do objeto principal notebook.
Mochilas do mercado corporativo atendem todos os requisitos solicitados.
Abaixo está a imagem e o detalhe da mochila, que será entregue.

Mochila

Mochila resistente e estruturada, com diversos compartimentos e excelente espaço interno.
Ideal para uso diário.
Medidas em cm: L28,0/H43,0/P23,0 (aproximadas).
Produzido em: nylon estruturado impermeável.
Forrada internamente em: Nylon resinado e verso almofadado.
Bolsos internos: 04 localizados dentro do bolso frontal menor, ideal para acesso rápido a itens pequenos.
Bolsos externos: 01 grande no verso para notebook, 01 em cada lateral em tela espumada, 01 em cada lateral em ziper, 02 frontais sendo o menor com sobre bolso em ziper e 01 superior.

Diante do exposto, solicitamos a reavaliação das alegações com base nas evidências documentais fornecidas e reiteramos nosso compromisso com a transparência e a excelência no cumprimento das obrigações contratuais.

Com o devido respeito, não há como prosperar o pedido formulado no recurso da E. R. SOLUÇÕES INFORMÁTICA LTDA., que conforme se está vendo pormenorizado ao longo desta contrarrazão, esta dissociada da veracidade dos fatos, e tem por objetivo claro e inequívoco tumultuar o presente certame, pois ao trazer "dúvidas" que não existem no mercado tecnológico em uma licitação de tecnologia com o suporte de uma equipe técnica capacitada, é, no mínimo, irresponsável, pois o processo licitatório está suspenso até decisão final desta D. Comissão, e ainda, estamos tendo que esclarecer conceitos básicos e fundamentais para qualquer técnico da área de informática, que deveriam fazer parte do cotidiano da RECORRENTE.

Sem maiores delongas, é evidente o objetivo único e exclusivo desta RECORRENTE em tumultuar o processo licitatório em questão trazendo à baila questionamentos tão estapafúrdios, como os apresentados por ela em sua peça recursal.

Assim, sem maior morosidade, em razão do quanto exposto e demonstrado, de rigor é o provimento da presente contrarrazão para manter a CLASSIFICAÇÃO desta TORINO, nos termos registrados no processo licitatório em epígrafe.

Não sobrevindo este entendimento, requer-se o encaminhamento para a Autoridade Superior competente, para que aprecie seu mérito, sendo esta a única forma de se alcançar a tão almejada Justiça!!!

OFÍCIO Nº 316.2025.CPL.1697802.2025.001317

Manaus, *na data da assinatura.*

Ao Senhor

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA

Chefe do Setor de Infraestrutura e Telecomunicação

Assunto: Análise de Propostas de Preços referente ao **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ SRP**.

Senhor Chefe,

Cumprimentando-o com o presente, informamos que tramita nesta Comissão Permanente de Licitação o Processo SEI n.º 2025.001317, referente ao **PREGÃO ELETRÔNICO N.º 94010/2025-CPL/MP/PGJ SRP,** cujo objeto é o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses*.

Isto posto, tendo sido aceita a proposta de preços para o Item 3 e habilitado o licitante **TORINO INFORMÁTICA LTDA.**, CNPJ (MF) n.º 03.619.767/0005-15 no sistema Compras.gov.br, oportunamente, registraram intenção de recurso os seguintes licitantes: a) **E.R. SOLUÇÕES INFORMÁTICA LTDA.**, CNPJ Nº 05.778.325/0005-47 (apresentou razões de recurso); b) **POSITIVO TECNOLOGIA S.A.**, CNPJ Nº 81.243.735/0009-03 (não registrou razões de recurso); e c) **TREER TECNOLOGY LTDA.** , CNPJ Nº 41.680.761/0001-19 (desistiu do cadastro das razões de recurso).

Por se tratar de tema técnico referente ao resultado das análises realizadas na documentação do Item 3, encaminho os autos em epígrafe a esse **Setor de Infraestrutura e Telecomunicação - SIET,** para **análise e manifestação** quanto às peças abaixo apresentadas em sede de recurso:

1. Razões Recursais - **E.R. SOLUÇÕES INFORMÁTICA LTDA.** , CNPJ Nº 05.778.325/0005-47 (doc. 1697794); e

2 . Contrarrazões Recursais - **TORINO INFORMÁTICA LTDA.** , CNPJ (MF) n.º 03.619.767/0005-15 (doc. 1697800).

A data limite para decisão no sistema é 25/08/2025. Nesse sentido,

solicito o retorno seja realizado até o dia 21/08/2025 para que seja emitida a decisão por parte deste Pregoeiro.

Atenciosamente,

Maurício Araújo Medeiros

OBJETO: Registro de preços para eventual fornecimento de equipamentos de informática, quais sejam, estações de trabalho e computadores portáteis, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.

1. Relatório

Trata-se de expediente encaminhado pela CPL, a respeito de recurso apresentado pela empresa **E.R. SOLUÇÕES INFORMÁTICA LTDA.**, CNPJ Nº 05.778.325/0005-47 (doc. 1697794), e contrarrazões recursais apresentado pela empresa **TORINO INFORMÁTICA LTDA.**, CNPJ (MF) n.º 03.619.767/0005-15 (doc. 1697800), para que este SIET analise e se manifeste tecnicamente sobre o tema.

2. Fundamentação

A equipe técnica deste SIET analisou as razões de recurso apresentadas pela empresa E.R. Soluções Informática Ltda., CNPJ nº 05.778.325/0005-47 (doc. 1697794), e as contrarrazões apresentadas pela empresa Torino Informática Ltda., CNPJ nº 03.619.767/0005-15 (doc. 1697800), conforme solicitado pela Comissão Permanente de Licitação.

A análise foi realizada tomando por base:

- As especificações técnicas constantes do Anexo de Especificações – Item 3 do edital;
- A documentação apresentada pela empresa Torino em atendimento às diligências promovidas pelo Pregoeiro;
- Os argumentos constantes nas razões recursais da E.R. e nas contrarrazões da Torino;
- A legislação aplicável, notadamente a Lei nº 14.133/2021, art. 64, e o Decreto nº 10.024/2019, art. 17, inciso VI, que autorizam a promoção de diligências destinadas a sanar falhas formais, desde que não alterem a substância da proposta nem impliquem em modificação de valores;
- O entendimento consolidado pelo Acórdão TCU nº 1211/2021 – Plenário, que admite a juntada de documentos comprobatórios de

condições já atendidas à época da proposta, desde que ausentes apenas por falha formal ou omissão involuntária.

Dessa forma, a avaliação técnica buscou verificar a aderência da proposta da empresa Torino aos requisitos do edital, com especial atenção aos pontos questionados pela E.R. (BIOS, unidade de armazenamento, articulação da tela, leitor biométrico, mochila de transporte), além de confirmar o atendimento dos demais requisitos principais (processador, memória RAM, conectividade, sistema operacional, webcam e softwares complementares).

3. Matriz de Aderência Técnica

Requisito editalício	Conformidade	Observações técnicas
BIOS – suporte a logotipo customizável de fábrica (item 2.13)	**Atende**	O modelo ofertado dispõe de recurso de customização corporativa de BIOS, já utilizado em fornecimentos anteriores. Documentação apresentada pelo fabricante HP confirma a aderência.
Unidade de armazenamento – SSD M.2 PCIe 4.0 NVMe ≥ 256GB, ≥ 1200 MB/s, instalado de fábrica e homologado (item 5)	**Atende**	Foi apresentado datasheet do modelo Samsung PM9B1, homologado pela HP. Considerando que o fabricante pode adotar diferentes fornecedores homologados, será realizada a verificação pela equipe técnica (fiscalização) no recebimento para assegurar o atendimento integral ao requisito.
Articulação da tela em 180° (item 14.3)	**Atende**	A especificação técnica do fabricante indica ângulo de abertura de 177° ± 3°, compatível com a exigência de 180°.
Leitor biométrico integrado (item 14.6)	**Atende**	Embora o catálogo do fabricante apresente o recurso como opcional, a empresa declarou o atendimento integral ao edital.
Webcam integrada, FHD, com mecanismo de privacidade (item 13)	**Atende**	O modelo ofertado contempla webcam compatível com as exigências, sem ressalvas.
Mochila/case de transporte (item 18.2)	**Atende**	O acessório teve sua especificação detalhada em diligência e foi aceito como em conformidade com o edital.

Requisito editalício	Conformidade	Observações técnicas
Demais requisitos principais (processador ≥ 6 núcleos, RAM 16GB DDR5, sistema operacional Windows 11 Pro OEM, conectividade, portas USB/HDMI, Wi-Fi 6, bateria, softwares de controle e certificações)	**Atende**	Documentação apresentada confirma a aderência aos requisitos principais do Termo de Referência.

4. Conclusão

Todos os itens questionados em recurso apresentaram conformidade, alguns após diligências realizadas junto ao fornecedor pela equipe técnica do MPAM. Não foram constatadas alterações substanciais na proposta ou de valores com as diligências.

É o parecer.

Manaus, 25 de agosto de 2025.

FRANCISCO ELVISLÂNIO PEREIRA

DECISÃO Nº 35.2025.CPL.1707654.2025.001317

RAZÕES
RECURSAIS APRESENTADAS PELA EMPRESA LICITANTE **E. R. SOLUÇÕES INFORMÁTICA LTDA.**, CNPJ Nº 05.778.325/0005-47, NO INTERESSE DO PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ SRP. PRESSUPOSTOS SUBJETIVOS (SUCUMBÊNCIA, LEGITIMIDADE, INTERESSE DE AGIR) ATENDIDOS. PRESSUPOSTOS OBJETIVOS (A EXISTÊNCIA DE UM ATO ADMINISTRATIVO, TEMPESTIVIDADE E FUNDAMENTAÇÃO) ATENDIDOS. MANTER A DECISÃO DE ACEITAÇÃO DE PROPOSTA E HABILITAÇÃO DA VENCEDORA PARA O ITEM 3.

1. DA DECISÃO

Analisados os aspectos objetivos dos recursos administrativos dirigidos, este **PREGOEIRO**, com fundamento no artigo 60, § 1.º, do ATO PGJ N.º 008/2024, decide:

a) **Receber** e **conhecer** do recurso interposto pela empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.**, inscrita no CNPJ Nº 05.778.325/0005-47, no interesse do Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ, pelo qual se busca o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses*, conforme especificações e condições constantes do Edital do certame e seus anexos;

b) Após exame das razões recursais apresentadas pelas empresas *susomencionada* no ***subitem "a",*** este Pregoeiro informa as motivações que culminaram nas decisões outrora prolatadas, para, no mérito, **NEGAR PROVIMENTO** ao recurso interposto pela empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.**, inscrita no CNPJ Nº 05.778.325/0005-47**,** nos termos artigo 165 da Lei n.º 14.133/2021.

2. DO RELATÓRIO

Trata-se de recurso administrativo interposto pela empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.** , inscrita no CNPJ Nº 05.778.325/0005-47 em sede do Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ, pelo qual se busca busca o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses*, conforme especificações e condições constantes do Edital do certame e seus anexos.

2.1. Da Manifestação de Intento Recursal

Durante a sessão pública do certame em epígrafe, a aludida empresa irresignada manifestou intenção de apresentar recurso:

2.1.1. E. R. SOLUÇÕES INFORMÁTICA LTDA. , inscrita no CNPJ Nº 05.778.325/0005-47**:**

> Intenção de recurso
>
> Intenção de recurso do julgamento de propostas registrada às 11:17 de 01/08/2025
>
> Intenção de recurso da habilitação de propostas registrada às 11:40 de 05/08/2025

Nessa senda, após a fase de habilitação de propostas, foi aberto, em 05/08/2025, o prazo legal de 3 (três) dias úteis para oferecimento das razões de recurso, logo, **com data final até o dia 08 de agosto de 2025**, às 23h59min.

2.2. Das Razões de Recurso

2.2.1. E. R. SOLUÇÕES INFORMÁTICA LTDA. , inscrita no CNPJ Nº 05.778.325/0005-47 **(doc. 1697794):**

No dia 08/08/2025, a empresa irresignada anexou ao Sistema Compras.gov suas razões recursais, as quais foram apensadas aos autos e também disponibilizadas no Portal do MP-AM, em inteiro teor, na página eletrônica de acompanhamento deste certame (pelo link PE 94010/2025/CPL/MP/PGJ-SRP – Estações de trabalho e computadores portáteis), arguindo, em suma, supostas irregularidades na proposta de preços da empresa recorrida - TORINO INFORMÁTICA LTDA., CNPJ Nº 03.619.767/0005-15, bem como na aceitação da oferta vencedora, conforme transcrição abaixo:

> **III) DO DIREITO:**
>
> Em uma análise fática, é possível concluir que a

> **RECORRIDA não cumpriu** com todas as especificações do Edital. Certo é que a Administração Pública não pode quedar-se às vontades e aos interesses dos particulares, mas deve trabalhar em prol da satisfação dos interesses coletivos, visando garantir a melhor contratação possível para a Administração Pública, considerando a conjugação do pleno atendimento às exigências com o menor preço.
>
> **IV) DAS CONSIDERAÇÕES E REQUERIMENTOS FINAIS**
>
> Como demonstrado acima, a empresa **RECORRIDA não atende** aos requisitos mínimos necessários exigidos no edital.
>
> Por todo exposto, a **E.R. SOLUÇÕES INFORMÁTICA LTDA** requer, respeitosamente, que sejam apreciados os concretos e irrefutáveis argumentos apresentados neste recurso, para ao final julgar totalmente procedente o Recurso proposto pela licitante E.R. Soluções Informática LTDA.
>
> Isto é o que se impõe, pela estrita observância aos ditameslegais e aos princípios basilares!
>
> Termos em que, pede deferimento.
>
> Julia Barbosa Avelar
>
> Vendas - Governo

2.3. Das Contrarrazões

O prazo final estabelecido e apresentado durante a Sessão realizada no Sistema Compras.gov, para todos os interessados, foi o dia 14/08/2025, até 23h59min.

Sendo assim, observada a data final, a empresa **TORINO INFORMÁTICA LTDA.** , inscrita no CNPJ sob o nº 03.619.767/0005-15, apresentou, pontualmente, suas CONTRARRAZÕES (doc. 1697800), as quais foram apensadas aos autos e também disponibilizadas, em inteiro teor, na página eletrônica de acompanhamento deste certame (pelo link PE 94010/2025/CPL/MP/PGJ-SRP – Estações de trabalho e computadores portáteis).

No intuito de refutar os argumentos apresentados pela empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.** , inscrita no CNPJ Nº 05.778.325/0005-47 **(doc. 1697794)**, a RECORRIDA solicita, em suma:

> [...]
>
> Com o devido respeito, não há como prosperar o pedido formulado no recurso da E. R. SOLUÇÕES INFORMÁTICA LTDA., que conforme se está vendo pormenorizado ao longo desta contrarrazão, esta dissociada da veracidade dos fatos, e tem por objetivo claro e inequívoco tumultuar o presente certame, pois ao trazer “dúvidas” que não existem no mercado tecnológico em uma licitação de tecnologia com o suporte de uma equipe técnica capacitada, é, no mínimo, irresponsável, pois o processo

> licitatório está suspenso até decisão final desta D. Comissão, e ainda, estamos tendo que esclarecer conceitos básicos e fundamentais para qualquer técnico da área de informática, que deveriam fazer parte do cotidiano da RECORRENTE.
>
> Sem maiores delongas, é evidente o objetivo único e exclusivo desta RECORRENTE em tumultuar o processo licitatório em questão trazendo à baila questionamentos tão estapafúrdios, como os apresentados por ela em sua peça recursal.
>
> Assim, sem maior morosidade, em razão do quanto exposto e demonstrado, de rigor é o provimento da presente contrarrazão para manter a CLASSIFICAÇÃO desta TORINO, nos termos registrados no processo licitatório em epígrafe.
>
> Não sobrevindo este entendimento, requer-se o encaminhamento para a Autoridade Superior competente, para que aprecie seu mérito, sendo esta a única forma de se alcançar a tão almejada Justiça!!!
>
> Rodrigo do Amaral Rissio
> RG: 27.9XX.XXX-6 SSP/SP
> Sócio/ Procurador

É o que, em síntese, cabe relatar.

3. DAS RAZÕES DE DECIDIR

Vale ressaltar, em caráter preliminar, que o Pregoeiro conduziu o certame sob os parâmetros dos princípios e regras legais que disciplinam o procedimento licitatório, no presente caso, estabelecidos na **Lei nº. 14.133/2021** (Nova Lei de Licitações e Contratos Administrativos).

Nesse sentido, lembremos que o dever administrativo de adotar critérios claros, objetivos e legais durante a análise das documentações dos concorrentes em uma licitação decorre da obrigação da Administração Pública manter plena transparência de seus atos, a fim de definir qual a licitante reúne condições de qualificação técnica, jurídica, fiscal e econômica indispensáveis à garantia do cumprimento de seus deveres, sem se desviar da observância necessária do princípio da igualdade entre os licitantes, estimulando o caráter competitivo da licitação, constante no artigo 5º da Lei n.º 14.133/2021, abaixo disposto:

> Art. 5º Na aplicação desta Lei, serão observados os **princípios da legalidade, da impessoalidade, da moralidade, da publicidade, da eficiência, do interesse público, da probidade administrativa, da igualdade, do planejamento, da transparência, da eficácia, da segregação de funções, da motivação, da vinculação ao edital, do julgamento objetivo, da segurança jurídica, da razoabilidade, da competitividade, da proporcionalidade, da celeridade, da economicidade e do**

desenvolvimento nacional sustentável, assim como as disposições do Decreto-Lei nº 4.657, de 4 de setembro de 1942 (Lei de Introdução às Normas do Direito Brasileiro).

Dentre esses princípios, no caso em foco, destaca-se o da ***vinculação ao instrumento convocatório,*** a um, porque esse primado serviu de lastro para toda a construção do inconformismo da licitante vencida; e, a duas, porque corresponde exatamente ao fundamento primeiro das providências adotadas pelo Pregoeiro do certame. Portanto, esse será o norte para as ponderações e conclusões expostas no presente *decisum*, a seguir delineadas.

Assim, passemos à análise de mérito.

Da análise das impugnações colacionadas, infere-se que as solicitações referem-se, especificamente, às disposições estabelecidas no **Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317**, Anexo I e parte integrante do Edital do **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ-SRP.** Nesse sentido, as peças foram encaminhadas ao setor técnico demandante - Setor de Infraestrututa e Telecomunicações - SIET, que se manifestou de forma sintética, porém, abrangente, nos termos do **Parecer Nº 28.2025.SIET.1701819.2025.001317**, transcrito abaixo:

Parecer Nº 28.2025.SIET.1701819.2025.001317

1. <u>Relatório</u>

Trata-se de expediente encaminhado pela CPL, a respeito de recurso apresentado pela empresa **E.R. SOLUÇÕES INFORMÁTICA LTDA.**, CNPJ Nº 05.778.325/0005-47 (doc. 1697794), e contrarrazões recursais apresentado pela empresa **TORINO INFORMÁTICA LTDA.**, CNPJ (MF) n.º 03.619.767/0005-15 (doc. 1697800), para que este SIET analise e se manifeste tecnicamente sobre o tema.

2. <u>Fundamentação</u>

A equipe técnica deste SIET analisou as razões de recurso apresentadas pela empresa E.R. Soluções Informática Ltda., CNPJ nº 05.778.325/0005-47 (doc. 1697794), e as contrarrazões apresentadas pela empresa Torino Informática Ltda., CNPJ nº 03.619.767/0005-15 (doc. 1697800), conforme solicitado pela Comissão Permanente de Licitação.

A análise foi realizada tomando por base:

2.1. As especificações técnicas constantes do Anexo de Especificações – Item 3 do edital;

2.2. A documentação apresentada pela empresa Torino em atendimento às diligências promovidas pelo Pregoeiro;

2.3. Os argumentos constantes nas razões recursais da E.R. e nas contrarrazões da Torino;

2.4. A legislação aplicável, notadamente a Lei nº 14.133/2021, art. 64, e o Decreto nº 10.024/2019, art. 17, inciso VI, que autorizam a promoção de diligências destinadas a sanar falhas formais, desde que não

alterem a substância da proposta nem impliquem em modificação de valores;

2.5. O entendimento consolidado pelo Acórdão TCU nº 1211/2021 – Plenário, que admite a juntada de documentos comprobatórios de condições já atendidas à época da proposta, desde que ausentes apenas por falha formal ou omissão involuntária.

Dessa forma, a avaliação técnica buscou verificar a aderência da proposta da empresa Torino aos requisitos do edital, com especial atenção aos pontos questionados pela E.R. (BIOS, unidade de armazenamento, articulação da tela, leitor biométrico, mochila de transporte), além de confirmar o atendimento dos demais requisitos principais (processador, memória RAM, conectividade, sistema operacional, webcam e softwares complementares).

3. Matriz de Aderência Técnica

Requisito editalício	Conformidade	Observações técnicas
BIOS – suporte a logotipo customizável de fábrica (item 2.13)	**Atende**	O modelo ofertado dispõe de recurso de customização corporativa de BIOS, já utilizado em fornecimentos anteriores. Documentação apresentada pelo fabricante HP confirma a aderência.
Unidade de armazenamento – SSD M.2 PCIe 4.0 NVMe ≥ 256GB, ≥ 1200 MB/s, instalado de fábrica e homologado (item 5)	**Atende**	Foi apresentado datasheet do modelo Samsung PM9B1, homologado pela HP. Considerando que o fabricante pode adotar diferentes fornecedores homologados, será realizada a verificação pela equipe técnica (fiscalização) no recebimento para assegurar o atendimento integral ao requisito.
Articulação da tela em 180° (item 14.3)	**Atende**	A especificação técnica do fabricante indica ângulo de abertura de 177° ± 3°, compatível com a exigência de 180°.
Leitor biométrico integrado (item 14.6)	**Atende**	Embora o catálogo do fabricante apresente o recurso como opcional, a empresa declarou o atendimento integral ao edital.
Webcam integrada, FHD, com mecanismo de privacidade (item 13)	**Atende**	O modelo ofertado contempla webcam compatível com as exigências, sem ressalvas.
Mochila/case de transporte (item 18.2)	**Atende**	O acessório teve sua especificação detalhada em diligência e foi aceito como em conformidade com o edital.
Demais requisitos principais (processador ≥ 6 núcleos, RAM 16GB DDR5, sistema operacional Windows 11 Pro OEM, conectividade, portas USB/HDMI, Wi-Fi 6, bateria, softwares de controle e certificações)	**Atende**	Documentação apresentada confirma a aderência aos requisitos principais do Termo de Referência.

4. <u>Conclusão</u>

Todos os itens questionados em recurso apresentaram conformidade, alguns após diligências realizadas junto ao fornecedor pela equipe técnica do MPAM. Não foram constatadas alterações substanciais na proposta ou de valores com as diligências.

É o parecer.

Manaus, 25 de agosto de 2025.

FRANCISCO ELVISLÂNIO PEREIRA
Agente de apoio - Manutenção/Informática

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA
Chefe do Setor de Infraestrututa e Telecomunicações

Fundamentado no parecer exposto acima, afere-se que não há divergência técnica quanto ao Item 3 ofertado e as exigências do Instrumento Convocatório referentes ao item, não se fazendo necessárias maiores digressões.

Quanto às oportunidades concedidas à recorrida, relembro que o Edital do certame prevê, em seu subitem 10.7. c/c 10.7.1., o seguinte:

> **10.7. Erros no preenchimento da planilha não constituem motivo para a desclassificação da proposta.** A planilha poderá ser ajustada pelo fornecedor, no prazo indicado pelo sistema, desde que não haja majoração do preço.
>
> 10.7.1. Verificada a presença de erros sanáveis na proposta de preços, **o Pregoeiro ou Administração poderá realizar diligência junto à Licitante para a devida correção apenas das falhas apontadas, <u>limitado a 3 (três) oportunidades</u>**, vedada a juntada de documento novo.

Nesse sentido, as oportunidades foram concedidas com lastro no Instrumento Convocatório, bem como as alterações, em sede de diligências, de acordo com o parecer técnico supracitado, não representaram alteração da proposta vencedora, mas esclarecimento e complementação das informações anteriormente apresentadas, sem majoração de preço.

Ante todo o exposto, as razões de irresignação da empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.** , inscrita no CNPJ Nº 05.778.325/0005-47, não tem como progredir, pois restaram esvaídas de quaisquer lastros fáticos e/ou jurídicos capazes de fazer valer sua vontade, não havendo, portanto, que se falar em reconsideração da decisão de **<u>aceitação da proposta de preços</u>** e **<u>habilitação</u>** da empresa **TORINO INFORMÁTICA LTDA.** , inscrita no CNPJ sob o nº 03.619.767/0005-15 para o Item 3, conforme demonstrado na presente peça.

4. DA CONCLUSÃO

Portanto, pelos fundamentos expostos, por entender que os requisitos e princípios que permeiam os atos da Administração Pública foram devidamente observados, este subscrevente decide:

a) **NEGAR provimento** aos recursos interpostos pelas empresas **E. R. SOLUÇÕES INFORMÁTICA LTDA.** , inscrita no CNPJ Nº 05.778.325/0005-47, referente ao Item 3 do Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ SRP, a fim de dar seguimento ao processo, nos termos do artigo 165, da Lei nº. 14.133/2021;

Desta feita, os autos devem ser submetidos à análise e manifestação do ilustre **Ordenador de Despesas**, a fim de que, caso assim entenda, mantenha a decisão proferida por este Pregoeiro, segundo inteligência do §2º, do artigo 165, da Lei nº. 14.133/2021.

Manaus, 01 de setembro de 2025.

Maurício Araújo Medeiros

Pregoeiro - PORTARIA 606/2025/SUBADM

Documento assinado eletronicamente por **Maurício Araújo Medeiros**, **Membro da Comissão Permanente de Licitação - CPL**, em 01/09/2025, às 12:48, conforme art. 1º, III, "b", da Lei 11.419/2006.

A autenticidade do documento pode ser conferida no link http://sei.mpam.mp.br/sei/controlador_externo.php?acao=documento_conferir&id_orgao_acesso_externo=0 informando o código verificador **1707654** e o código CRC **F7D2F4C8**.

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - Bairro Nova Esperança - CEP 69037-473 - Manaus - AM - www.mpam.mp.br

RELATÓRIO DE LICITAÇÃO Nº 30.2025.CPL.1707664.2025.001317

RELATÓRIO CIRCUNSTANCIADO REFERENTE AO PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ/SRP

PROCESSO SEI Nº 2025.001317

Excelentíssimo Senhor Subprocurador-Geral de Justiça para Assuntos Administrativos,

O Pregoeiro, senhor **Maurício Araújo Medeiros**, designado por força da PORTARIA 606/2025/SUBADM, de 04/06/2025 (doc. 1640921), vem apresentar e submeter à apreciação de Vossa Excelência o **relatório circunstanciado parcial, referente ao item 3** do **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ/SRP**, tipo **MENOR PREÇO POR ITEM**, concernente ao **Processo SEI N.º 2025.001317**, que tem por objeto o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.*

1. DA EVOLUÇÃO DOS AUTOS

A evolução dos autos ocorreu conforme descrição e datas constantes n o **Histórico do Processo 2025.001317,** disponível para consulta na rotina "Consultar Andamento".

2. DA PUBLICIDADE

O Aviso da Licitação foi publicado: no *Compras.gov*, em 11/06/2025 (doc. 1677171); no matutino local “Jornal do Commercio”, Edição n.º 44.318, de 12/06/2025 (doc. 1677170); no Diário Oficial Eletrônico do Ministério Público do Estado do Amazonas – DOMPE, Edição n.º 3101, no dia 11/06/2025 (doc. 1648705) e no sítio institucional do MPE/AM (www.mpam.mp.br).

3. DA SESSÃO PÚBLICA

3.1. Do Credenciamento – Os licitantes credenciaram-se na Secretaria de Logística e Tecnologia de Informação – SLTI, do Ministério do Planejamento, Orçamente e Gestão, através das regras do sistema *Compras.gov*, no sítio eletrônico https://www.gov.br/compras/pt-br.

3.2. Da Proposta – As propostas foram enviadas pelos licitantes, através da internet, desde 13/06/2025 até a data e hora marcadas para a abertura da sessão, a saber, dia 30/06/2025, às 10h (horário de Brasília/DF).

3.3. Da Fase de Lances – Iniciada a disputa, os interessados tiveram a oportunidade de propor, em lances, condições mais favoráveis que as primeiras, o que ocorreu de fato, encerrando-se a fase com propostas mais vantajosas para a Administração, conforme registrado nos **Termos de Julgamento da Sessão** (doc. 1676291), para o Item 1; **Termos de Julgamento da Sessão** (doc. 1676292), para o Item 2; e **Termos de Julgamento da Sessão** (doc. 1676293), para o Item 3.

3.4. Da Aceitação das Propostas – Logo em seguida, o Pregoeiro convocou os licitantes mais bem colocadas na ordem de classificação dos lances, para envio de suas propostas ajustadas aos seus últimos lances, acompanhadas dos documentos complementares, para análise.

Uma vez observado o cumprimento dos prazos fixados e, também, dos aspectos formais reclamados pela Instituição, e diante da necessidade de análise técnica das propostas apresentadas, foram os documentos submetidos ao exame d o **Setor de Infraestrutura e Telecomunicação - SIET,** para análise e manifestação, nos termos do item 10.2 do instrumento convocatório (doc. 1647931).

Após algumas desclassificações de propostas, nos termos expostos nos **Termos de Julgamento da Sessão** supramencionados, com base nas análises técnicas realizadas pelo **Setor de Infraestrutura e Telecomunicação - SIET (**Parecer Nº 26.2025.SIET.1679784.2025.001317, Parecer Nº 92.2025.DTIC.1683372.2025.001317 e Parecer Nº 27.2025.SIET.1686055.2025.001317 para o Item 3), o Pregoeiro, com auxílio da equipe de apoio, promoveu à **aceitação** da seguinte proposta apresentada pelo licitante **TORINO INFORMÁTICA LTDA.**, CNPJ (MF) n.º 03.619.767/0005-15, abaixo elencada:

- **Item 3 (doc's. 1685870)** no Valor Unitário de **R$ 8.250,00** (*oito mil duzentos e cinquenta reais*) e Valor Total de **R$ 2.475.000,00** (*dois milhões quatrocentos e setenta e cinco mil reais*)**.**

3.5. Da Habilitação – Dando regular prosseguimento ao feito, o Pregoeiro e equipe de apoio passaram à verificação dos documentos de habilitação do Licitante acima destacada (doc. 1711813).

Desta feita, procedeu-se à fase de julgamento das condições de habilitação (doc. 1676241), utilizando-se, inclusive, das informações do **Sistema de Cadastro de Fornecedores – SICAF** do Compras.gov, verificando-se, sobretudo, as condições do licitante quanto à ausência de sanções pela Administração Pública, não sendo constatados registros que indicassem restrições à contratação.

Sobre o exame das condições do licitante, verificou-se à ausência de sanções pela Administração Pública, no SICAF do *Comprasnet*, bem como na Relação de Empresas com Sanção Administrativa em Vigor, do **TRIBUNAL DE CONTAS DO ESTADO DO AMAZONAS – TCE**, na Relação de Licitantes Inidôneos do **TRIBUNAL DE CONTAS DA UNIÃO – TCU,** na Lista de Empresas Suspensas/Impedidas da **COMISSÃO GERAL DE LICITAÇÃO DO ESTADO DO AMAZONAS – CGL** , no Cadastro Nacional de Empresas Inidôneas e Suspensas (CEIS), da **CONTROLADORIA GERAL DA UNIÃO – CGU**, no Cadastro Nacional de Condenações Civis por Ato de Improbidade Administrativa (CNCIA) do **CONSELHO NACIONAL DE JUSTIÇA – CNJ** e na Relação de pessoas jurídicas impedidas de contratar com a Administração Pública da **SEFAZ-AM**, **não** sendo constatados registros que indicassem restrições à contratação.

Além disso, o Pregoeiro e equipe de apoio verificaram a autenticidade das certidões negativa (ou positiva com efeitos de negativa) de débitos mediante SICAF, bem como da de ausência de distribuição de feitos de falência ou recuperação judicial, junto à Justiça Estadual de domicílio do licitante. De igual modo, procedeu-se com os demais documentos de habilitação das interessadas que permitiam a convalidação eletrônica, conforme consta dos autos.

Cabe registrar que, com o objetivo de atender aos princípios de simplificação e racionalização de serviços públicos digitais, presentes nas Leis nº 12.965/14 e nº 13.460/18, e no Decreto nº 8.638/16, o **Tribunal de Contas da União** passou a disponibilizar ferramenta que permite a consulta consolidada de pessoas jurídicas que reúne, em relatório único, os Licitantes Inidôneos do TCU, CNIA - Cadastro Nacional de Condenações Cíveis por Ato de Improbidade Administrativa e Inelegibilidade do CNJ; Cadastro Nacional de Empresas Inidôneas e Suspensas e CNEP - Cadastro Nacional de Empresas Punidas ambos do Portal da Transparência. Assim, a Pregoeiro promoveu a juntada da **CONSULTA CONSOLIDADA DE PESSOA JURÍDICA** do licitante aos autos.

Isto posto, concluída a análise dos documentos habilitatórios, conforme item 11 do instrumento convocatório, procedeu-se à **HABILITAÇÃO** do licitante **TORINO INFORMÁTICA LTDA.** , CNPJ (MF) n.º 03.619.767/0005-15, declarando-a vencedora, nos termos do subitem 11.32 do Instrumento Convocatório.

4. DOS RECURSOS

Passo seguinte, ao encerrar a sessão pública, este Pregoeiro constatou que o licitante **E. R. SOLUÇÕES INFORMÁTICA LTDA.** , inscrita no CNPJ Nº 05.778.325/0005-47 manifestou intenção de interpor recurso em relação ao **Item 3**.

Em resumo, pelos fundamentos expostos na **Decisão Nº 35.2025.CPL.1707654.2025.001317,** este subscrevente decidiu:

a) Após exame das razões recursais apresentadas pelas empresas *susomencionada* no ***subitem "a",*** este Pregoeiro informa as motivações que culminaram nas decisões outrora prolatadas, para, no mérito, **NEGAR PROVIMENTO** ao recurso interposto pela empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.** , inscrita no CNPJ Nº 05.778.325/0005-47**,** nos termos artigo 165 da Lei n.º 14.133/2021.

5. DA ECONOMICIDADE

Destaque-se que o valor estimado para aquisição do objeto deste certame foi de **R$ 16.631.944,90** (*dezesseis milhões, seiscentos e trinta e um mil novecentos e quarenta e quatro reais e noventa centavos*), conforme **Quadro - Resumo do Processo de Compra Nº 195.2025.SCOMS.1609045.2025.001317**.

Por se tratar de um relatório parcial da sessão do **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ/SRP** referente ao Item 3, considerando o valor total estimado para a contratação do mencionado item, temos o total de **R$ 3.615.957,00** (*três milhões, seiscentos e quinze mil novecentos e cinquenta e sete reais*), conforme o **Quadro - Resumo do Processo de Compra Nº 195.2025.SCOMS**.

Considerando o valor total a ser adjudicado para o Item 3 de **R$ 2.475.000,00** (dois milhões quatrocentos e setenta e cinco mil reais)**,** a realização deste Pregão significou uma **economia parcial de R$ 1.140.957** (*um milhão, cento e quarenta mil novecentos e cinquenta e sete reais*), ou seja, uma **redução de aproximadamente 31,55% do valor parcial estimado pela Administração**.

Por fim, considerando o Relatório de Licitação Nº 23.2025.CPL.1676202.2025.001317 e o presente relatório, o valor total a ser adjudicado para o objeto do **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ/SRP (Itens 1, 2, 3 e 4)**, no montante de **R$ 13.709.800,00** (*treze milhões, setecentos e nove mil e oitocentos reais*), a realização deste Pregão significou uma **economia total de R$ 2.922.144,90** (*dois milhões, novecentos e vinte e dois mil cento e quarenta e quatro reais e noventa centavos*), ou seja, uma **redução de aproximadamente 17,86% do valor total estimado pela Administração**.

É o Relatório.

Manaus, 01 de setembro de 2025.

DECISÃO Nº 7.2025.01AJ-SUBADM.1713818.2025.001317

PROCESSO N° 2025.001317

ASSUNTO: Recurso interposto pela empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.**, inscrita no CNPJ Nº 05.778.325/0005-47, no interesse do Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ, pelo qual se busca o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses*, conforme especificações e condições constantes do Edital do certame e seus anexos

I. DO RELATÓRIO

Trata-se do **Ofício 41 (1566526),** de lavra do **Sr. Eudo de Lima Assis Júnior**, **Diretor(a) de Tecnologia de Informação e Comunicação - DTIC,** por onde são encaminhados o **Estudo Técnico Preliminar - ETP 2 (1525120)** e o **Termo de Referência 2 (1525128),** que tem por objeto a formação de registro de preços para eventual fornecimento de equipamentos de informática: **estações de trabalho e computadores portáteis**, com garantia e assistência técnica on-site, visando atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 (doze) meses**,** conforme especificações, quantitativos e prazos contidos no documento. A unidade técnica, informa ainda que no "*planejamento da contratação foram* ***identificados a necessidade de renovação média de 57% do parque computacional****, considerando sua obsolescência, a supressão do déficit dos dispositivos alimentadores de energia, bem como o atendimento de demandas específicas explanadas no Estudo Técnico Preliminar - ETP Nº 2.2025.DTIC.1525120.2025.001317*".

Neste momento processual, a Comissão Permanente de Licitação acostou aos autos o **Relatório de Licitação 30 (1707664) , relatório circunstanciado parcial, referente ao item 3** d o **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ/SRP**, tipo **MENOR PREÇO POR ITEM**, concernente ao **Processo SEI N.º 2025.001317**, que tem por objeto o *registro de preços para eventual fornecimento de equipamentos de informática, quais sejam,* ***estações de***

***trabalho e computadores portáteis**, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses.*

Informa o Pregoeiro que, ao encerrar a sessão pública, a licitante **E. R. SOLUÇÕES INFORMÁTICA LTDA.** , inscrita no CNPJ Nº 05.778.325/0005-47, manifestou intenção de interpor recurso em relação ao **Item 3**.

Das razões recursais

No dia 08/08/2025, a empresa irresignada anexou ao Sistema Compras.gov suas razões recursais, as quais foram apensadas aos autos e também disponibilizadas no Portal do MP-AM, em inteiro teor, na página eletrônica de acompanhamento deste certame (pelo link PE 94010/2025/CPL/MP/PGJ-SRP – Estações de trabalho e computadores portáteis), arguindo, em suma, supostas irregularidades na proposta de preços da empresa recorrida - TORINO INFORMÁTICA LTDA., CNPJ Nº 03.619.767/0005-15, bem como na aceitação da oferta vencedora, conforme transcrição abaixo:

> **III) DO DIREITO:**
>
> Em uma análise fática, é possível concluir que a **RECORRIDA não cumpriu** com todas as especificações do Edital. Certo é que a Administração Pública não pode quedar-se às vontades e aos interesses dos particulares, mas deve trabalhar em prol da satisfação dos interesses coletivos, visando garantir a melhor contratação possível para a Administração Pública, considerando a conjugação do pleno atendimento às exigências com o menor preço.
>
> **IV) DAS CONSIDERAÇÕES E REQUERIMENTOS FINAIS**
>
> Como demonstrado acima, a empresa **RECORRIDA não atende** aos requisitos mínimos necessários exigidos no edital.
>
> Por todo exposto, a **E.R. SOLUÇÕES INFORMÁTICA LTDA** requer, respeitosamente, que sejam apreciados os concretos e irrefutáveis argumentos apresentados neste recurso, para ao final julgar totalmente procedente o Recurso proposto pela licitante E.R. Soluções Informática LTDA.
>
> Isto é o que se impõe, pela estrita observância aos ditameslegais e aos princípios basilares!
>
> Termos em que, pede deferimento.
>
> Julia Barbosa Avelar
>
> Vendas - Governo

Das Contrarrazões

Sendo assim, observada a data final, a empresa **TORINO INFORMÁTICA LTDA.** , inscrita no CNPJ sob o nº 03.619.767/0005-15, apresentou, pontualmente, suas CONTRARRAZÕES (doc. 1697800), as quais foram apensadas aos autos e também disponibilizadas, em inteiro teor, na página eletrônica de acompanhamento deste certame (pelo link PE 94010/2025/CPL/MP/PGJ-SRP – Estações de trabalho e computadores portáteis), abaixo detalhadas:

> [...]
>
> Com o devido respeito, não há como prosperar o pedido formulado no recurso da E. R. SOLUÇÕES INFORMÁTICA LTDA., que conforme se está vendo pormenorizado ao longo desta contrarrazão, esta dissociada da veracidade dos fatos, e tem por objetivo claro e inequívoco tumultuar o presente certame, pois ao trazer “dúvidas” que não existem no mercado tecnológico em uma licitação de tecnologia com o suporte de uma equipe técnica capacitada, é, no mínimo, irresponsável, pois o processo licitatório está suspenso até decisão final desta D. Comissão, e ainda, estamos tendo que esclarecer conceitos básicos e fundamentais para qualquer técnico da área de informática, que deveriam fazer parte do cotidiano da RECORRENTE.
>
> Sem maiores delongas, é evidente o objetivo único e exclusivo desta RECORRENTE em tumultuar o processo licitatório em questão trazendo à baila questionamentos tão estapafúrdios, como os apresentados por ela em sua peça recursal.
>
> Assim, sem maior morosidade, em razão do quanto exposto e demonstrado, de rigor é o provimento da presente contrarrazão para manter a CLASSIFICAÇÃO desta TORINO, nos termos registrados no processo licitatório em epígrafe.
>
> Não sobrevindo este entendimento, requer-se o encaminhamento para a Autoridade Superior competente, para que aprecie seu mérito, sendo esta a única forma de se alcançar a tão almejada Justiça!!!
>

Análise do Pregoeiro

Em sua decisão, o Pregoeiro apontou que:

> Da análise das impugnações colacionadas, infere-se que as solicitações referem-se, especificamente, às disposições estabelecidas no **Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317**, Anexo I e parte integrante do Edital do **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ-SRP.** Nesse sentido, as peças foram encaminhadas ao setor técnico demandante - Setor de Infraestrututa e Telecomunicações - SIET, que se manifestou de forma sintética, porém, abrangente, nos

termos do **Parecer Nº 28.2025.SIET.1701819.2025.001317**, transcrito abaixo:

Parecer Nº 28.2025.SIET.1701819.2025.001317

1. Relatório

Trata-se de expediente encaminhado pela CPL, a respeito de recurso apresentado pela empresa **E.R. SOLUÇÕES INFORMÁTICA LTDA.**, CNPJ Nº 05.778.325/0005-47 (doc. 1697794), e contrarrazões recursais apresentado pela empresa **TORINO INFORMÁTICA LTDA.**, CNPJ (MF) n.º 03.619.767/0005-15 (doc. 1697800), para que este SIET analise e se manifeste tecnicamente sobre o tema.

2. Fundamentação

A equipe técnica deste SIET analisou as razões de recurso apresentadas pela empresa E.R. Soluções Informática Ltda., CNPJ nº 05.778.325/0005-47 (doc. 1697794), e as contrarrazões apresentadas pela empresa Torino Informática Ltda., CNPJ nº 03.619.767/0005-15 (doc. 1697800), conforme solicitado pela Comissão Permanente de Licitação.

A análise foi realizada tomando por base:

2.1. As especificações técnicas constantes do Anexo de Especificações – Item 3 do edital;

2.2. A documentação apresentada pela empresa Torino em atendimento às diligências promovidas pelo Pregoeiro;

2.3. Os argumentos constantes nas razões recursais da E.R. e nas contrarrazões da Torino;

2.4. A legislação aplicável, notadamente a Lei nº 14.133/2021, art. 64, e o Decreto nº 10.024/2019, art. 17, inciso VI, que autorizam a promoção de diligências destinadas a sanar falhas formais, desde que não alterem a substância da proposta nem impliquem em modificação de valores;

2.5. O entendimento consolidado pelo Acórdão TCU nº 1211/2021 – Plenário, que admite a juntada de documentos comprobatórios de condições já atendidas à época da proposta, desde que ausentes apenas por falha formal ou omissão involuntária.

Dessa forma, a avaliação técnica buscou verificar a aderência da proposta da empresa Torino aos requisitos do edital, com especial atenção aos pontos questionados pela E.R. (BIOS, unidade de armazenamento, articulação da tela, leitor biométrico, mochila de transporte), além de confirmar o atendimento dos demais requisitos principais (processador, memória RAM, conectividade, sistema operacional, webcam e softwares complementares).

3. Matriz de Aderência Técnica

Requisito editalício	Conformidade	Observações técnicas

Requisito editalício	Conformidade	Observações técnicas
BIOS – suporte a logotipo customizável de fábrica (item 2.13)	**Atende**	O modelo ofertado dispõe de recurso de customização corporativa de BIOS, já utilizado em fornecimentos anteriores. Documentação apresentada pelo fabricante HP confirma a aderência.
Unidade de armazenamento – SSD M.2 PCIe 4.0 NVMe ≥ 256GB, ≥ 1200 MB/s, instalado de fábrica e homologado (item 5)	**Atende**	Foi apresentado datasheet do modelo Samsung PM9B1, homologado pela HP. Considerando que o fabricante pode adotar diferentes fornecedores homologados, será realizada a verificação pela equipe técnica (fiscalização) no recebimento para assegurar o atendimento integral ao requisito.
Articulação da tela em 180° (item 14.3)	**Atende**	A especificação técnica do fabricante indica ângulo de abertura de 177° ± 3°, compatível com a exigência de 180°.
Leitor biométrico integrado (item 14.6)	**Atende**	Embora o catálogo do fabricante apresente o recurso como opcional, a empresa declarou o atendimento integral ao edital.

Requisito editalício	Conformidade	Observações técnicas
Webcam integrada, FHD, com mecanismo de privacidade (item 13)	**Atende**	O modelo ofertado contempla webcam compatível com as exigências, sem ressalvas.
Mochila/case de transporte (item 18.2)	**Atende**	O acessório teve sua especificação detalhada em diligência e foi aceito como em conformidade com o edital.
Demais requisitos principais (processador ≥ 6 núcleos, RAM 16GB DDR5, sistema operacional Windows 11 Pro OEM, conectividade, portas USB/HDMI, Wi-Fi 6, bateria, softwares de controle e certificações)	**Atende**	Documentação apresentada confirma a aderência aos requisitos principais do Termo de Referência.

4. <u>Conclusão</u>

Todos os itens questionados em recurso apresentaram conformidade, alguns após diligências realizadas junto ao fornecedor pela equipe técnica do MPAM. Não foram constatadas alterações substanciais na proposta ou de valores com as diligências.

É o parecer.

Manaus, 25 de agosto de 2025.

FRANCISCO ELVISLÂNIO PEREIRA
Agente de apoio - Manutenção/Informática

CARLOS ALEXANDRE DOS SANTOS NOGUEIRA
Chefe do Setor de Infraestrututa e Telecomunicações

Fundamentado no parecer exposto acima, afere-se que não há divergência técnica quanto ao Item 3 ofertado e as exigências do Instrumento Convocatório referentes ao item, não se fazendo necessárias maiores digressões.

Quanto às oportunidades concedidas à recorrida,

relembro que o Edital do certame prevê, em seu subitem 10.7. c/c 10.7.1., o seguinte:

10.7. Erros no preenchimento da planilha não constituem motivo para a desclassificação da proposta. A planilha poderá ser ajustada pelo fornecedor, no prazo indicado pelo sistema, desde que não haja majoração do preço.

10.7.1. Verificada a presença de erros sanáveis na proposta de preços, **o Pregoeiro ou Administração poderá realizar diligência junto à Licitante para a devida correção apenas das falhas apontadas, limitado a 3 (três) oportunidades**, vedada a juntada de documento novo.

Nesse sentido, as oportunidades foram concedidas com lastro no Instrumento Convocatório, bem como as alterações, em sede de diligências, de acordo com o parecer técnico supracitado, não representaram alteração da proposta vencedora, mas esclarecimento e complementação das informações anteriormente apresentadas, sem majoração de preço.

Ante todo o exposto, as razões de irresignação da empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.**, inscrita no CNPJ Nº 05.778.325/0005-47, não tem como progredir, pois restaram esvaídas de quaisquer lastros fáticos e/ou jurídicos capazes de fazer valer sua vontade, não havendo, portanto, que se falar em reconsideração da decisão de **aceitação da proposta de preços** e **habilitação** da empresa **TORINO INFORMÁTICA LTDA.**, inscrita no CNPJ sob o nº 03.619.767/0005-15 para o Item 3, conforme demonstrado na presente peça.

4. DA CONCLUSÃO

Portanto, pelos fundamentos expostos, por entender que os requisitos e princípios que permeiam os atos da Administração Pública foram devidamente observados, este subscrevente decide:

a) **NEGAR provimento** aos recursos interpostos pelas empresas **E. R. SOLUÇÕES INFORMÁTICA LTDA.**, inscrita no CNPJ Nº 05.778.325/0005-47, referente ao Item 3 do Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ SRP, a fim de dar seguimento ao processo, nos termos do artigo 165, da Lei nº. 14.133/2021;

É o relatório. Passo a decisão.

II. DOS FUNDAMENTOS

O presente processo licitatório, na modalidade Pregão Eletrônico, seguiu o critério de julgamento menor preço por item, conforme previsto no art. 33, inciso I, da Lei nº 14.133/2021, com o objetivo de garantir a contratação mais vantajosa para a Administração Pública, nos termos do art. 11, inciso I.

No tocante à admissibilidade do presente recurso, cumpre registrar que o direito à interposição encontra respaldo no art. 165 da Lei nº 14.133/2021, que prevê, no inciso I, alíneas “b” e “c”, a possibilidade de impugnação administrativa contra o julgamento das propostas e os atos de habilitação ou inabilitação, desde que observados os prazos legais.

Conforme §1º do referido artigo, a intenção de recorrer deve ser manifestada de forma imediata, sob pena de preclusão, sendo o prazo para apresentação das razões recursais de 3 (três) dias úteis, contados da intimação ou da lavratura da respectiva ata. Ainda nos termos da legislação aplicável, o recurso deve ser dirigido à autoridade que proferiu a decisão recorrida, que poderá exercer juízo de retratação no prazo de 3 (três) dias úteis ou, não sendo o caso, encaminhá-lo à autoridade superior para decisão final no prazo de até 10 (dez) dias úteis, conforme §2º do dispositivo supracitado.

Deste modo, verificada a tempestividade e a regular manifestação da intenção recursal, impõe-se a análise do mérito do recurso interposto.

Do recurso de E.R. SOLUCOES INFORMATICA LTDA, CNPJ 05.778.325/0005-47, na fase de julgamento:

Na fase de aceitação de propostas, a empresa retromencionada argumentou, em suas razões recursais, que:

i) a Recorrida alterou sua proposta comercial diversas vezes, incluindo serviços que não constavam na proposta originalmente apresentada;

ii) a inclusão de novos serviços à proposta, após sua apresentação, configura inequívoca alteração de seu conteúdo substancial, indo muito além de meras falhas formais ou ausência de documentos comprobatórios de condição preexistente;

iii) A Recorrida não apresentou em sua proposta qual o modelo e marca ofertado da Mochila, não sendo possível a comprovação de que este item atenderá ao que é exigido no edital.

O cerne do recurso interposto pela **Recorrente**, na presente hipótese, reside na alegação de violação ao princípio da vinculação ao edital, sob o argumento de que a atuação do Pregoeiro teria extrapolado os limites estabelecidos na cláusula 25.3.1 do instrumento convocatório. Sustenta-se, em síntese, que foram realizadas diligências em desacordo com os parâmetros previamente definidos no edital. Ocorre que a cláusula em questão, ao contrário do que alega a recorrente, dispõe expressamente:

25.3.1. O pregoeiro, durante as fases de julgamento das

> propostas e/ou habilitação, deve sanear eventuais erros ou falhas que não alterem a substância das propostas, dos documentos e sua validade jurídica, mediante decisão fundamentada, registrada em ata e acessível aos licitantes, sendo que a vedação à inclusão de novo documento, prevista no art. 64 da Nova Lei de Licitações (Lei 14.133/2021), não alcança documento ausente, comprobatório de condição atendida pelo licitante quando apresentou sua proposta, que não foi juntado com os demais comprovantes de habilitação e/ou da proposta, por equívoco ou falha, o qual deverá ser solicitado e avaliado pelo pregoeiro. (Acórdão TCU 1211/2021 - Plenário, relator Ministro Walton Alencar Rodrigues).

Ao apresentar suas contrarrazões, a Recorrida sustentou que:

i) Em nenhum momento foi alterada a proposta, pois foi ofertado o equipamento HP 640 G11 que atende integralmente o que o edital solicita;

ii) O trecho da carta do fabricante HP demonstra que os equipamentos suportam e podem ser realizadas customizações;

ii) Desde a nossa proposta inicial até a final, o SSD não foi alterado, que será entregue um SSD que atende ao solicitado. É de conhecimento comum no mercado que os fabricantes utilizam diversos fornecedores para atender várias partes e peças de seus equipamentos, desde que eles atendam os requisitos mínimos;

iv) Os fabricantes dos equipamentos, não são indústria de SSD, eles capacitam e homologam itens para equiparem seus equipamentos, ou a LENOVO, DELL e HP produzem SSDs? Não, eles não são indústria desse componente, e sim, homologam esses componentes para seus equipamentos;

v) não existe 1 único fabricante de SSD no mercado para atender toda a demanda de produção de computadores e notebooks no mercado, assim, as Multinacionais como HP, DELL e LENOVO, adquirem de diversos fabricantes e homologam esses itens para seus equipamentos;

vi) Foi apresentado inclusive documento interno do Fabricante HP, com clara informação que o documento foi feito para a HP do componente SSD, com posterior comprovação de que o SSD é o homologado pela HP, e ele é utilizado em todos os modelos de equipamentos HP;

v) O catálogo do produto possui todas as configurações possíveis que ele pode ter, nesse sentido, reafirmamos que o equipamento sim possuirá o leitor de impressão digital (fingerprint), pois a partir do momento que ofertamos a proposta, aceitamos todas as condições do edital e do termo de referência.

vi) Sobre a abertura do notebook. Parece que a ER [Recorrente] também precisa de ajuda a interpretar regras básicas de matemática e física, quando é colocado 177 +- 3, quer dizer que a tela chega a 180º (177+3);

vii) Sobre a mochila. Nossa proposta contempla a mochila que atende todos os requisitos. Afinal, a mochila é um acessório do objeto principal notebook.

Dessa forma, verifica-se que os argumentos apresentados pela **Recorrida**, acompanhados de documentação técnica e fundamentação compatível com as práticas de mercado, demonstram esforço em comprovar a aderência de sua proposta às exigências do edital, o que, somado à prerrogativa do Pregoeiro de sanar falhas que não comprometam a substância da proposta (cláusula 25.3.1), contribui para afastar a alegação de violação ao princípio da vinculação ao instrumento convocatório.

O pregoeiro, ao realizar sua análise, destacou que:

> i) Da análise das impugnações colacionadas, infere-se que as solicitações referem-se, especificamente, às disposições estabelecidas no **Termo de Referência Nº 2.2025.DTIC. 1525128.2025.001317**, Anexo I e parte integrante do Edital do **PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ-SRP.** Nesse sentido, as peças foram encaminhadas ao setor técnico demandante - Setor de Infraestrututa e Telecomunicações - SIET, que se manifestou de forma sintética, porém, abrangente, nos termos do **Parecer Nº 28.2025.SIET.1701819.2025.001317;**
>
> ii) Fundamentado no parecer exposto acima, afere-se que não há divergência técnica quanto ao Item 3 ofertado e as exigências do Instrumento Convocatório referentes ao item, não se fazendo necessárias maiores digressões**;**
>
> iii) Quanto às oportunidades concedidas à recorrida, relembro que o Edital do certame prevê, em seu subitem 10.7. c/c 10.7.1.;
>
> iv) Nesse sentido, as oportunidades foram concedidas com lastro no Instrumento Convocatório, bem como as alterações, em sede de diligências, de acordo com o parecer técnico supracitado, não representaram alteração da proposta vencedora, mas esclarecimento e complementação das informações anteriormente apresentadas, sem majoração de preço.

Nesta senda, o **Ato PGJ nº 008/2024**, que regulamenta a aplicação da Lei nº 14.133/2021 no âmbito do MPAM, assegura em art. 55, inciso IV, que o Pregoeiro deve fazer a verificação da propostas e proceder a desclassificação daquelas que não estejam em conformidade com os requisitos estabelecidos no edital, fazendo constar no sistema, de forma imediata, a fundamentação que motivou a decisão.

No caso específico, o Pregoeiro agiu em conformidade com as disposições estabelecidas no Edital do certame, que prevê expressamente o seguinte:

> **10.7. Erros no preenchimento da planilha não constituem motivo para a desclassificação da proposta.** A planilha poderá ser ajustada pelo fornecedor, no prazo indicado pelo sistema, desde que não haja majoração do preço.

> 10.7.1. Verificada a presença de erros sanáveis na proposta de preços, **o Pregoeiro ou Administração poderá realizar diligência junto à Licitante para a devida correção apenas das falhas apontadas, limitado a 3 (três) oportunidades**, vedada a juntada de documento novo.
>
> (...)
>
> 25.3. É facultada ao pregoeiro ou autoridade superior, em qualquer fase da licitação, a promoção de diligência destinada a esclarecer ou complementar a instrução do processo.
>
> 25.3.1. O pregoeiro, durante as fases de julgamento das propostas e/ou habilitação, deve sanear eventuais erros ou falhas que não alterem a substância das propostas, dos documentos e sua validade jurídica, mediante decisão fundamentada, registrada em ata e acessível aos licitantes, sendo que a vedação à inclusão de novo documento, prevista no art. 64 da Nova Lei de Licitações (Lei 14.133/2021), não alcança documento ausente, comprobatório de condição atendida pelo licitante quando apresentou sua proposta, que não foi juntado com os demais comprovantes de habilitação e/ou da proposta, por equívoco ou falha, o qual deverá ser solicitado e avaliado pelo pregoeiro. (Acórdão TCU 1211/2021 - Plenário, relator Ministro Walton Alencar Rodrigues).

Pela leitura das cláusulas mencionadas, a análise conduzida pelo Pregoeiro considerou improcedentes os argumentos apresentados pela Recorrente, tendo em vista que o edital do certame autoriza expressamente a realização de diligências destinadas ao saneamento de falhas na proposta da licitante melhor classificada. Observando os princípios do formalismo moderado e da busca da proposta mais vantajosa, a atuação do Pregoeiro foi legítima e devidamente respaldada nas cláusulas 10.7 e 25.3 do instrumento convocatório, bem como no entendimento consolidado pelo Tribunal de Contas da União (Acórdão nº 1211/2021 – Plenário).

Ademais, nos termos do precedente do Tribunal de Contas da União (Acórdão 1811/2014-Plenário) "não restando configurada a lesão à obtenção da melhor proposta, não se configura a nulidade do ato**.** Erro no preenchimento da planilha de formação de preço do licitante não constitui motivo suficiente para a desclassificação da proposta, quando a planilha puder ser ajustada sem a necessidade de majoração do preço ofertado".

Portanto, a interpretação do pregoeiro e equipe de apoio representou a concreta aplicação do **princípio do formalismo moderado**, especificamente no Processo licitatório.

Sobre o princípio do formalismo moderado, colho do ensinamento de Felipe Dalenogare Alves e Marilene Carneiro Matos (2025, p. 82)[1]**:**

> A Administração deve atuar de forma a preservar a participação de licitantes que apresentem propostas ou documentos contendo vícios ou irregularidades sanáveis, de forma a prestigiar o princípio do formalismo moderado

> e a máxima competitividade do certame91. Neste sentido, cabe observar que a manutenção de propostas contendo vícios sanáveis adentrou o ordenamento jurídico brasileiro, por inspiração no Direito Europeu das Contratações Públicas, mediante o art. 24 da Lei n. 12.462/2011 – Regime Diferenciado de Contratações Públicas92.
>
> Acerca do assunto, defende Adilson Abreu Dallari93 que há evidentes posicionamentos na doutrina e jurisprudência que defendem que na fase de habilitação não deve haver rigidez excessiva. O foco deve ser na finalidade dessa etapa, ou seja, verificar se o proponente possui a idoneidade necessária. Defeitos mínimos, irrelevantes para essa comprovação, não devem ser motivo de exclusão do licitante. É necessário "haver uma certa elasticidade em função do objetivo, da razão de ser da fase de habilitação; convém ao interesse público, que haja o maior número possível de participantes".

Com efeito, o Tribunal de Contas da União tem consolidado o entendimento — v.g., Acórdãos 1.217/2023-TCU-Plenário e 2.585/2024-TCU-Plenário — de que devem prevalecer o formalismo moderado e o princípio da razoabilidade no julgamento das propostas e na fase de habilitação. Busca-se, assim, evitar que o meio (análise documental) frustre o fim maior da licitação: obter a proposta mais vantajosa para a Administração. Consequentemente, o TCU orienta que não se promova a desclassificação ou a inabilitação de licitantes sem antes oportunizar a correção de falhas sanáveis, desde que demonstrada a existência dos requisitos exigidos antes da abertura do certame.

Assim, constata-se que a análise realizada pelo Pregoeiro observou os **princípios previstos no art. 37, caput, da Constituição Federal**, com especial destaque para o princípio da **legalidade**. Dessa forma, com fundamento no **art. 5º da Lei nº 14.133/2021**, verifica-se que foram atendidos os critérios de **julgamento objetivo das propostas**, **preservação da competitividade** e **seleção da proposta mais vantajosa**, em conformidade com os dispositivos legais aplicáveis e os princípios que regem as contratações públicas.

Portanto, não há amparo para a desclassificação da empresa recorrida, pois os documentos apresentados conferem segurança técnica e econômica à execução contratual, atendendo às exigências legais e editalícias.

III. DA DECISÃO

Diante do exposto e com fundamento nos **arts. 71 e 165 da Lei nº 14.133/2021**, bem como nos termos do **Ato PGJ nº 008/2024**, DECIDO:

I) CONHECER o recurso interposto pela empresa **E. R. SOLUÇÕES INFORMÁTICA LTDA.**, inscrita no CNPJ Nº 05.778.325/0005-47, por ser **tempestivo** e **preencher os requisitos legais** de admissibilidade.

II) No mérito, NEGAR PROVIMENTO a presente recurso, mantendo

a decisão do Pregoeiro que aceitou a proposta, habilitou e declarou vencedora a empresa **TORINO INFORMÁTICA LTDA.**, CNPJ (MF) n.º 03.619.767/0005-15**,** para o Item 3, no Valor Total de **R$ 2.475.000,00** (*dois milhões quatrocentos e setenta e cinco mil reais*).

À Comissão Permanente de Licitação - CPL para as providências subsequentes.

Sistema para o participante 81.243.735/0009-03	08/07/2025 às 14:59:20	Sr. Fornecedor POSITIVO TECNOLOGIA S.A., CNPJ 81.243.735/0009-03, você foi convocado para enviar anexos para o item 3. Prazo para encerrar o envio: 17:04:00 do dia 08/07/2025. Justificativa: Solicito que apresente nos documentos de proposta enviados para o Item 3, o pleno atendimento aos requisitos técnicos exigidos no Termo de Referência Nª 2.2025.DTIC.1525128.2025.001317, Anexo I ao Edital do certame..
Pelo participante 81.243.735/0009-03	08/07/2025 às 15:12:45	Prezado Sr. Pregoeiro, boa tarde! Em razão do tempo necessário para a elaboração de um documento ponto a ponto, solicitamos, gentilmente, a prorrogação do prazo por igual período, totalizando 4 (quatro) horas. Considerando o horário comercial, solicitamos que o novo prazo seja fixado até o dia 09/07/2025, às 9h.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 15:53:39	Prezada, boa tarde.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 15:59:41	A comprovação do atendimento da oferta aos requisitos técnicos e formais do Edital é papel do licitante. Tal procedimento, em termos de boas práticas, deve ser realizado desde a apresentação da proposta ajustada aos lances. Ainda, a juntada dos documentos é realizada pela própria proponente, com documentos considerados suficientes para uma análise segura e definitiva do equipamento ofertado.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 16:00:24	Assim, entende-se ser ela a detentora de todo conhecimento necessário para o adequado esclarecimento sobre sua proposta.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 16:04:02	Ainda, a solicitação para apresentação no prazo de 2 (duas) horas - mesmo prazo de envio da proposta, não nos parece desarrazoado. Sendo, no entendimento do Instrumento Convocatório, adequado às solicitações realizadas no certame, conforme prevê o subitem 10.9 do Edital.
Sistema para o participante 81.243.735/0009-03	08/07/2025 às 16:04:40	Nesse sentido, indefiro a solicitação de prorrogação do prazo pelos motivos acimas expostos.
Pelo participante 81.243.735/0009-03	08/07/2025 às 16:50:02	O item 3 teve a convocação para envio de anexos encerrada às 16:50:02 de 08/07/2025. 1 anexo foi enviado pelo fornecedor POSITIVO TECNOLOGIA S.A., CNPJ 81.243.735/0009-03.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 11:25:21	Sr. Fornecedor POSITIVO TECNOLOGIA S.A., CNPJ 81.243.735/0009-03, você foi convocado para enviar anexos para o item 3. Prazo para encerrar o envio: 13:28:00 do dia 11/07/2025. Justificativa: Solicito envio de documentos que comprovem o atendimento da oferta aos pontos levantados no Parecer Nª 22.2025.SIET.1668772.2025.001317..
Pelo participante 81.243.735/0009-03	11/07/2025 às 11:49:50	Prezado Sr. Pregoeiro, bom dia! Respeitosamente, solicitamos a Vossa Senhoria prazo para resposta à diligência até às 15h30min de hoje. Devido à quantidade de diligências e com o objetivo de fornecer uma resposta completa e precisa, necessitamos de um prazo adicional para realizar as consultas e levantamentos necessários. Agradecemos pela compreensão e aguardamos sua consideração.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 12:04:22	Prezado Licitante, bom dia.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 12:11:16	Considerando a presente solicitação e, nos termos do subitem 10.7.1. c/c subitem 10.9 do Edital, defiro a prorrogação do prazo de convocação.
Sistema para o participante 81.243.735/0009-03	11/07/2025 às 12:11:56	Solicito de V. Sa. que encerre o prazo de convocação para ajuste na convocação.

SUBPROCURADORIA-GERAL DE JUSTIÇA PARA ASSUNTOS ADMINISTRATIVOS, em Manaus/AM, 09 de setembro de 2025.

ANDRÉ VIRGÍLIO BELOTA SEFFAIR
Subprocurador-Geral de Justiça para Assuntos Administrativos

PORTARIA Nº 964/2025/SUBADM

O SUBPROCURADOR-GERAL DE JUSTIÇA PARA ASSUNTOS ADMINISTRATIVOS, no uso de suas atribuições legais, e

CONSIDERANDO o teor do Procedimento Interno n.º 2025.019641 – SEI,

RESOLVE:

I - AUTORIZAR a participação dos servidores ELAYNE DE LIMA PEREIRA, Chefe da Divisão de Controle Interno, e PAULO HENRIQUE RODRIGUES DE SENA, Agente Técnico - Contador, no curso "E-Social, EFD-Reinf e DCTFWeb com Retenções Tributárias para Gestores na Administração Pública", no período de 09 a 12.09.2025, das 13h às 17h, na Escola de Contas do Egrégio Tribunal de Contas do Estado do Amazonas, sem ônus para este Ministério Público;

II – DETERMINAR a apresentação do Certificado/Declaração comprobatório de efetiva participação junto à Divisão de Recursos Humanos desta PGJ.

Publique-se, registre-se, cumpra-se.

SUBPROCURADORIA-GERAL DE JUSTIÇA PARA ASSUNTOS ADMINISTRATIVOS, em Manaus/AM, 09 de setembro de 2025.

ANDRÉ VIRGÍLIO BELOTA SEFFAIR
Subprocurador-Geral de Justiça para Assuntos Administrativos

DESPACHO Nº 799.2025.01AJ-SUBADM.1716955.2025.001317

PROCESSO SEI N.º 2025.001317
Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ-SRP

ADJUDICAÇÃO E HOMOLOGAÇÃO

CONSIDERANDO a solicitação constante do Ofício Nº 41.2025.DTIC.1566526.2025.001317, bem como o teor do Termo de Referência Nº 2.2025.DTIC.1525128.2025.001317 e Anexos;

CONSIDERANDO o disposto na Lei, nos Termos de Julgamento de realização do Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ-SRP e demais documentos pertinentes, lavrados pela Comissão Permanente de Licitação entre os dias 30/06/2025 e 21/07/2025, sobretudo, as ponderações do relatório circunstanciado parcial de apreciação do certame de referência, tendo por objeto a formação de ata de registro de preços para aquisição de gêneros alimentícios (açúcar, café e leite) a serem disponibilizados pelo Almoxarifado, localizado no edifício-sede da PGJ, a fim de garantir o aprimoramento da distribuição dos bens de consumo existentes em estoque, melhorando a qualidade de atendimento das demandas das diversas unidades da Procuradoria-Geral de Justiça, por um período estimado de 12 meses, quantificados e qualificados conforme as especificações e as condições constantes do seu Edital e anexos;

CONSIDERANDO a aceitação da proposta de preço e habilitação da empresa TORINO INFORMÁTICA LTDA., CNPJ (MF) n.º 03.619.767/0005-15, para o Item 3 - no Valor Total de R$ 2.475.000,00 (dois milhões quatrocentos e setenta e cinco mil reais);

CONSIDERANDO o Relatório Parcial de Licitação Nº 30.2025.CPL.1707664.2025.001317, referente ao Item 3, no qual consta que a realização do Pregão significou uma economia de R$ 1.140.957 (um milhão, cento e quarenta mil novecentos e cinquenta e sete reais), ou seja, uma redução de aproximadamente 31,55% do valor parcial estimado pela Administração.

CONSIDERANDO o teor da Lei Federal N.º 14.133, de 01.04.2021 e do Ato n.º 008/2024/PGJ;

CONSIDERANDO a interposição de Recurso por parte da empresa E. R. SOLUÇÕES INFORMÁTICA LTDA., inscrita no CNPJ Nº 05.778.325/0005-47;

CONSIDERANDO o teor da DECISÃO Nº 35.2025.CPL.1707654.2025.001317 para NEGAR provimento ao recurso interposto pela empresa suso mencionada;

CONSIDERANDO o teor da DECISÃO Nº 7.2025.01AJ-SUBADM.1713818.2025.001317, através da qual foi mantida a DECISÃO Nº 35.2025.CPL.1707654.2025.001317, proferida pelo(a) Sr(a) Pregoeiro(a), segundo inteligência do artigo 71 c/c artigo 165, da Lei n° 14.133/2021;

RESOLVE:

I – ADJUDICAR o objeto do certame à empresa TORINO INFORMÁTICA LTDA., CNPJ (MF) n.º 03.619.767/0005-15, para o Item 3, no Valor Total de R$ 2.475.000,00 (dois milhões quatrocentos e setenta e cinco mil reais);

II - HOMOLOGAR o resultado parcial do procedimento licitatório, referente ao item 3 do PREGÃO ELETRÔNICO N.º 94.010/2025-CPL/MP/PGJ-SRP, em consonância com os Termos de Julgamentos gerados pelo Sistema Compras.gov e o Relatório Parcial de Licitação Nº 30.2025.CPL.1707664.2025.001317 e suas documentações complementares;

III – À COMISSÃO PERMANENTE DE LICITAÇÃO – CPL, para as providências cabíveis;

IV – Após, ao SETOR DE COMPRAS E SERVIÇOS - SCOMS, para prosseguimento do feito.

Cientifique-se. Publique-se. Cumpra-se.

MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS
Avenida Coronel Teixeira, 7995 - Bairro Nova Esperança - CEP 69037-473 - Manaus - AM - www.mpam.mp.br

ATA DE REGISTRO DE PREÇO Nº 18.2025.CPL.1718108.2025.001317

PREGÃO ELETRÔNICO N.° 94.010/2025-CPL/MP/PGJ-SRP
PROCEDIMENTO INTERNO N.º 2025.001317

Pelo presente instrumento, o **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS**, órgão gerenciador deste Registro de Preços, situado na Avenida Coronel Teixeira, n.º 7995, Bairro Nova Esperança, CEP: 69037-473, representado neste ato por seu Subprocurador-Geral de Justiça para Assuntos Administrativos, Dr. **ANDRÉ VIRGÍLIO BELOTA SEFFAIR** , inscrito no CPF sob nº 590.287.772-53, portador da Identidade Funcional nº 239 PGJ/AM, residente e domiciliado nesta Capital, e a empresa **TORINO INFORMÁTICA LTDA.** , CNPJ (MF) n.º 03.619.767/0005-15, DORAVANTE denominada **FORNECEDORA**, firmam a presente **ATA DE REGISTRO DE PREÇOS** , mediante as cláusulas e condições a seguir estabelecidas:

CLÁUSULA PRIMEIRA – DO OBJETO

A presente Ata tem por objeto registrar os preços das empresas vencedoras do certame licitatório referente ao **Pregão Eletrônico n.º 94.010/2025-CPL/MP/PGJ-SRP**, na modalidade de Sistema de Registro de Preços, para *fornecimento de equipamentos de informática, quais sejam,* ***estações de trabalho e computadores portáteis****, com garantia e assistência técnica on-site por, no mínimo, 60 (sessenta) meses, com fito na renovação do parque computacional, substituindo aqueles equipamentos fora de garantia ou obsoletos, assim como atender as demandas dos órgãos integrantes do Ministério Público do Estado do Amazonas, Procuradoria-Geral de Justiça, por um período de 12 meses*, conforme as especificações mínimas e os quantitativos constantes do Edital do cotejo em epígrafe, descritos e qualificados na forma de seu Anexo.

I. Eis os itens registrados em favor da Fornecedora:

TORINO INFORMÁTICA LTDA., CNPJ (MF) n.º 03.619.767/0005-15

ITEM 3 - COMPUTADOR TIPO 3 - NOTEBOOK DE 14".

Quantidade registrada: 300 (trezentos) unidades.

Marca/Modelo: HP 640 G11.

Valor Unitário do Item: **R$ 8.250,00** (oito mil duzentos e cinquenta reais).

CLÁUSULA SEGUNDA – DA VALIDADE DA ATA

A presente **Ata de Registro de Preços terá validade de 12 (doze) meses**, contados a partir de sua publicação no Portal Nacional das Contratações Públicas - PNCP.

Subcláusula Primeira. O prazo de vigência da ata de registro de preços poderá ser prorrogado, por igual período de 12 (doze) meses, desde que comprovado o preço vantajoso.

Subcláusula Segunda. Durante o prazo de validade desta Ata de Registro de Preço, o MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS não será obrigado a firmar as contratações que dela poderão advir, facultando-se-lhe a realização de licitação específica para a aquisição pretendida, sendo assegurado ao beneficiário do registro preferência de fornecimento em igualdade de condições.

CLÁUSULA TERCEIRA – DA UTILIZAÇÃO DA ATA DE REGISTRO DE PREÇOS

A presente Ata de Registro de Preço poderá ser usada por todos os órgãos da Administração Pública, desde que autorizados pelo **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS**.

Subcláusula Primeira. O preço ofertado pela(s) empresa(s) signatária(s) da presente Ata de Registro de Preços é o especificado nesta Ata.

Subcláusula Segunda. Em cada fornecimento decorrente desta Ata, serão observadas, quanto ao preço, as cláusulas e condições constantes do Edital referente a mesma.

Subcláusula Terceira. Em cada fornecimento, o preço unitário a ser pago será o constante da proposta apresentada pelas empresas detentoras da presente Ata, as quais também a integram.

CLÁUSULA QUARTA – DA CLASSIFICAÇÃO DAS PROPOSTAS

A ordem de classificação dos licitantes observará suas propostas finais ofertadas durante o certame, conforme exposto na Ata da Sessão, para fins de formação de cadastro de reserva no caso de impossibilidade de atendimento pelo primeiro colocado da ata.

CLÁUSULA QUINTA – DO FORNECIMENTO E EXECUÇÃO

A FORNECEDORA deverá efetuar a entrega do objeto contratado dentro do prazo e de acordo com as especificações constantes do Edital da licitação e deste Instrumento, observando estreitamente as prescrições e as recomendações do fabricante, a legislação estadual ou municipal, se houver, bem como outras normas correlatas, ainda que não estejam explicitamente aqui citadas.

Subcláusula Primeira. Os materiais deverão ser industrializados, de primeiro uso, novos, sem qualquer vício ou avaria, entregues acondicionados adequadamente em suas embalagens originais lacradas, acompanhados de guias e manuais de utilização, se for o caso, com garantia do fabricante, devendo, se for o caso, constar em suas embalagens suas respectivas especificações, sob pena de ser recusado.

Subcláusula Segunda. Responsabilizar-se pelo transporte dos produtos, desde o local da embalagem até a sua entrega no horário e endereço indicados pela ADQUIRENTE.

Subcláusula Terceira. Apresentar justificativa por escrito, devidamente comprovada, nos casos de ocorrência de fato superveniente, excepcional ou imprevisível, estranho à vontade das partes, e de impedimento de execução por fato ou ato de terceiro reconhecido pela ADQUIRENTE em documento contemporâneo a sua ocorrência, quando não puder cumprir os prazos estipulados para a execução, total ou parcial, do objeto.

Subcláusula Quarta. Aceitar todas as decisões, métodos de inspeção, verificação e controle, obrigando-se a fornecer todos os dados, elementos e explicações que o MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS julgar necessário.

Subcláusula Quinta. Manter, durante toda a execução da Ata de Registro de Preços, em compatibilidade com as obrigações assumidas, todas as condições de habilitação e qualificação exigidas na licitação.

Subcláusula Sexta. A empresa vencedora, quando da solicitação do material, deverá retirar a nota de empenho no prazo de 5 (cinco) dias úteis a contar da comunicação efetivada, **sob pena de decair o direito à contratação.**

I - Como condição inafastável para que seja emitida Nota de Empenho à Fornecedora, esta deverá, também, estar cadastrada junto ao **SISTEMA DE ADMINISTRAÇÃO FINANCEIRA E CONTABILIDADE – CADASTRAMENTO DE CREDORES – da SECRETARIA DA FAZENDO DO ESTADO DO AMAZONAS – SEFAZ.**

II - Como condição para emissão da nota de empenho a licitante vencedora deverá manter as mesmas condições de habilitação, cuja confirmação será feita através de consulta ao SICAF ou através da internet nos respectivos sites dos órgãos emissores das certidões de regularidade fiscal.

III - O prazo de convocação poderá ser prorrogado uma vez, por igual período, quando solicitado pela vencedora durante o seu transcurso, desde que ocorra motivo justificado e aceito pela Administração.

IV - Se a licitante vencedora não apresentar situação de regularidade documental, no ato da emissão da nota de empenho, ou recusar-se injustificadamente a receber a nota de empenho no prazo estabelecido, os demais licitantes serão convocados para celebrar o contrato, observada a ordem de classificação, e assim sucessivamente, sem prejuízo da aplicação das sanções cabíveis.

Subcláusula Sétima. Alternativamente à convocação para comparecer perante o órgão ou entidade para a assinatura do Termo de Contrato ou aceite do instrumento equivalente, a Administração poderá encaminhá-lo para assinatura ou aceite da Adjudicatária, mediante correspondência eletrônica no e-mail constante da proposta, para que seja assinado eletronicamente pelo Sistema SEI ou aceito no prazo de 05 (cinco) dias, a contar da data de seu recebimento.

CLÁUSULA SEXTA – DA ENTREGA E DO RECEBIMENTO

As solicitações do material serão efetuadas pela **DIRETORIA DE TECNOLOGIA DE INFORMAÇÃO E COMUNICAÇÃO - DTIC**, mediante Nota de Autorização de Fornecimento, ou documento equivalente, disponibilizada e enviada, preferencialmente de forma eletrônica, à FORNECEDORA, devendo ser assinada eletronicamente via Sistema SEI por funcionário/representante da FORNECEDORA. As autorizações de fornecimento para a prestação dos serviços objeto do contrato serão expedidas conforme necessidade da ADQUIRENTE.

Subcláusula Primeira. O material solicitado deverá ser entregue **no prazo**

máximo de 90 (noventa) dias corridos, contados a partir do recebimento da autorização de fornecimento de materiais e serviços ou a partir da aprovação da amostra, conforme o caso.

Subcláusula Segunda. O recebimento dos produtos será realizado pelo **SETOR DE PATRIMÔNIO E MATERIAL - SPAT** , na forma prevista no art. 140 da Lei nº 14.133/2021, mediante Nota de Entrega ou documento equivalente, que deverá conter apenas os materiais e/ou serviços nas quantidades efetivamente solicitadas e entregues, observando-se as disposições constantes do item 5 e 10 do TERMO DE REFERÊNCIA Nº 2.2025.DTIC.1525128.2025.001317

Subcláusula Terceira. O RECEBIMENTO PROVISÓRIO dos materiais não constitui aceitação deles.

Subcláusula Quarta. AO RECEBIMENTO PROVISÓRIO ou DEFINITIVO do objeto não exclui a responsabilidade civil a ele relativa, nem a ético-profissional, pela perfeita execução do objeto desta Ata.

Subcláusula Quinta. A descoberta de defeitos, falhas ou imperfeições ocultas que impeçam ou reduzam a usabilidade dos materiais, verificados após o seu pagamento, implicará na obrigação da FORNECEDORA de substituí-los/refazê-los no prazo máximo de 3 (três) dias corridos a contar da comunicação pela ADQUIRENTE.

Subcláusula Sexta. A FORNECEDORA será responsável pelo transporte dos produtos, desde o local de sua fabricação/embalagem, conforme o caso, até o local de sua entrega, em dias úteis, no horário das 9h00 às 15h00 (horário de Brasília), no seguinte endereço: **Av. Coronel Teixeira, n.º 7.995 – Nova Esperança, CEP. 69037- 473 / Manaus-AM.**

Subcláusula Sétima. A entrega dos materiais deverá ser previamente agendada com o **SETOR DE PATRIMÔNIO E MATERIAL – SPAT, pelo telefone (92) 3655-0766 ou e-mail** *material@mpam.mp.br*.

Subcláusula Oitava. A FORNECEDORA ficará obrigado a atender a todos os pedidos efetuados durante a vigência desta ata, mesmo se a entrega deles decorrente estiver prevista para data posterior a do seu vencimento.

Subcláusula Nona. A FORNECEDORA deverá, obrigatoriamente, entregar a totalidade do produto solicitado, não sendo admitido o parcelamento, sob pena das sanções legais cabíveis, acompanhados dos manuais correspondentes e termos de garantia, quando necessário.

Subcláusula Décima. O não cumprimento do prazo de entrega poderá caracterizar inexecução contratual, parcial ou total, e acarretar a aplicação de sanções administrativas previstas em Edital.

Subcláusula Onze. Não será obrigação da ADQUIRENTE aguardar mais demandas para agrupar solicitações de mais de uma unidade nos processos de compra.

CLÁUSULA SÉTIMA – DO PAGAMENTO

O pagamento devido à CONTRATADA será creditado em conta-corrente por meio de ordem bancária, efetuado mediante apresentação de nota fiscal/fatura atestada e visada pelos órgãos de fiscalização e acompanhamento do fornecimento do material, no prazo não superior a trinta dias, contados a partir do atesto da Administração na fatura apresentada.

I – A respectiva nota fiscal/fatura dos produtos, emitidas em conformidade com o Protocolo ICMS 42/2009 (NF-e), deverá estar devidamente discriminada, em nome da **PROCURADORIA-GERAL DE JUSTIÇA, CNPJ n.º 04.153.748/0001-**

85, e acompanhada das respectivas Certidões Negativas de Débito para com a Seguridade Social, para com o Fundo de Garantia por Tempo de Serviço, e ainda, Certidão Negativa de Débito Trabalhista, Certidão de regularidade junto a Fazenda Federal, Estadual e Municipal;

II – Nenhum pagamento será efetuado à CONTRATADA enquanto pendente de liquidação qualquer obrigação financeira que lhe for imposta, em virtude de penalidade ou inadimplência.

Subcláusula Primeira. Qualquer atraso ocorrido na apresentação da nota fiscal/fatura, ou dos documentos exigidos como condição de pagamento por parte da CONTRATADA, importará em prorrogação automática do prazo de vencimento da obrigação do Contratante.

Subcláusula Segunda. Nenhum pagamento isentará o fornecedor das responsabilidades atinentes ao produto, nem tampouco implicará a aprovação definitiva da entrega, total ou parcialmente.

Subcláusula Terceira. Nos casos de eventuais atrasos de pagamento, desde que a CONTRATADA não tenha concorrido de alguma forma para tanto, fica convencionado que os encargos moratórios devidos pela CONTRATANTE, entre a data de vencimento e a do dia do efetivo pagamento da Fatura/Nota Fiscal, a serem incluídos na fatura do mês seguinte ao da ocorrência, serão calculados por meio da aplicação da seguinte fórmula:

EM = I x N x VP, onde:

EM = Encargos moratórios;

N = Número de dias entre a data prevista para o pagamento e a do efetivo pagamento;

VP = Valor da parcela em atraso.

I = Índice de compensação financeira = 0,00016438, assim apurado:

$$I = \frac{i}{365} = I = \frac{6/100}{365} = I = 0,00016438$$

Onde i = taxa percentual anual no valor de 6%”.

Subcláusula Quarta. Nenhum pagamento será efetivado sem que a área solicitante, emita o Termo de Recebimento Definitivo e ateste que o objeto contratado está integralmente sendo entregue/disponibilizado pela FORNECEDORA.

CLÁUSULA OITAVA – DAS PENALIDADES

Se a FORNECEDORA, sem justa causa, não cumprir as obrigações assumidas ou infringir preceitos legais, serão aplicadas as **sanções previstas no TERMO DE REFERÊNCIA Nº 2.2025.DTIC.1525128.2025.001317 e no Edital da Licitação**, segundo a gravidade da falta, observando-se os limites estabelecidos no **item 22.4 do instrumento convocatório.**

Subcláusula Primeira. A inexecução total ou parcial do contrato enseja a sua rescisão pelos motivos legais.

Subcláusula Segunda. Caso a multa aplicada seja superior ao valor da garantia

prestada, além da perda desta, responderá a FORNECEDORA pela sua diferença, a qual será descontada dos pagamentos eventualmente devidos pelo MPAM ou ainda, quando for o caso, cobrada judicialmente.

Subcláusula Terceira. O Ministério Público do Estado do Amazonas poderá cobrar o valor remanescente judicialmente, conforme artigo 419 do Código Civil, quando o valor da multa não for suficiente para cobrir os prejuízos causados pela conduta da FORNECEDORA.

Subcláusula Quarta. Se, durante o processo de aplicação de penalidade, houver indícios de prática de infração administrativa tipificada pela Lei nº 12.846, de 1º de agosto de 2013, como ato lesivo à Administração Pública nacional ou estrangeira, cópias do processo administrativo necessárias à apuração da responsabilidade da empresa deverão ser remetidas à autoridade competente, com despacho fundamentado, para ciência e decisão sobre a eventual instauração de investigação preliminar ou Processo Administrativo de Responsabilização – PAR.

Subcláusula Quinta. A apuração e o julgamento das demais infrações administrativas não consideradas como ato lesivo à Administração Pública nacional ou estrangeira nos termos da Lei nº 12.846, de 1º de agosto de 2013, seguirão seu rito normal na unidade administrativa.

Subcláusula Sexta. O processamento do PAR não interfere no seguimento regular dos processos administrativos específicos para apuração da ocorrência de danos e prejuízos à Administração Pública Estadual resultantes de ato lesivo cometido por pessoa jurídica, com ou sem a participação de agente público.

CLÁUSULA NONA – DO REEQUILÍBRIO CONTRATUAL

Subcláusula Primeira. O preço registrado poderá ser revisto em decorrência de eventual redução daqueles praticados no mercado, ou de fato que eleve o custo dos serviços ou bens registrados, cabendo ao órgão gerenciador promover as necessárias negociações junto aos fornecedores ou, se houver, após a data da apresentação da proposta, criação, alteração ou extinção de quaisquer tributos ou encargos legais ou a superveniência de disposições legais, com comprovada repercussão sobre os preços contratados.

Subcláusula Segunda. Quando o preço inicialmente registrado, por motivo superveniente, tornar-se superior ao praticado no mercado, o órgão gerenciador deverá:

a) convocar o fornecedor visando a negociação para redução de preços e sua adequação ao praticado no mercado; frustrada a negociação, o fornecedor será liberado do compromisso assumido;

b) convocar os demais fornecedores, visando igual oportunidade de negociação.

Subcláusula Terceira. Quando o preço de mercado torna-se superior aos preços registrados e o fornecedor, mediante requerimento devidamente comprovado, não puder cumprir o compromisso, o órgão gerenciador poderá:

a) liberar o fornecedor do compromisso assumido, sem aplicação da penalidade, confirmado a veracidade dos motivos e comprovantes apresentados, e se a comunicação ocorrer antes do pedido de fornecimento; e

b) convocar os demais fornecedores, visando igual oportunidade de negociação.

Subcláusula Quarta. Não havendo êxito nas negociações, o órgão gerenciador deverá proceder à revogação da Ata de Registro de Preços, adotando as medidas cabíveis para a obtenção da contratação mais vantajosa.

CLÁUSULA DEZ – DO REAJUSTE DOS PREÇOS

O(s) preço(s) registrado(s) nesta Ata somente poderá(ão) ser alterado(s) nos casos de prorrogação da ata de registro de preços, ocasião em que haverá o REAJUSTE com base no IPCA acumulado.

CLÁUSULA ONZE – DA FISCALIZAÇÃO

O Ordenador de Despesas delega competência a servidor responsável pela **DIRETORIA DE TECNOLOGIA DA INFORMAÇÃO E COMUNICAÇÃO - DTIC da PROCURADORIA GERAL DE JUSTIÇA**, para solicitar a aquisição do objeto ora registrado e fiscalizar a execução desta Ata de Registro de Preços.

CLÁUSULA DOZE – DOS DIREITOS E DAS OBRIGAÇÕES

Subcláusula Primeira. Compete ao órgão gerenciador:

a) Acompanhar e fiscalizar, como lhe aprouver e no seu exclusivo interesse, na forma prevista na Lei nº 14.133, de 1º de abril de 2021, que dispõe sobre a Lei de Licitações e Contratos Administrativos, o exato cumprimento das obrigações previstas neste Termo.

b) Designar servidor qualificado para acompanhar a(s) entrega(s) do objeto e o cumprimento dos termos contratuais, editalícios e seus anexos;

c) Registrar e notificar o fornecedor, por escrito, a ocorrência de eventuais imperfeições, defeitos, vícios, vencimento do produto, fixando prazo para a sua substituição;

d) Rejeitar, no todo ou em parte, os produtos entregues em desacordo com as especificações deste Termo;

e) Efetuar regularmente o pagamento à Contratada, dentro dos critérios estabelecidos neste Termo, após o cumprimento das formalidades legais, por meio de Ordem Bancária, após o “atesto” das notas fiscais, bem como da apresentação pela Contratada dos demais documentos exigidos para tal fim (requerimento de pagamento, recibo de pagamento, certidões: Federal, Estadual, Municipal, Trabalhista e FGTS).

Subcláusula Segunda. Compete às Entidades Participantes destinatários:

a) Requisitar o fornecimento de materiais cujos preços encontram-se registrados nesta Ata.

b) Emitir Nota de Empenho a crédito do fornecedor no valor total correspondente a quantidade de material solicitado.

c) Elaborar termo contratual, quando necessário nas situações previstas em Lei.

d) Efetuar o pagamento referente a aquisição do material nos termos previstos no edital da Licitação de Registro de Preços.

Subcláusula Terceira. Compete à FORNECEDORA, além daquelas previstas no subitem 7.1 do TERMO DE REFERÊNCIA Nº 2.2025.DTIC.1525128.2025.001317, Anexo I:

a) Fornecer durante 12 (doze) meses, a contar da publicação do extrato desta Ata na Imprensa Oficial, os itens relacionados na presente Ata, na forma e condições fixadas no Edital e na proposta, mediante autorização e Nota de Empenho, devidamente assinada pelo responsável, em conformidade com o

Edital e demais informações constantes da Licitação de Registro de Preços.

b) Retirar a Nota de Empenho no prazo de até 05 (cinco) dias úteis, contados da intimação para recebimento, nos termos do Edital, parte integrante desta Ata de Registro de Preços.

c) Entregar os materiais no local previsto no instrumento convocatório, de acordo com os termos do Edital.

d) Providenciar a imediata correção das deficiências, falhas ou irregularidades constatadas pelos órgãos e entidades referentes à forma de fornecimento dos materiais e ao cumprimento das demais obrigações assumidas nesta Ata.

e) Em havendo necessidade, assente no que preceitua o art. 124, I, c/c Art. 125 da Lei Federal nº 14.133, de 1 de abril de 2.021, aceitar os acréscimos ou supressões nos quantitativos que se fizerem indispensáveis, sempre nas mesmas condições registradas.

f) Ressarcir os prejuízos causados ao Estado do Amazonas ou a terceiros, provocados por ineficiência ou irregularidade cometidas na execução das obrigações assumidas na presente Ata;

g) Cumprir as obrigações descritas no Edital e seus Anexos.

CLÁUSULA TREZE – DO CANCELAMENTO DA ATA E REGISTRO DE PREÇOS

Esta Ata de Registro de Preços poderá ser cancelada, de pleno direito:

I - Pela Administração, quando:

a) a detentora não cumprir as obrigações constantes desta Ata de Registro de Preços;

b) a detentora não assinar o contrato no prazo estabelecido e a Administração não aceitar sua justificativa;

c) a detentora der causa a rescisão administrativa de contrato decorrente de registro de preços;

d) em qualquer das hipóteses de inexecução total ou parcial de contrato decorrente do registro de preços;

e) os preços registrados se apresentarem superiores aos praticados no mercado;

f) por razões de interesse público devidamente demonstradas e justificadas pela Administração;

II - Pelas detentoras, quando, mediante solicitação por escrito, comprovarem estar impossibilitadas de cumprir as exigências desta Ata de Registro de Preços.

Subcláusula Primeira. A solicitação das detentoras para cancelamento dos preços registrados deverá ser dirigida ao FISCAL da Ata de Registro de Preços ou à COMISSÃO PEMANENTE DE LICITAÇÃO por meio do endereço eletrônico protocolo@mpam.mp.br.

Subcláusula Segunda. A comunicação do cancelamento do preço registrado, nos casos previstos neste documento e, a oportunização do contraditório e ampla defesa, serão feitos por correio eletrônico (preferencialmente) nos endereços de e-mails constantes da Proposta de Preços e SICAF ou por correspondência com aviso de recebimento ou, ainda, por meio de entrega pelo Setor de Transportes (no caso de empresa sediada no mesmo município da Contratante), juntando-se o comprovante aos autos que deram origem ao registro de preços.

Subcláusula Terceira. No caso de ser ignorado, incerto ou inacessível o endereço da detentora, a comunicação será feita por publicação na IMPRENSA OFICIAL, considerando-se cancelado o preço registrado após a publicação.

CLÁUSULA CATORZE - DA POSSIBILIDADE DE ADESÃO POR ÓGÃOS OU ENTIDADES NÃO PARTICIPANTES

Subcláusula Primeira. Esta Ata de Registro de Preços poderá, durante sua vigência, ser utilizada por outros órgãos ou entidades da Administração Pública que não tenham participado do processo licitatório, desde que:

a) exista solicitação formal do órgão ou entidade não participante;

b) haja anuência do órgão gerenciador e do fornecedor registrado quanto à possibilidade de atendimento da demanda adicional;

c) seja demonstrada, de forma justificada, a vantagem da adesão;

d) sejam observados os limites e condições previstos no edital e na legislação aplicável.

Subcláusula Segunda. A adesão dar-se-á em caráter **excepcional e pontual**, sendo **vedada sua utilização como instrumento de suprimento contínuo ao longo do exercício financeiro**, sob pena de descaracterização da finalidade do sistema de registro de preços.

Subcláusula Terceira. A contar da data da autorização formal para adesão, o órgão ou entidade solicitante disporá do prazo **improrrogável de 90 (noventa) dias corridos** para concluir o respectivo processo de contratação, com a formalização do instrumento contratual ou equivalente.

a) O não cumprimento do prazo referido nesta subclásula implicará a **automática perda do direito à adesão**, tornando sem efeito a autorização concedida e autorizando o órgão gerenciador a dispor dos quantitativos eventualmente reservados.

b) A reiteração de pedidos de adesão não concluídos no prazo estabelecido poderá ensejar o indeferimento de futuras solicitações do mesmo órgão ou entidade, sem prejuízo da comunicação aos órgãos de controle.

Subcláusula Quarta. As contratações decorrentes de adesão deverão observar integralmente as condições pactuadas nesta Ata de Registro de Preços, inclusive no que se refere a preços, prazos, especificações, obrigações, penalidades e vigência.

Subcláusula Quinta. O órgão ou entidade aderente será responsável pela condução do respectivo processo de contratação, pela execução contratual e pela aplicação de sanções administrativas, nos termos da legislação vigente.

Subcláusula Sexta. É vedada ao órgão ou entidade não participante a modificação unilateral das condições constantes nesta Ata, salvo nas hipóteses previstas em lei e com a concordância expressa do fornecedor.

CLÁUSULA QUINZE - DA AUTORIZAÇÃO PARA AQUISIÇÃO E EMISSÃO DAS ORDENS DE FORNECIMENTO

As aquisições do objeto da presente Ata de Registro de Preços serão autorizadas, caso a caso, pelo(a) Ordenador(a) de Despesas do **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS.**

Subcláusula Primeira. A emissão das autorizações de fornecimento, sua retificação ou cancelamento, total ou parcial serão igualmente autorizados pelo

órgão requisitante.

Subcláusula Segunda. Durante o prazo de validade do Registro de Preços, o **MINISTÉRIO PÚBLICO DO ESTADO DO AMAZONAS** poderá ou não contratar o objeto deste pregão;

CLÁUSULA DEZESSEIS – DAS DISPOSIÇÕES FINAIS E DO FORO:

Subcláusula Primeira: Integram esta Ata, o Edital do **Pregão Eletrônico n.º 94010/2025-CPL/MP/PGJ-SRP** e as propostas da Fornecedora.

Subcláusula Segunda: Durante a vigência da Ata de Registro de Preços, os preços deverão ser compatíveis com a conjuntura do mercado.

Subcláusula Terceira: Os pedidos de alteração de marcas e/ou modelo do objeto registrado deverão ser protocolados em até **5 (cinco) dias do recebimento da Nota de Empenho**, com a devida documentação comprobatória dos fatos alegados, sob pena de não apreciação dos pedidos por inépcia.

Subcláusula Quarta: Fica eleito o Foro da Cidade de Manaus/AM para dirimir quaisquer questões decorrentes da utilização da presente ata.

Subcláusula Quinta: Os casos omissos serão resolvidos de acordo com as disposições constantes do Ato n.º 008/2024/PGJ e da Lei 14.133/2021, e das demais normas legais aplicáveis.
